

Arkansas Biosciences Institute

Summer Internship Information

Applications are now being accepted.

This program is to provide basic support for Arkansas State University undergraduate students to enhance their academic experience by providing them with opportunities to participate in hands-on research and creative work with faculty and staff - in the sciences, engineering, professional programs, arts, humanities or the social sciences (not limited to the sciences). Interns will be required to present on their experiences and findings of this project in early Fall to the A-State community.

Minimum Qualifications

- ◆ Must have completed at least 30 credit hours as of May 15 but will not complete an undergraduate degree prior to December 2023 at Arkansas State University.
- ◆ Selection criteria will be based upon academic credentials and the compatibility of student and mentor research interests.

Application Process:

1. Student reviews and selects mentor/research interests from attached summaries
2. Complete application packet requirements (listed in next page) and provide as attachments to selected mentor before interview
3. Contact possible mentor to schedule an interview.
4. If a mentor recommends you, please ensure the entire application packet is submitted to prpattada@astate.edu or ABI Rm 101 prior to the deadline. A limit of one applicant submission per mentor.

The amount of each internship is \$2,500 paid as stipend, for which each student will be required to work twenty (20) hours per week for ten (10) weeks. Each mentor will be provided up to \$1,000 to be used for supplies for the intern's project. Interns will be notified no later than May 3, 2023 and could begin as early as May 15.

Questions should be directed to Prathima Pattada at prpattada@astate.edu or 972-2025.

**Return completed application to:
prpattada@astate.edu
by 5pm Wednesday, April 26, 2023**
