Coverage for Emergency Air Transportation by fixed-wing aircraft shall be due, exclusively, to: (a) the unavailability and/or inefficiency of transport by rotary aircraft or ground transport, and (b) necessity of specialized treatment for a Serious Emergency not immediately available locally. Transport must result from the request or recommendation by a first-responder or transferring Physician who deems Emergency Air Transportation medically necessary. Services must be provided by a medically equipped helicopter or fixed-wing aircraft that is provided by a common air ambulance carrier. MASA MTS shall cover the lesser of (i) Member's Out-of-Pocket Expenses or (ii) twenty thousand dollars (\$20,000). In the event that such reimbursement is unable to fully extinguish Member's liability for such transportation. MASA MTS shall make such payment to the Member directly, unless otherwise directed by Member.

Emergency Ground Ambulance Coverage. MASA MTS shall cover Out-of-Pocket Expenses incurred by the Member resulting from Emergency Ground Transportation, necessitated by a Serious Emergency, to the nearest and most appropriate Medical Facility readily capable of receiving a Member and providing the necessary level of care, as may be required due to the Serious Emergency, or to a Suitable Airport for the purposes of Emergency Air Transportation, as may be required by the Serious Emergency.

Hospital to Hospital Ambulance Coverage. MASA MTS will cover Out-of-Pocket Expenses incurred by the Member associated with the Member's hospital to hospital transfer, necessitated by a Serious Emergency, by a medically-equipped, ground ambulance, rotary (i.e., helicopter) or fixed-wing aircraft from a Medical Facility where the Member is presently admitted to the nearest and most appropriate Medical Facility, capable of providing the necessary, specialized level of care, as may be required and that is not available at the sending facility and ordered by the treating physician.

Repatriation to Hospital Near Home Coverage. MASA MTS will provide services and Out-of-Pocket Expenses associated with the coordination of an Member's non-emergency transport by a medically-equipped ground ambulance, rotary (i.e., helicopter) or fixed-wing aircraft in the event the Member is hospitalized more than one hundred (100) statute miles from the Member's Residence and the Member's treating Physician and MASA's Medical Director determine it is medically appropriate to transfer the Member to a Medical Facility nearer to the Member's Residence for continued care and recuperation. Although every effort will be made to transport the Member to Medical Facility of the Member's

choice, some factors outside of the MASA MTS's control may limit ability to fulfill the Member's request. Such factors include, but not limited to, no bed available at requested Medical Facility and required services for the Member's condition are not available at requested facility. Such transportation services may be provided by a common carrier and/or ground ambulance with a paramedic assist, if appropriate. Such services shall be provided contingent upon (i) Certification by Member's treating Physician and MASA MTS's Medical Director and (ii) Member's compliance with the Access of Services provision of this Agreement.
