Note: Your participation in this degree program is dependent upon your knowledge of and compliance with the information contained within this Handbook. It is critical that you read and understand the information contained in this document. A number of the documents appearing in the Appendices require your signature to verify that you have been provided copies of pertinent information. The form found in Appendix J should be signed and submitted to your academic advisor as required documentation in your advising file. Your signature is an acknowledgement of your understanding of the contents of the Handbook in its entirety.

Revised: January 13, 2011

Undergraduate Students
Department of Communication Disorders
Arkansas State University - Jonesboro
State University, AR 72467

Dear Students:

On behalf of the Communication Disorders faculty at Arkansas State University, welcome to the Department of Communication Disorders. We are pleased that you have selected Communication Disorders (CD) as your major and look forward to your participation in our Bachelor’s Degree program. You should know that the demand for competent speech-language pathologists remains high and that the graduates of our Master in Communication Disorders (MCD) program are in great demand by employers in a number of service delivery settings.

The past several years have brought many changes to the profession of speech-language pathology and the faculty and staff at ASU have spent considerable time and energy molding our curriculum to meet the needs of tomorrow's speech-language pathologist. The undergraduate Bachelor of Science (BS) degree is a pre-professional degree (like pre-law or pre-med) and as such should be considered as the first step on a ladder that will eventually lead to a rewarding career as a speech-language pathologist.

This CD Undergraduate Program Handbook should assist you in navigating your way through the undergraduate degree program. However, experience has taught us that questions and problems will arise. Your advisor will be a valuable asset as you progress through the program. Since advising is mandatory for registration in this program, you will be required to maintain close contact with your advisor.

Again, welcome to the program! The CD faculty and I wish you every success and will make ourselves available to assist you in any way possible. Should you have questions of me, my door is always open.

Best wishes,

Richard A. Neeley, Ph.D., CCC-SLP
Professor and Chair
Department of Communication Disorders
I. PREFACE

The *ASU Undergraduate Bulletin* and the *ASU Student Handbook* are the primary resources of information for the student concerning all types of student activities and academic programs. This *Handbook* is a supplemental aid to the Communication Disorders student and does not replace or preempt the *ASU Undergraduate Bulletin* or the *ASU Student Handbook*. The student is responsible for being informed about academic requirements, both general and specific, for the completion of a degree program. Your CD faculty advisor is conveniently available for advice, guidance, and consultation.

II. FACULTY

Mrs. Merrill Catt, MSP, CCC-SLP
Assistant Professor
DRC 211C
972-3106
mcatt@astate.edu
Mrs. Catt joined the CD faculty in 2007 as a clinical supervisor after a distinguished career as a public school Speech-Language Pathologist. She continues to provide clinical supervision and teach undergraduate courses in the department.

William Hinkle, Ph.D., CCC-SLP
Assistant Professor
DRC 211B
972-3106
whinkle@astate.edu
In 2009, Dr. Hinkle was employed as a CD faculty member. He teaches both graduate and undergraduate courses in the curriculum. His Ph.D. is from Purdue University and he has enjoyed an extensive and distinguished career in higher education and private practice as a Speech-Language Pathologist.

Sherri Lovelace, Ph.D., CCC-SLP
Associate Professor
DRC 211E
972-3106
slovelace@astate.edu
Dr. Lovelace received her Ph.D. in Rehabilitation Sciences at the University of Kentucky where she focused her study in the area of articulation/phonological disorders. Dr. Lovelace joined the CD faculty in the fall of 2001.

Mike McDaniel, Ph.D., CCC-A,
Professor
DRC 211G
972-3106
dmcdan@astate.edu
Dr. McDaniel received his terminal degree in audiology from Memphis State University. His area of specialty is in audiology and he has been employed at ASU since 1989.
Richard A. Neeley, Ph.D., CCC-SLP
Professor and Chair
DRC 211A
972-3106
rneele@astate.edu
Dr. Neeley received his terminal degree in speech and hearing science from the University of Tennessee. His area of specialty is child language development and disorders and he has been employed at ASU since the fall term of 1987.

Arianne Pait, M.A., CCC-SLP
Assistant Professor
CNHP 411
972-3106
apait@astate.edu
Mrs. Pait received her masters degree in communication disorders from the University of North Carolina at Greensboro. Mrs. Pait joined the faculty in the fall term of 2002.

Tisha Pierce, M.C.D., CCC-SLP
Assistant Professor
DRC 211J
972-3106
tpierce@astate.edu
Ms. Pierce specializes in craniofacial anomalies and fluency disorders at the undergraduate level and clinical supervision at the graduate level. She has been employed at ASU on a full-time basis since 2000.

III. INTRODUCTION

The Department of Communication Disorders (CD) at Arkansas State University-Jonesboro (ASU-J) is located in the College of Nursing and Health Professions (CNHP). Since July 10th, 2009, the Department has been housed on the second floor of the Donald W. Reynolds Center for Health Sciences adjacent to Eugene Smith Hall on the ASU campus.

Policy Regarding Equitable Provision of Clinical Services

Arkansas State University is an Equal Opportunity/Affirmative Action institution and, thereby, complies with all applicable federal and state legislation regarding employment practices and admission/treatment of students without regard to race, color, religion, age, disability, gender, national origin, participation restriction, sexual orientation, veteran status, or status as a parent. As a single point-of-service entity within Arkansas State University, the Arkansas State University Speech and Hearing Center complies with all state and federal equal opportunity legislation in the provision of prevention, screening, diagnostic, and therapy services to all client populations served in the Center. Questions about this policy should be addressed to the Affirmative Action Program Coordinator, P.O. Box 1500, State University, Arkansas 72467, phone (870) 972-3658.

The Department offers two degree plans. The first of these degree plans is the Undergraduate Program in Communication Disorders (UPCD), which is outlined in this Handbook and leads to a Bachelor of Science (BS) in Communication Disorders degree. The second degree plan is for the Graduate Program in Communication Disorders (GPCD) which offers the Master in
Communication Disorders (MCD) degree and is explained in detail in the CD Graduate Program Handbook and the ASU Graduate Bulletin.

The BS in Communication Disorders is a pre-professional degree program, which has been designed to prepare students for graduate work in communication disorders and does not lead to any type of certification. The course of study for the BS is comprised of general education requirements, professional requirements, CD Program requirements, and practicum experience requirements. The necessary credentials required of speech-language pathologists for professional practice in Arkansas and most other states are state licensure and the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP). The CCC-SLP is issued by the American Speech-Language-Hearing Association (ASHA). Most often, the academic and practicum requirements for earning the CCC-SLP are identical, or at least very similar, to the requirements for state licensure.

