Assessment Cycle to Promote the Continuous Improvement of Student Learning

1: Identify & define program goals
2: Specify Intended student learning outcomes
3: Select assessment methods & tools
4: Gather, analyze, & interpret student learning evidence
5: Report findings & conclusions
6: Close-the-Loop by using the findings to implement changes to teaching strategies & curriculum
7: Review & revise the assessment plan & continue the cycle

We are Striving to Enhance and to Enrich our Students' Educational Experience
