GENERAL EMERGENCY PROCEDURES

REPORT EMERGENCIES TO…………………………9-911 from a landline, or 911 from a cell phone
University Police………………………………………………………………………………. (870) 972-2093
Facilities Management……………………………………………………………………………… (870) 972-2066
Safety & Emergency Management……………………………………………………………. (870) 972-2862

When calling, stay calm and carefully explain the problem and location. Include your building’s address (see address list on the back of the enclosed Emergency Route Map). Do not hang up until told to do so.

PUBLIC STATEMENTS
 Statements to the news media will be made by the University Communications Office in coordination with appropriate emergency officials. For individuals seeking statements on family members that are facility, they will need to contact the Human Resource Office. For individuals seeking comments on student family members, they will need to contact the Dean of Students.

EMERGENCY EMPLOYMENT, PURCHASING AND CONTRACTING
 These procedures apply to the A-State campus. Personnel or partners who have a role will have access to and be knowledgeable of the procedures. Nothing in this Plan shall be construed in a manner that limits the use of good judgment and common sense. There are no provisions for suspension of state laws in an emergency. The ranking university official on the scene shall attempt to comply with laws if possible and shall maintain records where threat to life and property require extraordinary action.

EMERGENCY & RESOURCE NUMBERS
 Ambulance…………………………………………_________________________9-911 (campus landline), 911 (cell phone)
American Red Cross……………………………………………………………………...(870) 932-3212
Arkansas Highway Department…………………………………………………………..(870) 932-2339 -or- (870) 239-9511
Arkansas State Police…………………………………………………………………………... (870) 935-7302
Army Reserve………………………………………………………………………………. (870) 933-9405
CenterPoint Energy……………………………………………………………………………… (800) 992-7552
City Water & Light…………………………………………………………………………….. (870) 930-3300
Craighead County Judge…………………………………………………………………… (870) 933-4500
Craighead County Sheriff’s Department………………………………………………….. (870) 933-4550
Craighead Office of Emergency Management………………………………………………(870) 933-4575
Jonesboro Fire Department……………………………………………………………………… (870) 935-5551
Jonesboro Police Department……………………………………………………………….(870) 935-5553
National Guard………………………………………………………………………………….. (870) 935-2401
NEA Baptist Memorial Hospital……………………………………………………………………..(870) 936-8000
Salvation Army…………………………………………………………………………………(870) 932-3785
St. Bernards Hospital………………………………………………………………………………(870) 972-4100
Human Resource Office………………………………………………………………………..(870) 972-3454
Dean of Students………………………………………………………………………………..(870) 972-2048
MEDICAL EMERGENCY

WHO TO CALL:
EMS……………………………………………………………….......................... 9-911 (campus landline), 911 (cell phone)
University Police………………………………………………………………………… (870) 972-2093
Student Health Center………………………………………………………………… (870) 972-2054

STAY CALM:
Most situations can be handled on site or by private transport to seek medical care. Do not hesitate to call an ambulance if the medical condition requires immediate medical attention. When resources are overwhelmed, additional help may be available from these departments:

Nursing Department…………………………………………………………………………… (870) 972-3074
Safety & Emergency Management………………………………………………………….. (870) 972-2862
HPESS Center………………………………………………………………………………….. (870) 972-3066
Athletic Trainer……………………………………………………………………………….. (870) 972-3342

WHEN TO CALL:
If persons experience any of the following:
• Unresponsiveness
• Difficulty Breathing
• Chest Pain
• Seizures
• Life-threatening Bleeding

LABORATORY EMERGENCIES & SHOP ACCIDENTS:
Utilize procedures established by the responsible department. Procedures are posted in each lab.

A-STATE EMPLOYEE PROCEDURES:
Employees who become ill or injured because of an occurrence during the course of their employment are required to notify their direct supervisor. They are to seek medical attention at the Student Health Center. Call 9-911 from a campus landline, or 911 from a cell phone, if the employment-related illness or injury requires immediate medical attention.

EVACUATION
CAMPUS-WIDE EVACUATION
A campus-wide evacuation may be ordered by off-campus authorities or ranking University Police Officer on duty. Evacuation will be announced by University Police.

KASU 91.9 FM, campus cable TV, and the Emergency Alert System will broadcast the evacuation order. University Police will direct traffic. Available evacuation routes include, but are not limited to, those highlighted in red and blue on the enclosed Emergency Route Map.

