**Public Transportation System**

---

SHORT TITLE: A resolution fully supporting the proposed Public Transportation System within the City of Jonesboro and Craighead County.

Whereas, Jonesboro is the largest Metropolitan Statistical Area (MSA) within the mid-south region without a public transportation system, and

Whereas, the students of Arkansas State University constitute a large portion of the population of the City of Jonesboro, and

Whereas, students would often use a public transportation system to commute to campus, reliving parking issues, and

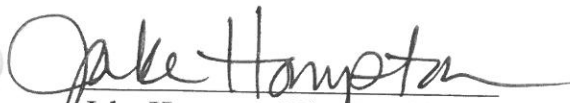

Whereas, a public transportation system within Jonesboro would ensure that the students of Arkansas State University have access to local businesses and events as well as providing the community with transportation to ASU events.

BE IT THEREFORE RESOLVED BY THE STUDENT GOVERNMENT ASSOCIATION OF ARKANSAS STATE UNIVERSITY THAT:

1. The Executive Staff is fully authorized to join Arkansas State University, the Greater Jonesboro Chamber of Commerce, St. Bernard's Hospital, and Riceland Foods in supporting the Northeast Arkansas Transit Authority's proposed public transportation system.
