

# NEXT STEPS

## ACCEPTANCE EMAIL

If the student meets all application requirements, an email with the next steps will be sent to the email address used for the admission application. The acceptance email contains videos on how to activate a student account, obtain course information for registration, how to register for a course and the parent consent form.

## ACTIVATION

First, students will need to activate their my.Astate student account. A student account must be activated in order to register for courses, access your course if the course is an online course, and pay for tuition. A link for an activation video will be included in the acceptance email.

## COURSE TOOL

Once a new student has activated their my.AState student account, the next step is registering for the course(s) he or she wishes to be enrolled in. The course tool is a resource for students to identify by high school available courses for the corresponding term; and gather critical information for the registration process. The course registration number (CRN) is what will be used during the registration process. A link for a course tool video will be included in the acceptance email.

## REGISTRATION

Students registers themselves for the course(s) they wish to take. A student registers for enrollment through their my.Astate portal (student account) under the Banner Self Service tab. A link on how to register for courses will be included in the acceptance email.

## PARENTAL CONSENT FORM

All Early College Program students must have a parent consent form on file. A parent must complete the form. A link to the parent consent form will be included in the acceptance email.

**A NEW EARLY COLLEGE PROGRAMS STUDENT IS NOW READY FOR  
THEIR FIRST SEMESTER AT A-STATE!**
