PROGRESSIVE DISCIPLINE POLICY

Arkansas State University utilizes a progressive discipline policy. It is the goal of the University to use progressive steps in employee disciplinary matters except when immediate termination is warranted. The existence and use of a progressive discipline policy does not in any way alter the at-will status of employees. The employee's supervisor will administer any appropriate corrective or disciplinary action. Appropriate action will be determined based on factors such as severity, frequency, and degree of deviation from expectations and length of time involved. Because of the great variety of situations that may arise, the University may need to make decisions related to employment in a manner other than as provided in this section. Disciplinary actions may take place in several forms. The forms of disciplinary actions are Verbal Counseling, Written Counseling, Final Counseling, and Dismissal. Your Human Resources Department should be consulted when disciplinary action with an employee is necessary. The following outlines the four forms of disciplinary action.

Verbal Counseling

Verbal counseling sessions may take place between employees and supervisors in situations that are deemed less serious in nature. Every effort to determine and resolve the cause of the problem should be made. At the same time, however, it should be specifically stated that the employee is receiving a formal warning. Documentation of the verbal counseling should occur utilizing the Employee Counseling Form (available from the forms section of the Human Resources website). Copies of all documentation of verbal counseling should be distributed as follows: one copy to the employee, one copy to the department file, and one copy to your Human Resources Department for inclusion in the employee's personnel file.

Written Counseling

Written counseling sessions take place between a supervisor and an employee when the behavior of the employee is a repeated violation and verbal counseling has been administered, when the behavior hinders the operations of the department in which the employee works, or when the behavior hampers the progress of the University. Written warnings should be documented on an Employee Counseling Form. Copies of all written warnings should be distributed as follows: one copy to the employee, one copy to the department file, and one copy to your Human Resources Department for inclusion in the employee's personnel file.

Final Counseling

Final counseling is utilized when previous counseling has failed to produce the proper results. Final Counseling may also be utilized to address an initial incident or an incident that is too severe for a verbal or written warning yet not sufficiently severe for dismissal. Copies of all Final Counseling Forms should be distributed as follows: one copy to the employee, one copy to the department file, and one copy to your Human Resources Department for inclusion in the employee's personnel file.

Dismissals

Employment may be terminated after other disciplinary measures have failed or when a first time incident occurs that is extremely serious. An employee may be discharged at any time without regard to any progressive steps if he or she commits an offense for which immediate discharge is specified as a penalty or if, in the University's judgment, the employee's continued presence would be contrary to the well-being of the University or its employees. Your Human Resources Department should be consulted prior to the dismissal of an employee.

TERMINATIONS/RESIGNATIONS

The University strives to maintain good working conditions. Instances of personal or job dissatisfaction should be discussed with the supervisor and/or your Human Resources Department before the employee considers termination of employment. If an employee wishes to terminate employment with the University, two weeks' notice to the supervisor is requested, but not required. If an employee voluntarily terminates employment with proper notice and the employee's work record has been satisfactory, the employee may be considered for reemployment. Should it be necessary to eliminate a position because of a reduction in work force, reasonable efforts may be made to place the employee elsewhere in the university. Upon termination, resignation, retirement, death, or other action by which a person ceases to be an employee of the University, the amount due the employee or his/her estate from accrued annual leave shall be issued within 30 days of completing checkout process. This amount shall not exceed 240 hours or the balance in the employee's annual leave account, whichever is less. When an employee terminates and returns to the University within twenty (20) workdays, both sick and annual leave may be reinstated subject to the following:

1. An employee receiving lump sum payment for annual leave upon termination and who is subsequently rehired within twenty (20) workdays may "buy" back the annual leave by repaying the University for the number of days paid but not yet expired on or before the day of reemployment.

2. An employee who received a lump sum payment for annual leave and who elects not to "buy" back the annual leave may not be reemployed by the University until the number of workdays for which annual leave was paid has elapsed. If the period that the employee is out of state service exceeds the twenty (20) workdays limit, reemployment is to be treated as a rehire with subsequent loss of sick leave.