Five (5) locations are available for temporary shelter and relocation based on situation:
Jonesboro High School Gym ………………………………………………………… (870) 933-5800
Jonesboro High Preforming Arts Center………………………………………………... (870) 933-5800
Nettleton High School Gym …………………………………………………………… (870) 910-7805 ext. 229
Nettleton High Performing Arts Center………………………………………………... (870) 910-7805 ext. 229
Brookland High School Gym …………………………………………………………... (870) 932-2080
CAMPUS-WIDE EVACUATION (continued)
Commuters and non-emergency staff shall use personal vehicles to go home unless their home is in the danger zone.

- University Police will dispatch an officer to the selected evacuation site, or sites, for control and communication.
- Student Life, University Police, Facilities Management, Information & Technology Services, and Safety & Emergency Management will send representatives to the evacuation site, or sites.
- Administrative personnel will arrange for food and housing or further evacuation based on the situation.
- University Police will maintain on-campus security as long as personal safety allows.
- “All Clear” will be announced by University Police with follow-up by KASU 91.9 FM.

BUILDING EVACUATION PROCEDURES
Note: Before an emergency, develop an individual evacuation plan to make sure everyone in your office/area is aware of basic evacuation procedures in your building. Use the following guidelines:
- An Evacuation of a building is used to move persons out of a building to avoid a potentially threatening situation.
- Upon the sounding of the fire alarm or notification by the Emergency Alert System, evacuate immediately.
- When evacuating a building leave quickly, but calmly, by the nearest exit or stairwell. Alert others to do the same. DO NOT USE THE ELEVATOR.
- Do not return to your area to collect personal items prior to evacuating.
- Close doors behind you while exiting.
- You may walk briskly but do not run.
- Do not go to the restroom.
- If smoke is present, stay low. The best quality air is near the floor.
- Once outside, proceed to Emergency Evacuation Checkpoint for your building (listed below).
- Report any missing persons to the University Police and provide the location where last seen.
- DO NOT return to an evacuated building until authorized to do so by University Police.
- Assist persons with a mobility, visual or hearing impairment to the nearest exit or stairwell. Alert University Police or Fire department personnel of persons with a mobility impairment left in the building.

PERSONS WITH MOBILITY IMPAIRMENT
Note: Before an emergency, develop a personal plan for assistance during a building evacuation. Share this plan with leadership and co-workers in your area. Use the following guidelines:
- Proceed to the nearest stairwell or exit if available.
- DO NOT USE ELEVATOR in the event of fire or power failure.
- Persons with mobility impairment(s) should be calm and remain in the enclosed stairwell or exit until assistance arrives. Make sure you inform other evacuees of your location.

**SHELTER-IN-PLACE**

For certain incidents that could occur on campus, staying in one spot and waiting for additional support is the best course of action. The following are guidelines to follow if sheltering in place is advised.

- The University Police Department and local emergency services will use every means available to advise the University Community of imminent dangers.

- Media that may be used by UPD and local emergency services includes email, A-State website (AState.edu), telephone, KASU, AM/FM radio stations, local television stations and the Emergency Alert System.

- In the unlikely event of an accidental or intentional release of hazardous chemicals or biological agents in the area, turn off the heating or air conditioning in your area if you have the means to do so. The Facilities Management Department will turn off all main air handlers and exhaust systems. After everyone has settled, use material such as plastic and tape to seal doorways.

- Do not use the elevators. Elevators can become stuck when air handlers are turned off.

- Seek shelter on floors in the interior part of the building in an area with the least amount of windows and doors.

- Wait for further instructions from the University Police Department or other emergency personnel.

- Use phones only for an emergency. Overuse of phones, including cellular, can overburden the system and delay emergency calls.

- It is highly suggested that all departments invest in a small battery powered radio in case electricity is lost.

- Once the emergency is over you will be instructed to evacuate the building.

---

**FIRE**

*Notes and Precautions:* A fire emergency exists whenever there is the presence of smoke or the odor of burning, when there is an uncontrolled fire or imminent fire hazard in the building or surrounding area, where there is a spontaneous or abnormal heating of any material, or when the fire alarm is sounding. Only use a fire extinguisher if the fire is very small and you know how to operate the extinguisher safely. Always call **911** before attempting to put out a fire, so that help is on the way if the fire becomes uncontrollable. **Total and immediate evacuation is safest.**

**FIRE EMERGENCY PROCEDURE**

**MINOR FIRE:**

If fire is small, can be put out with a single fire extinguisher, and appears controllable:

- P- Pull safety pin from extinguisher handle
- A- Aim at base of fire
- S- Squeeze the trigger handle
- S- Sweep from side to side at base of fire
MAJOR FIRE:
If fire does not appear controllable, or is too large to be contained with a single fire extinguisher:
• ACTIVATE- Immediately pull the fire alarm.
• SECURE- Close but do not lock doors. Assist persons with disabilities to stairwells.
• EVACUATE- Leave the building according to building procedures, do not use the elevator.
• CALL- Once in a safe location, at least 300 feet away from building, call 9-911 from a campus landline, or 911 from a cell phone.
• STAY SAFE- Do not return to the building for any reason, person, or item until cleared by Fire or Police Departments.

