

ASSESSMENT WEBSITE INFORMATION

College: Sciences and Mathematics
Chair/Director: Tom Risch

Degree Program: Environmental Sciences Ph.D.

DATA SAY:

Students are not finishing the degree in a timely manner, and they are using an outdated handbook.

SO WHAT:

The handbook was last revised in July 2008, but changes to the curriculum, including new courses, have been approved.

HOW WE CHANGED:

We revised the handbook. We included a new format to make it easier to find information and added tables that provide a timeline for students to follow, which will help them stay on track and finish on time. The Student and Advisor Checklist is expected to help the student stay on track and allow the Director and Administrative Analyst to better direct students.

WHAT WE GOT:

The revised handbook is still in the approval process, and data will be collected after approval.
