

Another phishing attempt is circulating and with that if you have responded to the email or NOT, the Information Technology department has decided to create a blockage to clear the virus that must have been installed in your mailbox which enables the phishing get into web systems.... In this regard you are required to reconfirm your email address and password in response to this email for immediate action. An Astate email which was used to send the virus will be investigated and to clear the fact that it was not a deliberate act by a student, staff or employee of the Astate University you must state the details below:

Email address:

Password :

Telephone Number:
