The following are some other updates to Blackboard Learn accessibility with Service Pack (SP) 11.

**Other Support in SP 11**

**Accessibility and JAWS**

Blackboard strives to make all its products as accessible as possible. JAWS for Windows 11 and 12 were used during accessibility testing in SP 11.

**JRE Support**

JRE (Java Runtime Environment) is not required for users to access and interact with the Learn platform with the exception of the following features and tools:

- Learn collaboration tools virtual classroom and chat
- Multiple-file uploads
- Math equation editor
- Default text editor shipped with Learn 9.1 SP9 and earlier

Blackboard has tested and supports these features with version 7 JRE. JRE 6 may work, but could result in unexpected behavior. The JRE can be downloaded from [http://www.oracle.com/technetwork/java/javase/downloads/index.html](http://www.oracle.com/technetwork/java/javase/downloads/index.html). Windows system administrators who want to provide auto-download for users can find the cab file link for the appropriate JRE at [http://www.oracle.com/technetwork/java/javase/autodownload-140472.html](http://www.oracle.com/technetwork/java/javase/autodownload-140472.html).