3. An employee rehired within six months after having been laid off due to budgetary reasons is entitled to restoration of accrued sick leave.

Health Risks Associated with the Abuse of Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation to alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome and other birth defects. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of addicted parents are at greater risk than other youngsters of becoming addicts.

Campus Walk Through

A regular walk through of campus with all necessary constituents (UPD, Facilities, Students, etc) to identify if there are areas of campus that need additional lighting or other safety measures.

Counseling Center

The Counseling Center provides confidential consultation and other services to the University Community as needed. The Counseling Center is encouraged to inform all potential victims of how to report a crime. They also provide group session and multiple programs throughout the year, including but not limited to:

- Alcohol Awareness Week—This annual event includes multiple events and passive programming that reaches out to student- s to make them aware of the dangers of alcohol abuse and educate on responsible use of alcohol. Past events have included: Drunk Driving Simulations, Speakers, parties, mocktails and other educational programming.
- T-Shirt Programming—This event utilizes the "Clothesline Project" format to display T-shirts that represent issues faced by college students in regards to alcohol. This display is done in the center of the Student Union.

Sexual Harassment and Misconduct

ASUJ is committed to creating a university community that is free from all forms of sexual harassment and misconduct. Toward this goal, a Sexual Harassment and Misconduct Policy has been established that includes procedures for resolving sexual harassment and misconduct complaints. Additional information about this policy can be obtained at www.astate.edu/a/affirmative-action/sexual-misconduct/.

University Police Department

A primary goal of ASUJ's Police Department is to prevent crime before it occurs. The department provides safety measures and regularly presents programs covering crime prevention topics such as the ones named and described on the following list.

- Emergency call boxes on the Jonesboro campus are located at multiple locations on campus; they are identified by their red color and blue light on top. These call boxes are available in an emergency requiring University Police.
- Officers or UPD employees will escort community members between various points on campus as needed. This service is provided when officers are available or when contacted.
- Self Defense classes are offered for women throughout the year to educate the community on how to protect oneself in case of an assault.
- UPD regularly trains staff in Residence Life on how to deal with various situations and when/how to get UPD assistance.
- UPD provides programming to classes and organizations upon request on alcohol awareness and safety. These programs can involve Drunk Driving Simulations and Active Shooter Safety Responses among others.

Sexual Harassment and Sexual Assault Information

Discrimination/Sexual Misconduct

Arkansas State University is committed to providing an educational and work environment for its students, faculty, and staff that is free from sexual discrimination including sexual harassment, sexual assault, sexual violence, stalking, domestic violence, and dating violence. No form of sexual discrimination will be tolerated.

Sexual Harassment is defined as unwelcome gender-based verbal or physical conduct that is severe, persistent or pervasive and occurs when:
Submission to, or toleration of, such conduct is made a term or condition of instruction, employment, or participation in other university activities;
Submission to, or rejection of, such conduct is used as a basis for employment or education decisions affecting the individual; or
Such conduct has the effect of unreasonably interfering with an individual's education or employment performance or creating an intimidating, hostile, or offensive university environment.

Sexual assault occurs when a person is subjected to an unwanted sexual act by force or threat without consent. Sexual acts occur without consent when they are perpetrated against a person's will or where a person is incapable of giving consent due to minority, intellectual impairment, or use of mind altering substances such as drugs or alcohol.

Sexual violence includes sexual assault but may also consist of an attempt to obtain a sexual act or sexual advances using coercion which do not result in a completed sexual act.

Stalking is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to (A) fear for his or her safety or the safety of others; or (B) suffer substantial emotional distress.

Domestic Violence is defined as felony or misdemeanor crimes of violence committed by a current or former spouse of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the State of Arkansas, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the State of Arkansas.

Dating Violence is defined as violence committed by a person (A) who is or has been in a social relationship of a romantic or intimate nature with the victim; and (B) where the existence of such a relationship shall be determined based on a consideration of the following factors: (i) the length of the relationship, (ii) the type of relationship, and (iii) the frequency of interaction between the persons involved in the relationship.