In order to earn the CCC-SLP a student must successfully accomplish three tasks. The first of these tasks is earning a graduate degree from a university program that is accredited by the Council for Academic Accreditation (CAA). This accreditation implies that students will demonstrate the appropriate Knowledge and Skills Acquisition (KASA) through academic and clinical experiences necessary to earn the Certificate of Clinical Competence. The second task involves earning a score of at least 600 on the specialty area examination in Speech-Language Pathology of the Praxis Series regulated by the Educational Testing Service (ETS). The final task involves completing a Clinical Fellowship (CF), which consists of at least nine (9) months of paid, professional experience under the direct supervision of a certified professional following the completion of the graduate degree. The previously mentioned ASU UPCD requirements have been adopted to partially fulfill the requirements for the CCC-SLP.

All students majoring in Communication Disorders at the undergraduate level must be screened into the UPCD prior to enrollment in most 3000 and 4000 level CD courses. These academic and clinical screening requirements are detailed below in Section VIII.

All students in both the UPCD and GPCD are encouraged to join and participate in the National Student Speech-Language-Hearing Association (NSSLHA). NSSLHA is the pre-professional division of ASHA. Members of NSSLHA receive selected journals published by ASHA and qualify for reduced dues and fees upon initial certification.

IV. ADVISING

A. Advisor

All students enrolled at ASU are assigned an academic advisor. Any student majoring in CD will be assigned an advisor from within the faculty of the Department of Communication Disorders. Mandatory advising for all majors is required in order to release academic holds for registration each semester. Advising must be completed during the appropriate time period prior to registration. Registration for all practicum experiences requires a registration permit, issued by your advisor during your advising session. In addition, all students registering for practicum experiences must file the appropriate scheduling form with the Director of the Arkansas State University Speech and Hearing Center. Students must assume the responsibility to read and become knowledgeable regarding the appropriate ASU Undergraduate Bulletin to be used in planning their program of study. Academic advisors will assist students in understanding the UPCD requirements. Advisors
will have advising/office hours posted outside their offices and be conveniently available for student advisee appointments.

B. Advising File

Advisors will maintain an advising file for all students they advise. The file will contain change of major forms (if appropriate), student contact logs, grade reports or unofficial transcripts from Banner, periodically updated program checksheets, verification of observation clock-hours forms, Department of Communication Disorders admission notifications and other pertinent information that may assist the advisor in guiding the student through the program of study. Students are encouraged to keep duplicate copies of important items contained in the advising file. Advising files can be electronic, hard copy, or some combination of the two. The primary focus of an advising file is to provide the advisor and the student with accurate and accessible information for planning and monitoring student progress toward the degree.

All inactive student advising files for UPCD majors (regardless of whether they complete undergraduate degree requirements) will be maintained in the departmental office. Advising files for UPCD students that complete the BS degree and are admitted to the ASU GPCD will be combined with the graduate advising file and, following completion of the MCD degree, will remain in perpetuity within the CD Office.

C. Checksheet

By keeping a current and accurate advising checksheet, UPCD students and advisors know precisely which courses are needed to complete degree requirements and can, with some certainty, predict graduation dates. The current BS in CD degree checksheet is enclosed as Appendix A of this Handbook. Each checksheet will show an ASU Undergraduate Bulletin year and will reflect UPCD degree requirements for that stated bulletin. The checksheet contains a list of all required courses (including general education options) for the BS degree. Coursework requirements are organized on the checksheet by course level (i.e., freshman, sophomore, etc.) and the suggested semester rotation for enrolling in the course. In addition, course work and program admission prerequisites are shown on the checksheet. Careful attention should be given to the course level, the semester of the offering and prerequisites as some courses may only be offered once during a calendar year. Disregarding advisement, failure to complete prerequisite coursework and/or errors in registering may lead to delays in graduation.

D. Prerequisites

Some courses, both in CD and other disciplines, require a knowledge base that is only gained in lower-level courses. For this reason, most UPCD 3000 and 4000 (i.e., junior and senior) level CD courses will require prerequisite course work prior to enrollment. Also, admission to the UPCD is a prerequisite for most of the same upper level courses.

In the event that UPCD students enroll in courses for which they do not have the necessary prerequisites, those students will be required to drop the courses until all prerequisites are completed.

E. Student Responsibility

As stated above and elsewhere, it is the responsibility of UPCD students to carefully read the ASU Undergraduate Bulletin, CD Handbook and the BS in CD requirements. Students will
be held accountable to and responsible for the policies and procedures of the Department of Communication Disorders.

Students are responsible for meeting requirements and deadlines for screening in to the UPCD. These requirements are presented in Section VIII. Failure to meet these requirements and deadlines can result in a failure to graduate in a timely fashion.

V. REGISTRATION

ASU registration is accomplished by accessing the University’s on-line registration services, Banner Self-Service/In Astate. Students are advised to familiarize themselves with this process and
the timelines associated with registration based on student classification prior to attempting to register. As mentioned earlier, a student will always have an advising hold on their student account, it is merely waived by their assigned advisor each semester.

Students will register for CD practicum experiences in the same manner used to register for academic coursework, however, a permit must be issued by the academic advisor and noted on the advisement hold waiver form. The permit is issued by the departmental support staff at the time the advisement hold is waived for registration. The Banner system will email the student notifying the permit has been issued. The student may then proceed with registration.

Students needing assistance with registration should contact the ASU Office of the Registrar or their advisor.

VI. TRANSFER CREDIT POLICY

Students who present transcripts of college credit from other accredited institutions may receive credit toward a degree in accordance with the policy set forth in the current ASU Undergraduate Bulletin. Faculty advisors and members of the Registrar’s staff will have access to proposed transfer credit using the University’s official “Web-Extender” software. Faculty advisors will determine whether transfer credit will be awarded for ASU course credit using “Web Extender.” In the event that the advisor is unable to make such a determination based on the information provided through Web Extender, the student may be asked to supply a course description or syllabus for each course in question.

VII. ATTENDANCE POLICY

Regular class and clinical attendance is expected of all students in accordance with the policy set forth in both the current academic year ASU Undergraduate Bulletin (please refer to the "Academic Policies and Regulations" section) and the ASU Student Handbook. Students are responsible for making arrangements for missed assignments, laboratory, clinical assignments, or tests with the faculty coordinating the activity. When possible, arrangements should be made prior to the absence.

The faculty member or instructors coordinating the activity determines the policy regarding make-up work and examinations for absences. Absences and tardiness interfere with meeting course objectives. Consequently, excessive absenteeism and tardiness may be reflected in the evaluation of a student's ability to meet objectives and may serve as cause for the student's record to be reviewed. Instructors will set forth at the beginning of each semester their expectations with regard to absenteeism and tardiness as well as their make-up policies for work and exams missed, class participation, and other factors that may negatively impact grades. This information will be provided or outlined in class handouts and course syllabi.
Students enrolled in CD practicum experiences are obliged to adhere to the absentee and tardiness policies of the ASU Speech and Hearing Center as detailed in the *Communication Disorders Clinic Handbook*.

