

Graduate Tuition from External Funding

Office of Research & Technology Transfer

Arkansas State University policy stipulates that any doctoral level Graduate Assistant will be given a tuition fellowship to cover the cost of the in-state tuition. The doctoral GA must register for at least nine graduate hours each fall and spring semester and three graduate hours each summer term enrolled and supported. The doctoral GA will automatically receive a waiver of the out-of-state/international portion of the tuition. As a result, any grant that includes a doctoral level GA must also provide a means for providing this in-state tuition fellowship. If the granting agency will not fund tuition for a student, you must provide documentation and supply an alternate account that will cover their tuition. Please fill out the form below and have it signed by the appropriate parties.

NOTE: It is imperative that the student be supported for an entire semester. Providing only partial semester support will result in the student not qualifying for the fellowship; in the case of an out-of-state/international student, this applies to the out-of-state/international tuition waiver, as well.

Principal Investigator: _____

Granting Agency: _____

Grant name: _____

Student name: _____

Does this grant provide student tuition? Yes No

If you answered No above, please provide documentation from the agency explaining their policy on student support. Also, provide a FOAP account where the tuition can be charged in the blanks below.
