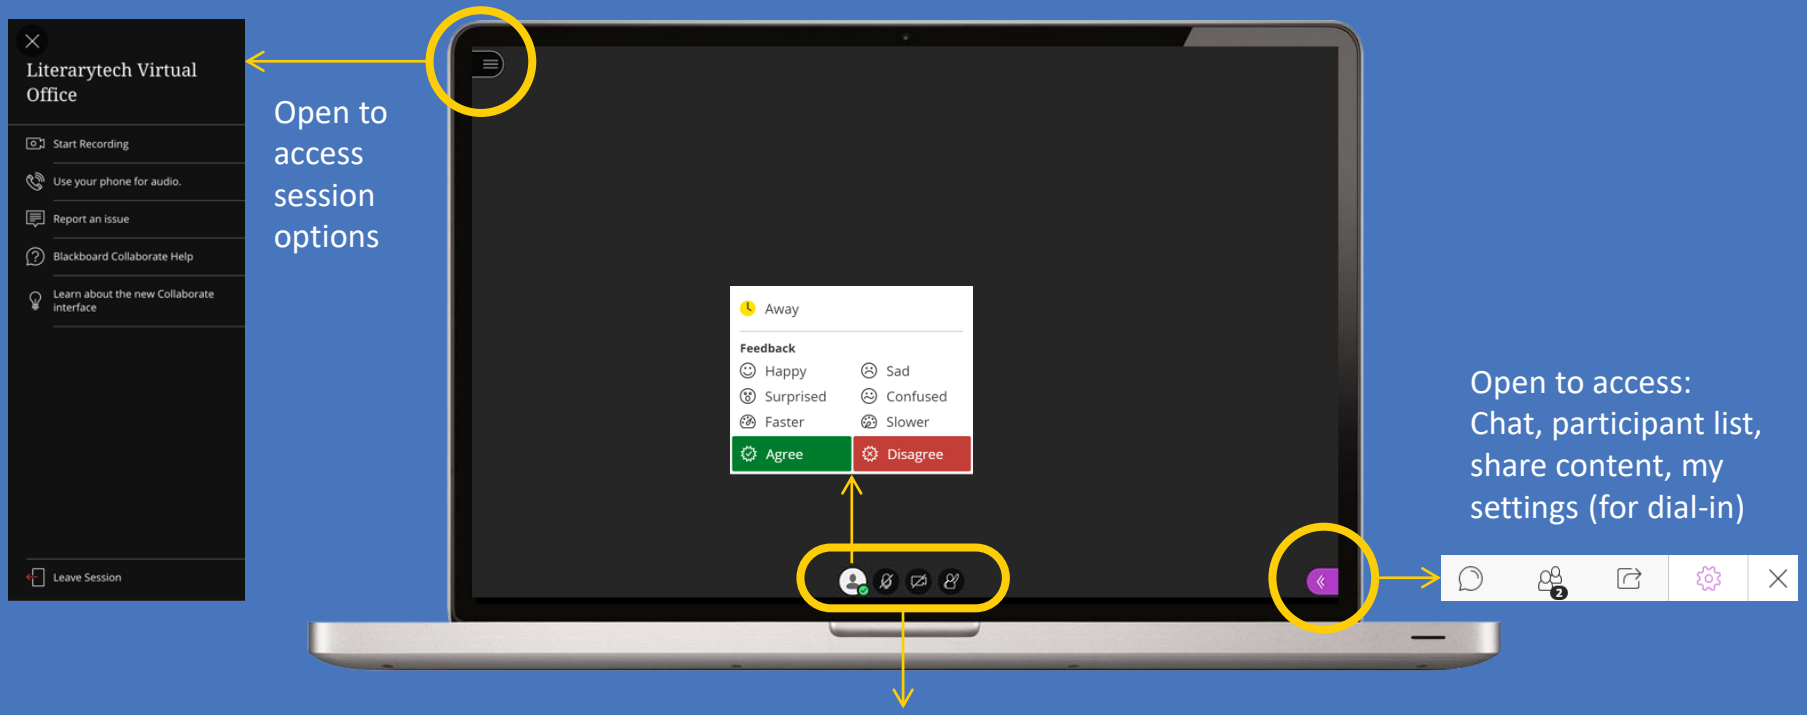
Welcome to Blackboard Collaborate. We will begin the session shortly.



Cohort: Blackboard Learn with the Ultra Experience

Session 4: Ultra Course View Deep Dive: Designing an Ultra Course

Your Cohort Team

Jasmine Banks
Client Success

Wade Fields
Product Management

Jason Hardin
Product Management

Brent Mundy
Product Management

Brad Evans
Product Management

Francesca Monaco
Product Marketing

Session		Key Topics
Week 1	**Orientation/Introduction to the Cohort & Path to the Ultra Experience**	• Cohort overview, introductions, format, and curriculum • Suggested path to the Ultra experience
Week 2	**Introduction to the SaaS Deployment for Learn**	• SaaS overview and benefits • How to make the move to SaaS
Week 3	**Introduction to the Ultra Experience for Learn**	• Ultra experience overview and benefits • Experience outside of courses, the Ultra Navigation
Today	**Ultra Course View Deep Dive: Designing an Ultra Course & Course Conversion**	• Our design approach, overview of the Ultra Course View, creating content, and course conversion
Week 5	**Ultra Course View Deep Dive: Assessment & Grading**	• Assignments, Tests, Goal Alignment, Rubrics, Gradebook, and more
Week 6	**Ultra Course View Deep Dive: Course Communication**	• Discussions, Conversations, Messages, and more
Week 7	**Learning Analytics & Integrations**	• Supporting existing and developing new integrations • Learning analytics found in the Ultra experience
Week 8	**The Ultra Roadmap, Your Path Forward, & Cohort Closing**	• The Learn roadmap for the Ultra experience • Conducting an Ultra pilot and other next steps

Today's Agenda

- Our Design Approach
- Overview of the Ultra Course View
- Content Creation
- Course Conversion

Forward-Looking Statement

Statements regarding our product development initiatives, including new products and future product upgrades, updates or enhancements represent our current intentions, but may be modified, delayed or abandoned without prior notice and there is no assurance that such offering, upgrades, updates or functionality will become available unless and until they have been made generally available to our customers.

