

ARKANSAS STATE UNIVERSITY
Undergraduate Bulletin
2013-2014

Educate • Enhance • Enrich

Arkansas State University

STUDENT RESPONSIBILITY

Each student should study this **Undergraduate Bulletin** and become completely familiar with the organization and the regulations of the university. **Failure to do this may result in serious mistakes for which the student shall be held fully responsible.**

POLICY STATEMENT

Policies and procedures stated in this bulletin—from admission through graduation—require continuing evaluation, review, and approval by appropriate university officials. All statements reflect policies in existence at the time this bulletin went to press, and the **university reserves the right to change policies at any time and without prior notice.**

University officials determine whether students have satisfactorily met admission, retention, or graduation requirements. Arkansas State University reserves the right to require a student to withdraw from the university for cause at any time.

EQUAL OPPORTUNITY/AFFIRMATIVE ACTION

Arkansas State University is an Equal Opportunity/Affirmative Action Employer with a strong institutional commitment to the achievement of excellence and diversity among its faculty and staff. To that end, the University provides opportunities in employment practices, admission and treatment of students without regard to race, color, religion, age, disability, gender, national origin, or veteran status. ASU complies with all applicable federal and state legislation and does not discriminate on the basis of any unlawful criteria.

Questions regarding this policy should be addressed to the Affirmative Action Program Coordinator, P.O. Box 1500, State University, Arkansas 72467. Telephone (870) 972-3658.

SERVICES FOR INDIVIDUALS WITH DISABILITIES

Arkansas State University's Coordinator of Services to students, faculty and staff with disabilities is also the university's compliance coordinator for Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) and the ADA Accessibility Guidelines (ADAAG). In this capacity, the coordinator arranges for academic adjustments and auxiliary aids to be provided to qualified students and coordinates workplace accommodations. The coordinator also is the individual to whom concerns about physical access to facilities, buildings and grounds should be addressed. The coordinator's office is located on the second floor (Room 2181) of the Reng Student Services Center. The telephone number is (870) 972-3964. The number for the Telecommunications Device for the Deaf (TDD) is (870) 972-3458.

Arkansas State University will provide auxiliary aids, without cost, to those students with verified disabilities who require such services. If service providers are necessary, Arkansas State University will provide appropriately trained providers (other than paid tutors).

ACCREDITATION OF PROGRAMS

Arkansas State University's academic programs are accredited by the regional accrediting agency for all programs. Individual programs are accredited by specialized accrediting agencies for the respective programs.

INSTITUTIONAL MEMBERSHIPS

Arkansas State University holds institutional membership in agencies, councils, and organizations important to the quality of its academic programs. Major memberships are shown below.

American Assembly of Collegiate Schools of Business
American Association of Colleges for Teacher Education
American Association of Colleges of Nursing
American Association of State Colleges and Universities
American Association of State Colleges of Agriculture and Renewable Resources
American Mathematical Society
Association for University Business and Economic Research
Association of College Educators in Radiologic Technology
Association of Schools of Allied Health Professions
Association of Schools of Journalism and Mass Communications
Broadcast Education Association
Council for Accreditation of Educator Preparation
Council for Advancement and Support of Education
Council of Graduate Schools in the United States
Council on Social Work Education
European Teacher Education Network
International Registry of Counsellor Education Programs (Founding Member)
International Student Exchange
National Association of Schools of Art and Design
National Association of Schools of Music
National Association of Schools of Public Affairs and Administration
National Collegiate Honors Council
National Council on Rehabilitation Education
National League for Nursing
National Student Exchange
North Central Association of Colleges and Schools
Oak Ridge Associated Universities*
Southern Council on Collegiate Education for Nursing
Teacher Education Council of State Colleges and Universities
American Association of Museums
American Chemical Society

ORAU MEMBERS

Since 2004, students and faculty of Arkansas State University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of under-represented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at <http://see.orau.org>, or by calling either of the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Andrew Sustich
Associate Vice Chancellor for Research and Technology Transfer
ORAU Councilor for Arkansas State University

ORGANIZATION OF THE UNIVERSITY

BOARD OF TRUSTEES—2013-2014

	Term Expires
Mike Gibson, Osceola	January, 2014
Dan Pierce, Jonesboro	January, 2015
Charles Luter, Paragould	January, 2016
Howard Slinkard, Rogers	January, 2017
Ron Rhodes, Cherokee Village	January, 2018

OFFICERS OF THE BOARD—2013-2014

Mike Gibson	Chair
Dan Pierce	Vice-Chair
Charles Luter	Secretary

PRESIDENT OF THE UNIVERSITY SYSTEM

Charles Welch, B.A., M.A., Ed.D

CHANCELLOR OF THE UNIVERSITY

Tim Hudson, B.A., M.A., Ph.D

OFFICERS OF THE UNIVERSITY 2013-2014

EXECUTIVE OFFICERS

TIM HUDSON, 2012

B.A., University of Southern Mississippi
M.A., University of Southern Mississippi
Ph.D., Clark University

Chancellor of the University
—Professor of International Management/
International Business

LYNITA M. COOKSEY, 1993

B.S., Arkansas State University
M.S., Arkansas State University
Ph.D., Oklahoma State University

Vice Chancellor and Provost
—Associate Professor of Environmental Entomology

LEN FREY, 2000

B.S., Arkansas State University
M.B.A., Arkansas State University
Ph.D., University of Memphis

Vice Chancellor for Finance and Administration
—Professor of Management

JASON PENRY, 2012

B.A., Louisiana State University
M.S., Louisiana State University
Ph.D., Texas A & M University

Vice Chancellor for University Advancement

WILLIAM R. STRIPLING, 1979

B.A., University of Tampa
M.R.C., Arkansas State University
Ph.D., Southern Illinois University

Vice Chancellor for Student Affairs
—Associate Professor of Educational Leadership

OFFICERS OF THE UNIVERSITY 2013-2014

Academic Deans and Chair of Independent Department

TIMOTHY BURCHAM, 2013 B.S., Mississippi State University M.S., Mississippi State University Ph.D., Clemson University	Dean, College of Agriculture and Technology —Professor of Agricultural Engineering
JIM WASHAM, 1991 B.S., Arkansas State University M.B.A., Arkansas State University Ph.D., University of Mississippi	Interim Dean, College of Business —Professor of Finance
THILLAINATARAJAN SIVAKUMARAN, 2012 B.S., University of Washington M.S., University of Tennessee Ph.D., University of Tennessee	Dean, College of Education —Associate Professor of Educational Leadership and Curriculum
DAVID BEASLEY, 2009 B.S., Mississippi State University M.S., Mississippi State University Ph.D., Purdue University	Dean, College of Engineering —Professor of Engineering
DONALD BOWYER, 2012 B.A., West Virginia Wesleyan College M.A., California State University D.A., University of Northern Colorado	Dean, College of Fine Arts —Professor of Music
LAURI UMANSKY, 2012 B.A., University of Massachusetts—Boston M.A., Brown University Ph.D., Brown University	Dean, College of Humanities & Social Sciences —Professor of History
BRAD RAWLINS, 2012 B.A., Washington State University M.A., University of Alabama Ph.D., University of Alabama	Dean, College of Media and Communication —Professor of Journalism
SUSAN N. HANRAHAN, 1995 B.S., University of Kansas M.P.A., University of Kansas Ph.D., Temple University	Dean, College of Nursing and Health Professions —Professor of Physical Therapy
JOHN PRATTE, 2006 B.S., University of Texas Ph.D., University of Colorado	Dean, College of Sciences and Mathematics —Professor of Physics
JILL SIMONS, 1997 B.F.A., University of Arkansas M.S., University of Rhode Island S.C.C.T., Arkansas State University Ed.D., Arkansas State University	Dean of University College

OFFICERS OF THE UNIVERSITY 2013-2014

GINA HOGUE, 1990 B.S.E., Arkansas State University M.S.E., Arkansas State University Ph.D., University of Memphis	Associate Vice Chancellor for Academic Services —Associate Professor of History
CECIL L. CLARK, 2011 B.A., University of Louisiana at Monroe M.A., American Military University	Chair, Independent Department of Military Science —Professor of Military Science
JEFF BAILEY, 1992 B.A., Morehead State University M.L.S., Clarion University of Pennsylvania	Director, Library
BEVERLY BOALS GILBERT, 1978 B.A., University of Mississippi M.S.E., University of Mississippi Ed.D., University of Mississippi	Dean, Continuing Education and Community Outreach —Professor of Teacher Education
ANDREW SUSTICH, 1991 B.S., University of Illinois—Urbana-Champaign M.S., University of Illinois—Urbana-Champaign Ph.D., University of Illinois—Urbana-Champaign	Vice Provost for Research and Graduate Studies —Professor of Physics

The University

MISSION

Arkansas State University *educates* leaders, *enhances* intellectual growth, and *enriches* lives.

CORE VALUES

Arkansas State University values the following as central to our success:

- **Student-Centered:** We are committed to education, inquiry and service in order to meet students' changing needs. We foster lifelong learning, civic and social responsibility, leadership, and individual and career growth.
- **Learning-Centered:** We nurture intellectual flexibility, knowledge and skills by integrating teaching, research, assessment and learning to promote continuous improvement of our scholarly community.
- **Excellence:** We pursue excellence within the campus community through opportunities for achievement in teaching, research, scholarship, creative activity and service.
- **Diversity:** We embrace diversity in all of its dimensions realizing that mutual respect for individuality and the inclusion of all are vital for both personal and institutional success.
- **Service:** We support and recognize service at all levels of the university. We strive to contribute to the benefit of the university, the Delta, the state, the nation and the world.
- **Integrity:** We hold high standards of character and integrity as the foundations upon which the university is built.

VISION

Arkansas State University aspires to be an academic leader recognized for innovation and quality in teaching and learning, international standing in strategic research areas, and commitment to outreach and service to the Delta and beyond.

LOCATION

The university is located about halfway between the Mississippi River Valley, one of the most fertile areas in the world, and the Ozark Mountains, rich in American folklore and tradition. The university campus occupies an area of 800 acres on the gently rolling slopes of Crowley's Ridge, in the City of Jonesboro.

HISTORY

Arkansas State University enjoys a reputation as a quality regional institution of higher education and is recognized for offering special services to the people of the Arkansas Delta. It is the only comprehensive public university located in this region. Dedicated to teaching, research, and service, the university provides students with the broad educational foundations that help develop critical thinking and analytical skills, decision-making capabilities, and communication skills.

This institution was founded in Jonesboro in 1909 by the Arkansas Legislature as a regional agricultural training school. It began offering a two-year college program in 1918, then became "First District Agricultural and Mechanical College" in 1925. A four-year degree program was begun in 1930, and A & M College became "Arkansas State College" in 1933. The Arkansas Legislature elevated the college to university status and changed the name to Arkansas State University in 1967. Today, the institution has more than 63,000 alumni.

Degree Programs: Master's degree graduate programs were initiated in 1955, and ASU began offering its first doctoral degree, in educational leadership, in the fall of 1992. A second doctoral program in environmental science began in the fall of 1997, and the doctoral program in heritage studies began in the fall of 2001. The molecular biosciences doctoral program began in the spring of 2006. Programs at the specialist's, master's, bachelor's and associate's degree levels are available through various colleges: Agriculture, Business, Communications, Education, Engineering, Fine Arts, Humanities and Social Sciences, Nursing and Health Professions, Sciences and Mathematics, and University College.

Classes are also offered through The Honors College and the independent Department of Military Science. More information about the various colleges and academic departments is available through the Office of Academic Affairs and Research.

Accreditation: Arkansas State University's commitment to excellence in higher education is demonstrated by its accreditation by The Higher Learning Commission of the North Central Association of Colleges and Schools, as well as over 20 specialized accrediting organizations. In addition, the university holds membership in several national organizations which support the highest educational standards.

The ASU System: The ASU System includes campuses at **Jonesboro** (Craighead County), which offers degree programs through the doctoral level; **Beebe** (White County), **Mountain Home** (Baxter County), **Newport** (Jackson County), and **Heber Springs, Marked Tree and Searcy** where associate degree programs are offered. Arkansas State University-Beebe became part of the ASU system in 1955. It associated with White River Vo-Tech at Newport in 1992; that campus has attained stand-alone status and is now Arkansas State University-Newport. The Mountain Home campus officially became ASU-Mountain Home on July 1, 1995. Delta Technical Institute at Marked Tree merged with ASU and became Arkansas State University Technical Center on July 1, 2001 and currently operates under ASU-Newport. ASU-Heber Springs, operates as a sister campus of ASU-Beebe. Foothills Technical Institute at Searcy merged with ASU-Beebe on July 1, 2003, and is now ASU-Searcy, a technical institute of ASU-Beebe.

ASU offers bachelor's degree programs, master's degree programs and upper-level courses through ASU degree centers at ASU-Beebe, ASU-Mountain Home, and three other cities -- Blytheville, Forrest City and West Memphis -- where partnership agreements have been established in cooperation with the local community colleges. ASU also operates an instructional site at nearby Paragould, in Greene County.

LIBRARY

The Dean B. Ellis Library, centrally located in an eight-story building, functions as an educational center for the university community. It houses an open shelf collection which includes over 620,000 print books and periodicals, 500,000 federal and state documents, 590,000 units in microform, and provides online access to millions of books, articles, and other resources, including more than 200,000 eBooks. The collection encompasses all subject fields, but emphasizes subjects covered by Arkansas State University courses and degree programs. The Library of Congress classification system is used for the arrangement of books, and an online catalog provides access to its print collection and electronic resources. Reserve items are available at the Circulation Desk.

The library meets the informational needs of the university by offering a variety of services. A staff of 15 professional librarians and 20 support personnel acquires, organizes, and services the collection and provides access to online resources. Reference librarians assist users in locating information and in the use of the library. The reference staff also offers an active library instruction program which reaches numerous university classes. Online databases provide access to large numbers of journals, books, and data not housed within the library. Materials that are not contained in the library's collections may be borrowed from other libraries through Interlibrary Loan.

Special collections include 1) the Cass S. Hough Aeronautical Collection of 14,000 books and memorabilia which has been described as the single most valuable collection of aviation materials in private hands; 2) an outstanding collection of Lois Lenski books for children; 3) collections of notable Arkansas authors of children's books: Charlie May Simon, Lois Snelling, Faith Yingling Knoop; and 4) a collection of Arkansas writer John Gould Fletcher.

The Tom Love Collection forms the nucleus of an extensive "Arkansas Collection." It is comprised of manuscripts, documents, and other historic materials relating to the state of Arkansas. In addition, the Arkansas Room collection contains Arkansas topographic and other maps, Arkansas State University publications, and the student newspaper, The Herald.

The Honorable E. C. Gathings Collection is comprised principally of correspondence from Arkansas' long-time congressional representative, making available primary research materials relating to the First Congressional District during Gathings' time of service in the Congress.

The Honorable Bill Alexander Collection expands and extends the research materials relating to the First Congressional District through Congressman Alexander's tenure as a member of the U.S. House of Representatives. The Alexander and Gathings collections cover 53 years, 1939 to 1992.

The collection of creation science papers, donated by former Arkansas Attorney General Steve Clark, includes the state's side of the landmark creation science case.

The Judd Hill Collection, Mabel H. Gieseck Collection, and the Ira Twist, Jr. Collection form the core of a primary research emphasis on the agricultural development and environment transformation of Eastern Arkansas.

An Oral History Program, housed in the library, has conducted and taped interviews with a number of local citizens and state leaders. The tapes are available for use by any interested researcher who comes to the library.

In addition to materials directly related to classroom and research work, the library provides students with general and recreational reading materials. Exhibits and displays presenting ideas and issues are also a regular part of an ongoing service program. Media Services offers a wide range of audio and visual services for both students and faculty engaged in university functions. Scanning, color printing, banner printing, audio and video preview rooms, and laminating services are available. Additionally, Media Services lends audio-visual materials and equipment for short-term use to students and faculty.

ARKANSAS HERITAGE SITES

Arkansas Heritage Sites at Arkansas State University develops and operates heritage sites of regional and national significance in the Arkansas Delta. These sites provide educational resources for formal and informal learning, including serving as laboratories for the Heritage Studies Ph.D. program. In addition, they serve as economic catalysts in communities where they are located by attracting heritage tourists from around the country. These sites currently include the Hemingway-Pfeiffer Museum and Educational Center in Piggott, the Southern Tenant Farmers Museum in Tyronza, the Lakeport Plantation in Lake Village, and the Historic Dyess Colony: Boyhood Home of Johnny Cash.

MUSEUM

The Arkansas State University Museum is located on ASU-Jonesboro's central campus in the west wing of the Dean B. Ellis Library building. The Museum serves the academic mission of the University as a teaching museum and provides quality programming that broadens the perceptions and aspirations of people in Northeast Arkansas and the Mississippi River Delta region, connects people with their history, promotes tolerance, engages minds in progressive thinking, and enhances the sense of community among all audiences. The ASU Museum is one of fewer than 800 museums in the US accredited by the American Association of Museums.

With 15,000 square feet of exhibit space and more than 60,000 regionally acquired objects, the ASU Museum is a veritable treasure of Northeast Arkansas history, culture, and natural history. Long-term exhibits feature fossils going back 300 million years ago, a fully articulated Mastodon skeleton replica based on actual bones found in Northeast Arkansas, a gallery on prehistoric Native American life and culture, artifacts illustrating early settlement in Northeast Arkansas ("Living Off the Land"), period exhibits highlighting shops typical of regional towns dating 1880–1920 ("Old Town Arkansas"), a military gallery, decorative arts, and more.

Multiple exhibits and activities target children, including a hands-on exhibit about the New Madrid fault zone, a learning lab, and changing hands-on children's exhibits and programs. iPod tours and audio enhance the experience of select exhibits. Family-oriented events celebrate Black History Month (February), Archaeology Month (March), and *Día de los Muertos* (November). Juried children's art from area schools is featured every April in "Through a Child's Eyes."

Museum staff members teach museum studies classes offered through ASU's History Department and Heritage Studies Program. Classes provide significant real-life experience and instruct in collections management practices, museum law, interpretation, and exhibit development. The exhibit class series culminates with a student-curated exhibition.

The Museum is open Tuesday, 9:00 AM–7:00 PM; Wednesday–Saturday, 9:00 AM–5:00 PM; and Sunday, 1:00–5:00 PM, with closure on Mondays and University holidays. Free tours are available by appointment (870-972-2074). Limited free parking is available in the parking lot south of the Museum. School buses and large groups, please call for parking instructions.

DELTA STUDIES CENTER

The Delta Studies Center at Arkansas State University has been established to increase understanding and address needs of the seven-state Lower Mississippi River Delta, as well as to focus national and international scholarly attention on the region.

The Delta Studies Center works with all colleges and programs across campus to focus on and seek support for interdisciplinary studies and activities directed toward the people, institutions, economy, health care issues, history, folklore, culture, arts, and biological and physical environments characteristic of the Delta. Specific activities of the center include archival development; public service; dissemination of information; support for program development, teaching and applied research; and collaboration with other agencies and institutions in the seven-state region.

Admission

GENERAL INFORMATION

Communications concerning admission to the undergraduate programs of the university should be addressed to the Office of Admissions, Records and Registration, P.O. Box 1570, State University, AR 72467.

THE OFFICE OF RECRUITMENT

The Office of Recruitment, Suite 2099, found in the Carl R. Reng Student Union, serves as the gateway to Arkansas State University for prospective students, families and visitors. At the forefront of student recruitment, the staff plan, coordinate, and implement recruitment strategies for prospective students which support the strategic enrollment goals and institutional mission. Pre-enrollment services, awareness sessions, class presentations, higher education workshops, community receptions, on-campus programs and other outreach events are provided for students, parents, counselors, and administrators, on- and off-campus. Topics such as the application process, admission requirements, entrance exams, financial aid, scholarships, registration, housing, and student services are covered. Visitors to campus are introduced to Arkansas State University via a campus tour with the WOLF student ambassadors and an engaging presentation from professional recruitment staff. We provide services to groups of all sizes and ages who have an interest in Arkansas State University. You may reach the Office of Recruitment by calling 870-972-ASU1(2782) or email recruitment@astate.edu.

CORE CURRICULUM FOR UNRESTRICTED ADMISSION

ENGLISH — 4 units with emphasis on writing skills, not to include courses in Oral Communication, Journalism, Drama or Debate.

NATURAL SCIENCE — 3 units with laboratories chosen from Physical Science, Biology, Chemistry, or Physics. Only one unit may come from a Life Science.

MATHEMATICS — 4 units including Algebra I and II, Geometry, and an advanced math course. It is strongly recommended that students take a math course during their senior year.

SOCIAL STUDIES — 3 units including one of American History (does not include Contemporary American History), one of World History (not to include World Cultures, World Geography, or Global Studies), and at least 1/2 unit of Civics or American Government (not to include courses in practical arts).

EARLY ENTRANCE

The university accepts students who are not high school graduates if they have (1) eighteen units of high school credit including three units of English, two units of mathematics, two units of natural science, three units of social science, and not more than two units of activity credit; (2) an overall grade average of 3.25; (3) an ACT composite score of 19 or higher; and (4) a recommendation from the high school principal or superintendent. In addition, the early entrant must submit the credentials required of high school graduates except proof of graduation.

ENTERING FRESHMEN

To be considered for admission to Arkansas State University, an applicant must submit the following:

1. An application for admission by the first day of classes.
2. A \$15 nonrefundable processing fee. *
3. An official High School Transcript mailed directly from the high school** OR the result of the General Education Development (GED) examination mailed directly from the State Department of Education. Home schooled students should mail equivalent documents. Hand carried documents are NOT considered official unless submitted in a sealed, stamped school envelope or faxed directly from the previous institution. If you are currently enrolled in high school, a second transcript must be sent AFTER you have graduated listing your graduation date and final school GPA.
4. Official ACT scores, SAT scores, ASSET or COMPASS scores** mailed directly to

the university from the testing institution or the high school. Test scores are only valid five years from date of exam.

5. Final official Transcript from all colleges attended, if any. Official transcripts should be sent to: Office of Admissions, Records and Registration, P.O. Box 1570, State University, AR, 72467.
6. Proof of (2) immunizations for measles, mumps, and rubella. The vaccine must have been received after the first birthday and after 1/1/68.
7. A minimum ACT composite score of 21 and a minimum high school GPA of 2.75 for unconditional admission OR a minimum ACT composite score of 18 and a minimum high school GPA of 2.30. Comparable scores on the SAT, ASSET or COMPASS may be submitted for consideration.

NOTE: Admissions requirements beginning with Fall 2014 are: a minimum ACT composite score of 21 and a minimum high school GPA of 2.75 for unconditional admission OR a minimum ACT composite score of 19 and a minimum high school GPA of 2.30.

- *Application processing fees are not covered by scholarship.
- ** Hand-carried documents are not considered official records.

Students enrolling in degree programs at Arkansas State University may present faxed documents from the issuing school, as long as a cover letter is accompanied with the fax (i.e., ACT scores and transcripts) in lieu of official documents for registration purposes during the first week of classes only. Official copies must follow for students to be permitted to register for subsequent semesters and to obtain official transcripts from Arkansas State University. Students who present official documents which are incongruent with faxed documents will face disciplinary action by the university.

HIGH SCHOOL/UNIVERSITY PROGRAM

High school students who meet the prescribed criteria (outlined below) may enroll in university courses prior to graduation when the combined enrollments (high school and college) during any one semester do not exceed a normal academic load. To be considered for this program, a student must submit an application for admission to the university and all documents listed above under Admissions Procedures.

All students must present evidence that they meet the criteria stated under either I. or II. below.

I. ACT/GPA

A minimum high school GPA of 2.50

A minimum ACT Reading and Composite score of 19 (comparable SAT scores may be used)

II. Individual Evaluation Based on Performance Criteria

Students may meet the criteria for admission through a process submitted by the high school that is based upon performance criteria which justify waiver of requirement of the standardized test score—**OR**—the high school grade point average. These criteria are expected to be comprehensive and demonstrate exemplary performance. **Arkansas State University reserves the right to determine whether the criteria are equivalent to standardized test scores or high school GPA.** (Acceptable criteria might include: scores at the 80th percentile on a recent standardized achievement test, grades in AP or Honors classes, performance in the Arts before a state or regional audience.)

Students earning credit through the high school/university program who wish to apply for a university funded scholarship should check with the Office of Financial Aid/Scholarships.

FRESHMAN ASSESSMENT AND PLACEMENT

The Arkansas State Board of Higher Education (SBHE) Freshman Assessment and Placement Program prescribes statewide minimum standards for determining whether entering freshmen should be placed in college level math and English courses or in developmental courses in math, English composition, and reading. At ASU, students whose scores dictate placement in developmental programs **MUST ENROLL IN THOSE COURSES DURING THEIR FIRST ACADEMIC YEAR.**

Any first time freshman with an ACT composite score of <21 (or comparable SAT) or requiring two

or more developmental courses in different disciplines may only be admitted to ASU through the First Year Studies Academic Success Institute. The program requires students complete two semesters of college work successfully to continue enrollment at ASU. Students not meeting program criteria are suspended and can only return when they have completed 12 or more transfer credited hours. Any student with a composite of 21 or higher who requires two or more developmental courses and any student without an ACT or SAT composite score will be considered "AT RISK" if one or more ASSET or COMPASS scores is/are below the established cut score as described below. At risk students may not take more than 12 credit hours per semester and may not declare a major until he/she has completed all developmental courses and 24 credit hours with a cumulative GPA of 2.00. All at risk students will be required to participate in the Right Start program until the above requirements are met.

Students requiring enrollment in more than 12 hours for scholarship purposes may petition through the Wilson Advising Center to take up to 15 hours maximum.

The following standards apply to all first-time-entering freshmen who are admitted to enroll in degree programs:

Mathematics

The SBHE has prescribed that, "No mathematics course less sophisticated than college algebra may be applied toward a bachelor's degree in a public university in Arkansas."

Students who score below 19 on the mathematics section of the Enhanced ACT (American College Testing Program's ACT Assessment Test), or below 390 on the quantitative portion of the SAT (College Board's Scholastic Aptitude Test), taken **before** April 1, 1995; or below 460 on the Recentered SAT I taken **after** April 1, 1995; or below 42 on the ASSET (American College Testing Program's Assessment of Skills for Successful Entry and Transfer) Intermediate Algebra test or below 36 on the COMPASS test, must successfully complete the introductory (pre-college level) mathematics course or courses as stated below. Students must earn a grade of "C" or better in these courses before enrolling in college level mathematics courses. Students with:

ACT Math scores in the 0-18 range (or ASSET/SAT/COMPASS equivalencies)
ENROLL IN UC 0173, DEVELOPMENTAL MATHEMATICS I

English Composition

Students scoring below 19 on the English section of the Enhanced ACT; or below 470 on the verbal portion of the SAT; or below 400 on the SAT II Subject Test in Writing; or below 40 on the TSWE, (College Board's Test of Standard Written English) or below 45 on the ASSET Language Usage test or below 80 on the COMPASS test, must successfully complete UC 0143 Writing Fundamentals with a C or better before they can advance to ENG 1003.

***NOTE: Students must earn a grade of "C" or better in ENG 1003, Composition I before taking ENG 1013, Composition II.**

Reading

Students who score below 19 on the Reading section of the Enhanced ACT, or below 340 on the verbal section of SAT taken before April 1, 1995; or below 469 on the Recentered SAT I taken after April 1, 1995; or below 43 on the ASSET Reading Skills test or below 83 on the COMPASS test, must enroll in UC 0153 Enhanced College Reading and complete the course with a C or higher.

ENROLLMENT IN DEVELOPMENTAL COURSES

When an entering freshman student's composite ACT score or subject ACT score, SAT score, ASSET score, TSWE score, or COMPASS score requires the student's enrollment in a developmental course(s) in accord with the Arkansas State Board of Higher Education Policy, **enrollment in the lowest level developmental course(s) shall be mandatory for the student's first semester of enrollment at Arkansas State University.** Students not successfully completing the developmental courses in their first year at Arkansas State University will not be eligible to enroll by web. They must go to Wilson Advising Center for advisement and permission to register. Also, they will be required to enroll in the developmental courses that have not been successfully completed. Enrollment will be limited to 12 hours until developmental course requirements are completed.

Admission by Exception for Prospective Students with Exceptional Talent

Prospective students who demonstrate exceptional talent, ability, accomplishment, or potential in athletics, leadership, and performance or similar contribution to the university community may be granted admission by exception to Arkansas State University-Jonesboro. Admission by exception provides a means to identify students who do not meet the numerical requirements (GPA and/or ACT/SAT) for admission but who demonstrate exceptional potential to contribute to ASU. Prospective first-time students admitted by exception will be required to participate in the intensive First Year Studies Academic Success Institute (ASI). Successful completion of ASI will allow for continued enrollment at ASU. Prospective transfer students admitted by exception will be required to participate in the Restart@state program.

To be granted admission by exception, prospective first-time student-athletes must satisfy the National Collegiate Athletic Association initial eligibility standards under Division I guidelines and prospective transfer student-athletes must satisfy the National Collegiate Athletic Association transfer eligibility standards under Division I guidelines in order to be eligible to petition for admission via the Undergraduate Admission Appeals Committee. Colleges/Departments desiring to utilize "admission by exception" must provide documentation in support of the student's extraordinary talent, ability, accomplishment, or potential via petition to the Undergraduate Admission Appeals Committee for consideration. Admission by exception will generally be reserved for students eligible for performance-based scholarships.

In addition, under extraordinary circumstances, prospective students may continue to be granted exceptional admission by the Chancellor as set forth in Article VI of the Bylaws of the Board of Trustees of Arkansas State University.

ADMISSION PROCEDURES

1. Completed application for admission along with a \$15.00 non-refundable processing fee.
2. Official transcript mailed directly to ASU from each institution previously attended. [Refer to Transfer Credit Policy for definition of acceptable transfer credit.]
3. A student currently enrolled and whose final transcript cannot be provided by the institution until the semester is completed will be evaluated for admission on all work completed to date. A final, official transcript must be received in order to continue enrollment for subsequent terms.
4. Official ACT scores, SAT scores, ASSET or COMPASS scores mailed directly to the university from the testing institution or the high school. Test scores are only valid five years from date of exam.
5. Documentation (required by Arkansas Statute) of two immunizations for measles, mumps, and rubella. The first immunization must have been administered after the applicant's first birthday and after 1/1/68. The second immunization may be administered no sooner than 28 days after the first dose.

TRANSFER STUDENT ADMISSION

1. Students who have completed 12 or fewer semester credit hours will be admitted under conditions for new freshmen and must submit high school transcripts and ACT scores in addition to all college transcripts.
2. Transfer students who have completed 13 to 23 or more transferable credit hours with a cumulative GPA of at least 2.00 at a regionally accredited college or university and evidence of ACT scores or compliance with the state-mandated remediation requirements will receive unconditional admission.
3. Applicants with 24 or more transferable hours must present final, official transcript from all colleges attended. ACT scores will be required for any transfer student who has not successfully completed English I & II with a C or better and College Algebra.
4. Transfer students with a cumulative GPA of less than 2.00 upon approval of the Undergraduate Admission Committee, may be admitted on academic probation, restricted to 12 hours of enrollment and required to participate in the Restart@state program.
5. College transcripts should be sent to: Office of Admissions, Records and Registration, P.O. Box 1570, State University, AR 72467.

NOTE: Transferable hours include courses in which a grade of F was earned. The courses transfer and will impact G.P.A.

REQUIRED REMEDIATION FOR TRANSFER STUDENTS

Students with fewer than 24 semester hours must show proof of compliance with state-mandated remediation laws (ACT - or comparable - test scores ≥ 19 or completion of required remediation.)

Students transferring from State of Arkansas accredited two-year institutions with an Associate of Arts degree (or other associate degrees meeting the minimum state enhanced general education core) will have satisfied Arkansas State University's general education requirements. However, specific ASU degree requirements must be met for a bachelor's degree, i.e., certain degrees may require a "C" or higher grade for major and/or other specific courses. Students admitted with an associate degree will be classified as a junior for registration purposes.

READMISSION OF FORMER STUDENTS

Returning students who have been in a "non-enrolled" status with Arkansas State University for more than one academic year must submit to the Office of Admissions, Records and Registration an application for readmission, along with a \$15.00 nonrefundable processing fee. Additionally, re-entering students must submit official transcripts for any/all college work completed at other institutions. Students must provide proof of immunization for measles, mumps and rubella.

TRANSIENT STUDENTS

Transient (temporary) students are those who are actively enrolled in other institutions of higher learning and wish to enroll for a session at Arkansas State University. Admission as a transient student requires an application, a \$15.00 nonrefundable processing fee, proof of two immunizations for measles, mumps and rubella, a college transcript from the student's home institution indicating good standing. Transient students wishing to continue at Arkansas State University for more than one academic session should follow the procedures for admission of transfer students. (See Admission Procedures for more information about immunization documentation.)

NON-DEGREE STUDENTS

Individuals who wish to pursue courses of special interest without submitting academic credentials may register for a **maximum of six hours per semester (or 3 per summer term)**, accumulating up to 12 semester hours of undergraduate non-degree credit. Thereafter, non-degree students must comply with university admission requirements or obtain a written waiver from the Office of Admissions, Records and Registration. **CAUTION: Non-degree students should not enroll in courses that are required in the general education program.** Courses taken for non-degree credit are not applicable toward a degree unless validated later by the student's meeting all conditions of admission to the university, including remediation requirements.

Non-degree students are required to submit all admission credentials listed under "Admission Procedures" except for ACT scores and high school and/or college transcripts.

Non-degree students are required to meet the same course prerequisites as are other students. Non-degree students are generally not eligible to participate in financial aid programs.

Due to specific enrollment limitations, non-degree students may not register through the university's web registration system.

ADMISSION AND ENROLLMENT OF INTERNATIONAL STUDENTS

Arkansas State University provides access to a quality education for international students at an affordable cost, in a caring and supportive environment. A citizen of a nation other than the United States of America wishing to apply for admission to Arkansas State University should write to the Office of International Programs, Arkansas State University, P.O. Box 2230, State University, AR 72467 USA or email international@astate.edu. Future international students may also visit our website at <http://www.astate.edu/international/>.

The ASU International Programs office encourages all applicants to submit the completed application and all supporting documents at least 45 days prior to the desired enrollment date.

International applicants must provide the following documents:

1. **Application and Processing Fee** —A formal application for admission, accompanied by a \$40.00 (U.S. funds) non-refundable processing fee. Evaluation of academic records and subsequent issuance of the I-20 will not begin before the processing fee is received. Application forms can be downloaded and printed from <http://www.astate.edu/international/>.

2. Official Academic Records — All undergraduate applicants must submit an official copy of their high school grade report and diploma or equivalent credentials with translation in English. Students seeking to transfer from another university or college must submit official transcripts from those institutions. A transcript evaluation by an independent agency (World Education Service) may be required and, if so, will be the responsibility of the student.

3. Proof of English Proficiency —

- Completing ASU's ESL Program with a minimum grade of 80% or above
- Completing the required level of a language program, which has a formal agreement with ASU (check with International Programs)
- TOEFL – Paper-Based 500 – (ASU's Code:6011)
- TOEFL – Internet-Based 61– (ASU's Code:6011)
- IELTS – Academic 5.5- Official Score from British Council
- PTE - Pearson Test of English Academic 43
- Completing the required level of a CEAAccredited ESL program (check with Office of Admissions, Records and Registration)
- Obtaining a minimum of 60% in English at X and XII in Certificate in India and Pakistan
- High School Graduate (minimum 2 years of attendance) from USA, UK, Canada (except Quebec), Australia, and New Zealand

** English proficiency requirement may be waived for countries whose official language is English. Decision will be made by admissions committee upon reviewing the application and academic credentials.*

4. Financial Affidavit — A letter of certification (dated not more than six months prior to the desired enrollment date) from a financial institution (acceptable to the University) stating that the sponsor(s) of the applicant has/have sufficient funds (equivalent to estimated annual cost of attendance, which can be found at the following link) <http://www.astate.edu/international/>.

ASU does not guarantee or promise any financial assistance to any international student.

International students seeking to transfer from another college, university, or an institution (including language schools) within the United States must be in good academic standing at that institution and must also submit an international student transfer clearance form completed by the international student advisor at the transferring institution.

International students must maintain continuous health insurance coverage, (including the summer months) while attending ASU. All international students are required to enroll in the University's international student health insurance program. A fee equal to a six-month premium, approximately \$570.00, is added to each semester's tuition bills.

THE OFFICE OF INTERNATIONAL PROGRAMS

The Office of International Programs (OIP) helps bring the world to ASU, and take ASU to the world. The office is located in Suite 200 on the main floor of the International Student Center and can be reached by phone at +1 (870) 972-2329, by email at international@astate.edu, or by visiting the web site at <http://www.astate.edu/international/>.

The OIP is responsible for the admission of all international students, as well as students coming for one or two semesters from one of ASU's international exchange partners.

Some of the services provided by OIP for International Students are:

- New International Student Orientation
- Advising and Registration
- Social, Cultural and Immigration Advising
- Site Seeing Tours and Events
- 24 hour Emergency Assistance
- Free Airport Transfer Services to and from Memphis International Airport
- Health Insurance
- ASU Housing and Meal Plan Assistance

Detailed information regarding admissions and services provided by International Programs for international students is available at <http://www.astate.edu/international/>.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Study Abroad: International Programs serves as an information and advising resource for students, faculty, and staff exploring educational opportunities at an international level. Students will learn about programs to various destinations around the world led by ASU faculty or as individual student initiatives.

Short-term study programs led by ASU faculty are offered during spring break or summer sessions. These are arranged for student groups, university classes, and may occasionally permit participation by community members.

Long-term programs consist of semester- and year-long exchanges. These academic sojourns allow students to experience another culture in more depth while continuing to make regular progress toward a degree.

Programs exist for students in all majors, including business, education, computer science, natural sciences, media design, the visual arts, political science, history, and languages, to name a few. The Language of instruction is in English unless a student wants to pursue coursework directed in a different language. In addition, foreign language instruction is a popular goal of many students who study overseas.

ASU is a member of the International Student Exchange Program (ISEP), the Magellan Exchange, and also maintains many other international exchange agreements.

Visit <http://www.astate.edu/international/> to learn more about study abroad offerings at ASU.

The Study Abroad Advisor helps students identify programs, not only with these exchange partners, but in any country a student may wish to pursue academic opportunities. The office also provides advising for students applying for grant and scholarship applications intended for international educational experiences. The Gilman Scholarship, Fulbright Fellowships, and the National Security Education Program (NSEP) are examples of such scholarships and grants.

Middle East Studies: Those students interested in study or research projects involving Near East and North Africa may apply for funding through the Middle East Studies Committee, coordinated through the OIP.

The Study Abroad Advisor also assists students in applying for Middle East Studies Grants, an offering exclusive to ASU students, faculty and staff. Students interested in study or research projects involving the Middle East and North Africa may apply for funding through the Middle East Studies Committee, coordinated through International Programs, and seek grant-writing support through the Study Abroad office.

Visit <http://www.astate.edu/a/middle-east-studies/> for more information.

THE WILSON CENTER FOR ACADEMIC ADVISING

The Wilson Advising Center is the primary home for advisement of exploratory (undecided) and Interdisciplinary Studies students at ASU. This office offers walk-in style services Monday through Friday for students who have general advising questions. The center is the first stop for students who wish to withdraw from ASU. The center provides services for students who have been placed on academic suspension or who need to readmit following suspension. Any student regardless of major may contact this office with general advising or other academic questions and concerns.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Fees and Expenses

<http://www.astate.edu/a/student-accounts/tuition-fees/>

Payment is due in full within the first five (5) days of class or start of term. Students unable to meet this requirement should contact Student Account Services.

Late fees will be assessed on past-due installment plans and outstanding balances with no payment arrangements.

Those students who fail to clear their accounts will not be permitted to register for future terms. A "hold" will be placed on the student's record, and information will not be released until the account is paid.

THE UNIVERSITY RESERVES THE RIGHT TO CHANGE THE AMOUNT OF FEES AND RELATED POLICIES OR TO ADD NEW ONES AT ANY TIME IF SUCH ACTION IS DEEMED NECESSARY.

Any fee changes are reflected on the ASU website. To access downloadable tuition and fee tables, please visit Student Accounts at:

<http://www.astate.edu/a/student-accounts/tuition-fees/>

GENERAL REGISTRATION FEES PER TERM	PER HOUR
Undergraduate Tuition	
Arkansas Resident	\$187.00
Non-Resident (Enrolled Prior to Fall 2011)	\$488.00
Non-Resident (Enrolled After Fall 2011)	\$374.00
International	\$374.00
Graduate Tuition	
Arkansas Resident	\$238.00
Non-Resident (Enrolled Prior to Fall 2011)	\$605.00
Non-Resident (Enrolled After Fall 2011)	\$476.00
International	\$476.00
Infrastructure Fee	\$4.00
Athletics Fee	\$17.00
Student Union Fee	\$10.00
Information Technology Fee	\$10.00
Library Fee	\$6.00
Student Recreation Fee	\$7.00
Academic Excellence Fee	\$4.00
College Support Assessment Fee - Undergraduate (for Nursing, Business and Engineering)	\$20.00
College Support Assessment Fee - Graduate (for Nursing, Business and Engineering)	\$49.00
College Support Assessment Fee - Undergraduate (for Science and Mathematics)	\$19.00
College Support Assessment Fee - Graduate (for Science and Mathematics)	\$44.00

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

NOTE: All students pay a \$5.00 Assessment Fee per term. Each student enrolled in 3 or more credit hours will be assessed a \$20.00 student activity fee for the Fall and Spring semesters. Students enrolled in 12 or more hours will be assessed a \$10.00 yearbook fee for the Fall and Spring semesters.

CONTINUING EDUCATION & COMMUNITY OUTREACH GENERAL REGISTRATION FEES PER TERM

ASU - PARAGOULD	PER HOUR
Freshmen / Sophomore Level Classes	
Greene County Residents	\$60.00
Arkansas Resident	\$187.00
Non-Resident (Enrolled Prior to Fall 2011)	\$488.00
Non-Resident (Enrolled After Fall 2011)	\$374.00
International	\$374.00
Junior / Senior Level Classes	
Arkansas Resident	\$187.00
Non-Resident (Enrolled Prior to Fall 2011)	\$488.00
Non-Resident (Enrolled After Fall 2011)	\$374.00
International	\$374.00

NOTE: Greene County Residents are only assessed the \$10/hr Technology Fee along with tuition.

DEGREE CENTER TUITION	PER HOUR
Arkansas Resident Tuition – Undergraduate	\$238.00
Arkansas Resident Tuition – Graduate	\$273.00
Non-Resident (Enrolled Prior to Fall 2011) – Undergraduate	\$536.00
Non-Resident (Enrolled Prior to Fall 2011) – Graduate	\$639.00
Non-Resident (Enrolled After Fall 2011) – Undergraduate	\$475.00
Non-Resident (Enrolled After Fall 2011) – Graduate	\$546.00

All Degree Centers' classes are assessed the following PER HOUR in addition to tuition:

Technology Fee	\$10.00
Academic Excellence Fee	\$4.00
Facilities Fee	\$3.00
Institutional Host Fees:	
ASU - Beebe	\$25.00
ASU - Mountain Home	\$20.00
ASU - Newport	\$20.00
Arkansas Northeastern College	\$20.00
East Arkansas Community College	\$20.00
Mid-South Community College	\$20.00

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

REFUND OF FEES SCHEDULE

Semester		Five-Week Terms	
1st - 5th class day	100%	First and second day	100%
6th - 10th class day	75%	Third and fourth day	75%
On or after 11th class day	None	On or after 5th class day	None

RESIDENCY REQUIREMENTS FOR FEE PAYMENT

Students should contact the Office of Admissions, Records and Registration concerning residency requirements for university fee purposes. A student who knowingly gives false information in an attempt to avoid out-of-state fee payment shall be subject to dismissal from the university.

MISCELLANEOUS FEES	FLAT
Academic Clemency Processing Fee	\$30.00
Yearbook Fee Per Semester (Mandatory for full-time students, optional for part-time students)	\$10.00
Graduation Fee	
Undergraduate	\$45.00
Masters	\$65.00
Specialist	\$75.00
Doctorate	\$125.00
Student Activity Fee (Fall and Spring semesters only)	\$20.00
Application for Admission Processing Fee	
International Students	\$40.00
United States Citizens	\$15.00
ASU Assessment Fee	\$5.00
Late Payment of Tuition Fee	\$25.00/\$40.00
Penalty for Checks Returned for Insufficient Funds, etc.	\$25.00
Installment Fee	\$40.00
Tuition Deferment	\$40.00
Audit Fee/Credit hour	Same as Tuition and Fees

Special fees for some departments are shown with the respective departments. Additional course fees vary for each class ranging from \$5.00 to \$225.00 per course.

NOTE: Undergraduate Students enrolled in fewer than 12 hours during a regular semester (or fewer than six hours during a five-week term) are classified as *part-time* students.

ROOM AND BOARD

1. A deposit of \$100 along with a housing application is required to reserve a room for any regular semester. Students are required to live in university housing during the entire term of enrollment for which the reservation is made. Students who do not fulfill this requirement will forfeit their room deposits. The room deposit is refundable on the following conditions: (a) if cancellation is made, through the Residence Life office in writing prior to the confirmation date on the contract, (b) if the student has occupied the room until the end of the contract period and then checks out of the residence hall, through the Residence Life office, not later than 24 hours after the last official day of the spring semester, (c) if no damages have occurred during the term of occupancy.

2. All occupants of residence halls are required to participate in a university meal plan. (Optional for commuter students and Collegiate Park, Red Wolf Den and The Village rentals)
3. A permanent identification card will be issued to students during the first semester of attendance. Students will use this card to access residence halls, parking lots, laundry, and dining services venues. A \$20 replacement fee will be assessed for lost IDs.
4. The charges for room and board for less than a full semester are computed on the base rate for the period of occupancy.
5. The residence halls and cafeteria will be open during the periods classes are in session. Vacation periods (fall break, spring break, winter break, and Interims) are not included in the regular room and board charges.
6. Residents are expected to occupy their rooms during the entire session for which the rooms are reserved, unless they are forced to withdraw from the university because of illness or other valid reasons.
7. Room and Board may be paid, along with tuition and fees, in four (4) installments. Students seeking such arrangements should contact Student Account Services at (870)972-2285.

Students are responsible for ALL room and board even when meal cards have been invalidated or they have been locked out due to nonpayment.

**RESIDENCE LIFE ROOM RATES
Fall 2013 - Spring 2014**

Residence Halls	Double	*Single	*Single Deluxe
Arkansas Hall	\$1,965.00	\$2,200.00	\$2,315.00
Kays Hall	\$1,965.00	\$2,200.00	N/A
University Hall	\$1,965.00	\$2,200.00	\$2,315.00
Northpark Quads (Bldgs 3-5)	N/A	\$2,175.00	N/A
Northpark Quads (Bldg 1&2)	N/A	\$2,325.00	N/A
Honors LLC (Bldg 1-3)	\$1,980.00	\$2,175.00	N/A
Honors LLC (Bldg 4)	\$1,995.00	\$2,200.00	N/A
ROTC	N/A	\$2,000.00	\$2,025.00
STEM Den	N/A	\$2,000.00	\$2,025.00
Greek Village	\$1,995.00	\$2,200.00	N/A

***Single and Single Deluxe Rooms are only available space permitting.**

Apartments	Bed	Bath	Single
Collegiate Park	2	2	\$2,480.00
Collegiate Park	2	1	\$2,265.00
Collegiate Park	4	2	\$2,180.00
Collegiate Park Townhouse	4	2	\$2,215.00
Red Wolf Den	2	1	\$2,345.00
Red Wolf Den	3	1	\$2,240.00
Red Wolf Den	4	2	\$2,270.00

Rent includes all utilities, internet connection, and cable. Apartments and Northpark Quads Buildings 1 and 2 will be open during all break periods.

Fall 2013 - Spring 2014 Meal Plan Rates

5 Day + 150	\$1,400.00	150 Meal Block + 300 (2nd year and above)	\$1,320.00
5 Day + 200	\$1,425.00	150 Meal Block + 400 (2nd year and above)	\$1,400.00
7 Day + 100	\$1,400.00	Flex Only (3rd year and above)	\$1,250.00
7 Day + 300	\$1,560.00	80 Meal Block + 100 (commuters, apartments, or houses)	\$600.00
		50 Meal Block + 75 (commuters, apartments, or houses)	\$405.00
		25 Meal Block + 75(commuters, apartments, or houses)	\$255.00

Meal plans are mandatory for all residence hall students and optional for students living in the apartments and The Village and commuter students. Meal plans may only be changed a week prior to the opening date for the residence halls. The purchase of any meal plan is dependent on year classification.

Students with the 5-day meal plan may enter the Acansa Dining Hall unlimited times Monday through Friday. Students with the 7-day meal plan may enter the Acansa Dining Hall unlimited times each day of the week.

Students with a block meal plan may dine in the Acansa, up to the number of block meals purchased. The Block plan also allows the holder to use the plan to bring in guests. Each guest will reduce the block by one meal.

The number after the "+" indicates flex dollars. Flex Dollars operate like a declining balance account that can be used at any of our dining venues, including Acansa Dining Hall, the Food Court, the Campus Store, and Simply to Go. Unused flex dollars will carry over from fall to spring if a spring board plan is purchased, but they must be used by the end of the spring semester to avoid forfeiture.

HOUSING FOR FAMILIES AND GRADUATE STUDENTS

Housing is available for married students with children, single parents, graduate students, and non-traditional undergraduates who are at least 26 years of age or older. The Village consists of 50 two-bedroom houses and 191 apartment units. The houses are furnished with a stove, refrigerator, two ceiling fans, and washer/dryer hook-ups. The apartments are available in one, two, and three bedroom configurations. The apartments are furnished with a stove, refrigerator, ceiling fans, dishwasher, and central heat and air.

The houses and Village Apartments are designed to offer affordable, comfortable, and accessible living accommodations to the students and their families. A laundry is located in The Village for those wishing to take advantage of this service. Application forms and additional information can be obtained from the Office of Residence Life, P.O. Box 2774, State University, AR, 72467 (870)972-2042.

THE VILLAGE

	Fall & Spring 2013-2014 (Per Semester)	Summer 2014
Houses	\$2,445.00	\$1,630.00
Apartments		
1 Bedroom	\$2,690.00	\$1,793.00
2 Bedroom	\$3,195.00	\$2,130.00
2 Bedroom w/ WD	\$3,350.00	\$2,233.00
3 Bedroom	\$3,625.00	\$2,417.00

Rent includes all utilities, internet connection, cable, and local phone services. The Village Houses and Apartments will be open during break periods.

ROOM AND BOARD CHARGES

Room and board charges are assessed and payable in full at the beginning of each semester. Students seeking installment arrangements should contact Student Account Services at (870) 972-2285. Students receiving financial assistance that equals or exceeds their total charges are not eligible for installment arrangements.

To access downloadable room and board fee tables, visit the Residence Life website at:

<http://www.astate.edu/a/residence-life/>

Academic Regulations

STUDENT RESPONSIBILITY FOR MEETING GRADUATION REQUIREMENTS

Each student should thoroughly study this Undergraduate Bulletin and become completely familiar with the organization, policies, and regulations of the university. Failure to do this may result in serious mistakes for which the student shall be held fully responsible.

Through a system of academic advising, Arkansas State University assists each student in planning academic programs, developing course schedules, anticipating graduation requirements, and making decisions affecting educational growth and development. The student is required to consult an academic advisor each registration period to review procedures and degree requirements. Academic advisors endeavor to provide such assistance in a timely and accurate manner, **but meeting requirements for graduation is the responsibility of the student.**

ACADEMIC RECORDS PRIVACY RIGHTS

As a general rule, a student's academic record is confidential and will not be released to unauthorized persons without written approval from the student. The following items are considered public information and may be made available upon inquiry unless the student requests nondisclosure for the enrollment period: the student's name; local and permanent physical addresses; electronic mail addresses; telephone listings; photographs and electronic images; date and place of birth; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received; and the most recent previous educational agency or institution attended by the student.

Requests for nondisclosure are effective until the student notifies the Office of Admissions, Records and Registration that the request is to be voided. Voiding the original nondisclosure request may be accomplished in a personal request directly to the Office of Admissions, Records and Registration.

1. Purpose

Arkansas State University will comply with the Family Educational Rights and Privacy Act (FERPA).

2. Definitions

Arkansas State University. Arkansas State University (ASU) means all the campuses within the Arkansas State University System, now and in the future.

Student. Student means an individual who attends or has attended classes at ASU. This policy does not apply to the records of applicants for admission who are not accepted to ASU nor does it apply to applicants who are accepted but choose not to attend ASU.

Education Record. Education records are those records, files, documents, and other materials which contain information directly related to a student and are maintained by ASU or a person acting for ASU.

Directory Information. Directory Information is designated to be the student's name; local and permanent physical addresses; electronic mail addresses; telephone listings; photographs and electronic images; date and place of birth; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received; and the most recent previous educational agency or institution attended by the student.

3. Arkansas State University Family Educational Rights and Privacy Act Policy

The Family Educational Rights and Privacy Act requires that institutions of higher education strictly protect the privacy rights of all students who are or who have been in attendance. Information contained in the student's education records can be shared only with those persons or entities specified within the Act. The law also provides that students have the right to review their education records for the purpose of making any necessary corrections. The Office of Admissions, Records and Registration maintains a copy of the full text of FERPA, posts electronic information on FERPA, and processes all FERPA requests and challenges. Arkansas State University will utilize the following process to implement the provisions of the Family Educational Rights and Privacy Act.

4. Process

A. Disclosure of Education Records

I. Disclosure With Student Consent. A student may consent in writing to disclosure of education records. The student's written consent must be signed, dated, and specify which records are to be disclosed, to whom, and for what purpose. The consent must be

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

delivered to the Office of Admissions, Records and Registration. The student may retract the consent in writing at any time. Proper proof of identity may be required by the Office of Admissions, Records and Registration before consent is retracted.

II. Disclosure Without Student Consent. ASU may disclose education records without the student's written consent to any school official within the institution with a legitimate educational interest. School officials include administrators, supervisors, faculty members, instructors, support staff, members of the Board of Trustees, persons with whom ASU has contracted for special tasks, and university committee members. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. School officials of ASU are considered to be within the institution for the purposes of FERPA and may exchange education records without student consent so long as they have a legitimate educational interest.

Disclosure without student consent may also be made to other persons and entities as allowed by FERPA.

Faculty sponsors of registered honor societies may have access to student education records for the sole purpose of determining eligibility for membership on the basis that they are acting in an official university capacity that is integral to the educational function of ASU.

The parents of students may exercise rights under FERPA if the student is claimed as a dependent by the parents for income tax purposes. Dependency must be proven by submission of a copy of income tax returns.

B. Disclosure of Directory Information

Directory information may be disclosed to any person or entity without student consent unless the student submits a completed request for non-disclosure of directory information form to the Office of Admissions, Records and Registration. If a student elects not to allow disclosure of directory information, ASU cannot share information regarding the student with any person or entity including prospective employers, licensing agencies, government agencies, the media, and others. The student may retract the directory information non-disclosure in writing at any time. Proper proof of identity may be required by the Office of Admissions, Records and Registration before the directory information non-disclosure is retracted.

C. Inspection, Review, and Correction of Education Records

Students have the right to inspect and review their education records except for specific exclusions contained within the Family Educational Rights and Privacy Act. A student should contact the Office of Admissions, Records and Registration to arrange for inspection, review, and correction of an education record. The Office of Admissions, Records and Registration may charge a fee for copies of any education records.

D. Ownership of Education Records

Education records are the property of ASU. Education records, including transcripts and diplomas, will not be released to any student who has a delinquent financial obligation to the University.

ASSESSMENT REQUIREMENTS

Arkansas State University (ASU) is dedicated to providing quality academic programs and committed to transparency of student learning outcomes; therefore, assessment for improvement of academic programs and learning is of primary importance to the university. Students are responsible for participating in state and institutional assessment exams or related activities. Failure to participate in required assessments can prevent registration and delay degree completion and graduation.

STUDENT ACADEMIC LOAD

The maximum academic load for students with less than a 2.00 semester or cumulative GPA shall not exceed 12 hours per semester, 12 hours during the summer term (which includes any combination of five or ten-week courses, Internet or correspondence courses and/or other courses no matter how delivered or where taken), or 3 hours in the December interim.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

The maximum academic load for students with less than a 3.50 GPA but at least a 2.00 shall not exceed 18 hours per semester, 18 hours during the summer term (which includes any combination of five- or ten-week courses, Internet or correspondence courses and/or other courses no matter how delivered or where taken), or 3 hours in the December interim. However, a one hour overload is permitted during the last enrollment period (semester or five week term) if the one hour overload will complete graduation requirements

Students holding a cumulative grade point average of 3.50 or above may request permission of the dean of their college to schedule up to 21 hours in a semester and 18 hours total in the two five-week summer terms combined. (This policy is applicable only on a five-days-per-week schedule.)

First time freshmen students and/or students with less than 30 hours should not enroll in more than 12 semester hours on a three-day schedule (MWF) or no more than 9 hours on a two-day schedule (TTh). Sophomores and above should enroll for no more than 15 semester hours on a three-day schedule (MWF), or no more than 12 semester hours on a two-day schedule (TTh). Students transferring to ASU will be held to these standards. All college credit hours will be considered if the student is transferring with an associate degree.

The total academic load resulting from concurrent enrollments at Arkansas State University and other institutions shall not exceed the maximum loads stated above. **Correspondence, off-campus or ten-week courses are to be included when computing academic load for each enrollment period.**

Students who receive the University Honors Scholarship, the Chancellor's Scholarship and the Dean's Scholarship should be enrolled in a minimum of 15 semester hours each fall and spring term. Students who receive the University Honors Scholarship should also take at least one three-hour honors course each term.

CLASSIFICATION OF STUDENTS

Beginning students are classified as freshmen; students with 30-59 hours of credit as sophomores; students with 60-89 hours of credit as juniors; and students with 90 or more hours of credit as seniors.

TRANSFER CREDIT POLICY

Transfer work will be entered on the student's permanent academic record when an official transcript is presented to the University from a regionally accredited institution. All other transfer work received is evaluated and considered on a case by case basis in the Office of Admissions, Records and Registration in conjunction with Academic Affairs and Office of International Programs (as applicable).

ASU will consider awarding credit toward an Associate or a Baccalaureate degree for Advanced Placement (AP), College Level Examination program (CLEP), Military service education and experience, DANTES, formal non collegiate courses for which credit has been recommended as listed in the Directory of National Program on Non Collegiate Sponsored Instruction and in the National Guide to Educational Credit for Training Programs published by ACE, International Baccalaureate, and Excelsior College Exams.

NOTE: Transfer credit *may not* satisfy specific General Requirements For All Baccalaureate Degrees. Transfer credit *may not* satisfy specific degree requirements. Students must review the university requirements and specific major requirements required for their degree.

The Academic Load Policy will govern the number of hours a student may apply toward the academic record when concurrently enrolled at ASU-Jonesboro and other institutions of higher education. ASU-Jonesboro hours will be applied first if more than the maximum number of hours are submitted for approval. Currently enrolled students should not take courses at other institutions without first checking with the advisors regarding the applicability of the courses for ASU credit and to ensure that they are not taking inappropriate courses, non-equivalent courses, out-of-sequence courses, courses on the wrong level or an overload for the semester.

Transfer of English Composition courses will not be accepted from international institutions. This policy is normally waived for citizens of the British Isles, Australia, the English speaking portions of Canada and New Zealand.

REGISTRATION

All students are expected to register for classes on the days designated on the Office of Admissions, Records and Registration web page (<http://registrar.astate.edu>) for a given term. Students may enroll through the first week of classes during a semester, or the first day of a five-week term.

Registration is accomplished through accessing the university's web system. Registration is scheduled

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

on a priority basis according to student classification, which is determined by the number of semester credit hours students have completed plus the number of hours in which students are currently enrolled.

ALL STUDENTS ARE REQUIRED TO CONSULT AN ACADEMIC ADVISOR BEFORE REGISTERING FOR CLASSES.

Also, students should be aware that, once they have registered for classes, tuition and fee charges will be generated for those courses for which they have registered. **Students who register and later decide not to attend should withdraw from their classes prior to the start of the semester to avoid tuition and fee assessment. (SEE NOTES 1 AND 2 BELOW).**

NOTE 1: For charges applicable for withdrawals after classes begin, refer to the index for the REFUND OF FEES SCHEDULE.

NOTE 2: Instructions for withdrawing are available on the ASU website or from the Wilson Advising Center at 972-3001.

COURSE NUMBERING SYSTEM

Each course is designated by a number composed of four digits and each course number carries the following information: The first digit indicates the course level (0-no degree credit, 1-freshman, 2-sophomore, 3-junior, 4-senior), and the fourth digit indicates the number of semester hours of credit (this digit will vary with some courses, including variable hour courses - such as Independent Studies - which will carry the letter V in place of hours).

COURSE PREREQUISITES

Students may not enroll in a course before successfully completing the prerequisites to that course. Prerequisites to a course are noted following the description of the course. Departments may choose to override these requirements under exceptional circumstances.

FREQUENCY OF COURSE OFFERINGS

A frequency-of-course-offering statement appears at the end of each course description in the college/departments. The information reflects the normal scheduling of the course. However, circumstances may from time to time dictate scheduling changes, **and the university reserves the right to make such changes when necessary.**

Students should check in advance with department chairs concerning offerings about which they may have a question.

The code symbols are as follows:

Fall	fall semester	Demand	upon demand (with sufficient enrollment)
Spring	spring semester	Even	offered even-numbered years
Summer	summer semester	Odd	offered odd-numbered years

CHANGES IN SCHEDULE

Changes in class schedules may be made via the web during the scheduled registration periods. Students will not be permitted to add new courses after the first week of classes of a semester or the first class day of a five-week summer term.

STUDENTS SHOULD CONSULT WITH THEIR ACADEMIC ADVISOR BEFORE CHANGING CLASS SCHEDULES. STUDENTS RECEIVING FINANCIAL AID OR SCHOLARSHIP SHOULD ALSO CONSULT THEIR FINANCIAL AID COUNSELOR.

DROPPING INDIVIDUAL COURSES: DEADLINES

The final date for dropping individual courses is two weeks prior to the first day of final examinations during Fall and Spring semesters. Academic Affairs will identify appropriate deadlines for other semesters (interims, summer, half sessions). (Refer to the index for DEADLINES).

Deadlines are also published on the Office of Admissions, Records and Registration web page (<http://registrar.astate.edu>) for each semester.)

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

FINAL EXAMINATIONS

A final examination is a requirement of all courses except those in which written examinations are not used for evaluating student achievement. Courses that might not have final examinations may include, for example, laboratory courses, clinical experience courses, student-teaching courses, fine arts performance and studio courses, readings courses, special problems, independent studies, and internships.

Final examination schedules are published on the Office of Admissions, Records and Registration web page (<http://registrar.astate.edu>) for each semester. Examinations must be given on the dates scheduled. Exceptions may be granted only for individual students in cases of emergency or other compelling circumstances over which the student has no control. Exceptions must be approved by the dean of the college in which the course is offered.

CLASS ATTENDANCE POLICY

Students should attend every lecture, recitation and laboratory session of every course in which they are enrolled. Students who miss a class session should expect to make up missed work or receive a failing grade on missed work. It is the practice of Arkansas State University to allow students to participate in university sponsored academic or athletic events, even when those events cause them to be absent from class. Students participating in university sponsored academic or athletic events will not have those days counted against their available absences and will be given reasonable opportunities to make up missed assignments and exams.

Students enrolled in freshman or sophomore level courses numbered 1000 or 2000 may during the spring and fall semester miss no more than twice the number of lectures, recitations, laboratory sessions, or other regularly scheduled class activities that would normally be scheduled during a week. Students who miss more than the maximum number of freshman or sophomore level classes may be assigned a grade of "F" for the course. Students who may be assigned a grade of "F" in a course because of excessive absences may withdraw from the course without penalty before the deadline for dropping an individual course. In determining whether excessive absences should result in a failing grade, consideration shall be given to the maturity and class standing of the student, the quality of academic work being accomplished by the student, and extenuating circumstances related to such absences.

Students enrolled in junior or senior upper level courses numbered 3000 or 4000 will not be assigned a grade of "F" solely for failing to attend classes. However, instructors shall set forth in their syllabi at the beginning of the semester their attendance requirements and expectations with regard to make-up policy for work missed, class participation and other factors that may influence course grades. In determining whether excessive absences should adversely affect a grade in an upper level course, consideration shall be given to the maturity and class standing of the student, the quality of academic work being accomplished by the student, and extenuating circumstances related to such absences.

Students must utilize their available absences for any cause which requires them to miss class including, but not being limited to, vacation, illness, emergency, or religious observances. Students who are aware that they will have absences during a term should ensure that they do not exceed the absences available.

EXCUSED ABSENCE FOR UNIVERSITY-SPONSORED EVENTS

It is the practice of Arkansas State University to allow students to participate in university-sponsored events, even when those events cause them to be absent from class. Students participating in university-sponsored events will be given reasonable opportunities to make up missed assignments and exams.

RESIDENCY REQUIREMENTS FOR DEGREE COMPLETION

Students seeking an associate or baccalaureate degree must meet ASU's residency requirements. Associate degree candidates must complete a minimum of 16 semester hours through the ASU-Jonesboro campus. Baccalaureate degree candidates must complete a minimum of 32 semester hours through the ASU-Jonesboro campus.

