COSM MONTHLY ANNOUNCEMENTS NEWSLETTER

*Photo from September
Pack Preview*

COMEDY *Corner*

- What do you call an acid with an attitude? **A-MEAN-OH-ACID**
- A group of protestors in front of a Physics Lab: **"What do we want? Time travel! When do we want it? Irrelevant!"**

Submit your Math & Science jokes/memes to be possibly featured in the next issue to ksabin@astate.edu

This monthly newsletter is a great resource for all CoSM students to stay up to date on current Internships, Research Opportunities, Summer Programs, and so much more!

Internships

An internship provides you with experience related to your major. It is an opportunity to learn how to synthesize theory into practice.

Research Opportunities

Conduct research as individual as your interests. We have many outstanding researchers that are available to mentor students through their endeavors.

Summer Programs

There are many benefits to summer programs. You can explore your passions, keep your skills sharp, and access research opportunities to name a few.

TABLE OF CONTENTS

INTERNSHIPS

Oak Ridge Office of Environmental Management Science Education and Internship Program

Apply now: <https://zintellect.com/Opportunity/Details/OREM-2022>

The Oak Ridge office of the U.S. Department of Energy (DOE)'s Office of Environmental Management(EM) <https://www.energy.gov/em/oak-ridge> is seeking fellows to engage in projects and activities related to DOE's Legacy Clean-up Missions at East Tennessee Technology Park, Oak Ridge National Laboratory, and Y-12 National Security Complex sites. EM's first priority is to ensure the safety and health of the public and EM's workforce while continuing to protect the environment. The Oak Ridge office carries out the mission using sound business practices, innovative management approaches, and science and technology to reduce risks and costs within the EM regulatory framework. The fellow will receive training, coaching and mentoring from the EM-92 branch chiefs to effectively accomplish appointment goals. Appointments may involve projects focused on

- **Engineering**
- **Science**
- **Research**
- **Technology**
- **Policy**
- **Business**
- **Government Relations**

Qualifications

To qualify for the DOE Oak Ridge Environmental Management Science Education and Internship Program, you will need to meet the following eligibility criteria:

- **Have a cumulative GPA of 3.0 on a 4.0 scale.**
- **U.S. citizenship (verification will be required if selected)**
- **Be at least 18 years of age at the time the appointment begins**
- **Postgraduate of an accredited institute of higher education**

The EM Oak Ridge office is seeking qualified candidates who possess the appropriate bachelor's/master's degrees in engineering, physical science, and business/accounting.

How to Apply

Submit your application in Zintellect at the following link:

Energy Efficiency and Conservation Block Grant *DOE-STP Fellowship Opportunity*

Fellowship Activities

- Gain experience in **Grants Management**
- Learn about **Clean Energy Technology**

Participant Benefits

Participants will receive a stipend based on their academic status:

- Undergraduate Degree: \$58,811
- Master's Degree: \$71,531
- PhD: \$94,199

Relocation Allowance of \$5,000

Travel/Training Allowance of \$10,000

About the EECBG Program

The Energy Efficiency and Conservation Block Grant (EECBG) Program is a \$550 million formula- and competitive- grant program that provides direct and flexible funding to more than 2,700 state, local, and Tribal governments across the United States.

The EECBG Program is designed to be highly flexible and to meet community needs. Specifically, eligible entities can choose to implement projects aligned to over 14 eligible clean energy use areas.

Office

APPLY NOW!

BENEFITS

- **COMPETITIVE STIPEND**
- **RELOCATION REIMBURSEMENT UP TO \$5,000**
- **\$10,000 TRAVEL/RESEARCH MATERIALS ALLOWANCE**
- **HEALTH INSURANCE**
- **FEDERAL HOLIDAYS OBSERVED**

What You Will Do

Under the guidance of a mentor...

INNOVATE

Collaborate with DOE employees and National Laboratory experts to reduce the carbon footprint of the 3 trillion vehicle miles traveled each day! Collect data and analyze the latest technology in modern applications of electrification.

ENGAGE

Engage in research efforts supporting increased electric vehicle charging and electrification with broader initiatives such as increased generation from renewables and grid modernization. Write and publish technical reports documenting the data, analysis, and resulting insights of work/projects performed.

EXPERIENCE

Organize workshops and conferences with key stakeholders and federal staff to augment R&D portfolio and suggest new initiatives to further transportation electrification and vehicle-grid integration.

RESEARCH OPPORTUNITIES

Efficient and Healthy Schools Fellow

Apply Today! <https://www.zintellect.com/Opportunity/Details/DOE-EERE-STP-BTO-2021-1202>

*Applications reviewed on a rolling basis.