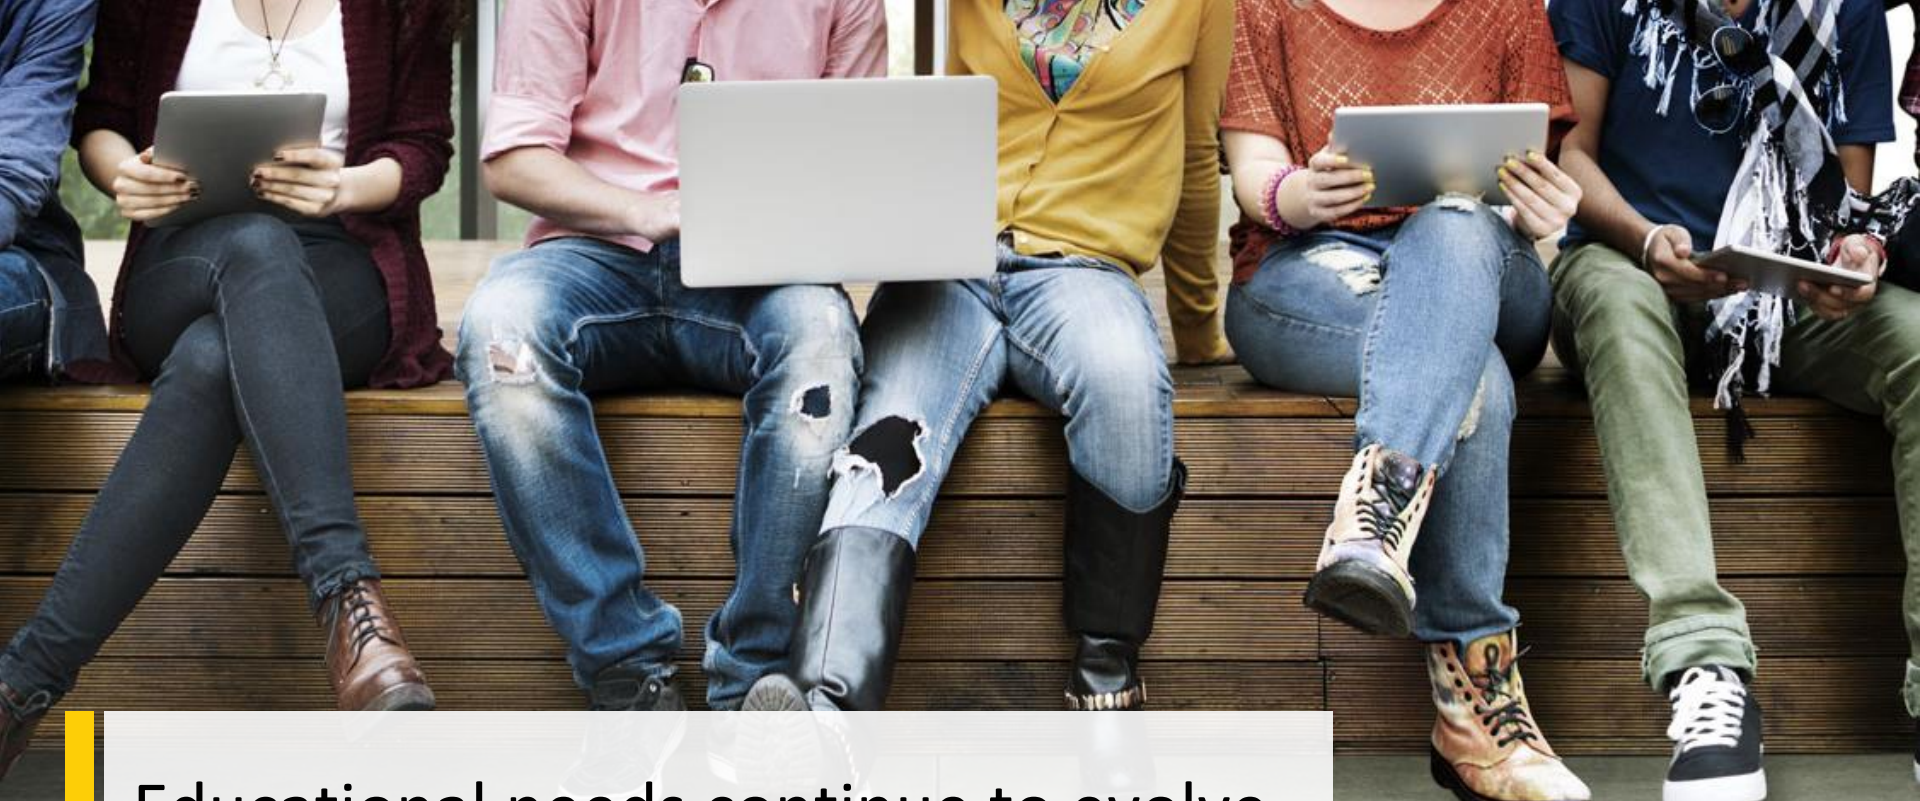
Educational needs continue to evolve.



Educational needs continue to evolve.

We must change our approach in creating

teaching & learning software.

At Blackboard, we are taking a user-centered approach in designing our emergent products.

MICROBIOLOGY
A Systems Approach

How people feel.

How people think.

The workflows they use.

the VP of product role. Can you tell me which of these
for? NO. I can't do this for you. You need to read the job description. You
need to take a look at these and honestly consider what skills – I've told
you what we need in these job descriptions.

[redacted]42

And it's always interesting too, when you have people who are like "anything – I think I could do this , I think I could do this". You couldn't say something worse to a recruiter – don't tell me you want to apply for 5 jobs because you aren't going to get any of them.