REPORT TO:
University Police……………………………………………………………………………………………(870) 972-2093
Facilities Management……………………………………………………………………………………………(870) 972-2066
Safety & Emergency Management……………………………………………………………………………………………(870) 972-2862

SEVERE WEATHER
Information on Severe Weather is broadcast on KASU 91.9 FM and provided through the Emergency Alert System.

TORNADO
• TORNADO WATCH- A tornado is possible. Remain alert for approaching storms. The Reng Student Union will remain open when a Tornado Watch is active for Craighead County. Campus apartment residents should move to the Student Union before storms approach the area.
• TORNADO WARNING- A tornado has been sighted on the ground or indicated by radar. Danger exists. Move to the lowest floor of the building, staying in interior spaces within major campus buildings.
• SIRENS- These are sounded by local authority and indicate a tornado warning. Take shelter. Sirens at noon on a clear day are only a test.
• SHELTER- Basement and ground floor interiors of major buildings afford the best protection. Stay away from windows.
• ALL CLEAR- “All Clear” will be transmitted by University Police Department through the Emergency Alert System.

SEVERE THUNDERSTORM
• SEVERE THUNDERSTORM WATCH- Severe thunderstorms are possible in the area. Remain alert for approaching storms.
• **SEVERE THUNDERSTORM WARNING**-Thunderstorms with severe wind and/or hail are occurring in the area or indicated by radar. Thunderstorms can produce tornadoes. Move indoors and use the following guidelines:
  o Stay away from doors and windows.
  o Hail, strong winds and flying debris can break glass or cause serious injury.
  o Lightning strikes pose one of the greatest thunderstorm-related risks.
  o Severe thunderstorms are capable of producing tornadoes.
  o Don’t carry or go near anything made of metal. Lightning is attracted to metal.
  o Don’t use a landline phone unless it is an emergency. Lightning can travel through phone lines.
  o Don’t go under a large tree, tower, or other structure that stands alone. Tall objects attract lightning.

**EARTHQUAKE**

**INDOORS**
- **DROP**- Get low to the ground where you are
- **COVER**- Using your arm, cover your head and neck, then crawl under a sturdy table.
- **HOLD ON**- With your non-coverage arm, hold on firmly to the table leg. If a sturdy table is not available, crawl against a wall, avoid windows, shelving and heavy equipment.

**OUTDOORS**
- Move away from buildings and utility poles.

**WHEN SHAKING STOPS**
- Evacuate buildings and do not re-enter due to danger of aftershocks.
- Stay away from buildings.
- Do not block streets as a pedestrian or with your car. Streets must remain open for emergency vehicles.

**ASSIST THE PERSONS WITH DISABILITIES- DO NOT USE ELEVATORS**

**OTHER**
- **UTILITIES**- Facilities Management will shut off gas and electricity.
- **FIRE AND RESCUE**- Facilities Management and University Police will extinguish fires and direct rescue operations.
- **FOOD AND SHELTER**:
  o Dining Services will secure food supplies and ration as situation dictates.
  o Facilities Management will valve off hot water tanks and swimming pool for emergency drinking water.
  o Residence Life will assign quarters in undamaged buildings.
  o Medical Personnel will establish first aid station and morgue as required in available buildings.
- **COMMUNICATIONS**:
  o University Police Radios
  o Facilities Management Radios
  o Environmental Health & Safety Radios
  o Convocation Center Radios
  o Parking Services Radios
  o C.B. Radios
  o Cell Phones
ACTIVE SHOOTER
If gunshots are heard, immediately take cover or evacuate the area dependent on situation. React to the following scenarios as described.

ACTIVE SHOOTER
Secure immediate area:
- Lock and barricade doors.
- Turn off lights and all audio equipment.
- Stay away from the windows. Do not try to see what’s happening.
- DO NOT sound the fire alarm. A fire alarm would signal the occupants to evacuate the building and thus place them in potential harm as they attempt to exit.
- Silence cell phones.

