A-State Innovate**

Marketing Package

Mentoring Session

**Patent Help/
Prototype Development**

Manufacturing Advice

Thrown to the Wolves is designed to help students develop and demonstrate their creativity, collaboration and communication skills by (1) developing an innovative project concept, and (2) preparing a pitch and business/marketing plan for that innovation. It is structured in a way to make it easy to participate. A-State provides competitors and their teacher-sponsors with a curriculum and access to university faculty, staff and facilities for additional mentorship and support.

Timeline:

August 22 - September 9 (as soon as school starts)

Register to compete