[redacted]5

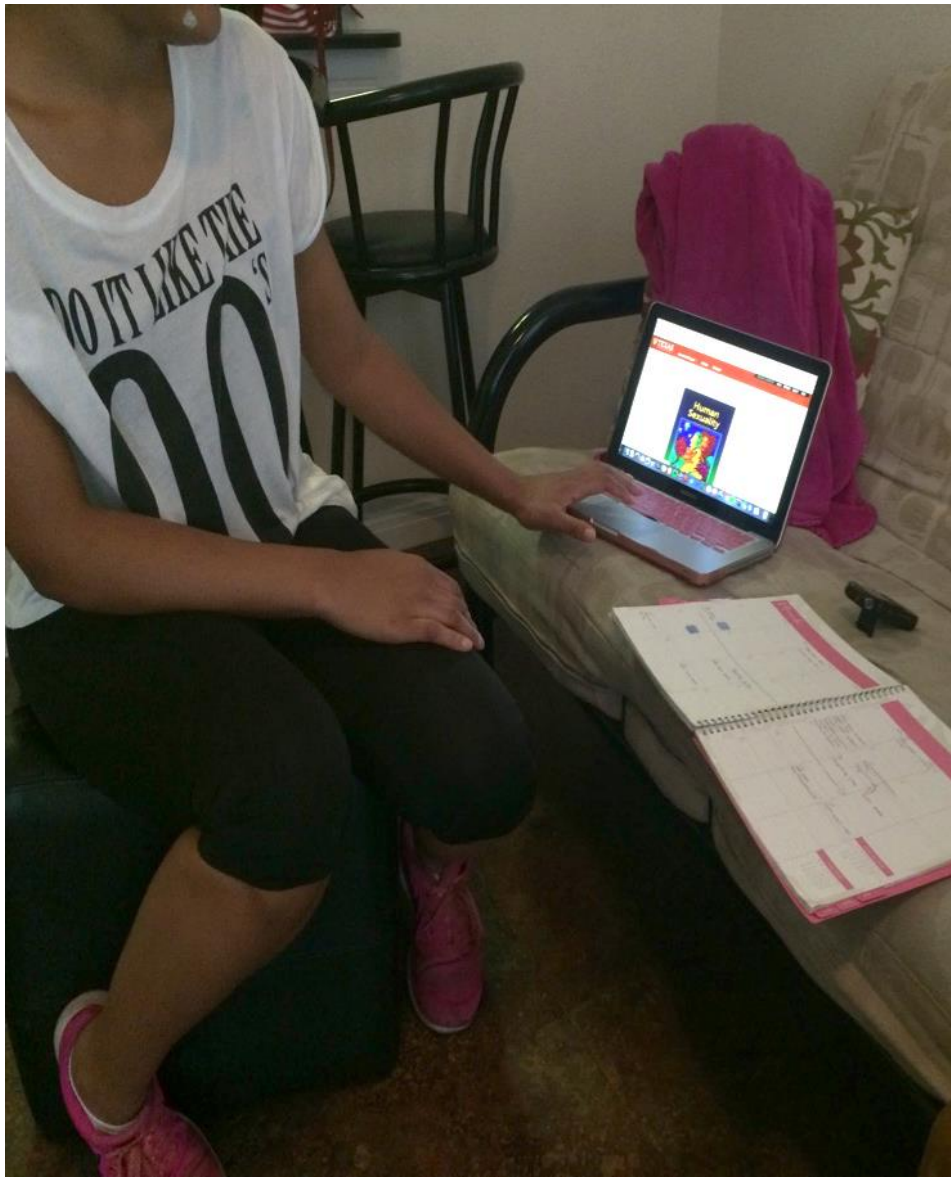
Job descriptions, that part of the problem too. They can be written super poorly – and people don't read – entry level is definitely a bit different.

“I couldn’t just look on my computer and see what I should be doing.”

Jeremiah
Junior, Public University

“I don’t have a cell mate or anything, I’m just in a padded room by myself.”

Annalisa
Senior, Public University



For Students:

Blackboard promises to offer a sense

of community, emphasizing that other people

are within “arms-reach” at any moment.