It is important to preserve all evidence of sexual discrimination, especially if the discrimination is also a criminal offense, such as sexual assault, sexual violence, stalking, domestic violence, or dating violence.

Supervisors and staff members must recognize that their positions necessarily embody unequal power relationships with their subordinates and students. Because of the inherent power differences in these relationships, the potential exists for the less powerful to perceive a coercive element in suggestions relative to activities outside those appropriate to the professional relationship. It is the responsibility of supervisors and staff members to behave in such a manner that their words or actions cannot reasonably be perceived as coercive.

Each campus has a Title IX Coordinator who is charged with investigating allegations of sexual discrimination including sexual harassment, sexual assault, sexual violence, stalking, domestic violence or dating violence. The person who has allegedly been subjected to sexual discrimination may also contact law enforcement and may seek an order of protection, no contact order, or similar order. The Title IX Coordinator will assist the person alleging to be subjected to sexual discrimination with locating resources for counseling, medical treatment, legal advice, victim advocacy, or other services.

Each campus within the Arkansas State University System provides educational materials and programs on sexual discrimination. Contact the Human Resources Department or Title IX Coordinator for information on awareness and prevention of sexual discrimination.

The University reserves the right to take whatever measures it deems necessary in response to an allegation of sexual discrimination in order to protect individuals' rights and personal safety. Such measures include, but are not limited to, modification of campus living or employment arrangements, interim suspensions from campus, no contact or communications requirements, leave with or without pay, and reporting the matter to law enforcement. Persons reporting allegations of sexual discrimination must follow the Sexual Discrimination Grievance Procedure.

RETALIATORY ACTION PROHIBITED

Retaliation against a person who files a charge of discrimination, participates in an investigation, or opposes an unlawful employment practice is prohibited by law and Arkansas State University. Any person who needs further explanation or who believes he or she has been retaliated against should contact the Human Resources Department.

Anyone who has experienced any form of discrimination including sexual misconduct is encouraged to report the incident promptly. All university employees (excluding licensed professionals in counseling services) must promptly report known incidents. All reports should be communicated to the Title IX Coordinator at equity@astate.edu or (870) 972-2015.

All reports, complaints, and investigations are treated with discretion. Information is revealed as law and policy permit; however, the identity of the complainant is usually revealed to the person(s) accused of such conduct and any witnesses with consent of the complainant. ASU strictly prohibits retaliation against any person for reporting, filing, testifying, assisting, or participating in any manner in any investigation or proceeding involving allegations of discrimination or misconduct. Publicizing information about alleged discrimination, misconduct, or retaliation is strictly prohibited and may be considered a violation of university policy. Any person who violates these policies will be subject to discipline, up to and including termination and/or expulsion.

The university reserves the right at any time to change, delete, or add provisions to this procedure. The full procedure posted on the webpage of the Office of Affirmative Action/Title IX Coordinator supersedes all previous versions - electronic or in print.

Policy for Preparing the Annual Disclosure of Crime Statistics

The Clery Report is compiled by the Office of Student Conduct at ASUJ. Crime and arrest statistics for ASU Jonesboro are compiled by ASUJ University Police. Conduct referral statistics for ASU J are provided by the Office of Student Conduct. Every attempt is made to ensure that the information provided is accurate.

Arkansas State University Campus Security Policy and Campus Crime Statistics

Introduction

Arkansas State University Jonesboro is a state-supported institution of higher education with an enrollment of over 14,000 students, and employs approximately 1,500 faculty and staff. ASUJ is committed to providing a safe learning, working, and living environment for each of its members, visitors and guests. In compliance with the Student Right-To-Know and Campus Security Act, the following report states the university's campus security policies, current security programs, and crime statistics. The intent of this report is to increase the readers' awareness of security issues and to assist in the decision-making process regarding personal safety. Each year, the university will disseminate this information to all current students and employees, and upon request, will be provided to any applicant for enrollment or employment.