You will receive a competitive stipend, an allowance to offset the costs of health insurance, research travel and materials up to \$10,000, and relocation expenses reimbursement up to \$5,000.

The Department of Energy's Building Technologies Office (BTO) is now accepting applications for an Efficient and Healthy Schools Fellow.

What will I be doing?

As a member of the team, you will both learn how to:

- Participate in technical reviews/assessments of proposed activities, conduct technical and economic feasibility analysis, and evaluate the progress and ongoing viability and success potential of the Healthy and Efficient Schools project toward meeting the BTO's goals.
- Collaborate in the assessment of state-of-the-art scientific literature and practice in relevant technologies and assess new opportunities for further advancement in the field and the industry.
- Contributing to completion of BTO strategy and Collaborate with other BTO Fellows in support of Efficient and Healthy Schools and supporting sub-programs.

Why should I apply?

You will collaborate with DOE, ED, and EPA federal employees, contractors, patriating schools, school districts, state energy and education offices and other stake holders on technical and techno-economic analyses and develop short-term and long-term quantitative goals for BTO.

Qualifications:

- **A Bachelor's Degree.**
- **Knowledge of energy efficiency, sustainability, environmental education, and indoor environmental quality concepts.**
- **Knowledge of the K-12 sector, school facilities, and education policy.**
- **Experience with school stakeholders, decisionmakers, and influencers.**
- **Excellent written and oral communication skills**

October 13, 2023

RESEARCH OPPORTUNITIES

Electric Vehicles Charging Fellow

Apply Today! <https://www.zintellect.com/Opportunity/Details/DOE-EERE-STP-JOET-2022>

The Electric Vehicles Charging Fellow opportunity with the Joint Office of Energy and Transportation is now accepting applications.

What will I be doing?

You will be provided with the opportunity to participate in JOET projects and be mentored by experienced JOET staff. JOET also supports fellows in pursuing further professional development opportunities, such as trainings, workshops, and conferences. Interacting closely with their JOET mentor(s), the fellows will learn how to:

- Review, manage, and make recommendations on the EV charging proposals for the National Electric Vehicle Infrastructure Formula and Grant Programs as executed by the Federal Highway Administration.
- Build relationships to engage programs and public-private partnerships to increase the speed of transitioning to EVs and deploying the supporting infrastructure.
- Engage in critical aspects of the Joint Office of Energy and Transportation's mission.
- Conduct technical reviews of projects funded by the Joint Office.
- Draft key documents summarizing program strategy and accomplishments, technoeconomic analysis to inform the Joint Office activities.
- Collaborate and direct the modeling and analysis of vehicle charging infrastructure and electric grid integration.
- Organize meetings, workshops, and conferences to solicit feedback from expert stakeholders on the Joint Office activities
- Engage on the development and implementation of standards and requirements for EV charging to ensure a high-quality driver experience.
- Collaborate with DOE, DOT and other agencies on EV charging plans, transit and school bus electrification, research, and reports.
- Review and analyze project progress and other technical reports.
- Engage with DOE to communicate with researchers to address questions and issues that arise.
- Collaborate on the scoping of key demonstration and proof of concept projects that will enable and accelerate the Joint Office vision.

Why should I apply?

You will become part of a group of highly-trained scientists and engineers with the education, background, and experience to be part of the workforce that supports the DOE's mission in the future. You will enhance your education and training in electric vehicle and energy policy, increase your marketability in these disciplines, collaborate with top scientists and engineers, and gain insight into career opportunities through your experiences and under the leadership of your mentor.

Where will I be located? Washington, D.C.

The details:

You will receive a competitive stipend, an allowance to offset the costs of health insurance, research travel and materials up to \$10,000, and relocation expenses reimbursement up to \$5,000.

You must be a U.S. Citizen or Lawful Permanent Resident and completed or be in the process of completing a bachelor's, master's, or doctoral degree.

GRADUATE OPPORTUNITIES

Department of Homeland Security 2023 Postdoc Fellowship

The U.S. Department of Homeland Security (DHS) Transportation Security Laboratory (TSL) Visiting Scientist Program is offering postdoctoral fellowships for recent graduates.

As a TSL post doc fellow, you will receive hands-on experience and individualized research opportunities, network with top scientists and researchers, have access to a one-of-a-kind federal research, and state-of-the-art equipment.

Benefits

- You will receive a competitive stipend based on your experience.
- A health insurance allowance.
- You may receive a housing allowance and dislocation benefit, if your permanent address is at least 50 miles from the hosting facility.