HOSTAGE
If you find yourself in a hostage situation:
- Do not attempt to fight back.
- Make mental notes of captor’s characteristics, sights and sounds if you are taken from campus.
- Make mental notes for possible escape avenues.
- University Police Department will involve other law enforcement agencies as necessary.

HELPING OTHERS/UNSECURING AN AREA
Classrooms should remain secure until direction is given by Law Enforcement.
- Attempts to rescue people should only be attempted if it can be accomplished without further endangering the persons inside a secured area.
- If any doubt exists for the safety of the individuals inside the room, the area should remain secured.

CONTACTING AUTHORITIES
- Dial 9-911 (campus landline), 911 (cell phone).
- Dial (870) 972-2093 to contact the University Police Department.

Be aware that the 911 system may be overwhelmed during a time of crisis. It needs to be stressed that only people who can give the location of the shooter need to be calling. People calling the emergency services for any other reason are hindering the speed and ability of law enforcement to locate the shooter and provide medical services.

- Email or QuikTip may be only option if unable to speak:
  - Email to all University Police officers: UPD@AState.edu
  - Download QuikTip app on your smartphone
    - Select Arkansas State University PD from the app’s settings to report silently and/or anonymously to University Police.
WHAT TO REPORT:
- **Location:** Building name, address and office/room number.
- **Number:** People at your specific location.
- **Injuries:** Describe number of injured and types of injuries
- **Assailant(s):** Be specific about shooter’s location, the number of suspects, race/gender, clothing description, physical features, type of weapons (such as long gun, hand gun, or knife), backpack or other bags, shooter’s identity if known, number of shots fired, any other information to assist authorities in identifying assailant.

POLICE ACTION
In the event of an actual active shooter incident, it is important to understand the responsibilities and immediate action of the University Police and local law enforcement. University Police will immediately respond to the threat. This will be to eliminate the threat or contain the suspect in a safe area. Jonesboro S.W.A.T. will be activated to achieve the same goals. **Time is of the essence and the fewer people roaming or running around, the better our chance of locating the shooter.**

DEMONSTRATION
Demonstrations are allowed on campus, but should University Police should be notified at (870) 972-2093.

STAY CALM. DO NOT PANIC.
If you encounter a demonstration on campus:
- Secure documents and equipment.
- Avoid provoking or obstructing demonstrators.
- Carry on normal activities if possible.
- If the demonstration becomes a disturbance and is outside, stay inside, away from doors or windows.

PSYCHOLOGICAL CRISIS
*Note & Precautions:* There are psychological consequences to every emergency. The Counseling Center is available to assist with post-traumatic stress in all situations. A psychological crisis exists when an individual is threatening harm to himself/herself or others, or is out of touch with reality. A psychotic break may be manifested by hallucinations or uncontrollable behavior.

WHO TO CONTACT:
When contacting the appropriate outlet, a counselor or other personnel will report to your location.
- Monday through Friday 8:00 am – 5:00 pm, call the Counseling Center at (870) 972-2318.
- After hours, call the University Police Department at (870) 972-2093.
- In a life-threatening emergency situation (i.e. involving a weapon), immediately notify UPD and Call 911
- The Dean of Students Affairs may be contacted. This will be in accordance with the University policy at (870) 972-2048).

Students experiencing a severe psychological crisis should go to the nearest hospital emergency room or contact Arkansas State University’s Counseling Center which provides individual and group counseling to currently enrolled A-State students. Its professionally trained staff seeks to assist students with social, emotional and academic concerns in a sensitive, caring and confidential manner.
BOMB THREAT CHECKLIST

If you receive a phone call from someone who is issuing threats about anything related to bombs, use the following checklist to gain appropriate information that could assist police. Try your best to **remain calm**, **keep the caller on the phone**, and **take the caller seriously**.

**ASK THE CALLER**

<table>
<thead>
<tr>
<th>Question</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>What is your name?</td>
<td></td>
</tr>
<tr>
<td>Where are you calling from?</td>
<td></td>
</tr>
<tr>
<td>Where is the bomb located?</td>
<td></td>
</tr>
<tr>
<td>When is the bomb to explode?</td>
<td></td>
</tr>
<tr>
<td>What does it look like?</td>
<td></td>
</tr>
<tr>
<td>What kind of bomb is it?</td>
<td></td>
</tr>
<tr>
<td>What will cause it to explode?</td>
<td></td>
</tr>
<tr>
<td>What is your address?</td>
<td></td>
</tr>
</tbody>
</table>

