The Registration Status link will identify any problems you may have during registration for the term selected including: holds, academic standing and student status. It will also identify any permits you have been granted, your earned hours and curriculum information.

   **IMPORTANT**: Check this link before registration each term to make sure you’ll be able to register on time. If you don’t get cleared by your advisor you’ll receive a message during registration saying you can’t register until this has been done. Your student status will say “permits registration” once you’ve been cleared. If you have holds on your account you won’t be able to register until they’re taken care of and this page shows no holds which prevent registration.

COURSE REFERENCE NUMBER

A Course Reference Number (CRN) is the unique five-digit ID of a section for a given term. Instead of having to remember the subject prefix, course number, and section number you can use the CRN when asking questions about or registering for classes. Spring CRNs begin with ‘1’, summer begin with ‘3’, and fall with ‘6’.

When looking up classes there’s course information that can be used as search criteria that’s important to keep an eye on. INSTRUCTIONAL METHOD

Using the Instructional Method search feature students can search for courses outside of those that are typically considered traditional. This includes online (WEB) and web assisted (WEBA) courses. The course details will list whether a course is WEB or WEBA in both the instructional method and the course location.

- **Online (WEB)** – These courses are 100% online courses and don’t have any mandatory meeting times.
- **Web-Assisted (WEBA)** – The majority of the content in these courses will be taught online, however there may be mandatory meeting times either in-class or online in a virtual community. This includes courses that require exams to be proctored in person or at a specific online location with mandatory times. Students MUST attend these scheduled times just like a traditional class time.

CAMPUS CODES

Students should be aware of the campus codes assigned since this is where the course will be taught. Students on the Jonesboro campus can’t register for classes in Queretaro, for example. Common campus codes include:

- **J** – Jonesboro
- **P** – Paragould
- **LSD** – A-State Online Programs
- **QUE** – Queretaro (Mexico)

PARTS OF TERM

Part of term (PoT) is used to designate periods of a semester in which courses occur; this appears as a date range on detailed course information. The three main PoTs for any given semester are Full Term, Session I (first half of the term), and Session II (second half of the term). If a date range is displayed the part of term can be determined from the dates listed (ex. a fall course that runs from August to December is likely full term.)

**IMPORTANT:** A-State Online Courses have special PoTs that begin with “Online Degree” in the search criteria.

ATTRIBUTES

Some courses are marked with attributes which denote special features of those courses. These attributes can be used to search for courses. Common course attributes include:

- **Honors** – These sections count toward the required Honors coursework in the Honors College
- **Structure Learning Assistance** (SLA) – These sections have mandatory support hours
