***“Cancer Screening and Older Adults”
(Breast and Colorectal)***

Jonathan Laryea, MD, FACS, FWACS
Associate Professor, UAMS

Gwendolyn Bryant-Smith, MD
Director, Breast Imaging, CAVHS

According to a report by the Centers for Disease Control (CDC), there is a fundamental gap (self-reported) among adults ages 65 and older who are receiving the recommended clinical preventive services such as recommended cancer screening. It is anticipated that this conference will serve as reminder for participants to incorporate breast and colorectal cancer preventive screenings into their practices for older patients.

**December 11, 2014
11:00 am to 1:00 pm
Reynolds Bldg, Room 203**