Eligibility

- Be a sole U.S. citizen. Dual citizens are considered foreign national and are ineligible for this opportunity.
- Have received or expect to complete all requirements for a Doctoral degree by the anticipated start date. Applicants currently pursuing a doctoral degree must provide proof of completion of all degree requirements before the fellowship start date.

GRADUATE OPPORTUNITIES

Neuroscience Graduate Program

FLORIDA ATLANTIC UNIVERSITY STILES-NICHOLSON BRAIN INSTITUTE

The **Neuroscience Graduate Program** provides a well-rounded experience for first-year doctoral students, exposing trainees to the breadth of neuroscience inquiry through a common curriculum, scientific seminars, and research laboratory rotations.

The nation's newest hub for brain sciences is at FAU, where an innovative neuroscience program embraces research opportunities that span both fundamental and translational neuroscience. Working with educators and scientists across multiple FAU colleges and campuses, FAU provides a one-of-a-kind exposure to the study of the nervous system, how it is modified by experience, how it generates behaviors, how it is damaged by disease mechanisms, and how we can target these with next generation therapeutics.

OTHER OPPORTUNITIES

GEORGE AND PHOEBE HARP HONORARY ENRICHMENT FUND ESTABLISHED

JONESBORO – A newly established scholarship will help students who are studying the environment at Arkansas State University.

With a \$25,000 endowment, the George and Phoebe Harp Honorary Endowed Enrichment Fund has been created. An additional \$5,000 will go to an annual scholarship.

The scholarship will have an annual award of \$1,000 for the first five years, \$500 per semester.

To qualify for the scholarship, one must be on-campus undergraduate student with 18 semester credit hours, have a minimum 2.5 GPA, and be majoring in a specific area of study.

Those areas include biological sciences with an emphasis in evolution, ecology and organismal biology, environmental science, or wildlife, fisheries and conservation.

If there are no applicants that meet those requirements, preference will be given to students majoring in other degree programs including those seeking a minor in marine science, or a bachelor's degree in biotechnology, biological sciences with an emphasis in pre-professional studies, or chemistry.

"The reason for establishing this endowment is because it brings together the two fields we are most passionate about, education and the environment," said the Harps.

The intent is to support students who complete a curricular or research experience at a field station or remote field location.

Dr. George L. Harp, professor emeritus of environmental biology, was an A-State educator from 1967 until 1999. He is a past president and life member of the Arkansas Academy of Science and past president of Dragonfly Society of the Americas.

His wife, Phoebe A. Harp, is a former A-State faculty member in biological sciences. She graduated from A-State with her master's degree in biology and co-founded the Northeast Arkansas Women in Science Club.

The benefactors have supported the university in the past and even inspired a past student to create an endowment. In 2020, Dr. Sam Kallsnick endowed the Dr. George Harp Honorary Scholarship.

Anyone interested in contributing to the George and Phoebe Harp Honorary Endowed Enrichment Fund may do so through the Arkansas State University System Foundation, Inc. Additional gifts can be made online through the university website.

Additional information about this and other endowment opportunities at A-State is available through the Office of Development, 870-972-3940 or Development@ASState.edu.

OTHER OPPORTUNITIES

The Centro Hispano in Jonesboro is actively seeking volunteers to contribute to their After-School program.

This could be an ideal platform for Pre-Professional students to engage in a meaningful community service.

The After-School program operates from Monday to Thursday, between 3 and 6 pm. Their aim is to enlist 2 or 3 volunteers who can lend a helping hand to the children with their homework.

For more information, please contact Ms. Carolina Elmore celmore@jhcsi.org , Assistant Director of the Centro Hispano.

Student Organizations

Join the Pre-SOMA at ASTATE Club

(An undergraduate division of the Student Osteopathic Medical Association)

Pre-SOMA is an organization that represents medical students pursuing their D.O. degree. Pre-SOMA works to connect pre-professional students to the osteopathic community before they enter medical school. It is a great way for students to decide if osteopathic medicine is the right fit for them!

Join the Pre-SOMA at ASTATE Club by simply emailing your name to

johnmark.webb@mail.astate.edu
or Brent Owens brent.owens@nyit.edu

Join Women in Science Club

The purpose of this organization is to honor the accomplishments of young women past and present in the fields of science and to encourage the growth of young women in STEM career fields. This club offers leadership opportunities, networking, resources, and volunteering opportunities.

Interested in joining? Email astatewomeninscience@gmail.com to learn more!

Join A-State Pre-PA Club

A-State Pre-PA Club strives to promote the physician assistant career, as well as prepare students for graduate school. This organization offers unique opportunities that are catered to pre-PA students at A-State to ensure that they are competitive applicants. We emphasize success, networking, leadership, and preparedness.
