

College of Education and Behavioral Science – Procedure Manual

Effective Date: 6/20/2012

Procedure Number: 03 - 09

Section: Committee Structure and Representation

Subject: General Education Representative

One tenured faculty member is selected by the chair of a department within the College of Education and Behavioral Science, which offer general education courses. If more than one department has a general education course, representation will alternate between departments. The selected faculty member will serve as the representative on the University General Education Committee. Terms are for three years.

The purpose of the University General Education Committee (GEC) is to provide guidance and direction to the VCAAR to improve the quality and relevance of the University's general education curriculum. The GEC considers proposals for modification of the general education curriculum and reviews each course in the general education program once every four years to determine its acceptability as a general education course. The GEC will review assessment data on the general education program provided by the Assessment Office and make recommendations to the VCAAR.