**VIII. ADMISSION TO THE UNDERGRADUATE PROGRAM IN CD**

Arkansas State University and the Department of Communication Disorders offer equal educational opportunity to all persons without regard to race, religion, gender, age, creed, color, national origin, sexual orientation, or physical disability. Students who meet CD undergraduate admission criteria are admitted to the undergraduate program of study without hesitation.

Communication disorders majors must be admitted to the Undergraduate Program in Communication Disorders (UPCD) in order to be enrolled in most upper (i.e., 3000 and 4000) level CD courses. The requirements for admission to the UPCD are as follows:

A. Minimum of 30 earned semester credit hours
B. Overall GPA of 2.75
C. Earned grade of "C" or better in
   1. ENG 1003 Freshmen English I
   2. ENG 1013 Freshmen English II
   3. SCOM 1003 Oral Communication
   4. MATH 1023 College Algebra
D. A GPA of 3.1 or higher for the following prescribed courses
   1. PSY 2513 Introduction to Psychology
   2. BIO 2203 Human Anatomy and Physiology I
   3. BIO 2201 Human Anatomy and Physiology I Lab
   4. CD 2653 Introduction to CD
   5. CD 2104 Anatomy and Physiology of Communication
   6. CD 2203 Phonetics
   7. PHSC 1203/1 Physical Science/Lab (options available upon approval, see your advisor)
E. Complete a speech and hearing screening
F. 10 clock hours of assigned and documented observations

Upon completion of the above, the advisor will forward a completed *Application for Admission into the Undergraduate Program in Communication Disorders* to the Department Chair indicating the student has completed the requirements. The Department Chair will, in turn, notify the student in writing of his or her admission into the UPCD.

*Note: Admission into the UPCD in NO way implies, guarantees or suggests that a student will be admitted to the graduate CD program.*

**IX. NON-DEGREE SEEKING STUDENTS**

Students with undergraduate degrees in other disciplines that wish to prepare themselves for graduate study in CD are not subject to the same UPCD admission requirements as degree seeking students. The CD Admissions and Credits Committee will, in consultation with the student’s advisor, review each application from non-degree seeking students to avoid duplication of course work and content.
X. ADMISSION TO THE ASU GRADUATE PROGRAM IN COMMUNICATION DISORDERS

Beginning in the fall semester of 1998 the Graduate Program in CD (GPCD) changed to a once-per-year admission period. The application deadline is February 15th for admission in the first summer term following.

Admission to the GPCD will continue to be awarded on a competitive, space-available basis. The application procedure is detailed at the following web address: http://www2.astate.edu/a/conhp/communication-disorders/cd-majors/cd-mcd-apply.dot

Appendix B

CNHP SUBSTANCE ABUSE POLICY AND PROCEDURES
POLICY
The College of Nursing and Health Professions recognizes its responsibility to provide a healthy environment within which students may learn and prepare themselves to become members of a health occupation. Within each profession there are codes and standards for conduct by which all members of the profession are expected to function. Thus, when engaged in educational activities whether on campus or in the clinical setting health professionals are expected to be free from the abusive influence of chemical substances/drugs. Reference: Reiss, B. & Melick M. (1987). Pharmacological Aspects of Nursing Care (2nd Ed.). Albany, NY: Delmar Publishers, pp. 2, 627, 631-633. When students are under the influence of drugs and alcohol, they present a threat to patients, other students and the employees and visitors of clinical facilities. It is the responsibility of the student to report any medication/s taken which would adversely affect their ability to perform safely in class or clinic. Written documentation will be required for verification of medications taken and will be placed in the student's file. As a condition of admittance and retention in any professional program in the Arkansas State University College of Nursing and Health Professions all students must sign a SUBSTANCE ABUSE COMPLIANCE CONTRACT agreeing to adhere to the Substance Abuse Policy & Procedures when conducting any activity associated with their educational program. As the contract notes, it is inclusive of testing for substances and appropriate release of that information.

PROCEDURES
If a student demonstrates behavioral changes associated with substance abuse (see attached list) while engaged in course activities, the following procedures will be enforced:

1. The first time the student is observed exhibiting behaviors that are linked to or associated with substance abuse (see attached list), the student will be approached by a faculty member or a person who is designated to provide supervision. Prior to the approach, an assessment of the situation is indicated and a second observer should be asked to verify the behavior. The purpose of this encounter is multifaceted. It openly allows recognition that such behaviors have been observed. It also creates the opportunity for the student to pursue behavior modification as an option that is non-punitive and preserves self-direction. During the encounter, the student will be informed about and required to seek evaluation by the Counseling Services Center at Arkansas State University. If the behaviors are observed in a clinical setting, the student will be removed from participation in activities and asked to leave the environment. An absence for the day will be recorded. Written documentation that the student was confronted and informed about the Counseling Center is to be signed by the student and faculty. A copy will be forwarded to the Department Chair/Program Director and retained in the student's cumulative file during the time he/she is enrolled as a professional student in the Arkansas State University College of Nursing and Health Professions. A copy will be forwarded to the ASU Counseling Center. The Center will provide a written evaluation with treatment recommendation to the student, and to the Department Chair/Program Director. If the student, upon reviewing the Center's recommendations, declines to allow them to be released to the Department Chair/Program Director, the student will be required to seek a Psychological or Psychiatric evaluation (from a Licensed Physician [Psychiatrist] or Psychologist), and submit the results and recommendations to the Department Chair/Program Director. The student will be expected to comply with ALL recommendations, and allow release of records attesting to his or her compliance and improvement.

1 The generic meaning of the term "drug" is broadly defined as any chemical substance which affects living systems. For the purposes of this policy, substance and/or drug abuse are used interchangeably and defined as socially unacceptable use of drugs or other chemical substances for non-therapeutic purposes. The substance alcohol, (ethanol) by its properties and actions, is a drug and is used as such in this policy. Drugs prescribed by a physician licensed to practice medicine and surgery, as long as the drug is taken in accordance with the provider's instructions and do not impair the student's ability to perform his/her duties, are exempted from this policy.
2. Due to the level of accountability health professionals have for their action toward others, the second time behaviors are observed and verified by a second observer, the student will immediately be asked to submit to body fluid testing for substances at a lab designated by the College of Nursing and Health Professions who have identified procedures for collection (see attached). The cost of the test will be borne by the student. Refusal to submit for testing warrants immediate program dismissal.

At the time the specimen is released to the testing lab, the student will sign a release statement requesting that the test results be sent to the Dean's Office, College of Nursing and Health Professions, and to the student. If the results are negative, no further action will be taken and the student will only be allowed to make up work missed. If the results are positive (and substantiated by a second or confirmation test), the student will be dismissed from the professional program. Laboratory results will only be disclosed to individuals whose duties necessitate review of the test results and confidentiality will be adhered to as stringently as possible.

