

Graduate Program in Molecular Biosciences Comprehensive Examination Intent Form

In consultation with your advisor and advisory committee you should select three courses in which you will take the comprehensive examination. You have to contact the respective faculty members to administer the exam. This form must be completed and submitted at least **14 days before the exam.**

If a re-examination is required this form must be resubmitted.

I hereby declare my intention to take the comprehensive examination for a Master of Science degree in Molecular Biosciences