CURRICULUM STRUCTURE

Academic colleges within the university structure curriculum around the following:

GENERAL EDUCATION CORE CURRICULUM

This is a basic core of subjects from the areas of communications, humanities, social sciences, sci-

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

ences and mathematics, consisting of 35 semester hours. The university designed the core to acquaint students with the major areas of knowledge.

MAJORS AND MINORS

All degree programs, except those for the Associate of General Studies, Bachelor of Applied Science and the Bachelor of Science in Interdisciplinary Studies, require students to complete an academic major. Additionally, students may complete academic minors. Academic minors are **required** in some colleges and are recommended in all colleges. Some restrictions on minors may be imposed by academic departments and colleges. Requirements for academic majors and minors are listed as departmental programs. (Refer to the index for a list of ACADEMIC MAJORS AND MINORS offered by Arkansas State University). Minors must be completed at the same time the baccalaureate degree is completed. A minimum GPA of 2.00 is required for a minor unless otherwise specified.

MAJOR

A major is a collection of courses designed to give opportunity for in-depth study of a specific area within a given discipline. Students completing a major should be able to demonstrate a significant level of expertise in that area. Though a major on the baccalaureate level cannot provide comprehensive coverage of a particular area within a discipline, the collection of courses within it must be coherent, progressing from a basic understanding of the area's history, nature, theory, methodology, tools, and practice to a more complex and sophisticated integration of knowledge and skills in that area. Each course makes a significant contribution to the major and the fulfillment of its outcomes.

MINOR

A minor is a secondary area of specialized academic study usually consisting of 18-21 semester hours. Students may not minor in the same area as their major. Certain colleges provide the option of additional in-depth study beyond the major. Colleges may choose not to permit students to select a minor from within specific departments or colleges.

CONCENTRATION

A concentration is a selection of courses within a student's major that provides a particular specialization or focus for the major and is designed to give a student specialized knowledge, competence or skill within the major.

TRACK

A track is a grouping of courses within a major that are specific to the applied principal of the student. This does not necessarily imply additional hours of study.

OPEN ELECTIVES

Students may use any course in the curriculum, or accepted in transfer, to meet open elective requirements.

DIPLOMAS

REQUIREMENTS FOR A DOUBLE MAJOR

Students who seek a double major or students working concurrently on a second baccalaureate degree **MUST** meet the requirements of both degrees and majors under the provisions of the ASU bulletin in effect during the student's enrollment in college. Double majors must be completed at the same time. Work completed after the awarding of the first baccalaureate degree may be applied to a second baccalaureate degree under the terms listed in the *Requirements For An Additional Baccalaureate Degree*.

Double Degrees are two **DIFFERENT** Degree types, such as a Bachelor of Arts and a Bachelor of Science. Degrees types are also differentiated by the college in which they are awarded. If a student is seeking two majors with the same Degree type in the same college, they are considered a Double Major.

BS in Sci/Math (Biological Sciences) + BA in Sci/Math (Chemistry) = Double Degree (one college) = Two Diplomas

BS in Sci/Math (Biological Sciences) + BA in HSS (Criminology) = Double Degree (two different colleges) = Two Diplomas

BS in Sci/Math (Biological Sciences) + BS in Sci/Math (Mathematics) = Single Degree with a

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Double-Major (one college) = One Diploma*

*Students will receive the one diploma with both majors listed. However, an option to obtain a diploma for each major is available for an additional \$15 fee.

MINORS

Students who successfully complete requirements for a minor will receive a minor certificate to accompany their diploma. Students seeking a double minor will receive one certificate with both minors reflected.

UNIVERSITY GENERAL REQUIREMENTS FOR ALL ASSOCIATE DEGREES

Each candidate for an associate degree must meet the following general requirements:

1. Submit an Intent to Graduate Application online in their Self-Service account prior to the fifth class day of the semester in which graduation will occur (If the student is unable to graduate at the end of the semester for which application has been made, a new Intent to Graduate Application form must be filed during the next semester in which the student expects to graduate).
2. Students will pay their graduation fee online at the time of completing the intent to graduate application either by charging the relevant fee to their student account or by paying via credit card. This fee is required of all students who wish to receive their degree, even if they decline participation in the ceremony. This fee must be paid before the diploma, final transcript or graduation attire can be released. (If the student is unable to graduate at the end of the semester for which application has been made, the student will be required to pay the graduation fee on each subsequent intent to graduate application).
3. Complete graduation requirements under the provisions of an ASU-Jonesboro Bulletin that is not more than seven years old at the time of the student's graduation, provided the student was enrolled in residence at a regionally accredited institution of higher education during the year the bulletin was in effect.
4. Earn a grade of C or better in ENG 1003 and ENG 1013.
5. Complete HIST 2763, or HIST 2773, or POSC 2103 as stated in General Education Curriculum to satisfy the Arkansas requirement of American History or American Government.
6. Complete the curriculum as listed under the description of each associate degree program, with a minimum of 60 semester hours.
7. Complete a minimum of 16 semester hours through the ASU-Jonesboro campus.
8. Have an average of C or better (2.00 GPA) on all work attempted, on work in the major field, and, if a transfer student, on all work taken at this institution. A passing grade must be made in all courses required for the degree. (These are minimum grade averages and some colleges on the campus will require higher averages.)
9. Twelve (12) of the last 18 semester hours must be Arkansas State University work. Exceptions to the "12 of the last 18" regulation may be granted by the dean of the college in which the student is majoring.
A maximum of 25 percent of an associate degree program may be earned through examination (including CLEP), correspondence, evaluated military service credits, PLA, DANTES and USAFI courses. Students may submit a maximum of 15 CLEP-credit hours toward an associate degree. (Arkansas Act 88 of 1979 exempts nursing students from these maxima. Confer with the Chair, School of Nursing for information.)
10. An official record of correspondence or transfer work completed at another institution must be on file in the Office of Admissions, Records and Registration at Arkansas State University at least three weeks before the degree is to be granted. If coursework is taken elsewhere during the last semester, an official transcript must be received no later than two weeks following commencement. Until it is received, the diploma and final transcript will be held.

UNIVERSITY GENERAL REQUIREMENTS FOR ALL BACCALAUREATE DEGREES

Each candidate for a baccalaureate degree must meet the following general requirements: (Some ASU colleges have additional specific "general" requirements.)

1. Submit an Intent to Graduate Application online in their Self-Service account prior to the fifth class day of the semester in which graduation will occur (If the student is unable to graduate at the end of the semester for which application has been made, a new Intent to Graduate Application form must be filed during the next semester in which the student expects to graduate).

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

2. Students will pay their graduation fee online at the time of completing the intent to graduate application either by charging the relevant fee to their student account or by paying via credit card. This fee is required of all students who wish to receive their degree, even if they decline participation in the ceremony. This fee must be paid before the diploma, final transcript or graduation attire can be released. (If the student is unable to graduate at the end of the semester for which application has been made, the student will be required to pay the graduation fee on each subsequent intent to graduate application).
3. Complete graduation requirements under the provisions of an ASU-Jonesboro Bulletin that is not more than seven years old at the time of the student's graduation, provided the student was enrolled in residence at a regionally accredited institution of higher education during the year the bulletin was in effect.
4. Complete a First Year Experience/Making Connections Seminar during the first semester of enrollment at ASU regardless of the number of concurrent, AP and other college credits earned while in high school. This course is an integral part of the overall first year experience and is designed to assist students to make a smooth transition to the university experience. Students who meet ASU transfer guidelines of 13 or more credited and transferable hours at time of initial enrollment are exempt from this policy. This requirement may be waived in cases of students transferring to ASU-Jonesboro.
5. Meet the English proficiency requirement. Complete ENG 1003 with a grade of C or better before enrolling in ENG 1013. Complete ENG 1013 with a grade of C or better. Students who are not pursuing a teacher education degree [B.S.E./B.M.E./B.S.A. (Ag.Ed.)] and who have earned lower than C in ENG 1013 may satisfy the requirement by repeating the course with a C or better, OR by passing the English Proficiency Essay after completing 62 degree-credit hours, OR by earning a passing grade in an upper-level English writing course.
6. Complete HIST 2763, or HIST 2773, or POSC 2103 as stated in General Education Curriculum to satisfy the Arkansas requirement of American History or American Government.
7. Complete the General Education curriculum, with substitutions/additions listed under the description of each degree program. (Transfer students see note under General Education Curriculum for Baccalaureate Degrees.)
8. Complete a minimum of 32 semester hours through the ASU-Jonesboro campus.
9. Complete a minimum of 45 semester hours of junior-senior level courses after earning 30 degree credit hours. (UPPER-LEVEL COURSES COMPLETED BY A STUDENT BEFORE HE/SHE HAS EARNED 30 DEGREE-CREDIT HOURS CANNOT BE COUNTED AS JUNIOR-SENIOR CREDIT.)
10. Complete a minimum of 120 semester hours (additional hours may be required by the various colleges for particular majors) and meet the requirements for a degree as outlined in the respective colleges' requirements.
11. Have an average of C or better (2.000 GPA) on all work attempted, on work in the major field, on work in the minor field if one is completed, and, if a transfer student, on all work taken at this institution. A passing grade must be made in all courses required for the degree. (These are minimum grade averages and some colleges on the campus will require higher averages.)
12. Eighteen (18) of the last 24 semester hours must be Arkansas State University work. Exceptions may be granted by the dean of the college in which the student is majoring, when conditions stated below are met.
 - A. The student must have met ASU's residency requirement by completing 32 semester hours through the ASU-Jonesboro campus.
 - B. The student must have earned at least 90 hours at ASU and/or institutions having a formal articulation agreement with ASU.
 - C. The remaining course work must be completed at a regionally accredited baccalaureate-degree-granting institution.A maximum of 25 percent of a baccalaureate degree program may be earned through credit by examination (including CLEP) advanced placement, correspondence, evaluated military service credits, DANTES and USAFI courses. Students may submit toward a baccalaureate degree a maximum of 30 semester hours earned through credit by examination. (Arkansas Act 88 of 1979 exempts nursing students from these maxima. Confer with the dean of the College of Nursing and Health Professions for information.)
13. An official record of correspondence or transfer work completed at another institution must be on file in the Office of Admissions, Records and Registration at Arkansas State University at least three weeks before the degree is to be granted. If coursework is taken elsewhere during the last semester, an official transcript must be received no later than two weeks following commencement. Until it is received, the diploma and final transcript will be held.

NOTE: See note under Degree Requirements of the College of Business for limitation on College of Business course credit for students not completing College of Business Core Courses.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

REQUIREMENTS FOR AN ADDITIONAL BACCALAUREATE DEGREE

Students who wish to complete additional baccalaureate degrees in other fields of study must satisfy the following requirements:

- Complete graduation requirements under the provisions of an ASU-Jonesboro catalogue that is not more than seven years old at the time of the student's graduation, provided the student was enrolled in residence at a regionally accredited institution of higher education during the year the catalog was in effect.
- Meet the residency requirements. If the first degree was awarded by ASU, the student will complete the remaining degree requirements in residence. If the first degree was NOT awarded by ASU, the student must complete a minimum of 32 hours in residence at ASU (residency requirement) and meet the requirements of the degree sought.
- Regardless of where the first degree was awarded, students must have completed ENG 1003 and ENG 1013 with a 'C' or better and HIST 2763 or HIST 2773 or POSC 2103 (or equivalent courses).

NOTE: Academic ranking and academic honors designations are applicable to the first baccalaureate degree only.

NOTE: GPA calculation is based on all ASU-Jonesboro work including the first degree earned.

GRADES AND GRADING SYSTEM

Students have access to view official grades at the end of each semester and each summer term in which they are enrolled.

Arkansas State University is on a four-point grading system. The grading system includes permanent letter grades and grade point values as follows:

GRADE	DESCRIPTION	EXPLANATION	GRADE PTS./HR
A	excellent	for outstanding achievement	4
B	good	for less than outstanding but demonstrating better performance than the normal competency required for satisfactory progress toward graduation	3
C	satisfactory	for performance that demonstrates the normal competency required for satisfactory progress toward graduation	2
D	poor	for performance that meets minimum course requirements but is below standards required for satisfactory progress toward graduation	1
F	failure	for performance that does not meet minimum course requirements and for which no degree credit is justified	0
P	pass	for satisfactory performance	0
CR	credit	not requiring letter grades	0
NC	no credit	for NOT meeting minimum degree credit standards for courses not requiring letter grades	0

In addition to the grades listed above, the grading system utilizes the following:

GRADE	DESCRIPTION	EXPLANATION	GRADE PTS./HR
AU	audit	for meeting all course requirements except taking examinations and completing written papers	0
I	incomplete	for students' inability to complete all course requirements for reasons beyond their control. (An incomplete grade not removed within one semester will be recorded as an F.)	0
W	withdrawal	for dropping an individual course OR for complete withdrawal from the university	0

WN	administrative drop	dropped for non-attendance during the first eleven days of class	0
FN	failure	failure to attend and not withdraw from the University	0

I - INCOMPLETE GRADE

A grade of "I" (incomplete) is appropriate on the final grade roster when a student fails to meet all course requirements for reasons beyond his/her control, i.e., illness of the student, or serious illness or death in the family, or extended research projects at the graduate level. Procrastination, pressure of work in other courses, or work not connected with the student's school load are not satisfactory reasons for an "I" grade. All "I" grades must have prior approval of the chair of the department in which the course is offered, which requires the "Request for Incomplete Grade" form to be on file with the department and the Office of Admissions, Records and Registration.

NOTE: "Grade Change Report" forms must be completed and submitted at the close of the next semester immediately following the one in which the original grade was recorded.

A student's grade point average is computed by multiplying the number of hours credit of each grade by the grade points assigned to that grade, then dividing the sum of these several products by the total number of degree-credit hours in which the student was enrolled.

AUDITING COURSES

All students auditing a course will pay the regular course audit fee as shown under the heading **Fees and Expenses**. No credit will be awarded for courses audited. The letters AU will be recorded in the grade column on the student's permanent record. Audited courses will be counted as part of the stated maximum load for a semester or term. Students may change to audit during the scheduled registration periods. Students will not be permitted to change to audit after the first week of classes in Fall or Spring semester or the first class day of a Summer term. **Students MAY NOT change to audit on the web.** (Refer to the index for DEADLINES.)

Auditors are expected to meet all requirements for a course other than taking examinations and completing formal written papers. The names of those persons registered to audit a course will appear on the class roster.

FN - FAILURE TO ATTEND AND NOT WITHDRAWN

Faculty assign a grade of FN to students who have quit attending class but do not officially drop or withdraw. The FN indicates the grade of 'F' has been earned due to lack of attendance and not necessarily lack of understanding the material. Students are encouraged to notify their instructor of their intention to drop or withdraw from a course. However the notification does not constitute the drop or withdrawal. Students must still process their drop or withdrawal in Banner Self Service or with the Wilson Advising Center. Students should review their schedule of classes using Banner Self Service to make sure their enrollment is accurate.

WN - WITHDRAWAL FOR NON-ATTENDANCE

Faculty assign a grade of WN (withdrawal for non-attendance) to students who **have never** attended a single class during the first eleven class days of the semester. Although faculty assign WN's, students are responsible for dropping/withdrawing from all classes they are not attending. Logging into an on-line course is considered the same as attendance for "WN" purposes.

Students should review their schedule of classes using Banner Self Service to make sure their enrollment is accurate. Students who find a mistake need to contact the Office of Admissions, Records and Registration for proper procedures immediately upon discovery. **The WN grade may not be appealed after the close of the semester in which the WN grade was issued.**

W - WITHDRAWAL FROM THE UNIVERSITY

(Refer to the index for the Refund of Fees Schedule)

Students withdrawing from the university after **Sunday** of the first full week of classes in a semester or **Friday** of the first week of classes in a five-week summer term must obtain an Application for Withdrawal at the office of Wilson Advising Center. The Wilson Advising Center advisors will assist students in the

process to obtain withdrawal approval from the offices of Student Accounts, Financial Aid, Residence Life and the Library. The completed application must be returned to the Wilson Advising Center by the application nullification date. This process must be completed two weeks prior to the first day of final examinations during Fall and Spring semesters. Academic Affairs will identify appropriate deadlines for other semesters (interims, summer, half sessions). Grades earned in courses completed prior to official withdrawal from the university (i.e., short courses) will not be affected by that withdrawal. Classes that have been withdrawn will remain on the student's transcript with a "W" grade for withdrawal. Once the withdrawal process is complete, the classes withdrawn will not affect the student's GPA.

Students who cease to attend classes without processing an official withdrawal, or who do not complete the withdrawal process will automatically receive an F in all courses in which they were enrolled.

STUDENTS ACTIVATED FOR MILITARY SERVICE

Arkansas code § 6-61-112 provides the following for students called into full-time military duty during an academic semester.

(a) When any person is activated for full-time military service during a time of national crisis and therefore is required to cease attending a state-supported postsecondary educational institution without completing and receiving a grade in one or more courses, the following assistance shall be required with regard to courses not completed.

(1) Such student shall receive a complete refund of tuition and such general fees as are assessed against all students at the institution or (see '(c)' below).

(A) Proportionate refunds of room, board, and other fees which were paid to the institution shall be provided to the student, based on the date of withdrawal.

(B) If an institution contracts for services covered by fees which have been paid by and refunded to the student, the contractor shall provide a like refund to the institution.

(2) If the institution has a policy of repurchasing textbooks, students shall be offered the maximum price, based on condition, for the textbooks associated with such courses.

(b) When a student is required to cease attendance because of such military activation without completing and receiving a grade in one or more courses, the institution shall provide a reasonable opportunity for completion of the courses after deactivation.

(c) A student activated during the course of a semester shall be entitled, within a period of two years following deactivation, to free tuition for one semester at the institution where attendance had been interrupted unless federal aid is made available for the same purpose.

To prevent students who are receiving veteran's benefits from being penalized and having to repay such benefits, students activated during an academic semester who have not completed sufficient course requirements for the awarding of a grade must withdraw from the university. Students should contact the VA representative in the Office of Admissions, Records and Registration immediately upon notification of activation to initiate the withdrawal process.

ACADEMIC CLEMENCY

Academic clemency is a provision allowing a one-time, irrevocable calculation of grade point average and credit hours toward graduation to be based only upon work done after a prolonged separation from college. This provision is provided for undergraduate students who have gained maturity through extended experience outside higher education institutions, and are currently enrolled at Arkansas State University and have demonstrated acceptable academic performance following their return.

Requirements to be satisfied by a student **prior** to requesting **academic clemency** toward an undergraduate degree are as follows:

1. *separation from all academic institutions for at least five years, and then
2. completion of a minimum of twelve degree hours of credit courses from a regionally accredited institution of higher education with a 2.0 or better G.P.A. and
3. formal application filed with the Office of Admissions, Records and Registration. (\$30 fee)

***Transcripts showing attempted enrollment ending in withdrawals are not considered to be separation.**

Upon approval by the Office of Admissions, Records and Registration, the student will be **granted academic clemency**. The student's permanent record will remain a record of **all** work; however, the student will forfeit the use—for degree purposes at Arkansas State University—of any college or university credit earned regardless of where the credit was earned prior to the five years separation indicated above. ASU will honor the Academic Clemency granted by another institution, but will recognize **ONLY** the clemency from that particular institution.

This process will be recorded in the student's permanent record; and will be noted on the transcript. The date of the clemency will coincide with the date of re-entry following the prolonged separation.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

REPEATING OF COURSES

Students may repeat up to 18 semester hours in which grades of D or F were earned and have only the last grade counted in computing the grade point average for undergraduate degree requirements. Courses may be repeated any time before the first Baccalaureate degree is awarded. Requirements:

1. The student must have earned a grade of D or F in the course.
2. Students may repeat up to 18 semester hours.
3. All other repeated courses will have both grades counted. Degree hours will be applied only once toward graduation requirements.
4. Students may not repeat for credit any course in which they have earned a grade of C or better.
5. Courses repeated must be the exact course. Students may not use substitutions for repeated courses.

NOTE: A grade of F cannot replace a grade of D. If the grade in the first attempt is a D and the grade in the second attempt is an F, both grades will be counted.

Once a student earns a grade of "D" or above in a course, he/she may repeat the course only one additional time and receive federal financial aid in support of the course.

The student should be aware that the grade of D or F from any previous attempts will remain on the transcript. The previous attempts will be indicated by an "E" (excluded) in the repeat column.

A request for recomputation of grade point averages must be completed and filed with the Office of Admissions, Records and Registration in order to have only the last grade counted for courses which have been repeated. Developmental courses are not included in the "Repeating of Courses" policy.

The department chair, the appropriate college dean, and the Office of Admissions, Records and Registration will determine the application of the repeat course policy in those instances where course numbers and/or titles have been changed at Arkansas State University and for courses completed at other institutions of higher education. Every student is eligible for the provisions of the repeat policy, regardless of the Bulletin year in which the student entered ASU.

Students who are planning to apply for admission to graduate school should take note that most graduate/professional schools recalculate GPAs based upon ALL courses that students have attempted during their college career. Thus, any repeated courses will have both grades counted in consideration for graduate school admission.

ADVANCED PLACEMENT CREDIT

The university awards credit to students who participate in their high school Advanced Placement (AP) Program administered by the College Board Placement Test Program. Students who wish to obtain Advanced Placement credit must request the College Board to forward their test scores to Arkansas State University after they have been admitted. Students will be awarded credit in the courses listed below, provided they make satisfactory scores on appropriate AP examinations and meet other requirements designated by the department offering the course.

Advanced Placement Exam	Minimum AP Score for Credit	ASU Credit
-------------------------	-----------------------------	------------

Calculus BC	4	MATH 2204 & MATH 2214 - Calculus I & II
Statistics	4	STAT 3233 - Applied Statistics I

*plus completion of intermediate II

**plus departmental validation of lab skills

AP credit is not awarded for a course the student has already completed at the college/university level. AP credit granted at other institutions is not automatically transferable to Arkansas State University. Students who wish to transfer AP credit must submit official documentation of earned scores.

Students who establish their eligibility to receive AP credit shall have credit recorded without grade points on their permanent records after they have been enrolled at Arkansas State University for a full summer or semester.

CREDIT BY EXAMINATION

Arkansas State University provides students the opportunity to earn university credit by examination through the College Level Examination Program (CLEP) and through challenge examinations administered by the academic departments.

College Level Examination Program (CLEP)

The university awards a maximum of thirty semester hours of university credit through CLEP. If a student has attained university-level knowledge in one or more subjects, the achievement may be recognized by the university granting credit for related college courses, provided a satisfactory score is earned in the approved CLEP examination. These examinations assess knowledge of fundamental facts and concepts, perception of relationships, and understanding of principles. Questions regarding examination dates, the administration of examinations, and the appropriateness of specific CLEP examinations should be directed to the Testing Center, which administers the program.

Anyone may take the CLEP tests; however, CLEP credit is not awarded for a course the student has already attempted and been assigned a grade, or if the student has already completed a more advanced course in the subject matter area. Students who are eligible to receive college credit based upon CLEP examination scores shall have credit recorded without grades or grade points on their permanent record.

CLEP examination credit earned at other institutions of higher education is transferable to Arkansas State University if the subject is included in ASU's CLEP credit policy. Students must bear the cost of CLEP examinations. Credit may be awarded for two general examinations (G) and thirteen subject matter examinations (S) from the following areas.

REQUIRED MINIMUM CLEP SCALED SCORES FOR GRANTING CREDIT AT ARKANSAS STATE UNIVERSITY

Course Awarded	Sem. Hours	Exam Type	CLEP Exam	Min. Score
ENG 1003	3	G	College Composition	52
ENG 1003 & ENG 1013	6	G	College Composition	62

SPAN 1013, 1023	6	S	Spanish Language Level 1	50
SPAN 1013, 1023, 2013 & 2023	12	S	Spanish Language Level 2	63

DEPARTMENT CHALLENGE EXAMINATIONS

Various academic departments administer challenge examinations in specific courses or on certain subject matter areas upon the request of students enrolled at Arkansas State University. An official form, "Request for Credit by Examination," may be obtained from the Office of Admissions, Records and Registration. Students should contact appropriate deans and department chairs for additional information.

Credit by departmental examination is not awarded for courses the student has already completed, courses less advanced than those already completed, or courses for which a CLEP examination exists.

The student who wishes to take a departmental challenge examination must pay a \$50 non-refundable fee prior to taking each examination.

Challenge exams should be taken prior to the student's last semester of enrollment preceding graduation.

GRADUATION WITH ACADEMIC DISTINCTION/HONORS

Arkansas State University recognizes the academic achievement of graduating baccalaureate-degree students in the following ways:

1. Students with a grade point average of 4.00 on all work attempted and if transfer students, on all Arkansas State University work, shall be designated as graduating **summa cum laude**.
2. Students with grade point averages of 3.80-3.99 on all work attempted, and, if transfer students, on all Arkansas State University work, shall be designated as graduating **magna cum laude**.
3. Students with grade point averages of 3.60-3.79 on all work attempted, and, if transfer students, on all Arkansas State University work, shall be designated as graduating **cum laude**.
4. Students who complete the Honors Program or the University Honors Program shall be designated as graduating in "Honors Program" or in "University Honors."

NOTE: To receive any of the above designations, students must be seeking their **first baccalaureate degree**. Students must have completed at least 45 semester hours of graded course work offered by Arkansas State University. **Semester hours completed and grade points earned during the student's last semester prior to graduation are excluded when determining academic distinction.**

HONOR ROLL

An honor roll consisting of the **Chancellor's List** and the **Dean's List** is published at the close of each semester. In order to qualify, students must complete a minimum of twelve semester hours of degree-credit courses.

Chancellor's List: Full-time students whose grade point average for the semester is within the range of 3.80 to 4.00.

Dean's List: Full-time students whose grade point average for the semester is within the range of 3.60 to 3.79.

WILSON AWARD

The Wilson Award is presented annually to the university's outstanding graduating senior. The recipient is selected on the basis of character, determination, involvement, and academic achievement. This honor is bestowed in memory of R.E. Lee Wilson, a member of the Arkansas State University Board of Trustees from 1917 until his death in 1933.

ACADEMIC GOOD STANDING

Academic Good Standing at ASU occurs when a student achieves both a current semester AND minimum cumulative GPA of 2.000 (C average). Only those grades earned at Arkansas State University are used in computing the GPA. Academic Good Standing status allows for continued enrollment in the University without restriction. For purposes of eligibility for participation in organized university activities (e.g. intercollegiate athletics, club sports, co-curricular activities, etc.), students are considered to be in academic good standing so long as placement on academic probation or academic suspension does not preclude their continued enrollment at ASU. Although students who are placed on academic probation and those

students who are placed on academic suspension and participate in the Restart@State student success program do not meet the required GPA for academic good standing, the continued enrollment privilege provided by the University allows students to maintain eligibility for participation in university activities.

ACADEMIC PROBATION AND SUSPENSION

Students entering ASU for the first time are under the retention policy listed below:

Students will receive academic probation at the close of any enrollment period (fall, spring or summer term) when their current semester **or** ASU cumulative grade point average (GPA) is below 2.00. Academic probation status will be removed at the end of any enrollment period when both the current semester and ASU cumulative GPA are 2.00 or above. Students placed on academic probation are restricted to enrollment in 12 credit hours until the current semester and ASU cumulative GPA are 2.00 or above. **Students receiving academic probation are strongly encouraged to counsel with an academic advisor or call the Wilson Advising Center at (870) 972-3001.**

Students on **academic probation** will be suspended for poor scholarship when their current semester **and** fall, spring, or summer term ASU cumulative GPA are **both** below the required 2.00. Students suspended for poor scholarship may apply for readmission under **SCHEDULE OF READMISSION FOLLOWING ACADEMIC SUSPENSION**.

READMISSION FOLLOWING ACADEMIC SUSPENSION

Upon academic suspension from ASU, students should contact the Wilson Advising Center to review the terms for admission following an academic suspension. (870) 972-3001.

Restart@state Program: Students on a first academic suspension, who have not participated in Restart@state and wish to return to ASU-Jonesboro, must seek enrollment into Restart if they are returning to ASU within two calendar years. Students must first seek approval from the Wilson Advising Center in order to participate in Restart, then complete the application process and attend a Restart workshop before classes begin for the semester. Restart@state is a fall and spring program option. Program fees do apply. The Restart Program fee is used for university retention initiatives.

During the Restart semester, students will be allowed to enroll in up to 12 hours plus the one-hour Restart Seminar. Students who withdraw from the university, are administratively withdrawn or fail the Restart Seminar will serve a mandatory separation period from the university and all other institutions of higher education the following semester. Successful completion of the Restart@state program requirements, however, will allow enrollment during the subsequent enrollment period, provided the student meets the necessary GPA and other requirements stated in the Restart contract.

First Suspension: Students who are suspended for the first time must enroll in the Restart@state program. (See procedures for enrollment under the Restart@state program.) All students considering taking coursework at another institution while on first suspension from ASU are strongly advised to meet with their ASU academic advisors for guidance on appropriate coursework selection. (See section on transferring coursework while on first suspension.)

Second Suspension: Students who earn a second suspension are not permitted to enroll at ASU for one calendar year. Students returning to ASU after serving a second suspension must first seek approval to re-enroll from the Undergraduate Graduation and Academic Credits Appeals Committee. Upon approval for re-enrollment, students must readmit with the institution before registering for classes.

Arkansas State University will not accept for transfer any credit earned at other institutions during a period in which the student is on mandatory second suspension at ASU.

Third and Subsequent Suspensions: Students who earn a third or subsequent suspension are not permitted to enroll at ASU for two calendar years. Students returning to ASU after serving a third or subsequent suspension must first seek approval to re-enroll from the Undergraduate Graduation and Academic Credits Appeals Committee. Upon approval for re-enrollment, students must readmit with the institution before registering for classes.

Arkansas State University will not accept for transfer any credit earned at other institutions during a period in which the student is on mandatory third or subsequent suspension at ASU.

Transferring Work from Other Institutions while on First Suspension: ASU will review transfer work completed while on a first suspension only after the student returns and successfully completes

12 hours with a 2.00 GPA, as well as the *Restart@state* program (if required). No more than 12 credit hours of coursework completed at another accredited college or university while on a first academic suspension from ASU will be considered for transfer and only if the coursework:

1. removes deficiencies, such as the required high school core or developmental coursework; and/or
2. is a course retaken per the ASU recomputation policy (retaking course work that was earned at ASU with a grade below "C"); and/or
3. is designated by ASU as 1000- or 2000-level.

No credit hours earned at other institutions during a period in which the student is on mandatory second, third, or subsequent suspension from ASU-Jonesboro will be accepted for transfer by Arkansas State University.

TRANSCRIPT POLICIES

Fee Information

1. Unofficial Transcripts are Free of Charge and can be printed online for coursework taken during Fall 1990 and beyond.
2. Official Transcripts are Free of Charge if ordered online through Self-Service and picked up AFTER 24 Hours, or if it is to be mailed.
3. Requests made via mail, or in person will be processed for a \$10.00 flat fee. However, paid members of the Alumni Association will receive their transcript free of charge, regardless of the requesting method.
4. For Federal Express delivery, there is an additional fee of \$25.00.
5. There is a \$2.00 charge each for immunization and test scores.

General Information

1. Official transcripts of the student's ASU permanent record are issued on "security" paper with the seal of the university and the Registrar's signature.
2. Transcripts which have been presented for admission or evaluation of credit become a part of the student's permanent record and are not reissued. Transcripts from other institutions, (including High School), must be obtained directly from the original issuing institution.
3. Readmitting students who have been in a non-enrolled status for more than one year will be required to obtain new transcripts from all institutions previously attended.
4. Transfer students should obtain, for advisor use in scheduling, a reference copy of their academic record from each institution attended.
5. Transcripts or other evidence of attendance will not be issued to or for a student who is in debt to the university.
6. Transcripts for currently enrolled students will not be available during the final exam period.
7. Transcripts are issued only at the online request of the student or the written request of the student or appropriate institutions and officials. **NOTE: Telephone requests are not accepted.** To request a transcript, please visit the Transcript page at http://www.astate.edu/a/registrar/students/transcripts/index_dot.
8. For transcripts before Fall of 1990 you must request your first hardcopy from the Transcripts office or contact the office to be set up in our system. You cannot view your transcript on the web or request a copy online for course work prior to Fall 1990. Once we have received a request from you, you will be able to view your course work totals - not course by course detail - and request future transcripts on the web.
9. All transcripts will be mailed out in a single business envelope unless requested to be mailed in separate envelopes. Only requests made by mail may be requested to go out in individual envelopes. All web requests go out in a single envelope to the designated address.
10. Immunization records and test scores may be requested in person or by mail. Please note: some former student's immunization records and/or test scores may not be available from the office.
11. All duplicate transcripts mailed to home addresses go out in individual envelopes.

Services for Students

Every residential campus is a city unto itself and, like any other city of similar size and complexity, Arkansas State University seeks to respond to the hierarchy of service and developmental needs of its citizens. Services for Arkansas State University students are provided through many different offices and departments of the university.

CAREER MANAGEMENT CENTER

The Career Management Center offers a variety of services to help students meet their career-related goals. Services are free to ASU students and include the following: individual career coaching, access to job listings, career-related workshops, and career fairs. Career coaching and workshop topic areas include resume development, interview preparation, exploring academic majors, employment trend analysis, job search, graduate school planning, and salary negotiation.

Students can receive individual career coaching to assess and explore opportunities related to their major, career plans, and goals. Career coaching can be done either in-person or virtually using Skype.

Students have access to part-time job opportunities, Federal Work-Study positions, internships, and career positions through the Career Management Center's website. Jobs are posted on a regular basis.

Workshops are presented to classes and student groups throughout the year. Speakers include industry professionals, alumni, and others with subject-matter expertise.

Career fairs take place during the Fall and Spring semesters and attract companies from a variety of industries for both internship and career positions. Students can also be part of the on-campus interview program where they can have the opportunity to interview with companies seeking job candidates.

For assistance, visit Suite 2167 of the Student Union, call 870-972-3025, email careers@astate.edu, or visit the website at <http://careers.astate.edu>.

COUNSELING CENTER

The Counseling Center provides specialized services designed to help students perform better academically, cope with emotions, and be more effective in relationships with others.

Services are performed by psychologists, counselors, counseling interns, and counseling practicum students. All clinical staff are licensed and services are always performed by those whose skills and training are appropriate to the task.

The center offers daily drop-in hours when students can see a counselor without an appointment and discuss any concerns they may have. Both individual and group counseling are available for discussion of stress management, academic performance issues, depression, anxiety, grief, or other concerns about handling the demands of college life. The center also offers outreach workshops addressing various student concerns such as choosing a major, sexual assault prevention, and alcohol and drug abuse.

The Counseling Center is located in Suite 2203, Reng Student Services Center. Business hours are 8 a.m. to 5 p.m. Monday through Friday. You may contact us by telephone at 870-972-2318. If you need to speak to a counselor after business hours, call the University Police Department at 870-972-2093 and ask them to contact a counselor.

MULTICULTURAL CENTER

The Multicultural provides educational, cultural, and social programs and initiatives that support student success for all students with specific concentration on minority and underrepresented student populations.

The Center's programming promotes awareness, understanding, and appreciation for all. The Multicultural Center is located on the third floor of the Carl R. Reng Student Union. For more information on how to get involved with the Center, please call 870-680-4052.

DISABILITY SERVICES

Disability Services (DS) specializes in facilitating full and equal access to ASU-Jonesboro and sister campus services, programs, and activities for students with disabilities. The philosophy of Disability Services is inclusion for students, while maintaining high standards of academic excellence and student satisfaction through the provision of accommodations that support students' personal, academic, social

and career development. Students who are allowed access and accommodations are likely to achieve academically and develop their confidence to navigate college life and excel in a university setting.

Disability Services offers a variety of support services, including; mentoring and transitional services, alternative testing options, advocacy, note-taking services, physical access to the classroom, buildings, and grounds; assistive technology, software training and alternative textbooks format. Students may participate in several DS programs that promote volunteerism, including; The Ghostwriter Program, Academic Success and Access Program (ASAP), Golf Cart Program, and Delta Sigma Omicron, a fraternity dedicated to promoting advocacy and inclusion of students with disabilities at Arkansas State University. For additional information, please visit our Disability Services' website at <http://disability.astate.edu> or call 870-972-3964.

FINANCIAL AID & SCHOLARSHIPS

The primary purpose of the Financial Aid and Scholarships office is to provide financial resources to students who would otherwise be unable to pursue a college education. Information on available financial aid is disseminated to both currently enrolled and prospective students.

The staff in the Financial Aid and Scholarships Office seeks to accomplish this purpose by making every effort to meet the demonstrated financial needs of all students enrolled at Arkansas State University. Financial aid is awarded on the basis of demonstrated need except where funds are specified for recognition of special talents or abilities. Practices and procedures followed by the Financial Aid staff ensure fair and equitable treatment for all applicants.

The director and the staff of the office compile composite financial aid packages for individual students to provide maximum grant and scholarship funds, along with part-time employment, in order to keep the necessity for loans at a minimum. They assist students in seeking, obtaining, and utilizing to the best advantage all financial resources available. The office seeks to obtain maximum funding for all aid programs—federal, institution, and state sources.

Detailed information and financial aid application forms may be obtained by visiting our website at <http://www.astate.edu/finaid/>.

All applications for federal student assistance must be received by the Financial Aid and Scholarships Office prior to June 1 of the award year to ensure delivery of funds by the beginning of the fall term.

Federal Aid Programs

- Federal Work-Study Program
- Federal Direct Parent Loan for Undergraduate Students
- Federal Pell Grants
- Federal Perkins Student Loan
- Federal Direct Student Loan (subsidized and unsubsidized)
- Federal Supplemental Educational Opportunity Grants

State Programs

- Arkansas Academic Challenge/Lottery Scholarship
- Distinguished Governor's Scholarship
- Governor's Scholarship
- Higher Education Opportunities Grant (Go! Opportunities Grant)
- Law Enforcement Officer's Dependents Scholarship
- Military Dependents Scholarship Program
- State Teacher Education Program (STEP Program)
- Workforce Improvement Grant (WIG)

Detailed information and application may be obtained by visiting the Arkansas Department of Higher Education website at <http://www.adhe.edu/>.

University Aid Programs (see below for details)

- Academic Scholarships (*Descriptions and guidelines for ASU institutional academic scholarships may be found at <http://www.astate.edu/finaid/>.*)
- Athletics
- Fine Arts (Applied Music, Art, Band, Debate, Theatre)
- Grants-In-Aid

NEW STUDENT ORIENTATION

This summer program aids all new and entering students in their transition to the university. This program exposes all new students to an array of social and educational opportunities. Students are advised of academic majors and are assisted in their class registration. Parents also enjoy a unique program of events that involves their participation in their student's collegiate experience. All incoming freshman students are required to attend New Student Orientation.

PARKING SERVICES

The Department of Parking Services provides many services to students and the campus community. The department issues and manages over 10,000 parking permits annually. Parking permits are available online through the myCampus web portal. The department also manages the operation of the campus parking infrastructure including commuter and residential parking lots, several hundred contract parking spaces, parking structures, non-residential gate access, parking meters, and pay stations. Parking Services personnel enforce the campus parking regulations and process parking citation appeals. More information is available at <http://parking.astate.edu>. Parking Services can be contacted at 870-972-2945 or parking@astate.edu.

RED W.O.L.F. CENTER/CAMPUS RECREATION

The Red W.O.L.F. Center and Intramural Sports program provide students with a wide variety of activities that contribute to their overall health, social development, and well-being. The Red W.O.L.F.

Center is an \$18 million state-of-the-art fitness facility. The center opened in January 2010, with an indoor track, three basketball courts, a MAC gym (soccer), dance studio, free weight and cardiovascular areas, spinning studio, and assessment rooms. Students have the opportunity to participate in programs such as group fitness classes, fitness challenges, nutrition programs, weight loss/maintenance programs, and personal training and fitness assessments. The Intramural Sports program offers a wide range of individual and team sports. The Red W.O.L.F. Center and Intramural Sports offer a large variety of activities guaranteed to interest all.

Red W.O.L.F. Center, 870-972-3800.

Hours: Monday through Thursday, 6:00 a.m. to 11:00 p.m.

Friday, 6:00 a.m. to 10:00 p.m.

Saturday & Sunday, 2:00 p.m. to 10:00 p.m.

RESIDENCE HALL GOVERNANCE

The university holds the view that the residence hall setting provides excellent opportunities for student self-governance. Each residence hall has an elected council for implementing this concept. The councils involve residents in the principles of self-government through responsible leadership and also provide programs of interest to the residents.

RESIDENCE LIFE

The Department of Residence Life offers on-campus housing for full time college students in one of our residence halls: Arkansas Hall, Kays Hall, Northpark Quads, University Hall, Honors Living Learning Community, STEM Den, and ROTC. The Greek Village consists of five sorority houses for members who are at least sophomore status. Students who have earned at least sixty hours of college credit can reside in either the Red Wolf Den or Collegiate Park apartment complex. Housing is also available for students with families as well as nontraditional (undergraduates who are at least 26 years of age) and graduate students in The Village.

All single undergraduate students who have completed fewer than thirty (30) hours and are under twenty-one years of age must live on campus, unless living with parents or having been released by committee.

Any single student under twenty-one years of age with fewer than thirty (30) hours who plans to reside off campus in compliance with the above regulation must file an off-campus housing form with the Residence Life Office, P.O. Box 2774, State University, AR 72467. Single rooms are offered on a space-available basis only.

Any inquiries concerning student on-campus housing should be directed to the Office of Residence Life on our website at <http://www.astate.edu/a/residence-life/> or by phone at 870-972-2042. A \$100.00 deposit is required to reserve university housing.

STUDENT ACTIVITIES BOARD (SAB)

The Student Activities Board is composed of a president and six directors overseeing the following committees: Carl R. Reng Student Union Events, Special Events, Spirit Club, Multicultural Affairs, Issues and Awareness and Public Relations. SAB welcomes your participation by joining one of its committees—GET INVOLVED! Contact the office at 870-972-2055.

STUDENT AFFAIRS

The division of Student Affairs is under the leadership of the vice chancellor for Student Affairs. The goal of Student Affairs is to provide students the best possible campus environment for living and learning, and provide opportunities for them to grow academically, intellectually, socially and professionally. Specific goals include: (1) improve students' basic skills as required for the selection and achievement of educational goals; (2) assist students in their selection and pursuit of career and vocational choices; (3) provide direction and guidance for students in their personal, social, and cultural development; and (4) provide services that respond to the unique needs of specific groups within the diverse campus population, and to the demands and responsibilities of campus life. Personnel in different areas of Student Affairs work cooperatively toward the achievement of these goals and objectives. The office of the vice chancellor for Student Affairs is located in the Administration Building, room 233. Visit the website at <http://www.astate.edu/a/student-affairs/>, or call 870-972-2048.

STUDENT CONDUCT

Arkansas State University promotes community standards through education. The University has a duty to protect its educational purpose by setting standards of conduct. The Standards of Student Conduct that all students must abide by can be found on the Student Affairs website at <http://www.astate.edu/a/student-affairs/>.

The guiding principles of university regulations are to promote student responsibility and accountability while protecting the community as a whole. The University has jurisdiction over any student or student organization alleged to have violated the Standards of Student Conduct. Off-Campus violations can also subject a student to the jurisdiction of the University Conduct System. Every student is responsible for living up to the standards that Arkansas State University has put forth in its policies.

Students are expected to conduct themselves in an appropriate manner and conform to the set Standards of Student Conduct at all times. Students who fail to abide by the University policies set forth in the Standards of Student Conduct fall under the jurisdiction of the Office of Student Conduct and the conduct process. Students who are found responsible for violating institutional policies will be sanctioned in an educational manner. Sanctions that can be imposed as well as the conduct process can be found on the Student Affairs website at <http://www.astate.edu/a/student-affairs/>.

All students are expected to know and observe the rules and regulations set forth in the Standards of Student Conduct. Failing to educate oneself is not considered an acceptable reason for violating these policies.

STUDENT HEALTH CENTER

The Student Health Center (SHC) is a health services facility where currently enrolled students who attend classes on the ASU-J campus may receive treatment for minor illnesses, injuries, and some chronic health conditions. The SHC also provides general physical exams, including specific female and male exams, and immunizations. The staff includes two nationally certified Advanced Nurse Practitioners, a registered nurse and a licensed practical nurse.

The SHC is located on Stadium Boulevard adjacent to First Care and the Sports Medicine facilities. The entrance to the facility faces the football stadium parking lot. The SHC is open Monday through Friday, from 8:00 a.m. to 5:00 p.m. Appointments are preferred and daily sick call times are from 8:00 to 9:00 a.m. and 1:00 to 2:00 p.m. for acute illnesses. Immunizations are administered daily. Students are encouraged to arrive between 11:00 a.m. and 1:00 p.m. for faster service.

Students who become ill or injured during the hours the center is closed may go to the

First Care Acute Care Center located adjacent to the SHC, or to one of the local emergency rooms at St. Bernards Medical Center or NEA Baptist Memorial Hospital. Other walk-in clinics also are available within Jonesboro city limits.

If an ambulance is needed to transport a student from one of the residence halls, please contact a staff member to ensure proper and quick service. Arkansas State University does not assume responsibility for payment of patient transport services, emergency room fees, prescription, or outside tests (x-rays, lab work, etc.)

The university offers students the opportunity to purchase an accident and hospitalization insurance policy. Membership in the group is voluntary. This insurance is provided by a reputable insurance company, and the university assumes no responsibility for collecting premiums or for paying claims. Unless a student has insurance coverage under a family policy, it is recommended that this policy be considered. Additional information is available on the SHC website and brochures are available at the SHC. For appointments, call 870-972-2054.

Visit the Student Health Center website at <http://www.astate.edu/a/student-health-center/>.

CARL R. RENG STUDENT UNION

The Carl R. Reng Student Union provides students with a centralized location for attending to meeting many of their needs while at ASU. Acansa Dining Hall and the Food Court area are located on the first level. Many student service offices are located in the facility, including: Student Account Services, Cashier's Window, Financial Aid and Scholarships, Leadership Center, Career Management Center, Counseling Center, Disability Services, Admissions, Records and Registration, Residence Life, Testing Center, Student Government Association, Student Activities Board, Non-Traditional Services, the ASU Bookstore, and the Multicultural Center. Meeting rooms are available for reservation by registered student organizations for meetings, conferences, and events.

Campus Information, located on the second level of the Carl R. Reng Student Union, is your source for happenings at ASU. The staff is trained to answer questions about the Carl R. Reng Student Union, ASU, and the community. Brochure racks located on the counters provide information about departments at ASU and the services they provide. Popular magazines are available to check out and read in one of the many lounges. Jonesboro city maps and JETS bus schedules may be obtained there as well. The Carl R. Reng Student Union Information Center is the distribution point for the Student Planner, Yearbook, Jonesboro Sun, and twice weekly editions of "The Herald." Items found in the Carl R. Reng Student Union are brought to Campus Information and secured and documented until claimed. Whether helping a student find a classroom or providing information about activities on campus, the Carl R. Reng Student Union and Campus Information strive to provide students with a friendly atmosphere where questions are always welcomed.

TESTING CENTER

The ASU Testing Center is certified by Educational Testing Service (ETS), American College Testing (ACT), the Psychological Corporation, Pearson VUE and several private boards and societies to coordinate the administration and security of standardized testing programs. Through our Testing Center, students seeking admission to specialized undergraduate degree programs or postgraduate programs can take the required exams on any national test date. One program gives students the opportunity to earn college credit-by-exam. The Testing Center also administers exams to individuals from the surrounding communities to certify proficiency in the fields of teaching, contracting, or counseling.

The specific tests administered by the ASU Testing Center are listed below:

Credit-by-exam

College Level Exam Program (CLEP) **

Undergraduate Admission

ACT Assessment

Test of English as a Foreign Language (TOEFL)**

COMPASS Diagnostic Assessment **

SAT

Assessment

COMPASS Placement Exam **

PRAXIS I: Pre-Professional Skills Test (PPST)**

Post-Graduate

Graduate Management Admission Test (GMAT) **

Graduate Record Exam (GRE)**

Law School Admission Test (LSAT)

Miller Analogies Test (MAT)**

Occupational Certification

PRAXIS II: Specialty Area Tests

National Counselor's Exam (NCE)

**offered ONLY on computer

UNIVERSITY POLICE DEPARTMENT

The University Police Department emerged from the General Assembly of the State of Arkansas, Act 328 of 1967. The Act authorizes state institutions to regulate traffic and other areas of institutional property. The department is to enforce all federal, state, and local laws of its jurisdiction.

The University Police Department is staffed with twenty-one officers. The office is open 24 hours a day, with four police radio dispatchers. There are university police officers on duty around the clock, 365 days a year.

Each university police officer meets standards established by Act 452 of 1975 (compiled Ark. Stat. Ann. 42-1009) as being certified by the State of Arkansas as a certified law enforcement officer.

The University Police Department also conducts Crime Prevention classes and has free prevention literature. For more information you can call or e-mail us at safe@astate.edu. We are located at 503 Robinson and our mailing address is P.O. Box 2767, State University, AR 72467. You may also contact our office by telephone at (870) 972-2093.

VETERANS ADMINISTRATION BENEFITS

Veterans of recent military service, and the dependents of certain other servicemen, may be entitled to educational assistance payments from the Veterans Administration.

Note: Tuition and fees for students using Post 9/11 educational benefits will not be submitted until after the 11th class day.

Reservists and members of the National Guard may also be eligible for monthly educational benefits.

Arkansas State University is an approved institution for veterans and veterans' beneficiaries training.

For information regarding VA Benefits, contact the VA University Official in the Office of Admissions, Records and Registration at (870) 972-2031 or (870) 972-3402.

The Beck PRIDE Center for America's Wounded Veterans is housed in the College of Nursing and Health Professions. For assistance in coordinating educational and rehabilitation services, please contact the Dean's Office at (870) 972-3112 or visit our website at <http://www.astate.edu/a/beck-pride-center/>.

VOCATIONAL REHABILITATION

Persons who have a permanent disability may receive personal and vocational counseling and financial assistance while pursuing their college education. The vocational objective of the disabled person must be approved by a Vocational Rehabilitation counselor.

These services are available through the Division of Vocational Rehabilitation, State Department of Education, Little Rock, AR 72201. Information relative to the program may be obtained from Student Account Services.

VOLUNTEER ASU

The university encourages students to engage in various types of community service opportunities that will enhance their college experience. The Volunteer ASU council was established during the 2012-2013 school year and is comprised of student leaders providing the ASU community a place to serve, learn, and make a statement by promoting and coordinating volunteer opportunities and building relationships within the community. This council puts together several campus-wide activities each semester to allow students to give back such as the Volunteer Fair, Alternative Spring Break, Blood Drives, and others.

In general, student volunteers are referred to organizations/agencies in the immediate area and will receive appropriate training from the agency prior to the volunteer work. Interested students should call the Leadership Center at (870) 972-2055 for more information on upcoming opportunities and how to get involved with Volunteer ASU.

Activities and Organizations

ACADEMICALLY RELATED ORGANIZATIONS

The various major areas of the university sponsor activities and clubs which are open to persons who choose to major in the respective areas. The clubs provide opportunities for both academic and social interests of the members. They meet each month to study special current problems peculiar to their major interest and to promote fellowship, social activities, and understanding among the students of the different areas. These groups are listed under the name of the college with which they are affiliated.

THE ASU ALUMNI ASSOCIATION

By building partnerships that involve alumni and friends in the life and work of Arkansas State University, Alumni Association members become a valuable part of ASU's success. With the Cooper Alumni Center, members are connected not only to each other but to the past, present and future of the university. Through programs such as Homecoming, reunions, scholarships, and the recognition of Distinguished Alumni, participants can stay informed, involved and committed to the ASU community. They also receive special benefits such as local and national discounts, the Inside-ASU e-newsletter and the award-winning magazine, *Voices*. For information, call (870) 972-2586 or visit <http://www.astatealumni.org/>.

THE FINE ARTS CENTER ART GALLERY

The Fine Arts Center Art Gallery, operated by the Department of Art, presents a regularly changing schedule of art exhibitions. These exhibitions include the work of artists from around the nation, the work of faculty and students of Arkansas State University, and selections from a distinguished and growing permanent collection. The gallery is open to students and the public on a regular basis during the week. Arrangements can be made for group tours of the exhibitions. For a current gallery schedule, contact the Department of Art, P.O. Box 1920, State University, AR 72467 (870) 972-3050.

HONORARY AND PROFESSIONAL ORGANIZATIONS

Arkansas State University recognizes a number of outstanding honorary and professional fraternities. These include:

AGRICULTURE BUSINESS —A professional organization for agriculture business students to promote academic and leadership qualities.
ALFRED R. SKOOG MEMORIAL CHAPTER OF THE AMERICAN CHORAL DIRECTORS ASSOCIATION —To further the knowledge and enjoyment of music in our schools and community.
THE ALPHA EAST ARKANSAS NATIONAL SOCIETY OF PROFESSIONAL ENGINEERS —For students studying to become professional engineers.
ALPHA ETA SOCIETY —National honorary society for students in allied health.

ALPHA LAMBDA DELTA —National scholastic honorary society for freshmen.
ALPHA PSI OMEGA —An honorary fraternity which supports theatre activities.
ALPHA TAU ALPHA —National professional fraternity for students majoring in agriculture education.
AMERICAN CHEMICAL SOCIETY —National organization for students majoring in chemistry.
AMERICAN CRIMINAL JUSTICE ASSOCIATION (LAMBDA ALPHA EPSILON OF ASU) —To foster professionalism between university students and faculty interested in criminal justice and law enforcement, and various law enforcement agencies associated with the community.
AMERICAN INSTITUTE OF GRAPHIC ARTS —AIGA, the professional association for design. AIGA supports the interests of professionals, educators and students who are engaged in the process of designing, regardless of where they are in the arc of their careers.
ASSOCIATION FOR CHILDHOOD EDUCATION INTERNATIONAL —An international organization dedicated to the fulfillment of every child's potential and to the professional development of educators.
ASSOCIATION FOR COMPUTING MACHINERY —To provide students with resources that advance computing as a science and a profession; enable professional development; and promote policies and research that benefit society.
ASSOCIATION FOR WOMEN IN COMMUNICATIONS —To promote the advancement of women in the field of communications, to work for the first amendment rights and responsibilities of communicators, to recognize distinguished professional achievements, and to promote high professional standards throughout the communications industry.
ASSOCIATION OF INFORMATION TECHNOLOGY PROFESSIONALS —To provide avenues for members of the IS field (employers, employees, managers, programmers, and others) to become and stay current in their rapidly changing technological careers.
ASU AMERICAN ADVERTISING FEDERATION —To promote better understanding of advertising, professionalism, increased skills, and creativity.
ASU CHAPTER OF THE NATIONAL STUDENT NURSES ASSOCIATION (NSNA) : NSNA is an organization for nursing majors and pre-nursing students. Members may participate in various programs and projects at local, state and national levels.
ASU MIDDLE LEVEL ASSOCIATION —Seeks to promote middle level teacher education by offering fellowship and support among students interested in the education of young adolescents. It seeks to encourage students to become involved in professional organizations at the campus, state, and national level. It provides access to resources that advance work with young adolescents and it seeks to advance the quality of the middle level teacher education program at ASU.
ASU NATIONAL REHABILITATION COUNSELOR ASSOCIATION (ASURCA) —To advance the role and functions of Rehabilitation Counseling in the rehabilitation process of all persons with disabilities through public awareness and professional development.
ASU SPEECH AND DEBATE TEAM —Intercollegiate debate and forensics competition.
ASU STUDENT BRANCH OF THE INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS —An organization to advance the professional development of students interested in electrical engineering as a profession.
ASU STUDENT CHAPTER OF THE AMERICAN SOCIETY OF CIVIL ENGINEERS —To provide civil engineering students the opportunity to develop a professional consciousness and provide friendly contact with the engineering profession.
BETA BETA BETA —National recognition fraternity for outstanding students in biological sciences.
BETA GAMMA SIGMA —National scholastic honorary society for business majors.
BLOCK AND BRIDLE / PRE-VET —Professional organization promoting animal science.
CHI SIGMA IOTA —International counseling academic and professional honor society. Promotes scholarship, research, professionalism, and excellence in counseling.
COLLEGIATE FFA —For students majoring in vocational agriculture.
COLLEGIATE FARM BUREAU —Professional leadership organization promoting the role of Agriculture and society.
DELTA TAU ALPHA —National fraternity for outstanding students in agriculture.

THE EDUCATIONAL SOCIETY FOR RESOURCE MANAGEMENT (APICS) —To promote a professional attitude among student members toward an understanding and acceptance of the science of production and inventory control.
GAMMA EPSILON TAU —National Organization for students in Graphic Communications.
GAMMA IOTA SIGMA —Professional collegiate insurance fraternity.
GAMMA SIGMA SIGMA —A national service sorority.
KAPPA DELTA PI —International honor society for outstanding students in education.
KAPPA MU EPSILON —National honorary fraternity for math majors.
KAPPA TAU ALPHA —To recognize and promote scholarship in the field of journalism.
LAMBDA ALPHA EPSILON —National honorary society for law enforcement.
LAMBDA IOTA TAU —International honorary fraternity for outstanding juniors and seniors majoring in literature.
LAMBDA NU —National Honor Society in Radiologic and Imaging Sciences.
LAMBDA PI ETA —National Communication Association for Speech Communications majors.
MATHEMATICAL ASSOCIATION OF AMERICA —The largest professional society that focuses on mathematics accessible at the undergraduate level. MAA members include university, college and high school teachers; graduate and undergraduate students; pure and applied mathematicians; computer scientists; statisticians; and many others in academia, government, business and industry.
MEDICAL ARTS CLUB —Provides an opportunity for students who are interested in medical or health science careers to come together and participate in events to gain a better understanding of the medical world.
MUSIC EDUCATORS NATIONAL CONFERENCE —For students who are studying to become music teachers and desire to develop leadership in music education.
NATIONAL BROADCASTING SOCIETY —National honor society for students in broadcasting.
NATIONAL PRESS PHOTOGRAPHERS ASSOCIATION —To provide professional experience in photojournalism.
NATIONAL SOCIETY OF COLLEGIATE SCHOLARS —An honor society designed to provide a sense of community and continuous lifelong learning too students to meet certain academic standards.
NATIONAL SOCIETY OF LEADERSHIP AND SUCCESS —Assists college students in achieving their goals and bettering their lives, in the process building leaders who make a better world.
NATIONAL STUDENT SPEECH, LANGUAGE AND HEARING ASSOCIATION —National organization for students in speech pathology and audiology.
OMICRON DELTA EPSILON —National honorary fraternity for students in economics.
PHI ALPHA HONOR SOCIETY —National honor society for social work students and professionals.
PHI ALPHA THETA —National honorary fraternity for outstanding students in history.
PHI BETA LAMBDA —National organization for students in business.
PHI DELTA KAPPA —National professional fraternity for graduate students and professionals in the field of education.
PHI ETA SIGMA —National scholastic honorary fraternity for freshmen.
PHI KAPPA PHI —National scholastic honorary fraternity which recognizes outstanding scholarship.
PHI MU ALPHA —National professional music fraternity.
PI ALPHA ALPHA —National honor society for outstanding students in public affairs and administration.
PI GAMMA MU —International honorary fraternity for outstanding juniors, seniors, and graduate students in the social sciences.
PI KAPPA DELTA —National honorary debate and forensics fraternity.
PI OMEGA PI —National honorary fraternity for leading students in business education.

PI SIGMA ALPHA —National honor society for outstanding students in political science.
PLANT SCIENCE CLUB —Professional organization promoting Agronomy and Horticulture.
PRE-LAW CLUB —Promotes interest and knowledge in the law and the legal profession as well as prepare students for law school and taking the required entrance exam the LSAT.
PRE-PHARMACY CLUB —Encourages greater understanding between students and the pharmacy profession.
PRINT CLUB —Encourage the art of printmaking and collecting through cooperative purchasing of supplies and fundraising to assist in printmaking objects.
PSI CHI —To advance the science of psychology and to encourage, stimulate, and maintain scholarship of the individual members in all fields, and especially in psychology.
PUBLIC RELATIONS STUDENT SOCIETY OF AMERICA —National organization for students in public relations.
REHABILITATION COUNSELING ASSOCIATION —To advance the profession of Rehabilitation Counseling through the establishment of professional ethics, public understanding and supportive programs, which assist all persons with disabilities to become self-sufficient and contributing members of society.
SIGMA ALPHA IOTA —National professional music fraternity.
SIGMAALPHALAMBDA —Promotes and rewards academic achievement through community service, personal development, and lifelong professional fulfillment.
SIGMA PI SIGMA —National physics honorary society for students engaged in physics and related activities.
SIGMA THETA TAU —National honor society of nursing that recognizes superior scholarship and leadership achievement of nursing students at the baccalaureate and graduate levels. Membership is by selection and petition.
SIGMA XI —National scientific honorary fraternity for faculty members engaged in research.
SOCIETY FOR HUMAN RESOURCE MANAGEMENT —For persons interested in personnel management or labor unions. It is affiliated with the national organization which has a membership of over thirty thousand, three hundred professional chapters and two hundred student chapters.
SOCIETY OF MANUFACTURING ENGINEERS —To guide future engineers and provide exposure to today's growing industry.
SOCIETY OF PHYSICS STUDENTS —National organization for students majoring in Physics.
SOCIETY OF PROFESSIONAL JOURNALISTS —To promote, through service by students and professional journalists, the First Amendment and Freedom of Information, and to encourage more responsible media performance.
SOCIETY OF WOMEN ENGINEERS —A service organization that empowers women to succeed and advance in the field of engineering, and to be recognized for their life-changing contributions as engineers and leaders.
STUDENT ACTIVITIES BOARD —To provide diverse sources of entertainment and cultural activities for the student body as a whole.
STUDENT ARKANSAS EDUCATION ASSOCIATION —For all students who are planning to enter the teaching profession.
STUDENT ART EDUCATION ASSOCIATION —Local branch of Art Educators and the National Art Education Association.
STUDENT ASSOCIATION OF RADIOLOGIC AND IMAGING SCIENCES —To promote the science of medical imaging and radiation therapy and worthy projects in the community.
STUDENT ATHLETE ADVISORY ORGANIZATION —Promote the positive image of the student-athletes to the administration, faculty and student body of Arkansas State University.
STUDENT COUNCIL FOR EXCEPTIONAL CHILDREN —National organization for students in special education to promote the profession and welfare of exceptional students.
TAU BETA SIGMA —National honorary organization to promote the existence and welfare of the university bands.

UPSILON PI EPSILON —International honor society for the computing sciences. Recognizes academic excellence at both the undergraduate and graduate levels in the computing sciences.
WOMEN IN SCIENCE —To promote women in careers in the scientific fields.

RELIGIOUS ACTIVITIES

Arkansas State University is a state-supported institution and therefore nondenominational, but is distinctly interested in the religious life of its students and encourages them to attend regularly the place(s) of worship of their choice. Active Groups are:

Baptist Collegiate Ministries	Muslim Student Association
Campus Christian Fellowship	Revolution Campus Ministry
Campus Outreach	Wesley Center
Catholic Newman Center	Wolfiife Campus Ministry
Chi Alpha	

Churches of all the leading denominations are located in Jonesboro. They are actively interested in the young people attending the university and welcome them to all their services.

SOCIAL ORGANIZATIONS

Arkansas State University recognizes seven national sororities and ten national fraternities. All of these social organizations encourage high scholarship, social training, and good citizenship. For more information contact the Leadership Center at 870-972-2055.

Sororities
Alpha Gamma Delta
Alpha Kappa Alpha
Alpha Omicron Pi
Chi Omega
Delta Zeta
Zeta Phi Beta

Fraternities
Alpha Gamma Rho
Alpha Phi Alpha
Alpha Tau Omega
Kappa Alpha
Lambda Chi Alpha
Omega Psi Phi
Pi Kappa Alpha
Sigma Chi
Sigma Pi
Iota Phi Theta
Phi Beta Sigma

SPECIAL INTEREST ACTIVITIES

All students enrolled at Arkansas State University are urged to take part in the numerous special interest activities:

“A” Team: To perform drill and pom-pom activities at home football and basketball games.
ASU Chapter of the NAACP: To foster the improvement of the political, educational, social and economic status of minorities; encourage the elimination of racial prejudice; and stimulate an appreciation of minority contributions to society.
ASU Cheerleaders: To represent the student body at various athletic functions throughout the year.

ASU Gaming Society: To provide and organize role-playing games, collectible card games, and strategy board games for ASU students.
ASU Hall Council: To provide recreational and educational events for residents and to be an open forum for discussion of problems and suggested changes within the residence hall.
ASU Honors Association: To foster social contact, the exchange of ideas among honors students and faculty, and encourage intellectual freedom, achievement, and growth among its members.
ASU Rugby Football Club: To offer any full time student or faculty member the opportunity to play and travel to other universities to play the sport of rugby.
ASU Rodeo Club: It is our mission to provide the opportunity for students to earn a college degree while pursuing the sport of college rodeo.
ASU Wildlife & Fisheries Club: Founded in 1994, the mission of the Wildlife and Fisheries Club is to encourage professionalism and high standards of scholarship among individual members. The Wildlife Club focuses on wildlife needs, problems, and events in the local area and it encourages the understanding of wildlife resource management sciences. The club regularly invites speakers to talk about wildlife and fisheries issues, performs fund raisers, and community service projects related to wildlife. The Wildlife Club participates annually in the Southeastern Wildlife Conclave, a regional competition for wildlife students.
Anime Club: To explore Japanese Culture through popular media.
Arkansas State Student Activist: This organization works with the community of Jonesboro to provide a structure that will allow the community to be more committed with furthering the education of its youth.
Ballroom Dancing Club: To create affordable opportunities for ballroom dancing and dance instruction as well as it promotes the benefits of ballroom dancing to the students, faculty, staff of ASU-J and the Jonesboro community.
Black Student Association: To develop university spirit among Black students, to promote high academic standards, to enhance social life, to promote racial harmony, and to serve as a medium between the Black student and administrative bodies.
Circle of Trust: Provides an avenue for retaining African-American females in higher education settings by providing setting standards of class, exceeding expectations, and overcoming barriers.
College Against Cancer: Promotes healthy lifestyles, educate the campus on cancer research, early detection, and prevention. They also organize the ASU-J Relay for Life.
College Democrats: For those students interested in State and National Democratic Party activities.
College Republicans Club: For those students interested in State and National Republican Party activities.
College Student Personnel Association: Provides academic support and mentorship to members. It provides workshop and other opportunities to enhance the career and professional development of the members. Lastly, it works to increase its member's knowledge on current issues and trends in the Student Affairs profession.
Delta Sigma Omicron: Provides advocacy for students who are disabled on the ASU-J campus. Serve as a leader in the community and presenting opportunities of live that are available to people with disabilities.
Diamond Dolls: Serve as facilitators and a spirit organization for the ASU Baseball team.
Everybody Doesn't: Empowers the college students to become leaders and take active roles on campus in the fight against drug and alcohol abuse.
Forensic Science Club: Promotes involvement in forensic endeavors to all students at ASU-J.
Future Alumni Network: Provides networking and professional development opportunities, as well as, create an easy transition from being a student to alumni.
Gay-Straight Alliance: To help students and faculty understand the Lesbian, Gay, Bisexual, and Transgendered community. This ranges from workshops, events, and other activities to further building a safe environment for LGBT people at ASU.
Graduate Association of the Business Students: Facilitates professional development for graduate students in the College of Business through mentoring and networking opportunities.

Graduate Student Advisory: To provide a forum for graduate students to express their concern for the welfare of the graduate students at the university.
Habitat for Humanity: Works closely with the Jonesboro Chapter of Habitat for Humanity to build houses and raise funds for deserving families in this region of the state. Furthermore, they work to further the mission of the National Habitat for Humanity Initiatives.
Honors College Association: To provide a forum for students in honors classes to address the needs, challenges, and opportunities facing students seeking honors credit at the university.
Indian Student Association: Promotes Indian Culture and traditions at ASU-J. Membership is open to all students who want to learn and have fun.
International Justice Mission: This group is dedicated to educating and empowering the students of ASU-J to take action to end social injustice.
International Reading Association: To involve students in literacy activities in the community.
International Students Association: To provide social and cultural activities that will promote cross-cultural awareness and understanding among all members of the university community. ISA is open to all ASU students, American as well as international.
Literature Club: Focuses on involvement in literature events and journal publications.
Mixed Martial Arts Club: Teaches self-defense and grappling skills in a safe, relaxed environment.
Model United Nations Organization: Open to any student who wishes to learn more about international affairs by becoming part of a delegation to Model United Nations meetings.
Multi-ethnic Media Services: To unify students from different ethnicities and backgrounds with fun and exciting events/programs using entertainment mediums.
Muslim Student Association: To assist people in understanding Islam.
National Association of Black Social Workers: The NABSW is committed to enhancing the quality of life and empowering people through advocacy, human services delivery, and research. The ASU chapter focuses on education and gaining experience in the field.
National Panhellenic Council: Serves as the governing body for the NPC sororities by serving as a common ground for the NPC sorority women. Furthermore, they work to inspire Greek unity among all sorority women at ASU-J.
Non-Traditional Student Association: To provide support for and offer programs geared to the particular needs of non-traditional students.
Northeast Arkansas Association for Women in Science: An organization with the objective of supporting women as they prepare for careers in science-based fields. It is a significant source of mentoring for college students, and a source for development of professionalism with our students and associated professional women.
P.E. Majors Club: Serves as the premier organization for students majoring in Physical Education and are committed to promoting healthy living through physical fitness.
Philosophy Club: Promote the examination of philosophical problems using philosophical tools via discussion, lectures, and community outreach.
Physical Therapy Student Association (PTSA): The PTSA is a campus wide organization of students united to show support to the community and offer leadership to interested students. We encourage future PT and PTA majors to participate in this organization which will cooperate with local departments of physical therapy by sharing knowledge of the field on a professional level.
Piano Society: To afford students and music lovers the opportunity to listen to live piano music, perform, attend off campus recitals, and maintain practice pianos in good working order in the College of Fine Arts.
Psychology Club: The purpose of the ASU Psychology Club is to promote interest in the field of psychology at ASU, to serve ASU and our community in varying ways in order to promote good will and charity, to enhance the knowledge of students interested in psychology, and to provide an opportunity for students to gain experience in psychological research.
Residence Hall Association: Serves as the governing body to all residence hall governance councils. RHA provides campus wide programming for students that live in on campus housing.

Rifle Team: In working with the ASU Armory/ROTC Program this groups works to teach marksmanship and to compete on at collegiate level competitions.
Rodeo Team: Provides the opportunity to learn the sport of college rodeo.
Scarlet Chess Club: Designed to introduce chess to the university at all levels of play.
Society of Neuroscience: Participants share a common interest and knowledge in Neuroscience. They share that knowledge with the Jonesboro and ASU communities respectively.
Society of Physics Students: Promotes the public interest of physics and provides academic opportunities for ASU-J students that are interested in Physics and related fields.
Sports Management Club: Provides an opportunity for academic and career success in the area of sports management.
Student Association of Clinical Laboratory Professionals (SACLP): To promote the awareness of the clinical laboratory sciences and advance the professional development of students in clinical laboratory education.
Student Association of Radiologic and Imaging Sciences (SARIS): To promote the science of radiologic technology and worthy projects in the interest of students in the radiologic sciences.
Ultimate Frisbee Association: Promotes the fellowship and fitness through athletic activity. This organization sponsors the annual Chad Lewis Memorial Ultimate Tournament.
United Voices Gospel Choir: To serve as a medium for God through songs that provide uplifting spirits both on and off campus, to sing praises unto the Lord, and to help others find the way by being a friend to all.
University Hall Council: To serve as a governing body for University Hall.

For an up-to-date listing please contact the Leadership Center at 870-972-2055.

STUDENT GOVERNMENT ASSOCIATION (SGA)

SGA is your liaison to the administration of Arkansas State University. This vital organization works as an advocate for student interests and concerns, becoming your voice to the University's faculty, staff, and administrators.

Each college has representation and both undergraduate and graduate students are represented by classification. In addition, the international students and non-traditional students have a senator. These senators and SGA staff members serve on many shared governance committees, representing your concerns in matters as important as financial aid and scholarship, safety, parking and motor vehicle and student disciplinary areas.

For more information on Student Government Association at Arkansas State University, contact the office at 972-2050.

UNIVERSITY PUBLICATIONS

The Herald of Arkansas State University — *The Herald of Arkansas State University* is the official campus newspaper published online and twice a week in print by the University during fall and spring semesters. A faculty member of the Department of Journalism serves as advisor upon appointment by the dean of the College of Communications and approval of the Chancellor of the University. All students become regular subscribers upon registration.

Wolf Tracks — The university yearbook, *Wolf Tracks*, is published annually under the direction of an Associate Dean of Students. *Wolf Tracks* contains a pictorial history of the major events throughout the year. It serves as a history of the school year, reflecting student life and activity in pictorial review.

Affairs of State — An Alumni publication, *Affairs of State* is published annually and mailed to all ASU graduates whose current addresses are known. Members of the ASU Alumni Association receive two issues per year.

Tributary — A publication containing the literary efforts of ASU students, *Tributary* is sponsored by the Department of English and Philosophy.

Voices — The magazine of ASU's Alumni Association includes profiles and feature stories, and is published twice a year, with subscriptions available through membership in the Alumni Association.

UNIVERSITY THEATRE

The ASU Theatre presents a regular schedule of major dramatic productions each year under the direction of professionally qualified members of the theatre arts faculty. Each student generation has an opportunity to see a representative selection of the great plays of the past, as well as works by modern playwrights. All ASU Theatre productions are presented in the Fowler Center, a multi-space performing arts facility. The Fowler Center theatre, seating 344 patrons, houses state-of-the-art lighting, sound and rigging systems. A program of student-directed laboratory theatre productions is presented in the black box experimental theatre, which seats up to 200 in a variety of configurations. Participation in these production programs provides experience not only for drama students but also for all students of the university, who are encouraged to take part in University Theatre activities.

Academic Programs

DEGREE PROGRAMS AND MAJORS

Arkansas State University offers fourteen undergraduate degrees, listed below with majors available in each degree program.

Associate of Arts (A.A.)

En Route Associate of Arts (A.A.) - General Education

Associate of Applied Science (A.A.S.)

Clinical Laboratory Science
*Crime Scene Investigation
Disaster Preparedness/Emergency Mgmt.
Food Technology
Law Enforcement
*Law Enforcement Administration
Physical Therapist Assistant
Radiologic Technology

*Programs offered in cooperation with the Criminal Justice Institute of the University of Arkansas.

Associate of Applied Science in Nursing (A.A.S.N.)

Nursing —LPN to RN

Associate of General Studies (A.G.S.)

General Studies

Associate of Science (A.S.)

Computer and Information Technology
Technology
En Route Associate of Science (A.S.) - General Education

Bachelor of Arts (B.A.)

Art (emphasis in): —Art History
Chemistry (emphasis in): —Pre-Pharmacy
Communication Studies
Computer Science
Criminology
Dietetics
Economics (emphasis in): —Pre-Law
English

Geography
History
Music
Philosophy
Political Science
Sociology
Theatre
World Languages and Culture —French —Spanish

Bachelor of Applied Science (B.A.S.)

Bachelor of Applied Science
Bachelor of Applied Science - Renewable Energy Technology

Bachelor of Fine Arts (B.F.A.)

Art (emphasis in): —Art Education —Studio Art
Graphic Design (emphasis in): —Graphic Design —Digital Design
Theatre (emphasis in): —Acting —Design Technology

Bachelor of Music (B.M.)

Music (emphasis in): —Composition —Instrumental Performance —Keyboard Performance —Vocal Performance
--

Bachelor of Music Education (B.M.E.)

Instrumental Music
Vocal Music

Bachelor of Science (B.S.)

Accounting
Athletic Training
Biological Sciences (emphasis in): —Biology —Botany —Environmental Biology —Pre-professional Studies —Zoology
Biotechnology

Business Administration —General —Sustainable Business Practices
Business Economics
Chemistry (emphasis in): —Chemistry —Environmental —Pre-professional

Physics
Psychology
Sport Management:
Strategic Communication (emphasis in): —Advertising —Public Relations
Technology (emphasis in): —Computer Aided Drafting and Design —Computer Systems —Manufacturing-Industrial —Technology Management —Technical Studies
Wildlife Ecology and Management

Bachelor of Science in Agriculture (B.S.A.)

Agricultural Business (emphasis in): —Agricultural Communications —Agricultural Economics —Agricultural Finance —Agricultural Marketing and Management —Farm Management
Animal Science (emphasis in): —Animal Science —Equine Management —Food Science and Technology —Pre-Veterinary
Agricultural Studies (emphasis in): —Agricultural Education —Agricultural Science —Agricultural Technology
Plant and Soil Science (emphasis in): —Agronomy —Environmental Horticulture —Science and Research

Bachelor of Science in Education (B.S.E.)

Business Technology
Early Childhood Edu. (Pre K-Grade 4)
Early Childhood Edu. (Special Ed)
English
French
General Sciences (emphasis in): —Biology —Chemistry —Physics
Mathematics
Middle-Level Education (Grades 4-8)
Physical Education
Social Science
Spanish

Bachelor of Science in Engineering (B.S.Engr.)

Civil Engineering
Electrical Engineering
Mechanical Engineering

Bachelor of Science in Civil Engineering (B.S.C.E.)

Civil Engineering

Bachelor of Science in Electrical Engineering (B.S.E.E.)

Electrical Engineering

Bachelor of Science in Mechanical Engineering (B.S.M.E.)

Mechanical Engineering

Bachelor of Science in Interdisciplinary Studies (B.S.I.S.)

Bachelor of Science in Interdisciplinary Studies
--

Bachelor of Science in Nursing (B.S.N.)

Nursing
—Second Degree Accelerated Program
—RN to BSN
—LPN to BSN

Bachelor of Science in Radiologic Sciences (B.S.R.S.)

Radiologic Sciences (emphasis in):
—Imaging Specialist
<i>Computed Tomography</i>
<i>General Radiography</i>
<i>Mammography</i>
—Diagnostic Medical Sonography
—Magnetic Resonance Imaging
—Nuclear Medicine Technology
—Radiation Therapy
—Radiology Management

Bachelor of Social Work (B.S.W.)

Bachelor of Social Work

MINORS OFFERED

Arkansas State University offers 61 minors with requirements varying from 18-24 semester hours. Specific requirements for each minor are stated in the respective college sections of this bulletin. The minors offered are listed below in alphabetical order. Refer to the index for the appropriate page references of each minor offered.

Minor	Req. Hours
Accounting	21 hours
African-American Studies	18 hours
Agricultural Business	18 hours
Agricultural Mechanics	18 hours
Agronomy	18 hours
Animal Science	18 hours
Art	21 hours
Art History	18 hours
Biology	19 hours
Chemistry	24 hours
Children's Advocacy Studies	21 hours
Cognitive Science	18 hours
Communication Studies	18 hours
Computer and Information Technology	18 hours
Computer Science	18 hours
Creative Media Production	19 hours
Criminology	18 hours
Economics	18 hours

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Electronic Commerce	18 hours
Engineering	23 hours
English	18 hours
Entrepreneurship	18 hours
Finance	18 hours
Folklore Studies	18 hours
Food Science and Technology	18 hours
French	18 hours
General Business	21 hours
Geography	18 hours
German	18 hours
Graphic Design	21 hours
History	18 hours
History and Philosophy of Science and Technology	18 hours
Homeland Security and Disaster Preparedness	18 hours
Horticulture	18 hours
Interdisciplinary Family Studies	18 hours
International Business	18 hours
International Studies	18 hours
Leadership Studies	22-23 hours
Logistics	18 hours
Management	18 hours
Marine Science	18 hours
Marketing	18 hours
Mathematics	21 hours
Medieval Studies	18 hours
Military Science and Leadership	20-21 hours
Modern European Studies	18 hours
Multimedia Journalism	19 hours
Music	22 hours
Philosophy	18 hours
Physics	18 hours
Plant Science	18 hours
Political Science	18 hours
Psychology	21 hours
Religious Studies	18 hours
Renewable Energy Technology	18 hours
Sociology	18 hours
Spanish	18 hours
Strategic Communication	18 hours
Statistics	20 hours
Theatre	21 hours
United States History	18 hours
Women and Gender Studies	18 hours

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

ARMY ROTC PROGRAM

Since 1936 the Department of the Army, in cooperation with the officials of Arkansas State University, has provided a military training program through the Army Reserve Officers Training Corps (ROTC). Completion of either the two-year or the four-year ROTC program leads to a commission as an officer in the United States Army, Army Reserve, or National Guard.

The basic course of military science (freshman and sophomore years) is offered to male and female students who are U.S. citizens.

The advanced course (junior and senior years) is available to students who meet specific requirements. For further information concerning qualifications for the advanced course, refer to the index for the Department of Military Science.

COMBINED-DEGREE PROGRAMS

ASU students who enroll in approved dental, medical, pharmacy, or law schools before receiving degrees at Arkansas State University may be eligible to transfer up to 30 credit hours from the professional school to apply toward completion of their baccalaureate degree at ASU. To qualify for a combined degree, students must meet the following requirements.

1. The last 30 credit hours immediately prior to entrance into the professional school must be completed in residence at Arkansas State University.
2. All requirements for the degree except no more than 30 transferable credit hours must be completed. The 30 transfer hours must have prior approval of the department chair.
3. A written statement of eligibility for the degree must be obtained from the Office of Admissions, Records and Registration

A student making application for this baccalaureate degree must submit a transcript showing successful completion of the professional degree, file an "Intent to Graduate" form, and pay the graduation fee.

PRE-PROFESSIONAL PROGRAMS

There is no specific degree awarded in the pre-professional programs. It is common practice in the pre-dental, pre-medical, pre-physical therapy, pre-optometry, pre-veterinary and similar programs to work toward one of the bachelors degrees offered by the university. There is no one degree specified by medical or dental schools, but most students in these pre-professional programs major in chemistry, physics, biological sciences, or interdisciplinary studies.

Pre-Law Program

Prospective pre-law students should give careful consideration to the formulation of a definite plan for pre-law study. This should be based on the student's strengths and weaknesses, interests, and personal objectives in studying law. In general, the pre-law student should place primary emphasis on the acquisition of excellent methods of study, thought, and communication rather than on a specific body of factual knowledge. These skills can be acquired in a number of different areas, and successful law students and lawyers have college majors in almost every conceivable field.

A prospective student interested in pre-law should select a department in which to major. That department will have a pre-law advisor who will be as concerned with the breadth of the student's education as with the major. One or two minors in non-related areas are also recommended.

For information about general academic concerns, about the Law School Aptitude Test, and about law school entrance requirements, students may consult with pre-law advisors in the College of Business or the College of Humanities and Social Sciences.

Pre-Professional Advising Within Specific Colleges

(Refer to the index for page references of each pre-professional area offered.)

College of Agriculture
pre-forestry
pre-veterinary medicine
College of Humanities and Social Sciences
pre-law

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

College of Sciences and Mathematics
pre-medical
pre-dental
pre-optometry
pre-pharmacy
pre-chiropractic
pre-dental hygiene
College of Business
pre-law
College of Nursing and Health Professions
pre-dental hygiene
pre-respiratory therapy
pre-occupational therapy
pre-physical therapy

Students interested in obtaining further information concerning any of these programs should contact the dean of the college in which the particular program is offered.

TECHNICAL CERTIFICATE PROGRAMS

Arkansas State University offers technical programs in which certificates of proficiency are awarded. These programs are offered for students who wish to prepare for employment in a minimum of one or two years and do not wish to pursue formal programs leading to an associate or a baccalaureate degree in the areas.

A Certificate of Proficiency in Business Information Systems training is awarded upon completion of 30 semester hours of specified courses. The courses presented for this certificate must include ENG 1003, ENG 1013, and a minimum of 12 semester hours of Computer & Information Technology (CIT) courses.

For further information on these technical certificate programs, see the College of Business section of this bulletin.

SPECIAL PROGRAMS

Arkansas State University offers special service programs for in-service teachers and for others interested in college credit in addition to that which may be earned during the regular semesters.

Summer Sessions

Two five-week and one ten-week summer sessions are scheduled each summer with classes meeting four or five days per week. Students may earn up to a total of 14 hours of credit for the entire summer. Courses are offered in all colleges and departments during these sessions, with special attention given to the needs of in-service teachers.

Special Studies Courses

Special courses of study may, upon request, be organized in any college or independent department at any level of study to meet the needs of interested groups. The middle two digits of the course numbers for such programs, which must be approved through normal university curriculum channels, will always be in the 90 series. The letter prefix will show the department offering the course, the first digit will indicate the level of study, and the last digit will show the hours of credit. Credit earned in some special studies courses may not be applicable toward a degree. A zero as the first digit in the course number will designate such non-degree-credit courses.

COMPRESSED VIDEO NETWORK PROGRAMS

Arkansas State University operates the Compressed Video Network system to deliver courses to off-campus locations. This system links instructors and students on campus with students in several locations throughout Arkansas.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Weather conditions or academic schedules at the various locations will on occasion require the recording of the courses delivered via the Compressed Video Network. Enrollment in these courses constitutes permission for the classes and the students in them to be recorded. Students who are unable to attend the classes when they are originally conducted may view the recordings in lieu of attending the scheduled class sessions. CVN sites are located at ASU-Jonesboro, ASU-Beebe, ASU-Mtn. Home, ASU-Paragould, ASU-Newport, Arkansas Northeastern College, East Arkansas Community College, and Mid-South Community College. ASU-Jonesboro has additional access to a multitude of CVN sites both within Arkansas and outside the state which may be available based on need and availability.

Admission standards and registration procedures for these courses will be the same as for on-campus courses.

OFF-CAMPUS AND INDEPENDENT-STUDY-BY-MAIL COURSES

Arkansas State University provides higher education study opportunities for those who wish to pursue such study but may be unable to come to the ASU campus to attend classes. This service is rendered through independent study-by-mail courses and off-campus classes in the area which the university serves. Many of the courses listed in the university catalogues are available through these programs.

A maximum of 31 semester hours of independent-study-by-mail credit may be counted toward a degree.

Students who complete at least 32 semester hours of residence credit on the Jonesboro campus may apply any number of ASU off-campus credits toward the baccalaureate degree.

Students may not enroll for study-by-mail or off-campus classes if the credit will create an overload situation for the semester or summer term (Refer to the index for STUDENT ACADEMIC LOAD).

Detailed information and bulletins may be obtained by writing to the Center for Education and Community Outreach, Arkansas State University, P.O. Box 2260, State University, AR 72467.

INTERIM, SHORT, AND EXTENDED-TERM CREDIT OFFERINGS

All on-campus credit offerings scheduled for periods other than the regular semesters or summer sessions must be approved by the department chair, the appropriate college dean, and the vice president for academic affairs.

Interim (offered between semesters/terms), short (less than a semester/term), and extended (more than a semester/term) credit offerings are expected to meet the same criteria of quality instruction, qualified instructor, and number of contact hours as required for regular on-campus credit offerings.

GRADUATE SCHOOL

Graduate study requires firm commitment to inquiry and learning and should be contemplated only by students who have demonstrated the power of independent thought and investigation. For this reason the Graduate School requires students to meet high standards and reserves the right to deny admission to those who do not meet these high standards. Regulations governing the Graduate School are designed to equal or exceed the minimum standards recommended by the Council of Graduate Schools in the United States and the Conference of Southern Graduate Schools.

Details of admission requirements, course descriptions, and degree programs are published in the Graduate Bulletin, which may be obtained from the Graduate School website at <http://www.astate.edu/college/graduate-school/> or on the Office of Admissions, Records and Registration bulletin site at <http://www.astate.edu/a/registrar/students/>.

The Graduate School can be contacted at Dean B. Ellis Library Building, room 619, or from the following address:

Graduate School
P.O. Box 60
State University, AR 72467

GRADUATE SCHOOL COMPUTATION OF GRADES FOR ADMISSION PURPOSES

Graduating seniors who are planning to apply for admission to graduate school should take note that most graduate schools recalculate GPAs based upon all courses that students have attempted during their college career. Thus, any repeated courses will have both grades counted in consideration for graduate school admission.

ADMISSION AS AN UNDERGRADUATE INTO THE ACCELERATED MASTERS PROGRAM

The Accelerated Master's degree option provides a transition that enables outstanding Arkansas State University undergraduate students to begin taking graduate course work in their junior or senior year and thus combine components of the undergraduate and graduate curriculum. Students admitted into an approved Accelerated Masters Degree Program may have a limited number of graduate level courses counted toward both the undergraduate and graduate degree. Students must apply and be admitted to the accelerated master's program by the department and the Graduate School before enrolling for any courses to apply to the graduate degree. Graduate programs at Arkansas State University offering an accelerated option are listed:

Chemistry (MS)
Computer Science (MS)
Agriculture (MSA) - All Concentrations
Special Education - Instructional Specialist Grades P-4 (MSE)
Special Education - Instructional Specialist Grades 4-12 (MSE)

Depending on the program, up to 12 hours of graduate credits will apply toward completion of the undergraduate degree requirements. Under the Accelerated Master's degree option, a student will be fully admitted to the Graduate School upon completion of the baccalaureate degree. This dual counting of a course for both undergraduate and graduate credit will only occur after the student completes the baccalaureate degree. Undergraduate students interested in the Accelerated Master's opportunity should contact their department or the Graduate School for admission information.

Seniors Taking Graduate Courses:

In exceptional cases, undergraduate students may enroll in graduate-level coursework for undergraduate or for graduate credit.

For undergraduate credit:

An undergraduate student who wishes to take a graduate course for undergraduate credit must:

1. have a 3.25 undergraduate grade point average,
2. have senior standing,
3. have written consent from their advisor, the course professor, and the Graduate Dean (forms available in the Graduate Office),
4. enroll in no more than nine hours of graduate coursework for undergraduate credit.

For graduate credit:

An undergraduate student who wishes to take a graduate course for graduate credit must 1) meet the GPA requirements for admission to the Graduate School, 2) have no more than 12 hours of undergraduate work remaining to complete the bachelor's degree, 3) enroll in no more than 12 hours of graduate coursework for graduate credit and in no more than a total of 15 undergraduate and graduate hours.

Enrollment under this condition is limited to one term. Students will receive graduate credit only if a grade of "C" or higher is achieved in all graduate work and only after the requirements for the bachelor's degree have been met and all requirements for admission to the Graduate School have been met.

GRADUATE DEGREES OFFERED

Arkansas State University offers work leading to the following graduate degrees with major fields of emphasis as indicated:

Doctor of Education

Educational Leadership

Doctor of Philosophy

Environmental Sciences
Heritage Studies
Molecular Biosciences
Ph.D. Minor in Statistics

Doctor of Physical Therapy

Specialist in Community College Teaching

Emphasis Areas
Agricultural Education
Biology
Business Administration
Business Technology
Chemistry
Community College Administration
Communication Studies
English
History
Music Education
Physical Education
Political Science
Reading
Sociology
Vocational-Technical Administration

Specialist in Education

Educational Leadership
Psychology and Counseling —Mental Health Counseling —School Psychology —Flex Track
Reading

Master of Accountancy

Master of Arts

Biological Sciences
Communication Studies

Criminal Justice
English
History —Public —Global
Heritage Studies
Political Science
Sociology

Master of Business Administration

Concentrations
Healthcare Administration International Business Finance Logistics Management Information Systems

Master of Communication Disorders

Master of Engineering Management

Master of Music

Performance

Master of Music Education

Master of Public Administration

Master of Rehabilitation Counseling

Master of Science

Biology
Chemistry
College Student Personnel Services
Computer Science
Disaster Preparedness and Emergency Management
Early Childhood Services
Environmental Sciences
Exercise Science
Mathematics
Sports Administration

Master of Science in Agriculture

Agricultural Business and Economics
Agricultural Education
Animal Science
Plant and Soil Science
Vocational-Technical Administration

Master of Science in Education

Curriculum and Instruction
Early Childhood Education
Educational Theory and Practice
Educational Leadership
Middle Level Education
Reading
School Counseling
Secondary Education Teaching Fields —Biology —Business Technology —Chemistry —English —Mathematics —Physical Education —Social Science
Special Education —Gifted, Talented, Creative —Instructional Specialist P-4 —Instructional Specialist 4-12

Master of Science in Engineering

Master of Science in Mass Communications

Journalism
Radio-Television

Master of Science in Nursing

Adult Health Nursing
Family Nurse Practitioner
Nurse Anesthesia

Master of Social Work

Professional Science Master

Biotechnology

The General Education Program

STATEMENT OF MISSION FOR THE GENERAL EDUCATION PROGRAM OF ARKANSAS STATE UNIVERSITY

The general education program develops a foundation and motivation for the lifelong pursuit of learning in undergraduate students at Arkansas State University by introducing them to a broad range of essential areas of knowledge that will enable them to think critically and participate ethically in a democratic nation and a global society.

GENERAL EDUCATION GOALS FOR STUDENTS

1. **Communicating effectively.** Students should be able to communicate effectively and correctly, in writing and in speech, for a variety of purposes, using appropriate forms of discourse, organizational strategies, and vocabulary.
2. **Using mathematics.** Students should be able to use, understand and apply basic mathematical skills in practical applications.
3. **Developing a life-long appreciation of the arts and humanities.** Students should develop an appreciation for the arts and humanities. They should be aware of the role of art and literature in human civilization and contemporary culture.
4. **Developing a strong foundation in the social sciences.** Students should be aware of the diverse systems developed by humans to manage and structure our relationships with one another. Students should prepare for the full range of public and private roles they are expected to fulfill as citizens, decision-makers and human beings in a democratic America and in a global society.
5. **Using science to accomplish common goals.** Students should understand how science is conducted and the criteria for scientific evidence so that they will be able to make informed decisions about the health and well-being of their communities and the natural environment. They should be aware of the ethical and political issues raised by science.

SEQUENCE OF COURSES

The General Education Program is designed to be completed in the first and second years, though this will not be possible for every student. However, the Communication and Mathematics requirements must be completed within the first 45 hours earned toward a degree. The requirements in Science are to be completed before 60 degree hours are completed, if a course listed in the category is a prerequisite for a course listed under requirements of the major. Students and advisors should check the general education requirements specified by each college for its various majors. Except where modifications are noted for specific degree programs, all baccalaureate degree candidates are required to complete the following general education curriculum.

GENERAL EDUCATION CURRICULUM

FOR BACCALAUREATE, ASSOCIATE OF ARTS AND ASSOCIATE OF SCIENCE DEGREES

Communication: <i>Six (6) hours required</i> <i>Three (3) hours optional (see Departmental Option below)</i>	Required Credit Hrs.
COMS 1203, Oral Communication ENG 1003, Composition I (<i>required</i>) ENG 1013, Composition II (<i>required</i>)	6
Math: <i>Three (3) hours required;</i> <i>MATH 1023 - College Algebra is a requirement for certain degrees which will not be satisfied by MATH 1043 - Quantitative Reasoning</i>	Required Credit Hrs.
MATH 1023, College Algebra MATH 1043, Quantitative Reasoning MATH 1054, Precalculus Mathematics	3
Science: <i>Eight (8) hours required</i>	Required Credit Hrs.
Physical Science - Four (4) hours required CHEM 1013 AND 1011, General Chemistry I and Laboratory CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Laboratory GEOL 1003 AND 1001, Environmental Geology and Laboratory PHSC 1014, Energy and the Environment PHSC 1203 AND 1201, Physical Science and Laboratory PHYS 1103 AND 1101, Intro to Space Science and Laboratory PHYS 2034, University Physics I PHYS 2054, General Physics I	4
Life Science - Four (4) hours required BIO 2013 AND 2011, Biology of the Cell and Laboratory BIOL 1003 AND 1001, Biological Science and Laboratory BIOL 1033 AND 1001, Biology of Sex and Laboratory BIOL 1043 AND 1001, Plants & People and Laboratory BIOL 1063 AND 1001, People & Environment and Laboratory BIO 2103 AND 2101, Microbiology for Nursing and Allied Health and Laboratory AND BIO 2203 AND 2201, Anatomy and Physiology I and Laboratory OR BIO 2223 AND 2221, Anatomy and Physiology II and Laboratory	4
Fine Arts & Humanities: <i>Six (6) hours required</i> <i>Three (3) hours optional (see Departmental Option below)</i>	Required Credit Hrs.
Fine Arts - Three (3) hours required ART 2503 Fine Arts – Visual MUS 2503 Fine Arts – Musical THEA 2503 Fine Arts - Theatre	3
Humanities - Three (3) hours required ENG 2003, Introduction to World Literature I ENG 2013, Introduction to World Literature II PHIL 1103, Introduction to Philosophy	3
Social Sciences: <i>Nine (9) hours required (One course must be selected from HIST 2763, HIST 2773 or POSC 2103)</i> <i>Three (3) hours optional (see Departmental Option below)</i>	Required Credit Hrs.
ANTH 2233, Introduction to Cultural Anthropology CMAC 1003, Mass Communication ECON 2313, Principles of Macroeconomics ECON 2333, Economic Issues & Concepts GEOG 2613, Introduction to Geography HIST 1013, World Civilization to 1660 HIST 1023, World Civilization since 1660 HIST 2763, United States History to 1876 HIST 2773, United States History since 1876 POSC 1003, Introduction to Politics POSC 2103, Introduction to US Government PSY 2013, Introduction to Psychology SOC 2213, Introduction to Sociology	9
Departmental Option: <i>Three (3) hours</i>	Required Credit Hrs.
<i>The three (3) optional hours are chosen by the Department for the Degree plan and not the individual student. The three (3) hours will be from either Communication, Fine Arts & Humanities, or Social Sciences.</i>	3
Total Required Hours:	35

NOTE: Making Connections is a University Requirement and is in addition to the State Minimum Core of 35 general education hours.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

GENERAL EDUCATION CURRICULUM

FOR ASSOCIATE OF APPLIED SCIENCE DEGREES

Composition:	Required Credit Hrs.
ENG 1003, Composition I (<i>required</i>) ENG 1013, Composition II (<i>required</i>)	6
Natural Sciences and Mathematics: Students may substitute a higher level biology course and its laboratory for which BIOL 1003 and 1001 are prerequisites, or may substitute BIO 2013 and 2011.	Required Credit Hrs.
MATH 1023, College Algebra	3
Select one of the following: BIOL 1003 AND 1001, Biological Science and Laboratory CHEM 1013 AND 1011, General Chemistry I and Laboratory CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Laboratory GEOL 1003 AND 1001, Environmental Geology and Laboratory PHSC 1014, Energy and the Environment PHSC 1203 AND 1201, Physical Science and Laboratory PHYS 1103 AND 1101, Introduction to Space Science and Laboratory PHYS 2034, University Physics I PHYS 2054, General Physics I PHYS 2073 AND 2071, Fundamental Physics and Laboratory	4
Social Sciences:	Required Credit Hrs.
Select one of the following: HIST 2763, The United States To 1876 HIST 2773, The United States Since 1876 POSC 2103, Introduction to United States Government	3
Computer Applications/Fundamentals:	Required Credit Hrs.
Select one of the following: CIT 1503, Microcomputer Applications CS 1013, Introduction to Computers	3
Total Required Hours:	19

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

GENERAL EDUCATION CURRICULUM FOR ASSOCIATE OF GENERAL STUDIES DEGREES

Composition:	Required Credit Hrs.
ENG 1003, Composition I (<i>required</i>) ENG 1013, Composition II (<i>required</i>)	6
Natural Sciences and Mathematics:	Required Credit Hrs.
Students may substitute a higher level biology course and its laboratory for which BIOL 1003 and 1001 are prerequisites, or may substitute BIO 2013 and 2011.	
MATH 1023, College Algebra	3
Select one of the following: BIOL 1003 AND 1001, Biological Science and Laboratory CHEM 1013 AND 1011, General Chemistry I and Laboratory CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Laboratory GEOL 1003 AND 1001, Environmental Geology and Laboratory PHSC 1014, Energy and the Environment PHSC 1203 AND 1201, Physical Science and Laboratory PHYS 1103 AND 1101, Introduction to Space Science and Laboratory PHYS 2034, University Physics I PHYS 2054, General Physics I PHYS 2073 AND 2071, Fundamental Physics and Laboratory	4

The Honors College

Rebecca Oliver, Director

Honors aims to create students who become active, creative scholars, fully prepared to contribute their knowledge and skills to the wider world. The Honors College offers special opportunities for Honors students to develop their multiple intelligences, enhance their analytical skills, and augment their knowledge and abilities in their chosen fields. The Honors College offers Honors sections of General Education courses, Honors-Option courses for upper division credit, Honors Independent Study course credit, and Honors Special Topics courses.

Honors students have the opportunity to live in the Honors Living-Learning Community (HLLC) which includes four residence hall buildings that house a total of 321 Honors students. The HLLC also includes the Honors Smart Classroom Building where many Honors courses are held in addition to special events, Honors College Association (HCA) meetings, and related activities.

ADMISSION TO THE HONORS COLLEGE

1. Entering freshmen must have an ACT composite score of 27 (or higher) AND a high school GPA of 3.50 (or higher) to be considered for admission. All incoming freshmen for Fall 2009 and beyond who meet this criteria will be notified and formally admitted to The Honors College. All students formally admitted to Arkansas State University will be automatically screened for admission to The Honors College; there is not a separate freshmen application for The Honors College. Transfer students with fewer than eighteen (18) hours must complete the HONORS TRANSFER APPLICATION to be considered for formal admission to The Honors College; ACT scores and high school grades will also be reviewed.

NOTE: Students who entered ASU prior to Fall 2009 with an ACT composite score of 24 (or higher) OR a high school GPA of 3.50 (or higher) were considered "Honors Eligible." Students should consult with their departmental advisor and a member of The Honors College staff prior to enrolling in an honors course. Students that were considered "Honors Eligible" and who initially enrolled in Honors courses upon matriculation were grandfathered into The Honors College. Students that were considered "Honors Eligible" but did not initially enroll in Honors courses must complete the HONORS TRANSFER APPLICATION to be considered for formal admission to The Honors College.

2. Current ASU sophomores, juniors, seniors, or students transferring to Arkansas State University with eighteen (18) or more hours of work may apply for formal admission to The Honors College by completing the HONORS TRANSFER APPLICATION. Students with an outstanding academic record are strongly encouraged to apply for admission to The Honors College. Students applying should have a minimum cumulative GPA of 3.25 and be recommended by a faculty member or their academic advisor. Students formally admitted to The Honors College will be able to enroll in Honors courses.
3. Undergraduate students who do not meet these qualifications may be allowed to take an Honors course with a strong recommendation by the faculty member teaching the requested Honors course and the approval of the Director of The Honors College.

NOTE: Honors students may take no more than ten (10) hours of Honors coursework in any one term.

HONORS RETENTION POLICY (EFFECTIVE FALL 2009)

It is the responsibility of each Honors student to maintain their academic standing. A formalized retention policy was introduced in Spring 2009 in order to effectively communicate what academic standards are expected of Honors students. This policy took effect in Fall 2009 and applies to all Honors students regardless of their matriculation date.

1. Honors students must maintain a cumulative GPA of 3.00 or higher to remain in good academic standing in Honors.
2. Honors students with a cumulative GPA of less than 3.00 for one semester are placed on probation in Honors. This applies to only the fall and spring semesters.

- Students need to have a semester GPA of 3.25 or higher and/or a cumulative GPA of 3.00 or higher the following semester to be removed from probation in Honors. This allows a first term student with an extremely low GPA to redeem him or herself in their second semester.
- Students with a cumulative GPA of less than 3.00 for two consecutive semesters are dismissed from Honors.
- Plagiarism and violation of the student conduct code can be grounds for immediate dismissal from Honors.

NOTE: Institutional scholarship renewal and academic standing in Honors are separate and independent review processes; meaning it is possible that a student could lose their institutional scholarship and still maintain their standing in Honors.

HONORS COURSE COMPLETION POLICY

Honors students must successfully complete Honors courses with a grade of C or better to be counted toward graduation with distinction from The Honors College. This includes graduating "In University Honors," "In Honors," or earning an Honors Certificate. Students who earn a D or F will not be able to count a course toward their total number of Honors credit hours.

HONORS TRANSFER CREDIT POLICY

Transfer students who are formally admitted to The Honors College may count up to six Honors credit hours from their previous institution if they meet the following criteria:

- Honors course(s) is denoted on the official transcript from the previous institution
- Student has earned a grade of A or B in the Honors course(s)
- Honors credit hours from both community colleges and four-year institutions can be considered

Each Honors transfer student will have their transcript reviewed by The Honors College staff for a determination of which 6 Honors credit hours can be counted toward graduation with distinction from Honors.

HONORS FORMS AND PROCEDURES

Honors students should familiarize themselves with the forms and procedures for special Honors credit hours opportunities that are on the Honors website at <http://www.astate.edu/college/honors-college/student-information/>.

1. Honors Option Course Application & Procedure

Students who are formally admitted to The Honors College may earn Honors credit for an upper-level course in their major program of study by contracting with the professor for significant additional work of an independent character as a supplement to the standard requirements for the course.

2. Honors Independent Study Application

Honors Independent Study is a course of study initiated by an Honors student and carried out under the supervision of a member of the faculty with appropriate expertise.

3. Honors Thesis Application & Guidelines

Honors students in good academic standing in The Honors College may undertake thesis study in his or her major field of study or his or her declared minor. A student must have senior Honors standing to apply to undertake an Honors senior thesis.

4. Petition to Enroll in a Graduate Course for Undergraduate Credit

Students who are formally admitted to The Honors College may petition to enroll in a graduate course for undergraduate credit.

5. Petition to Substitute an Upper-Level Course for a General Education Requirement

Students who are formally admitted to The Honors College may petition to substitute an upper-level course for a general education requirement.

GRADUATION REQUIREMENTS

GRADUATE "IN UNIVERSITY HONORS"

To graduate "In University Honors," students must take at least twenty-four (24) hours of Honors coursework. Twelve or more of these hours must be upper-division (junior/senior level) work. Students should be enrolled in at least one Honors course each semester to progress toward graduation. Students earning "In University Honors" are required to complete Honors Senior Thesis credit hours in their major (or minor) area of study and must have at least a 3.50 cumulative GPA.

Diplomas and official transcripts of those fulfilling these requirements will bear the designation "University Honors Program." All Honors courses are indicated as such on the student's transcript.

Students earning the distinction "In University Honors" receive a certificate and gold medallion to wear at Commencement and at other university functions.

GRADUATE "IN HONORS"

To graduate "In Honors," students must take at least eighteen (18) hours of Honors coursework. Nine or more of these hours must be upper division (junior/senior level) work. Students must also have at least a 3.50 cumulative GPA. Transfer students may graduate in Honors by either meeting these requirements in full or, if entering with 36 or more hours completed, by taking fifteen (15) hours of upper division Honors work; they must also have at least a 3.50 GPA.

Diplomas and official transcripts of those fulfilling these requirements will bear the designation "Honors Program." All Honors courses are indicated as such on the student's transcript.

Students earning the distinction "In Honors" receive a certificate and silver medallion to wear at Commencement and at other university functions.

HONORS CERTIFICATE

Students who do not graduate "In Honors" or "In University Honors" may earn an Honors Certificate. To earn an Honors Certificate students must complete a minimum of eighteen (18) credit hours of Honors coursework and maintain at least a 3.00 cumulative GPA.

University College

Jill Simons, Ed.D., Dean

The primary focus of the University College Dean's office is to provide campus-wide attention to academic retention and student success initiatives with primary oversight of the following areas:

- Provide comprehensive academic advising and mentoring support services for all first-year students, undeclared majors and special student populations to help clarify academic and personal strengths.
- Provide academic skills instruction to instill personal responsibility and prepare students for a successful transition into and through higher education.
- Provide a comprehensive academic support structure to enhance student success toward degree attainment.
- Provide alternative degree options to meet unique interests and goals of students.
- Provide campus-wide academic retention oversight including planning reporting and assessing initiatives.
- Provide a dynamic work environment that encourages collaboration, professional development and meaningful assessment.

FIRST YEAR EXPERIENCE (FYE):

All first-year students are required to take a First Year Experience Seminar called Making Connections during their first semester of enrollment at ASU regardless of the number of concurrent, AP and other college credits earned while in high school. This course is an integral part of the overall first year experience and is designed to assist students to make a smooth transition to the university experience. There are a variety of FYE courses offered, including numerous discipline-specific sections as well as sections for undecided majors and First Year Studies students. All courses have a common core curriculum that includes academic performance skills, time management, research skills, problem solving and understanding university policies and expectations. University College also supports the First-year Advisor Board and First-year Honor Societies.

EARLY ALERT PROGRAMMING (EAP):

University College sponsors a campus-wide academic alert referral program whereas ASU faculty have an opportunity to alert EAP administrators when students display concerning academic behavior. Once referred, the EAP team will contact the student for assistance. Typical referrals include absenteeism, poor performance, missing classwork and/or excessive tardiness. The EAP is a voluntary referral-based program.

DEGREE COMPLETION OPPORTUNITIES:

University College offers incoming, transfer, and current students who are in need of custom degree or degree completion alternatives several options. These include the En Route Associate of Arts or Associate of Science degrees, the Associate of General Studies degree, and the Bachelor of Science in Interdisciplinary Studies degree. A Minor in Leadership Studies is also offered. See University College Degree Options

RETENTION SERVICES:

University College hosts the campus Academic Retention Consortium (ARC) which is designed to ensure that ASU has a steadfast commitment to data-driven, strategic planning for student success. The primary goal of ARC is to provide a better understanding of and response to the persistence and graduation patterns of ASU students.

FIRST YEAR STUDIES

Paula Bradberry, Director

Instructors: Carter, Doyle, Ferrell, Green, Khalil, McClain, Smith, Stripling, Wharton

FIRST YEAR STUDIES

First Year Studies is the academic home for students entering the university through the FYS Admissions program. The department also houses developmental courses in math, reading and writing and coordinates services to freshman international students through the International Academic Success Institute. In addition, courses in reading, writing, math and career planning are available to any ASU student who has need of such courses.

Students who do not meet the regular admissions standards of the university of an ACT composite score of 21 and a 2.50 high school grade point average can be admitted through First Year Studies (formerly Academic Success Institute) if they have an 18 composite on the ACT (or equivalent scores on other accepted tests) and a 2.30 high school grade point average. Students admitted through FYS complete a comprehensive two-semester program that utilizes intrusive advising, tutoring, workshops, strict class attendance regulations, and limited course placement. Students whose ACT or other equivalent scores in reading, writing and mathematics are below a 19 are required by Arkansas law to take developmental courses in those areas during the first two periods of enrollment. While in First Year Studies, students complete developmental courses (if required), general education courses and a two-semester student success curriculum that includes Making Connections and UC 1032 FYS Success Strategies. Students must meet the FYS program and grade point average requirements to continue at ASU. Additional information about admission through First Year Studies is available at the University College website.

WILSON CENTER FOR ACADEMIC ADVISING AND LEARNING ASSISTANCE

Melissa Jackson, Director

Advisors: Curbo, Granberry, Kuizin, Lynn, Nesbitt

The Wilson Advising Center works collaboratively with the campus community to provide a quality academic advising experience for both the students and faculty of Arkansas State University. The center promotes the academic development of college students through an array of advising, mentoring, and instructional opportunities to assist students in identifying academic interests, values, needs, and abilities to set attainable academic and life goals.

The Wilson Advising Center is the primary home for advisement of exploratory (undecided) students at Arkansas State University. This office offers walk-in style services Monday through Friday from 8:00am-5:00pm. Any student, regardless of their major, is encouraged to contact this office with general advising questions or concerns at 972-3001.

The Advising Center also provides services for students placed on academic probation or suspension. See College Choices and Restart@state under academic standing policies in the bulletin for more information on academic standing programs. The Advising Center is the first stop for students who need to withdraw from ASU. The Advising Center provides faculty advisor trainings, and promotes continual professional development of academic advisors at ASU.

STUDENT SUPPORT SERVICES AND UPWARD BOUND (TRIO)

Jerrod Lockhart, Director - Student Support Services

Rasheda Hamilton, Director - Upward Bound

Upward Bound and Student Support Services, located on the ASU campus, report to the Office of the Vice Chancellor of Research and Academic Affairs through the University College. Student Support Services (SSS) and Upward Bound (UB) are housed in the Eugene W. Smith Hall. Both programs are funded through grants from the United States Department of Education and are to provide assistance to students in college or who are planning to attend college.

Student Support Services provides a variety of services to eligible ASU students to help them be successful college students. Services include group and individual tutoring, counseling and advising, assistance with financial aid applications, career planning, workshops on study skills, time and stress management and test taking skills, use of SSS notebook computers, use of University College computer lab and cultural and social activities. Students may be accepted into this program after acceptance at ASU and are encouraged to make application at orientation. In addition, students with disabilities may be eligible for Student Support Services.

Upward Bound serves eligible students in grades 9-12 in targeted schools in Northeast Arkansas. The program provides activities and services that seek to ensure that participants complete high school and enroll in and successfully complete a four year college degree. Upward Bound accomplishes this goal through a variety of activities including: tutoring and awareness classes on Saturdays during the academic year, a mandatory six-week intensive summer residential program that focuses on academic preparation for college, social and cultural enrichment activities, career and college planning, and a College Bridge program for graduating seniors.

Eligibility for TRIO Programs is based on student/family incomes and/or parent educational attainment.

For applications or more information about TRIO Programs including eligibility, call (870) 972-2080 or write to TRIO Programs, P.O. Box 1390, State University, AR 72467 or visit our website at <http://www.astate.edu/college/university-college/upward-bound/>.

LEARNING SUPPORT SERVICES

Vallary Bingham, Coordinator

University College's Learning Support Services nurture successful, independent learners at Arkansas State University through individual and group tutoring, course-based support, and academic coaching. Programs offered by Learning Support Services include the Learning Support Center and Writing Lab, Supplemental Instruction (SI), and Structured Learning Assistance (SLA). All services are provided free of charge to ASU students.

The Learning Support Center and Writing Lab, located on the first floor of the Dean B. Ellis Library, offer drop-in and appointment-based tutoring for all 1000- and 2000-level general education courses as well as some upper division core courses. The Math Lab and Writing Lab each offer a twenty seat computer lab for additional tutoring and resources pertaining to Hawkes-based Algebra courses and college-level writing assignments.

Supplemental Instruction (SI) is course-based academic support program targeting historically difficult courses through regularly scheduled, peer-facilitated study sessions. These sessions are open to all students enrolled in the targeted course and are attended on a voluntary basis. SI sessions reinforce study skills and basic skills while reviewing course content in a collaborative learning environment.

Structured Learning Assistance (SLA) is a proactive academic support program that identifies high-risk general education and developmental courses. Students register into course sections supported by SLA and are provided with three hours of additional course support each week. Attendance at the weekly workshops is required until the first examination or assessment and then is only required when a student drops below a set grade in the targeted course. Thus, SLA workshops are required when students need extra assistance and optional when they are successful in the course.

ASSOCIATE OF GENERAL STUDIES DEGREE PROGRAM

The fundamental purpose of the program is to enable students at Arkansas State University to assume the responsibility for developing a personalized program of study to meet particular career goals and/or individual needs. The flexibility of the program permits the completion of the general education curriculum along with combinations of a selection of elective courses that may be desired by students, but would otherwise be difficult, or impossible, to obtain in other existing undergraduate degree programs. Students seeking entrance into the Associate of General Studies program must satisfy university admission standards identical to those required of applicants for four-year university programs. Students may transfer from the Associate of General Studies program to other degree programs, and may well do so if they change career objectives and/or goals.

An Associate of General Studies degree may be conferred upon students who satisfactorily complete the appropriate curriculum and meet the specific requirements for the degree. Students pursuing the Associate of General Studies degree are responsible for complying with the general academic regulations of the university as well as all other university policies and requirements. A 2.0 cumulative grade point average is required on all course work.

Associate of General Studies

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Associate of General Studies Degrees (p. 84)	25
Electives:	Sem. Hrs.
Electives	35
Total Required Hours:	60

BACHELOR OF SCIENCE IN INTERDISCIPLINARY STUDIES DEGREE PROGRAM

The Bachelor of Science Degree in Interdisciplinary Studies (BSIS) is designed to offer highly motivated and self-directed students the opportunity to design their own major. As an alternative to traditional majors, the BSIS Program allows students to pursue their educational goals in areas not available within existing departmental curricula. With the help of a faculty sponsor, students select courses on the basis of a unifying issue, topic, theme, culture, period, or question which is considered the thematic study. Approved thematic courses must be interdisciplinary in nature, pull from at least two fields or disciplines, and may not duplicate an existing major. Courses may be chosen from any of the departments within the University. Experiential learning is strongly encouraged. Students may seek national exchange and study abroad opportunities, internships and independent studies as part of their thematic coursework. Each student's program of study is developed with the advice and approval of both the student's chosen faculty sponsor and a BSIS advisor. Students seeking a minor must use classes independently of those used in an area of emphasis. Students seeking a double major concurrently with their Interdisciplinary Studies degree or students who have completed a degree and are returning to complete a degree in Interdisciplinary Studies may only apply their general education courses toward additional second program of study.

Admission into the program requires a minimum of a 2.50 GPA, 30 earned credit hours, a completed application, and acceptance by the Dean of the University College.

The requirements for the BSIS major are as follows:

1. A formal proposal written during the student's enrollment in the Introduction to Interdisciplinary Studies (IDS 2013), a three credit class.
2. Completion of at least 36 related upper-level courses (numbered 3000 or above) in student's thematic study, totaling a minimum of 36 credits over a period of at least four semesters. Thematic study courses must be completed with a minimum grade of C.

Major in Interdisciplinary Studies

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
UC 1013, Making Connections (or equivalent course)	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82) <i>Requirements based on previous major.</i>	35
Students with this major must take the following: <i>COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)</i>	
Foreign Language Requirement:	Sem. Hrs.
Foreign Language	6
Major Requirements:	Sem. Hrs.
Grade of "C" or better required for all Approved Thematic Courses	
Approved Thematic Courses (must include at least 36 upper-level hours):	45
Experiential Learning	Sem. Hrs.
IDS 2023, Introduction to Service Learning	3
IDS 3023, Advanced Service Learning	3
Research Course	Sem. Hrs.
IDS 2013, Introduction to Interdisciplinary Studies	3
IDS 3013, Critical Thinking in the Profession	3
Leadership Development	Sem. Hrs.
IDS 4023, Leadership in the Profession	3
Senior Capstone	Sem. Hrs.
IDS 4013, Seminar in Professional Development	3
Electives:	Sem. Hrs.
Electives	13
Total Required Hours:	120

EN ROUTE ASSOCIATE OF ARTS AND ASSOCIATE OF SCIENCE DEGREES

Students who satisfactorily complete approximately 50% of the requirements for selected baccalaureate degrees may earn an Associate of Arts or Associate of Science degree en route to the four year degree. For part-time students, or students who need to stop out due to personal or extenuating circumstances, the en route associate degree can be a valuable intermediate goal, bridging the period between matriculation and the completion of a four-year baccalaureate degree.

A minimum of 60 hours, including the required ASU-J general education curriculum are required. The degree may not be declared by students upon entry to ASU. Students will be notified of their eligibility for the degree upon satisfactory completion of the minimum requirements or students who feel they have met requirements for the degree may notify the Office of Admissions, Records and Registration for a degree audit.

En Route

Associate of Arts

University Requirements:	
See University General Requirements for Associate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
UC 1013, First Year Experience - Making Connections (or other approved FYE course)	3
General Education Requirements:	Sem. Hrs.

University College Minors

Minor in Leadership Studies

The Minor in Leadership Studies is designed for students of all majors of the University. This minor is intended to supplement the major with studies and practice in leadership development. The goal is to prepare students for leadership roles and responsibilities on-campus and to extend those roles to career, community and family endeavors. The curriculum focuses on expanding students' knowledge, skills and understanding of specific leadership theories, concepts, models and current leadership issues in applied settings. Students are given opportunities to develop their own philosophies and leadership styles through various media both in-and outside the classroom. Emphasis is placed on effective communication skills and practical leadership applications through internships.

Required Courses: Any student who completes the necessary courses may declare this minor and have it appear on the transcript. Each Department which offers a course included in the minor will determine for its own majors whether courses taken for their minor can also count toward their major.	Sem. Hrs.
BCOM 3573, Managerial Communication	3
MGMT 3153, Organizational Behavior	3
MGMT 3613, Leadership	3
COMS 3203, Business and Professional Communication OR UC 1002, Introduction to Leadership Development	2-3
UC 3012, Seminar in Leadership Development	2
UC 4803, Special Problems in Leadership Development	3
Select two of the following: COMS 2243 Principles of Argumentation COMS 3243 Principles of Persuasion COMS 4203 Small Group Communication COMS 4243 Interpersonal Communication COMS 4253 Intercultural Communication PSY 3303 Motivation PSY 4743 Organizational Psychology	6
Total Required Hours:	22-23

College of Agriculture and Technology

Professor Timothy N. Burcham, Dean

Professors: Agnew, Armah, Cramer, Greenwalt, Hood, W. Humphrey, Kennedy, Phillips, Teague

Associate Professors: Green, Morris, Pittcock, Savary, Shumway

Assistant Professors: K. Humphrey, Patel, Sharma, Wells

Instructors: Barrett, Fenner, White

MISSION STATEMENT

To prepare young men and women for entry and career advancement in the food, fiber and natural resources industry, which involves production (farming), agribusiness and value-added processing, public service and rural leadership; and for entry and advancement in the Manufacturing and Industrial Technology industries;

To conduct problem-solving research related to crop and livestock production, natural resource management, and value-added processing in collaboration with private and other public sector entities;

To provide educational opportunities and experiences for transfer of knowledge in classrooms and adult continuing education;

All within environmentally sound and sustainable systems.

Agricultural Programs

COLLEGE OF AGRICULTURE CORE COURSES

In order to receive General Education credit for either of the microbiology courses, students with this major must take BIO 1303 AND 1301, Biology of Animals and Laboratory. The credit hours for the Biology of Animal courses will NOT count toward the total General Education hours.	
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35
Students with this major must take the following: MATH 1023, College Algebra CHEM 1013 AND 1011, General Chemistry I and Laboratory OR CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Laboratory BIO 2103 AND 2101, Microbiology for Nursing and Allied Health and Laboratory OR BIO 4104, Microbiology ECON 2313, Principles of Macroeconomics OR ECON 2333, Economic issues and Concepts COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)	
College of Agriculture Core Courses:	Sem. Hrs.
(See Beginning of Agriculture Section)	21
Major Requirements:	Sem. Hrs.
CHEM 1052, Fundamental Concepts of Organic and Biochemistry OR CHEM 1023 AND 1021, General Chemistry II and Laboratory	2 or 4
BIO 1303 AND 1301, Biology of Animals and Lab OR BIO 2013 AND 2011, Biology of the Cell and Lab	4
ANSC 1621, Introduction to Animal Science Laboratory	1
ANSC 3613, Nutritional Management of Domestic Animals	3
ANSC 3633, Veterinary Anatomy and Physiology	3
AGRI 2213, Genetic Improvement of Plants and Animals OR BIO 3013, Genetics	3
Select four of the following: ANSC 3203, Small Animal Care and Management ANSC 3653, Meat Science and Processing ANSC 3663, Sheep Production ANSC 4623, Beef Production ANSC 4643, Techniques of Farm Animal Production	12
Sub-total	28 or 30
Emphasis Area (Equine Management):	Sem. Hrs.
AGEC 4073, Agricultural Business Management	3
ANSC 1522, Beginning English Equitation	2
ANSC 1602, Equitation	2

Major in Animal Science (cont.)

Bachelor of Science in Agriculture Emphasis in Equine Management

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

ANSC 1612, Intermediate Western Equitation	2
ANSC 2623, Equine Care and Management	3
ANSC 4613 Horse Production	3
ANSC 4743, Equine Nutrition	3
Sub-total	18
Electives:	Sem. Hrs.
Electives	13 or 15
Total Required Hours:	120

Major in Animal Science

Bachelor of Science in Agriculture Emphasis in Pre-veterinary

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
AGRI 1213, Making Connections in Agriculture	3
General Education Requirements:	Sem. Hrs.
In order to receive General Education credit for either of the microbiology courses, students with this major must take BIO 1303 AND 1301, Biology of Animals and Laboratory. The credit hours for the Biology of Animal courses will NOT count toward the total General Education hours.	
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35

PSSC 2811, Soils Laboratory	1
PSSC 1301, Plant Science Laboratory	1
PSSC 4313, Plant Growth and Development	3
Sub-total	25
Emphasis Area (Science/Research):	Sem. Hrs.
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 3103 AND 3101, Organic I and Laboratory	4
CHEM 3113 AND 3111, Organic II and Laboratory	4
CHEM 4243, Biochemistry	3
Select one of the following: MATH 2204, Calculus I MATH 2194, Survey of Calculus AGRI 4233, Experimental Agricultural Statistics	3-4
PSSC or HORT electives or related area	10-11
Sub-total	29
Electives:	Sem. Hrs.
Electives	7
Total Required Hours:	120

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Major in Plant and Soil Science

Bachelor of Science in Agriculture Emphasis in Environmental Horticulture

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course	Sem. Hrs.
AGRI 1213, Making Connections in Agriculture	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35
Students with this major must take the following:	
<i>MATH 1023, College Algebra</i>	
<i>CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Lab</i>	
<i>BIOL 1003 AND 1001, Biological Sciences and Laboratory</i>	
<i>COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)</i>	
College of Agriculture Core Courses:	Sem. Hrs.
(See Beginning of Agriculture Section)	21
Major Requirements:	Sem. Hrs.
AGEC 3013, Computerized Agricultural Records OR CIT 1503, Microcomputer Applications	3
AGRI 2213, Genetic Improvement of Plants and Animals	3
AGRI 4223, Agriculture and the Environment	3
BIO 1503 AND 1501, Biology of Plants and Laboratory	4
BIO 3303 AND 3301, General Entomology and Laboratory OR BIO 3313 AND 3311, Economic Entomology and Laboratory	4
PSSC 3313, Plant Disease Management	3
PSSC 2811, Soils Laboratory	1
PSSC 1301, Plant Science Laboratory	1
PSSC 4313, Plant Growth and Development	3
Sub-total	25
Emphasis Area (Environmental Horticulture):	Sem. Hrs.
CHEM 1052, Fundamental Concepts of Organic and Biochemistry	2
HORT 3293, Landscape Plant Materials	3
HORT 2253, Fundamentals of Horticulture	3
HORT 4253, Greenhouse Management	3
HORT electives or related area	18
Sub-total	29
Electives:	Sem. Hrs.
Electives	7
Total Required Hours:	120

Agricultural Programs Minors

Minor in Agricultural Business

Required Courses:	Sem. Hrs.
Agricultural Business Electives	6
Upper-level Agricultural Business Electives	12
Total Required Hours:	18

Minor in Agricultural Mechanics

Required Courses:	Sem. Hrs.
All Agricultural Mechanics courses have an AGED Prefix. Three hours of AGEN, lower or upper-level, may be used to satisfy the requirements of this minor.	
Agricultural Mechanics Electives	6
Upper-level Agricultural Mechanics Electives	12
Total Required Hours:	18

Minor in Agronomy

Required Courses:	Sem. Hrs.
Agronomy Electives	6
Upper-level Agronomy Electives	12
Total Required Hours:	18

Minor in Animal Science

Required Courses:	Sem. Hrs.
Animal Science Electives	6
Upper-level Animal Science Electives	12
Total Required Hours:	18

Minor in Food Science and Technology

Required Courses:	Sem. Hrs.
ANSC 3653, Meat Science and Processing	3
FDST 2203, Introduction to Food Science	3
FDST 2213, Food Chemistry	3
FDST 2223, Principles of Food Processing	3
FDST 3203, Food Quality Assurance	3
FDST 4213, Food and Health	3
Total Required Hours:	18

Agricultural Programs Minors

Minor in Horticulture

Required Courses:	Sem. Hrs.
Horticulture Electives	6
Upper-level Horticulture electives	12
Total Required Hours:	18

Minor in Plant Science

Required Courses:	Sem. Hrs.
Plant Science Electives	6
Upper-level Plant Science Electives	12
Total Required Hours:	18

ASSOCIATE OF APPLIED SCIENCE IN FOOD TECHNOLOGY

The Associate of Science degree with a major in Technology will allow the student to meet the general education requirements, the degree preconditions, and utilize the opportunities to exercise work experience or prior education that may contribute to this degree option.

The program allows students to participate in a two-year program to meet the needs of industry while preserving the option of earning a baccalaureate degree in the future. It permits industry to meet its educational and training requirements when a four-year degree is not warranted.

The student must complete a minimum of 62 credit-hours of work and must adhere to all policies established by the university. Flexibility is provided through counseling and the review of prior experience which may be substituted for formal college credit.

The Associate of Science-Technology is accredited by The Higher Learning Commission.

Major in Food Technology

Associate of Applied Science

University Requirements:	
See University General Requirements for Associate degrees (p. 40)	
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Associate of Applied Science Degrees (p. 83)	19
Major Requirements:	Sem. Hrs.
FDST 2203, Introduction to Food Science	3
FDST 2213, Food Chemistry	3
FDST 2223, Principles of Food Processing	3
FDST 2503, Food Safety and Sanitation	3
FDST 3203, Food Quality Assurance	3
FDST 330V, Practicum	1-3
Sub-total	16-18
Required Support Courses:	Sem. Hrs.
AGRI 3233 Agriculture Statistics	3
BIO 2103 AND 2101, Microbiology and Laboratory	4
BCOM 2563, Business Communication	3
CHEM 1013 AND 1011, General Chemistry I and Laboratory	4
ECON 2313, Principles of Macroeconomics	3
MGMT 3123, Principles of Management	3
NS 2203, Basic Human Nutrition	3
Sub-total	23
Electives:	Sem. Hrs.
Electives	9-11
Total Required Hours:	69

Technology Program

BACHELOR OF SCIENCE DEGREE

The Bachelor of Science degree with a major in Technology offers five emphasis areas: *Technical Studies*, *Technology Management*, *Computer Aided Drafting and Design*, and *Manufacturing-Industrial Technology*. Each program will be tailored to meet the needs of the career specifications designated by the student.

The **Technical Studies** option is designed to permit the student to tailor a program in accordance with his/her specific interests for which a traditional baccalaureate degree is not attainable.

Students who have successfully completed some of the degree requirements in an occupational environment may continue their education under this educational umbrella.

The **Technology Management** option is designed to prepare a student to apply theories, perceptions, and principles established in the humanities and social and behavioral sciences, as well as sound business practices in a technology-oriented environment. Graduates with this emphasis will serve as liaison between manufacturing or industrial production and the administrators of a company. Consequently, a sound understanding of the basic principles of business, personnel management, and management techniques will be mandatory.

The **Manufacturing-Industrial Technology** option is focused to develop and train qualified personnel capable of directing the production, distribution, and management of products and services. Graduates with this emphasis will serve as liaison between manufacturing or industrial production and the administrators of the company. Consequently, a sound understanding of the basic principles of business, personnel management, and management techniques will be mandatory.