3. Readmission of the student to the program is contingent upon the following conditions:
   a. Formal application for readmission to the program.
   b. Meeting specific program admission criteria as noted in the Undergraduate/Graduate Bulletin.
   c. Clinical space availability.
   d. Documentation that a prescribed treatment program has been completed by the student related to the drug/alcohol condition. The documentation is to be submitted to the Dean's Office, College of Nursing and Health Professions by the designated treatment facility.
   e. Follow-up program as suggested by the treatment facility which may include, but is not limited to, one or more relapse prevention procedures. The follow-up program will be individual specific and written as part of a contractual agreement with the student.

4. Arkansas State University may be required by state or national regulatory boards to submit information regarding a student's substance abuse history when he/she applies to take the examination for licensure. There is no guarantee that these boards will allow individuals with a substance abuse history to take the examination. Each board judges each case individually.

5. Students will be required to abide by individual institutional policies relating to substance abuse in clinical agencies to which they are assigned.
SUBSTANCE ABUSE COMPLIANCE CONTRACT

COLLEGE OF NURSING AND HEALTH PROFESSIONS
ARKANSAS STATE UNIVERSITY

I, ________________________________, have read the Board of Trustee approved *Substance Abuse Policy & Procedures* of the Arkansas State University College of Nursing and Health Professions and agree, as a student in the professional health program, to comply with all aspects of the policy as written, including testing for substances and appropriate release of that information. Furthermore, I agree to abide by the provisions for determining dismissal and to follow the conditions of readmission as outlined.

____________________________________
Student’s Name (Please Print)

____________________________________
Student’s Signature

____________________________________
Date

*Note: Student please make a copy for your personal file and submit the original to your advisor to be placed in your advising folder.*
The College of Nursing and Health Professions has developed the following list of behaviors that are not all inclusive but, when observed, can be used as indices to identify an individual who at the moment of observation could be under the influence of a "drug" (see the Substance Abuse Policy for definition of the term "drug" and for the mechanisms to operationalize the policy). The College of Nursing and Health Professions is guided by behavioral descriptors that are stated in the latest edition of Diagnostic & Statistical Manual of Mental Disorders.

* Observation of any of these behaviors will result in dismissal from the learning environment (clinical or classroom).

**Attention Deficit/Cognitive Impairment**
- ataxia
- tremors, especially of the hands
- * slowed response time in a familiar skill
- * diminished from the usual in coordination/dexterity

**Social Impairment**
- * inappropriate verbal remarks (subjects/words/expletives)
- * inappropriate behaviors or those beyond the societal norm such as:
  - angry outbursts/unrestrained agitation
  - crying that cannot be explained
  - euphoria
  - paranoia
  - hallucinations
- * behaviors that are markedly changed from that individual such as
  - introversion
  - extroversion
  - sullen/irritable
  - giddy
  - defensiveness

**Somatic Manifestations/Discomforts**
- * odor of alcohol on breath
- nausea/vomiting/thirst
- frequent trips to bathroom/complaint of urinary frequency or diarrhea
- hiccoughs
- reddened sclera (bloodshot eyes)
- pupil changes/drooping eyelids
- complain of blurred vision or inability to focus

**Speech/Communication Impairment**
- * slurred (thick tongue)
- * rapid/choppy communication pattern
- * incoherent speech
BEHAVIORAL PATTERNS ASSOCIATED WITH SUBSTANCE ABUSE

The following is a list of behavioral patterns that may surface when drugs have been abused. While these patterns have many causes, thorough assessment and detailed documentation is needed over a period of time to determine if there is any relationship to drug abuse. Patterns of behavior to observe and validate are:

- repeated tardiness
- frequent absenteeism
- numerous and chronic somatic complaints (colds/GI problems/lack of sleep/weight loss/sluggishness/low energy)
- untidy personal appearance or deterioration in quality of grooming
- lack of attention to hygiene (hair, nails, skin, oral)
- multiple crises in personal life
- avoidance/lack of eye contact
- isolation/lack of peer support
- repeated excuses for below standard performance
- forgetfulness with appointments/assignments
- slowed response time in familiar activities
- behavior shifts/mood swings
- lack of trust and suspicious of the motives of others
- needle tracks on body surface
- behaviors surrounding the administration of narcotics:
  - frequent need to waste "unused" medications
  - recording the administration of larger doses than ordered
  - unauthorized possession of the narcotic key
  - unsupervised entry into narcotic cabinet
  - volunteering to be in situations to gain greater access to narcotics
  - taking frequent breaks/numerous occasions when whereabouts unknown
CRITERIA FOR URINE DRUG SCREENS

NOTICE: PROVIDE LAB WITH THIS CRITERIA

ANY DRUG SCREENS SUBMITTED TO ARKANSAS STATE UNIVERSITY, COLLEGE OF NURSING AND HEALTH PROFESSIONS, SHALL HAVE MET THE FOLLOWING CRITERIA:

1. Specimen collection is witnessed.
2. BASIC 10-PANEL* DRUG SCREEN INCLUDING ALCOHOL, MEPERIDINE AND DRUG OF CHOICE (SEE #7).
3. Laboratory must be CLIA\(^1\) approved.
4. Confirmation of positive results is done by GCMS\(^2\). If specimen must be sent to another laboratory for confirmation, the chain of custody is maintained.
5. Report, in addition to results, will include:
   a. Chain of custody;
   b. Drug history;
   c. List of drugs screened;
   d. Confirmation of method used; and
   e. Specific gravity.
6. The laboratory will retain negative specimens for a minimum of two (2) weeks and positive specimens for a minimum of one (1) year.

*10-PANEL INCLUDES:

- Amphetamines
- Cannabinoids
- Opiates
- Barbiturates
- Methaqualone
- Benzodiazepines
- Cocaine
- PCP
- Methadone
- Propoxyphene

7. THE DRUG SCREEN SHALL TEST FOR THE FOLLOWING:

- Amphetamines
- Methaqualone
- Phencyclidine
- Propoxyphene
- Alcohol
- Meperidine
- Drug of choice

  Methadone
  Barbiturates
  Benzodiazepines
  Cannabinoids
  Cocaine
  Opiates

DRUG SCREENS WHICH DO NOT TEST FOR THE ABOVE WILL BE CONSIDERED NON-COMPLIANT WITH THE ORDER.

\(^1\)Clinical Laboratory Improvement Act: SET of Federal Regulations which clinical labs must meet for certification.

\(^2\)Gas Chromatography Mass Spectrometry

Adopted from Arkansas State Board of Nursing, January 1997.
WAIVER OF RELEASE OF MEDICAL INFORMATION
SUBSTANCE ABUSE POLICY AND PROCEDURES

I, ______________________________, am a professional health student at Arkansas State University and have previously received, read and understand the College of Nursing and Health Professions' Substance Abuse Policy & Procedures.

Since this is my second incident of verified reportable behavior, I hereby consent to having a sample of my body fluid collected on this _______ day of _________, 19___, according to the terms set forth in the policy for the purpose of testing for identified substances at my own expense.

