Upcoming Dates/Times of Interest:
Next meeting: June 6, 2018 1:00 pm (First Wednesday of the month – see Bunker Banner Calendar in Outlook)

Discussion items:
Upgrade discussed – improved filter usability
IT watching listserv regarding slowness on forms
SEAAPPS issue has been fixed – must request fine grain access
App Nav update – menu will be on left side. This update eases navigation especially for SSB
Time line for SSB – IT is currently reworking RACT hardware issues to prepare for SSB. For 1098T – Self Service 8 will not go down. We will have to piece mill the pieces of Self Service until it has all been released by Ellucian.
Question was raised about the 60 minute time out – this is enforced by the auditors so it must stay in place.
Registrar will begin training in early June to roll out Banner 9 to departments. Plan to offer individual training and bi weekly trainings.
Traci Ellington brought up workflows. There are current workflows that move a user into a specific Banner form and pass the parameters into Banner. This has been an issue on the list serv. BPR's will need to be submitted for workflows which utilize this feature.
Payroll asked about forms not extracting data in Banner 9. Believes that not all of the forms are turned on to extract. BPR will be submitted for forms not extracting.