The student, upon completion of the program, will have the ability to apply the principles of mathematical and physical sciences as related to technology, in the manufacturing-industrial setting.

The **Computer Aided Drafting and Design** option is focused to develop and train qualified personnel in the use of computer aided technology for designing objects, real or virtual. The design of geometrics models using parametric procedures, using driven dimension, and tolerances. These procedures in CAD, will allow students the ability to apply the principles in manufacturing settings. Graduates with this emphasis will serve all manufacturing clients such as Civil, Mechanical, Electrical, and Industrial engineering groups.

Prior Learning Assessment is a program that enables students to earn college credit for learning acquired outside of the traditional college classroom. Seminars are provided to assist students in the development of prior learning portfolios. Upon completion of the assessment process, up to 25 percent of the degree requirements may be awarded using TECH 3721-9, Technical Career Subjects and/or TECH 1891-9, Occupational Studies Credit.

Students who are graduates of two-year occupational programs may be considered as candidates to enroll in the Bachelor of Science - Technology degree program.

The Bachelor of Science - Technology degree is accredited by the Higher Learning Commission.

Major in Technology

Bachelor of Science

Emphasis in Computer Aided Drafting and Design

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

Bachelor of Applied Science*

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
<p>Students interested in pursuing a Bachelor of Applied Science degree must schedule a personal interview with a BAS advisor. During this interview, the advisor will outline in detail the requirements for the BAS program. The advisor and the student will analyze the appropriateness of the degree given the student's goals and career objectives, the degree's requirements and the student's academic progress to date.</p> <p>The BAS program requires completion of the following program prerequisites:</p> <ol style="list-style-type: none"> 1. Associate of Applied Science (AAS) or other recognized technical-professional associate degree from an accredited institution. 2. Minimum GPA of 2.00 on all transfer work. 3. Completion of the ASU admission application process with acceptance. 4. Completion of the State Minimum General Education Core. 5. Completion of a total of 120 hours of which 45 hours are upper-level (3000-4000) 6. Minimum GPA of 2.00 on all coursework at ASU and a 2.00 average on all coursework presented for graduation. <p><i>*The Bachelor of Applied Science degree program does not have a major.</i></p>	
General Education Requirements:	
Communication (9 hrs required) COMS 1203, Oral Communications ENG 1003, Composition I (C or Better) ENG 1013, Composition II (C or Better)	9
Math (3 hours required) MATH 1023, College Algebra (or higher level math course for which College Algebra is a prerequisite) MATH 1054, Precalculus Math	3
Science (8 hours required) Select one of the following combinations: BIO 2013 AND 1021, Biology of the Cell and Laboratory BIO 2103 AND 2101, Microbiology for Nursing and Laboratory BIO 2203 AND 2201, Human Anatomy and Physiology I and Laboratory BIOL 1003 AND 1001, Biological Science and Laboratory BIOL 1033 AND 1001, Biology of Sex and Laboratory BIOL 1043 AND 1001, Plants and People and Laboratory BIOL 1063 AND 1001, People and the Environment and Laboratory Select one of the following combinations: CHEM 1013 AND 1011, General Chemistry I and Laboratory CHEM 1043 AND 1041, Fundamental Concepts of Chemistry and Laboratory GEOL 1003 AND 1001, Environmental Geology and Laboratory PHSC 1014, Energy and the Environment PHSC 1203 AND 1201, Physical Science and Laboratory PHYS 1103 AND 1101, Intro to Space Science and Laboratory PHYS 2034, University Physics I PHYS 2054, General Physics I	8

ASSOCIATE OF SCIENCE IN TECHNOLOGY

The Associate of Science degree with a major in Technology will allow the student to meet the general education requirements, the degree preconditions, and utilize the opportunities to exercise work experience or prior education that may contribute to this degree option.

The program allows students to participate in a two-year program to meet the needs of industry while preserving the option of earning a baccalaureate degree in the future. It permits industry to meet its educational and training requirements when a four-year degree is not warranted.

The student must complete a minimum of 62 credit-hours of work and must adhere to all policies established by the university. Flexibility is provided through counseling and the review of prior experience which may be substituted for formal college credit.

The Associate of Science-Technology is accredited by The Higher Learning Commission.

College of Business

Professor Jim Washam, Interim Dean

Professor C. William Roe, Associate Dean

MISSION STATEMENT

The mission of the ASU College of Business is to provide high-quality management education to traditional and non-traditional students in the MidSouth and to provide support for businesses and communities through research, economic development activities, and consultative services.

The college strives to build challenging programs of excellence with emphasis on leadership/values, international business, technology, entrepreneurship, and economic development through an educational process that fosters analytical thinking, problem solving, communication skills, and experiential learning. Emphasis is placed on undergraduate education, while meeting the needs of the business community through select graduate degrees and professional workforce development programs.

The college is committed to enhancing professional development of faculty and staff through support of applied research, instructional development, and professional growth activities in a collegial environment. Professional development is also provided to students through student organizations, honor societies, and action-based learning.

The Mission is strengthened through ongoing review and continuous improvement of all programs and activities.

Because knowledge of technology is essential to success in business, the college provides three modern computer labs for student use. To broaden their educational experiences, students may become involved in auxiliary and outreach activities through the Supply Chain Management Program, Small Business & Technology Development Center, Economic Education Program, and seminars.

The College of Business is comprised of four academic departments: Accounting, Computer and Information Technology, Economics and Finance, and Management and Marketing. Through these departments, the college offers 10 baccalaureate degrees and an associate degree program. The Delta Center for Economic Development is the outreach branch of the college. This center provides students with the opportunity to participate in various college initiatives to partner with the business community to enhance the economic growth and development of the region and state.

Three graduate degrees are available in the College of Business: the Master of Business Administration (MBA), the Master of Accountancy (MACC), and the Master of Science in Education (MSE), which is offered in conjunction with the College of Education. Students should refer to the Graduate Bulletin for complete details about these programs.

DEGREE REQUIREMENTS

BACCALAUREATE DEGREES

Except for business technology and economics majors, College of Business students who meet the prescribed degree requirements will be awarded the Bachelor of Science degree. Students majoring in business technology will be awarded the Bachelor of Science in Education degree upon completion of their degree requirements. Students majoring in economics will be awarded the Bachelor of Arts degree upon completion of their degree requirements. Students following a program leading to a degree in the College of Business are required to complete a minimum of 43 semester hours of General Education requirements, as well as the specific major requirements for the Bachelor of Science degree. Considerable latitude is permitted in the selection of the additional elective courses necessary to attain the degree. For the Bachelor of Science in Education, refer to the Teacher Education Program under the College of Education.

In addition to meeting the University Requirements for all Baccalaureate Degrees (refer to index for page reference) as presented by the university, any candidate for a degree in the College of Business must also meet the following specific requirements:

1. Maintain a minimum GPA of 2.25 or a grade of at least a "C" for each course in the College of Business core courses, based on the last grade earned in each course.
2. Maintain a minimum GPA of 2.25 or a grade of at least a "C" for each required course in the major, based on last grade earned in each course.

3. Maintain an overall GPA of 2.25.
4. Complete at least 30 of the last 36 semester hours in courses offered by ASU-Jonesboro. At least 50 percent of the business credit hours required for a baccalaureate degree and 50 percent of business courses required for a major in business must be earned in the ASU-Jonesboro College of Business.
5. Take freshman and sophomore courses prior to taking junior and senior business courses. The student must earn 45 Junior/Senior hours. No upper-level degree credit will be given for courses taken prior to the completion of 54 semester hours of earned credit.

A College of Business student may take a double major in business. She/he may also elect a business minor, in consultation with his/her advisor. Students majoring in the College of Business may not minor in Business Administration.

NOTE: Students not majoring in the College of Business will receive credit for no more than 30 hours of course work offered by the College of Business.

COMPUTER PROFICIENCY

All candidates for baccalaureate degrees in the College of Business are required to demonstrate proficiency in basic computer skills in order to be awarded the degree. This proficiency requirement must be satisfied during their Freshman or Sophomore years, preferably during the freshman year, and prior to enrolling in any upper division College of Business courses and before enrolling in ECON 2113 — Business Statistics I.

Each student will be required to demonstrate proficiency in the use of: Microsoft Word, Excel, Powerpoint, and Access. The specific components of the proficiency requirement will be continually updated based upon industry expectations and academic needs.

The computer proficiency can be satisfied in one of two ways. (1) completing CIT 1503 — Micro-computer Applications (or CS 1013 — Introduction to Computers) with a grade of "C" or better, or (2) passing the College of Business hands-on exam to be offered each semester. Students will be responsible for paying all fees associated with the options they select.

COLLEGE OF BUSINESS CORE COURSES

All candidates for baccalaureate degrees in the College of Business are required to take the following College of Business core courses.

College of Business Core Courses: Grade of "C" or better or 2.25 overall core GPA required Courses denoted below by an asterisk (*) must be completed before enrolling in upper (junior/senior) level classes.	Sem. Hrs.
*ACCT 2033, Introduction to Financial Accounting	3
*ACCT 2133, Introduction to Managerial Accounting	3
BCOM 2563, Business Communication	3
*CIT 1503, Microcomputer Applications or Proficiency OR CS 1013, Introduction to Computers	3
CIT 3013, Management Information Systems	3
CIT 3523, Operations Management	3
*ECON 2113, Business Statistics I	3
*ECON 2323, Principles of Microeconomics	3
FIN 3713, Business Finance	3
LAW 2023, Legal Environment of Business	3
MGMT 3153, Organizational Behavior	3
MGMT 4813, Strategic Management	3
MKTG 3013, Marketing	3
Total Required Hours:	39

ENROLLMENT IN UPPER-LEVEL COURSES IN BUSINESS

The College of Business offers upper-level courses (junior/senior level) in a variety of professional fields of business. To be eligible to enroll in any upper-level courses, any business major must first have the proper prerequisites and satisfy the following enrollment requirements: (1) complete 54 semester hours that includes General Education requirements and all lower-level College of Business courses except for BCOM 2563 and LAW 2023; (2) complete MATH 2143; (3) complete and file a degree plan which is done in consultation with the student's advisor.

Students majoring in fields outside the College of Business may enroll in upper-level courses in business, provided they have the proper prerequisites, and have completed 54 semester hours of credit prior to enrollment. Students not majoring in business are limited to a maximum of 30 semester hours of College of Business courses. Students not enrolled in the College of Business will need to contact the relevant department to obtain a permit for registration in upper-level courses.

Department of Accounting

Professor, John Robertson, Chair

Professors: *Dancer, Quinn*

Assistant Professors: *Kim, Pae, Peterson*

Instructors: *Carmack, Carr, Powell*

ACCOUNTING PROGRAM: The accounting major prepares students for rewarding careers as industrial accountants, cost analysts, controllers, tax accountants, members of financial regulatory teams such as the IRS or banking auditors, independent auditors in CPA firms, and internal auditors. ASU accounting graduates work for manufacturing firms, in government agencies, in banking, in not-for-profit entities, and in public accounting.

The ASU undergraduate degree with accounting major requires 120 course hours. Many states, including Arkansas, currently require 150 hours to sit for the Certified Public Accountant (CPA) exam. The CPA license is only required by law for individuals doing audits; however, many non-auditors wish to pursue the CPA exam as a credential verifying the value of their education. Students interested in the CPA exam should plan an additional 30 hours of credits with their advisor, preferably by beginning work on their Masters of Accountancy (MAcc) degree. See the ASU Graduate Bulletin for details on the MAcc program.

Accounting majors (a) should not take accounting courses during their freshman year and (b) should consult with their advisors concerning CPA exam requirements.

Please visit <http://www.astate.edu/college/business/>.

Department of Computer and Information Technology

Professor John Robertson, Chair

Professors: Fish, Jones, Moeni, R. Ruby, Segall, Seydel

Associate Professors: P. Ruby, Sinclair, Syamil, Zhang

The Department of Computer and Information Technology (CIT) offers the undergraduate curricula in Computer and Information Technology, and the undergraduate and graduate curricula in Business Technology. Areas of study offered by the CIT Department include, but are not limited to: business technology, network and telecommunications management, enterprise resource planning, end-user computing, data management (including database management, data mining, and data warehousing), software development (including programming languages and systems analysis/development), web interface development, e-commerce, project management, supply chain technologies (including operations management, automatic data capture and simulation modeling), information technology (IT) planning and strategy, and related areas.

COMPUTER & INFORMATION TECHNOLOGY PROGRAM:

The Bachelors of Science in Computer & Information Technology is designed to prepare students for careers as IT professionals. Our graduates hold positions as network administrators, applications programmers, website developers, database architects, operations schedulers, and technical support specialists, to name a few. Of particular interest to potential students who already have practical IT experience should be the alignment of many CIT courses with industry certifications. Consequently, students can simultaneously complete their major requirements and prepare for industry certification exams. This further makes it possible for students to receive course credit for certifications already earned.

BUSINESS TECHNOLOGY PROGRAM:

In conjunction with the College of Education, the CIT department offers the Bachelor of Science in Education concentration in Business Technology. This is a program of study designed to prepare teachers of business subjects for the secondary schools. Business subjects taught in the secondary school are generally intended to provide high school graduates with entry level job skills, as well as the economic competencies those graduates will need. Emphasis is given, through this department and the College of Education, to the methods by which this information can be effectively imparted. For satisfactory completion of this program, a student must fulfill all requirements as established by the university, the College of Education, the College of Business, the College of Education, and this department. Vocational certification is available and the CIT department is also approved by the State of Arkansas for teacher training.

OTHER PROGRAMS:

In addition to offering the four-year programs described above, the CIT department offers an Associate of Science in Computer & Information Technology, a Certificate in Business Information Systems, and minors in electronic commerce and Computer and Information Technology. These programs are intended to provide the student with several options that will complement other coursework and provide stepping stones to four-year degrees. These can be completed in relatively little time.

Please visit <http://www.astate.edu/college/business/> for further information about the CIT Department, its degree programs, classes, and more.

CIT 3403, Database Management	3
Total Required Hours:	24

Department of Economics and Finance

Associate Professor Patricia Quinn Robertson, Chair

Professors: Brown, Crawford, Kesselring, Latanich, Marburger, Pittman, Taylor

Associate Professors: Guha, Kern

Assistant Professors: Hu, Tew

Instructors: Lewis

The Department of Economics and Finance offers majors in the following areas: Finance, Business Administration, and Economics. Each program is designed to train students in the latest techniques available in that area and equip them to perform in a professional manner in their chosen field.

BUSINESS ADMINISTRATION PROGRAM:

The major in business administration provides students with a diversified rather than a specialized program in business and economics. It is designed especially for those who need a broad background of training for managing a business of their own or for students planning to enter a large business which maintains its own specialized training program. This program requires a study of every major sector of business activity, with emphasis on creative thinking which will prepare the student for today's employment as well as for meeting tomorrow's challenges.

ECONOMICS PROGRAM:

The major in economics provides an excellent background for a wide variety of careers in business and government. In addition to acceptance into their management training programs, many businesses employ the economics major to forecast economic trends and to relate changes in economic activity to the individual business. Economists are employed by various governmental bodies to conduct research into all phases of the economy.

FINANCE PROGRAM:

The finance major prepares students for positions in banks, investment companies, insurance firms, real estate companies, credit unions, government, and major corporations. Finance major graduates serve as loan officers in banks, manage individual or corporate investment portfolios, or supervise commercial credit departments. Finance majors may choose the Finance major or the Finance major with emphasis in Banking.

Major in Business Administration

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40) (For College of Business requirements, see p. 131)	
First Year Making Connections Course:	Sem. Hrs.
BUSN 1003, First Year Experience Business	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35
Students with this major must take the following: MATH 2143, Business Calculus with a "C" or better. ANTH 2233, Introduction to Cultural Anthropology OR SOC 2213, Introduction to Sociology ECON 2313, Principles of Macroeconomics COMS 1203, Oral Communications (Required Departmental Gen. Ed. Option)	
College of Business Core Courses:	Sem. Hrs.
(See Beginning of Business Section)	39
Major Requirements:	Sem. Hrs.
Select one from each of the following categories:	
Accounting Elective ACCT 3053, Cost Accounting with a Managerial Emphasis ACCT 4013, Tax Accounting I ACCT 4153, Fraud Examinations	3
Finance Elective FIN 3763, Financial Institutions and Markets FIN 4723, Investments FIN 4743, Managerial Finance FIN 4753, Capital Management	3
International Elective ECON 4103, International Trade ECON 4143, Export Policy and Procedures ECON 4353, Economic Development FIN 3813, International Finance Management and Banking	3

Department of Management and Marketing

Associate Professor Melodie Philhours, Interim Chair

Professors: Bevill, Frey, Hester, G. Hudson, T. Hudson, Nonis, Roe

Associate Professors: Chang, Cocchiara, Hunt, Mello, Philhours, Relyea, Cocchiara

Assistant Professors: McDaniel

The Department of Management and Marketing offers a curriculum designed to provide professional training as well as to develop the competence of students seeking careers within business enterprises. Business executives have taken on increasing responsibilities during recent years due to a growing realization that the employees of their firms and the markets they serve have become more complex and demanding. The five majors within the department offer positive programs of learning designed to contribute to the students' advancement in the business world.

MANAGEMENT PROGRAM:

Management is getting work done through other people. Managers perform a wide range of workplace activities, from establishing organization goals and ensuring progress towards those goals to organizing when and how activities and resources should be grouped together. Managers are asked to solve challenging workplace problems, often with limited human and financial resources. The Management major prepares students to design rewards for improved performance, set goals that motivate workers, and build an environment to create and sustain a competitive advantage. Elective concentration may be chosen in Human Resource Management.

MARKETING PROGRAM:

The fundamental purpose of marketing is to create value for your customers. This purpose is fulfilled by both organizations and individuals in both profit and not for profit settings. Fulfilling this purpose requires the creation, communication and delivery of a product, service or idea so that exchange can take place. The major in marketing prepares students to plan and implement successful marketing strategies across a variety of industries. Elective concentration may be chosen in Marketing Management or Logistics.

INTERNATIONAL BUSINESS PROGRAM:

In today's global marketplace, all business is international! The major in International Business prepares students for managerial careers in this global market. It is interdisciplinary in nature and emphasizes the development of language skills and an understanding of the sociocultural, political, managerial, marketing and economic processes in an international environment.

Major in Global Supply Chain Management

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:

College of Education

Professor Thillainatarajan Sivakumaran, Dean
Gregory Meeks, Interim Associate Dean

The faculty of the College of Education teach, conduct research, and provide community and professional service in the areas of pedagogy, behavioral sciences, physical education and sport science, and advanced education-related professional studies. Instructional programs are offered within a student-centered organizational context that values diversity, innovation, and professional reflection; these programs are delivered by a faculty committed to the beliefs that (a) every student can learn, and (b) teachers themselves model commitment to learning by visibly demonstrating their own continuing personal/professional growth.

ADMINISTRATIVE STRUCTURE

The following units are administratively within the College of Education:

- ASU Childhood Services
- Center for Excellence in Education
- Department of Psychology and Counseling
- Department of Educational Leadership, Curriculum, and Special Education
- Department of Teacher Education
- Department of Health, Physical Education, and Sport Sciences
- Professional Education Programs

TEACHER EDUCATION PROGRAM

The College of Education is the unit responsible for the teacher education program in cooperation with other colleges within the university. The teacher education program is coordinated by the College of Education and the interdisciplinary Council on Professional Education. It is strongly recommended that students interested in teacher education and teacher education majors consult their advisor frequently.

The Bachelor of Science in Education degree is offered in the following majors:

- | | |
|---|------------------------------|
| Agriculture Education (BSA) | Mathematics |
| Art | Middle-Level Education (4-8) |
| Business Education | Music (BME) |
| Early Childhood Education (P-4) | Physical Education |
| Early Childhood Special Education (P-4) | Social Science |
| English | Spanish |
| French | |
| General Science | |
| —Biology | |
| —Chemistry | |
| —Physics | |

The Title II Teacher Education Report Card was enacted by the United States Congress in 1998. Accountability measures for new teachers, which include standardized test scores and other information about the institution's teacher education program, are a part of the institutional and state reports mandated by this legislation. Institutions are required to report this information through publications such as school catalogs and promotional materials sent to prospective students, secondary guidance counselors, and potential employers of their graduates. With increased demands by the public for improved schools and increased student achievement, the knowledge, skills, and dispositions of teachers are central to the success of all students. One component of all teacher education programs is standardized tests. The PRAXIS I test assesses basic computation and literacy skills. The PRAXIS II assesses professional teaching knowledge and academic content knowledge. Below are the PRAXIS I and PRAXIS II scores for the Arkansas State University students during the 2011-2012 academic year. Additional information about teacher education programs at Arkansas State University may be accessed at <http://www.astate.edu/education/>.

TEACHER EDUCATION GRADUATES

Major Categories	ASU Pass Rate	State Pass Rate
Basic Skills [PRAXIS I]	100%	100%
*Professional Knowledge [PRAXIS II]	93%	97%
*Academic Content Area [PRAXIS II]	79%	92%

**These data reflect test takers, including those who were not reported in data below.*

ADMISSION AND RETENTION

All candidates for Bachelor of Science in Education, Bachelor of Music Education, and Bachelor of Science in Agriculture (Agriculture Education) degrees must obtain official admission into the Teacher Education Program.

Admission, retention, and course prerequisite/requirement details can also be found in the Teacher Education Handbook. Students choosing to make formal application and/or retention into the Teacher Education Program must meet requirements of the following five checkpoints listed below. Individual departments and programs may have admission and retention requirements that exceed those requirements identified below. Check with your academic advisor to determine if your program has additional requirements.

CHECKPOINT 1: ADMISSION INTO THE TEACHER EDUCATION PROGRAM

Students making formal application into the teacher education program must meet the following admission requirements.

ADMISSION REQUIREMENTS

1. Attain minimum passing scores on the Praxis I (PPST) for reading, math and writing tests (see form in the Teacher Education Handbook for minimum scores)
2. Attain minimum overall GPA of 2.50 (Program of Study students must have a minimum of 3.0 overall in courses for Program of Study.)
3. Complete the following courses with a grade of "C" or better in each: ENG 1003, Composition I; ENG 1013, Composition II; MATH 1023, College Algebra; Introduction to Education (specific to each department); and COMS 1203, Oral Communication or Speech Proficiency (as specified by the department)
4. Complete minimum of 30 semester hours
5. Complete an evaluation of Career Decision Awareness
6. Submit a completed application form
7. Submit a two-page typewritten philosophy of education
8. Obtain a signed Clarification of Teacher Education Admissions/Retention Standards
9. Appear individually for a personal interview before the Department Screening Committee
10. Verify no conviction of a felony or crimes listed in the Teacher Education Handbook
11. Verify that student has received a copy of the Conceptual Framework

Students will not be permitted to enroll in specified professional education courses until they have been formally admitted into the teacher education program. Such courses are designated in the respective programs in the Undergraduate Bulletin. When your application is approved by the Professional Education Programs Director, the student will receive a formal letter of acceptance. Official admittance

to the teacher education program does not carry a guarantee of continuance in the program. In addition to the retention checkpoints described below, the student must maintain academic proficiency, moral responsibility, emotional stability, and satisfactory professional growth to continue in the program.

After being admitted into the teacher education program, the student must also meet specific performance measures to continue in the program. The student will be required to complete certain unit assessments as outlined in course syllabi and post his/her work to the unit's electronic portfolio system.

CHECKPOINT 2: PRE-TEACHER INTERN CHECK

Students must meet the following requirements one year prior to the internship semester to continue in the program.

1. Maintain a minimum overall GPA of 2.50 (minimum of 3.0 in all course work required for Program of Study students)
2. Earn a "C" or better in all Professional Education courses

CHECKPOINT 3: INTENT FOR TEACHING INTERNSHIP CHECK

Students must meet the following requirements one semester prior to the internship semester to continue in the program.

1. Maintain a minimum overall GPA of 2.50 (minimum of 3.0 in all course work required for Program of Study students)
2. Earn a "C" or better in all Professional Education courses

CHECKPOINT 4: INTERNSHIP CHECK

Students must meet the following minimum performance requirements to be validated for the internship.

1. Formal admittance into the teacher education program
2. Senior standing—a minimum of 90 semester hours
3. Pre-Teacher Intern Check Form filed with the Office of Professional Education Programs
4. Completion of professional education courses for secondary education majors and professional education/major courses for early childhood, early childhood/special education, (P-4) and middle level (4-8) majors with the exception of the teaching internship semester (students must have a 'C' or better in the Professional Education Courses.)
5. Attainment of a minimum grade point average of 2.50 in all course work and a minimum grade point average of 2.50 in the major area (a minimum of 3.0 in all course work is required for Program of Study (POS) students and a minimum grade point average of 3.0 in the major area)
6. Meet prescribed department proficiencies if required
7. Completion of intent application forms for teaching internship eight weeks before the end of the semester or one week before the pre-registration date of the semester preceding teaching internship
8. A medical examination report (TB skin test) to be presented at the time the candidate applies for teaching internship
9. Attend the orientation sessions for the teaching internship
10. Verification of no conviction of a felony or crimes listed in the Teacher Education Handbook
11. Verification of no Child Maltreatment

Transfer students must meet the above prerequisites and complete a minimum of twelve (12) semester hours of resident work at Arkansas State University to be eligible to enroll in the teaching internship.

CHECKPOINT 5: EXIT ASSESSMENT CHECK

Students must meet the following minimum performance requirements to graduate from the teacher education program.

1. Successful performance in the teaching internship
2. Maintain a minimum overall GPA of 2.50 (minimum of 3.0 in all course work required for Program of Study)
3. Meet Learning to Teach, Teaching to Learn portfolio requirements
4. Meet Praxis II assessments as specified by the program
5. Meet graduation check sheet requirements

PROFESSIONAL EDUCATION REQUIREMENTS FOR SECONDARY MAJORS

General and academic requirements for majors in the secondary teacher education program are listed under the various colleges in this Bulletin.

- SCED 2513, Introduction to Secondary Teaching
- PSY 3703, Educational Psychology
- ELSE 3643, The Exceptional Student in the Regular Classroom
- OR for Physical Education majors, PE 4703, Adaptive Physical Education

Admission to the Teacher Education Program is a prerequisite to enrollment in the following courses:

- SCED 3515, Performance Based Instructional Design
- SCED 4713, Educational Measurement with Computer Applications
- *ED__45__3, Methods and Materials for Teaching in the Secondary School

*Course prefix and number are dependent upon the field of study the student is pursuing.

PROFESSIONAL SEMESTER:

During the professional semester the student will be required to spend sixteen full weeks in a North Central Association approved cooperating school—for which the student receives twelve (12) semester hours of credit.

- *TI__4826, Teaching Internship in the Secondary School

*Course prefix and number are dependent upon the field of study the student is pursuing.

TRANSPORTATION FOR FIELD EXPERIENCES

Students are responsible for arranging their own transportation to school field experiences and internship and subsequent expenses incurred.

GRADUATION REQUIREMENT

Teacher education students (BSA-Agriculture Education; BME Music Education; and BSE) must have a minimum overall GPA of 2.50 to be eligible for graduation. Some Teacher Education programs will require students to take the PRAXIS II examination(s) as a graduation requirement. Check with your academic adviser to determine your PRAXIS II requirement(s).

However, students who wish to secure an Arkansas teaching license are required to take and pass the PRAXIS II examination(s). Therefore, all students are strongly encouraged to take the PRAXIS II examination(s) prior to graduation. Check with your adviser to determine your PRAXIS II requirement(s).

Department of Psychology and Counseling

Loretta Neal McGregor, Chair

Professors: Biondolillo, Hall, Howerton, Johnson, Jones, Saarnio

Associate Professors: Christenberry, Khramtsova, Ochs, Pearce, Peck, Yanowitz;

Assistant Professors: Davis, Hudson, Langford

Instructors: Roland

The Department of Psychology and Counseling is committed to serving the university, the profession, and the public by contributing to excellence in education, high professional standards for service delivery, and consumer advocacy. The department is also committed to research and scholarly activities to expand the academic knowledge base and to improve the quality of professional services.

The primary mission of the department is to teach basic principles underlying psychology as a behavioral science and to prepare graduate-level students to become psychological-counseling professional service providers. At the baccalaureate level, there is a major and a minor in psychology, service courses for Professionally Emerging Teachers and other programs including general education. At the graduate level, the program prepares professional service personnel at the master and specialist degree levels as school, community, and rehabilitation counselors; educational and psychological examiners; and college student personnel specialists. The department also provides advanced educational psychology as a core course for MSE majors as Emerging Professionals.

A course taken to satisfy requirements for a minor and/or a second major cannot also be used to satisfy total credit hour requirements in the psychology major.

Major in Psychology

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

Department of Educational Leadership, Curriculum, and Special Education

Assistant Professor Annette Hux, Interim Chair

Professors: *Beineke, Cox, Foldesy, McBride*

Associate Professors: *Bradley, Holman, Lamb-Milligan, Nichols*

Assistant Professors: *Bounds, Bowser, Neal, Singleton*

The mission of the Department of Educational Leadership, Curriculum, and Special Education is to provide graduate programs for the preparation of school administrators, curriculum specialists and special educators as well as to provide leadership and coordination to the preparatory graduate degree program for community college instructors.

Teaching excellence is the focus of the department, and faculty performance is evaluated regularly. The department encourages and supports faculty involvement in providing professional services to educationally related systems and agencies, and it endorses the use of these involvements in enhancing classroom experiences. The department stresses program contributions of a faculty active in the pursuit and dissemination of the results of educational research.

Department of Teacher Education

Assistant Professor Annette Hux, Interim Chair

Professors: Lawler, Maness, Towery,

Associate Professors: Fiala, Fillippino, Gao, Grymes, Henley, Johnson-Leslie, Keyes, Meeks, Murphy, D. Owens, L. Owens, Ross, Williams

Assistant Professors: Choi, Kelly, McJunkin, McMurtry, Stewart

Instructors: Bacot, Dewailly, Johnson, Woods

The mission of the Department of Teacher Education encompasses three areas: teaching, service, and research. The major purpose of the department is teaching, which contributes significantly toward the accomplishment of the department's primary goals: preparing Professionally Emerging Teachers and Emerging Professionals in the fields of early childhood education, elementary education, middle grades education, secondary education, and reading. The department also offers a graduate program in early childhood services (see Graduate Bulletin). A commitment is made to students in the degree programs as faculty assist individuals through a well-defined advisement process. Another function of the department is service, consultation to public and private schools, to federal and state agencies and programs, and to professional organizations. The area of research and scholarly pursuits completes the mission of the department and exists for the purpose of defining problems and identifying solutions that contribute to the improvement of specific educational and pedagogical issues and concerns.

TRANSFER CREDIT POLICY

Courses completed at two-year institutions will not be accepted as transfer credits for upper-level specialty area and professional studies courses numbered 3000 and above. Transfer credit in the major from any institution is subject to approval by the Department of Teacher Education. Reviews must be requested in a timely manner so as to allow for adequate review by the department. Compatibility of course content, length of time since course completion, and adequacy of relevant field experiences will form but not be limited to the criteria for judging acceptance.

ACCEPTANCE OF WORK FROM PREVIOUS DEGREES OR ENROLLMENTS

Course work in the major field completed more than seven years prior to the student's enrollment in either the BSE in Early Childhood Education or the BSE in Middle Level Education will be reviewed for relevance and may not be acceptable to completion of the BSE degree.

Major in Early Childhood Education

Major in Mid-Level Education (cont.)

Bachelor of Science in Education
(Grades 4 - 8 License)

Specialty of English/Language Arts and Social Studies (This is not an emphasis.)

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

Additional Requirements:	Sem. Hrs.
Select one of the following not previously taken for General Education requirements: ENG 2003 Introduction to World Literature I ENG 2013 Introduction to World Literature II ENG 3323, American Literature To 1865 ENG 3363, American Literature Since 1865	3
GEOL 1003 AND 1001, Environmental Geology and Laboratory OR PHYS 1103 AND 1101, Space Science and Laboratory OR GEOL 3723, Physical Geography	3-4
GSP 3203, Science for Teachers	3
MATH 2113, Mathematics for School Teachers I	3
MATH 2123, Mathematics for School Teachers II	3
MATH 3133, Mathematics for School Teachers III	3
Sub-total	18-19
Specialty Area (English/Language Arts and Social Studies):	Sem. Hrs.
Select one of the following: ENG 3003, Advanced Composition ENG 3583, Literature for Adolescents ENG 4043, Theory in the Teaching of Composition ENG 4063, Comparative Modern Grammars Other electives as approved by advisor	3
Select two of the following: HIST 1013, World Civilization To 1660 OR HIST 1023 World Civilization Since 1660 HIST 2763, The United States To 1876 OR HIST 2773, The United States Since 1876 Other electives as approved by advisor	6
Sub-total	9
Total Required Hours:	128-129

Licensure Requirement (not a program requirement):	Sem. Hrs.
HIST 3083, History of Arkansas (not counted in total required hours for degree program)	3

Department of Health, Physical Education, and Sport Sciences

Professor Jim L. Stillwell, Chair

Professors: Adams, Dean, Finnicum, Jones

Associate Professors: Bryant, Church, LaVetter, Mooneyhan

Assistant Professors: Espinoza, Olushola, Perkey, Wheeler

Instructors: Adams, Hilson, Huckabee, Mathis, Sibrava

The mission of the Department of Health, Physical Education, and Sport Sciences is to provide curricula and instruction to enhance the development of physical, mental, social, and emotional qualities essential for living a quality life and to provide quality professional preparation programs in the fields of athletic training, exercise science, health, physical education and sport management that meet appropriate standards.

To accomplish its mission, the department places its primary focus on quality teaching. In addition, the department strives to provide service to the college and the university, to elementary and secondary schools, to the community and the state, and to its related professional organizations and agencies. The department engages in scholarly pursuits that will enhance the professional growth of its faculty and contribute to knowledge about human performance.

Major in Athletic Training

The Arkansas State University Athletic Training Education Program (ATEP) is designed to prepare students for the challenges of the expanding allied health profession of athletic training. Through the combination of extensive classroom and clinical experiences in athletic training, graduates of the program achieve the entry-level competencies necessary to challenge the certification examination offered by the National Athletic Trainers' Association Board of Certification (BOC) and embark on a career as a certified athletic trainer (ATC®). The ATEP is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Interested students should contact the Athletic Training Program Director at (870) 972-3066 for more information.

ATHLETIC TRAINING ADMISSION REQUIREMENTS

All candidates for a Bachelor of Science in Athletic Training must obtain official admission to the ATEP. Students desiring admission to the ATEP must meet the following criteria:

1. Declared major in Bachelor of Science in Athletic Training.
2. Minimum of 30 semester hours and a minimum cumulative GPA of 2.50.
3. Completion of the following courses with a grade of "C" or better in each: BIO 2201, BIO 2203, BIO 2221, BIO 2223, HP 2013, HLTH 2513, AT 2883.
4. Completion of one semester of directed clinical observation with 50 hours being accumulated under the supervision of a certified athletic trainer and completion of all assigned directed observer proficiencies.
5. Completion of personal interview with program selection committee upon request.
6. Submission of all program application forms to program director.

The number of appointments to the program will vary from year to year depending on space availability, approximately 20 per class. Program application materials must be received by April 1 of each year in order to be considered for Fall entry into the ATEP. Candidates will be notified of their admission status after June 1 of each academic year.

Technical standards for admission to the Athletic Training Program can be found on the program's website at <http://www.astate.edu/college/education/departments/health-physical-educations-and-sport-sciences/>.

Prior to taking first clinical experience course the student must hold:

1. Professional liability insurance (minimum \$2,000,000/4,000,000 coverage)
2. Acceptable immunization status including TB screening
3. Completed physical examination form

College of Engineering

Professor David Beasley, Dean

One of the hallmarks of modern times is the acceptance of accelerating change, both in technological products and in educational philosophies. Few college graduates in today's workforce function solely with the skills and understanding that they gained in formal degree programs. Recognizing that the undergraduates of Arkansas State University will pursue their careers in an ever changing world, the overall mission of the College of Engineering is to provide a broad education in the fundamentals of engineering while providing opportunities for emphasis in specialized areas of study. An important corollary is the development of the ability to think logically, creatively, and quantitatively, and the skills necessary to effectively communicate both fundamental and applied knowledge. This unified approach provides an inherently flexible base that permits graduates to fill general or specialized positions in industry, government, and private practice or to pursue advanced degrees after graduation.

The engineering profession is concerned with the innovative, effective, and efficient synthesis of ideas, materials, and personnel to create the products, systems, and services needed by society. The knowledge and skills that comprise modern engineering must be developed upon strong foundations of mathematics, the physical sciences, and applied engineering sciences. Because responsible engineering must contribute to the overall goals and values of our society, engineers must develop a basic knowledge and appreciation of mankind's cultural and social history as well as ethical issues. Engineering must reflect an ever growing body of knowledge that includes state-of-the-art professional practice, understanding, and values and requires a lifetime of continuing education. Therefore, the education needed to enter and practice the engineering profession is comprehensive and demanding regardless of the chosen engineering field.

The College of Engineering is comprised of four undergraduate academic programs: Engineering, Civil Engineering, Electrical Engineering, and Mechanical Engineering. All prerequisite engineering, mathematics, and science courses for all engineering degrees must be completed with a grade of "C" or better before attempting the subsequent engineering courses. Also, each course in the Engineering Core Curriculum must be completed with a grade of "C" or better. In addition to the University requirements for all baccalaureate degrees, all engineering degrees require that one of the two following conditions be met: (1.) "C" or better in each course in the major requirements or (2.) 2.5 or greater grade point average in the major requirements.

Transfer credits are acceptable under criteria consistent with ABET (the accrediting body for engineering programs in the United States), the policies of Arkansas State University, and the approval of the College of Engineering. The transfer student is required to complete a minimum of 32 semester hours of engineering courses at Arkansas State University for graduation.

Students with an undergraduate engineering degree from another university and pursuing a second degree in engineering at Arkansas State University must meet all University requirements and complete a minimum of 32 semester hours of engineering courses at Arkansas State University for graduation. Students having completed an undergraduate engineering degree at Arkansas State University and pursuing a second degree in engineering at Arkansas State University must meet the residency requirements of the University and meet all course requirements for the second degree.

Engineering students eligible for the Honors Program are encouraged to participate in the program. Engineering courses taken for Honors credit must be approved by the College of Engineering and the Honors Program. The final course in the student's honors program can be an Honors Independent Study (HNRS 4003-6) or Honors Senior Thesis (HNRS 4893-6). Either course would be valuable in preparation for graduate studies.

**GENERAL EDUCATION CURRICULUM FOR COLLEGE OF ENGINEERING
BACCALAUREATE DEGREES**

The general education categories / courses listed below are required for all engineering baccalaureate degrees.

General Education Requirements:	Sem. Hrs.
A course may be counted in satisfaction of only one area requirement. With the exception of English courses (ENG), no more than two selections may have the same prefix. A science course and its laboratory will count as a single selection.	
Communication ENG 1003, Composition I ENG 1013, Composition II COMS 1203, Oral Communication (<i>Required Departmental Gen. Ed. Option</i>)	9
Mathematics MATH 2204, Calculus I	4
Science CHEM 1013 AND CHEM 1011, General Chemistry I and Laboratory PHYS 2034, University Physics I	8
Arts and Humanities Fine Arts (select one of the following): ART 2503, Fine Arts - Visual MUS 2503, Fine Arts - Musical THEA 2503, Fine Arts - Theatre Humanities (select one of the following): ENG 2003, Introduction to the Literature of the Western World I ENG 2013, Introduction to the Literature of the Western World II PHIL 1103, Introduction to Philosophy	6
Social Sciences <i>The State Minimum General Education Core allows engineering students to substitute higher-level math and/or science courses as part of this requirement.</i> Select one of the following: HIST 2763, The United States To 1876 HIST 2773, The United States Since 1876 POSC 2103, Introduction to United States Government Substitution of Higher Math (student must complete both): MATH 2214, Calculus II MATH 3254, Calculus III	11
Total:	38

**CORE AND ADDITIONAL SUPPORT COURSES FOR COLLEGE OF ENGINEERING
BACCALAUREATE DEGREES**

The engineering courses listed below are required for all engineering baccalaureate degrees.

College of Engineering Core Courses:	Sem. Hrs.
Grade of "C" or better required.	
ENGR 1402, Concepts of Engineering	2
ENGR 1412, Software Applications for Engineers	2
ENGR 2401, Applied Engineering Statistics	1
ENGR 2403, Statics	3
ENGR 2413 AND ENGR 2411, Mechanics of Materials and Laboratory	4
ENGR 2423 AND ENGR 2421, Electric Circuits I and Laboratory	4
ENGR 3423, Dynamics	3
ENGR 3433, Engineering Economics	3
ENGR 3443, Engineering Thermodynamics I	3
ENGR 4401, Senior Seminar	1
ENGR 4453, Numerical Methods for Engineers	3
ENGR 4463, Senior Design I	3
ENGR 4482, Senior Design II	2
Total:	34

Additional Support Courses:	Sem. Hrs.
The additional support courses listed below are required for all engineering baccalaureate degrees.	
MATH 4403, Differential Equations	3
Science Elective	4
Total:	7

Engineering Program

Professor Ricky Clift, Director

Professors: R. Engelken, T. Parsons

Associate Professors: B. Edgar, A. Elsayed, S. Haran, P. Mixon, P. Sherman

Assistant Professors: T. Bhatt, Z. Hossain, Y. Hwang, K. Jeong, B. Kemp, S. Kher, I. Seok

Instructors: J. Stewart, L. Walker

The Engineering Program curriculum is structured to give all students a working knowledge of the engineering sciences and a progressive level of understanding and participation in the overall design process. The Engineering Program offers a Bachelor of Science in Engineering (BSE) degree with professional concentration areas in civil, electrical, and mechanical engineering; or an individually planned program that may combine or cut across traditional fields of engineering and applied sciences.

The BSE degree program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

PROGRAM EDUCATIONAL OBJECTIVES

It is the goal of the Arkansas State University Bachelor of Science in Engineering Program to provide its students with the knowledge, skills, and perspectives that will prepare its graduates to accomplish the following educational objectives:

1. Graduates have successfully advanced in engineering practice as evidenced by contributions to their employers and the greater engineering community.
2. Graduates have pursued graduate degrees or completed professional development activities to advance their knowledge base in their field.
3. Graduates have made a broader contribution by providing an engineering perspective to the challenges and opportunities of society.

The desired outcomes or skills possessed by the engineering graduates are listed below:

1. A good understanding of mathematics, science, and engineering, and an ability to apply this knowledge in engineering practice;
2. An ability to design and conduct experiments, as well as to acquire, analyze, and interpret data;
3. An ability to function on multi-disciplinary teams;
4. An ability to identify, formulate, and solve engineering problems;
5. An understanding of professional and ethical responsibility;
6. An ability to communicate effectively, both orally and in writing;
7. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
8. A recognition of the need for, and an ability to engage in, life-long learning;
9. A knowledge of contemporary issues;
10. An ability to use the techniques, skills, and modern engineering tools necessary for entry-level practice in their area of concentration; and
11. An ability to analyze and design a system, component, or process to meet desired needs in their area of concentration within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

The Engineering Program is accredited by the Engineering Accreditation Commission of ABET, and thus, has published educational objectives that are consistent with the institutional mission and ABET criteria, has a process that periodically documents and demonstrates that the objectives are based on the needs of the program's various constituencies, has an assessment and evaluation process that periodically documents and demonstrates the degree to which these objectives are attained, and uses the assessment results to improve the effectiveness of the program.

Civil Engineering Program

Professor Thomas Parsons, Director of Civil Engineering

Professors: R. Clift

Associate Professors: A. Elsayed

Assistant Professors: Z. Hossain, Y. Hwang

Instructors: J. Stewart

Civil engineering is the application of mathematics, science, and engineering fundamentals for the benefit of society and the supporting infrastructure systems. Traditional civil engineering areas include:

- environmental engineering
(pollution control including the design of water and waste water facilities);
- water resources
(study of the flow of water over land, under ground and storage);
- transportation engineering
(design of highways and studies of traffic flow);
- structural engineering
(design of building, bridges and other related structures);
- geotechnical engineering
(study of soil behaviors, foundation design, land slides and other topics).

The Civil Engineering Program offers a Bachelor of Science in Civil Engineering (BSCE) with focus in transportation, water resources, structural, and geotechnical areas. Other traditional areas such as materials and environmental are covered in the curriculum, as well as a strong general education component. The faculty is involved in research, solving engineering problems in the community, and consulting work. These experiences are brought into the classroom so that students receive a well-rounded educational experience. This includes learning the engineering theory as well as the practical application of the theory to real-world problems.

The Civil Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

PROGRAM EDUCATIONAL OBJECTIVES

The Civil Engineering Program educational objectives are:

1. Graduates have successfully advanced in civil engineering practice as evidenced by their achievements and contributions to their employers and the greater engineering community.
2. Graduates have pursued graduate degrees or completed professional development activities to advance their knowledge base in civil engineering or related professional fields.
3. Graduates are actively working to improve their community and society in general by utilizing and sharing their engineering expertise.

The Civil Engineering Program's outcomes define the knowledge, skills, attitudes, and behaviors that program graduates are expected to have by the time of graduation. Graduates of the Civil Engineering Program will have:

1. A good understanding of mathematics, science, and engineering, and an ability to apply this knowledge in engineering practice;
2. An ability to design and conduct experiments, as well as to acquire, analyze, and interpret data;
3. An ability to function on multidisciplinary teams;
4. An ability to identify, formulate, and solve engineering problems;
5. An understanding of professional and ethical responsibility;

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

6. An ability to communicate effectively, both orally and in writing;
7. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
8. A recognition of the need for, and an ability to engage in, life-long learning;
9. A knowledge of contemporary issues;
10. An ability to use the techniques, skills, and modern engineering tools necessary for entry-level practice in civil engineering; and
11. An ability to analyze and design a system, component, or process to meet desired needs in civil engineering within realistic constraints, such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

The Civil Engineering Program has published educational objectives that are consistent with the institutional mission and ABET criteria, has a process that periodically documents and demonstrates that the objectives are based on the needs of the program's various constituencies, has an assessment and evaluation process that periodically documents and demonstrates the degree to which these objectives are attained, and uses the assessment results to improve the effectiveness of the program.

Electrical Engineering Program

Associate Professor Paul Mixon, Director of Electrical Engineering

Professors: R. Engelken

Assistant Professors: T. Bhatt, B. Kemp, S. Kher

Electrical engineering is a broad field that cuts across many other fields that utilize electrical energy; electrical/electronic systems; computers; electromagnetic devices; communications; and electrical control. Thus, there are numerous subfields under electrical engineering, with new ones, including increasingly multidisciplinary areas of focus (for example, nano-electronics, alternative energy, and bio-electrical engineering) being added periodically. Since electrical, electronic, computer, and electromagnetic/optoelectronic energy, communications, components, systems, and processes undergird nearly every facet of modern society's infrastructure, the demand for electrical, electronic, computer, and related types of engineers is significant and increasing, and electrical engineering is a marketable, lucrative, geographically widespread, and fulfilling career.

An electrical engineering education and career build upon a strong foundation in mathematics, science, and engineering fundamentals, as well as, increasingly, strong laboratory/field, instrumentation, computer, problem solving, design, human relations, teamwork/leadership, economics, and communication knowledge and skills. Historically "non-technical" issues, such as global trade, ethics, litigation, aesthetics, and the environment, are also becoming increasingly important in an electrical engineering career. The Electrical Engineering Program has designed a curriculum to provide its students competence in and sensitivity to these areas. This is reflected in both the electrical engineering professional concentration area under the Bachelor of Science in Engineering (BSE) degree program, and in the Bachelor of Science in Electrical Engineering (BSEE) degree program. Student knowledge, capabilities, and professionalism are also enhanced through involvement in the ASU Student Branch of the Institute of Electrical and Electronics Engineers, student research and industrial internship opportunities, seminars, and a variety of other service, social, and professional activities.

ASU electrical engineering graduates have come from diverse backgrounds and localities, can be found in nearly every type of engineering position, and have excelled in their careers. Numerous graduates have acquired advanced degrees (master- and doctoral-level) at other institutions after obtaining the bachelor degree at ASU. Thus, the Electrical Engineering Program does an excellent job in educating its students for the challenges and opportunities associated not only with a successful engineering career, but also with being good scholars, citizens, and contributors to society.

The Electrical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

PROGRAM EDUCATIONAL OBJECTIVES

As does the entire College of Engineering, the Electrical Engineering Program has a mechanism in place to periodically assess its effectiveness in meeting its educational objectives and outcomes (see below). This assessment process results in periodic modification to specific courses and the overall degree plan so as to better promote the achievement of the objectives and outcomes, themselves periodically formulated and revised, with the assistance of the Electrical Engineering Advisory Council, in relation to the evolving mission and resource base of the Program. This occurs within the context of the evolving needs of the region and nation, and the current state-of-the profession. The specific educational objectives of the BSEE degree program are:

1. Graduates have successfully advanced in electrical/computer engineering or related relevant practice as evidenced by contributions to their employers and the greater professional community.
2. Graduates have completed professional development activities to enhance their credentials or knowledge base.
3. Graduates have made a broader contribution by providing an engineering or otherwise technical or objective perspective to the challenges and opportunities of society.

The Electrical Engineering Program's outcomes define the knowledge, skills, attitudes, and behaviors

that program graduates are expected to have by the time of graduation from the Program. Graduates of the Electrical Engineering Program will have:

1. A good understanding of mathematics, science, and engineering, and an ability to apply this knowledge in engineering practice;
2. An ability to design and conduct experiments, as well as to acquire, analyze, and interpret data;
3. An ability to function on multi-disciplinary teams;
4. An ability to identify, formulate, and solve engineering problems;
5. An understanding of professional and ethical responsibility;
6. An ability to communicate effectively, both orally and in writing;
7. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
8. A recognition of the need for, and an ability to engage in, life-long learning;
9. A knowledge of contemporary issues;
10. An ability to use the techniques, skills, and modern engineering tools necessary for entry-level practice in electrical engineering; and
11. An ability to analyze and design a system, component, or process to meet desired needs in electrical engineering within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Mechanical Engineering Program

Associate Professor Brad Edgar, Director of Mechanical Engineering

Associate Professors: S. Haran, P. Sherman

Assistant Professors: K. Jeong, I. Seok

Instructors: L. Walker

The practice of Mechanical Engineering requires the ability to apply the principles of engineering, basic sciences, and mathematics (including multivariate calculus and differential equations) to model, analyze, design, and realize physical systems, components or processes. Mechanical Engineers must be able to work professionally in both thermal and mechanical systems areas as required in fields such as aerospace and automotive design, biomedical and biomechanical processes, engineering materials research, HVAC design, machinery design, manufacturing processes, power generation, and robotics.

The mission of the Mechanical Engineering Program is to provide quality educational opportunities, promote scholastic achievement, and to encourage creative as well as quantitative analytical methods for problem solving. This is accomplished through:

- effective classroom and laboratory instruction that stress sound engineering fundamentals;
- multiple thermal and mechanical design experiences in the laboratory, classroom, and through design competitions; and
- opportunities to participate in research, industrial internships, and in professional engineering societies through student membership.

The Mechanical Engineering Program offers a Bachelor of Science in Mechanical Engineering (BSME) which provides the educational foundation for graduates to pursue a wide range of career opportunities including service as a practicing engineer and pursuit of professional licensure; graduate study in engineering or other fields; or entrance into a professional school such as medicine or law.

The Mechanical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/>.

PROGRAM EDUCATIONAL OBJECTIVES

The educational objectives for the Mechanical Engineering Program are:

1. Graduates have successfully advanced in mechanical engineering practice as evidenced by their achievements and contributions to their employers and the greater engineering community.
2. Graduates have pursued graduate degrees or completed professional development activities in continuing to advance their knowledge base in the mechanical engineering or related professional fields.
3. Graduates have made a broader contribution to local and national economic development by providing a mechanical engineering perspective to the challenges and opportunities of society.

The Mechanical Engineering Program's outcomes define the knowledge, skills, attitudes, and

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

behaviors that program graduates are expected to have by the time of graduation from the program. Graduates of the Mechanical Engineering Program will have:

1. A good understanding of mathematics, science, and engineering, and an ability to apply this knowledge in engineering practice;
2. An ability to design and conduct experiments, as well as to acquire, analyze, and interpret data;
3. An ability to function on multidisciplinary teams;
4. An ability to identify, formulate, and solve engineering problems;
5. An understanding of professional and ethical responsibility;
6. An ability to communicate effectively, both orally and in writing;
7. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
8. A recognition of the need for, and an ability to engage in, life-long learning;
9. A knowledge of contemporary issues;
10. An ability to use the techniques, skills, and modern engineering tools necessary for entry-level practice in mechanical engineering; and
11. An ability to analyze and design a system, component, or process to meet desired needs in mechanical engineering within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Total Required Hours:	128

Department of Engineering Minors

Minor in Engineering

We propose that each student declaring a minor do so as early in their education as possible and that each student have appointed by the appropriate engineering program director a designated engineering minor advisor in the College of Engineering who will recommend and approve in writing on a designated form any and all engineering courses taken by the student. It is expected that the student's primary academic advisor in his/her major will be informed of the courses recommended by the minor advisor and will consult with the minor advisor as appropriate before releasing the student's academic hold. The program will have sufficient flexibility that in some cases, individually planned hybrid specializations or those outside those currently offered as professional concentration areas for the B.S.-Engineering major (CE, EE, ME), can be accommodated by appropriate selection of courses.

In addition, the awarding of a minor in engineering will require that the student has made a grade of C or better in all courses comprising the 23 credit hours or has a grade point average of 2.5 or above over these courses.

Required Courses:	Sem. Hrs.
ENGR 1402, Concepts of Engineering or equivalent <i>Equivalency will be decided by the minor advisor.</i>	2
ENGR 1412, Software Applications for Engineers or equivalent <i>Equivalency will be decided by the minor advisor.</i>	2
ENGR 2403, Statics	3
ENGR 2423 AND ENGR 2421, Electric Circuits I and Laboratory OR ENGR 2413 AND ENGR 2411, Mechanics of Materials and Laboratory	4
Additional credit hours of other ENGR, CE, EE, or ME prefixed courses of 2000, 3000 or 4000 level courses. These courses must include: - At least, one additional regular engineering laboratory course selected from ENGR 2411, Mechanics of Materials Laboratory, ENGR 2421, Laboratory for Electric Circuits I, or any 3000 or 4000-level CE, EE, ENGR or ME laboratory course. - No more than 4 credit hours of these additional 12 hours can be 2000-level. - No more than 3 credit hours of the 12 can be special problems, student research, independent study, internship, honors senior thesis, or other non-standard courses. - The student should be aware that additional credit hours, for example from other engineering, mathematics, or science courses, may be indirectly required to satisfy all formal prerequisite and corequisite requirements for the engineering courses designated for the minor, as per the ASU Undergraduate Bulletin.	12
Total Required Hours:	23

College of Fine Arts

Professor Donald Bowyer, Dean

The mission of the College of Fine Arts is to provide nationally recognized innovative education, performances and programming in the visual and performing arts.

Arkansas State University's College of Fine Arts is the largest college of fine arts in the state. It comprises three departments: Art, Music and Theatre. Each has its own distinctive program, yet they share important common goals: to make students more aware of our intellectual and artistic heritage, to enhance abilities to think critically, to improve skills of effective communication, and to develop the rich potential of the artistically talented.

The College of Fine Arts offers intensive performance, technical, and studio training, studies in history and theory, and certified teacher preparation. Students can major or minor in each department and there are courses specifically designed for the non-major. In addition, the college also sponsors exhibitions, plays, concerts and recitals for the benefit of the entire campus and community. The College of Fine Arts complements the basic philosophy of the university, the importance of humanity, understanding, and expression.

Department of Art

Professor Curtis Steele, Chair

Professors: Allen, Carlisle, Rowe, Salvest

Associate Professors: Balducci, Gill, Gipson, Vickrey

Assistant Professors: Arnell, Ford, Norris, Wilkinson

MISSION STATEMENT

The Department of Art at Arkansas State University will provide an educational environment that fosters the creation and understanding of art.

Students in art develop insight, sensitivity, and perception toward all aspects of nature while building individual expressive responses. Aesthetic and functional values, creative ideas, and media skills are developed through instructional guidance and applied experience in the studio and classroom. Some of the courses listed here may involve field trips to Memphis Brooks Museum, The Arkansas Arts Center in Little Rock, or other regional art collections. Arkansas State University is an Accredited Institutional member of the National Association of Schools of Art and Design.

The Bachelor of Arts degree provides a liberal arts-fine arts education in art history. Art history provides practice in analysis, interpretation, critical thinking, and writing skills. This degree is good preparation for a student planning to work toward an advanced degree in art history.

The Bachelor of Fine Arts degree programs are designed to prepare students for professional careers as a classroom art teacher, graphic designer, or studio artist. The BFA in Graphic Design or the BFA in Art (with emphasis in Studio Art or Art Education) is the initial professional degree, and it is the requisite degree for the student who plans to pursue a studio-oriented post-baccalaureate degree. No grade below C in courses with an ART/ARTH/ARED prefix may be applied to the Bachelor of Fine Arts Degree. A cumulative 2.75 GPA (or higher) in all courses with an ART/ARTH/ARED prefix is required for the BFA degree.

BFA/TRANSFER REVIEW POLICY

BFA review (ART 3330) is viewed as a counseling/advising practice for all art students, and, in addition, it is an admissions screening procedure for students interested in pursuing the B.F.A. Degree in Art or Graphic Design. Students should enroll in ART 3330 after completing 30 hours of ART/ARTH courses and before completing 40 hours of ART/ARTH courses. Prerequisites are ART 1013, ART 1023, ART 1033, ART 1043, ARTH 2583, ARTH 2593, 9 hours additional studio/design courses. Students enrolled in the BFA programs must pass the BFA Review PRIOR to enrollment for 4000 level ART courses.

Transfer review (ART 3330) provides an opportunity for students joining us from other programs to acquire a realistic assessment of their status vis-a-vis our program. Ideally, the transfer review should occur prior to enrollment in ASU art department courses. Should the transfer student intend to enter the B.F.A. Degree program, this review will serve as an admission screening process as indicated above. Transfer students must enroll in ART 3330, BFA Review during the first semester of enrollment at ASU.

Department of Music

Assistant Professor Ken Hatch, Chair

Professors: Bartee, Crist, Dauer, Miller, O'Connor, Ross

Associate Professors: Collison, Carroll, Kyriakos, Oliver, Owen, Schack-Clark

Assistant Professors: Bonner, Carey, Labovitz, Seay, Wilson

Instructors: Chandler

Temporary Instructors: Henkelmann

The mission of the Music Department of Arkansas State University is to fulfill the following functions: prepare music majors to be highly skilled music educators, performers and/or composers; prepare the general university student to understand, appreciate and support the art of music; and provide quality musical performances and events for the university, the community, and an ever-expanding region.

The department provides curricula which lead to the Bachelor of Music Education, Bachelor of Music, and Bachelor of Arts in music degrees. As appropriate for elementary and secondary licensure in music education, the programs of study for the Bachelor of Music degrees (Vocal and Instrumental) include coursework and field experiences at the elementary and secondary levels. Courses specific to Vocal and Instrumental teaching techniques and literature prepare students for entry into their respective areas. The field experiences provide the necessary breadth and depth in observing and applying best pedagogical approaches and use of appropriate materials for music learning in vocal, instrumental, and general music. The Bachelor of Music degree emphasizes composition or performance. The Bachelor of Arts degree with a major in music permits the study of music within a liberal arts curriculum and provides a broad coverage of the entire field of music rather than a heavy concentration in a single area.

Departmental requirements include recital attendance, performance proficiency, and participation in one or more of the performing organizations.

Students who transfer to Arkansas State University for the purpose of obtaining a degree in Music and who have 60 or more college credits may be required to take competency exams in their applied music majors and basic music areas and may be required to take remedial work in these areas if necessary.

Major in Music

Bachelor of Arts

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:

Department of Theatre

Professor Bob Simpson, Chair

Professors: *M. Simpson*

Assistant Professors: *L. Bohn, T. Bohn, Garrard, McLaughlin*

The Department of Theatre offers coursework leading to the Bachelor of Arts degree in Theatre, the Bachelor of Fine Arts degree in Theatre, and a minor in Theatre.

The Bachelor of Fine Arts degree is a pre-professional degree program with emphasis on the development of concepts, skills and sensitivity necessary for a career in the professional theatre. The BFA degree offers a comprehensive approach with emphases in acting, directing, musical theatre, or design technology.

NOTE: Students interested in pursuing the BFA degree in Theatre must apply to the program and be accepted by the faculty. Retention in the BFA program is relative to an annual performance evaluation by the theatre faculty concerning academic and co-curricular productivity.

Major in Theatre

Bachelor of Arts

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

College of Humanities and Social Sciences

Professor Lauri Umansky, Dean

Associate Professor Deborah Chappel Traylor, Associate Dean

MISSION STATEMENT

The College of Humanities and Social Sciences was formed in July 2003; it was reconstituted from the previous College of Arts and Sciences. The mission of the College of Humanities and Social Sciences is to provide an excellent educational experience for all students in the traditional humanities and social science disciplines and in innovative interdisciplinary programs and degrees. The goals of the College are to:

- Provide excellent instruction to all students in essential skills (i.e. intellectual engagement, communication, writing, critical thinking) and in the general education components of degree requirements;
- Assist all students in understanding the importance of the humanities and social science disciplines in their everyday lives;
- Provide a dynamic transformative education for undergraduate and graduate majors in the humanities and social science disciplines;
- Encourage faculty to explore ideas for interdisciplinary programs and collaborative research;
- Promote an understanding and appreciation of diversity in all its various forms and the ways it can contribute to the enrichment of society;
- Encourage the study of languages and participation in international exchange programs as means to better understand and appreciate world cultures;
- Encourage and develop outreach activities to enrich the minds and hearts of pre-collegiate students, alumni, and diverse communities of the Mississippi Delta Region and greater Arkansas.

PROGRAMS OF STUDY

The College of Humanities and Social Sciences offers a wide range of undergraduate degree programs including a *Bachelor of Arts* in Criminology, Sociology, Geography, English, Philosophy, History, Political Science, and World Languages and Cultures and a *Bachelor of Science in Education* in English, Social Science, and World Languages and Cultures. Most degree programs offer minors. Minors are also available in the following fields: African-American Studies, Cognitive Science, Family Studies, Folklore Studies, French, German, International Studies, Medieval Studies, Modern European Studies, Religious Studies, Spanish, and Women and Gender Studies. A minor in Homeland Security and Disaster Preparedness is offered in partnership with the College of Nursing and Health Professions. The College provides an *Associate of Applied Science* degree in Law Enforcement. It also provides pre-professional advisement for law school as part of its Political Science, Philosophy, History, and Criminology majors.

The College of Humanities and Social Sciences grants a full range of masters' degree (M.A., M.P.A., and M.S.E.) programs, several Educational Specialist degree (Ed.S.) programs, and an interdisciplinary doctoral degree (Ph.D.) program (Heritage Studies). For further information, see ASU's Graduate Bulletin.

The College is comprised of five departments:

Department of Criminology, Sociology, and Geography
Department of English and Philosophy
Department of History
Department of Political Science
Department of World Languages and Cultures

BACHELOR OF SCIENCE IN EDUCATION GRADUATION REQUIREMENTS

In addition to meeting the University Requirements for all Baccalaureate Degrees as presented by the University, and the Teacher Education Program Requirements as presented by the College of Education, all candidates for a Bachelor of Science in Education degree in the College of Humanities and Social Sciences must also have a grade point average of 2.50 on all work attempted overall, on work in the major field, and if a transfer student, on all work taken at this institution.

FOREIGN LANGUAGE REQUIREMENT

All candidates for the Bachelor of Arts degree in the College of Humanities and Social Sciences must demonstrate proficiency in a foreign language. This may be done in either of the following ways.

1. By completing the second semester of the intermediate year of foreign language at the college level. Students with no foreign language experience must enroll in the first semester of the elementary year and complete 12 hours of a single language. Students with some experience and proficiency should consult with a member of the language faculty about their readiness for more advanced courses. (No credit will be awarded for courses waived.)
2. By passing an examination acceptable to the foreign language faculty as proof of proficiency equivalent to completion of the second semester of the intermediate year of a foreign language at the college level.

Department of Criminology, Sociology and Geography

Associate Professor Lawrence M. Salinger, Chair

Associate Professor Gretchen J. Hill, Assistant Chair

Professors: *Chu, Stroud*

Associate Professors: *Donaghy, Hill*

Assistant Professors: *Barrett-Fox, Kendig, Kulkarni, Morrow, Myers, Ratliff,*

Instructors: *Brady, Daughhetee, DeGarmo, Nunis, Wright*

The Department of Criminology, Sociology, and Geography offers to students courses designed to provide them with a better understanding of themselves and their environment. Within this multi-disciplinary department, students have an opportunity to receive a baccalaureate degree in one of three areas: Criminology, Geography, and Sociology.

Majors in the Department of Criminology, Sociology, and Geography are prepared for many professions including teaching, government service, law, business, research, cartography, and community planning; and for professional careers within the criminal justice system such as police, truancy and probation officers, parole officers, and correctional and research personnel.

Minor in Homeland Security and Disaster Preparedness

The minor in Homeland Security and Disaster Preparedness is a multidisciplinary program offered in the College of Nursing and Health Professions and the College of Humanities and Social Sciences. The structure of the minor provides specialized training within each of three tracks. The introductory and capstone course provide the common framework necessary for the integration of these fields and the cooperative efforts of the specialists working within them.