I understand that a positive test result will require a subsequent confirmation test. If that result remains positive, it will affect my status in the professional program. I understand that if I am taking any medications which would adversely effect the results of the test, that I should disclose those immediately. Written medical documentation from my physician will be required by me for verification of those medication/s taken.

I authorize the release of test results related to the screening or testing of my blood/urine specimen to the Dean, College of Nursing and Health Professions at Arkansas State University, and to myself. I understand that my body fluid specimen will be sent to ______________________________ for actual testing.

I hereby release Arkansas State University, its Board of Trustees, officers, employees, and agents from legal responsibility or liability arising from such a test, including but not limited to, the testing procedure, analysis, the accuracy of the analysis, or the disclosure of the results.

Appendix C

CNHP INFECTION CONTROL POLICY AND PROCEDURES
INTRODUCTION

The policy guidelines herein are of a general nature and deal with HIV-related infections as well as other blood borne pathogens. They apply to all students/faculty in the College of Nursing and Health Professions (CNHP). Due to differences in the various programs, individual CNHP programs may have specific rules and/or guidelines that are modifications of those in the general policy, however, the specific policies of the various programs will be consistent in their intent with the guidelines noted herein. This policy shall be reviewed annually and modified as necessary based on the current information from the CDC and OSHA.

ADMISSIONS

The HIV/HBV (Human Immunodeficiency Virus/Hepatitis B Virus) status of an applicant should not enter into the application process. Applicants applying for healthcare programs should, however, be informed that certain diseases may necessitate either a modification of their program, or in the extreme may necessitate their dismissal from a program if they cannot perform procedures and/or tasks that are considered essential to their educational experience.

RETENTION

If it is determined that a student is sero-positive for HIV/HBV or is clinically manifesting symptoms of either disease process, that student should receive counseling about personal health care concerns and about interaction with others, especially clients. The student should be counseled by a designated faculty member in his/her respective program. The function of the designated faculty member is to counsel the student as to whether the program of education should be modified, another educational program considered, or in the extreme, whether the student should be dismissed from a program because of the inability to perform procedures and/or tasks crucial to the educational program. When considering the possibility of modifying clinical experiences or whether to dismiss, the designated faculty member will request that the Infection Control Committee convene to consider the specific student situation.

INFECTION CONTROL COMMITTEE

The Infection Control Committee will be comprised of three representatives from each of the programs in the College of Nursing and Health Professions. The dean will be charged with appointing faculty to serve on this committee after consultation with chairs or directors of the various programs. Once the committee is established, a chair shall be elected by the members. In addition, a community member who is an expert in infectious disease will be designated as a consultant to the committee.

The committee shall function to consider the specific student/faculty situations outlined in the HIV/HBV Guidelines. In addition, this committee will function to review the HIV/HBV Guidelines on an annual basis. The committee will coordinate annual instruction on Standard Precautions for the faculty. This committee will also serve the programs by making recommendations for infection control policy that may impact both the student and faculty populations. Information regarding such policy will be included in the various program’s Student Handbook and the CNHP Faculty/Staff Handbook.

When the Infection Control Committee convenes to consider specific student/faculty situations, a timely response is in order. Individuals will be provided a letter outlining the committee recommendations within a one-week period after convening. During this time period the student/faculty person shall not engage in direct client contact. Should an individual wish to appeal the decision of the committee, the established University Grievance process should be followed (See ASU Student/Faculty Handbooks).
COUNSELING

It is the responsibility of the programs to provide counseling to a student/faculty member who is determined to be sero-positive for HIV/HBV or who manifests symptoms of either disease process. The counselor interaction with the student/faculty member should be reported to the Infection Control Committee only when the person's health status necessitates a modification in the clinical program or dismissal. It will be the responsibility of the counselor to verify that the student is aware of options for testing, counseling and health care. In addition, the counselor will verify that the student has been provided with specific information that relates to client contact.

The following information is provided in order to refer students when necessary to outside agencies for assistance and follow-up. This information should be reviewed and updated annually.

HIV Infection Services provided by ASU Student Health Center:
Students at Arkansas State University who desire HIV testing may obtain this service free at the Wilson Student Health Center. The Center encourages appointments but will accept students on a walk-in basis. Pre- and post-test counseling is provided by certified CDC counselors. Specimens are sent to the Craighead County Public Health Department for testing.

The Student Health Center has developed a media library (videos, pamphlets) for persons coming in with questions about HIV infection. The Center is located directly across from the College of Nursing and Health Professions and can be reached at ext. 2054. (The Student Health Center is scheduled to relocate to the First Care Medical Office on Stadium Avenue near the football complex as soon as construction on that new facility is complete.)

Services offered by the Public Health Department
The Craighead County Public Health Department is open from 8:00 a.m. until 3:30 p.m. for testing. The department offers pre- and post-test counseling as well as HIV testing. The cost of the service is $3.00 which pays the record maintenance fee. The Public Health Department can be contacted by calling 933-4585. Offices are located in the Arkansas Services Center on McClellan Drive.

An individual who desires testing should allow about one hour for the procedure because pre-counseling is extensive.

Services offered by Northeast Arkansas Regional AIDS Network (NARAN)
This organization offers free confidential testing. Pre- and post-counseling is provided by certified counselors. They also provide direct care services to those persons who need them, including financial counseling. NARAN is also a network agency for persons living with AIDS. A referral can be made by contacting the office at 931-4HIV (4448). The office is located at 1000 S. Caraway in Jonesboro.

Services offered by Regional Aids Interfaith Network (RAIN)
Chapters of this organization do exist here in Northeast Arkansas. The program coordinator is Rev. Ed Pruitt, chaplain at Methodist Hospital in Jonesboro. This group provides spiritual and social support for the person with HIV infection and family members.

Other
The American Red Cross office now advertises the Arkansas HIV/AIDS Network. The office can be reached at 935-2437 and is located at 701 S. Union in Jonesboro. The group is funded by the C.D.C. whose primary goal is to provide HIV education to Arkansans. However, the Red Cross will provide information to those who call.
The counselor should not neglect to refer the student/faculty member to his/her private physician for guidance.

Students and faculty outside of Craighead County should seek specific referral information from the Chair of the Infection Control Committee or from a faculty member designated as counselor at the distant sites.
GUIDELINES FOR HIV/HBV STUDENTS/FACULTY IN THE LABORATORY/CLINICAL SETTING

Note: This policy assumes that the HIV/HBV infected student/faculty member has been identified and is currently a member of a program.

In accordance with sections 503 and 504 of the Rehabilitation Act of 1973, schools must provide equal treatment to persons who have contracted the HIV/HBV virus. Furthermore, schools may not discriminate against any individual based on the perception that he/she is infected.

TRANSMISSION INFORMATION
All CNHP students and faculty will employ Standard Precautions while in the clinical setting. CNHP students will receive instruction and annual evaluation regarding transmission of blood-borne pathogens and the use of Standard Precautions. The Infection Control Committee will coordinate instruction on Standard Precautions for faculty on an annual basis. It will be the responsibility of faculty members to document annual instruction through the Infection Control Committee.