Reporting of Criminal Actions and/or Emergencies and Response

University Police is responsible for law enforcement, security, and emergency response at Arkansas State University. The responsibilities emerge from Act 328 of the 1967 General Assembly of Arkansas. The department is to enforce all federal, state, and local laws of its jurisdiction. The University Police Department is accredited through the International Association of Campus Law Enforcement Officers. The University Police street officers are on duty around the clock, 365 days a year. Each officer meets the requirements of ACT 452 of 1975 of the state of Arkansas as a certified law enforcement officer. University Police will respond immediately to any report of criminal actions or other emergencies.

Police can be contacted 24 hours a day, seven days a week by calling (870) 972-2093 (off campus) or 2093 (on campus). The Jonesboro Police Department, Jonesboro Fire Department, and ambulance service can be reached by dialing 9-911 from any campus telephone or 911 from any off-campus phone.

Access to Campus Facilities

Administrative/Academic Buildings

Most campus buildings and facilities are accessible to members of the campus community, guests and visitors during normal hours of business, Monday through Friday, and for designated periods of time on special events and occasions. Buildings may close earlier when classes are not in session, during holidays, between semesters, and on weekends.

Residence Halls

In traditional residence halls unlimited access is available to residents only through a staffed central entrance to each building. The remaining exterior doors to all residence halls remain locked from the outside twenty-four (24) hours a day. In upper-classman housing visitation varies.

The entrance to Kays/University parking lot and the entrance to NPQ/RWD and CP are gate controlled. Only students residing in these complexes have access to the parking lots.

Residence Life's visitation hours as well as escort policies are established to ensure a safe environment. Visitation policies can be found in the student handbook at <http://www.astate.edu/a/student-conduct/student-standards/handbook-home.dot>

Fraternities and Sororities

Fraternity houses are located both on and off campus. Through an agreement with the Jonesboro Police Department and the University Police, both departments patrol the off-campus fraternity locations. Five Sorority Houses house students on campus. Five fraternities and three religious student groups recognized by the university maintain either a meeting or living facility on campus. Any reports related to criminal activity associated with campus groups on or off campus are shared with University Police. This information is then shared with the Division of Student Affairs.

Maintenance and Security of Campus Facilities

Arkansas State University maintains a strong commitment to the safety and security of the campus community. Motor vehicle parking lots, pedestrian walkways and building exteriors are well lighted. Surveys of exterior lights on campus are conducted on a periodic basis to determine the effectiveness of the lighting situation. Members of the campus community are encouraged to report any exterior lighting deficiencies to the City Police Department, University Police, or the Physical Plant Division. Campus lighting is monitored each night, and deficiencies are reported to the Physical Plant.

Exterior doors on campus buildings are locked and secured each evening, and rechecked two to three additional times each night. Unsecured doors are reported on a daily basis to the building supervisor, and door and security hardware operating deficiencies are also reported by the officers to the Physical Plant and to the building supervisor on a daily basis. University Police continuously check exterior doors to ensure that each door and its locking mechanism are functioning properly. Each door on campus is cataloged and numbered to ensure quick and accurate response.

Shrubbery, trees, and other vegetation on campus are trimmed as needed. Shrubbery and trees are routinely trimmed at a height consistent with the security and safety concerns of the university.

Parking lots and other areas of the campuses are actively patrolled.

Law Enforcement Authority and Interagency Relationships

University Police maintains a close working relationship with community law enforcement officers, county, state and federal law enforcement agencies. ASUJ's UPD are State Certified Officers. Regular meetings are held, both on a formal and informal basis, between these groups. Crime-related reports and data are routinely exchanged.