Required Courses:	Sem. Hrs.
NRS 4503, Principles of Disaster and Emergency Preparedness	3
DPEM/NRS/POSC 4553, Capstone in Homeland Security and Disaster Preparedness	3
Select three courses from within a single track:	9
Track 1: Healthcare in Homeland Security and Emergency Preparedness NRS 4513, Physical Care of Chemical, Biological, Radiologic, Nuclear and Explosive Injuries NRS 4523, Risk Identification and Prevention in Disaster and Emergency Preparedness NRS 4533, Disaster Mental Health SW 4203, Crisis Intervention Track 2: Disaster Preparedness, Response and Operations Management POSC 4513, Disaster Response - Operations and Management PR 4603, Crisis Communication SOC 4343, GIS for Social Sciences POSC 4133, Intergovernmental Relations and Federalism in an Era of Insecurity Track 3: Sociocultural & Political Disaster Preparedness SOC 3363, Sociology of Religion OR SW 4363, Religion and Spirituality in Social Work Practice SOC 4003, Perspectives on Death and Dying SOC 4063, Sociology of Disasters SOC 4263, Terrorism as a Social Movement	
Select one course from one of the other two tracks.	3
Total Required Hours:	18

Department of Criminology, Sociology and Geography Minors

Minor in Children's Advocacy Studies

Required Courses:	Sem. Hrs.
SW 3313, Child Welfare	3
SW 3343, Child Abuse and Neglect	3
SW 4323, Case Management in Social Work Settings	3
SW/CRIM/SOC 4383, Child Welfare and the Law (Capstone Course)	3
Select one of the following: SOC 4073, Sociology of Family Violence SW 3323, Substance Abuse SW 4213, Introduction to Domestic Violence	3
SOC 4213, The Sociology of Childhood and Adolescence OR SW 3303, Human Behavior and the Social Environment I	3
CRIM 2253, Criminal Investigation OR CRIM 2263, Criminal Evidence and Procedure	3
Total Required Hours:	21

Minor in Interdisciplinary Family Studies

Required Courses:	Sem. Hrs.
Interdisciplinary Course: NRS/ECH/PSY/SOC 4053, Today's Families Interdisciplinary Approaches <i>The Interdisciplinary Course may only be completed once for credit, regardless of prefix. Student should complete a minimum of twelve hours in the minor before registering for the Interdisciplinary course.</i>	3
Sociology: SOC 3223, Sociology of Families OR SOC 3213, Sociology of Intimate Relationships	3
Human Development: PSY 3403, Child Psychology OR PSY 3413, Adolescent Psychology	3
Families in Social Contexts: SW 3313, Introduction to Child Welfare OR SW 3343, Child Abuse and Neglect	3
Family and Health (select one of the following): HLTH 3563, Human Sexuality NS 2203, Basic Human Nutrition NRS 3353, Aging and the Older Adult	3
Special Interest Option: <i>An additional 3 hours may come from any of the courses listed above or from an approved special topics/independent study course/or a one-time special course offered out of another discipline. This option allows students the opportunity to explore specific areas of interest.</i>	3
Total Required Hours:	18

Minor in Sociology

Required Courses:	Sem. Hrs.
SOC 2213, Introduction to Sociology	3
Sociology electives	3
Upper-level Sociology electives	12
Total Required Hours:	18

**CRIME SCENE INVESTIGATION AND LAW ENFORCEMENT ADMINISTRATION
ASSOCIATE OF APPLIED SCIENCE DEGREES**

The Associate of Applied Science degrees in Crime Scene Investigation and Law Enforcement Administration are offered through a partnership agreement between Arkansas State University and the Criminal Justice Institute of the University of Arkansas. Students must be currently employed by a law enforcement agency to participate in either of these degree programs and be fully admitted to both Arkansas State University—Jonesboro and the Criminal Justice Institute using the admissions process for each institution. The general education component of the program will be provided by ASU—Jonesboro and all students must comply with the state guidelines concerning freshman assessment and course placement in English, Mathematics, and Reading. Courses offered and completed through the Criminal Justice Institute will apply only toward the associate of applied sciences degree and will not be accepted by Arkansas State University as satisfying requirements for any other associate or baccalaureate degree. It is the responsibility of the student to request credit for the Criminal Justice Institute courses and submit the proper documentation prior to or during the student's first enrollment at ASU. Partnership agreement tuition discounts for these programs may be applied at Marked Tree and Paragould locations only.

Department of English and Philosophy

Associate Professor Janelle Collins, Chair

Professors: Ball, Calloway, Cave, Hansen, Harris, Lamm, Lott, Moore, Spikes, Schichler

Associate Professors: Burns, Chappel-Traylor, Hendershot, Narey, Sartorelli

Assistant Professors: Barrett-Fox, Caton, Costello, Gennuso, Krueger, Leckey, Horneker,
Meritt, Spaniol, Weimer

Instructors: Bridges, Duclos, Patton, Tribbett, C. Williams, G. Williams, Young

Courses offered in English are designed to promote the effective use of oral and written English; to encourage selective and interpretative reading; to increase the capacity to understand and appreciate the classics, the humanities, and the fine arts; and to foster the development of personal philosophies based upon time-tested truths.

It is assumed that any student enrolling in any literature class will be able to demonstrate competent writing ability.

The program for students majoring in English is designed to afford a liberal education to meet the needs of teacher certification; to create a humane basis for careers in business, in the learned professions, or in government; and to prepare for graduate study.

Courses offered in philosophy are designed to provide students with the knowledge and logical skills to understand and critically evaluate the intellectual, moral, and religious choices they encounter.

The program for students majoring in philosophy seeks to provide the background necessary for those preparing for law school, seminary, and graduate school as well as for those who simply seek a liberal education as the foundation of a career in business or industry.

WRITING CLINIC

The department offers a special free service to students at all levels: a writing laboratory designed to help students with individual problems. Contact the department office for details.

Major in English

Bachelor of Arts

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

Department of History

Associate Professor Pamela Hronek, Chair

Professors: *Gilbert, Milner, Rousey, Sydorenko, Wilkerson-Freeman*

Associate Professors: *Banta, Edwards, Hogue, Hu, Jones-Branch, Key, Maynard, Pobst,*

Assistant Professors: *Castro, Polk, Saunders*

The Department of History offers to all students of the university courses of general cultural and educational value. It seeks not only to acquaint students with the development of human civilization and with their duties as citizens, but to advance them toward their vocational and professional objectives.

The major in history with the Bachelor of Arts degree is recommended for those seeking a liberal education and aspiring to careers in history, law, theology, journalism, and library work; in local, state, and national public service; in business where a knowledge of domestic and foreign affairs is desirable; and in every area which requires an understanding of human activity.

The major in social science with the Bachelor of Science in Education degree is offered specifically to prepare teachers of social science in institutions of secondary education.

Major in History

Bachelor of Arts

Total Required Hours:	18

Department of Political Science

Associate Professor William McLean, Chair

Professors: Reese

Associate Professors: Harding, Hacker, Tusalem, Wang

Assistant Professors: Buzby, Levenbach, Warner

Instructors: Hilson, Lee

The Department of Political Science provides students with the information and the intellectual stimulus needed to cope with the problems of modern politics.

A concrete orientation toward specific careers is provided by a program of coursework that prepares students for law school as well as careers in politics, public and foreign service, teaching, journalism, and business. Individual courses focus on urban, state, national, and international government—the executive, judicial, and legislative branches; the politics of Europe, Africa, Mideast, and East Asia; and the theoretical presuppositions underlying political differences within and between nations.

Major in Political Science

Bachelor of Arts

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
POSC 1103, Making Connections: Politics and Law	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35
<p>Students with this major must take the following: <i>MATH 1023, College Algebra</i> <i>Nine hours of Arts or Humanities (Required Departmental Gen. Ed. Option) including the following:</i> <i>PHIL 1103, Introduction to Philosophy.</i></p> <p>NOTE: POSC 2103 will NOT be accepted to fulfill General Education Requirements in this major.</p>	
Language Requirement:	Sem Hrs.
Foreign Language Refer to Foreign Language Requirement in College of Humanities and Social Sciences.	0-12
Major Requirements:	Sem. Hrs.
POSC 2103, Introduction to United States Government	3
POSC 3003, Introduction to Political Analysis	3
*Upper-level Political Science Electives Students must take at least one upper-level course in each of the following areas: <i>American Politics, Comparative Politics, International Relations, Political Theory, Public Administration, and Public Law. Concentration in one of these areas is expected.</i>	36
Sub-total	42
Electives:	Sem. Hrs.
Electives	28-40
Total Required Hours:	120

Department of Political Science Minors

Minor in Political Science

Required Courses:	Sem. Hrs.
Political Science Electives <i>May not include POSC 2103, Introduction to United States Government</i>	6
Upper-level Political Science Electives	12
Total Required Hours:	18

Minor in Homeland Security and Disaster Preparedness

The minor in Homeland Security and Disaster Preparedness is a multidisciplinary program offered in the College of Nursing and Health Professions and the College of Humanities and Social Sciences. The structure of the minor provides specialized training within each of three tracks. The introductory and capstone course provide the common framework necessary for the integration of these fields and the cooperative efforts of the specialists working within them.

Required Courses:	Sem. Hrs.
NRS 4503, Principles of Disaster and Emergency Preparedness	3
DPEM/NRS/POSC 4553, Capstone in Homeland Security and Disaster Preparedness	3
Select three courses from within a single track:	9
Track 1: Healthcare in Homeland Security and Emergency Preparedness NRS 4513, Physical Care of Chemical, Biological, Radiologic, Nuclear and Explosive Injuries NRS 4523, Risk Identification and Prevention in Disaster and Emergency Preparedness NRS 4533, Disaster Mental Health SW 4203, Crisis Intervention Track 2: Disaster Preparedness, Response and Operations Management POSC 4513, Disaster Response - Operations and Management PR 4603, Crisis Communication SOC 4343, GIS for Social Sciences POSC 4133, Intergovernmental Relations and Federalism in an Era of Insecurity Track 3: Sociocultural & Political Disaster Preparedness SOC 3363, Sociology of Religion OR SW 4363, Religion and Spirituality in Social Work Practice SOC 4003, Perspectives on Death and Dying SOC 4063, Sociology of Disasters SOC 4263, Terrorism as a Social Movement	
Select one course from one of the other two tracks.	3
Total Required Hours:	18

Department of World Languages and Cultures

Associate Professor Yvonne Unnold, Chair

Associate Professors: Johnson, Lombeida, Owens

Assistant Professors: Bernales, McGee, Moreno

Instructors: Varela-Sanchez

The Department of World Languages and Cultures offers courses in Arabic, Chinese, French, German, and Spanish, to facilitate the communication skills, knowledge and appreciation of diverse languages and cultures that are necessary for students to achieve a successful professional career in today's global society. Courses offered in world languages are designed to train students to read, write, speak and understand the target language; to acquaint them with the literature and culture of the countries where the target language is spoken; to provide a linguistic tool necessary in many professions; and to afford a source of literacy and aesthetic pleasure. The Department of World Languages and Cultures prepares students to be linguistically competent and literate in the culture(s) associated with the languages studies and offers introductory to advanced level instruction, as well as major and minor degree programs.

The Bachelor of Arts degree with emphasis in French and Spanish are recommended for those who are seeking to employ Spanish or French as a vehicle of communication in their future profession and aspiring careers in any area which requires linguistic and cultural communication skills in these languages.

The Bachelor of Science in Education degree with emphasis in French and Spanish is offered specifically to prepare teachers of Spanish and French for teaching at institutions of secondary education.

Minor in International Studies

The Minor in International Studies aims to provide students from across the campus the opportunity to understand better in an interdisciplinary context some of the complexities of our global society. Particularly suited for students in History, Political Science, English, World Languages, and International Business, the minor draws on existing offerings in these and other departments, and also provides a forum for interdisciplinary seminars and specialized courses that focus on international issues.

NOTE: Certain courses from this list may be offered infrequently. Consult the Chair of the relevant department if you have questions on when a course will be offered.

Required Courses:	Sem. Hrs.
Any student who completes the necessary courses may declare this minor and have it appear on the transcript. Each Department which offers a course included in the minor will determine for its own majors whether courses taken for a student's minor can also count toward the major.	
Select 12 hours from the following (no more than two courses may have the same prefix):	12

College of Media and Communication

Professor Brad Rawlins, Dean

The College of Media and Communication offers students the opportunity to combine the best of a broad education in the liberal arts and sciences with the academic and professional preparation required in the wide variety of fields in communications. The college offers four baccalaureate degrees through two departments: The Media Department offers Bachelor of Science degrees in Multimedia Journalism and Creative Media Production, and the Communication Department offers a Bachelor of Science in Strategic Communication and a Bachelor of Arts in Communication Studies. The three Bachelor of Science degrees are accredited by the Accrediting Council on Education in Journalism and Mass Communications.

Studies in the college allow students to learn to gather, organize, synthesize and communicate information professionally in a democratic, multi-cultural society. They learn to think critically and communicate effectively in preparation for productive roles, for example, in news, radio, television, film, public relations, organizational communication, advertising, photojournalism, graphic communications, web and multimedia production and design or health communication. Students also find communications courses excellent preparation for graduate work and the study of law.

The College of Media and Communication offers students opportunities to apply what they learn in a variety of campus and national student organizations, including: The Herald, ASU-TV, the ASU Debate Team, American Advertising Federation, Society of Professional Journalists, National Broadcasting Society, National Press Photographers Association, Gamma Tau Epsilon (graphic communications), Public Relations Student Society of America, the National Association of Black Journalists, the Association of Women in Communications, the Undergraduate Student Research Association, and three honorary groups: Kappa Tau Alpha (journalism and mass communications), Pi Kappa Delta (forensics), and Lambda Pi Eta (communication).

The three Bachelor of Science degrees (Multimedia Journalism, Creative Media Production and Strategic Communication) adhere to the learning outcomes espoused by the Accrediting Council on Education in Journalism and Mass Communication. Graduates of these programs should be aware of certain core values and competencies and should be able to:

THINK

We promote problem solving by enhancing students' ability to:

- think critically, creatively and independently;
- think analytically by conducting research and evaluating information using appropriate methods, including applying basic numerical and statistical concepts;
- understand and respect others in a diverse and global society, which includes diversity of gender, race ethnicity, sexual orientation, religion, culture, and national origin.
- understand concepts and apply theories in the use and presentation of messages, images and information;

COMMUNICATE

We promote strong communication skills by demanding students:

- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- apply current tools and technologies appropriate for the communications professions in which they work, and to understand the digital world;
- communicate effectively using words and images for multiple platforms, ranging from interpersonal to digital media.

BE PROFESSIONAL

We promote professional behavior and integrity by reinforcing these principles

- understanding the principles and laws of freedom of speech and press and how they are applied nationally and internationally;
- understanding the history and role of professionals and institutions in shaping communications;
- understanding the professional ethical principles and working ethically in pursuit of truth, accuracy, fairness and diversity;

DEGREE REQUIREMENTS

In addition to meeting the general requirements, candidates for the Bachelor of Science degree in Multimedia Journalism, Creative Media Production, and Strategic Communication must complete the following:

1. Take at least 72 hours outside of the three Bachelor of Science degrees offered in the College of Media and Communication.
2. A minor outside of the College of Media and Communication. The minor must be approved by the student's advisor.
3. Earn no more than three hours of internship credit towards the 120 hours required for graduation.
4. Take a senior exit exam on the study day prior to final exams of his or her last semester of enrollment.
5. Complete an exit survey and submit a resume prior to graduation.

COLLEGE OF MEDIA AND COMMUNICATION CORE COURSES

College of Media and Communication Core Courses:	Sem. Hrs.
CMAC 2053, Introduction to Visual Communications	3
CMAC 3001, Professional Seminar	1
Total Required Hours:	4

Department of Media

Professor Osabuohien P. Amienyi, Chair

Professors: *Fears, Pitts*

Associate Professors: *Zeng*

Assistant Professors: *Bowman, Combs, Tait*

Instructors: *Brown, Doyle, Mishra, Pillow, Roberts, Thrasher*

The Department of Media offers Bachelor of Science degrees in Multimedia Journalism and Creative Media Production. Students can emphasize in news editorial, broadcast journalism, photojournalism, sports journalism, audio and video production, multimedia production, narrative media, and sports production.

MULTIMEDIA JOURNALISM PROGRAM:

The multimedia journalism program prepares working journalists and news practitioners to generate, research, write, and produce newsworthy content across the spectrum of news media. Through hands-on instruction, practical workplace experience and conceptual coursework, students learn how to create and distribute content for print, radio, television, digital, interactive, social and mobile media.

Multimedia journalism is designed to develop news judgment and storytelling skills applicable to a variety of professions and media outlets and talent for performance and teamwork. This program builds the foundation on which graduates can establish a career in modern news media across platforms.

CREATIVE MEDIA PRODUCTION PROGRAM:

The creative media production program prepares practitioners for the world of media production, from concept to program completion. Through hands-on instruction and conceptual coursework, students learn how to create and distribute content for radio, television, film, websites and interactive media.

Creative Media Production is designed to nurture students with a passion for storytelling and communicating, and a talent for expressing themselves through visual media. This preparation provides a solid foundation on which to build their careers in a variety of rewarding professions.

DEGREE REQUIREMENTS

Students earning a Bachelor of Science from the Department of Media must complete the following:

1. Take at least 72 hours outside of the three Bachelor of Science degrees offered in the College of Media and Communication.
2. A minor outside of the College of Media and Communication. The minor must be approved by the student's advisor.
3. Earn no more than three hours of internship credit towards the 120 hours required for graduation.
4. Take a senior exit exam on the study day prior to final exams of his or her last semester of enrollment.
5. Complete an exit survey and submit a resume prior to graduation.

Department of Communication

Associate Professor Marceline Hayes, Interim Chair

Professors: Fowler

Associate Professors: Hill

Assistant Professors: Clark, Hall, Harper, Pan, Randle, Thatcher

Instructors: Moskal, Scott

The Department of Communication offers a Bachelor of Arts in Communication Studies and a Bachelor of Science in Strategic Communication. Students can emphasize in advertising or public relations in the Strategic Communication Program.

COMMUNICATION STUDIES PROGRAM:

Communication Studies focuses on the ways that people make use of both verbal and nonverbal messages to generate meanings within various contexts, cultures, and media. Since 75% of a person's day is spent communicating in some way, the importance of being able to communicate clearly cannot be overemphasized. Communication skills are essential to personal satisfaction and academic success, as well as employment.

Courses provide a strong theoretical foundation in communication as well as an emphasis on improvement in practical communication skills. Majors in Communication Studies have the flexibility to focus on specific areas of interest while obtaining a thorough understanding of communication. Students may also choose to become involved with departmental activities such as the debate team or Lambda Pi Eta, the national honor society for communication students.

STRATEGIC COMMUNICATION PROGRAM:

Strategic Communication uses public relations, advertising, social media, and organizational communication to build mutually beneficial relationships with key stakeholders. Effective organizations use strategic communication to help achieve their goals and objectives and recognize that groups inside and outside the organizations are critical to their success. Communication is strategic when it uses research and evaluation to determine how goals and objectives are effectively reached.

Students graduating from this program will know and understand how to use advertising, public relations, social media, branding, crisis communication, media relations, research methods and evaluation tools to help organizations communicate with their publics. They will be prepared to work for companies big and small, governmental agencies, and nonprofit organizations such as universities, hospitals, museums and NGOs.

Students earning a Bachelor of Science in Strategic Communication must complete the following:

1. Take at least 72 hours outside of the three Bachelor of Science degrees offered in the College of Media and Communication.
2. A minor outside of the College of Media and Communication. The minor must be approved by the student's advisor.
3. Earn no more than three hours of internship credit towards the 120 hours required for graduation.
4. Take a senior exit exam on the study day prior to final exams of his or her last semester of enrollment.
5. Complete an exit survey and submit a resume prior to graduation.

College of Nursing and Health Professions

Professor Susan Hanrahan, Dean

The College of Nursing & Health Professions was constituted with the beginning of the academic year 1982, and came about as a result of the inclusion of three programs which had been offered in other units of the university. The undergraduate programs of the college are baccalaureate degree curricula in nursing, clinical laboratory sciences, communication disorders, health studies, magnetic resonance imaging (MRI), nutritional science, radiologic imaging specialist, radiation therapy, diagnostic sonography, nuclear medicine, and social work, and associate degree programs in clinical laboratory science, nursing, physical therapist assistant, and radiologic technology. Information on graduate programs in the college (communication disorders, nursing, health sciences, physical therapy, and social work) can be found in the ASU Graduate Bulletin.

ACCREDITATION AND REGISTRATION

Both the associate degree and the baccalaureate degree programs in nursing are approved by the Arkansas State Board of Nursing and accredited by the National League for Nursing Accrediting Commission (NLNAC) (3343 Peachtree Rd NE, Suite 850, Atlanta, GA 30326; (404) 975-5000; www.nlnac.org). Upon completion of these programs the student is eligible for the National Council of State Boards of Nursing Licensing Examination (NCLEX-RN), and after passing the examination, is licensed as a Registered Nurse by the state(s) to which application was made.

The Clinical Laboratory Scientist and Clinical Laboratory Technician programs are accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 8410 West Bryn Mawr Avenue, Suite 670, Chicago, IL 60631, 773-714-8880. Graduates of these programs are eligible for the national certifying examinations in their specialty through the American Society of Clinical Pathologists.

The baccalaureate degree in Communication Disorders is a preprofessional degree designed to prepare students for graduate study in speech-language pathology. Both curriculum and practicum experiences have been designed to partially fulfill requirements for the Certificate of Clinical Competence issued by the American Speech-Language Hearing Association.

The Coordinated Program in Dietetics has been granted candidate status by the Accreditation Council for Education in Nutrition and Dietetics, Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-0040 ext 5400.

Both the Doctor of Physical Therapy (DPT) and the Physical Therapist Assistant (PTA) programs are accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 N. Fairfax Street, Alexandria, VA 22314, 703-706-3245.

The Radiologic Technology, Radiation Therapy, and MRI programs are accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Dr., Suite 900, Chicago, IL, 60606-2901. Graduates are eligible to sit for the national certifying examination of the American Registry of Radiologic Technologists. The Nuclear Medicine Program is accredited by the Joint Review Committee on Education in Nuclear Medicine Technology. The Diagnostic Medical Sonography Program is accredited by the Joint Review Committee for Education in Diagnostic Medical Sonography.

The Social Work Program is accredited by the Council on Social Work Education, CSWE, 1725 Duke Street, Suite 500, Alexandria, VA 22314-3457, 703-683-8099.

Most state and national board application forms ask if the applicant has ever been convicted of a crime. Certain crimes (e.g., controlled substance use or sale) may make the applicant ineligible for the examination. If a student has any reason to believe that he/she may be ineligible for the state or national board examinations, he/she should discuss this with the program director or the respective licensing agency.

APPLICATION POLICIES AND PROCEDURES

Admission to Arkansas State University does not automatically admit one to the programs offered by the College of Nursing and Health Professions. The college has a selective admissions policy due to professional requirements and limited clinical sites for placement of students. **All remediation requirements must be completed prior to beginning the professional component of any Nursing or Health Professions program.**

For a listing of the criteria used by admission committees in selecting students for the various programs, contact the appropriate department chair or program director (Nursing 972-3074; Clinical

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Laboratory Sciences 680-8596; Radiologic Sciences 972-3073; Physical Therapy 972-3591; Communication Disorders 972-3106; Social Work 972-3984; Nutritional Science 680-8598.) Courses in clinical laboratory sciences, physical therapist assistant, radiologic sciences, radiologic technology, nursing, and nutritional science (with the exception of NS 2203, NRS 3353, NRS 3333, NRS 4393, NRS 2392 and NRSP 2391), are open only to students admitted to the professional level of those respective programs. Some courses with an HP prefix are open to any student who meets the university admission requirements. Enrollment in certain 3000 and 4000 level CD courses requires admission to the undergraduate communication disorders program.

After being admitted to Arkansas State University, students should obtain an application form from the department or program office or website. The application, together with other required materials, must be submitted in accord with the deadlines listed below. All transcripts and documents submitted in support of an application become the property of the university and cannot be returned to the applicant or forwarded to another school or individual.

Students seeking admission to an ASU nursing program after withdrawing from or being dismissed from another nursing program must submit with their application a letter of good standing from each such nursing program attended. Students are ineligible for enrollment into the 4th/Final semester of the AASN program.

DEADLINE FOR RECEIVING APPLICATIONS

Students will be notified in writing of the decision of the admissions committee. It is the responsibility of each student to see that all required documents have been received by the appropriate program in the College of Nursing and Health Professions by the deadline date. No student will be considered for admission until the file is complete and all requirements are met.

Clinical Laboratory Sciences - Bachelor of Science
April 15 of the sophomore year for the junior-senior clinical years. Prior to this time the student is enrolled in the clinical laboratory science program as a pre-clinical laboratory scientist major.
Clinical Laboratory Sciences - Associate of Applied Science
April 15 for official admission to the Fall semester. Prior to this time, the student is enrolled in the clinical laboratory science program as a pre-clinical laboratory technician major.
Communication Disorders - Bachelor of Science
No deadlines. Admission to the undergraduate communication disorders program requires the following: 3.1 or better GPA for BIO 2223 and 2201, PSY 2013, CD 2653, CD 2104, CD 2203; "C" or better in ENG 1003, ENG 1013 and MATH 1023; 2.75 or better overall GPA; ten (10) clock-hours of documented, prescribed observation; a speech and hearing screening; and a minimum of 30 hours of earned academic credit.
Associate of Applied Science in Nursing
June 15 for admission to the Fall semester for LPN to RN students at campus site and distance-learning sites; October 1 and June 15 for transfer/readmission for subsequent semester. Deadline for traditional AASN program at the Mountain Home, Beebe and West Memphis campus is October 1st. Applicants must complete required prerequisite support courses with a cumulative GPA of 2.0 or better. A "C" or better must be earned in ALL required courses. Applicants for admission will be ranked based upon prerequisites. All traditional AASN applicants must have CNA certification from Arkansas Office of Long Term Care.
Bachelor of Science in Nursing
June 15 for Fall enrollment in sophomore nursing courses and the LPN to BSN track. November 15 and June 15 for transfer/admission/readmissions for subsequent semester. Registered nurses must apply during the semester enrolled in NRS 3312.
Applicants into the sophomore level must have at least 30 semester hours with a cumulative GPA of 2.8 or above completed by application deadline (June 15). Required prerequisite courses must be completed with a "C" or better by application deadline. Due to space availability, applicants for admission will be ranked based on the GPA of all completed courses that apply toward the BSN Degree.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

2nd Degree Accelerated BSN

March 15 for August Interim enrollment. A baccalaureate degree in another discipline plus all major required support courses must be completed by the end of the Spring semester.

Students seeking readmission, advance standing or transfer credit for nursing courses must be aware that nursing knowledge changes rapidly. Therefore, if three or more years have elapsed since the previous education experience, students may be required to meet additional requirements before progression in a specific nursing program.

Dietetics - Bachelor of Science

April 1 after sophomore year for admission in Fall semester.

In order for students to apply for admission into the Coordinated Program in Dietetics, they must meet the following conditions: cumulative GPA of 2.5 on a 4.0 scale of all college work attempted; English proficiency requirements, if foreign born; completion of program prerequisites with a minimum grade of "C" required in all courses.

Class size is limited due to the availability of supervised practice sites. All applicants may not be accepted into the program.

Doctor of Physical Therapy

ASU does offer the Doctor of Physical Therapy degree (DPT). Deadlines for application can be obtained by contacting the program office at (870) 972-3591.

Physical Therapist Assistant - Associate of Applied Science

Students are encouraged to declare as Physical Therapist Assistant (PTA) majors. Students may apply to the PTA program during the spring semester of the year in which they plan to start the program. Application deadline is April 1 of each year.

Radiologic Technology - Associate of Applied Science

April 1 for admission to the first summer session. Students are accepted based on 1) cumulative GPA (a 2.5 GPA is required); 2) Prerequisite course GPA; 3) Essay scores ; 4) reference scores; 5) interview scores. NOTE: Students completing prerequisite work at ASU-Jonesboro receive extra points toward admission score.

Imaging Specialist - Bachelor of Science in Radiologic Sciences

Clinical Specialties are offered in Mammography, Computed tomography, and General Radiography. Admission is granted at the beginning of each semester. Only applicants who have 1) completed the associate degree in Radiologic Technology from a school approved by the American Registry of Radiologic Technologists OR 2) passed the national certification boards through the American Registry of Radiologic Technologists will be considered.

Radiation Therapy - Bachelor of Science in Radiologic Sciences

April 1 for Fall enrollment. Students are accepted based on 1) cumulative GPA 2) selected course grades 3) interview 4) number of hours completed toward degree. All three are converted to a point system. Students wishing to apply to the Radiation Therapy program must have completed an accredited school of Radiologic Technology or have graduated. ASU graduates receive extra points when calculating total scores.

Diagnostic Medical Sonography - Bachelor of Science in Radiologic Sciences

April 1 for Summer I enrollment. Students are accepted based on 1) cumulative grade point average, 2) selected course grades, 3) interview, and 4) references. Preference given to those who are near successful completion of the General Education Curriculum and the Radiologic Sciences core courses. To be eligible to apply students must 1) complete an accredited school of radiologic technology or 2) complete the prerequisite courses outlined in the Bulletin.

Magnetic Resonance Imaging- Bachelor of Science in Radiologic Sciences

April 1 for Summer I enrollment. Students are accepted based on 1) cumulative GPA, 2) selected course grades, 3) interview, 4) number of hours completed toward degree, and 5) references. All categories are converted to a point system. Students wishing to apply to the MRI program must have completed all core requirements prior to fall semester. Registered Radiologic Technologists receive extra points when calculating total scores.

Nuclear Medicine Technology - Bachelor of Science in Radiologic Sciences

April 1 for Fall admission. Students are accepted based on 1) cumulative GPA 2) orientation session 3) interview. Students should see the Director of Radiologic Sciences Programs for further details.

Radiology Management – Bachelor of Science in Radiologic Sciences

Admits each semester or Summer Session. Students entering this major must be registered by the American Registry of Radiologic Technologists in one of the primary professions or registry eligible. Interested students should see the Chair of the Department of Medical Imaging and Radiation Sciences.

Social Work — Bachelor of Social Work

Students must be admitted to the program before they will be allowed to take Social Work major courses. Students must have a minimum of 45 hours with a GPA of at least 2.75 overall. Generally, students will be admitted during the second semester of their sophomore year. Consideration for admission to the program will be in the spring semester. Specific due dates for materials will be posted on the notice board outside the departmental office. Students should follow the criteria in the Social Work Student Handbook available on the web.

PROBATION, RETENTION, AND READMISSION

All programs in the College of Nursing and Health Professions have policies governing probation, retention, and readmission.

Probation: When the cumulative, semester, or session grade point average falls below 2.00, the student in physical therapist assistant, radiologic technology, associate degree nursing, or baccalaureate degree nursing, or nutritional science will be placed on probation. At the end of the next semester or session of enrollment the cumulative grade point average must be at least 2.00 for the student to remain in his/her respective program.

Retention: A student may **NOT** continue in the following programs if the requirements (listed below) are not maintained:

- A. Clinical laboratory sciences programs: if a grade lower than "C" is received in any biological, chemistry or CLS course, or the student fails to maintain an overall GPA of 2.00 in his/her respective program.
- B. Radiologic technology program: if a grade lower than "C" is received in Anatomy or in any RT course.
- C. Any radiologic science program: if a grade of lower than a "C" is received in any degree course.
- D. Associate degree nursing program: if a grade lower than "C" is received in a required nursing course, if the student withdraws from a nursing course to avoid a failing grade or if the GPA is less than 2.00 in the required support courses upon entry to the last semester of the program.
- E. Baccalaureate degree nursing program: if a grade lower than "C" is received in a required nursing course, if the student withdraws from a nursing course to avoid a failing grade, or if the grade is less than "C" in the required laboratory sciences upon entry to the sophomore and junior level nursing courses.
- F. Nutritional science program: if a grade lower than "C" is received in any dietetics course.
- G. Physical therapist assistant program: if a grade lower than "C" is received in any PTA course.
- H. Baccalaureate degree social work program: if a grade lower than "C" is received in any social work course or if a student fails to maintain a 2.75 GPA in the program.

Readmission: If students are not allowed to continue in a program because of the above stipulations, readmission will be considered only after the student submits a formal application for readmission to the appropriate department or program.

- A. Students are **NOT** eligible for readmission if:
 1. the cumulative grade point average is lower than 2.00. (2.75 for social work student)
 2. the student has received a final grade lower than "C" twice in the same course, or has received a grade lower than "C" in professional courses in two separate semesters in the same program. [In Nursing, withdrawal from a nursing course to avoid a failing grade is considered the same as receiving a grade lower than "C."]
- B. Procedures for application for readmission:
 1. A student must submit to:
 - a. the CLS programs a completed application form obtainable from the program's website, <http://www.astate.edu/conhp/cls/> by the deadline date for applications as noted under "Application Procedures."
 - b. the RT program a completed application form obtainable from the program director's office sixty (60) days prior to the first day of registration of the semester for which readmission is sought.

- c. any RS program a completed application form obtainable from the departmental office sixty (60) days prior to the first day of registration of the semester for which readmission is sought.
 - d. the School of Nursing a completed Nursing application packet by the deadline date for applications as noted under "Application Procedures." Students are required to pass a standardized readmission exam based on previous successful course work.
 - e. the Nutritional Science Program a completed application form obtainable from the program's website <http://www.astate.edu/college/conhp/departments/dietetics/index.dot> by the deadline date noted under "Application Procedure."
 - f. the BSW program students must repeat the application process during the next cycle.
2. All applications for readmission must include a current and complete official transcript.
 3. Readmission to any program will be dependent upon space available, regardless of student qualifications.

DISCLAIMER

Given the rapid changes in health care and technology, the programs in the College of Nursing and Health Professions reserve the right and responsibility to revise the curriculum to anticipate societal needs for health care. Therefore, students are strongly advised to contact the program directors for current requirements.

Students admitted to any College of Nursing and Health Professions program must meet the program's professional course requirements stated in the ASU Undergraduate Bulletin in effect the academic year of their admission to the professional program.

VACCINATION AND SKIN TESTING

Students **ADMITTED** to any program in the College of Nursing and Health Professions must present the following immunization and test documentation:

1. Rubella and rubeola (Arkansas statute).
2. Mumps and varicella vaccination or titer (clinical affiliate (hospital) requirements when working with infants and children).
3. If no hepatitis immunization or titer, then must begin the Hepatitis B vaccine series prior to enrolling in a clinical practicum class. All students except C.D. must have completed the Hepatitis B series before enrolling in the first practicum course of their program.
4. TB skin test each year that the student is enrolled in a clinical practicum. If skin test is positive, documentation of treatment status must be submitted.
5. Cardiopulmonary resuscitation (CPR) certification is required before taking any practicum courses. Certification status must be maintained and documentation submitted to the appropriate department throughout enrollment in any program.

RADIOLOGIC SCIENCES FILM BADGE FEES

Students accepted into the Radiologic Technology program will be assessed an annual charge of \$100.00 per year (\$200 total) for radiologic film badges. Payment is due to the office of the program director prior to Clinical Practicums I and III. These badges will be used during the six clinical practicums.

Students accepted into the Radiation Therapy or Imaging Specialist programs will be assessed a one-time charge of \$120. Payment is due in the Program Director's office prior to the first clinical practicum.

MALPRACTICE INSURANCE

Before being assigned to clinical practicums all students in College of Nursing and Health Professions' programs are required to purchase malpractice/liability coverage. Assistance in arranging for coverage will be made through program directors.

CRIMINAL BACKGROUND CHECKS AND DRUG TESTING

Some of the clinical agencies used by the programs in the College of Nursing and Health Professions require criminal background checks and/or drug testing prior to placement for assigned practicums. Information for obtaining the background check and drug testing is provided by the program. Costs are to be borne by the student.

STUDENT EMPLOYMENT

Programs in the College of Nursing and Health Professions require an unusual amount of the students' time, and students should pay particular attention to the section on "Student Academic Load" in the Academic Regulations section in this Bulletin. Outside employment may need to be adjusted to course and clinical requirements scheduling.

TRANSPORTATION

Students are required to provide their own transportation when assigned to all practicums, including field experience in surrounding counties or other states. When determining educational costs, consideration should be given to this additional expense.

Department of Clinical Laboratory Sciences

Assistant Professor Stacy Walz, Chair

Assistant Professors: Payne, Bednar

The field of clinical laboratory science offers opportunities for students who are interested in the biological and chemical sciences. Clinical laboratory scientists are academically prepared, skilled laboratory workers who perform a variety of analyses which aid the physician in the diagnosis and treatment of patients.

The Associate of Applied Science-Clinical Laboratory Technician degree is a two-year program which permits students to achieve the status of clinical laboratory technician (CLT). The program is carefully articulated with the baccalaureate program in clinical laboratory sciences.

The BS-Clinical Laboratory Scientist degree is a 4-year program which provides an understanding of the theoretical and scientific fundamentals underlying the procedures involved, which include a broad based knowledge in the principles of human biology, chemistry, analytical instrumentation, and a familiarity with the educational and managerial aspects associated with one who occupies a professional role in a wide variety of settings.

Students seeking admission to the AAS degree program must have a minimum GPA of 2.5 or better. Students seeking admission to the BS degree program must have a minimum GPA of 2.5 or better.

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

For more information about the CLS Program, go to: <http://www.astate.edu/conhp/cls/>.

Major in Clinical Laboratory Sciences

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
CLS 1003, Making Connections CLS	3
General Education Requirements:	Sem. Hrs.

Department of Communication Disorders

Professor Richard Neeley, Chair

Professors: McDaniel

Assistant Professors: Catt, Good, Pait, Shollenbarger

COMMUNICATION DISORDERS: The Bachelor of Science degree in Communication Disorders is a preprofessional degree program which provides students with academic and practical preparation considered essential for success in the Communication Disorders graduate program. The undergraduate curriculum offers students a broad base of preparation in general education requirements, the sciences associated with communication and its disorders, anatomy and physiology, and a number of basic methods courses associated with the identification and treatment of a variety of communication disorders.

ADMISSION REQUIREMENTS

In order for students to be admitted into the Bachelor of Science in Communications Disorders, they must meet the following conditions:

1. An overall GPA of 2.75
2. 'C' or better in:
 - ENG 1003, Composition I
 - ENG 1013, Composition II
 - MATH 1023, College Algebra
3. An average GPA of 3.1 or higher in the following six courses:
 - BIO 2203 **AND** 2201, Human Anatomy/Physiology I and Laboratory
 - CD 2104, Anatomy and Physiology of CD with Laboratory
 - CD 2203, Phonetics
 - CD 2653, Introduction to Communication Disorders
 - PHSC 1203 **AND** 1201, Physical Science and Laboratory
 - PSY 2013, Introduction to Psychology
4. Complete 10 clock hours of supervised observation in the ASU Speech and Hearing Center
5. Complete a free speech and hearing screening at the ASU Speech and Hearing Center

PROBATION, RETENTION AND READMISSION

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

Disaster Preparedness and Emergency Management Program

Professor Deborah Persell, Program Director

The Bachelor of Science (BS) in Disaster Preparedness & Emergency Management (DPEM) offers a unique opportunity for students and current professionals in the field that bridges the gap between academia and practice. Originating from the College of Nursing and Health Professions (CNHP), the degree has a strong healthcare component that makes it unique among disaster preparedness, emergency management or homeland security programs. Within the 120 hour curriculum students complete both Basic and Advanced Disaster Life Support and take core courses devoted to the physical care of chemical, biological, radiation, nuclear and explosive injuries and disaster mental health; risk identification; disaster mental health and other courses devoted to the healthcare aspects of the pillars of emergency management. Many courses include practicum experiences with a strong healthcare focus; practicum experiences can be individualized to include medical centers, community care settings, government agencies, non-government agencies and others reflective of the discipline. Hospital Incident Command is included in the degree program.

Upon graduation students have multiple opportunities for employment, certifications and/or licenses. All graduates are eligible to take certification exam for Emergency Management. All disciplines are in need of experts in disaster preparedness. Potential employment venues include government, health care, business, education, non-government agencies as well as many others. A career path map can be found on the DPEM web site.

Faculty are certified and licensed in multiple disciplines. They are active members of regional, national and international emergency medicine/disaster health committees and are committed to retaining disaster health as a key component of the BS in DPEM.

PROGRAM PREREQUISITES

1. Minimum GPA of 2.0 on all transfer work
2. Completion of the ASU admission application process with acceptance

PROBATION, RETENTION AND READMISSION

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

Probation:

1. Grade of D or F in a discipline course
2. Semester or cumulative GPA less than 2.0
3. Failure to be accepted at a mandatory practicum site
4. Unprofessional behavior

Retention:

1. Minimum grade of C in all discipline courses
2. Minimum GPA of 2.0
3. Meet acceptance criteria for practicum site (unique to each site)
4. Professional behavior in all discipline courses/practicum experience

Readmission

1. Reapply to the program
2. Minimum GPA of 2.0
3. Faculty recommendation

Freshmen in residence on the ASU Jonesboro campus must take the First Year Experience.

For more information about the program, go to: <http://www.astate.edu/college/conhp/degrees/>.

Department of Medical Imaging and Radiation Sciences

Associate Professor Ray Winters, Chair

Associate Professors: Caldwell, Hubbard, Rollins, White

Assistant Professors: Barymon, DuBose, Manning

Instructors: Wooten, Youngman

The Radiologic Sciences Programs are administered by the Department of Medical Imaging and Radiation Sciences in the College of Nursing and Health Professions. The degrees are designed to produce associate and baccalaureate degree Radiologic Science professionals who are clinically competent, advanced level radiologic sciences practitioners.

RADIOLOGIC TECHNOLOGY: The Associate Degree program in radiologic technology includes both classroom instruction and experiences in the clinical setting of the health care institutions in the area. This provides students with opportunities for direct patient care involving those who are sick and injured, as well as those for whom radiologic diagnosis is indicated. The radiographer is a skilled person, qualified by technological education to provide patient services using imaging modalities as directed by physicians. Others are employed as technical advisors and representatives for radiologic equipment and supply manufacturers. The associate degree program may be articulated into any of the BSRS programs.

RADIOLOGIC SCIENCES: The Bachelor of Science in Radiologic Sciences Programs offer the radiologic professional the baccalaureate degree in 6 majors. These majors are 1) Imaging Specialist, 2) Radiation Therapy, 3) Diagnostic Medical Sonography, 4) Nuclear Medicine Technology, 5) Magnetic Resonance Imaging and 6) Radiology Management.

The **Imaging Specialist Major** is designed to provide the student with the skills necessary to become an advanced level technologist in one or more of the following modalities: General Radiography, CT or Mammography. Upon completion of the baccalaureate degree students are prepared to sit for the advanced registries in one or more of these areas.

The **Radiation Therapy Major** provides the student with the skills necessary to become a professional, entry level radiation therapist.

The **Diagnostic Medical Sonography Major** provides the student with the skills necessary to become a professional medical sonographer.

The **Nuclear Medicine Technology Major** provides the student with the skills necessary to become a professional nuclear medicine technologist.

The **Magnetic Resonance Imaging Major** provides the student with the skills necessary to become a professional MR Technologist.

The **Radiology Management Major** provides the student with the background knowledge and skills necessary to become a director of a radiology department in a hospital or imaging center.

CREDIT FOR WORK EXPERIENCE

Technologists who have successfully passed an appropriate national professional examination and have worked 1,000 hours in that specialty over the past two years are eligible to receive credit for work experience. Individuals should contact their program director for further information.

Major in Radiologic Technology

PROGRAM ADMISSION REQUIREMENTS

The Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology. The program exists to produce competent, entry-level radiographers for the practice of diagnostic imaging. Through didactic courses, laboratory participation, and clinical experiences, students acquire professional, ethical, and technical skills required of radiologic practitioners.

Admittance to the Radiologic Technology Program is accessed through two distinct methods. Students must declare intent to pursue the Associate of Applied Science degree or intent to pursue the Bachelor of Science in Radiologic Sciences. Students who declare the AAS degree and later wish to pursue the BSRS degree must make separate application upon completion of the AAS degree. (See the Health Professional Advisor or the Director of Radiologic Sciences Programs for complete details.)

Students accepted into the Radiologic Technology program will complete their professional education in two areas: the class room and the clinical setting. Class room work will occur on the ASU-Jonesboro campus, while clinical education will occur in area hospitals and clinics. The professional portion of the program is offered as a full-time course. Upon graduation, students are eligible for the national credentialing American Registry of Radiologic Technologists examination in radiography.

Applicants to the Radiologic Technology Program are selected by the Admissions Committee using the following criteria:

1. Cumulative grade point average
2. Support course GPA (see application package)
3. Essay Score
4. Reference evaluations

Each of the 4 categories listed is translated to a scaled system of points. Once scaled, students are ranked accordingly. The top 60 will be asked for an interview. Note: Students completing support course work on the ASU-Jonesboro campus will be awarded 5 points toward the final score.

PROBATION, RETENTION AND READMISSION

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

Major in Radiologic Technology

Associate of Applied Science

A complete degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Associate degrees (p. 40)	
General Education Requirements:	
See General Education Curriculum for Associate of Applied Science Degrees (p. 83)	Sem. Hrs. 19
Radiologic Technology:	
RT 1103, Introduction to Radiologic Technology	3
RT 1112, Basic Radiologic Procedures	2
RT 1121, Basic Radiologic Procedures Laboratory	1
RT 1202, Radiologic Procedures	2
RT 1211, Radiologic Procedures Laboratory	1
RT 1222, Radiation Physics	2
RT 1232, Clinical Practicum I	2
RT 1303, Advanced Radiologic Procedures	3
RT 1311, Advanced Radiologic Procedures Laboratory	1
RT 1323, Principles of Exposure I	3
RT 1332, Clinical Practicum II	2
RT 2104, Clinical Practicum III	4
RT 2111, Principles of Image Evaluation and Critique	1
RT 2114, Clinical Practicum IV	4
RT 2122, Principles of Exposure II	2
RT 3113, Radiologic Pathophysiology	3
RT 3202, Radiologic Special Procedures	2
RT 3212, Principles of Exposure III	2
RT 3223, Clinical Practicum V	3
RT 3312, Radiobiology	2
RT 3332, Radiologic Pharmacology	2
RT 3333, Clinical Practicum VI	3
Sub-total	50
Required Support Courses:	
HP 2013, Medical Terminology	3
PSY 2013, Introduction to Psychology	3
Sub-total	6
Total Required Hours:	75

BS in Radiologic Sciences Programs

The Bachelor of Science in Radiologic Sciences is offered in one of the following six majors:

1. Imaging Specialist (requires one of the following emphasis areas):
 - Mammography
 - Computed Tomography
 - General Radiography
2. Radiation Therapy
3. Diagnostic Medical Sonography
4. Magnetic Resonance Imaging
5. Nuclear Medicine Technology
6. Radiology Management

CREDIT FOR CURRENT PROFESSIONAL CERTIFICATION

Students holding current ARRT Advanced Level Certification in Cardiovascular-Interventional Technology, Mammography, Computed Tomography, Magnetic Resonance Imaging, or Quality Management, ARRT registration in Radiation Therapy or Nuclear Medicine, NMTCB registration in Nuclear Medicine, or ARDMS registration in Diagnostic Medical Sonography may request credit for work experience, independent study options, and waiver of clinical education coursework in their area of expertise. These requests will be evaluated on an individual basis but will require completion of at least one course in the specialty from ASU in order to complete the requirements for a minor toward the BSRS degree and at least two courses in the specialty from ASU to complete the requirements for a major toward the BSRS degree. In addition, students must complete all general education requirements, Radiologic Sciences Core requirements, and meet all residency requirements of the university. Individuals should contact their program director for further information.

PROBATION, RETENTION AND READMISSION

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

Imaging Specialist Program

ADMISSION REQUIREMENTS

To be admitted to the Bachelor of Science in Radiologic Sciences program, students must meet one of the requirements listed below:

1. Completion of a Joint Review committee on Education in Radiologic Technology (JRCERT) approved Associate Degree Program in Radiologic Technology OR
2. Receive credit by articulation. Registered radiologic technologists who do not possess an Associate degree may receive 50 radiologic technology credit hours by providing documentation of the following three requirements:
 - a. Graduation from a JRCERT approved school of Radiologic Technology
 - b. A passing score on the American Registry of Radiologic Technologists certification examination
 - c. Successful academic performance on 6 semester hours of the BSRS Program.

When these requirements have been met, the Chair of the Department of Medical Imaging and Radiation Sciences will formally notify the Office of Admissions, Records and Registration and credit will be recorded on the student's transcript for 50 hours of ASU Radiologic Technology courses.

Major in Radiologic Sciences

Bachelor of Science in Radiologic Sciences Emphasis in Imaging Specialist - General Radiography

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
RT 1003, Making Connections in Radiology	3
General Education Requirements:	Sem. Hrs.

Radiation Therapy Program

The Radiation Therapy program is accredited by the Joint Review Committee on Education in Radiologic Technology. This major is designed to provide the student with the skills necessary to become a radiation therapist. Upon completion of the baccalaureate degree students are prepared to sit for the ARRT examination in Radiation Therapy.

ADMISSION REQUIREMENTS

Selection into the program is based on:

1. Cumulative grade point average
2. Selected course grades
3. Interview
4. References
5. Selection preference is given to those who are near successful completion of the General Education Curriculum and the Radiologic Sciences core courses.

The above criteria are converted to a point system.

Major in Radiologic Sciences

Bachelor of Science in Radiologic Sciences Emphasis in Radiation Therapy

Diagnostic Medical Sonography Program

The General Sonography concentration is accredited by the Joint Review Committee on Education in Diagnostic Medical Sonography. This major is designed to produce competent and compassionate entry-level sonographers for the practice of diagnostic medical sonography. The Non-Healthcare track is designed for applicants who have no prior experience in the healthcare setting. The Healthcare track is designed for applicants who have an associate's degree in healthcare (i.e. Radiologic Technology, Nursing, etc.) Upon completion of the baccalaureate degree students are prepared to sit for the American Registry of Diagnostic Medical Sonographers (ARDMS) examinations in sonography principles & instrumentation, abdomen, obstetrics/gynecology, and vascular technology.

ADMISSION REQUIREMENTS DEGREE IN DIAGNOSTIC MEDICAL SONOGRAPHY

Selection into the program is based on:

1. Cumulative grade point average
2. Selected course grades
3. Interview
4. Completed reference forms

The above criteria are converted to a point system. Selection preference is given to those who are near successful completion of the General Education Curriculum and Major Requirements other than those identified with RS or RSU prefixes.

ADMISSION REQUIREMENTS FOR CERTIFICATE IN CARDIAC SONOGRAPHY

Selection into the program is based on:

1. Cumulative grade point average
2. Approved Associate's Degree in healthcare

The above criteria are converted to a point system. Selection preference is given to those who have graduated from a sonography program, and those currently working full time in the field of cardiac sonography.

Major in Radiologic Sciences

Bachelor of Science in Radiologic Sciences

Emphasis in Diagnostic Medical Sonography (Non-Healthcare Track)

Magnetic Resonance Imaging Program

The Magnetic Resonance Imaging program is currently accredited by the Joint Review Committee on Education in Radiologic Technology. This major is designed to provide the student with the skills necessary to become a MR technologist. The healthcare track is designed for those individuals with previous healthcare experience or a degree in radiologic technology. Upon completion of the baccalaureate degree students are prepared to sit for the ARRT examination in Magnetic Resonance Imaging.

ADMISSION REQUIREMENTS

Selection into the program is based on:

1. Cumulative grade point average
2. Selected course grades
3. Interview
4. References
5. Essay

The above criteria are converted to a point system. Selection preference is given to those who are near successful completion of the General Education Curriculum and Major Requirements other than those identified with RS or RSMR prefixes. Registered Radiologic Technologists receive extra points when calculating total scores.

Nuclear Medicine Technology Program

ADMISSION REQUIREMENTS

The Nuclear Medicine Technology program is a joint accreditation arrangement between ASU and Methodist Healthcare of Memphis, accredited by the Joint Review Committee on Education in Nuclear Medicine Technology. The major is designed to provide the student with the skills necessary to become a nuclear medicine technologist. To complete the major in this area, students must complete the 31 hours of the program. Didactic (classroom) courses will be held in Memphis, while clinical courses will be held in Jonesboro. To be eligible to apply to the Nuclear Medicine Program students must be a graduate of a JRCERT program in radiologic technology.

Applicants to the Nuclear Medicine Technology Program are selected by the Admissions Committee of Methodist Healthcare, using the following criteria:

1. Cumulative grade point average
2. Selected course grade
3. Interview

Upon completion of the baccalaureate degree students are prepared to sit for the ARRT or CNMT examination in Nuclear Medicine Technology.

Major in Radiologic Sciences

Bachelor of Science in Radiologic Sciences Emphasis in Nuclear Medicine Technology

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
RT 1003, Making Connections in Radiology	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35
Students with this major must take the following:	
<i>MATH 1023, College Algebra</i>	
<i>CHEM 1013 AND 1011, General Chemistry and Laboratory</i>	
<i>BIO 2203 AND 2201, Human Anatomy and Physiology I and Laboratory</i>	
<i>COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)</i>	
Previous Radiologic Technology Education:	Sem. Hrs.
Students must complete an approved School of Radiologic Technology	50

RSN 4535, Nuclear Medicine Clinical Education III	5
Sub-total	32
Total Required Hours:	120

Radiology Management Program

ADMISSION REQUIREMENTS

To be admitted to the BSRS Management Major, students must meet one of the requirements listed below:

1. Completion of a Joint Review committee on Education in Radiologic Technology (JRCERT) approved Associate Degree Program in Radiologic Technology
2. Receive credit by articulation. Registered radiologic technologists who do not possess an Associate degree may receive 50 radiologic technology credit hours by providing documentation of the following three requirements:
 - a. graduation from a JRCERT approved school of Radiologic Technology
 - b. a passing score on the American Registry of Radiologic Technologists certification examination
 - c. successful academic performance on 6 semester hours of the BSRS Program.

When these requirements have been met, the Chair of the Department of Medical Imaging and Radiation Sciences will formally notify the Office of Admissions, Records and Registration and credit will be recorded on the student's transcript for 50 hours of ASU Radiologic Technology courses.

Major in Radiologic Sciences

School of Nursing

Associate Professor Angela Schmidt, Interim Chair

Professors: Skorga, C. Young, Persell

Associate Professors: Hall, Isaacson, Matthews, Snellgrove, Stacy, Walden

Assistant Professors: Anderson, Baker, Blue, Campbell, Cooper (Beebe), Davidson (West Memphis), Drake (Mountain Home), Fuller (Mountain Home), Gunter (Beebe), Hailey, Latting (Mountain Home), Mata, McKinney, McPike, Moody (West Memphis), Miller, Nix, Norman, Pfriemer, Schafer (West Memphis), Simmons (Beebe), Tarpley (Beebe), Tate, Troxel, Walden, Wiggins, Wike (Mountain Home), Wilcox, Wimberley, C.L. Young

The mission of the School of Nursing is to educate, enhance and enrich students for evolving professional nursing practice. The School of Nursing values the following as fundamental: Integrity (purposeful decision to consistently demonstrate truth and honesty); **Excellence** (highest quality of nursing education, practice, service and research); **Diversity** (respect for varied dimensions of individuality among populations); **Service** (professional experiences in response to the needs of society); **Learning** (acquisition of knowledge and skills in critical thinking, practical reasoning, and decision making) and **Student Centered** (development of essential skills for lifelong learning, leadership, professionalism, and social responsibility).

The School of Nursing offers the Associate of Applied Science in Nursing and Bachelor of Science in Nursing degrees at the undergraduate level. Completion of either program qualifies students to take the NCLEX-RN examination for licensure as a registered nurse.

ASSOCIATE OF APPLIED SCIENCE IN NURSING: The purpose of the associate level is to prepare graduates who apply the nursing process in the provision of direct nursing care for clients with common, well-defined problems. Therefore, the associate curriculum is grounded in the liberal arts and includes professional values, core competencies, core knowledge and role development. The associate degree graduate is prepared to function as a member of the profession and a manager of care in acute and community based settings.

BACHELOR OF SCIENCE IN NURSING: The nurse prepared at the baccalaureate level is a professional who has acquired a well-delineated and broad knowledge base for practice. We believe that the role of a baccalaureate graduate is multifaceted and developed through extensive study in the areas of liberal education, professional values, core competencies, core knowledge and role development. This knowledge base prepares the beginning baccalaureate graduate to function as a provider of direct and indirect care to individuals, families, groups, communities and populations. The baccalaureate graduate is also a member of the profession and a designer, manager and coordinator of care.

2nd DEGREE ACCELERATED BACHELOR OF SCIENCE IN NURSING: ABSN option designed for the graduate of baccalaureate program in another discipline. The option is accelerated and all nursing course work is completed in one year of full time study.

EDUCATIONAL MOBILITY: The nursing faculty is committed to the concept of educational mobility, and has provided a variety of approaches to Licensed Practical Nurses, to Licensed Psychiatric Technician Nurses, and to Registered Nurses prepared at the associate degree and diploma levels. LPNs, LPTNs, and RNs must work closely with their advisors. LPNs and LPTNs must be admitted to the desired program prior to enrolling in any nursing courses (except NS 2203, NRS 3353, NRS 2392, and NRSP 2391). The BSN program has a specially designed RN track to facilitate RNs' movement through the BSN. The track includes a reduction in nursing clinical hours, and clinical experiences designed to accommodate individual learning goals. Detailed information may be obtained from the nursing office (972-3074) relative to earning credit by articulation or examinations.

Prospective students who are LPNs, LPTNs, or RNs applying for admission to any nursing program must have a current unencumbered license to practice nursing.

GENERAL PROGRAM AND ADMISSIONS INFORMATION

Because of the wide diversity of career choices available in the health professions, the program directors may be contacted for information about other career options and their pre-professional curricula.

DISTANCE-LEARNING PROGRAM: The School of Nursing offers nursing courses and programs on-site and by compressed video to selected rural Arkansas sites: MidSouth Community College (West Memphis); ASU-Mountain Home; and ASU-Beebe.

To contact Distance Learning offices:

ASU-Jonesboro (Main campus) (870) 972-3074
ASU-Beebe (501) 882-8891
ASU-Mountain Home (870) 508-6113
MSCC-West Memphis (870) 733-6031

EARLY GRADUATE SCHOOL ADMISSION: If a BSN senior has a cumulative GPA of at least 2.75, or a GPA of 3.00 on the last 60 hours, and has the approval of the faculty advisor, the student may take a graduate level course in the final year of the BSN program. The total number of credits per semester may not exceed 15. Students will receive graduate credits only if the requirements for the bachelor's degree (BSN) have been met at the end of the second term, and all requirements for admission to the Graduate School are met.

CRIMINAL BACKGROUND CHECKS: Arkansas law requires applicants for licensure by examination to submit to criminal background checks. If an applicant has pleaded guilty or *nolo contendere* to any offense listed in Act 1208 of 1999, he/she is not eligible for Arkansas licensure. (Act 1208 of 1999 provides opportunity to request a waiver of eligibility criteria related to a criminal background in certain circumstances.)

PROBATION, RETENTION AND READMISSION: Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

LPN-TO-BSN OPTION

ASU participates in the statewide articulation program for licensed practical nurses (LPNs) and registered nurses (RNs) seeking the BSN degree. In that program, LPNs and RNs may earn credit by articulation or by challenge examination, depending on number of years since graduation from the applicant's LPN, diploma or associate degree program in nursing.

Prospective students pursuing these options must meet current criteria relating to eligibility, application deadlines, course work and program policies and procedures. For specific information concerning the LPN-to-BSN program, contact the School of Nursing office at (870) 972-3074.

ADMISSION REQUIREMENTS

1. Current unencumbered LPN License to practice in Arkansas
2. Overall GPA of 2.5
3. Current CPR certification
4. Acceptable immunization status
5. Completion of all lab science and mathematics courses required for a baccalaureate degree in nursing, with a "C" or better in each class.
6. Completion of required support courses.

NOTE: Students meeting the above requirements will be admitted on clinical space availability.

LPN-to-BSN Option

Bachelor of Science in Nursing

NRSP 2343, Nursing Care II	3
Sub-total	13
Total Required Hours:	105

RN-TO-BSN OPTION

ASU participates in the statewide articulation program for registered nurses (Associate Degree and Diploma RNs) seeking the BSN degree. To facilitate movement through the BSN curriculum, a specially designed track has been developed for registered nurses who have demonstrated clinical proficiency. Clinical course will be individualized based upon the applicant.

The RN-to-BSN option features reduced nursing clinical hours, and clinical experiences are designed to accommodate individual learning goals. The length of study depends upon previous college credits and the courses needed to fulfill BSN requirements. Most RNs with an associate degree can complete the BSN program in two years of full-time study.

APPLICATION

The application must be fully completed and all supporting documents submitted prior to enrollment.

ADMISSION REQUIREMENTS

1. Current unencumbered registered nurse license
2. Overall GPA of 2.5
3. Completion of all required English, Science and Math courses with a "C" or better in each course.
4. Completion of required support courses

NOTE: Students meeting the above requirements will be admitted on space availability.

PROFESSIONAL REQUIREMENTS

1. A current unencumbered registered nursing license
2. Professional liability insurance (minimum: \$1,000,000/\$3,000,000 coverage)
3. Current CPR certification
4. Acceptable immunization status

School of Nursing Minors

Minor in Homeland Security and Disaster Preparedness

The minor in Homeland Security and Disaster Preparedness is a multidisciplinary program offered in the College of Nursing and Health Professions and the College of Humanities and Social Sciences. The structure of the minor provides specialized training within each of three tracks. The introductory and capstone course provide the common framework necessary for the integration of these fields and the cooperative efforts of the specialists working within them.

Required Courses:	Sem. Hrs.
NRS 4503, Principles of Disaster and Emergency Preparedness	3
DPEM/NRS/POSC 4553, Capstone in Homeland Security and Disaster Preparedness	3
Select three courses from within a single track:	9
<p>Track 1: Healthcare in Homeland Security and Emergency Preparedness NRS 4513, Physical Care of Chemical, Biological, Radiologic, Nuclear and Explosive Injuries NRS 4523, Risk Identification and Prevention in Disaster and Emergency Preparedness NRS 4533, Disaster Mental Health SW 4203, Crisis Intervention</p> <p>Track 2: Disaster Preparedness, Response and Operations Management POSC 4513, Disaster Response - Operations and Management PR 4603, Crisis Communication SOC 4343, GIS for Social Sciences POSC 4133, Intergovernmental Relations and Federalism in an Era of Insecurity</p> <p>Track 3: Sociocultural & Political Disaster Preparedness SOC 3363, Sociology of Religion OR SW 4363, Religion and Spirituality in Social Work Practice SOC 4003, Perspectives on Death and Dying SOC 4063, Sociology of Disasters SOC 4263, Terrorism as a Social Movement</p>	
Select one course from one of the other two tracks.	3
Total Required Hours:	18

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Nutritional Science Program

Assistant Professor Pam Towery, Program Director

Assistant Professors: Tidwell

The Coordinated Program in Dietetics seeks to provide quality education and experiences for students in the field of dietetics to meet the need for registered dietitians (RD) in the Delta region and beyond. The program provides for the achievement of knowledge and performance requirements for entry-level dietitians through integration of didactic instruction with a minimum of 1200 hours of supervised practice. The supervised practice experiences occur in foodservice, community and clinical settings. Upon graduation, students are eligible to take the national credentialing examination administered by the Commission on Dietetic Registration. After passing the examination, they become registered dietitians.

In addition to RD credentialing, many states have regulatory laws for dietitians and nutrition practitioners. Frequently these state requirements are met through the same education and training required to become a registered dietitian.

Registered dietitians are considered food and nutrition experts. They work in a wide variety of employment settings, including hospitals and healthcare facilities, food & nutrition-related business and industry, sports nutrition & wellness programs, community & public health, education, research areas and private practice.

ADMISSION REQUIREMENTS

In order for students to apply for admission into the Coordinated Program in Dietetics, they must meet the following conditions:

1. Cumulative GPA of 2.5 on a 4.0 scale of all college work attempted.
2. English proficiency requirements, if foreign born.
3. Completion of program prerequisites with a minimum grade of "C" required in all courses.

Class size is limited due to the availability of supervised practice sites. All applicants may not be accepted into the program.

PROBATION, RETENTION AND READMISSION

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

For more information about the dietetics program, go to: <http://www.astate.edu/college/conhp/degrees/>.

Major in Dietetics

Bachelor of Science

Department of Physical Therapy

Associate Professor Shawn Drake, Chair

Professors: Aldridge

Associate Professors: Guffey

Assistant Professors: Head, Keith, Motts, Sloas, Whitehead, Phillips

Instructors: Meekins, Smith

GRADUATE PROGRAM IN PHYSICAL THERAPY (DPT)

Arkansas State University

pt.astate.edu

(870) 972-3591

If you are considering attending Arkansas State University and have the goal of studying Physical Therapy, the following information will be most important to you. The members of the faculty of the PT Program are pleased that you have considered our program. It is important for you to understand some things about Physical Therapy education. The information below should make the process of obtaining a degree in Physical Therapy more understandable.

Physical therapy education is delivered at the graduate level. This is not unique to ASU. All accredited Physical Therapy education programs deliver the entry-level degree at the post-baccalaureate level. This is the nature of PT education.