POLICY
Students, faculty, and staff with HIV/HBV should be allowed equal access, as long as their medical condition permits, to university facilities or campus activities, including participation in clinical experiences or other academic and social activities offered by the university.

All confidential medical information is protected by statute and any unauthorized disclosure may create legal liability. The duty of the health care providers to protect this confidentiality is superseded by the necessity to protect others in very specific circumstances.

An infected student/faculty who is symptomatic may be excluded from providing direct client care, determined on a CASE-BY-CASE basis by the Infection Control Committee. In addition, should an individual sero-convert and express concern regarding clinical practice, the committee will convene to review the case.

Any student who has a positive history of HIV/HBV probably should not participate as a source partner in on-campus laboratories for procedures involving needlesticks or other forms of vascular access. For criteria related to laboratory participation, see the specific program handbook.
EXPOSURE (Laboratory and Clinical)

Students and faculty in the College of Nursing and Health Professions may be exposed to bloodborne pathogens such as HIV and HBV. In the clinical and classroom laboratory settings, students/faculty are expected to utilize Standard Precautions, hand washing and protective clothing/gear to prevent contact with blood and other potentially infectious materials.

**Exposure incident** means a specific eye, mouth, other mucous membrane, non-intact skin, or parenteral contact with blood or other potentially infectious material that results from one's duties as a CNHP student or faculty member. An exposure incident involving a student/faculty member in the CNHP while in a clinical facility or campus laboratory is treated in a similar manner to any type of accident occurring within the agency.

**Laboratory Post-HIV/HBV Exposure Protocol**

*Should a student or faculty member be exposed to HIV/HBV in an on-campus laboratory setting, the following post-exposure protocol is recommended:*

1. The student will notify the faculty member supervising the learning experience. If the exposed individual is a faculty member, he/she will notify the chairperson of the specific program in the CNHP.

2. As soon as possible following the exposure, the college incident form will be completed by the faculty member/student.

3. The exposed individual will be referred to the Wilson Student Health Center for evaluation if the event occurs during operating hours. If the exposure occurs when the Health Center is closed, the faculty member will determine the individual's primary care options and refer the person to those resources.

4. It is recommended that both individual and source be tested for HIV and HBV when an exposure occurs. Testing will be conducted at the individual's expense.

5. It is recommended that post-exposure prophylaxis of those involved be directed by the individual's primary care providers at the individual's expense.

6. If there is a delay in reporting an exposure incident, it is recommended that the same protocol be followed.
Clinical Post HIV/HBV Exposure Protocol

If a student/faculty member is exposed to blood or other potentially infectious materials in the clinical environment, this protocol is to be followed.

1. The student will notify the clinical faculty. If the exposed individual is a faculty member, s/he will notify the chairperson of the specific program at the CNHP.

2. The student, clinical faculty or chairperson will notify the supervisor of the area where the exposure occurred. Thereafter, post-exposure protocols for the clinical institution will be followed.

3. The infection control staff member/epidemiologist of the clinical facility will be notified of the exposure immediately by the student or if possible by the clinical faculty member. If a faculty member has been exposed, this individual will notify the infection control staff/epidemiologist.

4. As soon as possible following a report of an exposure incident the clinical faculty and infection control staff/epidemiologist should provide the student with counseling about an immediate confidential medical evaluation and follow-up at the student's expense. In some instances the clinical facility may cover costs of treatment and testing as would be done for an employee. In the case of a faculty member's exposure, the individual is expected to communicate directly with the infection control staff/epidemiologist. The medical evaluation and follow-up should include, at a minimum, the following requirements:

   (a) Documentation of the route(s) of exposure and the circumstances under which the exposure incident occurred.

   (b) Identification and documentation of the source individual unless the clinical facility staff establishes that the identification is infeasible or prohibited by state or local law.

      (1) The source individual's blood shall be tested as soon as possible after consent is obtained in order to determine HBV and HIV infectivity. If consent is not obtained, the clinical facility shall establish that the source individual's consent cannot be obtained. When the source individual's consent is not required by law, the source individual's blood shall be tested and the results documented.

      (2) When the source individual is already known to be infected with HIV or HBV, testing for the source individual's HIV or HBV status need not be repeated.

      (3) Results of the source individual's testing shall be made available to the exposed individual who should also be informed of applicable laws and regulations concerning disclosure of the identity and infectious status of the source individual.

   (c) The exposed student/faculty member's blood should be tested as soon as possible after consent is obtained. Agencies which provide testing for HIV include:

      Northeast Arkansas Regional AIDS Network (NARAN) (931-4HIV), the Craighead County Public Health Department (933-4585), and the Wilson Student Health Center (972-2054).
Additionally, the exposed individual has the option of utilizing their private physician for confidential testing.

(d) It is suggested that post-exposure prophylaxis be managed by the student/faculty member's personal healthcare provider.

(e) A copy of the OSHA Bloodborne Pathogens Standard (29 CFR 1910-1030) is accessible in the College of Nursing and Health Professions and will be available on request.

CNHP HONOR CODE
PROCEDURES FOR COLLEGE STUDENT CODE OF HONOR

The College Student Code of Honor exists in addition to the University Code of Conduct and the Academic Integrity Policy found in the Student Handbook. An honor offense by the college code is defined as an act of lying, cheating or stealing. These terms are defined as follows:

**Lying** - a false statement (written or oral) made with the deliberate intent to deceive; something intended to or serving to convey a false impression.

**Cheating** - to practice fraud or deceit; academic fraud is a form of cheating and includes such things as plagiarism (including Internet resources), false citation, false data and submission of the same work to fulfill academic requirements in multiple classes.

**Stealing** - to take the property of others without permission or right; to take ideas, credits, words without right or acknowledgement; to accept credit for another's work.

**Plagiarism** – as defined in the 1995 Random House dictionary is the “use or close imitation of the language and thoughts of another author and the representation of them as one’s own original work.” Within academia plagiarism is considered academic dishonesty or academic fraud and offenders are subject to a number of penalties including course failure or other severe consequences.

These honor code violations apply whether they are performed individually or in groups. They apply to didactic, laboratory and clinical experiences of the program.

**PROCEDURES:**
If a student is aware of an honor offense, he/she should report that offense to either the faculty member of the class in question, the program director or the department chair. An investigation will result.

If there is evidence to bring forward, the student will be notified, in writing, of the specific charges, who the hearing body will be and the time and place of the hearing. Such notification will be delivered at least two working days in advance of the hearing. The date of the hearing, if possible, must be set within 10 working days from the date of notification to the student.