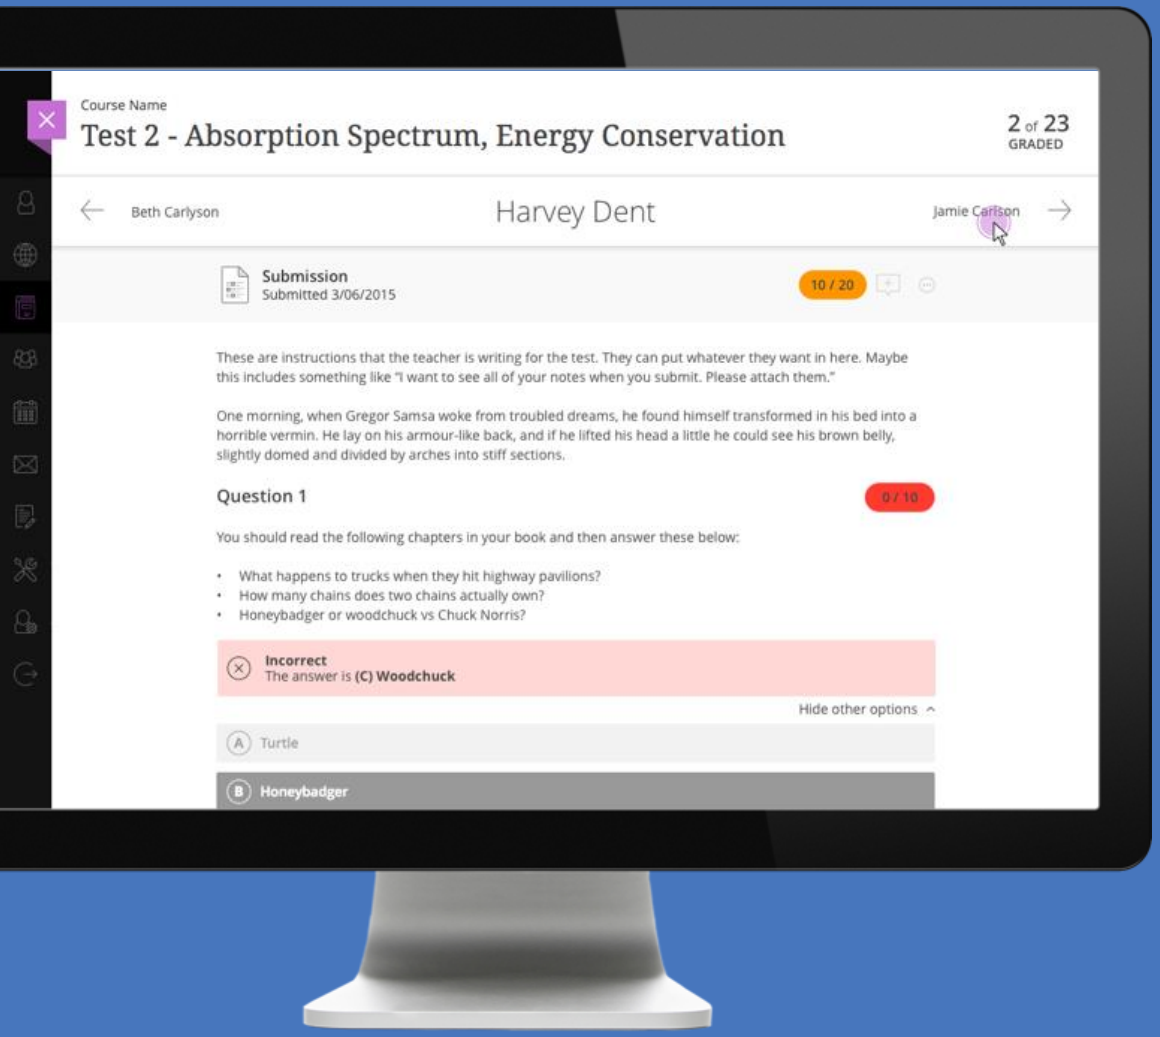
”Most faculty have no training whatsoever in pedagogy.”

Bethany
Public University



Lightning-fast

Workflows.

For Faculty:

Blackboard promises to help faculty minimize

administrative tedium, so they can focus

on their student's personal and professional growth.