There is no undergraduate Physical Therapy degree. Yes, there is an Associate Degree in Physical Therapist Assisting at ASU, but this is not the PT degree. If your goal is to become a Physical Therapist, you will need to first complete a four-year degree (bachelor's degree). The Physical Therapy Program does not require any particular major or area of study. We view all undergraduate degrees as being of equal value and potentially appropriate preparation for PT School. We do, however, require certain prerequisite courses (primarily basic math and science courses) to prepare you for the professional courses you will be taking once admitted to graduate school and the PT Program. You should meet with one of the faculty of the PT Program to discuss these courses and how they can fit into your chosen field of undergraduate study.

As you near the completion of your undergraduate degree, you will want to make application to the ASU Graduate School and to the PT Program. The PT faculty will assist you with this process. During your undergraduate study you will want to develop a relationship with the PT faculty so that you remain abreast of all steps and processes involved in getting prepared for and applying to the PT program.

There are many issues and details that will need to be addressed as you prepare for PT School. That is why we are committed to helping you. For now, you should simply know that ASU is "the" place to get your education to become a PT. If you are reading this you have already begun the process. You may already have a field of study in mind for your undergraduate degree. That is great. If you are unsure about the undergraduate study, come by and visit. We can make some suggestions.

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

Visit the PT Program at <http://pt.astate.edu>. Call us at (870) 972-3591. We are looking forward to helping you make your time at ASU enjoyable and rewarding.

DOCTOR OF PHYSICAL THERAPY PROGRAM

Students should be aware of the Doctor of Physical Therapy (DPT) Program offered at ASU. See **Graduate Bulletin** or contact the PT program office for details at (870) 972-3591.

PHYSICAL THERAPIST ASSISTANT

The PTA assists the PT in patient evaluation and assessment activities, implements treatment programs according to a plan of care, trains patients in exercises and activities of daily living, conducts treatments using special equipment, administers modalities and other treatment procedures, and reports to the PT on patients' responses to treatment.

Major in Physical Therapist Assistant

Associate of Applied Science

A complete degree plan is available at <http://registrar.astate.edu/>.

Department of Social Work

Professor Karen Allen, Chair

Professor: *Brewer*

Associate Professors: *Bhattacharya, Freer, Walls*

Assistant Professors: *Addae, Carrick, Edwards, Morton*

Instructors: *Duncan, Fullen, Holt, Ryan*

Director of Field Education: *Parker*

The Bachelor of Social Work degree is accredited by the Council on Social Work Education. Completion of this program prepares students for beginning generalist social work practice.

Bachelors level social workers work with a variety of clients in many settings. The skills learned in the curriculum include interviewing skills, assessment skills, and intervention skills. The BSW qualifies the student to sit for the state exam at the Licensed Social Worker level. The state licensing law outlines the level of practice at this level. This is referred to as the Generalist Practice level.

Refer to Probation, Retention and Readmission Policies in the College of Nursing and Health Professions.

ADMISSION AND RETENTION

All candidates for the Bachelor of Social Work must obtain official admission to the Bachelor of Social Work program. Details of application are found on the Bachelor of Social Work website. Students who make formal application must meet the following criteria:

1. Complete a minimum of 45 semester hours.
2. Achieve and maintain a minimum GPA of 2.75 overall and a 2.75 in major.
3. Complete with a grade of "C" or better all social work required courses.
4. Make formal application to the program.
5. Must meet the criteria listed on the website and be approved by the Program Admissions Committee.
Since this is a competitive admissions process, meeting minimum eligibility criteria does not guarantee admission to the program.

Bachelor of Social Work

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

College of Sciences & Mathematics

Dr. John Pratte, Dean

MISSION

The College of Sciences and Mathematics prepares students to assume their places as knowledgeable, ethical, and problem-solving leaders by providing foundational and advanced studies in the natural sciences, mathematics, computer science, and statistics. A partnership among students, staff, and the faculty anchors the mission of the College of Sciences and Mathematics to expand and disseminate knowledge. The research, scholarship, creative endeavors, and professional activities of this College are intrinsically valuable, fundamental to teaching and learning throughout the University, and beneficial to the Mississippi River Delta and beyond.

The College of Sciences and Mathematics provides to all Arkansas State University students the foundation on which all higher education stands: the mathematics and the sciences. Accordingly, the College acknowledges its responsibility and is actively committed to:

- freedom of thought, inquiry and expression;
- supporting and rewarding the research, scholarship, creative endeavors, and professional activities of our faculty, staff, and students;
- supporting and rewarding effective teaching and bettering ourselves as teachers;
- recruiting, training, and retaining a highly-skilled and professional staff;
- providing the finest possible research and teaching facilities, beginning with the library, and including computer, classroom, and laboratory technology.

Moreover, the College of Sciences and Mathematics recognizes its responsibility to carry out these commitments in an environment that:

- promotes education of students to their fullest potential for their varied roles as members of local, national, and international communities;
- promotes a spirit of community among campus, regional, national, and international constituencies;
- promotes diversity; ensures opportunities; and values honesty, respect, trust, and civility among students, staff, and the faculty.

PROGRAMS OF STUDY

The College of Sciences and Mathematics provides Arkansas State University students with general education courses which provide the foundation for all majors and professional degrees. These include traditional studies in the mathematics and the natural and physical sciences upon which the structure of higher education is built.

The College of Sciences and Mathematics offers a wide-range of undergraduate degree programs, including the Bachelor of Arts in Chemistry and in Computer Science; the Bachelor of Science in Biology, in Wildlife Ecology and Management, in Chemistry, in Physics, in Computer Science, and in Mathematics; and the Bachelor of Science in Education in General Science (Biology, Chemistry, or Physics) and in Mathematics. The College also offers a variety of pre-professional programs tailored to advanced study. Most degree programs offer minors as well.

The College of Sciences and Mathematics grants a full-range of master's degree (M.A., M.S., M.P.A., and M.S.E.) programs, several Educational Specialist degree (Ed.S.) programs, and two interdisciplinary doctoral degree (Ph.D.) programs in Environmental Sciences and Molecular Biosciences. For further information, see ASU's Graduate Bulletin.

The college is comprised of four departments:

- Department of Biological Sciences
- Department of Chemistry and Physics
- Department of Computer Science
- Department of Mathematics and Statistics

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

GRADUATION REQUIREMENT - BACHELOR OF SCIENCE IN EDUCATION

In addition to meeting the University Requirements for all Baccalaureate Degrees as presented by the University, and the Teacher Education Program Requirements as presented by the College of Education, all candidates for a Bachelor of Science in Education degree in the College of Sciences and Mathematics must also have a minimum grade point average of 2.50 on all work attempted overall, on work in the major field, and, if a transfer student, on all work taken at this institution.

FOREIGN LANGUAGE REQUIREMENT

BACHELOR OF ARTS

All candidates for the Bachelor of Arts degree in the College of Sciences and Mathematics must demonstrate proficiency in a foreign language. This may be done in either of the following ways:

1. By completing the second semester of the intermediate year of foreign language at the college level. Students with no foreign language experience must enroll in the first semester of the freshman year and complete 12 hours of a single language. Students with some proficiency may enroll in the more advanced courses without having received credit for previous courses with the approval of the instructor and the department chair. Students who have completed two years of a single foreign language in high school should enroll in Intermediate Language I. Students who have completed one year of a foreign language in high school should enroll in Elementary Language II. Students with questions about their readiness for these courses should consult a member of the language faculty. (No credit will be awarded for courses waived.)
2. By passing an examination acceptable to the foreign language faculty as proof of proficiency equivalent to completion of the second semester of the intermediate year of a foreign language at the college level.

BACHELOR OF SCIENCE

All students who seek the degree of Bachelor of Science in the College of Sciences and Mathematics must demonstrate proficiency in a foreign language. This may be done in one of the following ways:

1. By completing two years of a single foreign language in high school.
2. By completing the second semester of an elementary foreign language course at the college level. Students with no foreign language experience must enroll in the first semester of the freshman year and complete six hours of a single language. Students who have completed one year of a foreign language in high school should enroll in Elementary Language II (3 hours).
3. By passing an examination acceptable to the foreign language faculty as proof of proficiency equivalent to successful completion of the second semester of the elementary year of a foreign language at the college level.

Department of Biological Sciences

Professor Thomas Risch, Chair

Professors: *Cramer, Farris, A. Grippo, R. Grippo, Johnson, Srivatsan, Trauth*

Associate Professors: *Bennett, Bouldin, Gilmore, Huss, McKay, Medina-Boliver,*

Assistant Professors: *Marsico, Rolland, Sikkel, Zhou*

Instructors: *Huggins, Klotz*

The Department of Biological Sciences serves students desiring to gain a broad background in biology, botany, environmental biology, zoology, or wildlife ecology and management. This preparation qualifies students for professional work in health professions, teaching, research, industry, or for graduate study.

The Bachelor of Science in Education degree or Bachelor of Science degree is awarded to students successfully completing one of the programs described below. These programs are planned for students preparing for careers requiring a broad spectrum in biology or a more specialized area within the biological sciences.

For lecture courses having an associated laboratory course, both lecture and laboratory courses must be passed before credit for graduation is assigned.

Major in Biological Sciences

Bachelor of Science Emphasis in Biology

Bachelor of Science Emphasis in Zoology

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
BIO 1013, Making Connections - Biology	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	35-36
Students with this major must take the following: MATH 1023, College Algebra OR MATH 1054, Precalculus Mathematics or higher level math CHEM 1013 AND 1011, General Chemistry I and Laboratory BIO 2013 AND 2011, Biology of the Cell and Laboratory COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)	
Language Requirement:	Sem. Hrs.
A student must complete the foreign language requirements before being considered a Biological Sciences Major. (Refer to p. 349 for foreign language requirements).	
Major Requirements:	Sem. Hrs.
BIO 1303 AND 1301, Biology of Animals and Laboratory	4
BIO 1503 AND 1501, Biology of Plants and Laboratory	4
BIO 3013 AND 3011, Genetics and Laboratory	4
BIO 3023, Principles of Ecology	3
BIO 4021, Biological Seminar	1
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 3103 AND 3101, Organic Chemistry I and Laboratory	4
CHEM 3113 AND 3111, Organic Chemistry II and Laboratory	4
MATH 2194, Survey of Calculus	4
PHYS 2054, General Physics I	4
PHYS 2064, General Physics II	4
Sub-total	40
Emphasis Area (Zoology):	Sem. Hrs.
BIO 3302 AND 3312, Comparative Anatomy and Laboratory	4
BIO 3303 AND 3301, General Entomology and Laboratory OR BIO 3322 AND 3332, Invertebrate Zoology and Laboratory	4
BIO 3323 AND 3321, Animal Physiology and Laboratory	4
BIO 4332 AND 4342, Animal Histology and Laboratory	4
BIO 4343 AND 4341, Animal Embryology and Laboratory	4
STAT 3233, Applied Statistics I OR CHEM 4243, Biochemistry	3
Botany elective (consult advisor for appropriate course numbers)	3
Zoology electives (consult advisor for appropriate course numbers)	6
Sub-total	32
Electives:	Sem. Hrs.
Electives (six hours must be upper-level)	9-10
Total Required Hours:	120

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Major in General Science

Bachelor of Science in Education Emphasis in Biology

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
BIO 1013, Making Connections - Biology	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	36
Students with this major must take the following: MATH 2194, Survey of Calculus CHEM 1013 AND 1011, General Chemistry I and Laboratory BIO 2013 AND 2011, Biology of the Cell and Laboratory POSC 2103, Introduction to United States Government PSY 2013, Introduction to Psychology COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)	
Major Requirements:	Sem. Hrs.
BIO 1303 AND 1301, Biology of Animals and Laboratory	4
BIO 1503 AND 1501, Biology of Plants and Laboratory	4
BIO 3013 AND 3011, Genetics and Laboratory	4
BIO 3023, Principles of Ecology	3
BIO 3033, Evolution	3
BIO 4104, Microbiology	4
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 3103, Organic Chemistry I	3
PHYS 2054, General Physics I	4
PHYS 2064, General Physics II	4
Earth Science Electives (select three of the following): GEOG 3723, Introduction to Physical Geography OR GEOG 4633, Climatology GEOL 1003, Environmental Geology PHYS 1103, Introduction to Space Science OR PHYS 3133, Astronomy PHYS 3043, Atmospheric Dynamics	9
Sub-total	46
Professional Education Requirements:	Sem. Hrs.
Grade of "C" or better required for all Professional Education Requirements. Courses denoted below with an asterisk (*) require admission to the Teacher Education Program. For additional information, see Professional Education Requirements for Secondary Majors in the College of Education section.	
*EDSC 4593, Methods and Materials for Teaching Science in the Secondary School	3
ELSE 3643, The Exceptional Student in the Regular Classroom	3
PSY 3703, Educational Psychology	3
SCED 2513, Introduction to Secondary Teaching	3
*SCED 3515, Performance Based Inst. Design	5
*SCED 4713, Educational Measurement with Computer Applications	3
*TIBI 4826, Teaching Internship in the Secondary School	12
Sub-total	32
Additional General Requirements for Teacher Education:	Sem. Hrs.
HLTH 2513, Principles of Personal Health	3
Total Required Hours:	120

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Major in Biotechnology

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
BIO 1013, Making Connections - Biology	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	36
Students with this major must take the following:	
<i>MATH 2194, Survey of Calculus</i>	
<i>CHEM 1013 AND CHEM 1011, General Chemistry I and Laboratory</i>	
<i>BIO 2013 AND 2011, Biology of the Cell and Laboratory</i>	
<i>COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)</i>	
Major Requirements:	Sem. Hrs.
BIO 2042, Biotechnology in a Global Society	2
BIO 3013 AND BIO 3011, Genetics and Laboratory	4
BIO 4033, Bioinformatics and Applications	3
BIO 403V, Special Problems in Biology	3
BIO 4053, Applications in Biotechnology	3
BIO 4063, Biosafety and Ethics in Research	3
BIO 4104, Microbiology	4
BIO 4133 AND BIO 4131, Cell Biology and Laboratory	4
BIO 4152, Laboratory in BioTechniques I	2
BIO 4154, Laboratory in BioTechniques II	4
BIO 4164, Molecular Biology	4
CHEM 1023 AND CHEM 1021, General Chemistry II and Laboratory	4
CHEM 3103 AND CHEM 3101, Organic Chemistry I and Laboratory	4
CHEM 3113 AND CHEM 3111, Organic Chemistry II and Laboratory	4
CHEM 4243, Biochemistry	3
MATH 3233, Applied Statistics I	3
PHYS 2054, General Physics I	4
PHYS 2064, General Physics II	4
Biological Science electives	6
Sub-total	68
Additional Support Courses:	Sem. Hrs.
BIO 1303 AND 1301, Biology of Animals and Laboratory OR BIO 1503 AND 1501, Biology of Plants and Laboratory	4
MGMT 3123, Principles of Management OR MGMT 3183, Entrepreneurship	3
BIO 4103, Virology OR BIO 4113, Immunology	3
AGRI 4523, Applied Modern Biotechnology OR BIO 5123, Human Genetics	3
Sub-total	13
Total Required Hours:	120

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Major in Wildlife Ecology and Management

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
BIO 1013, Making Connections - Biology	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	36
Students with this major must take the following:	
<i>MATH 1054, Precalculus Mathematics or higher level math</i>	
<i>CHEM 1013 AND 1011, General Chemistry I and Laboratory</i>	
<i>BIO 2013 AND 2011, Biology of the Cell and Laboratory</i>	
<i>COMS 1203, Oral Communication (Required Departmental Gen. Ed. Option)</i>	
Language Requirement:	Sem. Hrs.
<i>A student must complete the foreign language requirements before being considered a Wildlife Ecology and Management Major. (Refer to p. 349 for foreign language requirements).</i>	
Major Requirements:	Sem. Hrs.
AGRI 3543, Fundamentals of GIS/GPS	3
BIO 1303 AND 1301, Biology of Animals and Laboratory	4
BIO 1503 AND 1501, Biology of Plants and Laboratory	4
BIO 3013 AND 3311, Genetics and Laboratory	4
BIO 3023, Principles of Ecology	3
BIO 4704, Plant Systematics	4
BIO 4021, Biological Seminar	1
Select one of the following combinations: BIO 4311 AND 4312, Fishery Biology and Laboratory BIO 4402 AND 4401, Ichthyology and Laboratory BIO 4603 AND 4601, Limnology and Laboratory	3-4
Select two of the following combinations: BIO 4352 AND 4351, Mammalogy and Laboratory BIO 4423 AND 4421, Ornithology and Laboratory BIO 4412 AND 4411, Herpetology and Laboratory	6-7
BIO 4373 AND 4371, Animal Ecology and Laboratory	4
BIO 4413, Wildlife Program Internship	3
BIO 4653 AND 4651, Wildlife Management and Laboratory	4
BIO 4613, Conservation Biology	3
BIO 4663 AND 4661, Wildlife Management Techniques and Laboratory	4
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
ENG 3043, Technical Writing <i>Or communication course to be approved by advisor or chair.</i>	3
MATH 2194, Survey of Calculus	4
POSC 4533, Environmental Law and Administration	3
STAT 3233, Applied Statistics I	3
Botany Elective	3

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Major in Wildlife Ecology and Management

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

Physical Sciences Elective <i>GEOL 1003 AND 1001, Environmental Geology and Laboratory OR PSSC 2813 AND 2811, Soils and Soils Laboratory recommended.</i>	4
Zoology Electives	5-7
Sub-total	81
Total Required Hours:	120

Department of Biological Sciences Minors

Minor in Biology

Required Courses: BIOL 1003 AND 1001, Biological Science and Laboratory may be substituted for one (1) of the core combinations, but this is NOT recommended; Biological Science does NOT serve as a prerequisite for any upper-level electives, so choosing this course as one of the core courses may limit the choices of electives that students may choose.	Sem. Hrs.
Select two of the following core combinations: BIO 1303 AND 1301, Biology of Animals and Laboratory BIO 1503 AND 1501, Biology of Plants and Laboratory BIO 2013 AND 2011, Biology of the Cell and Laboratory	8
Upper-level Biology Electives with laboratory	11
Total Required Hours:	19

Minor in Marine Science

Required Courses: Other applicable courses may be added in the future to select from as appropriate.	Sem. Hrs.
BIO 4333, Marine Biology	3
BIO 4433, Field Experiences in Marine Systems OR BIO 4353, Field Techniques: Marine Vertebrates	3
PHYS 3043, Atmospheric Dynamics	3
BIO 4413, Wildlife Internship	3
Electives (select six hours from the following): <i>Other courses may be substituted with departmental approval.</i> BIO 4323, Marine Mammals BIO 4322, Marine Mammals Laboratory BIO 4402, Ichthyology BIO 4401, Ichthyology Laboratory BIO 3322, Invertebrate Zoology BIO 3332, Invertebrate Zoology Laboratory	6
Total Required Hours:	18

Department of Chemistry and Physics

Associate Professor William Burns, Chair

Professors: Allen, Draganjac, Reeve, Pratte, Sustich

Associate Professors: Johnson, Kennon, Lorence, Ontko, Panigot, Bin Zhang

Assistant Professors: Ali, Biswas, Carroll, Guo, Herschberger, Izadyar, Koizumi, L. Zhang

Instructors: K. Burns, Rougeau

The courses in chemistry and physics are designed to prepare individuals for a variety of post-baccalaureate options. The Bachelor of Science degree is for individuals who are seeking employment as chemical or physical professionals, or who wish to continue studies toward a Masters or Ph.D. Students who are looking to pursue a further degree in law, medicine, dentistry, or pharmaceuticals will find either the B.S. degrees in chemistry or physics or the Bachelor of Arts in Chemistry as an option for entry into the appropriate post-baccalaureate program. The Bachelor of Science Education degrees will lead to a rewarding career in secondary science education. In many of these programs, there are sufficient elective hours to allow students to customize their degrees for careers as diverse as technical librarians, salesmen, writers, or translators.

Arkansas State University is on the approved list of the Committee on Professional Training (CPT) of the American Chemical Society. For certification of the completion of CPT standards for the B.S. degree in chemistry, students are recommended to take calculus-based physics.

The geology courses offered by the Department serve as enrichment courses that complement the other course offerings and prepare students for future studies in earth sciences.

RECOMMENDED PROGRAM FOR PRE-MEDICAL AND PRE-DENTAL STUDENTS

Students who wish to pursue a Doctor of Medicine or Doctor of Dentistry degree after finishing their baccalaureate studies are recommended to follow the program requirements for a Bachelor of Science in either chemistry or physics (see Pre-Professional Studies Emphasis Area in the listed degree requirements). Those who are seeking a Doctor of Pharmacy degree are recommended to pursue a Bachelor of Arts in Chemistry degree.

Major in Chemistry

Bachelor of Science

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
PHSC 1003, Making Connections - Chemistry and Physics	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	36
Students with this major must take the following:	
<i>MATH 2204, Calculus I</i>	
<i>CHEM 1013 AND 1011, General Chemistry I and Laboratory</i>	
<i>BIO 2013 AND 2011, Biology of the Cell and Laboratory</i>	
<i>Twelve hours of Social Sciences (Required Departmental Gen. Ed. Option)</i>	
Language Requirement:	Sem. Hrs.
<i>(Refer to p. 349 for foreign language requirements).</i>	
Major Requirements:	Sem. Hrs.
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 2002, Computers in Chemistry	2
CHEM 2004, Descriptive Inorganic Chemistry	4
CHEM 3054, Quantitative Analysis	4
CHEM 3103 AND 3101, Organic Chemistry I and Laboratory	4
CHEM 3113 AND 3111, Organic Chemistry II and Laboratory	4
CHEM 3124, Physical Chemistry	4
CHEM 3134, Physical Chemistry II	4
CHEM 4204, Inorganic Chemistry	4
CHEM 4224, Instrumentation	4
CHEM 4243, Biochemistry	3
CHEM 427V, Research in Chemistry	3
CHEM 4281, Chemistry Seminar	1
MATH 2214, Calculus II	4
MATH 3254, Calculus III	4
PHYS 2034, University Physics I	4
PHYS 2044, University Physics II	4
Sub-total	61
Electives:	Sem. Hrs.
Electives	20
Total Required Hours:	120

Major in Chemistry

Bachelor of Science Emphasis in Pre-Health Profession Studies

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:	
See University General Requirements for Baccalaureate degrees (p. 40)	
First Year Making Connections Course:	Sem. Hrs.
PHSC 1003, Making Connections - Chemistry and Physics	3
General Education Requirements:	Sem. Hrs.
See General Education Curriculum for Baccalaureate Degrees (p. 82)	36
Students with this major must take the following: MATH 2204, Calculus I CHEM 1013 AND 1011, General Chemistry I and Laboratory BIO 2013 AND 2011, Biology of the Cell and Laboratory Twelve hours of Social Sciences (Required Departmental Gen. Ed. Option)	
Language Requirement:	Sem. Hrs.
(Refer to p. 349 for foreign language requirements).	
Major Requirements:	Sem. Hrs.
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 2002, Computers in Chemistry	2
CHEM 2004, Descriptive Inorganic Chemistry	4
CHEM 3054, Quantitative Analysis	4
CHEM 3103 AND 3101, Organic Chemistry I and Laboratory	4
CHEM 3113 AND 3111, Organic Chemistry II and Laboratory	4
CHEM 3124, Physical Chemistry	4
CHEM 3134, Physical Chemistry II	4
CHEM 4204, Inorganic Chemistry	4
CHEM 4224, Instrumentation	4
CHEM 4243, Biochemistry	3
CHEM 427V, Research in Chemistry	3
CHEM 4281, Chemistry Seminar	1
MATH 2214, Calculus II	4
MATH 3254, Calculus III	4
PHYS 2034, University Physics I	4
PHYS 2044, University Physics II	4
Sub-total	61
Emphasis Area (Pre-Health Profession Studies):	Sem. Hrs.
Six hours of the electives below must be upper-level.	
BIO 1303 AND 1301, Biology of Animals and Laboratory	4
Biology Electives	8
Sub-total	12
Electives:	Sem. Hrs.
Electives	8
Total Required Hours:	120

Minor in Chemistry

Required Courses:	Sem. Hrs.
CHEM 1013 AND 1011, General Chemistry I and Laboratory	4
CHEM 1023 AND 1021, General Chemistry II and Laboratory	4
CHEM 3103 AND 3101, Organic Chemistry I and Laboratory	4
CHEM 3113 AND 3111, Organic Chemistry II and Laboratory	4
Select two of the following: CHEM 3054, Quantitative Analysis CHEM 3154, Survey of Physical Chemistry CHEM 4243 AND 4241, Biochemistry and Laboratory	8
Total Required Hours:	24

Minor in Physics

Required Courses:	Sem. Hrs.
PHYS 2034, University Physics I	4
PHYS 2044, University Physics II	4
PHYS 3303, Modern Physics	3
Upper-level Physics Electives <i>PHYS 3133 cannot count toward this requirement.</i>	7
Total Required Hours:	18

Department of Computer Science

Associate Professor Debra Ingram, Chair

Associate Professors: Hammerand, Huang, Jenness, Jiang, Su

Instructors: Causey, Scrivner, Qualls

The course offerings in the department are designed to provide students with the broad background necessary for employment in industry, government, education, or as a basis for graduate study.

Major in Computer Science

Bachelor of Arts

A complete 8-semester degree plan is available at <http://registrar.astate.edu/>.

University Requirements:

Department of Military Science and Leadership

The faculty of the Department of Military Science at Arkansas State consists of: A Professor of Military Science (usually a Lieutenant Colonel); Three Assistant Professors (usually a Major and two Captains); and Two Instructors (usually a Master Sergeant and a Sergeant First Class). Their tours with the department last from two to three years.

GENERAL INFORMATION

The Army Reserve Officers' Training Corps (ROTC), is a series of elective college courses, which can lead to a commission as a second lieutenant in either the United States Army, United States Army Reserve or the U.S. Army National Guard. Participation in ROTC provides instruction in leadership and management and helps students develop self-discipline, physical stamina, and confidence. The ROTC program augments the University's objectives by emphasizing academic excellence and the development of personal integrity, honor, and responsibility. Upon commissioning, graduates will serve in the active Army, The United States Army Reserve, or the Army National Guard. Selection for active duty is based on the needs of the service, the individual's preference, and the individual's performance record. Almost any branch is available for those commissioned in the reserve forces (barring physical limitations).

ROTC PROGRAM

We have three paths for completion of our program which lead to a commission in the U.S. Army:

1. The first path is completion of both Military Science and Leadership (MSL) I and MSL II level courses (The Basic Course), followed by completion of the Advanced Program.
2. The second path is completion of any U.S. Armed Forces Basic Training, followed by completion of the Advanced Program.
3. The third path is completion of ROTC Leaders Training Course, followed by completion of the Advanced Program.

THE BASIC COURSE

Further defined: Physically able students, male or female, may enroll in the Basic Course without incurring a military obligation. The ROTC Basic Course consists of four courses designed to be taken one each semester during the freshman and sophomore years. No more than two courses may be taken simultaneously without the approval of the Professor of Military Science (PMS). All textbooks are provided at no charge.

U.S. ARMED FORCES BASIC TRAINING

Credit for completion of the basic course is granted for anyone who successfully completes Basic Training in the Army, Air Force, Marine Corps, or the Navy, whether it was active component, guard, or reserve. If Advanced Individual Training is also completed, six hours of elective credit may be available from the university.

LEADERS TRAINING COURSE

The university will grant up to six hours of elective credit for successful completion of the ROTC Leaders Training Course. The course consists of practical experience and instruction in tactical and technical military subjects with emphasis on leadership development. The course is four weeks in length and is conducted at Fort Knox, Kentucky. Students are paid for attendance (about \$600), and provided travel to and from campus. Housing, uniforms, and meals are provided at no expense. Students attending the Leaders Training Course do incur a military service obligation.

THE ADVANCED COURSE

The ROTC Advanced Course consists of four courses designed to be taken one each semester during the junior and senior years (or graduate school). Students must attend the Leader Development and Assessment Course (LDAC) between their MSL III and MSL IV year. Upon entry into the Advanced Course, a student must sign a contract recognizing a service obligation. The obligation may be served in either the reserve components (Reserve Component duty can be guaranteed) or the Active Army

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

(depending on the needs of the Army). Cadets in the Advanced Course receive textbooks, uniforms, and a nontaxable subsistence allowance (10 months per year), as well as pay for attending the LDAC. Prerequisites for admission to the Advanced Course are:

1. Completion of the Basic Course, the Leaders Training Course, or U.S. Armed Forces Basic Training.
2. Physical qualification as determined by medical examination.
3. Selection by Professor of Military Science.
4. Under 32 years of age by the time of graduation (may be waived in certain cases).
5. Pass a screening evaluation.
6. At least two academic years remaining before graduation or be enrolled in graduate school.
7. A grade point average of 2.00 or better for all college work and completion of at least sixty semester hours of college work towards a baccalaureate degree. Applicants will normally be required to have achieved "junior" academic status.

In addition to the Military Science and Leadership courses, advanced course students must complete professional military education courses in the fields of Written Communication, Computer Literacy, Mathematic Reasoning, Human Behavior, and Military History. The Communication, Human Behavior, and Mathematic Reasoning requirements are normally met by the General Education Courses offered by the university. The Military History requirement must be met by completing one of several history classes offered. (Specific course requirements will be prescribed by the PMS, based on a review of the student's enrollment into the advanced course.) Field Training Exercises will be conducted to provide practical experience as required to supplement classroom training.

FINANCIAL ASSISTANCE

1. ROTC Scholarships:

In addition to four-year Army ROTC scholarships which are awarded to high school seniors, two- and three-year Army ROTC scholarships are available to college freshmen and sophomores on a competitive basis. Applicants are judged on their potential and aptitude for military service and are evaluated by an academic board chaired by the Professor of Military Science (PMS). ROTC scholarships cover the cost of university tuition, textbook, laboratory fees, and a subsistence allowance for each school month depending on the number of hours completed by the student. High School students applying for four-year scholarships must have their packets completed by 10 January of their senior year. Three-year and two-year scholarship applications must be completed by the spring semester, prior to the first school year of the scholarship.

2. Subsistence Allowance:

A monthly monetary allowance of \$450-\$500 for each school month is paid to students enrolled in the Advanced Course. During the ROTC LDAC, the student is paid approximately \$700 for the 30 day camp period and provided travel to and from camp. Housing, uniforms, and meals are furnished at no expense to the cadet. The course is conducted at Fort Lewis, Washington.

3. Simultaneous Membership Program (SMP):

Individuals may enroll in the Military Science and Leadership Advanced Course while retaining membership in the Army National Guard or Army Reserve. Those wishing to serve in the Army National Guard or Army Reserve during enrollment in the Military Science and Leadership Advanced Course may do so except in certain cases. In addition to receiving cadet monthly subsistence, these individuals also receive pay (E5 or higher, from previously held grade) from their Army National Guard or Army Reserve unit and qualify for the Montgomery GI Bill and Federal Tuition Assistance benefits.

LEADERSHIP DEVELOPMENT

Military Science students are required to participate in a Leadership Laboratory in addition to classroom requirements. Training consists of military drill and ceremonies, field exercises, simulated leadership problems, and familiarization with Army weapons and equipment.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

Minor in Military Science and Leadership

A minor in Military Science and Leadership can be granted only to those students who qualify for enrollment in the Advanced Course and subsequent commissioning as an officer in the U.S. Army.

Required Courses:	Sem. Hrs.
The Advanced Course and Military History Course are the only requirements for students that have been credited for the Basic Course by attendance at the Leaders Training Course or Basic Training, thus requiring only a total of 15 hours.	
Basic Course: MSL 1011, Foundations of Officership MSL 1021, Basic Leadership MSL 2032, Individual Leadership Studies MSL 2042, Leadership and Teamwork	6
Advanced Course: MSL 3053, Leadership and Problem Solving MSL 3063, Leadership and Ethics MSL 4073, Leadership and Management MSL 4083, Officership	12
Military History Course	2-3
Total Required Hours:	20-21

Center for Education and Community Outreach

Dr. Beverly Boals Gilbert, Dean and Director of Compressed Video Network

MISSION STATEMENT

The Center for Education and Community Outreach mission is to extend the resources of Arkansas State University Jonesboro to meet educational needs and to provide public service for the citizens of Arkansas. The Center for Education and Community Outreach works closely with the colleges of the university, businesses, and communities in Arkansas to ensure that the resources and programs of Arkansas State University Jonesboro are responsive to the needs of the region and the state. To accomplish this mission, the Center for Education and Community Outreach provides off-campus credit programs and courses, independent study credit courses, and services to industry, public schools, and Arkansas two-year colleges.

COMPRESSED VIDEO NETWORK

Arkansas State University offers classes through compressed video interactive television. Compressed video allows for two-way, synchronous interaction between multiple sites including ASU-Beebe, ASU Mountain Home, Mid-South Community College in West Memphis, Arkansas Northeastern College in Blytheville, and East Arkansas Community College in Forrest City. These sites participate in day, night, and weekend classes offered by several departments at Arkansas State University-Jonesboro.

COMMUNITY EDUCATION

The Community Education program provides non-credit continuing education and public service opportunities responsive to the interests and needs of community citizens. A variety of nontraditional classes are available for professional development, personal enrichment, summer fun, hobby and leisure. Community members are encouraged to contact the Center for Education and Community Outreach to request or to inquire about new courses that may be in development. In addition to designing courses, the Center is authorized to issue continuing professional education (CPE) and continuing education unit (CEU) credit for approved professional development training programs.

HIGH SCHOOL CONCURRENT PROGRAM

The Center for Education and Community Outreach oversees the administration of Arkansas State University-Jonesboro's High School Concurrent Program. Academic oversight of the program's concurrent courses is provided by the sponsoring Arkansas State University-Jonesboro academic departments. This program offers high school students who are enrolled in participating high schools the opportunity to earn college credit for courses taken at the high school, taught by university approved high school teachers. Course offerings vary at the participating high schools, dependent upon instructor qualifications and availability, as well as each high school's needs. High school students must meet Arkansas State University's qualifications for concurrent admission before participating in the concurrent enrollment program. The Concurrent Program is nationally accredited through the National Alliance of Concurrent Enrollment Partnerships.

INDEPENDENT STUDY THROUGH CORRESPONDENCE

The center provides many Independent-Study-Through-Correspondence courses. These courses have been specifically designed to allow students to complete the courses without coming to the campus. See the "University General Requirements for all Baccalaureate Degrees" in this bulletin to determine how many credit hours of correspondence will apply to any specific degree.

ARKANSAS STATE UNIVERSITY DEGREE CENTERS

Arkansas State University has partnerships with five community colleges to provide various degrees on those college sites. The Center for Education and Community Outreach is the administering unit for those degree centers. Any questions concerning the following sites may be directed to (870) 972-3052.

Arkansas Northeastern College

Formerly Mississippi County Community College

Degrees offered are:

B.A. Criminology
B.A.S. (Applied Sciences)
B.S. Business Administration
B.S. Manufacturing-Industrial Technology
B.S.E. Early Childhood Education (P-4)
B.S.E. Middle Level Education
M.S.E. Curriculum and Instruction
M.S.E. Educational Leadership
M.S.E. Elementary Administration

Arkansas State University-Beebe

Degrees offered are:

A.A.S.N. Nursing (LPN/RN Trans.)
B.A. Criminology
B.A.S. (Applied Sciences)
B.S. Accounting
B.S. Business Administration
B.S. Business Management
B.S. Manufacturing-Industrial Technology
B.S.A. Agriculture Business
B.S.E. Early Childhood Education (P-4)
B.S.E. Mid-Level Education (4-8)
M.B.A. Business
M.S.E. Curriculum and Instruction
M.S.E. Educational Leadership

East Arkansas Community College

Degrees offered are:

B.A. Criminology
B.S. Business Administration
B.S.E. Early Childhood Education (P-4)
B.S.E. Middle Level Education
M.S.E. Curriculum and Instruction
M.S.E. Educational Leadership

OFF-CAMPUS CREDIT COURSES

Credit courses are offered on an intermittent basis in many communities throughout Arkansas. Course selection is determined by the needs of a community. A limited number of off-campus credit hours may be applied to any given degree. See pages describing degree for specific information.

Freshmen and Sophomore general education courses are offered at the ASU system campuses in Paragould and Marked Tree. Students must apply to ASU-Jonesboro to attend these classes.

Arkansas State University - Mtn. Home

Degrees offered are:

A.A.S.N. Nursing (LPN/RN Transition)
A.A.S.N. Nursing
B.A. Criminology
B.S. Accounting
B.S. Business Management
B.S.E. Early Childhood Education (P-4)
B.S.E. Mid-Level Education (4-8)
M.B.A. Business
M.S.E. Curriculum and Instruction
M.S.E. Educational Leadership
Ed.S. Educational Leadership

Mid-South Community College

Degrees offered are:

A.A.S.N. Nursing
B.S. Business Administration
B.S.E. Early Childhood Education (P-4)
B.S.E. Middle Level Education
B.S.N. Nursing (RN/BSN Trans.)
M.B.A. Business
M.S.E. Curriculum and Instruction
M.S.E. Educational Leadership

The International Center for English

ENGLISH AS A SECOND LANGUAGE PROGRAM

The International Center for English (TICE) at Arkansas State University-Jonesboro has a dynamic and progressive English as a Second Language (ESL) program that actively serves students in obtaining English proficiency for undergraduate and graduate study.

The ESL program is comprehensive in design and structure, implementing a multi-pronged approach focusing on communicative language instruction. Classroom instruction along with structured, practical activities promote and reinforce students' fluency. Instruction is implemented through methods similar to those experienced in the university classroom.

The program consists of five levels plus a Foundations of English level for students with little or no background in English. Courses in the four skills of reading, writing, listening, and speaking, along with specialized instruction with grammar and pronunciation, are conducted through content-based modules utilizing texts, activities, and student-centered instruction. The program interweaves reading, writing, listening, speaking, and related skills to further emulate real-life language usage, as well as experiences students will have while matriculating in the university. Students enrolled in the program can expect to be engaged in learning that facilitates language acquisition and provides a solid foundation in skills necessary for successful study at the university level. These skills include note taking, critical thinking and analysis, preparing and delivering oral presentations, working in groups, and academic writing.

ESL MISSION STATEMENT

The International Center for English provides quality instruction in English as a second language to prepare students for academic study at ASU or other institutions of higher education in the United States. The program seeks to develop students' linguistic competency, cultural awareness, and critical thinking skills to enable them to succeed academically and to have a positive intercultural experience.

ADDITIONAL PROGRAM INFORMATION

The ESL program of TICE offers credit-bearing college preparatory language courses to international students who wish to pursue undergraduate or graduate studies at ASU but do not meet the English language proficiency requirement for admission. Students who matriculate through the program and successfully complete Level 5 are eligible to enter undergraduate or graduate studies with no further need for language proficiency examination, such as the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Students must complete all course work with a grade of B or high for all ESL courses from Foundations of English through Level 4. In the final course, Level 5 students must maintain a B average to progress to undergraduate studies. All students who are candidates for graduate studies must maintain an A average in Level 5. Credit for all ESL courses will be awarded upon graduating from the program through successful completion of coursework or completion of the program through TOEFL examination along with satisfactory progress up through the last level of ESL in which the student was enrolled. Additionally, students must enroll in an undergraduate or graduate program at ASU to receive this credit.

UNDERGRADUATE BRIDGE COURSE

The International Center for English is dedicated to serving the community of undergraduate international students matriculating at Arkansas State University. In particular, TICE is keenly aware of their need for support and assistance in the areas of academic and social adjustment due to cultural and language differences. To this end, TICE offers the Undergraduate Bridge Course, which assists students in making smooth transitions into the academic and social settings of the university. This course provides students with instruction on a variety of topics and issues such as understanding plagiarism and how to avoid it; working effectively in groups or pairs; preparing and delivering oral presentations; effective reading and writing skills and how to use resources for writing a research paper; how to interact with fellow classmates and instructors; and other skills of critical importance for university success. American conventions in these areas of academic work may be very different from those in students' home countries. The bridge course gives us the opportunity to help students to succeed in an environment of new academic standards and practices. All new and transferring undergraduate international students are required to take the Undergraduate Bridge Course during their first semester at ASU.

Detailed information and answers to questions about the English as a Second Language program and the Undergraduate Bridge Course can be obtained by e-mailing tice@astate.edu or by telephone at +1 870-972-3504.

Library and Information Resources

Jeffrey R. Bailey, Director of Library Information Resources

Library Faculty: *B. Banta, J. Corrin, L. Creibaum, W. Crist, L. Downing, J. Dunlap, S. Eskridge, T. Farmer, M. Flugstad, D. Hallett, S. Holloway, R. Payne, A. Sheppard, R. Robinette*

PURPOSE

The Dean B. Ellis Library is a teaching library. We are directly involved in advancing the teaching, research and service missions of the university. Years ago the library expanded from being a passive location for a collection of books and journals to providing library faculty who actively teach students to effectively use information resources. This includes accessing, selecting, evaluating, and using information tools in a variety of formats, including print, multimedia, and online. Library and Information Resources courses offer students the opportunity to develop information skills that will help them be successful in other academic courses, make informed decisions, and be productive members of society.

Course Descriptions

Courses included in the Arkansas Course Transfer System (ACTS) have their ACTS Course Index Numbers listed after the course description. For additional information, please see <http://www.astate.edu/a/registrar/students/transfer-work/>.

THE HONORS COLLEGE

HNRS 311V. Honors Special Topics* An interdisciplinary course that focuses on a specific area, has specialized content, or treats interdisciplinary topics. May be repeated for credit with different subtitle. Demand.

HNRS 400V. Honors Independent Study** A course of study initiated by the student and carried out under the supervision of a member of the faculty with appropriate expertise. Planning for Honors Independent Study should begin no later than eight weeks prior to the beginning of the semester in which the study will begin. An application for this course is available on the Honors website. Demand.

HNRS 411V. Honors Special Topics* An interdisciplinary course that focuses on a specific area, has specialized content, or treats interdisciplinary topics. May be repeated for credit with different subtitle. Demand.

HNRS 489V. Honors Senior Thesis*** A research or creative project in the major or minor undertaken by advanced students, working under the supervision of a member of the faculty with appropriate expertise, as the capstone to the college career, concludes with an oral defense. Planning for an Honors Senior Thesis should begin no later than eight weeks prior to the beginning of the semester in which the study will begin. Requires senior Honors standing. A maximum of six hours of Honors Senior Thesis credit or combination of Honors Independent Study may be applied toward graduation in University Honors.

*A sampling of 3000/4000 level Honors special topics courses that have been offered in the past semesters include the following:

Horror Fiction and Film	Politics and Culture of the 1920's
Mystery/Detective Fiction and Film	New Directions: 20th Century Music
Law and Dissent in America	Representing the Civil Rights Movement
Science Fiction in Literature and Film	Lower Mississippi Delta History and Culture
Creating Connections Between Science and The Public	The Blues and Literature
American Culture in the 1950's	Sustainable Development in Modern Society
American Culture in the 1940's	

Additional Honors special topics are available based upon Honors student recommendations and interests. Students, through the Honors College Association (HCA), develop course ideas and work with professors to develop courses of immediate interest. After Submission to the Director of The Honors College, they are then presented to the Honors Council for adoption, scheduling, and offering.

**An Independent Study requires Honors standing and written approval by the following: supervising professor for the course, advisor in the major, the Honors advisor in the major, the department chair, the College Honors Council Representative, and the Director of The Honors College. Once the signed independent study approval form and required documentation is submitted to The Honors College, the student will be enrolled in independent study hours. An independent study course may, with approval, be used for senior thesis preparation.

***The Thesis Topic Approval Process requires Honors standing and written approval by the following: supervising faculty member, the thesis committee, the major advisor, the Honors advisor in the major, the department chair, the College Honors Council Representative and the Dean of The Honors College. The Thesis Approval Process includes a proposal in which the student documents his/her thesis topic and process. After the proposal meeting is held and the committee has approved the project, the signed thesis approval form is submitted to The Honors College and the student can then be registered in thesis hours.

Additional information regarding The Honors College and its programs can be found on The Honors College Website at <http://honors.astate.edu>.

UNIVERSITY COLLEGE

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

Interdisciplinary Studies (IDS)

IDS 2013. Introduction to Interdisciplinary Studies Introduction to the concept of interdisciplinary study, exploration of research and career possibilities for IDS majors, and composition of individualized program of study. Fall.

IDS 2023. Introduction to Service Learning Introduction to principles of service learning and the Social Change Model of Leadership to promote personal learning, social growth, and civic responsibility. Students participate in a community-based project as determined by the instructor of record. Fall.

IDS 3013. Critical Thinking in the Profession Exploration of the role of critical thinking in a range of professional settings through reading, writing and communication using technology, professionally-prepared materials, and statistical charts. Basic overview of the research writing process is included. Prerequisites: ENG 1013 and BSIS computer proficiency. Fall, Spring, Summer.

IDS 3023. Advanced Service Learning Course integrates academic objectives with service experiences to foster student learning, personal and social growth, and civic responsibility. Students establish expectations and responsibilities to address a campus or community need in partnership with the community-based service project. Course theme determined by instructor at time of instruction. Prerequisites, IDS 2023. Spring.

IDS 4013. Seminar in Professional Development The capstone experience is designed to ensure BSIS students meet their individualized educational goals upon graduation. Students will develop and articulate employment skills for each area of study and enhance workplace skills including professional-level reading, writing and communications. Open to any student with senior-level standing (90 or more earned college credits). Fall, Spring, Summer.

IDS 4023. Leadership in the Profession Independent study of a specific problem in a professional setting relevant to one or more of a student's BSIS emphasis areas. Student will present a formal plan of action using solutions grounded in leadership theory. Prerequisites, ENG 1013, UC 3013 and BSIS computer proficiency. Fall, Spring, Summer.

University College (UC)

UC 0143. Writing Fundamentals Developmental writing course designed to prepare students for ENG 1003 whose ACT writing score is below 17. Focus is on grammar, sentence structure, paragraphs and essays. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.

UC 0153. Enhanced College Reading Non-credit course designed to provide students having an ACT Reading subtest score below 17 with reading instruction that is applicable to all types of reading including strategies specific to the content areas. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.

UC 0164. Academic Literacy Developmental course to prepare students for college level reading and writing, to be taken concurrently with ENG 1003. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.

UC 0173. Developmental Mathematics I Prepares students for college level mathematics courses using individualized computer-based curriculum. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.

UC 022V. Developmental Mathematics II Prepares students for college level mathematics courses using individualized computer-based curriculum. Continuation of UC 0173. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.

UC 1001. Restart Seminar Designed to provide students in academic distress a means to examine their transcript, study habits, and long term academic goals through necessary academic advising and effective decision making. Case studies, class discussion, and journal assignments provide an opportunity to apply new skills for consistent and longterm success. Enrollment limited to students on a first academic suspension or by referral from the Admissions and Credits Committee. Fall, Spring.

UC 1002. Introduction to Leadership Development Designed for students who participate in student organizations and who have an interest in developing their leadership skills. Students enrolled in the course will be exposed to increased opportunities for growth in self awareness, knowledge of structure and function of leadership roles and in skills related to leadership practices. Fall.

UC 1011. College Choices Seminar This seminar is designed to offer supplemental academic advising and to teach college success skills for first-year students on academic probation. Fall, Spring.

UC 1013. Making Connections Required course for all first semester freshmen. Course content is centered around the skills and knowledge needed to be a successful ASU student, including academic performance, problem solving, critical thinking, self management and group building skills, university policies and other relevant issues. Fall, Spring.

UC 1021. Advanced Reading Strategies. Follow up course to UC 0153 Enhanced College Reading for those students whose standardized test scores indicate need for additional instruction and practice. Fall, Spring, Summer.

UC 1032. FYS Success Strategies. A required sequential course to Making Connections for students admitted through First Year Studies that allows more in-depth coverage of topics related to college success. Prerequisite, UC 1013. Fall, Spring, Summer.

UC 1131. Career Planning 101 Course designed to assist students with the career decision process. Assessment of student interests, exploration of majors and careers and the job search process will be covered. Spring.

UC 1141. Academic Survival Academic Survival is a one hour course designed to provide students in academic distress the opportunity to take positive action toward reclaiming academic success. The course will include intensive academic advising, study skills instruction, and extensive personal motivation consultations. Spring.

UC 1151. Stress Management 101 This course is a one credit elective to introduce students to basic theoretical and practical concepts of stress management with a focus on personal application to help prevent or reduce cognitive, emotional, and physical symptoms resulting from distress. Spring.

UC 200V. Special Topics Individual study arranged in consultation with the instructor. Course may be used by any college but must be approved by the Dean of University College, department chair, and College Dean prior to enrollment. One - four credit hours; may be repeated but may not exceed four hours total. Demand.

UC 2013. Advanced Reading and Writing Addresses the needs of international transfer students with demonstrated deficiencies in reading and writing English.

UC 3011. Professional and Career Development for Juniors and Seniors This is an elective, one credit class for seniors and juniors in all disciplines. Weekly workshops will be presented by area employers and professionals to enhance students' professional development skills necessary to be successful in today's workplace. Demand.

- UC 3012. Seminar in Leadership Development** Designed for junior and senior level student leaders who have held or currently hold positions of significant responsibility or have successfully completed the Introduction to Leadership Development course. Students in the course will be exposed to issues and concepts relative to organizational development. Students will be expected to participate in campus leadership activities. Spring.
- UC 301V. Study Abroad** ASU students participating in approved exchange programs will register for this course. Students must apply in the Office of International Programs. Fall, Spring, Summer.
- UC 311V. Study Abroad, Unaffiliated Programs** Holding courses for students enrolled in study abroad programs not affiliated with ASU. Demand.
- UC 3331. McNair Research Seminar**
- UC 4003. Washington Center Civic Engagement and Leadership** Provides understanding of the attributes of civic engagement, professional achievement and leadership development. Participation in the Washington Center Internship program required. Demand.
- UC 401V. Washington Center Internship** Washington Center for Internships and Academic Seminars Program Internship. Demand.
- UC 480V. Special Problems in Leadership Development** Individual problems in Leadership Development arranged in conjunction with the instructor. Must be approved by dean. No prerequisites. Can be taken for 1, 2 or 3 hours of credit. Course offered each semester. Demand.

COLLEGE OF AGRICULTURE AND TECHNOLOGY

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

Agricultural Business and Economics (AGEC)

- AGEC 1003. Introduction to Agricultural Business** Structure and organization of agricultural business. Basic economic principles and their application to agriculture. Fall, Spring.
- AGEC 3003. Agricultural Marketing** Present and alternative systems of marketing farm products. The principles, functions, channels, and agencies involved are described. Emphasis is on measurement of demand, costs, and efficiencies. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Spring.
- AGEC 3013. Computerized Agriculture Records** Selection of appropriate systems for farm records and agribusiness applications, computerized business accounting, spreadsheets and decision aids, and word processing applications for reports and communication. Prerequisite, AGEC 1003 or instructor approval. Fall, Spring.
- AGEC 3023. Cooperatives** Organization, capitalization, and management of cooperative businesses. Operational practices and problems. Role of cooperative organizations in agricultural business. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Fall.
- AGEC 3043. Marketing Specialty Agricultural Products** Introduction to marketing high value crops, processed agricultural goods, and specialty items. Topics will include market analysis and testing, financing, pricing, and transportation. Prerequisite, AGEC 1003 or MKTG 3013. Summer.
- AGEC 3053. Commodity Futures Markets** Function of futures markets in price discovery, price risk transfer, and speculation. Marketing strategies for agricultural, financial, and other commodities using futures contracts and options on futures. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Fall.
- AGEC 3063. Agricultural Sales and Services** The history, image and economic importance of agricultural sales and consulting are emphasized, nature and functions of contemporary, professional sales and consulting, selling process, as applied to agricultural inputs, products and the food and fiber industry. Prerequisite, AGEC 1003 or ECON 2313. Spring.
- AGEC 4013. Farm Appraisal** Factors governing the price of land, methods of land valuation, appraisals for use, sale, loan, and taxation. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Spring.
- AGEC 4023. International Commodity Marketing** Development and coordination of activities related to marketing agricultural commodities in foreign markets. Emphasis given to identification and analysis of market size, location, mix, methods and changes in trading for commodities in international markets. Prerequisite, AGEC 3003, MKTG 3013, or consent of instructor. Fall.
- AGEC 4033. Agricultural Law** Farm laws pertaining to land purchases, legal descriptions, leases, mortgages, security agreements, fences, drainage, irrigation, pollution, and quarantines. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Spring.
- AGEC 4043. Land Economics** Physical characteristics as related to land use, the economics of land use. Principles of land utilization, classification, conservation, zoning, and land-use planning. Prerequisite, AGEC 1003. Spring.
- AGEC 4053. Agricultural Finance** Financial elements of the farm business. Emphasis will be given to the use and sources of agricultural credit. Prerequisite, AGEC 1003 or ECON 2313 or ECON 2323. Fall, Spring.
- AGEC 4063. Financial Analysis of Agribusiness** Study of quantitative concepts and methods used in the financial analysis of the agricultural business firm. Prerequisite, ACCT 2023 or ACCT 2133. Fall, Spring.

AGEC 4073. Agricultural Business Management Principles and problems involved in acquiring, organizing, and operating successful farms, ranches and other agricultural businesses, balance of enterprises, capital requirements, emphasis on managerial principles and management simulation. Prerequisite, AGECE 1003 or ECON 2313 or ECON 2323. Fall, Spring.

AGEC 4083. Agricultural Policy and Current Issues Economic developments in agriculture, role of the government in agriculture and policies affecting rural people are considered. Text and current information are utilized. Prerequisite, AGECE 1003 or ECON 2313 or ECON 2323. Fall, Spring.

AGEC 4173. Natural Resource Economics Comprehensive overview of economics of natural resource and environment. Theoretical and empirical analysis, valuations and examinations of sustainable quality of environmental and natural resources over time. Economic reasoning for examining natural resource problems and measures for dealing with them. Prerequisites, AGECE 1003 or ECON 2313 or ECON 2323 or consent of instructor. Dual Listed AGECE 5173. Demand.

AGEC 419V. Special Problems in Agricultural Economics For students of senior standing. Approval of the instructor and dean necessary. Credit of one, two, or three hours as arranged. Spring, Fall, Summer.

Agricultural Education (AGED)

AGED 1403. Basic Agricultural Mechanics Introduction to basic wood and metal working tools and equipment used in most mechanics laboratories. Instruction focuses on safety, project design, tool and equipment use. Fall, Spring.

AGED 1411. Introduction to Agricultural and Extension Education Philosophy, aims, and objectives of agricultural and extension education. Explanation of programs, career opportunities, and qualifications in agricultural and extension education. Fall.

AGED 1441. Emphasis on tree identification, instruments and equipment, tree disease and disorders, forest product uses, timber stand improvement, general principles of forest management, map and compass reading, and pulp and sawlog volume estimation. Spring.

AGED 2411. Home and Farm Improvement Learn about improvements that can increase usefulness and value of home or farm. Course will include such topics as building fences, energy conservation, electrical and plumbing repairs, small tractor selection and maintenance. Course content may vary according to participant interest. Demand.

AGED 2421. Introduction to Welding Processes An introduction to common welding, metal cutting processes and appropriate safety practices, and techniques associated with gas welding, shielded metal arc welding, gas metal arc welding, and gas tungsten arc welding. Demand.

AGED 2431. Introduction to Alternative Energy Sources An introductory course on the use and applications of alternative energy sources and the implications to society. Demand.

AGED 2433. Principles of Agricultural Power Electricity and Internal Combustion Engines Agricultural power includes electricity and internal combustion engines. Electricity includes systems, devices, motors, installation and service. Internal combustion power includes small engine repair and maintenance. Prerequisite, AGECE 1403. Spring, odd.

AGED 2441. Introduction to Electricity An introduction to basic electrical theory, appropriate safety practices, and applied techniques associated with electricity. Demand.

AGED 2453. Application of Welding Technologies to Agriculture Principles and practices of various methods of welding technology applied to agriculture. Lecture two hours, laboratory two hours per week. Fall.

AGED 3433. Agricultural Equipment Hydraulic Systems Study of the design, theory of operation, and maintenance of agricultural equipment hydraulic systems. Includes troubleshooting and team solutions to functional system problems. Prerequisites, MATH 1023. Spring, even.

AGED 3443. Leadership in Agriculture Principles and practices associated with development of agricultural leaders as individuals or teams from a practical and historical perspective. Developing skills needed to effectively work within agricultural organizations and with individual clientele. Spring, odd.

AGED 3453. Agricultural Structural Systems Basic carpentry skills associated with the agricultural environment. Focus of instruction is equipment safety and use, building supplies or materials, skills development in framing, roofing, installation of windows, etc. Two hour lecture and two hour laboratory per week. Prerequisite, AGECE 1403. Fall, odd.

AGED 4433. Methods of Teaching Agricultural Mechanics Methods and techniques used to teach and organize the mechanics laboratory. Teaching aids will be emphasized. Lecture two hours, laboratory two hours per week. Prerequisite, AGECE 1403. Spring.

AGED 445V. Practicum in Agricultural Communications Practicum provides opportunities for students to gain practical experiences in a real working environment with trained professionals in the communications field. Fall, Spring, Summer.

AGED 4462. Agricultural Youth Organizations Introduction to the history, purposes, parliamentary procedure, and membership and awards structure. Emphasis on leadership development and advisor responsibilities to agricultural youth organizations 4H, FFA. Fall.

AGED 4473. International Agriculture Study Tour To develop an awareness and perspective of international agricultural enterprises and educational programs and how world agricultural systems relate to and impact the U. S. agricultural system. Includes a focus on environmental issues related to food and fiber production. Permission of Instructor required. Dual Listed AGECE 5473. Summer, even.

AGED 459V. Special Problems in Agricultural Education For students of senior standing. Approval of the instructor and dean necessary. Credit of one, two, or three hours as arranged. Fall, Spring, Summer.

Agriculture (AGRI)

AGRI 1213. Making Connections in Agriculture First semester freshman course centered around the skills and knowledge needed to be a successful ASU College of Agriculture student, including academic performance, problem solving, critical thinking, self management, university policies, issues, trends, and disciplines in agriculture. Fall.

AGRI 2213. Genetic Improvement of Plants and Animals Introduction to agriculturally important plant and animal traits and the methods used to incorporate these into favorable combinations. Spring.

AGRI 2243. Feeding the Planet Emphasizes the historical background, current and future social, political, environmental or economic implications for the use of natural resources for feeding the world population. Demand.

AGRI 3233. Applied Agricultural Statistics Collection, tabulation, and analysis of agricultural data, activities of the state and federal crop reporting services. Spring.

AGRI 3543. Fundamentals of GIS/GPS Fundamentals of GPS-Global Positioning System and GIS-Geographical Information System concepts, equipment, and software used in agricultural, environmental, and natural resource applications. Prerequisite, Math 1023. Fall, Spring.

AGRI 3723. Agricultural Connections, Technical Interpretation and Professional Applications Exercises to synthesize high quality technical information from multiple sources into different types of professional written and verbal presentations, using problem solving exercises. Analytical skills and interactive discussions are emphasized. Prerequisites, AGRI 1213, AGECE 1003, ANSC 1613, PSSC 1303 and PSSC 2813. Prerequisites or corequisites, AGRI 3233 or ECON 2113 or STAT 3233. Fall, Spring.

- AGRI 420V. Internships in Agriculture** Provides field based experience in private business, industry or public agencies which will enhance knowledge and skills needed for career advancement, approval of Internship Committee required. Spring, Fall, Summer.
- AGRI 4223. Agriculture and the Environment** This course will explore the complex and varied interrelationships of agriculture and the environment with the ultimate goal of identifying viable procedures to make agricultural programs more sustainable. Spring.
- AGRI 4523. Applied Modern Biotechnology** An introduction to the principles and the applications of modern Biotechnology with emphasis on the applications of recombinant DNA technology to solve environmental and human health problems. The review of major biotechnology companies and bio-products is also included. Prerequisites, BIOL 2013 and 2011, CHEM 1052, BIOL 3013 and 3011 or AGRI 2213 or CHEM 4243 or related courses approved by the instructor. Dual-listed with AGRI 5523. Fall.
- AGRI 4233. Experimental Agricultural Statistics** Fundamental concepts of experimental and statistical methods as applied to agricultural research. Spring, even.
- AGRI 4433. Organic Agriculture Production** Principles and practices of organic production in plant and animal systems including: certification requirements, soil fertility, crop rotation, variety and breed selection, health management strategies, optimizing yield and quality, nutrition and feeding, ethical issues, processing, storage and marketing. Prerequisites, PSSC 1303 and ANSC 1613, or permission of instructor. Dual-listed with AGRI 5433. Spring, odd.
- AGRI 4773. Remote Sensing** The course will cover the image acquisition and image processing methods using ERDAS Image software as the analytical assessment package. Prerequisite, PSSC 3503 or permission from Instructor. Fall, even.

Animal Science (ANSC)

- ANSC 1522. Beginning English Equitation** Introduction to English equitation and the care and management of riding horses. Fall.
- ANSC 1602. Equitation** Two hour laboratory course in the selection and care of tack, horsemanship, etiquette, grooming, and equitation. Fall, Spring.
- ANSC 1612. Intermediate Western Equitation** Refinement of experienced riders skill in the area of western riding. Includes retraining or conditioning older horses, and understanding equine behavior as it relates to riding and training. Four hours of lab per week. Prerequisite, ANSC 1602 or permission of instructor. Fall, Spring.
- ANSC 1613. Introduction to Animal Science** A study of animals that provide food, fiber, and companionship to mankind, including the history and scope of animal agriculture, products produced from animals, reproduction, breeding and genetics, nutrients and digestion, lactation, behavior, and an overview of production systems. Fall, Spring.
- ANSC 1621. Introduction to Animal Science Laboratory** Students will gain hands on work experience with managing livestock. Fall, Spring.
- ANSC 1622. Intermediate Huntseat Equitation and Jumping** Refinement of the experienced riders skills in the area of huntseat riding and jumping. Includes flat work and jumping exercises to build skills and condition the horses and riders for jumping. Four hours of lab per week. Prerequisite, ANSC 1602 or permission of instructor. Fall, Spring.
- ANSC 2012.** This is an Advanced Equitation course that focuses on the training and exhibition of a versatile Western Stock Horse. Prerequisites, ANSC 1602 or ANSC 1612. Spring.
- ANSC 2623. Equine Health and Management** Course covers aspects of equine health, diseases, soundness, first aid, preventative maintenance, and management of horses in domestic situations. Three hours of lecture per week. Fall.

- ANSC 3003. Small Animal Nutrition** Fundamental concepts of nutrition applied to companion animals including dogs, cats, and other common pets. Prerequisite, ANSC 1613 or BIO 2013. Spring, odd.
- ANSC 3203. Small Animal Care and Management** Science and practice of raising and keeping small animals as pets or companion animals. Topics related to nutrition and feeding, training, reproduction, breeding, grooming, housing and equipment, preventative medicine, and common diseases will be covered. Prerequisites, ANSC 1613 or BIOL 1003 or BIO 2013. Fall.
- ANSC 3613. Nutritional Management of Domestic Animals** Principles of animal nutrition, composition of feedstuffs, diet formulation, and nutritional management of cattle, horses, sheep, swine, poultry, dogs and cats. Two hours lecture, two hours laboratory per week. Prerequisite, ANSC 1613. Fall.
- ANSC 3633. Veterinary Anatomy and Physiology** Structure and function of the body in farm animals. Includes lectures on cardiac, renal, respiratory and muscle physiology, neurology, histology, bone development and endocrine control of the above systems. Prerequisites, ANSC 1613 and BIO 1303. Fall.
- ANSC 3653. Meat Science and Processing** Study of meat science and meat processing. Properties of fresh and processed meats. Instruction in the preservation of meat and meat products, including hands on experience in processed meat manufacturing, curing, and barbecuing. Fall, even.
- ANSC 3663. Sheep Production** Methods of management in producing sheep and handling of purebred flocks. Lecture two hours, laboratory two hours per week. Prerequisite, ANSC 3613. Fall.
- ANSC 3703. Poultry Flock Management** Management of laying and brooding flocks, raising of replacements, study of all economic factors relating to efficient production and marketing. Lecture two hours, laboratory two hours per week. Spring, even.
- ANSC 4613. Horse Production** Selection, breeding, feeding, management, marketing of horses, and equitation. Lecture two hours, laboratory two hours per week. Prerequisite, ANSC 1613. Spring.
- ANSC 4623. Beef Cattle Production** Management practices of commercial and purebred herds. Lecture two hours, laboratory two hours per week. Spring.
- ANSC 4633. Diseases of Farm Animals** Prevention, treatment, and control of common diseases, including problems of hygiene and sanitation. Prerequisite, ANSC 3633. Summer, even.
- ANSC 4663. Principles of Breeding** Basic application of genetic principles to the improvement of farm animals. Fall.
- ANSC 4673. Digestive Physiology and Nutrition of Domestic Animals** The role of nutrients and physiological and metabolic mechanisms involved in nutrient utilization by domestic animals. Emphasis on food producing animals, horses, dogs, cats, and catfish. Prerequisite, ANSC 1613 and CHEM 1013. Spring.
- ANSC 4683. Theriogenology** Teaches the anatomy, physiology, endocrinology, and biochemistry of reproduction in farm animals. Introduces students to methods of manipulating reproduction within livestock systems. Management topics include artificial insemination, estrus synchronization, induction of parturition, embryo transfer, and reproductive disease prevention. Prerequisite, ANSC 1613. Spring.
- ANSC 4733. Endocrinology of Farm Animals** Endocrinology system and its role in lactation, reproduction, digestion, and metabolism. Summer, odd.
- ANSC 4743. Equine Nutrition** This course provides students an understanding of the principles of nutrition and their application to feeding horses. Digestive physiology, feed ingredients, feeding and grazing programs for various classes of horses and interactions of nutrition, diseases, and environment will be discussed. Prerequisite, ANSC 1613 or permission of instructor. Summer.
- ANSC 478V. Special Problems in Animal Science** Each student will develop a problem in students special interest field. This group will meet for two hours per week and report the progress on problems. Fall, Spring, Summer.