**If you can identify or if the caller states the following information, it can also be helpful:**

Sex of Caller ______ Age ______ Race ________

**CALLER’S VOICE**

**PULL FIRE ALARM IMMEDIATELY UPON RECEIVING BOMB THREAT**

**IMMEDIATELY NOTIFY**

University Police........................................................................................................(870) 972-2093

Give your name, location and telephone number. Inform the Dispatcher of the situation and provide information obtained from the call. Inform your supervisor, department head and/or hall director.
UPON ARRIVAL OF THE POLICE
- Cooperate fully with the police officers and provide them with as much information as possible.
- You may be asked to make a quick search of those areas in your office, classroom, lab or residence hall room with which you are most familiar.
- If you should spot a suspicious object or package, report it to authorities immediately. Under no circumstances should you touch it, tamper with it, or move it in any way.

BUILDING EVACUATION FOR BOMB THREAT
- All building evacuations will occur when an alarm sounds continuously and/or upon direction of the University Police or other emergency services personnel.
- Move quickly to the nearest marked exit and alert others to do the same.
- All faculty, staff, students and visitors will IMMEDIATELY evacuate the building. Information regarding the nature of the emergency will be provided once occupants are outside. EVACUATE AT LEAST 300 FEET AWAY FROM THE FACILITY.

EXPLOSION
- Sound Fire Alarm
- Evacuate Building
- DO NOT USE ELEVATORS

ASSIST PERSONS WITH DISABILITIES
Assist persons with disabilities by helping them evacuate, if possible. If not possible, move them to the nearest stairwell and notify one of the following:
- University Police…………………………………………………………………………... (870) 972-2093
- Facilities Management…………………………………………………………………………... (870) 972-2066
- Safety & Emergency Management………………………………………………………... (870) 972-2862

Following a bomb-related incident, University Police will give an “All-Clear” once it is safe to re-enter the buildings. DO NOT re-enter buildings prior to this direction.
CHEMICAL LEAK/SPILL/DISPOSAL

Notes and Precautions: The nature and quantity of hazardous substances used in laboratories requires preplanning to respond safely to chemical spills. The cleanup of a chemical spill should only be done by knowledgeable and experienced personnel. Spill kits with instructions, absorbents, protective equipment, disposal bags, and labels should be available to clean-up minor spills.

CHEMICAL SPILL

A minor chemical spill is one that the laboratory staff is capable of handling safely without the assistance of Environmental Health & Safety or emergency personnel. All other chemical spills are considered major.

Minor Chemical Spill Procedures:
- Notify Responsible Department.
- Alert people in immediate area of spill.
- Wear protective equipment including chemical splash goggles, appropriate gloves and lab coat.
- Avoid breathing vapors from spill.
- Contain spill to prevent it from leaving the immediate area.
- If trained, use the appropriate spill kit to absorb the material.
- Bag cleanup material and label it with the Hazardous Waste label and call Environmental Health & Safety for a pick-up.

CHEMICAL LEAK

A chemical leak refers to large quantities of uncontained chemicals (i.e. drums, tanks, pipes). Evacuate the area immediately and notify:
- Environmental Health & Safety.................................................................(870) 972-2862
- Facilities Management..............................................................................(870) 972-2066
- University Police......................................................................................(870) 972-2093

ASSIST THE PERSONS WITH DISABILITIES TO EVACUATE AS NEEDED

RADIATION SPILL

Notes and Precautions: Spreading of radiation beyond the spill area can easily occur by the movements of personnel involved in the spill or clean-up effort. Prevent spread by confining movements of personnel until they have been monitored and found free of contamination. DO NOT perform remedial actions without the assistance of trained personnel. For more info, reference the Radiation Safety webpage: http://www.astate.edu/a/EHS/Radiation-Safety/

RADIATION SPILL PROCEDURES
- Notify personnel in the immediate area of the spill, and prevent others from entering the area.
- Do not attempt to clean up the spill.
- Have all potentially contaminated personnel stay in one area until they have been monitored and shown to be free of contamination.

Notify:
- Radiation Safety Officer.......................................................................... (864) 710-2933
- Environmental Health & Safety.................................................................(870) 972-2862
- University Police......................................................................................(870) 972-2093
Arkansas State University has seventy-five (75) blue light emergency call boxes positioned throughout the campus. By picking up the phone and/or pressing the red button, you are connected directly to UPD. These phones should be used for emergencies and for reporting crimes or suspicious activity. Emergency phones are also located in all campus elevators.
