

# Creating a Banner 9 Bookmark

When creating a bookmark for Banner 9, do not bookmark the login page. Doing so will prevent you from being able to login using that bookmark in the future.

If you try to login using a bookmark created from the login page, you will see an error like this:

**Authentication Error**

Something went wrong during the authentication process. Please try signing in again.

Instead, wait until you have successfully signed into Banner 9 before creating your bookmark. If you're not signed in, you will be prompted to login. If you're already signed in, and use your bookmark to open a second window or tab, the page will load automatically and you will not have to login again.