Methods and Materials Teaching Agricultural Education (EDAG)

EDAG 4623. Special Methods for Teaching Agricultural Education Overview of major components of an efficient agriculture department at the secondary school level. Emphasis on teaching methods and materials required for the agriculture classroom and mechanics laboratory. Opportunities for course planning, classroom management, record development, and career orientation. Must be admitted to the Teacher Education Program. Spring.

Food Science and Technology (FDST)

FDST 2203. Introduction to Food Science Introduction to modern food science and technology. Concepts of food quality, nutrition, sanitation, consumption patterns, and food laws. Overview of careers in food technology. Fall.

FDST 2213. Food Chemistry Covers the functionality and interactions of major food components, carbohydrates, proteins, lipids and water and their impact on food quality. Two hours lecture, two hours laboratory per week. Prerequisite, CHEM 1013 or equivalent. Fall.

FDST 2223. Principles of Food Processing Introduction to the concepts and application of food processing techniques. Concepts include processing of cereals, vegetables, fruits and animal products. Lecture two hours. Laboratory two hours per week. Spring.

FDST 2503. Food Safety and Sanitation Principles of sanitation, cleaners and sanitizers, sanitary equipment and plant designs, and microbial growth and control in food processing operations. Spring.

FDST 3203. Food Quality Assurance Discussion of strategies to assure that food is safe, wholesome, and of consistent sensory quality will be discussed. Prerequisites, CHEM 1013 or BIOL 1003 and AGRI 3233. Fall.

FDST 330V. Food Technology Practicum This course provides opportunities for student internship programs at food processing companies, or for independent study programs under the direction of a faculty member. Each Practicum must be approved in advance by the supervising faculty member, college committee, and the Dean of Agriculture, including a written proposal describing the activities to be performed, location, specific learning experiences anticipated, and manner of supervision. May be taken for a maximum of 3 hours. Fall, Spring, Summer.

FDST 4213. Food and Health Reviews how food consumption patterns contribute to prevalence of chronic diseases in humans and strategies to develop foods with medicinal value. Effects of food processing on nutritional properties of food are investigated. Prerequisite, junior or senior classification of all majors. Spring.

FDST 4333. Food Microbiology Relation of microorganisms to food spoilage; foodborne illness and intoxication; general food and water quality; standard methods used for food and public health laboratories. Dual listed with FDST 5223. Prerequisite, BIO 2103 and 2101. Fall.

Horticulture (HORT)

HORT 2253. Fundamentals of Horticulture Growth, fruiting habits, propagation, and culture of horticultural plants. Lecture two hours, laboratory two hours per week. Fall, even.

HORT 3253. Urban Forestry The biology, selection, management, and role of plants and ecosystems used to enhance the aesthetics and function of urban environments. Planning, management and administration of urban forests. Prerequisite, BIOL 1003 or BIO 1503 or HORT 2253. Fall, even.

HORT 3263. Pomology Fruit production, fruiting habits, establishment and management of deciduous orchards. Lecture two hours, laboratory two hours per week. Prerequisite, HORT 2253. Fall, odd.

HORT 3273. Turf Management The turf industry, characteristics, adaptation, and establishment of the grasses. Prerequisites, PSSC 2813, PSSC 2811, and HORT 2253. Fall, odd.

HORT 3283. Landscape Management Principles and practices for the establishment and maintenance of residential and commercial landscapes. Lecture two hours, laboratory two hours per week. Prerequisite, BIOL 1003 or BIO 1503 or HORT 2253. Spring, even.

HORT 3293. Landscape Plant Materials Trees and shrubs and their uses in landscape. Lecture two hours, laboratory two hours per week. Fall, odd.

HORT 4233. Commercial Vegetable Production Origin, nutritive value, botany and cultural production practices of major vegetable crops, emphasizing sustainable practices, soil management, IPM for insects, diseases and weed, with discussion of organic practices and economics of wholesale farmers' markets. Prerequisite PSSC 1303. Fall, odd.

HORT 4253. Greenhouse Management Construction, operational practices, and general management of greenhouses and associated structures. Lecture two hours, laboratory two hours per week. Prerequisite, HORT 2253. Spring, odd.

HORT 4263. Floriculture Principles and practices of production of commercial flower crops in the greenhouse and field. Lecture two hours, laboratory two hours per week. Prerequisite, HORT 2253. Spring, odd.

HORT 4273. Nursery Management Principles and practices involved in the production, management, and marketing of field grown and container grown nursery plants. Lecture two hours, laboratory two hours per week. Prerequisites, HORT 2253 and HORT 4323. Fall, even.

HORT 4283. Landscape Design Continuation of HORT 3293, the organization of outdoor spaces in relation to architecture and general environment. Lecture two hours, laboratory two hours per week. Prerequisite, HORT 3293. Spring, even.

HORT 429V. Special Problems in Horticulture For students of senior standing. Approval of instructor and dean necessary. Fall, Spring, Summer.

HORT 4323. Plant Propagation Principles, practices, and methods employed in the propagation of plants. Prerequisite, HORT 2253. Spring, even.

Plant and Soil Science (PSSC)

PSSC 1301. Plant Science Laboratory Introduction to agronomic and horticultural concepts related to crop anatomy, growth and development, physiology, and pest identification and management. Spring.

PSSC 1303. Introduction to Plant Science Agronomic and horticultural cropping systems including crop growth and development, crop physiology, crop ecology, environmental considerations, and production and protection practices. Fall, Spring.

PSSC 2811. Soils Laboratory Corequisite or prerequisite, PSSC 2813. Fall.

PSSC 2813. Soils Origin, classification, physical and chemical properties of soil and environmental considerations. Prerequisite, CHEM 1013 and CHEM 1011 or CHEM 1043 and CHEM 1041. Fall.

PSSC 3313. Plant Disease Management Introduction to management of plant diseases. Major concepts include genetic, cultural, and biological controls as related to management of plant systems. Self study course utilizing computer technology, seminars, and laboratory exercises. Prerequisites, PSSC 1303. Spring.

PSSC 3323. Weeds and Weed Control Identification and pest management of weeds in agronomic, horticultural, and urban systems. Survey of herbicides, their chemistry, toxicology, modes of action, uses, and environmental impact. Lecture two hours and laboratory two hours per week. Prerequisites, CHEM 1013 or CHEM 1043; and PSSC 1303. Spring.

PSSC 3333. Plant Breeding History of plant improvement, methods of plant breeding, and the basic application of these methods to various agronomic and horticultural crops. Demand.

- PSSC 3503. Agriculture Spatial Technologies I** Basic understanding and utilization of data collection and assessment using global position system receivers, direct and remote sensing, and geographic information system software related to crop production and nutrient management. Prerequisite, PSSC 2813. Fall.
- PSSC 3513. Agriculture Spatial Technologies II** The course will concentrate on a study of the electromagnetic properties of earth objects, vegetation, soils, water, and, the principles and operations of different sensors used to measure this energy. Prerequisite, PSSC 3503. Spring.
- PSSC 3802. Pasture and Forage Crops** Introduction to important forage and pasture crops in the mid south region. Discussions will include cropping systems, plant growth and development, physiology, and environmental considerations. Prerequisite, PSSC 1303. Fall, odd.
- PSSC 4313. Plant Growth and Development** Auxins, gibberellins, and various other regulators of plant growth, also phenomena such as flowering and dormancy. Prerequisites, CHEM 1052, HORT 2253 and PSSC 1303. Fall.
- PSSC 4342. Seed Analysis and Processing** Techniques and principles of seed analysis and grading, methods of producing and processing quality seeds and seed stocks. Demand.
- PSSC 4513. Plant Biotechnology** Course materials will address the why and how of plant gene transfer plus the issues involved in making those plants part of the agricultural landscape. Dual listed as PSSC 5513. Prerequisite: AGRI 2213 or BIOL 3013 or permission of instructor. Spring.
- PSSC 4713. Soil Quality Assessment and Interpretation** A study of the indicators of soil quality, documentation and measurement of soil quality, interpretations of soil quality, impacts and effects of management of soil quality, and the role of conservation planning in improving soil quality. Prerequisite, PSSC 2813. Demand.
- PSSC 4804. Principles of Crop Production** Introduction to agronomic cropping systems which includes production systems, concepts related to crop selection and genetics, establishment and management of the crop, and harvest management. Environmental issues related to crop production and sustainability are also evaluated. Prerequisites, PSSC 1303 and PSSC 2813. Spring, Odd.
- PSSC 4813. Soil Fertility** Principles involved in maintaining and increasing fertility of soil. Prerequisite, PSSC 2813, CHEM 1013, and CHEM 1011. Spring, even.
- PSSC 4822. Environmental Factors Affecting Plant Growth** Affect of environmental factors on growth of important crop species. Primary emphasis will be on water utilization, solar irradiance, and temperature on plant development. Methods of measurement of environmental factors will be included. Prerequisites, PSSC 1303. Demand.
- PSSC 4853. Soil and Water Conservation** Properties of soil which affect erosion and water infiltration, with practical methods of holding water and soil. Dual listed as PSSC 5853. Prerequisite, PSSC 2813. Spring, odd.
- PSSC 489V. Special Problems in Plant and Soil Science** For students of senior standing to work on special problems. Approval of instructor and dean necessary. Fall, Spring, Summer.

Renewable Energy Technology (RET)

- RET 3113. Fundamentals and Applications of Renewable Energy** Fundamental principles and applications related to biofuels, wind, solar, hydrogen and other emerging alternative energy technologies along with their applications. Prerequisites, MATH 1023, CHEM 1013 and CHEM 1011. Fall.
- RET 4013. Process Technology for Agricultural Products** Study of processing principles and applications in bio-energy industry: process parameters, properties of materials, transport processes, fluid flow, pumps, material handling, drying, extraction, fermentation, bioreactor, sanitation and process economics. Prerequisites, MATH 1023, CHEM 1013, and CHEM 1011. Process instrumentation or equivalent course as approved by instructor also required. Spring.

- RET 4023. Advanced Bioenergy** A study of processes and developments in the biofuels and other emerging technology for biobased energy products. Prerequisites, MATH 1023, CHEM 1013, CHEM 1011 and RET 3113, or approval of instructor. Fall.
- RET 4113. Advanced Renewable Energy Systems** A study of renewable energy systems including technologies for solar, hydrogen, fuel cell, biomass and wind. Prerequisites MATH 1023, CHEM 1013, CHEM 1011 and RET 3113, or approval of instructor. Spring.
- RET 4123. Energy Conservation and Efficiency** A study of energy and power measurement techniques to analyze energy use, and methods to conserve energy in residential and industrial sectors. Prerequisites, MATH 1023, PHYS 2054, CS 1013 and RET 3113; or approval of instructor. Fall.
- RET 4313. Wind Energy Technology** A study of wind energy fundamentals and processes for converting wind power with emphasis on turbines and the wind power systems. Prerequisites, PHYS 2054, MATH 1023, and RET 3113; or approval of instructor. Spring.

Technology (TECH)

- TECH 2453. Technology Design Solid Works I** Drawing and detailing with SolidWorks, a design automation software package used to produce parts, assemblies and drawing. Fall.
- TECH 2863. Principles of Technology** The role and function of technology development in human resources. Course provides an introduction to the concepts and philosophies of the technical work place and the use of technologies. Fall.
- TECH 3403. Pro ENGINEER** A study of types of parent and child relation using constraints in CAD and CAM. Prerequisites, TECH 2453. Fall.
- TECH 3413. AutoCAD Inventor** This is a beginning level 1 course in CAD. This course is designed to demonstrate how AutoCAD is used in model parametric space. This course will only deal with 2d mechanical, electrical and civil aspects of CAD. Prerequisite, TECH 2453. Fall.
- TECH 3433. AutoCAD 3D Modeling** This is an Advance level II course in CAD. This course is designed to demonstrate how to manage 3D space, how to make 3D wire frame, surface, and solid models, how to modify them, and how to display them. Prerequisite, TECH 3413. Spring, even.
- TECH 3453. Advanced Technology Design Solid Works II** Continuation of Technology Design, SolidWorks I. Prerequisite, TECH 2453. Spring, odd.
- TECH 3463. Advanced Pro Engineer** A study of advanced techniques and workarounds type of parent and child relation using constraints. Prerequisites, ME 2502 and TECH 3403. Spring, odd.
- TECH 3473. Structural Drafting** Structural steel drafting is used to construct and design support frames for modern commercial and industrial buildings. Special emphasis is placed on how structural drafters in both structural design and fabrication offices prepare the working drawings required to help transform the architects vision into reality. Prerequisite, TECH 2453. Fall, odd.
- TECH 3713. Fiscal Aspects** An introduction to fiscal structures and problems encountered in the technically oriented enterprise. Fall.
- TECH 372V. Technical Career Subjects** Through this course students having work experience and company sponsored training will undergo portfolio assessment to determine credit hour award. Course may be repeated. No more than 25% of the degree may be satisfied with this course and TECH 189V. 1 to 9 hours. Fall, Spring.
- TECH 3753. Legal Aspects** An introduction to the types of legal problems encountered in the technically oriented enterprise. Spring, even.
- TECH 3773. Statistics** Basic concepts and methods of statistics in a technical environment, including descriptive statistics, significant tests, estimation, sampling, and correlation. Fall.

- TECH 3803. Electrical Systems** Fundamentals and utilization of electric power through appropriate units of equipment and systems for heating, cooling, working, and controls, energy transmission and measurements, equipment selection, operation, maintenance, and evaluation for given tasks. Prerequisite, MATH 1033. Fall.
- TECH 3813. Programmable Logic Control** Introduction to programmable logic controllers. Topics will include programming basics, instruction sets, maintenance and trouble shooting, program editing and the use of EEPROM memory modules. Prerequisite, TECH 3803. Spring.
- TECH 3823. Mechanics I** Introduction to statics and dynamics at the technologists level. Topics will include resultants and equilibrium of force systems, friction centroids, moments of inertia, plane motion, working energy. Prerequisite, MATH 1033. Fall.
- TECH 3843. Manufacturing Materials and Processes** Structure and properties of metals and other materials used in manufacturing. Formation, treatment, and modification of materials through manufacturing processes. Advantages and disadvantages of alternative materials and processes for specific applications. Important emerging technologies. Prerequisite, CHEM 1003 or high school chemistry and MATH 1033. Spring, odd.
- TECH 3853. Computer Aided Manufacturing CAM** A study of 3D CAM software package that prepares NC programs for complex shapes and surfaces, basic contouring, drilling pocketing and geometric creations, including splines, ellipses, and lettering. Prerequisite, Keycreator experience. Spring, even.
- TECH 3863. Industrial Safety** An introduction of the basic concepts of safety and health. Topics include the role of the safety professional, social, legislative, and regulatory requirements as well as the concepts of hazard recognition, evaluation, and control. Fall.
- TECH 3873. Tool Design** Application of the theory developed in the fundamental technology courses to the design and fabrication of jigs, fixtures, and dies. Prerequisites or corequisites, TECH 2453 or TECH 3413. Fall.
- TECH 3883. Machine Design** Application of the theory developed in the fundamental technology courses to the design and selection of machine components such as journal and antifriction bearings, shafts, couplings, cams, gears, belts, chains, clutches, brakes, fasteners, and springs. Spring, odd.
- TECH 389V. Occupational Internship** This course provides the student with an opportunity to obtain additional experience in their emphasis area. Course may be repeated. Maximum degree credit for this course is three hours. Advisors approval is required. 1 to 3 hours. Fall, Spring, Summer.
- TECH 4003. ACAD2D** 2D Fundamentals of ACAD, Computer-Aided Design and Drafting (CADD). Provides students with knowledge and skills to construct basic shapes and make multiview drawings using a hands on approach. Spring, even.
- TECH 4083. Mastercam II** Introduction to the concepts and practices of CAM and Machine Protocol with focus on personal application. Spring, odd.
- TECH 4703. Experiential Learning Practicum** This capstone course provides students with experiential learning related to their emphasis area, as an on the job position within a company or other approved location. Each Practicum will involve 10 to 12 specific learning experience objectives. Prerequisites, Approval of faculty supervisor. Restricted to majors in the Technology majors. Fall, Spring, Summer.
- TECH 4743. Computer Numeric Control** Basic terminology for computer aided manufacturing, interpretation of mechanical drawings in manufacturing, and learn manual G Code programming. Prerequisites, MATH 1033 and TECH 2453. Fall, even.
- TECH 4783. Manufacturing** Concepts and philosophies of manufacturing technology and their roles in factories. Prerequisite, Senior Standing in Technology. Fall.
- TECH 480V. Current Topics in Technology** This course is designed to address specific needs of technology or industry. May be repeated for credit. 1 to 3 hours. Summer.
- TECH 4813. Operations Systems Research** Quantitative techniques for decision making, break even analysis, economic models, gaussian distributions, inventory control, production models, and mathematical programming. Prerequisite, MATH 1023. Fall.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

- TECH 4823. Quality Assurance** The principles and practices of quality in manufactured products. Familiarization with industrial methods and equipment used in quality assessment. Basic topics include histograms, Pareto diagrams, control charts, acceptance sampling, process capability, cause and effect diagrams, reliability, visual inspection, and the relationship between quality and cost. Prerequisite, TECH 3773 or TECH 2883. Spring.
- TECH 4843. Labor Relations** Course will present the economic situation in which labor management problems operate in a technological environment. The course will cover the development of labor relations and collective bargaining techniques used by labor and management in their ongoing interactions in the technical work place. Spring.
- TECH 4853. Lean 6 Sigma for Manufacturing** Principles of Lean Manufacturing including strategies to eliminate waste and reduce costs, and continuous quality improvement using the principle of Six Sigma; advanced quality assurance terminology and application of statistical practices in manufacturing management. Prerequisite, TECH 3773. Prerequisite or corequisite, TECH 4823. Spring.
- TECH 4873. Motion and Time Study** Principles and practices of motion and time study including process charts, operation charts, motion summary, and time standards. Spring, even.
- TECH 4883. Work Center Management** A survey course that addresses the problems of managing a small working unit, such as a department, within a larger unit, such as a company. Topics to be addressed include, goal identification, staffing needs, monitoring of work process reporting, work center communications, and interpersonal relations within the work center. Spring.
- TECH 489V. Special Problems in Technology** Individually directed problems in technology for juniors and seniors. Must be arranged in consultation with a technology faculty member and approved by the department chair. Fall, Spring, Summer.

Teaching Internship (TIAG)

- TIAG 4825. Agricultural Teaching Internship in the Secondary School** Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIAG 4826. Agricultural Teaching Internship in the Secondary School** Twelve semester hours. Full semester teaching internship. Fall, Spring.

Technical and Vocational Education (VOED)

- VOED 1503. Instructional Planning and Materials in Technical and Vocational Education** Provides knowledge and procedures for the development of instructional units, the preparation of lesson plans, and the selection and preparation of instructional materials necessary to teaching in a technical or vocational setting. Demand.
- VOED 1513. Methods of Technical and Vocational Teaching** Methods of teaching are introduced and studied, with emphasis on the application of those methods in a technical or vocational school setting. Demand.
- VOED 1533. Student Services in Technical and Vocational Education** The role of student organizations in the technical or vocational program is studied, with emphasis on the establishment and operation of a student organization as an integral component of a technical or vocational school program. Demand.
- VOED 1543. Evaluation of Learning** Methods for measuring student learning, determining letter grades, and evaluating overall instructional effectiveness as applied to a technical or vocational setting are presented. Demand.
- VOED 1553. Management of Technical and Vocational Programs** Various management tasks essential to effective technical and vocational instruction and program development are presented and studied with emphasis on their application in a technical or vocational school setting. Demand.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

VOED 2503. Program Development Various activities pursuant to the design, development, promotion and evaluation of technical and vocational programs are presented and studied with emphasis on their application in a technical or vocational school setting. Demand.

VOED 2523. The Two Year College in America An examination of the history, philosophy, nature, and function of the two year college. Demand.

VOED 2533. History and Philosophy of Technical and Vocational Education An examination of the history and philosophy of technical education in America with a special emphasis on Arkansas emerging technical colleges. Demand.

VOED 255V. Experiential Learning in Technical and Vocational Education Covers professional work experience and technical preparation in the vocational teaching area in which the student is currently employed. Prerequisite, All requirements for the associate degree in technical and vocational education must be fulfilled prior to any award of credit for this course. Demand.

VOED 4503. Foundations of Adult Education in Vocational Education Covers historical and philosophical development, comparison of vocational and nonvocational adult education, program development and evaluation, teaching methods, and issues and trends in adult vocational education programming. Spring, even.

VOED 4513. Hands On Activities and Observation Experiences for Career Orientation Opportunity to study, develop, and demonstrate the essential facets of hands on activities according to the instructional material in career orientation. Summer.

VOED 4522. Competency Based Curriculum in Vocational Education Study of the design features of a competency based approach to education with emphasis on practical application to the design of instruction using a competency based format. Fall.

VOED 4533. Methods of Organizing and Teaching Career Orientation Curricula, methods, and techniques involved in teaching career orientation as related to the fifteen occupational clusters in the world of work. Summer.

VOED 4553. Educators in Industry A course devoted to career awareness in relation to the modern workplace. The course is conducted in cooperation with local businesses and industries. Research, on site instruction, and work experiences are involved. Demand.

VOED 4573. Problems in Teaching Cooperative Education Teaching cooperative education in all vocational services of program areas, history, purposes, administration, methods, organization, and conduct of the programs. Demand.

VOED 4583. Methods and Materials for Teaching the Adult Emphasis on the methodologies, techniques, and materials applicable to the adult learner based upon his personal needs. Demand.

COLLEGE OF BUSINESS

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

Business (BUSN)

BUSN 1003. First Year Experience Business Required course for all first semester freshmen. Course content is centered around the skills and knowledge needed to be a successful ASU student, including academic performance, problem solving, critical thinking, self management and group building skills, university policies and other relevant issues. Fall.

DEPARTMENT OF ACCOUNTING

Accounting (ACCT)

ACCT 2023. Fundamental Accounting Concepts Primary emphasis will be in developing an understanding of the fundamental accounting concepts, with secondary emphasis on procedural mechanics. In addition, the student should develop an awareness of the language and environment of American business, an appreciation of accounting methodology, and skill in problem solving. Open only to students not majoring in the College of Business. Fall, Spring.

ACCT 2033. Introduction to Financial Accounting Introduction to accounting and the accounting cycle. Basic accounting and reporting for merchandising and service oriented business organizations. Primary emphasis is on accounting principles applicable to measuring assets, liabilities, owners equity and income. Special measurement problems for partnerships and corporations. Fall, Spring, Summer. (ACTS#: ACCT 2003)

ACCT 2133. Introduction to Managerial Accounting The course covers basic accounting and reporting for manufacturing companies. The course is also devoted to managerial uses of accounting data for the decision making function and to special accounting reports. Prerequisite, ACCT 2033 with a C or better. Fall, Spring, Summer. (ACTS#: ACCT 2013)

ACCT 3003. Intermediate Accounting I An in depth study of accounting statements, the accounting process, and inventory valuation procedures. Prerequisite, ACCT 2133 with C or better. Fall, Spring, Summer.

ACCT 3013. Intermediate Accounting II A detailed study of operational assets, investments, liabilities, and an introduction to the corporate form of organization. Prerequisite, ACCT 3003 with a grade of C or better. Spring, Summer.

ACCT 3033. Intermediate Accounting III Continuation of the study of the corporate form of organization. In addition, effort is devoted to error corrections, analysis of financial statements, funds flow and cash flow reporting, and the controversial areas of accounting. Prerequisite, ACCT 3013 with C or better. Fall, Spring.

ACCT 3053. Cost Accounting with a Managerial Emphasis Accounting issues from the viewpoint of the manager. Examination of costing techniques, cost behavior, cost volume profit relationships, and budgeting. Emphasis is on use of relevant information in decision making for managers. Prerequisite, ACCT 2133 with a C or better. Fall, Summer.

ACCT 4013. Tax Accounting I Examines the laws, rules, and procedures of federal income taxes for individuals. In addition, the business events and transactions which influence taxable income for individuals are studied. Prerequisite ACCT 2133 with C or better. Fall, Spring.

ACCT 4033. Accounting Information Systems Study of the role, design, characteristics, and function of accounting information systems. Prerequisites, ACCT 4053 with a grade of C or better. Spring, Summer.

ACCT 4053. Auditing I Standards and procedures, code of ethics, form of audit reports and statements, and the principles underlying the verification of data presented in financial reports. Prerequisites, ACCT 3013 with a grade of C or better and ECON 2113. Fall, Summer.

ACCT 4113. Tax Accounting II Continuation of Tax Accounting I. Emphasis in this course will be on federal income tax laws for partnerships, fiduciaries, and corporations. Prerequisite, ACCT 4013. Fall.

ACCT 4123. Government and Not-For-Profit Accounting Accounting concepts and reporting standards for state or local government entities and not-for-profit organizations. Emphasis is on areas covered in CPA exam content specifications. Prerequisite, ACCT 3013 with a grade of C or better. Spring, Summer.

ACCT 4143. International Accounting Introduction to international accounting issues including political, legal, and cultural influences, international accounting standards, foreign currency transactions, consolidated reporting for global firms, planning, control, and performance measurement systems, transfer prices and taxation. Prerequisite ACCT 2133 with C or better. Fall.

ACCT 4153. Fraud Examination A study of how and why occupational fraud is committed, how fraudulent conduct can be deterred, and how allegations of fraud should be investigated and resolved. Prerequisite ACCT 2133 with C or better. Spring.

ACCT 430V. Special Problems in Accounting Individual problems or topics in accounting arranged in consultation with the instructor. Must be approved by department chair. Demand.

ACCT 4783. Internship in Accounting Provides practical financial, managerial, or not for profit experience through work in a meaningful capacity. Prerequisite, 12 hours of accounting above the principals level and approval of departmental chair. Fall, Spring, Summer.

DEPARTMENT OF COMPUTER AND INFORMATION TECHNOLOGY

Business Technology (BTEC)

****IMPORTANT INFORMATION****

EDBU 4533 METHODS AND MATERIALS IN TEACHING BUSINESS TECHNOLOGY and TIBU 4825 BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL, for BSE Students, TIBU 4826 BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL, for 2nd Degree Students, are located at other locations on the Class Schedule Search engine. Please follow the directions below for each course to obtain the correct location for each educational course.

EDBU 4533, METHODS AND MATERIALS IN TEACHING BUSINESS TECHNOLOGY

1. Go to Class Schedule Search.
2. Select Method and Mat Teach EDBU Voc.
3. Click on Class Search, METHODS AND MATERIALS IN TEACHING BUSINESS TECHNOLOGY will appear.

BSE students **ONLY**

TIBU 4826, BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL

You will receive an email from the Professional Education Program, PEP, office issuing you a permit allowing you to register for this class.

2nd Degree Students

TIBU 4825, BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL

You will receive an email from the Professional Education Program, PEP, office issuing you a permit allowing you to register for this class.

2nd Degree Students

ELCI 4013, CURRICULUM AND ASSESSMENT INSTRUCTIONAL THEORY AND PRACTICE, to be taken during Teacher Internship

1. Go to Class Schedule Search
2. Select Educational Leadership Curriculum
3. Click on Class Search, CURRICULUM AND ASSESSMENT INSTRUCTIONAL THEORY AND PRACTICE will appear.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

BTEC 429V. Special Problems in Business Technology Individual problems in Business Technology arranged in consultation with the instructor, must be approved by the department chair. Special course fees may apply. Demand.

Computer Information Technology (CIT)

CIT 1503. Microcomputer Applications Students will learn basic computer skills that can be used immediately, throughout college, and beyond. Emphasis on learning basic office applications in word processing, spreadsheets, databases, and presentation graphics. Fall, Spring.

CIT 2033. Programming Fundamentals An introduction to Windows programming using Microsoft Visual Studio or a similar integrated development environment. Students learn to write programs using an object oriented programming language and incorporating sequence, selection, and repetition structures. Prerequisite, completion of computer proficiency requirements required. Fall.

CIT 2413. Word Processing I Introduction to word processing concepts and applications. Prerequisite, Ability to keyboard. Fall.

CIT 2523. Telecommunications and Networking Essentials This course will examine basic networking fundamentals. These include networking media, connectivity, devices, telecommunications protocols, and different networking models. Spring.

CIT 2543. Keyboarding for Professionals Covers entry level and advanced level job simulations in legal, medical, technical, accounting, and other firms. Prerequisite, Keyboarding I or equivalent. Summer. (ACTS#: BUSI 1103)

CIT 3013. Management Information Systems Provides understanding of information needs of management, information technology used by various business subsystems, and how technology can be utilized for competitive advantage. Fall, Spring, Summer.

NOTE: Satisfying the College of Business computer proficiency requirement is a prerequisite, AND CIT 3013 is a prerequisite or corequisite for ALL upper-level CIT courses.

CIT 3033. Advanced Visual Basic Programming Second course in Visual Basic programming with emphasis on creating multiple document applications, classes, active server pages, ADO.NET, and reading and writing files. Prerequisite, C or better in CIT 2033. Spring.

CIT 3353. Mobile and Web Applications Development Development of web and mobile applications from design to deployment. Includes markup, client-side and server side, stylesheet, and related languages, as well as associated development technologies. Prerequisite, programming course with a grade of C or better. Fall, even.

CIT 3403. Database Management Enterprise-wide database theory and SQL with the use of industry standard DBMS, such as MySQL, Oracle, or SQL Server. Fall.

CIT 3413. Advanced Database Management Extends the coverage of CIT 3403 using a popular DBMS. Topics include client applications, object oriented database development, and data security. Prerequisite, C or better in CIT 3403. Spring.

CIT 3523. Operations Management Introduction to the operations function in manufacturing and services. Emphasis on continual improvement of systems for producing goods and services. Prerequisite, ECON 2113. Fall, Spring, Summer.

CIT 3533. Microcomputer Applications II Continuation of CIT 1503 to cover topics in the area of operating systems, word processors, spreadsheets, presentation techniques, and PC databases. Prerequisite, CIT 1503 or demonstrated proficiency. Fall.

CIT 3623. LAN Administration Covers topics pertinent to the administration of a local area network. Topics include, user management, file management, security, and network printing. Prerequisite, Computer literacy. Fall.

CIT 3663. Data Mining Theory and practice of knowledge discovery in databases (KDD) with emphasis on predictive modeling and model evaluation using computer software such as SAS to perform data mining. Prerequisite ECON 2113 or approval of instructor. Fall - Odd Years.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

- CIT 3853. Computer Forensics** Students are introduced to information systems role in forensic computing. Emphasis will be on the retrieval, preservation, and analysis of computer data which might be used in legal cases. Suggest previous criminology courses or experience for FOSC majors before enrolling. Prerequisite, CIT 1503 or CS 1013. Fall.
- CIT 409V. Special Problems in Computer Information Technology** Individual problems in CIT arranged on a case by case basis after consultation with the instructor. Student must meet departmental requirements before enrolling in this course. Fall, Spring, Summer.
- CIT 4103. Advanced LAN Administration** Advanced networking administration issues are covered as they relate to local area networks. Students will be introduced to advanced client and server management topics necessary to administer a large complex network. Prerequisite, C or better in CIT 3623 or permission of instructor. Spring, even.
- CIT 4453. Global E-Commerce** Provides an understanding of the technologies behind E-commerce and how they enable the delivery of goods and services using electronic formats in a global context. Spring.
- CIT 4503. Business Technology Methods** The present status and software usage of business technology personnel. Special attention is given to instructional innovations. Intended for BSE majors. Fall.
- CIT 4513 Business Technology Field Experience** Provides business technology teachers, under direct supervision, the opportunity to develop and refine vocational competencies in office occupation. Special course fees may apply. Summer.
- CIT 4533. Word Processing II** Advanced word processing concepts and applications. Prerequisite, CIT 2413 or consent of instructor. Spring, Demand.
- CIT 4603. Microcomputer Applications III** Course three of the study of the role of a software suite as a tool used in business. The applications covered will include, Word Processing, Spreadsheet, Database, and electronic presentations. Prerequisite, CIT 3503 and CIT 3533, or demonstrated proficiency. Spring.
- CIT 4623. Computer Security** Discusses the primary topics of computer security needed by IT professionals in both commercial and military installations. Includes access control, cryptography, continuity planning, physical security, and the overall management of security issues. Spring - Odd Years.
- CIT 4653. Automatic Data Capture** Methods, technologies, systems, and standards used in supply chain information systems and e-business for automatically identifying objects, and collecting and transferring data. Technologies such as bar coding, RFID, smart cards, magnetic striping, biometrics, GPS, real time locating, and voice data entry, as well as their business applications are addressed. Prerequisites, CIT 2033 and CIT 2523. Corequisite, CIT 3403. Fall.
- CIT 4853. IT Project Management** Provides students with the information needed to manage a technical project within a business environment. Students will work a project simulation through the project management cycle from project team selection to project implementation. Taken during last semester or with permission of instructor. Spring.
- CIT 4863. Current Topics in CIT** The content of this course will be based upon current issues within the business world as they relate to the use of computer and information technology. Prerequisites, minimum of 60 hours and CIT 3013. Demand.
- CIT 488V. Internship in CIT** Provides practical information technology experience in a CIT setting. Students will be assigned to work with an outside organization to gain real world training. Prerequisite, Permission of Department Chair and Internship Director required. Fall, Spring, Summer.

Materials Teaching BTEC (EDBU)

- EDBU 4533. Methods and Materials in Teaching Business Technology** Study of the role and scope of the vocational business education teacher, professional organizations, professional ethics, federal involvement, and professional literature. Emphasis on the assessment of student competencies, competency based programs, resources, facilities, and curriculum development. Selection and practice in teaching techniques and strategies. Must be admitted to the Teacher Education Program. Fall.

Teaching Internship (TIBU)

- TIBU 4825. Business Teaching Internship in the Secondary School** Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIBU 4826. Business Teaching Internship in the Secondary School** Twelve semester hours. Full semester teaching internship. Fall, Spring.

DEPARTMENT OF ECONOMICS AND FINANCE

Economic Education (ECED)

- ECED 3513. Economics for Teachers** Designed to give school teachers an overall view of the structure and operation of our economic system. Emphasis will be placed on preparing teachers to utilize economic concepts in analyzing current economic problems. For Education majors only, no credit for business majors. Demand.
- ECED 406V. Seminar in Business Issues** Advanced seminars on selected business topics designed to provide in service teachers with an in depth examination of the issues surrounding those topics. Demand.
- ECED 4513. Economic Education Workshop** Provides in service teachers a means for developing a fundamental understanding of our total economic system, its processes, problems and potentialities. Teachers learn how to relate this understanding to current economic issues and policies. This workshop will satisfy the requirement for teacher certification. Open to in service teachers, all grade levels. Summer.
- ECED 4523. Special Issues and Methods in Economic Education** Detailed examination of selected contemporary economic issues appropriate for grades kindergarten through twelve. Prerequisites, ECON 4513 and instructors approval. Demand.

Economics (ECON)

- ECON 2113. Business Statistics I** Statistical methods used in studying business and economic data, averages and dispersions, probability, sampling, statistical inference, estimation, tests of hypotheses, index numbers, linear regression and correlation. Prerequisite, MATH 1023 or MATH 2143. Student must have satisfied College of Business Computer Proficiency Requirement. Fall, Spring, Summer. (ACTS#: BUSI 2103)
- ECON 2313. Principles of Macroeconomics** National income accounting, inflation and unemployment, competing theories of national income, fiscal policy, the Federal Reserve system and monetary policy, and international trade. Fall, Spring, Summer. (ACTS#: ECON 2103)
- ECON 2323. Principles of Microeconomics** Principles of resource allocation, supply and demand, consumer behavior, costs of production, the competitive model, oligopoly, and factor markets. Fall, Spring, Summer. (ACTS#: ECON 2203)

- ECON 2333. Economic Issues and Concepts** Designed to give the student a basic understanding of our economic system. Basic economic concepts will be explored and contemporary economic problems and issues will be examined in light of the concepts learned. Fall, Spring.
- ECON 3113. Data Analysis** Computer integrated analysis of descriptive and inferential business statistics with an emphasis on the application of statistical techniques and interpretation. Prerequisite, ECON 2113. Demand.
- ECON 3313. Microeconomic Analysis** Designed to develop an analytical framework for the study of the determination of relative prices and the allocation of resources in a market economy. The course will cover consumer choice and demand, resource utilization and the theory of the firm, competitive market equilibrium and resource allocation, and noncompetitive market structures. Prerequisites, ECON 2313 and 2323. Fall.
- ECON 3323. Money and Banking** Monetary and banking history, with emphasis on the theory of money and banking in the United States, operations of commercial banks and the Federal Reserve System. Prerequisites, ECON 2313 and 2323. Spring.
- ECON 3353. Macroeconomic Analysis** Explains economic theories as they relate to national policy making. Emphasis on causes of inflation and unemployment. Prerequisites, ECON 2313 and 2323. Spring.
- ECON 3363. Labor Economics** The economics of labor markets, factors affecting economy demand for labor and the decisions of workers to supply labor. Current labor market problems such as unemployment, unions, poverty and productivity will be analyzed. Prerequisites, ECON 2313 and 2323. Demand.
- ECON 3703. Internship** Practice experience in economic research and development. Permission of department chair and internship director required. Demand.
- ECON 4103. International Trade** Economic theory and history of international trade. Topics such as comparative advantage, the effect of protectionism and determination of exchange rates will be emphasized. Prerequisites, ECON 2313 and 2323. This course can be counted as an Economics elective. This course is cross listed as IB 4103. Fall.
- ECON 4143. Export Policy and Procedures** Provides the rationale for exports and provides training on the skills for managing an export business. Coverage includes export promotion and incentives, lines and letters of credit, foreign exchange issues, international trade logistics, export documentation, and security and regulatory issues. Prerequisites, Completion of 60 hours. Spring.
- ECON 4303. Economics of Sports** Applies microeconomic theory to the sports industry. The course includes discussions of the economics of professional and intercollegiate athletics, applying the concepts of the collective bargaining, cartel behavior, game theory, antitrust issues, and public finance. Prerequisite, ECON 2323. Fall.
- ECON 4313. History of Economic Thought** Brief review of the doctrines of economic thinkers from early time through Marshall. Broader study of modern writers and theories. Prerequisites, ECON 2313 and 2323, or ECON 2333. Demand.
- ECON 4323. Economic Policy Analysis** Deals with public revenues, the theory of taxation, institutions and problems of the revenue system as a whole, and the effects of the taxing, spending, lending, and borrowing by government units upon the national income and employment. Prerequisites, ECON 2313 and 2323, or ECON 2333. Fall.
- ECON 4333. Government Regulation of Business** Survey of theoretical treatments of oligopoly, natural monopoly, and market failures, review of antitrust statutes applicable to price fixing, monopoly, mergers, vertical restraints, and price discrimination, social welfare trade-offs associated with public regulation of electric, natural gas, cable TV, and telecommunications firms. Prerequisite, ECON 2313, 2323. Spring.
- ECON 4343. Managerial Economics** Practice in the use of economic principles in solving business problems. Areas covered include uncertainty, forecasting, demand analysis, and capital management. Prerequisites, ECON 2313 and 2323, ECON 2113 and CIT 3523. Fall.

- ECON 4353. Economic Development** Primary concern is with theories and methods of economic development for developing countries. Agriculture, population, investment, natural resources, international relations and economic aid are the main topics of the course. Prerequisites, ECON 2313 and 2323. Demand.
- ECON 4363. Global Environmental Policies** This course examines the impact of human activities on ecosystems and vice versa, as well as the use of markets to manage the environment. Topics include environmental services, ecotechnology, pollution control, valuation, economics of climate change and biotechnology. Fall.
- ECON 468V. Special Problems in Economics** Individual problems in economics arranged in consultation with the instructor. Must be approved by department chair. Fall, Spring, Summer.

Finance (FIN)

- FIN 3713. Business Finance** Legal forms of American business organization, policies, methods, and institutions involved in financing business. The principles of financial management will be studied with emphasis on the corporation, including cash flows, securities, financial structures, expansion, and acquisitions. Prerequisite, ACCT 2133 or 2023. Fall, Spring, Summer.
- FIN 3733. Personal Finance** Concerned with management of the personal financial resources of the individual and the family. Provides guidance for consumer purchasing and credit, personal insurance, taxation, investing, estate planning, and social security. Designed for non-business majors, course counts only as a free elective, except where required in major. Demand.
- FIN 3763. Financial Institutions and Markets** An in depth study of financial institutions such as banks, savings and loans, insurance companies and financial markets. Primary emphasis will be on depository institutions. Prerequisite, FIN 3713. Fall, Spring.
- FIN 3773. Financial Risk Management** An in depth study of financial risks facing banks, such risks as those arising from fixed income and foreign exchange investments will be covered. Fall.
- FIN 3813. International Financial Management and Banking** Study of financial concepts and issues in banking as they relate to business decisions in a global economy. Demand.
- FIN 4293. New Venture Financing** Introduction to the dynamic challenges facing new business ventures in securing financial backing to support growth and development. Venture capital, internally generated funding and external sources of funding will be discussed along with debt and equity financing. Demand.
- FIN 4723. Investments** Security investment, the tools of investment analysis, the formulation of investment policy and the role of the individual investor in the economy. Prerequisite, FIN 3713. Fall, Spring.
- FIN 4743. Managerial Finance** Emphasis on principles and tools for analysis and decision making in working capital management. Studies include cash flow forecasting, inventory model applications, sources and uses of funds analysis, trade credit policies, and techniques of short and intermediate term sales forecasting. Prerequisite, FIN 3713. Spring.
- FIN 4753. Capital Management** Analysis of the management aspects relating to the inflows and outflows of permanent capital in business enterprises. Examines the management of long-term assets, long-term credit, equity and internal financing. Corporate expansion including mergers, acquisitions, corporate reorganization, and bankruptcies. Prerequisite: FIN 3713. Fall, Spring.
- FIN 4763. Bank Management** Principles used in the management of commercial banks, relating to loans, credit analysis, security portfolios, analysis and interpretations of Federal Reserve regulations and publications. Prerequisite, FIN 3713. Fall.
- FIN 4773. Advanced Bank Management** Applications of financial management techniques to bank management decisions through experiential learning opportunities. Computer based analysis, simulations, and written and oral presentations. Prerequisite, FIN 4763. Spring.
- FIN 4783. Internship in Bank Management** Supervised work experience with bank management in an appropriate banking environment. To earn intern credit, each student is expected to spend six to eight hours per week for 15 weeks or the equivalent at the bank. Prerequisites, Junior or Senior standing is required. Fall, Spring, Summer.

FIN 489V. Special Problems in Finance Individual problems in finance arranged in consultation with the instructor. Must be approved by department chair. Fall, Spring, Summer.

Law (LAW)

LAW 2023. Legal Environment of Business Introduction to the fundamental elements of the Anglo American legal system and its common law origins. The scope of the course will include the application and operation of the legal system in the remedy of business disputes, the development and operation of the court system, and the regulation of American business and industry by the United States government. Fall, Spring, Summer. (ACTS#: BLAW 2003)

LAW 4033. Law of Commercial Transactions Business related legal subject matter reflecting marketplace problems and considerations. Topics include the law of sales, secured transactions, commercial paper, contracts, and bankruptcy. Prerequisite, LAW 2023. Demand.

LAW 4043. Law of Business Organizations Business related legal subject matter reflecting marketplace problems and considerations. Topics include the law of corporations, partnerships, agency, and property. Prerequisite, LAW 2023. Fall, Spring, Summer.

LAW 4053. Employment Law Analysis of current employment law practices as applied to human resource management, with emphasis on federal and state civil rights laws. Prerequisites, LAW 2023. Spring.

LAW 459V. Special Problems in Law Individual problems in law arranged in consultation with the instructor. Must be approved by department chair. Prerequisite, LAW 2023. Fall, Spring, Summer.

Real Estate and Insurance (REI)

REI 3413. Real Estate Practice Introductory study of real estate business, basic principles of real property ownership, utilization, and transfer, mortgage financing, brokerage, management, valuation, and subdividing. Fall, Spring.

REI 3423. Real Estate Brokerage and Management Organization and conduct of real estate brokerage and managerial business and professional activities. Social, economic, legal, and ethical responsibilities of the real estate broker and real property manager. Demand.

REI 3513. Risk and Insurance Introductory study of the insurance business, risk theory, the insurance mechanism, fundamental legal principles and insurance contract analysis. Emphasis on the insurance needs of a typical American family. Fall, Spring.

REI 4413. Real Estate Law Study of the law of real estate, including the nature of real property, the real estate transaction, land use and regulation, and other legal issues in ownership, financing, leasing, development and sale of real property. Spring.

REI 4423. Real Estate Finance Instruments, techniques, and institutions of real estate finance, sources of funds, mortgage risk analysis, emphasis on typical policies and procedures used in financing of residential, industrial, and commercial properties. Spring.

REI 4433. Real Estate Appraising Factors influencing real property values, application of three approaches in determining the value of residential, commercial, and industrial properties. Fall.

REI 4443. Appraising and Investment Application of techniques used in analyzing potential return from income properties to arrive at investment decisions and estimates of real estate values. Prerequisite, REI 4433 or consent of instructor. Demand.

REI 4513. Property and Liability Insurance Analysis of risk theory, property and liability risks, and the economic functions of property insurance. The course treats traditional and modern theories of risk, property and liability coverages, and functional insurance areas. Spring.

REI 4543. Life Insurance Analysis of the economic functions of life insurance. Attention is centered on the human life value concept and the basic forms of life insurance and annuities. Legal aspects, contractual provisions and health and other specialized forms of human life value insurance are studied. Fall.

REI 459V. Special Problems in Real Estate and Insurance Individual problems in real estate and insurance arranged in consultation with the instructor. Must be approved by department chair. Fall, Spring, Summer.

REI 460V. Internship in Real Estate and Insurance Practical training in real estate or insurance within appropriate companies or agencies. To earn intern credit, each student will be expected to spend two hours with the firm per week per credit hour awarded. Prerequisites, REI 3413, for real estate, or REI 3513, for insurance, and approval of instructor. These prerequisite courses permit an individual to hold a valid license to practice in each respective field after passing the proper licensing examination. Internship requires a Junior classification or above. Demand.

DEPARTMENT OF MANAGEMENT AND MARKETING

Business Communications (BCOM)

BCOM 2563. Business Communication Theories and principles of written, interpersonal, and oral communication. Prerequisite, ENG 1013. Fall, Spring, Summer. (ACTS#: BUSI 2013)

BCOM 3573. Managerial Communication Advanced business communication course to develop business reports and presentations and to investigate technological business communication systems. Prerequisite, BCOM 2563. Fall, Demand.

International Business (IB)

IB 1013. The Global Challenge Discussion of current world economic and social issues and challenges as they relate to individual beliefs which determine our roles as global citizens. Students are required to participate in a service learning project, internationally or domestically, incurring expenses for travel. Demand.

IB 3013. Global Leadership Experience On-site examination of organizations, agencies, or locales in a region of the world involving the application of methods and techniques of investigation in International Business. This course has a 10 day service learning component with additional travel expenses required. Prerequisite, completion of 54 credit hours prior to enrollment in class. Demand.

IB 3813. International Financial Management and Banking Study of financial concepts and issues in banking as they relate to business decisions in a global economy. This course is cross listed as FIN 3813. Summer, odd.

IB 4103. International Trade Economic theory and history of international trade. Topics such as comparative advantage, the effect of protectionism and determination of exchange rates will be emphasized. Prerequisites, ECON 2313 and 2323. This course can be counted as an Economics elective. This course is cross listed as ECON 4103. Fall, Spring, Summer.

IB 4133. International Law Law relevant to transactions conducted in international markets. Covered topics include the concept, the sources, the force and effect, and the history and scope of international law. Prerequisite, BUAD 2023. This course can be counted as a BUAD elective. Demand.

IB 4143. Export Policies and Procedures Provides the rationale for exports and provides training on the skills for managing an export business. Coverage includes export promotion and incentives, lines and letters of credit, foreign exchange issues, international trade logistics, export documentation, and security and regulatory issues. Prerequisites, Completion of 60 hours. Spring.

IB 4273. Special Problems Independent research study dealing with the socioeconomic, political, and cultural environment of an area or foreign country. The study may also deal with the production, marketing, promotion, and pricing of a product abroad and with the management aspects of a multinational business. Fall, Spring, Summer.

IB 4283. Internship in International Business Studies Supervised work experience with a firm in a foreign country, the international division of a firm in the United States, an international institution, or a government agency dealing with international business or foreign relations. Provides a practical experience for international business students. Prerequisite, junior or senior classification and consent of instructor. Demand.

IB 438V. International Exchange This class is for students studying abroad for a semester on Exchange. It is only a credit no credit course with grades being transferred from the host institution upon completion of the semester. Demand.

Management (MGMT)

MGMT 3123. Principles of Management Overview of foundational management principles, including internal and external assessment and planning, organization structure and design, leadership and motivation, and decision and control processes. Fall, Spring, Demand.

MGMT 3143. Human Resource Management Functions and problems involved in personnel management with emphasis placed upon recruitment, selection, management development, utilization of and accommodation to human resources by organizations. Prerequisite, MGMT 3153. Fall, Spring, Demand.

MGMT 3153. Organizational Behavior An interdisciplinary analysis of the relationships of individuals and groups within the context of the organization, blending concepts drawn from psychology, sociology, philosophy, and communication theory with basic managerial concepts. Fall, Spring, Summer.

MGMT 3163. Labor Relations and Collective Bargaining Labor management relations in both the public and private sectors, with emphasis on the process of managing within a union environment that involves contract negotiation, mediation, and arbitration. Prerequisite, MGMT 3143. Fall, Demand.

MGMT 3173. Special Topics in Human Resources Study of selected topics in human resource management with special emphasis on issues of current importance in the field. Topic areas such as employment selection, development, negotiation, and diversity will be covered. Prerequisite, MGMT 3143. Demand.

MGMT 3183. Entrepreneurship Explores the nature of entrepreneurial activity, the basics of business plan development, new venture creation, and small business strategic planning. Spring.

MGMT 3193. Social Impact Management Examines the interdependence of business and society. Students will develop skills to manage social impacts and divergent stakeholder perspectives. Prerequisite, MGMT 3153. Spring.

MGMT 3613. Leadership Leadership processes and application at the organization, group, and individual levels. Emphasis on team activities. Prerequisite, MGMT 3123 or MGMT 3153. Fall, Summer.

MGMT 4123. International Management Systematic review of international environment forces and their influence on all management areas of the international firms, organizational structures, human resources, logistics, laws, and policy. Prerequisite, MGMT 3153 or MGMT 3123. Summer.

MGMT 4143. Organizational Change and Development Application of planned organizational change and development with an emphasis on how change occurs in dynamic organizational cultures in contemporary business organizations. Prerequisite, MGMT 3153. Fall.

MGMT 4163. Small Business Management The application of management, marketing, and finance to small business. The course addresses practical aspects of planning and organization, marketing, human resources, and financial control. Prerequisites, MKTG 3013, ACCT 2133, and MGMT 3153, or permission of instructor. Fall.

MGMT 4173. Compensation Management Design and administration of compensation systems. Deals with determinants of general pay level, job evaluation, wage and salary survey, fringe benefit plans and the impact of current government regulations on pay structures. Prerequisite, MGMT 3143. Spring, Demand.

MGMT 4183. Family Business Management Explores the challenges faced by family members directly involved in a family business. Topics discussed include business culture, entrepreneurial influences, family and non-family conflict, and needed survival skills for sons or daughters. Summer.

MGMT 4193. Management Internship Provides practical management experiences in personnel or industrial management. Senior students will be assigned to work with a regional firm, supervised by an experienced professional to gain real world training. Prerequisites, MGMT 3153 and consent of instructor. Fall, Spring, Summer.

MGMT 429V. Special Problems in Management Individual problems in management arranged in consultation with the instructor. Must be approved by department chair. Fall, Spring, Summer.

MGMT 4393. Management of Service Operations Examines issues essential to the success of a service oriented operation. Topics include, classification of services, service design and process selection, service, delivery system, capacity analysis, location, layout, automation, quality control, and scheduling. Heavy emphasis placed on case studies and analysis of real world scenarios. Demand.

MGMT 4813. Strategic Management Designed to give students the opportunity to study administrative processes under conditions of uncertainty including an integrating analysis applied to all fields of business. Special emphasis is given to policy determination at the overall management level. Prerequisite, Senior standing, last semester, and completion of all other College of Business core requirements. Strategic Management may not be taken by correspondence. Fall, Spring, Summer.

Marketing (MKTG)

MKTG 1013. Introduction to Business Basic concepts and major functions of business, and information to help students become better consumers. Recommended for non-business majors and College of Business freshmen or sophomores. Special course fees may apply. Fall, Spring, Demand.

MKTG 3013. Marketing Business activities performed which direct the flow of goods and services from producer to consumer or user in order to satisfy customers and accomplish company objectives. Special course fees may apply. Fall, Spring, Summer.

MKTG 3023. Applied Research Systematic gathering, organizing, and analyzing data to provide managers with information they need to make better decisions. Emphasis is placed on the use of secondary data. Report writing and presentation are stressed. Special course fees may apply. Prerequisites, ECON 2113 and BCOM 2563. Fall, Spring, Demand.

MKTG 3033. Advertising and Promotion The study of advertising and other communication methods including social media designed to create desired outcomes with target audiences. Special course fees may apply. Prerequisite, MKTG 3013. Demand.

MKTG 3043. Retailing Evaluation of the many elements in the dynamic retail field and a discussion of the responses of retailing institutions, including management policies and operating methods. Special course fees may apply. Prerequisite, MKTG 3013. Demand.

MKTG 3063. Transportation Introduction to transportation systems with emphasis on the significance of transportation in the business and economic environment. The course is designed to familiarize students with a development of our transportation network, transportation prices, rate theory, and regulatory policies and procedures. Special course fees may apply. Prerequisite, ECON 2323. Spring.

MKTG 3093. Professional Selling and Sales Management Introduction to the personal selling process, the functions of sales management, and current issues, legal and ethical issues, and the impact of technology as the topics relate to selling, the sales force, and sales management. Special course fees may apply. Prerequisite, MKTG 3013. Demand.

MKTG 3163. Supply Chain Management Aspects of moving raw materials and finished goods through the firms networks of warehousing, inventory control, materials management, and order processing. The student will examine trade off possibilities and management alternatives to minimize cost of production flow and to maximize customer service. Special course fees may apply. Prerequisite, MKTG 3013. Fall, Spring, Demand.

MKTG 4023. Services Marketing Application of marketing to service industries, with emphasis on the unique nature of services marketing when developing marketing strategies. Special course fees may apply. Prerequisite MKTG 3013.

MKTG 4043. Consumer Behavior Evaluation of the extensive body of research evidence pertaining to the consumer, and an assessment of the marketing implications of the various processes and facets of consumer motivation. Special course fees may apply. Prerequisite, MKTG 3013. Fall, Spring, Demand.

MKTG 4073. Social Media Marketing Examination and application of concepts of brand relationships using social media including consumer-to-consumer-to-brand communication. Current social media tools will be used in experiential learning designed to execute strategic marketing plans for business, government, and nonprofit entities. Prerequisite, MKTG 3013. Spring.

MKTG 4083. Marketing Research Design and Analysis Processes involved in gathering, recording, and analyzing all facts about problems relating to the transfer and sale of goods and services from producer to consumer. Special course fees may apply. Prerequisites, MKTG 3013 and MKTG 3023. Fall, Spring.

MKTG 4103. Concepts of Business Logistics This course addresses the concepts, principles, and methods used to plan, organize, and manage logistics activities in the supply chain. Prerequisite, MKTG 3163. Fall.

MKTG 4113. International Marketing Exporting and importing products, as well as the management of international operations. These include all phases of business activity related to operating marketing and sales facilities abroad, establishing production or assembly facilities in foreign areas, and creating licensing arrangements. Special course fees may apply. Prerequisite, MKTG 3013. Fall, Demand.

MKTG 4123. Organizational Purchasing This course addresses the strategic and operational aspects of purchasing functions in private and public organizations. Emphasis will be placed on the development and evaluation of suppliers in an organizational setting. Prerequisite, MKTG 3013. Spring.

MKTG 4133. International Logistics and Outsourcing Systematic review of concepts involved in supply chain outsourcing, with emphasis on the selection of service suppliers, the organized movement of goods between firms in more than one nation, and the unique aspects of international logistic processes. Prerequisites, MKTG 3163 or MKTG 4113 or MGMT 4123 or permission of Instructor. Fall.

MKTG 419V. Special Problems in Marketing Individual problems in marketing arranged in consultation with the instructor. Must be approved by the department chair. Special course fees may apply. Fall, Spring, Summer.

MKTG 4223. Marketing Management Evaluation and analysis of marketing strategies in competitive situations. Course examines various price, product, distribution, and promotion strategies that are essential to firms. Focus on the integration and assessment of these elements in developing and adapting a successful marketing strategy. Prerequisite, MKTG 3013. Fall, Spring, Demand.

MKTG 4273. Supply Chain Management Provides practical transportation experience in business. Senior students will be assigned to work with regional firms and be supervised by an experienced professional. Special course fees may apply. Prerequisites, MKTG 3163 and consent of instructor. Fall, Spring, Summer.

MKTG 4283. Marketing Internship Provides practical marketing experience in merchandising or transportation. Senior students will be assigned to work with regional firms, supervised by an experienced professional to gain real world training. Special course fees may apply. Prerequisites, MKTG 3013 and consent of instructor. Fall, Spring, Summer.

MKTG 431V. Health Care Marketing The course explores a variety of environmental factors which affect the delivery of health services at all levels and discusses marketing approaches and techniques to best meet the needs of the community served. Special course fees may apply. Prerequisite, MKTG 3013. Demand.

MKTG 4343. Sports Marketing The application of marketing principles and activities such as research, segmentation, product development, pricing, event marketing, sponsorship, consumer behavior, licensing, branding, advertising, and sales promotion tactics will be analyzed in the context of effective sports marketing. Special course fees may apply. Prerequisite, MKTG 3013. Summer.

MKTG 4393. Social and Non Profit Marketing Application of marketing in organizations addressing social issues related to health, environment, and community, with emphasis in sustainable business practices. Special course fees may apply. Prerequisite, MKTG 3013 or permission of instructor. Demand.

COLLEGE OF EDUCATION

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

DEPT. OF EDUCATIONAL LEADERSHIP, CURRICULUM AND SPECIAL EDUCATION

Curriculum and Instruction (ELCI)

- ELCI 4013. Curriculum and Assessment Instructional Theory and Practice** Course focuses on current theory and practice for instructional techniques and fundamentals of educational measurement as they apply to classroom situations. This course is a corequisite to the TI 4013 Teaching Internship in the Secondary School. Must be admitted to the Teacher Education Program. Fall, Spring.
- ELCI 4513. Teaching Global Perspectives** Promotes effective teaching of global perspectives through various subject matter in elementary and secondary schools. Emphasis on the identification, demonstration, and critical evaluation of appropriate instruction strategies and resources. Must be admitted to the Teacher Education Program. Summer.
- ELCI 4523. Middle School Curriculum** A practical and contemporary study of the organization and development of middle school curricula. Emphasis is on the study of subject field content trends, scheduling, curriculum scope and sequence, and student activities. Must be admitted to the Teacher Education Program. Summer.
- ELCI 480V. Special Topics Workshop** A designed series of learning experiences to address the specific needs of in-service teachers, administrators, or special service personnel. May not be used to satisfy any degree requirements. May be repeated for credit. Must be admitted to the Teacher Education Program. Demand.

Special Education (ELSE)

- ELSE 2733. Activity Based Instruction** This course will provide the teacher with knowledge of current theories, best practices, and strategies for working with children from birth to five years of age who have special needs. It is designed for early childhood educators and paraprofessionals. Must be admitted to the Teacher Education Program. Demand.
- ELSE 3023. Characteristics of Individuals with Disabilities** In depth study designed to develop knowledge of the characteristics of individuals with disabilities and the influence of these characteristic on the learning potential of these students. Must be admitted to the Teacher Education Program. Summer.
- ELSE 3643. The Exceptional Student in the Regular Classroom** Introduction to exceptional students, with the major focus on serving these individuals in regular education classroom environments. Must be admitted to the Teacher Education Program. Must have passed writing portion of Praxis 1. Fall, Spring, Summer.
- ELSE 4033. Behavior Intervention and Consultation** Techniques of systematic behavioral analysis, prevention, and intervention for students at risk for school failure or students with disabilities. Emphasis is placed on both direct and consultative interventions. Must be admitted to the Teacher Education Program. This course is dual listed ELSE 5033. Prerequisite, ELSE 3643 or equivalent. Spring, Summer.
- ELSE 4053. Educational Procedures for Individuals with Mild Disabilities** Techniques of systematic behavioral analysis, prevention, and intervention for students at risk for school failure or students with disabilities. Emphasis is placed on both direct and consultative interventions. Must be admitted to the Teacher Education Program. This course is dual listed ELSE 5033. Prerequisite, ELSE 3643 or equivalent. Spring, Summer.

ELSE 4083. Collaboration for Special Education Service Delivery A study of the team planning process, working with families, and service delivery options for special education, including special class placement, consultation, and collaborative teaching. This course is dual listed ELSE 5083. Prerequisites, ELSE 3643 or equivalent and entrance in the Teacher Education Program. Summer, Fall.

ELSE 4603. Secondary Curriculum and Career Development for Individuals with Mild Disabilities In depth study designed to develop knowledge and understanding of the prevocational and vocational curricula and programs for individuals with mild disabilities. Principles for providing occupational orientation and work experiences, and techniques of curriculum planning, program planning, materials and management will be included. Must be admitted to the Teacher Education Program. Demand.

ELSE 4623. Diagnostic and Corrective Mathematics Instruction in Special Education Developing a comprehensive perspective of diagnostic and corrective mathematics needs of students with mild disabilities. Emphasis will stress concept and skill development. Must be admitted to the Teacher Education Program. Demand.

ELSE 4633. Diagnostic and Corrective Reading Instruction in Special Education Developing a comprehensive understanding of diagnostic and corrective needs of students with reading disabilities in resource and self-contained classrooms. Must be admitted to the Teacher Education Program. This course is dual listed ELSE 5633. Prerequisite, ELSE 3643 or equivalent. Fall, Summer.

ELSE 4683. Methods for Working with Families Knowledge of family systems theory and the impact which a disability may have on the family system, awareness of family support and community resources, skills for effective communication, conferences, and collaboration. Development of effective interpersonal communicative skills, conducting conferences, designing training programs for families. Must be admitted to the Teacher Education Program. Demand.

ELSE 4703. Identification, Nature, and Needs for the Gifted, Talented, and Creative A comprehensive study of methods for identifying gifted, talented, and creative students. Includes characteristics and educational and social needs of this population in a variety of educational settings. Must be admitted to the Teacher Education Program. Spring.

ELSE 4713. Educational Procedures and Materials for the Gifted, Talented, and Creative Focus is on current theory and practice in planning educational programs for gifted, talented, and creative students. Must be admitted to the Teacher Education Program. Summer.

ELSE 4723. Assessment for Programming for Gifted, Talented, and Creative Instruments will be reviewed for the purpose of preliminary screening and to provide differentiated programming for gifted, talented, and creative. Must be admitted to the Teacher Education Program. Spring.

ELSE 4733. Gifted, Talented, and Creative Children in the Regular Classroom A study to facilitate the education of regular classroom teachers as they strive to assist in the identification of gifted, talented, and creative students and to further enhance the education of these students while in the regular classroom. Includes specific areas of giftedness pertaining to characteristics, identification, and differentiated instruction. Must be admitted to the Teacher Education Program. Demand.

ELSE 4743. Assessment of Young Child with Exceptionalities A study of evaluative and diagnostic instruments and procedures used with young exceptional children from birth to 8 years of age. This course is dual listed ELSE 5743. Prerequisites, ELSE 3643 or equivalent and entrance into the Teacher Education Program. ELSE 3643 may be taken concurrently. Fall.

ELSE 4753. Methods for Working with Young Children with Exceptionalities The purpose of this course is to provide teachers with knowledge of current theories, best practices, and strategies relevant to working with children from birth to age 8 who have disabilities. This course is dual listed ELSE 5753. Prerequisites, ELSE 3643 and ELSE 4743 and entrance into the Teacher Education Program. Spring.

ELSE 4816. Teaching Internship in Special Education Culmination of the early childhood dual certification program. Provides directed teaching under the supervision of a qualified teacher. Requires application of knowledge skills, and demonstration of appropriate dispositions for teaching. Must be admitted to the Teacher Education Program. Fall, Spring.

DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND SPORT SCIENCES

Athletic Training (AT)

AT 2201. Emergency Management in Athletic Training Laboratory A laboratory course offered concurrently with AT 2203 emphasizing emergency management techniques, such as spine boarding and splinting, in dealing with trauma resulting from injuries and illnesses suffered by an athletic population. Corequisite, AT 2203. Demand.

AT 2203. Emergency Management in Athletic Training The study and application of emergency management techniques in dealing with trauma resulting from injuries and illnesses suffered by an athletic population. Corequisite, AT 2201. Demand.