Accurate and Prompt Crime Reports

All students and employees are encouraged to accurately and promptly report all crimes to campus police. This can be done by calling 870-972-2093 and the dispatch officer will assist the caller in contacting the most appropriate officer. The importance of crime reports is emphasized at Security Awareness and Crime Prevention Programs, such as:

1. **Escort Service:** This service is provided by request through the University Police to help individuals. This service is provided when officers are available or when contacted.
2. **New Student Orientation:** Crime prevention brochures and other printed materials are made available to new students during orientation.
3. **Residence Hall Programming:** Crime prevention programming accompanied by brochures and other printed materials are made available to residence halls and other on-campus resident students including fraternities and sororities.
4. **Night Custodial Services:** The university's cleaning service is scheduled from 11:00 p.m. to 7:00 a.m. for academic and administrative buildings. These employees are advised to report any suspicious or criminal activity to the University Police.
5. **Crime Prevention Presentation:** Crime prevention presentations are made annually to various campus groups and organizations. Crime prevention presentations are made available to the Division of Student Affairs, University Police, and to the campus community by consultants and presenters from outside the local community.
6. **New Employee Orientation:** Crime prevention information and other printed materials are available to employees at new employee orientations.
7. **Printed Crime Prevention Materials:** Brochures, posters, and bookmarks related to motor vehicle security, bicycle security, personal security, and residence hall security are distributed at crime prevention presentations and at various locations throughout the university's campus.
8. **Operation Identification:** The engraving of serial numbers or owner recognized numbers on items of value is provided through the University Police. This service is provided to students and employees.
9. **Security Surveys:** Comprehensive security surveys and audits are made for a number of campus facilities each year.
10. **Facilities Surveys:** Continuous surveys of exterior lighting, exterior doors and grounds are conducted by the University Police and the Physical Plant on a continuous basis.
11. **Special Surveillance:** Isolated surveillance provides great assistance in crime prevention. These activities are conducted in areas in which the frequency of crime has increased.
12. **Rape Awareness, Education, and Prevention:** In cooperation with the Counseling Center, fraternities, sororities, and other student organizations, numerous rape awareness, education, and prevention presentations are made each year to members of the campus community.

CRIME REPORTING

1. **Monthly/Annual Reports:** Comprehensive monthly/annual reports of crime-related information are compiled. These reports assist the university in monitoring and upgrading security measures.
2. **Special Alerts:** If circumstances warrant it, special printed crime alerts are prepared and distributed throughout campus.
3. **Incident Reporting:** Crime-related incidents are reported daily to the Student Affairs office with a view toward immediate corrective action.
4. **Media:** A crime report is made available to the student newspaper, The Herald, on the Jonesboro campus on a weekly basis.

Monitoring and Recording of Crimes at Off Campus Locations of Student Organizations

Crimes occurring at off-campus locations of student organizations recognized by the university are reported to local law enforcement agencies and to the University Police. As soon as practical, following any such incident, a copy of the incident report is obtained from the local law enforcement agency by the University Police. Immediate attention is given to each of these incidents.

Timely Notification Policy

In the event of a major crime incident or other emergency situation occurring on the Arkansas State University-Jonesboro campus or the surrounding area that poses a serious or continuing threat to the campus community, the Chief of University Police, or his/her designees, will evaluate the circumstances and determine the need and manner for alerting the campus community.

The mode of notification will vary depending on the particular circumstances of the crime or other emergency. One or more of the following communication tools will be used to notify students, faculty and staff:

- Text message through the emergency alert system
- Messages on Telephones through the Cisco Phone System
- Alerts on the ASU Website
- Signage placed in and around buildings
- Emails to ASU email addresses
- Messages via the Computer Network
- Announcement via Emergency Alert Systems in Buildings where available
- Media alerts

If a problem appears to be confined to a building or group of buildings, notification will generally occur through posting flyers in the affected area. If the buildings identified in this case are residential, Residence Life Staff may notify their students through hall meetings or word of mouth in addition to the postings.

Missing Student Procedure

Rationale

In accordance with Section 485 of the Higher Education Act (HEA), every institution of higher education that provides on-campus housing must implement a missing student notification procedure for those students residing in on-campus housing.

Procedure for Informing Students

As part of the electronic application process, students will designate a confidential contact to be reached in the event the student is considered to be missing. Students may, at any time, change this information on-line. If the student is under the age of 18 and is not an emancipated minor, the confidential contact must be the student's parent or legal guardian. Students 18 years and older may designate the contact of their choice. During the first floor meeting of the fall semester or as part of the check-in process, Resident Assistants (RAs) will review the Missing Student Procedure with new students. During the first week of the spring semester, the RA will meet with all new students to review the Missing Student Procedure.

