Implementation of Phone and Web Log for Lost and Found Items

Short Title: A resolution that will implement a lost and found web site and phone line where students may report lost items or log the location of found items.

Whereas, currently, there are numerous locations on campus where lost items may be sent and never retrieved, and

Whereas, the individual lost and found locations have no communication with one another, and

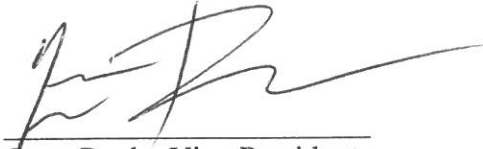

Whereas, some students are not aware of where the lost and found locations are, and

Whereas, a former attempt of a central lost and found was unsuccessful.

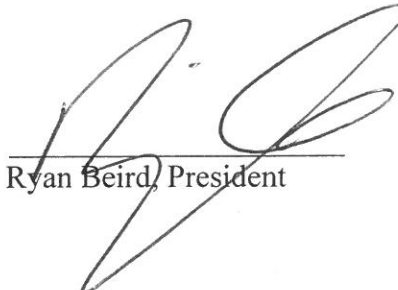

BE IT THEREFORE RESOLVED BY THE STUDENT GOVERNMENT ASSOCIATION OF ARKANSAS STATE UNIVERSITY THAT:

A web site be created that allows students to enter and look up items that have been either lost or found, and that a phone line will also be available for students to call and report the location of found items so that they may be easily retrieved.