The College Code of Ethics Committee will hear the case. The Ethics Committee is comprised of five CNHP student representatives and two CNHP faculty appointed by the dean. Actions by the Ethics Committee may include: 1) dismissal of the case, 2) sanction the student, 3) refer the case to the Dean of Students, Student Affairs. Disciplinary sanctions by the committee may include educative, reprimand, restrictions and restitution. The committee does not have the authority to suspend or expel the student.

Student rights in this committee process are outlined in the ASU Student Handbook under the caption "Disciplinary Hearings". The student is entitled to one appeal rendered by the Associate Dean for Judicial Affairs. The process for appeal is found in the section on "Appeal Process".
Each student admitted to a professional program in the College of Nursing and Health Professions is charged with the responsibility of honorable conduct. A student is assumed honorable until his/her actions prove otherwise. An honor offense is defined as an act of lying, cheating, or stealing. Formal procedures exist for violations of the honor code.

As a student in a health program, it is fundamental that you act in an honorable and virtuous way so that a community of trust is established among members of the college and your clients. Honor is a practiced ideal that will positively impact your relationship with fellow students, faculty, administrators, patients and other members of the community. As you live an honorable life, you will find that you cannot live without it.

All students in this college are bound by the Honor Code and all are needed to make it work. The atmosphere of trust and integrity that is created by an honor system enables the student to know his/her word will be taken as true, to compete fairly in the classroom and to keep what is rightfully his/hers. The system functions best when all members of the college not only take responsibility for their own actions, but hold their peers to the same standards.

As a student admitted to a health professions program, you must agree to live by and support the basic principles of honesty – no lying, cheating or stealing; be accountable for your actions; and share information about honor offenses. If you are not prepared to accept these responsibilities, you should select a program outside this college.

I have read the explanation of the College Student Code of Honor. I understand that as an admitted student in one of the programs in the college, I have accepted the pledge of honesty and will be expected to meet the standards as set forward.

Appendix F

GRIEVANCE POLICY AND PROCEDURES
Department of Communication Disorders
Policies and Procedures Regarding
Student Grievances

All students enrolled at Arkansas State University are provided free electronic access to the ASU
Student Handbook and Planner at the beginning of each academic year at the following web address:
http://studentconduct.astate.edu/studenthandbook.html This handbook provides complete details of all policies
and procedures in effect at ASU. The academic grievance policy and all details necessary for filing a formal
grievance are located on pages 23-28 of the ASU Student Handbook. Please review that information and be
familiar with the procedural mechanism associated with filing a grievance. Additional information pertaining to
sexual harassment and the grievance procedures for resolving such disputes is located on pages 86-90 of the
same handbook.

Communication Disorders majors, faculty members, other Speech-Language Pathologists and
Audiologists, or the general public are also provided with methods for contacting the Council of Academic
Accreditation in the event that they should develop concerns about the Department of Communication
Disorders compliance with CAA standards and regulations. The complaint procedure is detailed in the CAA
Accreditation Manual (Section VIII) which is available online at the following address:

http://www.asha.org/academic/accreditation/accredmanual/section8.htm

The procedure stipulates that “complaints must pertain to accredited programs, must relate to the standards for
accreditation, and must specifically describe the incidence that must have occurred in the last five years with all
supporting data”. Submission requirements are also specified on the website and must be signed and submitted
in writing to the chair, Council on Academic Accreditation, American Speech-Language-Hearing Association,
2200 Research Boulevard, #310, Rockville, MD 20850.

Every possible attempt is made to resolve student complaints and grievances within the Department of
Communication Disorders using the grievance procedures listed on the following pages:
Grievance Procedure

I. Purpose: The purpose of this procedure is to provide the students in the Department of Communication Disorders at Arkansas State University a mechanism for resolving written complaints against the aforementioned program and/or its personnel.

II. Rationale: It is expected that students in the Department of Communication Disorders will support the program’s procedures and policies. However, when a student’s grievance about a policy, program, or practice is not resolved with informal discussion, a more formal complaint procedure is to be followed.

III. Procedure: All formal complaints against the personnel, policies, and/or procedures of the Department of Communication Disorders must be submitted in writing within a one year period of time following the incident or initial concern. Written complaints lodged against the Department of Communication Disorders will be resolved through a process listed in the procedure.

   a. Student complaints lodged against the program regarding grading, disciplinary action, probation, or continuation in the program shall follow the student grievance procedure found in the Arkansas State University Student Handbook.

   b. Written complaints about CD personnel including faculty, on site supervisors, off site supervisors, part time instructors, and staff shall be submitted to the department chairperson. If the grievance directly concerns actions or policies of the department chairperson, written complaints are to be submitted to the program’s clinic director. The recipient of the written grievance will then investigate the complaint, propose solutions, and notify those involved of the findings.

   c. Written complaints regarding curriculum and instructional design shall be submitted to the appropriate program curriculum committee chairperson. The committee will investigate the concern, propose solutions, and notify those involved of the findings.

IV. Record: All written grievances and the actions taken to resolve the complaint will be collected and filed in the Department of Communication Disorders office.

V. Unresolved grievances regarding the procedures, policies, and practices of the Department of Communication Disorders may be directed to the ASHA Council on Academic Accreditation in Audiology and Speech-Language Pathology at the following address:

   2200 Research Boulevard #310
   Rockville, MD 20850

VI. Receipt of Procedure: The Department of Communication Disorders will document that all accepted students have received and understand the grievance policy.
Receipt of Complaint Policy

I, _______________________________ have received a copy of the Complaint Procedure for the Department of Communication Disorders. I have read the document and understand all steps involved in the formal grievance process.

UNAUTHORIZED VIDEO/AUDIO
The electronic preservation of the visual and auditory image of university faculty members in the performance of their teaching and clinical duties has been a relatively common practice in higher education for many years (i.e. students audio taping lectures and lab activities). Students asked permission of the faculty member to perform such recordings and did so for their personal use. However, there are an alarming number of occurrences in recent months in which faculty members, in the routine performance of their teaching duties, were secretly recorded by students using cell phone technology who then loaded the video and audio clips for public display on formats such as YouTube.

The faculty members of the Department of Communication Disorders have unanimously agreed that any such unauthorized recording (visual or auditory) constitutes a significant breech of ethical behavior and violates the educational and civil rights of the faculty member. Any student or group of students found in violation of this policy will be summarily and permanently dismissed from the Communication Disorders degree program in which they are enrolled. The faculty member may have grounds for initiation of a civil suit against the student or students on the basis of invasion of privacy.

CRIMINAL BACKGROUND CHECK
Arkansas State University
College of Nursing and Health Professions
Department of Communication Disorders

Arkansas State University now requires background checks for all students entering programs in the Health Sciences. This is to ensure a safe clinical environment for both students and the public and to meet the contractual requirements of area healthcare facilities.

Arkansas State University has worked with Verified Credentials, Inc. to establish an acceptable screening procedure. Students who fail to submit a background check cannot complete or maintain enrollment in any Arkansas State University health program.