Procedure for Determining if a Student is Missing

For purposes of this procedure, a University residence student may be considered to be a "missing student" if the person's absence is contrary to his/her usual pattern of behavior without explanation. For example, a student who typically stays on campus during weekends should not be considered missing if he/she has informed others of a weekend trip off campus. However, the unexplained absence of a student expected to be on campus triggers the Missing Student Procedure. Any person believing that a student is missing should report to Residence Life.

If a student is reported missing to a Residence Life staff member, the staff member should be sure to obtain the reporting person's name, relationship to the student, and contact information where the reporting person can be reliably reached. The staff member should obtain local directory information about the missing student and immediately notify the missing student's residence hall director or the staff member on call.

The Hall Director/Area Coordinator should refer to the Reported Missing Student Checklist and contact the reporting person to obtain the additional information needed. **If the Hall Director/Area Coordinator determines at any point there is a credible threat to the well-being of the student reported as missing, the Hall Director/Area Coordinator should call University Police and make a report to supervisory staff.** The Hall Director/Area Coordinator should then proceed to contact known student friends/relationships, beginning with roommates/suitemates, and the missing student's Resident Assistant. The Hall Director should also use direct and indirect methods of leaving messages for the student to make contact immediately. The purpose at this point is to determine if the student is truly missing or has simply failed to make the desired contact with the reporting person. If the student is located or is determined not to be missing, the student should be advised to contact the reporting person. The Hall Director/Area Coordinator may also contact the reporting person and relay that the student is not missing and has been asked to contact the reporting person.

If pursuing known contacts has not resulted in locating the student, the Hall Director should contact the Director of Residence Life, the Assistant Vice Chancellor for Student Affairs or the Office of the Vice Chancellor for Student Affairs, reporting all obtained information, and follow verbal notification with a *Residence Life Incident Report* (IR). The contacted individuals may then authorize one or more of the following measures to determine recent activity by the student reported as missing:

- Building card reader access report
- Meal plan access report
- Class attendance
- Social Networking activity on sites such as Facebook
- In-plain-sight examination of room to see signs of recent use or planned departure
- Location of vehicle

If the results of these activity measures suggest that the student is indeed missing and unaccounted for, the contacted individual will file a police report with University Police to request law enforcement investigation. All information obtained about the missing student through investigation should be shared with the University Police.

If University Police determine that a student for whom a missing person report has been filed has been missing for more than 24 hours, then within the next 24 hours, they must:

- Notify the individual identified by the student to be contacted in this circumstance
- If the student is under 18 years old, notify a parent or guardian
- Notify regional law enforcement
- Contact area hospitals and local detention facilities
- Send e-mail to students, faculty and staff that student is missing with pertinent information and photograph if available

University Communication of a Missing Student

In cases involving missing student residents, all inquiries by media or the public regarding missing student residents shall be referred to University Relations. All public statements will be coordinated through University Relations.

Adapted from Missouri State University and University of Minnesota – Duluth 6/1/10

Withdrawal From the University

Students may withdraw from the university using Self-Service at any time during the scheduled registration periods. Students withdrawing from the university after Sunday of the first full week of classes in a Fall or Spring semester or Friday of the first week of classes in a five-week Summer term must obtain an Application for Withdrawal from the [Advisement Services Office](#) located in the Wilson Advisement Center.

Students receiving Financial Aid must obtain an approval signature from the Financial Aid Office. The withdrawal process is complete when the form is accepted and signed by Advisement Services in the Wilson Center for Academic Advisement. This process must be completed two weeks prior to the first day of final examinations during Fall and Spring semesters. Academic Affairs will identify appropriate deadlines for other semesters (Interims, Summer, Half Sessions).

Grades earned in courses completed prior to official withdrawal from the university (i.e., short courses) will not be affected by that withdrawal. Classes that have been withdrawn will remain on the student's transcript with a "W" grade for withdrawal. Once the withdrawal process is complete, the classes withdrawn will not affect the student's GPA.

