Graduation rates represent total completers within 150% of normal time.

2016-17 is the most recent cohort for which 6-year graduation rates are available.

Anytime a cell containing cohort numbers includes only one or two students, the data in that cell will be suppressed so that no individual can be identified. The totals reflect the sum of both the suppressed and reported

Cohorts are adjusted by eligible exclusions which include students:
  who died or became permanently disabled
  who left school to serve in the armed forces (or have been called up to active duty)
  who left school to serve with a foreign aid service of the Federal Government
  who left school to serve on an official church mission.