Please follow the directions below for submitting your application to Verified Credentials:

- Browser access must be through Internet Explorer or Foxfire
- Click the “ORDER NOW” button
- Select your program from the drop down menu.
- Complete and sign disclosure.
- Complete information/application page.
- **Print or write down** your Tracking information (this allows you to edit and track the progress of your report). An email with your tracking information will also be delivered to the email address provided on your application. You may also visit the website above, select TRACK MY ORDER and enter Tracking Number and Order Information to access the status or the results of your background check.
- **Review** information, make payment selection and submit order.

Payment can be made by personal credit card, debit card or electronic check.

**Additional Payment Choices**

You may also use a prepaid credit card, but make sure that there is enough value on the card to cover any handling charges incurred for use of the prepaid card as well as the cost of the background check.

You may mail a money order or cashiers check to Verified Credentials but it must be received by the deadline established by the college. You will need to print the Mail-In Payment Form and include it with the money order.

Upon completion the results of the background screening will be sent to you via email and to Arkansas State University. If any information is found that would negatively affect your eligibility for a Health Sciences program, you will be given an opportunity to challenge the information through the Adverse Action process associated with Verified Credentials.

If you have any questions on the background screening process or results, please contact Verified Credentials Client Services at 800.938.6090.

Policies and Procedures Regarding
Mandatory Criminal Background Checks for Practicum Students

Effective August 1, 2009 students must submit to and demonstrate a satisfactory criminal background check as a prerequisite for clinical practice for certain health care facilities and other practicum sites. Students who fail to submit to a background check or to allow the Clinical facilities access to the report will be ineligible for clinical placement. Those who do not pass the background check are afforded the opportunity to explain the circumstances surrounding the situation and if the final determination is that the student is ineligible for clinical placement he/she will be given the opportunity to withdraw from the Program. Attendance in clinical practice is mandatory for successful completion of all of the Nursing or Health Professions Program.

The criminal background check will include but is not limited to the following: ID Search Plus; Criminal Background; Sex Offender Search; Abuse Registry; OIG Medicare Sanctioned List;

Situations in which a student does not receive a satisfactory background check will be reviewed by the Clinical Facility on a case-by-case basis. Convictions involving the following crimes, but not limited to these crimes, may serve to disqualify a student from participating in the mandatory clinical learning experiences:

- Any felony, whether listed below or not
- Crimes involving drugs, including but not limited to unlawful possession or distribution
- Crimes of physical violence to include any type of abuse (child, spousal, or of the elderly), abduction such as kidnapping, manslaughter, murder, robbery, sexual crimes, possession of a restricted fire arm or any related weapons offenses, assault and battery
- Conviction of a misdemeanor related to abuse, neglect or exploitation

A private company approved to perform Criminal Background Checks will conduct the background check. The cost of the background check will be borne by the student.

Process Guidelines:

- Arkansas State University College of Nursing and Health Professions has adopted Verified Credentials as the background screening vendor for those clinical sites that require a background check. This will become effective August 1, 2009. Students will be responsible for all associated costs.
- Students will be required to complete a background check screening with the Program’s vendor. The background check is to be completed prior to participating at the health care facility where such a requirement is stipulated.
- At present, Verified Credentials completes screening through Criminal Search (County), FACIS (Level I – Individual), IDSearchPlus and the National Sex Offender Public Registry.
- Through Verified Credentials, students are assigned a GREEN, YELLOW or RED indicator in each of the screening areas listed above. A copy of each student’s report will be sent directly to the clinical site for review and/or available for review per Verified Credentials’ WEB site. Students will be required to provide all clinical affiliates open access to criminal background check reports.
- In the event the student receives a GREEN indicator(s), the student will be cleared to participate in clinical experiences.
- In the event the student receives any YELLOW indicator(s), the student’s Verified Credentials Report will be reviewed by the clinical director to determine if they will be permitted to participate in the clinical experience.
In the event the student receives any **RED** indicator(s), the student’s Verified Credentials Report will be reviewed by the clinical site to determine if the student will be permitted to participate in the clinical experience.

Additional background checks with other vendors may be stipulated by some clinical affiliates (e.g. mental/behavioral health). Clinical affiliates reserve the right to refuse entrance of any student based on background check information. In the event, a clinical affiliate declines a student for clinical experience the student may not be able continue in the program since program objectives cannot be met. Students will be provided a copy of the program policy regarding criminal background check screening. In the event changes are made to the background check screening process, students will receive the applicable updates.
RELEASE OF SCREENING RESULTS

I, ________________________________, am currently enrolled in one of the Arkansas State University College of Nursing and Health Professions Programs below as indicated by the check mark:

☐ Nursing

☐ Clinical Laboratory Science

☐ Physical Therapy

☐ Medical Imaging and Radiation Science

☐ Communication Disorders

☐ Social Work

I realize that the criminal background check policy/process may require that my results be shared with clinical affiliates and if a negative indicator is recorded, determine if I am permitted to participate in the clinical experience. My signature on this document serves as proof that I am granting permission for my criminal background check reports to be released as indicated.

Criminal Background Checks

Student name: ________________________________

I understand that criminal background checks may occur as part of my professional education at ASU. Evidence of a previous charge or conviction of a felony/misdemeanor on my record may affect my progress in this program. While the faculty cannot realistically determine whether this will have any future impact on my ability to work in my profession, I do understand that the following issues could arise during my time as an undergraduate or as a graduate student of the program.

1. Some clinical sites including but not limited to public/private schools, early intervention facilities, hospitals or other health care institutions could refuse to allow me access for a clinical experience.
2. Being unable to complete specific clinical rotations could make it impossible for me to complete the clinical portion of my education and therefore not graduate.
3. Upon graduation, a state licensing agency could refuse to grant me a license.
4. As a licensed professional, certain health care institutions could refuse to grant me practice privileges.
5. There could be other, unforeseen, impacts of this incident on my ability to practice as a professional.

UNIVERSITY POLICY REGARDING PROTECTION, VERIFICATION, AND PRIVACY OF STUDENT IDENTITY IN ELECTRONIC MEDIA
Arkansas State University  
College of Nursing & Health Professions  
Department of Communication Disorders  

University Policy Regarding Protection, Verification, and Privacy of Student Identity in Electronic Media  

ASU ensures the security and privacy of personal information through the institution’s identity management policy. Security Sensitive Information Qualifiers (SSIQ’s) are not released beyond the centralized server. For applications outside of the primary Enterprise Resource Planning (ERP) system, ASU assigns an “alternate id”, which has no personal or information value beyond ASU applications.

I have obtained my copy of the CD *Undergraduate Program Handbook*. I have read and I understand the information presented in this document and agree to comply with all rules and regulations contained herein. My advisor, CD faculty members, and the Department of Communication Disorders Director have satisfactorily provided information and advice regarding my concerns about policies and procedures in this document or other questions that I have had. I understand that admission to the UPCD in no way guarantees or assures my admission to the ASU GPCD.