Students who cease to attend classes without processing an official withdrawal or who do not complete the withdrawal process will automatically receive an "F" in all courses in which they were enrolled.

Student Records and Privacy Policy

1. Purpose

Arkansas State University will comply with the Family Educational Rights and Privacy Act (FERPA).

2. Definitions

Arkansas State University. Arkansas State University (ASU) means all the campuses within the Arkansas State University System, now and in the future.

Student. Student means an individual who attends or has attended classes at ASU. This policy does not apply to the records of applicants for admission who are not accepted to ASU nor does it apply to applicants who are accepted but choose not to attend ASU.

Education Record. Education records are those records, files, documents, and other materials which contain information directly related to a student and are maintained by ASU or a person acting for ASU.

Directory Information. Directory Information is designated to be the student's name; local and permanent physical addresses; electronic mail addresses; telephone listings; photographs and electronic images; date and place of birth; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received; and the most recent previous educational agency or institution attended by the student.

3. Arkansas State University Family Educational Rights and Privacy Act Policy

The Family Educational Rights and Privacy Act requires that institutions of higher education strictly protect the privacy rights of all students who are or who have been in attendance. Information contained in the student's education records can be shared only with those persons or entities specified within the Act. The law also provides that students have the right to review their education records for the purpose of making any necessary corrections. The Office of the Registrar maintains a copy of the full text of FERPA, posts electronic information on FERPA, and processes all FERPA requests and challenges. Arkansas State University will utilize the following process to implement the provisions of the Family Educational Rights and Privacy Act.

4. Process

A. Disclosure of Education Records

I. Disclosure With Student Consent. A student may consent in writing to disclosure of education records. The student's written consent must be signed, dated, and specify which records are to be disclosed, to whom, and for what purpose. The consent must be delivered to the office of the Registrar. The student may retract the consent in writing at any time. Proper proof of identity may be required by the Registrar's office before consent is retracted.

II. Disclosure Without Student Consent. ASU may disclose education records without the student's written consent to any school official within the institution with a legitimate educational interest. School officials include administrators, supervisors, faculty members, instructors, support staff, members of the Board of Trustees, persons with whom ASU has contracted for special tasks, and university committee members. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. School officials of ASU are considered to be within the institution for the purposes of FERPA and may exchange education records without student consent so long as they have a legitimate educational interest.

Disclosure without student consent may also be made to other persons and entities as allowed by FERPA.

Faculty sponsors of registered honor societies may have access to student education records for the sole purpose of determining eligibility for membership on the basis that they are acting in an official university capacity that is integral to the educational function of ASU.

The parents of students may exercise rights under FERPA if the student is claimed as a dependent by the parents for income tax purposes. Dependency must be proven by submission of a copy of income tax returns.

B. Disclosure of Directory Information

Directory information may be disclosed to any person or entity without student consent unless the student submits a completed request for non-disclosure of directory information form to the Office of the Registrar. If a student elects not to allow disclosure of directory information, ASU cannot share information regarding the student with any person or entity including prospective employers, licensing agencies, government agencies, the media, and others. The student may retract the directory information non-disclosure in writing at any time. Proper proof of identity may be required by the Registrar's office before the directory information non-disclosure is retracted.

C. Inspection, Review, and Correction of Education Records

Students have the right to inspect and review their education records except for specific exclusions contained within the Family Educational Rights and Privacy Act. A student should contact the Office of the Registrar to arrange for inspection, review, and correction of an education record. The Registrar may charge a fee for copies of any education records.

D. Ownership of Education Records

Education records are the property of ASU. Education records, including transcripts and diplomas, will not be released to any student who has a delinquent financial obligation to the University.

Non Academic Student Conduct Records Retention

Non-Academic Student Conduct Records will be maintained for seven years from the date of the last case resolution or two years post graduation, whichever comes later. Any student record with an outstanding sanction, suspension or dismissal will be kept indefinitely.

External Release

External release of records will occur in accordance with federal and state law.