AT 2301. Clinical Instruction in Athletic Training I This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisite, Admission to the Athletic Training Education Program. Corequisite, AT 2311. Fall.

AT 2311. Clinical Experience in Athletic Training I This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Special course fee of \$17.50. Prerequisite, Admission to the Athletic Training Education Program. Corequisite, AT 2301. Fall.

AT 2401. Clinical Instruction in Athletic Training II This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisites, AT 2301 and AT 2311. Corequisite, AT 2411. Spring.

AT 2411. Clinical Experience in Athletic Training II This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Prerequisite, AT 2301 and AT 2311. Corequisite, AT 2401. Spring.

AT 2731. Care and Prevention of Athletic Injuries Laboratory A laboratory course offered concurrently with AT 2733 emphasizing the practical aspects of taping, wrapping, and injury assessment. Prerequisite, AT 2203 and AT 2201. Corequisite, AT 2733. Fall.

AT 2733. Care and Prevention of Athletic Injuries A course designed to introduce athletic training students to current principles and practices in the prevention, recognition, and management of athletic related injuries and illnesses. Prerequisite, AT 2203 and AT 2201. Corequisite, AT 2731. Fall.

AT 2883. Foundations of Athletic Training Course designed to introduce the prospective athletic training major to the mission, philosophy and objectives of the ASU Athletic Training Education Program, the role of the certified athletic trainer and the relationship of athletic training to the U.S. health care system. Areas of emphasis include history, scope of practice, current professional literature and career opportunities. Spring.

AT 3301. Clinical Instruction in Athletic Training III This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisites, AT 2401 and AT 2411. Corequisite, AT 3111. Fall.

AT 3311. Clinical Experience in Athletic Training III This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Special course fee of \$17.50. Prerequisites, AT 2401, AT 2411. Corequisite, AT 3301. Fall.

AT 3401. Clinical Instruction in Athletic Training IV This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisites, AT 3301 and AT 3311. Corequisite, AT 3411. Spring.

AT 3411. Clinical Experience in Athletic Training IV This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Prerequisite, AT 3301 and AT 3311. Corequisite, AT 3401. Spring.

AT 3731. Advanced Assessment of Athletic Injuries Laboratory A laboratory course in which students practice the advanced skills necessary to evaluate athletic related injuries and illnesses. Prerequisite, AT 2731 and AT 2733. Corequisite, AT 3733. Fall.

AT 3733. Advanced Assessment of Athletic Injuries Advanced course designed to develop further knowledge and skills related to the recognition, assessment, treatment, and appropriate medical referral of athletic injuries and illnesses. Prerequisites, AT 2731 and AT 2733. Corequisite, AT 3731. Fall.

AT 3741. Therapeutic Exercise Laboratory A laboratory course where students will practice the advanced skills necessary to rehabilitate athletic related injuries using therapeutic exercise techniques. Prerequisites, AT 3731 and AT 3733. Corequisite, AT 3743. Spring.

AT 3743. Therapeutic Exercise A study of clinical sports therapy techniques used in the rehabilitation and reconditioning of athletic related injuries. Prerequisites, AT 3731 and AT 3733. Corequisite, AT 3741. Spring.

AT 3831. Therapeutic Modalities Laboratory A laboratory course in which students will practice the skills necessary for the proper application of therapeutic modalities in the treatment of athletic related injuries. Prerequisites, AT 2731 and AT 2733, PHYS 2054. Corequisite, AT 3833. Spring.

AT 3833. Therapeutic Modalities A study of current theory and application in the use of therapeutic modalities in the athletic training setting. Prerequisites, AT 2731 and AT 2733, PHYS 2054. Corequisite, AT 3831. Spring.

AT 4301. Clinical Instruction in Athletic Training V This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisites, AT 3401 and AT 3411. Corequisite, AT 4311. Fall.

AT 4311. Clinical Experience in Athletic Training V This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Special course fee of \$17.50. Prerequisite, AT 3401 and AT 3411. Corequisite, AT 4301. Fall.

AT 4401. Clinical Instruction in Athletic Training VI This course is designed to instruct students in athletic training clinical proficiencies prior to practicing those proficiencies during a clinical experience. Prerequisites, AT 4301 and AT 4311. Corequisite, AT 4411. Spring.

AT 4411. Clinical Experience in Athletic Training VI This course provides a proficiency based supervised practical experience in athletic training required for certification by the BOC. Prerequisite, AT 4301 and AT 4311. Corequisite, AT 4401. Spring.

AT 4723. Athletic Training Administration A study of the standards, policies and practices in the organization, supervision and administration of athletic training programs. Emphasis will be placed upon planning, developing, organizing and directing an athletic training program in a variety of sports medicine settings. Prerequisites, AT 3743. Spring.

AT 4743. Athletic Training Seminar This course is designed for senior students in athletic training for the advanced study and discussion of specialized topics and contemporary issues related to the field of athletic training. Emphasis will be placed on professional development and employment preparation. For Athletic Training majors only. Prerequisite, AT 4723. Fall.

Driver Education (DRED)

DRED 4263. Basic Driver Education Instruction and application in the knowledge, skills, and attitudes needed for teaching safe driving. For certification in driver and traffic education. This is not a learn to drive course. Age requirement of 21 and possession of a valid driver license to enroll for this course. Summer.

DRED 4273. Advanced Driver Education Driver and traffic education with emphasis on advanced instruction and research in driver education. Prerequisite, DRED 4263. Summer.

Method and Materials Teaching Physical Education (EDPE)

EDPE 4583. Foundations of Exercise Science Assists the student to assimilate new and previously learned material prior to the internship experience. Special emphasis on PRAXIS II, goal development, teaching styles, methods, and problems encountered by beginning physical education teachers. Must be admitted to the Teacher Education Program. Fall, Spring.

Exercise Science (ES)

ES 3543. Human Anatomy and Anatomic Fundamentals of Motion Analysis of the parts of the human body and their position, structure, and functions as related to human motion. Fall, Spring, Summer.

ES 3553. Basic Physiology of Activity A basic study of the organs and systems of the human body, with particular emphasis on the effects of physical activity of the functioning of the systems. Fall, Spring, Summer.

ES 3623. Techniques of Physiological Fitness Assessment Study of graded exercise testing in the evaluation of functional work capacity. Testing modalities will include, treadmill, bicycle ergometer, bench or step testing, and field testing. Prerequisite, ES 3543. Fall, Spring.

ES 3633. Nutrition for Health, Sport and Exercise Provides the student with information about nutrition as it pertains to health, sport, and exercise. Spring, Summer.

ES 3653. Techniques of Aerobic Conditioning Principles and methods of exercise leadership. Includes exercise programming and participation, teaching methods, technique evaluation, supervision, and leadership for various types of group aerobic exercise programs including field, gymnasium and aquatic exercise. Corequisite, ES 3543 and 3553. Fall.

ES 3713. Cardiovascular Physiology This course is designed to introduce the student to the study of cardiovascular physiology with an emphasis on normal versus abnormal function. It provides an in depth study of the cardiovascular system and its various responses to acute and chronic exercise. Prerequisites, BIO, 2203, BIO 2201, BIO 2223, BIO 2221, and ES 3553. Spring.

ES 3743. Research and Statistical Methods in Exercise Science Fundamental aspects of the clinical research process involving human subjects. The course will include an overview of the research process, procedures, sampling data collection and analysis. Fall, Spring, Summer.

ES 4673. Exercise Prescription for Special Populations Provide the students with principles and practice in developing exercise regimens and programs specifically designed for special populations. Prerequisites, ES 3543, ES 3553, ES 4683. Spring.

ES 4683. Exercise Prescription and Fitness Programming The application of basic physiological principles in the prescription of exercise and the administration of conditioning programs for individuals of differing ages, health status, and occupational status. Prerequisite, ES 3543, 3553, ES 3623. Fall.

ES 4693. Techniques of Strength Training and Conditioning The study of current principles and procedures essential to strength training and conditioning practices. Emphasis is placed on the development and practical applications of aerobic conditioning, joint flexibility, and muscular strength, power and endurance programs. Prerequisites, ES 3543, ES 3553. Spring, Summer.

ES 4763. Kinesiology Mechanics of human motion and its application to physical activity. Prerequisite, ES 3543, Human Anatomy and Fundamentals of Motion. Fall, Spring, Summer.

ES 4813. Applied Motor Learning The study and practical applications of relevant motor learning theories and research related to exercise science, physical education, and sport programs. Prerequisites, ES 3543, ES 3553. Fall.

ES 4843. Practicum/Pre-Internship Introduction to field experience in exercise science in order to become familiar with the operational and procedural aspects of clinically based exercise facilities. Prerequisite, ES 3623, ES 3653, ES 3713, ES 4673, ES 4683. Corequisite, ES 4693. Spring.

Health (HLTH)

HLTH 2513. Principles of Personal Health Principles, problems, and practices in the development of positive health behavior. Fall, Spring, Summer.

HLTH 2523. First Aid and Safety Fundamentals, techniques, and practices of Standard First Aid and CPR as prescribed by the National Safety Council. Emphasis on programs of accident prevention in schools, homes, recreational areas, traffic safety. Fall, Spring, Summer.

HLTH 3523. Public and Community Health Examination of public and community health problems, their causes, and possible solutions from a local, state, national, and international perspective. Roles of the individual and the community, and functions of the various agencies involved with health related issues will also be studied. Fall.

HLTH 3533. Strategies for Teaching Health Education Theory and teaching techniques for effective health instruction. Spring, Summer.

HLTH 3563. Human Sexuality Emphasis given to human reproduction, courtship, marriage, parenthood, premarital and extramarital sex, and deviate sexual behavior. Fall, Spring.

HLTH 4513. Consumer Health An analysis of the health services and health products offered in the market place and study of principles involved in making wise consumer health choices. Summer.

HLTH 4523. Current Issues in Health Current issues and trends in personal, public, and international health with stress on individual research and readings. Fall, Summer.

HLTH 4543. Drug Use and Abuse An exploration of the physical, mental, emotional, and social aspects of drug use and abuse. Special attention will be focused on proper use of drugs within contemporary society. Fall, Spring, Summer.

HLTH 4573. The School Health Program The scope and function of the total school health program including common health problems, recommended program organization, and administrative practices. Demand.

HLTH 4633. Health Promotion Assessment and Planning Designed to facilitate students understanding of the process of conducting needs assessments with various populations and to help students learn how to plan a well designed program for implementation. Fall.

HLTH 4643. Health Promotion Implementation and Evaluation. Designed to facilitate students understanding of the process of program implementation and evaluation. Students will implement and evaluate various health interventions. Prerequisite, HLTH 4633. Spring.

HLTH 480V. Special Topics Workshop A specifically designed series of learning experiences to enhance the professional capabilities of teachers. Opportunity for participants to engage in meaningful learning activities and to interact with recognized professionals in the field. Course can be repeated for credit. Demand.

Health, Physical Education, Exercise Science (HPES)

HPES 1013. Introduction to Health, Physical Education and Sport Sciences Required course for all first-semester freshmen interested in the area of Health, Physical Education, and Sport Sciences, HPES. Course content will focus on the historical perspective of physical education, professional and vocational opportunities, and skills/knowledge needed to be a successful student. C or better required. Fall.

- HPES 1883. Foundations of Health, Physical Education and Sport Sciences** Introductory course for the prospective HPESS major. Provides insight to the history, sociological impact, and objectives of physical education and sport, with emphasis on current professional literature and vocational opportunities. HPESS majors must make a C or better in this course. Spring.
- HPES 4863. Internship in HPESS I** Capstone experience for Exercise Science, Health Promotion, Sport Management majors. Enrollment must occur during the last semester of the degree program. Must have completed all departmental requirements, including C or better in all major courses. Insurance fee of \$17.50. Prerequisite for Exercise Science majors only, ES 4843. Fall, Spring, Summer.
- HPES 4893. Internship in HPESS II** Capstone experience for Exercise Science, Health Promotion, Sport Management majors. Enrollment must occur during the last semester of the degree program. Must have all departmental requirements, including C or better in all major courses. Insurance fee of \$17.50. Prerequisites for Exercise Science majors only, ES 4843. Fall, Spring, Summer.
- HPES 4896. Internship in HPESS** Capstone experience for Exercise Science, Health Promotion, and Sport Management majors. Enrollment must occur during the last semester of degree program. Must have completed all departmental requirements, including C or better in all major courses. Insurance fee of \$17.50. Prerequisites, ES 4843 for Exercise Science majors only. Fall, Spring, Summer.

Physical Education (PE)

- PE 1002. Concepts of Fitness** Provides knowledge and appreciation of the importance of physical fitness for lifelong health, wellness, and a quality life, and opportunities for psychomotor development. Fall, Spring, Summer.
- PE 1011 Pilates and Fitness Yoga** The principles and concepts of Pilates and Fitness Yoga in developing overall body flexibility, strength and endurance as well as enhancing good body posture. Fall, Spring, Summer.
- PE 1021. Self Defense** Gain an understanding of the terminology and the physical techniques associated with self defense against kicks, strikes, grabs, and ground fighting. Fall, Spring.
- PE 1111. Physical Conditioning** Basic conditioning. The course includes weight training, circuit training, cardiovascular and respiratory activity. Fall, Spring, Summer.
- PE 1121. Figure Control** The principles and concepts of exercise as related to enhancement of personal appearance. Fall, Spring.
- PE 1131. Aerobic Exercise** Basic conditioning involving continuous rhythmical movement. Individualized fitness programs are developed for each student. Fall, Spring.
- PE 1141. Beginning Rugby** Introduction to the basic skills, rules, and strategy of rugby. Fall.
- PE 1151. Ultimate Frisbee** This course is designed to introduce students to the basic knowledge of the rules, nature, techniques and strategies of ultimate Frisbee as well as provide the opportunity to develop personal skills essential for the game. Spring.
- PE 1211. Hiking and Backpacking** Introduction to basic skills and knowledge of first aid, land navigation, outdoor skills, and equipment necessary to participate in hiking and backpacking. One weekend field trip required. Demand.
- PE 1241. Fitness Walking** Fundamental techniques of and benefits derived from a regimented aerobic walking program. Fall, Spring.
- PE 1311. Beginning Swimming** Non-proficiency course designed to teach basic swimming skills for non-swimmers or beginning swimmers. Fall, Spring.
- PE 1321. Water Aerobics** Basic conditioning involving aquatic exercise, opportunity to develop and maintain fitness while enjoying water activities. Demand.
- PE 1411. Track and Field** Introduction to the fundamentals of track and field activities. Fall, Spring.

- PE 1421. Racquetball** Introduction to the basic skills, rules, and strategy in racquetball. Demand.
- PE 1461. Archery** Introduction to fundamentals of recreational archery. Fall, Spring, Summer.
- PE 1471. Bowling** Introduction to the basic techniques of bowling. Special course fee, \$25.00. Fall, Spring.
- PE 1481. Tennis** Introduction to the basic skills, rules, and strategy in tennis. Fall, Spring.
- PE 1491. Badminton** Introduction to the basic skills, rules, and strategy in badminton. Fall, Spring.
- PE 1501. Golf** Introduction to the basic skills, rules, and strategy in golf. Fall, Spring.
- PE 1511. Gymnastics** Introduction to the basic skills in tumbling. Designed for BSE physical education majors. Fall, Spring.
- PE 1601. Soccer** Introduction to the basic skills, rules, and strategy in soccer. Fall, Spring.
- PE 1611. Basketball** Introduction to the basic skills, rules, and strategy of basketball. Fall, Spring.
- PE 1621. Volleyball** Introduction to the basic skills, rules, and strategy of volleyball. Fall, Spring.
- PE 1641. Flag and Touch Football** Introduction to the basic skills, rules, and strategy of flag and touch football. Fall, Spring.
- PE 1651. Softball** Introduction to the basic skills, rules, and strategy of softball. Fall, Spring.
- PE 2141. Intermediate Rugby** Instruction in skill, strategy, and techniques in rugby. For students who have already acquired the basic skills of rugby. Spring.
- PE 2311. Intermediate Swimming** Instruction and practice in five basic swimming strokes. Fall, Spring.
- PE 2461. Intermediate Archery** Archery experience with the option for earning a N.A.A. Level I Archery Instructor Certification. Instruction includes arrow repair, bow maintenance, and shooting indoors and outdoors. Prerequisite, PE 1461 or Instructor approval. Spring.
- PE 2833. Introduction to Professional Golf Management** An introductory course that studies professional golf course management and operations. Topic areas include strategic planning for golf businesses, risk management for golf equipment and facilities, turf management, concessions, and marketing strategies and services. Fall, Demand.
- PE 3723. Sports in Cinema** This course is to provide students opportunities to explore literature and deconstruct films by analyzing the message elements attached to cinematic sports. Spring, Summer.
- PE 3752. Advanced Swimming and Lifeguarding** Development of swimming and opportunity for certification in lifeguarding. Prerequisite, Intermediate swimming skill. Demand.
- PE 3782. Skin and Scuba Diving** Opportunity for Y.M.C.A. certification pending completion of specified requirements. Prerequisite, Consent of instructor. Special course fee, \$30.00. Fall, Spring.
- PE 3802. Physical Education for Teachers of Young Children** The philosophy, aims, and objectives of physical education in the grades P through 4, includes laboratory experiences. Prerequisite SCED 2513. Fall, Spring, Summer.
- PE 3813. Concepts of Athletic Training** A course designed for physical educators, coaches and students interested in the care of sports related injuries. Spring, Summer.
- PE 3823. Theory and Practice of Teaching Rhythmical Activities** The values, scope, and analysis of rhythmical activities and basic movement experiences. Emphasis is given to instructional techniques and program progression. Prerequisite SCED 2513. Fall, Spring.

- PE 3832. Theory and Practice of Teaching Fitness Concepts** Instructional strategies designed to teach, develop and assess health related fitness components for grades P through 12. Prerequisite, PE 1002. Fall, Spring.
- PE 3842. Theory and Practice of Teaching Leisure Sports** Instructional strategies for teaching skill techniques, progression, and planning in selected leisure sport activities, archery, bowling, golf, table tennis, for students in grades P through 12. Prerequisite, SCED 2513. Fall, Spring.
- PE 3853. Sports Promotion and Sales Management** Theories, concepts, and research associated with sport consumer behaviors. Prerequisite, Junior level standing. Spring.
- PE 3862. Theory and Practice of Teaching Racket Sports** Instructional strategies for teaching skill techniques, progression, and planning in selected racket sports, badminton, racquetball, pickleball, and tennis, for students in grades P through 12. Prerequisites, SCED 2513 and PE 3802. Fall, Spring.
- PE 3863. Economic and Financial Management for Sport Organizations** Financial concepts and theories and their application in the professional, intercollegiate, and commercial sport industries. Prerequisite, FIN 3713. Fall.
- PE 3872. Rules and Officiating** A study of rules and techniques in officiating the following sports, baseball and softball, basketball, football and touch football, soccer, track and field, and volleyball. Fall, Spring.
- PE 3873. Facility and Event Management** Principles and practices for operating athletic centers and recreational facilities. Spring.
- PE 3892. Theory and Practice of Teaching Team Sports** Skill techniques, progression, and planning for instruction in basketball, flag and touch football, soccer, softball, and volleyball for students in grades P through 12. Prerequisite, SCED 2513. Fall, Spring.
- PE 3893. Sports in Society** An overview of the impact and significance of play and sports as a social institution. Fall, Summer.
- PE 4663. Motor Skills Development for Children** Appropriate content and skill performance levels in basic game skills and gymnastics for grades K through 6. Spring, Summer.
- PE 4703. Adaptive Physical Education** Enables the prospective teacher to, A. understand the value of physical education for students with disabilities, B. plan programs designed to assist students with physical, mental, and emotional disabilities in developing their maximum potential through physical activity. Fall.
- PE 471V. Independent Study** Student may engage in supervised study of physical education issues. Demand.
- PE 4743. Legal Issues in Sport** Legal issues as it relates to the law, liability, legal systems and the rights of those involved in the sport, exercise, and the fitness industry. Fall.
- PE 4753. Physical Education Curriculum** The course is designed to prepare prospective teachers to develop, implement, and assess the curricula within physical education. Fall.
- PE 4773. Organization and Management of Sports Programs** Planning, organizing, leading, and evaluating of institutional and community sports programs. Fall.
- PE 4783. Organization and Administration of Physical Education** Problems relating to the planning and management of physical education programs in the public school. Fall, Spring.
- PE 4793. Evaluation in Physical Education** Tests and evaluation procedures in the areas of physical fitness, motor ability, skill, and knowledge. Emphasis is placed on the administration of tests and use of results. Spring.
- PE 480V. Special Topics Workshop** A specifically designed series of learning experiences to enhance the professional capabilities of teachers. Participants engage in meaningful learning activities and interact with recognized professionals in the field. May not be used to satisfy any degree requirements. May be repeated for credit. Demand.
- PE 4822. Theory and Practice of Coaching Football** Team offenses and defenses, playing strategy, rules, scouting, and conditioning of players are discussed. Practice in basic fundamentals. Fall.

- PE 4823. International Sports Venues** Provides a critical perspective of managing international sports venues including planning, design, operations, maintenance, marketing, finance, and event management. Students are exposed to sport venues and management practices in the international sport environment through study abroad. Summer. Permission of instructor required.
- PE 4832. Theory and Practice of Coaching Basketball** Class follows same pattern as described in 4822 above. Spring.
- PE 4842. Theory and Practice of Coaching Track** Instruction and practice in performing track events with emphasis on teaching techniques, also practicum in conducting competitive meets. Spring.
- PE 4843. Philosophy and Ethics in Sport** An exploration of major issues, ethical theories, moral reasoning and their impact on the operation of programs in sport, physical education, fitness, athletics, and recreation. Spring.
- PE 4852. Theory and Practice of Coaching Baseball** Class follows same pattern as described in 4822 above. Fall.
- PE 4853. Applied Psychology of Sport and Exercise** The study and practical applications of relevant psychological theories and research related to physical education, exercise, and sport programs. Fall.
- PE 4872. Theory and Practice of Coaching Volleyball** Class follows same pattern as described in 4822 above. Fall.
- PE 4873. Organization and Administration of Interscholastic Athletics** A detailed study of problems encountered by coaches in planning and managing athletic contests, includes coaching psychology. Fall, Summer.
- PE 4882. Theory and Practice of Coaching Soccer** This course is designed to provide prospective athletic coaches with knowledge and skill introduction regarding the game of soccer. Spring.
- PE 4883. Practicum in Elementary Physical Education** Experience in working with elementary children, including planning and implementing the program. Requires 90 hours of direct contact with elementary age children. Prerequisites, Admission to Teacher Education Program and completion of 75 hours including PE 3823 and 4663. Special course fee, \$17.50. Summer.

Teaching Internship (TIPE)

- TIPE 4825. Physical Education Teaching Internship in the Secondary School** Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIPE 4826. Physical Education Teaching Internship in the Secondary School** Twelve semester hours. Full semester of teaching internship. Fall, Spring.

DEPARTMENT OF PSYCHOLOGY AND COUNSELING

Psychology (PSY)

- PSY 1013. Making Connections Psychological Wellness** Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.
- PSY 2013. Introduction to Psychology** Study of the important scientific, principles of individual human behavior from biological, cognitive, social, and behavioral perspectives. Fall, Spring, Summer. (ACTS#: PSYC 1103)

- PSY 2023. Psychology as a Science and a Profession** An overview of psychology as a science and as a profession encompassing psychological research methods, an exploration of the major and skills required for successful completion, areas of specialization, careers in psychology, and post-graduate opportunities. Fall, Spring.
- PSY 3101. Quantitative Methods Laboratory** Laboratory for Quantitative Methods Laboratory associated with PSY 3103. Two hours per week. Corequisite, PSY 3103. Fall, Spring, Summer.
- PSY 3103. Quantitative Methods for Behavioral Sciences** Introduction to basic statistical techniques and methodology applicable to research problems in the behavioral sciences. Prerequisite, MATH 1023 or a more advanced mathematics course. Corequisite, PSY 3101. Fall, Spring, Summer.
- PSY 3113. Research Design in Psychology** An introduction to psychological research with emphasis on the critical functions and limitations of both experimental and non-experimental designs, ethics, measurement, and statistical analyses of relevance. Prerequisites, PSY 2023 and PSY 3103. Fall, Spring.
- PSY 3121. Experimental Methods in Psychology Laboratory** Laboratory for Experimental Psychology Laboratory associated with PSY 3123. Two hours per week. Corequisite, PSY 3123. Fall, Spring.
- PSY 3123. Experimental Methods in Psychology** An indepth consideration of the ethical application of experimental design and methods toward a causal analysis of behavior. Emphasis is on ethical issues directly relevant to control procedures and researcher conduct and bias and developing skills necessary to recognize and utilize the components of experimental design and to interpret and evaluate results. Prerequisite, PSY 3113; Corequisite, PSY 3121. Fall, Spring.
- PSY 3303. Motivation** Survey of animal and human research in motivation. Topics include instincts, biological drives, acquired drives, incentive, secondary reinforcement, frustration, and theories of motivation. Fall, Summer.
- PSY 3403. Child Psychology** Principles and patterns of mental, social, emotional, and physical development. No more than 6 credit hours from the following courses may be used to satisfy the requirements for a major or minor in psychology, PSY 3403, PSY 3413, and PSY 3453. Fall, Summer.
- PSY 3413. Adolescent Psychology** The influence of factors including cognition, motivation, perception, learning, emotion, and personality on development during adolescence. No more than 6 credit hours from the following courses may be used to satisfy the requirements for a major or minor in psychology, PSY 3403, PSY 3413, and PSY 3453. Spring, Summer.
- PSY 3453. Developmental Psychology** Study of the life cycle from prebirth through death including an examination of the major methods, theories, and empirical findings. No more than 6 credit hours from the following courses may be used to satisfy the requirements for a major or minor in psychology, PSY 3403, PSY 3413, and PSY 3453. Fall.
- PSY 3523. Introduction to Social Psychology** Analysis of the situational factors which influence various behaviors including aggression, altruism, and interpersonal attraction. Fall, Summer.
- PSY 3603. Positive Psychology** Scientific study of happiness, psychological well-being, and character strengths. Spring.
- PSY 3613. Cultural Psychology** This course focuses on issues of how human culture impacts the individuals behavior, attitudes, and mental health. Fall.
- PSY 3703. Educational Psychology** Survey of principles as they apply to education. Fall, Spring, Summer.
- PSY 380V. Special Problems in Psychology** Individual problems in psychology arranged in consultation with the instructor and the department chairman. May be repeated for credit but no more than 6 credit hours may be applied toward psychology major requirements. Demand.

- PSY 3823. History of Psychology** Overview of the history of psychology and recent systematic developments. Fall, Spring, Summer.
- PSY 4053. Today's Families: Interdisciplinary Approaches** An interdisciplinary course designed to promote a critical approach to examining the family and its role in society. Prerequisite, 12 hours of coursework in Interdisciplinary Family Minor OR Instructors Permission. Demand.
- PSY 4173. Introduction to Psychological Tests and Measurements** Overview of theoretical and practical aspects of the assessment and prediction of human behavior. Includes principles and application of group and individual standardized measures as well as investigator made measures. Prerequisites, Three hours of statistics or permission of instructor. Spring.
- PSY 4323. Physiological Psychology** Physiological bases of psychological constructs such as memory, reinforcement, attention, sleep, and motivation as each applies to humans and infrahuman species. Spring.
- PSY 4343. Learning Processes** The study of behavioral adaptation at the level of the individual. Includes empirical and theoretical issues related to classical and instrumental conditioning, complex learning, memory, and the neural bases of learning and memory. Human and infrahuman data are considered. Fall.
- PSY 4363. Cognitive Psychology** The study of human thinking, emphasizing empirical knowledge on processes involved in information processing, memory, knowledge representation, language, and problem solving. Spring.
- PSY 4533. Abnormal Psychology** An introduction to various mental disorders, including their origins and characteristics. Fall, Spring, Summer.
- PSY 4543. Personality Development** Principles of development and organization of personality, with emphasis on influencing agents. Spring, Summer.
- PSY 4723. Organizational Psychology** Provides an understanding of leadership, motivation, job satisfaction, communication, decision making, stress, and group process as related to organizational development, maintenance, and productivity. Demand.
- PSY 480V. Special Topics Workshop** Study of selected professional topics. May not be used to satisfy any degree requirements. May be repeated for credit. Demand.
- PSY 4853. Psychological Seminar** Provides intensive coverage of contemporary psychological topics. Prerequisite, 12 hours of psychology and permission of instructor. May be repeated for credit. Demand.

DEPARTMENT OF TEACHER EDUCATION

Early Childhood Education (ECH)

- ECH 2003. Introduction to Educational Technology** Introduction to the use of technology in an educational setting, including system operations. Cross-listed with MLED 2003. Fall, Spring, Summer.
- ECH 2013. Survey of Early Childhood Education** Focuses on historical and philosophical foundations, current and legal issues, program models and settings and how to apply appropriate strategies to early childhood education programs. Seven clock hours of required observation. Fall, Spring, Summer.
- ECH 2033. Introduction to Teaching: Field Experiences I** An overview of the purposes and functions of education. The complex role and responsibilities of a teacher begin to be examined within the school setting. Thirty clock hours of elementary classroom observation required. Prerequisite, 15 semester hours. Cross-listed with MLED 2033. Fall, Spring.

- ECH 2023. Child Development** Study of relevant child development data, encompassing development from conception to the middle childhood years. Practical application of theory is provided through a variety of hands on experiences and observations. Five clock hours of experience with children, as identified by instructors. Fall, Spring, Summer.
- ECH 3004. Instructional Models, Strategies and Assessment** Develops pedagogical knowledge, lesson planning skills, and rehearsal of effective assessment and evaluation practices. Content centers on research in teaching and curriculum. Must be admitted to the Teacher Education Program. Cross-listed with MLED 3004. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3073, ECH 3083, ELSE 3643. Fall, Spring, Summer.
- ECH 3013. Children's Literature in the Preschool and Primary Grades** Introduces trade books currently available for young children and the role literature plays in their literacy development. Three clock hours of Field Experience in Preschool through 4th grade settings. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023. Fall, Spring, Summer.
- ECH 3043. Program Development and Management for Early Care and Education Centers** Provides students with knowledge and skills to develop and manage early childhood programs focusing on the care and education of infants and toddlers. Five clock hours of Field Experience required. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023. Fall, Spring, Summer.
- ECH 3053. Curriculum Development in Early Childhood Education** Provides students with opportunities to develop and implement appropriate curriculum experiences in the Preschool and Kindergarten setting. Three clock hours of work in the P through 3 settings. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3073, ECH 3083, and ELSE 3643. Fall, Spring, Summer.
- ECH 3063. Individualizing Programs for Children and Families** Methods for individualizing programs for young children and their families, based upon individual strengths and needs. Six clock hours of observation required. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3073, ECH 3083, ELSE 3643. Fall, Spring, Summer.
- ECH 3073. Children, Families, and Community Relations: Field Experiences II** Requires performance of skills and strategies for developing positive relationships with children and families and provides opportunities for interaction with community resources. A minimum fifty clock hours of field experience with infants, toddlers and preschoolers and 25 hours with agencies. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023. Fall, Spring, Summer.
- ECH 3083. Integration of Technology into the Curriculum** Teaches preservice teachers in the early childhood and middle level programs how to integrate educational technology into the classroom curriculum. Prerequisites, Admission to the Teacher Education Program, ECH 2003, ECH 2013, ECH 2023 and ECH 2033. Fall, Spring, Summer.
- ECH 3603. Literacy for Children and Families** Provides students with knowledge of literacy development beginning at birth, and methods to involve families in the literacy process. Six clock hours of observation is required with infants, toddlers, and preschoolers. Prerequisites, ECH 2013, 2023. Spring.
- ECH 3613. Strategies for Supporting Learning Through Play** Emphasizes the role of play in the development and learning of typically and atypically developing children, play as a mode to understand children, and strategies to use play to support the learning and development of children. Ten clock hours of Field Experience required. Prerequisites, ECH 2013, ECH 2023. Spring.
- ECH 4002. Classroom Management for Inclusive Settings** Group and individually oriented best practices for classroom management, discipline and positive behavior guidance with a focus on inclusive classrooms. Prerequisites, Admission to the Teacher Education Program, ELSE 3643, ECH 3073. Corequisite, ELSE 4033. Spring.

- ECH 4012. Organizing and Managing the Learning Environment** Techniques of classroom management, theories of discipline, and positive behavior guidance. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2023, ECH 2033, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ECH 3004, RDNG 3203, ELSE 3643. Corequisites, RDNG 4403, ECH 4013, ECH 4023, ECH 4043. Fall, Spring.
- ECH 4013. Field Experience III Pre-Internship** Observing, teaching, evaluating curriculum and materials, managing classrooms, and addressing the diverse needs and learning strategies of children. 240 clock hours of Field Experiences required. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 3004, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ELSE 3643, RDNG 3203. Corequisites, RDNG 4403, ECH 4012, ECH 4023, ECH 4043. Fall, Spring.
- ECH 4023. Methods and Materials of Language Arts and Social Studies in Early Childhood** Methods for teaching language arts and social studies and the integration of these subjects across the curriculum. Three clock hours of field experience. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ECH 3004, ELSE 3643, RDNG 3202. Corequisites, RDNG 4403, ECH 4012, ECH 4013, ECH 4043. Fall, Spring.
- ECH 4043. Methods and Materials of Math and Science in Early Childhood** Acquaints preservice teachers with the scientific and mathematic process skills. Emphasis placed on three types of learning, naturalistic, informal, and structured. Also the interrelatedness of Math and Science. Three clock hours of field experience. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ECH 3004, RDNG 3203, ELSE 3643. Corequisites, RDNG 4403, ECH 4012, ECH 4013, ECH 4023. Fall, Spring.
- ECH 4053. Today's Families: Interdisciplinary Approaches** An interdisciplinary course designed to promote a critical approach to examining the family and its role in society. Prerequisite, twelve hours of coursework in Interdisciplinary Family Minor OR Instructor's Permission. Spring.
- ECH 4061. Early Childhood Education Symposium** A symposium with an identified theme related to current events or needs in the field of early childhood education. Designed for early childhood professionals. May be repeated. Summer.
- ECH 4063. Social Foundations of Education** Develops a basic understanding of the foundations of the educational function in American society. Emphasis on the history, philosophy, and professional aspects of teaching. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ECH 3004, ELSE 3643, RDNG 3203. Fall, Spring, Summer.
- ECH 4086. Teaching Internship in Early Childhood Education Kindergarten** Six semester hours. Prerequisite, Admission to the internship semester as specified by the Office of Professional Programs of the College of Education. Must be admitted to the Teacher Education Program. Special course fees may apply. Fall, Spring.
- ECH 4096. Teaching Internship in Early Childhood Education Primary Grades 1 to 3** 6 semester hours. Prerequisite, Admission to the internship semester as specified by the Office of Professional Programs of the College of Education. Prerequisites, Admission to the Teacher Education Program. Special course fees may apply. Fall, Spring.
- ECH 4603. Physical and Psychological Environments for Young Children** Explores the physical and psychological environments needed to support development of the whole child. Includes health, safety, nutrition, physical arrangements and space, communication, guidance and group management. Ten clock hours of Field Experience required. Prerequisites, ECH 3603, ECH 3613, Corequisite, ECH 4613. Fall.
- ECH 4613. Curriculum and Assessment for Early Care and Education** Develops knowledge for assessing children and implementing appropriate curriculum for young children. Includes study of the curriculum, integrated units, observational methods and self assessment. Ten clock hours of Field Experience required. Prerequisites, ECH 3603, ECH 3613. Corequisite, ECH 4603. Fall.
- ECH 4623. Child Care Program Management and Mentoring** Introduction to basic management and administration of child care programs, including programs for out of school time of elementary grade children. Includes policies, procedures, staff supervision and mentoring, funding, finances, licensing, and curriculum implementation. Emphasis on professional development, including ethics and advocacy. Prerequisites, ECH 4603, ECH 4613. Spring.

ECH 4636. Practicum in Early Care and Education Students observe and effectively participate in a group setting for young children for extended periods of time, increasingly responsible for all aspects of the group. This course includes a seminar which will focus upon professionalism. Prerequisites, ECH 4623. Summer.

ECH 480V. Special Topics Current subjects of interest in Early Childhood Education professionals with appropriate subtitles. All special topics must be approved by teacher education curriculum committee. One, two, or three credit hours. Special topics may be applied as an elective course to a degree program with permission of advisor and department chair prior to enrollment in the course. Must be admitted to Teacher Education Program. Demand.

Elementary Education (ELED)

ELED 1001. Introduction to Technology Designed to teach students the prerequisite skills needed for ELED 3063, and for preservice education students new to or uncomfortable with technology. Must be admitted to the Teacher Education Program. Special course fees may apply. Demand.

ELED 3003. Human Growth and Learning Study of the nature and development of the child, including major theories of learning and learning processes. Four clock hours of child study projects required. Must be admitted to the Teacher Education Program. Special course fees may apply. Demand.

ELED 4053. Teacher-Made Materials for Use in Learning and Interest Centers Applies philosophical and theoretical course content by demonstrating appropriate teaching devices and requiring students to develop materials essential to the functioning of the activity approach to curriculum. Must be admitted to the Teacher Education Program. Special course fees may apply. Prerequisite, 12 hours of coursework in interdisciplinary Family Minor or instructor's permission. Demand.

ELED 4613. Techniques of Behavior Management Techniques of systematic behavioral intervention, including all areas of exceptionality in regular classes, special classes, itinerant and resource programs. Students must complete a fifteen clock hour case study and behavior management project. Must be admitted to the Teacher Education Program. Special course fees may apply. Summer.

ELED 480V. Special Topics Current subjects of interest to graduate and undergraduate Early Childhood Education or other educational professionals with appropriate subtitles. Course may include intensive study of subjects to meet the need of professional educators. All Special Topics Courses must be approved by the Teacher Education Department Curriculum Committee. May be taken for one, two or three credit hours, in any combination, for up to three hours of credit. Special Topics may be applied as elective credit toward a degree program with the written permission of the academic advisor and department chair prior to enrollment in the course. Must be admitted to the Teacher Education Program. Special course fees may apply. Demand.

Middle-Level Education (MLED)

MLED 2003. Introduction to Education Technology Introduction to the use of technology in an educational setting, including system operations. Cross-listed with ECH 2003. Fall, Spring, Summer.

MLED 2033. Introduction to Teaching: Field Experiences I An overview of the purposes and functions of education. The complex role and responsibilities of a teacher begin to be examined within the school setting. Thirty clock hours of elementary classroom observation required. Prerequisite, 15 semester hours. Cross-listed with ECH 2033. Fall, Spring.

MLED 3002. Theories and Strategies of Middle Grades Classroom Management Techniques of classroom management, theories of discipline, and positive behavior guidance for the young adolescent. Prerequisites, Admission to the Teacher Education Program, MLED 3003. Fall, Spring.

MLED 3003. Nature and Needs of the Middle Level Learner Examines theories and research on the development and needs of the middle level learner. Includes examination of the physical, cognitive, emotional, moral, and social development of 9 to 15 year olds. Three clock hours of fieldwork are required. Prerequisites, Admission to the Teacher Education Program. Fall, Summer.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

MLED 3004. Instructional Models, Strategies and Assessment Develops pedagogical knowledge, lesson planning skills, and rehearsal of effective assessment and evaluation practices. Content centers on research in teaching and curriculum. Must be admitted to the Teacher Education Program. Cross-listed with ECH 3004. Prerequisites, MLED 3083. Spring, Summer.

MLED 3013. Literacy Through Literature for the Middle Grades Designed to assist preservice teachers in becoming widely acquainted with the role literature plays in the continuing literacy development of middle level students. Features current trade books and other literary forms. Four clock hours of fieldwork are required in middle level classroom settings. Prerequisites, Admission to the Teacher Education Program. Spring, Summer.

MLED 3073. Key Issues of Teaching and Learning in the Middle Grades Presents the current and emerging trends in middle grade curriculum development and instructional practices. Ten clock hours of fieldwork are required. Prerequisites, Admission to the Teacher Education Program, MLED 3003, MLED 3004. Summer.

MLED 3083. Integration of Technology into the Curriculum Teaches preservice teachers in the early childhood and middle level programs how to integrate educational technology into the classroom curriculum. Prerequisites, Admission to the Teacher Education Program, MLED 2003. Fall, Spring, Summer.

MLED 4013. Methods and Materials for Teaching Language Arts and Social Studies in the Middle Grades Methods course using language arts as an integrating factor in social studies content. Application of integrated teaching activities required. Three clock hours of fieldwork required. Prerequisites, Admission to the Teacher Education Program, MLED 3002, MLED 3003, MLED 3004, Pre- or corequisite, MLED 3073. Fall.

MLED 4023. Methods and Materials for Teaching Mathematics and Science in the Middle Grades The course includes scientific and mathematical process skills, the interrelated nature of mathematics and science. Three clock hours of fieldwork is required. Prerequisites, Admission to the Teacher Education Program, MLED 3002, MLED 3003, MLED 3004, Pre- or corequisite, MLED 3073.. Fall.

MLED 4033. Curriculum Applications in the Middle Grades: Field II The application of instructional practices conducive to successfully teaching and assessing the middle level learner. Requires extended fieldwork. Prerequisites, Admission to the Teacher Education Program, MLED 3002, MLED 3003, MLED 3004, Pre- or corequisite, MLED 3073. Fall.

MLED 4063. Social Foundations of Education Develops a basic understanding of the educational function in American society. Emphasis on the history, philosophy, and professional aspects of teaching. Prerequisites, Admission to the Teacher Education Program. Fall, Spring, Summer.

MLED 4106. Teaching Internship in Middle Grades 4 to 5 Culmination of the middle level education program. Provides eight weeks of directed teaching under the supervision of a qualified teacher. Requires application of knowledge, skills, and demonstration of appropriate dispositions for teaching. Prerequisite, Admission to the internship semester as specified by the Office of Professional Education Programs of the College of Education. Special course fees may apply. Prerequisites, Admission to the Teacher Education Program. Fall, Spring.

MLED 4116. Teaching Internship in the Middle Grades 6 to 8 Culmination of the middle level education program. Provides eight weeks of directed teaching under the supervision of a qualified teacher in an appropriate area of specialty. Requires application of knowledge, skills, and demonstration of appropriate dispositions for teaching. Prerequisite, Admission to the internship semester as specified by the Office of Professional Education Programs of the College of Education. Special course fees may apply. Prerequisites, Admission to the Teacher Education Program. Fall, Spring.

Reading (RDNG)

RDNG 3003. Reading Acceleration For students who have a need to develop efficiency in reading. Demand.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

RDNG 3203. Foundations of Reading Instruction Introductory course focusing on the theories of reading and the reading process, with an introduction to the history of reading instruction and approaches and materials for teaching reading. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2023, ECH 3013, ECH 3043, ECH 3073, ECH 3083, ELSE 3643. Fall, Spring, Summer.

RDNG 4313. Methods and Materials in Reading Focuses on techniques and materials for teaching students with different learning styles. Emphasis on the basal reader, whole language, linguistic, language experience, and individualized approaches. Must be admitted to the Teacher Education Program. Fall, Summer.

RDNG 4323. Clinical Problems in Reading Focuses on assessment, evaluation, and remediation of reading problems, utilizing an interdisciplinary approach. Must be admitted to the Teacher Education Program. Prerequisite, RDNG 4303. Fall, Spring.

RDNG 4343. Reading in the Content Areas Middle and Secondary Schools For classroom teachers, reading specialists, and other educators. Emphasis on the relationship between learning strategies and reading content materials in the subject areas normally taught in grades 4 through 12. Must be admitted to the Teacher Education Program. Fall, Spring.

RDNG 4403. Early Literacy: Theory and Practice Students develop, implement, and assess the effectiveness of literacy lessons in K through 4 classrooms. Forty five clock hours of field experience. Must be admitted to the Teacher Education Program. Prerequisites, ECH 2003, ECH 2013, ECH 2033, ECH 2023, ECH 3013, ECH 3043, ECH 3053, ECH 3063, ECH 3073, ECH 3083, ECH 3004, ELSE 3643, RDNG 3203. Corequisite, ECH 4012, ECH 4013, ECH 4023, ECH 4043. Fall, Summer.

RDNG 480V. Special Topics Current subjects of interest to undergraduate and graduate reading education students. All special topics must be approved by the teacher education curriculum committee. One, two, or three credit hours. Special topics may be applied as elective credit to a degree program with written permission of advisor and department chair prior to enrollment in the course. Must be admitted to the Teacher Education Program. Demand.

Secondary Education (SCED)

SCED 2513. Introduction to Secondary Teaching Providing prospective educators with an introduction to teaching and education in a pluralistic society, and an understanding of the historical, multicultural, sociological, philosophical, legal, political, curricular, and technological dimensions of American education. Fall, Spring.

SCED 3515. Performance-Based Instructional Design Performance based instructional procedures and techniques for secondary education majors. Application of various teaching models and appropriate classroom management techniques will be emphasized. Reflective journals, application of technology, micro teaching and field experiences will be required. Must be admitted to the Teacher Education Program. Prerequisite, SCED 2513. Fall, Spring.

SCED 4713. Educational Measurement with Computer Applications Students will learn to, 1. construct, administer, and interpret tests and rating scales to measure student achievement and performance, and 2. use the computer to assess, record, and report student achievement and performance. Must be admitted to the Teacher Education Program. Fall, Spring.

SCED 4813. On-The-Job Teacher Training Practicum A year long on the job teacher training practicum, jointly supervised by designated public school and university personnel. Prerequisite, For teachers entering by the probationary route. Must be admitted to the Teacher Education Program. Demand.

Secondary Teaching Methods (ED__ __)

EDAG 4623. Special Methods for Teaching Agricultural Education Overview of major components of an efficient agriculture department at the secondary school level. Emphasis on teaching methods and materials required for the agriculture classroom and mechanics laboratory. Opportunities for course planning, classroom management, record development, and career orientation. Must be admitted to the Teacher Education Program. Spring.

EDAR 4523. Methods and Materials for Teaching Art Emphasis on the practical application of art in the secondary school. Techniques and strategies of teaching art, developing an art curriculum, assessing and motivating students. Must be admitted to the Teacher Education Program. Fall.

EDBU 4533. Methods and Materials in Teaching Business Technology Study of the role and scope of the vocational business education teacher, professional organizations, professional ethics, federal involvement, and professional literature. Emphasis on the assessment of student competencies, competency based programs, resources, facilities, and curriculum development. Selection and practice in teaching techniques and strategies. Must be admitted to the Teacher Education Program. Fall.

EDEN 4553. Methods and Materials for Teaching English in the Secondary School The study of models of teaching and instruction and of assumptions underlying current teaching learning practices for English in the secondary schools. Opportunities to develop skills and strategies for teaching language, literature, and composition to culturally diverse students. Must be admitted to the Teacher Education Program. Fall.

EDEN 4653. Methods and Materials for Teaching English in the Middle School Methods and materials for teaching English to the special needs of middle school students. Focus on the application of techniques and strategies for teaching language, literature, and composition to culturally diverse students. Must be admitted to the Teacher Education Program. Spring, even.

EDLA 4633. Methods and Materials for Teaching Second Languages Knowledge and practice of instructional strategies and techniques associated with a proficiency based approach to foreign language teaching. Study of the theoretical bases of language learning and acquisition, innovations in curricula, resources, materials, and technology. Must be admitted to the Teacher Education Program. Fall.

EDMA 4563. Methods and Materials for Teaching Mathematics in the Secondary School Systematic application of a variety of activities to facilitate the development of competent mathematics teachers. Development and implementation of instructional strategies for teaching mathematics, explicating types of knowledge and the ways they can be taught. Must be admitted to the Teacher Education Program. Spring.

EDMU 4573. Methods and Materials for Teaching Instrumental Music Overview of the music curriculum K through 12. Emphasis on teaching strategies in incorporating cognitive, psychomotor, and effective techniques appropriate to secondary school students. Opportunities to develop behavioral objectives, present demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Fall.

EDMU 4643. Methods and Materials for Teaching Vocal Music An overview of the music curriculum, K through 12. Emphasis on teaching strategies incorporating cognitive, psychomotor, and affective techniques appropriate to secondary school students in vocal music. Opportunities to develop behavioral objectives, demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Spring.

EDPE 4583. Methods and Materials for Teaching Physical Education in the Secondary School Assists the student to assimilate new and previously learned material prior to the internship experience. Special emphasis on PRAXIS II, goal development, teaching styles, methods, and problems encountered by beginning physical education teachers. Must be admitted to the Teacher Education Program. Fall, Spring.

EDSC 4593. Methods and Materials for Teaching Science in the Secondary School Philosophical bases, teaching techniques, curriculum development, classroom management, facility resources, and equipment are emphasized. Must be admitted to the Teacher Education Program. Fall, Spring.

EDSS 4603. Methods and Materials for Teaching Social Studies in the Secondary School Historical and current trends in teaching social studies at the secondary school level. Major emphasis on content and concept development and their application in the social studies classroom. Practice in writing objectives, applying teaching techniques, and formulating student evaluations. Must be admitted to the Teacher Education Program. Fall, Spring.

Teaching Internship (TI__ __)

TIAG 4825. AGRICULTURAL TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIAG 4826. AGRICULTURAL TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester teaching internship. Fall, Spring.

TIAR 4825. ART TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIAR 4826. ART TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester teaching internship. Fall, Spring.

TIBI 4825. BIOLOGY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIBI 4826. BIOLOGY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIBU 4825. BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIBU 4826. BUSINESS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester teaching internship. Fall, Spring.

TICH 4825. CHEMISTRY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TICH 4826. CHEMISTRY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIEN 4825. ENGLISH TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIEN 4826. ENGLISH TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIHI 4825. HISTORY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIHI 4826. HISTORY TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TILA 4825. LANGUAGE TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TILA 4826. LANGUAGE TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIMA 4825. MATH TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIMA 4826. MATH TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIMU 4825. MUSIC TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIMU 4826. MUSIC TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIFE 4825. PHYSICAL EDUCATION TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIFE 4826. PHYSICAL EDUCATION TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIPH 4825. PHYSICS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIPH 4826. PHYSICS TEACHING INTERNSHIP IN THE SECONDARY SCHOOL
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

COLLEGE OF ENGINEERING

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. **The university reserves the right to change course scheduling when circumstances dictate such changes.**

Engineering (ENGR)

- ENGR 1402. Concepts of Engineering** An introduction to the various engineering disciplines. Topics include conservation principles, elementary measurement techniques, teamwork, and an introduction to technical practices. Prerequisite, 21 Math ACT or C or better in MATH 1023 or higher MATH. Fall, Spring.
- ENGR 1412. Software Applications for Engineers** An introduction to software applications used by the various engineering disciplines. Technical word processing and the use of spreadsheets as a mathematics tool are developed. Accepted practices of data presentation and an introduction to presentation graphics are covered. Prerequisite, 21 Math ACT or C or better in MATH 1023 or higher MATH. Fall, Spring.
- ENGR 2401. Applied Engineering Statistics** The practical application of statistical principles as they apply to scientific and engineering topics, with focus on solving engineering problems in various disciplines such as civil, electrical, and mechanical engineering. Lecture one hour per week. Corequisite, MATH 2214. Fall, Spring.
- ENGR 2403. Statics** Principles of vector analysis, static equilibrium, analysis of structures, friction, internal forces, center of gravity, moment of inertia, and product of inertia. Prerequisite, C or better in MATH 2204 and ENGR 1402. Fall, Spring, Summer.
- ENGR 2411. Mechanics of Materials Laboratory** Material will be tested in the laboratory consistent with topics covered in Mechanics of Materials course, which will include strain measurement testing machines and properties of materials. Laboratory two hours per week. Corequisite, ENGR 2413. Fall, Spring.
- ENGR 2413. Mechanics of Materials** Stress and deformation of members in tension, compression, torsion, and bending. Allowable stress, combination loading, stress and strain transformation, and beam deflection techniques introduced. Prerequisites, C or better in ENGR 1412 and ENGR 2403. Fall, Spring, Summer.
- ENGR 2421. Electric Circuits I Laboratory** Basic experimentation consistent with the theory in ENGR 2423. Prerequisites, C or better in ENG 1013 and ENGR 1402. Corequisites, ENGR 2401 and ENGR 2423. Fall, Spring.
- ENGR 2423. Electric Circuits I** The fundamental laws of circuit theory applied to resistive networks, network topology, mesh currents and node voltages, network theorems, one terminal and two terminal pair resistive networks. Time response functions of RL and RC circuits and introduction to steady state AC analysis. Prerequisites, C or better in ENGR 1412 and PHYS 2034. Corequisite, MATH 2214. Fall, Spring, Summer.
- ENGR 3423. Dynamics** Kinematics and kinetics of particles and of rigid bodies, work and energy, impulse and momentum, special topics. Prerequisite, C or better in PHYS 2034, MATH 2214, and ENGR 2403. Fall, Spring, Summer.
- ENGR 3433. Engineering Economics** Fundamental concepts of engineering economy, management, and basic business concepts. Prerequisites, junior standing or consent of instructor. Fall, Spring, Summer.
- ENGR 3443. Engineering Thermodynamics I** Engineering thermodynamics involves studies in the area of properties of substances, work and heat, the first and second laws of thermodynamics, entropy, ideal gases, availability, irreversibility, and efficiency. Prerequisites, C or better in CHEM 1013 and ENGR 2403. Fall, Spring, Summer.

ENGR 3471. Fluid Mechanics Laboratory Experiments in fluid phenomena which emphasize the topics covered in ENGR 3473. Formal laboratory reports will be required. Laboratory two hours per week. Corequisite, ENGR 3473. Fall, Spring.

ENGR 3473. Fluid Mechanics Basic fundamentals of fluid properties, fluid statics, fluid equations, viscous effects, and ideal fluid flow are applied to engineering problems in closed conduits, open channels, and fluid measurements. Prerequisite, C or better in MATH 3254 and ENGR 2403. Fall, Spring, Summer.

ENGR 349V. Engineering Internship Students complete a supervised work experience involving practical application of the knowledge and skills acquired in engineering courses. Internships, minimum of 50 hours of work per credit hour awarded, are arranged by the student, an internship sponsor, and a supervising faculty member. Progress and final reports are required. Maximum degree credit for this course is three hours. Consent of Program Director required. Fall, Spring, Summer.

ENGR 4401. Senior Seminar Selected speakers discuss topics relevant to seniors and engineering practice including FE exam reviews, program expectations for graduates, contributing to society and local communities, involvement with professional organizations, staying connected with program activities and surveys, preparation for permanent job search, and advice for graduate education. Corequisite, ENGR 4463. Fall, Spring.

ENGR 4413. Engineering Problem Solving Application of high-level mathematical tools, along with scientific/engineering principles, towards solving engineering problems in various disciplines such as mechanical, electrical, and civil engineering. Prerequisite, C or better in ENGR 4453. Spring.

ENGR 4453. Numerical Methods for Engineers Numerical methods and computational techniques for solving engineering design problems. Prerequisite, C or better in MATH 4403. Fall, Spring.

ENGR 4463. Senior Design I Multidisciplinary group work on a design problem from conceptualization through selection of best alternative. A project proposal, progress report, comprehensive final report, and an oral presentation are required as well as sitting for the national FE exam. Lectures cover preparation for the national FE exam, the design process, and professional practice topics. Lecture two hours, laboratory one hour per week. Prerequisite, senior standing and consent of instructor. Fall, Spring.

ENGR 4482. Senior Design II Group work to complete final design, fabrication, and testing aspects of a senior design project. A project proposal, progress reports, comprehensive final report, and a public oral presentation are required. Project meetings and laboratory four hours per week. Prerequisite, C or better in ENGR 4463, senior standing, and consent of instructor. Fall, Spring.

ENGR 449V. Special Problems in Engineering Individually directed problems in engineering for juniors and seniors. Must be arranged in consultation with an engineering professor in the appropriate concentration area. The course outline and a project summary listing the goals and expectations must be approved by the students adviser and the department chair. A written report is required. A copy must be filed in the Engineering Office. Demand.

ENGR 4703. Environmental Safety and Health Engineering Survey and analysis of contemporary environmental, safety, and health-related topics pertinent to engineering and technology applications and practice, including technical, regulatory, economic, and other non-technical aspects. Prerequisite: Senior undergraduate status in the College of Engineering or College of Science and Mathematics, or admission into the ASU Environmental Science graduate program or Engineering Management graduate program. Dual listed as ENGR 5703. Demand.

CIVIL ENGINEERING PROGRAM

Civil Engineering (CE)

- CE 2202. Civil Engineering Presentations** An introduction to computer aided design, CAD, for civil engineers with applications in civil engineering drawings. Different types of civil engineering drawings will be developed and presented in the course. Prerequisite, C or better in CE 2223. Spring.
- CE 2223. Plane Surveying** Theory and practice of plane surveying. Introduction to route design. Lecture two hours, laboratory four hours per week. Prerequisite, C or better in MATH 1033 or equivalent. Fall.
- CE 3213. Structural Analysis I** Analysis of determinate and indeterminate structures and trusses, shear and moment diagrams, influence lines and moving loads, and deflection calculations. Lecture three hours per week. Prerequisite, C or better in ENGR 2403. Corequisite, ENGR 2413. Spring.
- CE 3223. Civil Engineering Materials** Theory and application of materials used in civil engineering. Aggregate testing, concrete testing, concrete mix design, asphalt testing, and asphalt mix design. Lecture two hours, laboratory three hours per week. Prerequisite, C or better in ENGR 2413 and 2411. Fall.
- CE 3233. Structural Analysis II** Use of finite element modeling for analysis of structures. Study of ASCE 7-XX live, dead, wind, and seismic loadings and their applications in finite element modeling. Lecture three hours per week. Prerequisite, C or better in CE 3213. Fall.
- CE 3253. Engineering Hydrology** Studies of the hydrologic cycle, solar radiation and meteorology, precipitation, evaporation, transpiration, groundwater flow, hydrographs, flood routing, and probability concepts. Lecture three hours per week. Prerequisite, C or better in ENGR 3471 and ENGR 3473. Spring.
- CE 3263. Introduction to Environmental Engineering** Introduction to environmental engineering fundamentals, concepts of mass balance, water and wastewater treatment, air pollution, solid waste management, and hazardous waste. Lecture three hours per week. Prerequisites, C or better in BIOL 1063, CHEM 1013 and MATH 2204. Spring.
- CE 3273. Water and Waste Systems** Projection of water requirements and wastewater flows, water and waste systems hydraulics, design of water distribution systems, sanitary sewers, storm-water collection systems, and pumping systems. Lecture three hours per week. Prerequisites, C or better in CE 3253 and ENGR 3473. Fall.
- CE 4203. Transportation Engineering I** Introduction to concepts of transportation systems, principles of traffic theories, traffic engineering and operation, and transportation planning including basic concepts of public policy, administration, and involvement in transportation planning. An intersection design project is required. Prerequisite, C or better in CE 2202. Fall.
- CE 4223. Transportation Engineering II** Principles of highway survey and locations, geometric design, highway materials, pavement design, highway drainage, and pavement management. A highway design project is required. Prerequisite, C or better in CE 3223, CE 4203, CE 4251, and CE 4253. Dual listed as CE 5223. Spring.
- CE 4233. Foundation Engineering** Prediction of soil variation, soil investigations, stress distribution and bearing capacity, settlement analysis and foundation performance. The design and analysis of retaining structures and lateral earth pressures, shallow foundations, pile foundations. One foundation design project is required. Prerequisite, C or better in CE 2202. Corequisite, CE 4253. Dual listed as CE 5233. Fall.
- CE 4243. Reinforced Concrete Design** Analysis and design of beams and slabs for bending and shear, reinforcement placement, deflection calculations, and column analysis. Prerequisite, C or better in CE 3213. Dual listed as CE 5243. Fall.
- CE 4251. Soil Mechanics Laboratory** Experiments in analysis of soil systems including index properties, compaction, compressibility and shear strength. Corequisite, CE 4253. Spring.

- CE 4253. Soil Mechanics** Physical properties of soils as used in design, specific gravity, grain size distribution, plasticity, permeability, compressibility, consolidation and shear strength. Corequisites, ENGR 3473 and CE 4251. Dual listed as CE 5253. Spring.
- CE 4263. Water and Waste Treatment** Design of physical, chemical and biological unit processes for treatment of water, wastewater and sludges. Advanced wastewater treatment processes are presented. Student papers on selected waste treatment applications are required. Prerequisites, C or better in CE 3253 and 3263. Dual listed as CE 5263. Spring.
- CE 4283. Structural Steel Design** Analysis and design of tension members, beams, columns, and beam-columns. Prerequisite, C or better in CE 3213. Dual listed as CE 5283. Spring.
- CE 429V. Special Problems in Civil Engineering** Individually directed problems in civil engineering for juniors and seniors. A course outline and project summary listing the goals and expected outcomes must be approved by the student advisor and the program director. Prerequisites are dependent on the nature of the special problem. Demand.

ELECTRICAL ENGINEERING PROGRAM

Electrical Engineering (EE)

- EE 3303. Semiconductor and Optoelectronic Materials and Devices I Laboratory** Experimentation and demonstrations in semiconductor growth and deposition, material analysis and characterization, doping, and processing. Fabrication of simple devices. Metallization, etching, and other manufacturing processes. Lecture one to two hours, laboratory four to five hours per week. Prerequisite, C or better in CHEM 1011, PHYS 2034, and EE 3401. Corequisite, EE 3363. Spring, even.
- EE 3313. Electric Circuits II** Transient analysis, average power, RMS values, mutual inductance, resonance, network theorems and principles, polyphase networks, complex power. Prerequisite, C or better in MATH 2214 and ENGR 2423. Spring.
- EE 3331. Digital Electronics I Laboratory** Experimentation and design with digital electronic and computer components and circuits including logic gates, flip flops, counters, and registers. Practical applications in timing and control. Logic families such as TTL, ECL, and CMOS. Prerequisite, C or better in ENGR 2421. Corequisite, EE 3333. Demand.
- EE 3333. Digital Electronics I** Introduction to the analysis and design of digital and computer circuits, Boolean algebra, binary arithmetic, combinational logic, sequential logic, registers, counters, adders, comparators, and computer organization. Prerequisite, C or better in either CS 2114 or ENGR 2423. Fall.
- EE 3343. Engineering Fields and Waves I** Study of time invariant electric and magnetic fields in free space and in materials, electrical current flow as a function of electric field, magnetic flux, interaction of magnetic fields with electrical current and voltage, electrical and magnetic potentials, time changing electric and magnetic fields, and introduction to Maxwell's Equations. Prerequisites, C or better in MATH 3254 and EE 3313. Fall.
- EE 3353. Continuous and Analog Systems** Methods of analysis of continuous and analog systems and associated synthesis, simulation, and design, system response in the time and frequency domains, Laplace transforms, Fourier series and transforms, transfer functions, and convolution. Prerequisite, C or better in EE 3313. Corequisite, MATH 4403. Fall.
- EE 3363. Semiconductor Materials and Devices I** Semiconductor materials and theory of solid state electronic devices. Semiconductor growth and processing techniques. Semiconductor parameters such as bandgap, mobility, carrier densities, diffusion length, carrier lifetime, and energy level distribution. Pn junctions and Schottky barriers. Constraints and limitations on practical devices. Prerequisite, C or better in CHEM 1013, PHYS 2034, and C or better in EE 3403 and ENGR 3443. Spring, even.

- EE 3383. Principles and Practices in Electrical Engineering** Principles of and good practices in electrical engineering, professional organizations, literature, intellectual property, licensure, ethics and regulations, vendors, products, specifications, procurement, communications and human relations, resource management, product certification and manufacturability, and modern and tools and issues. Prerequisite, C or better in EE 3313. Spring.
- EE 3401. Electronics I Laboratory** Basic laboratory experiments in electronic circuits and solid state electronic devices. Corequisite, EE 3403. Prerequisite, C or better in ENGR 2421. Fall.
- EE 3403. Electronics I** Theory, analysis, and introductory design of diode, bipolar junction transistor, operational amplifier, and field effect transistor devices and circuits. Prerequisite, C or better in ENGR 2423. Fall.
- EE 4303. Engineering Field and Waves II** Study of electromagnetic waves in free space, dielectrics, and conductors, transmission lines, polarization, reflection, refraction, diffraction, waveguides, resonators, antennas, and radiation. Prerequisites, C or better in MATH 4403 and EE 3343. Dual listed as EE 5303. Demand.
- EE 4313. Control Systems** Analysis and design of linear feedback systems. Transfer functions, transient and steady state characterization, stability determination. Closed loop analysis and design using root locus and frequency domain methods. Prerequisites, C or better in EE 3403. Corequisite, EE 3353. Dual listed as EE 5313. Demand.
- EE 4333. Communications Theory** Frequency spectra of time signals. Review of Fourier series and transforms. Signal mixing, modulation, and demodulation. AM and FM broadcasting techniques and bands. Pulsed and digital communication modes. Prerequisite, C or better in EE 3353 and EE 3403. Dual listed as EE 5333. Demand.
- EE 4321. Electrical Machinery Laboratory** Experiments dealing with motor, generators, transformers, and associated measurements and controls. Prerequisite, C or better in ENGR 2421. Corequisite, EE 4323. Demand.
- EE 4323. Electrical Machinery** Introduction to the analysis and design of electromechanical energy conversion systems, magnetic circuit theory, general transformer and machinery theory, and DC and AC motors and generators. Prerequisite, C or better in EE 3313 or ENGR 3473, and ENGR 3423. Dual listed as EE 5323. Demand.
- EE 4344. Microprocessor and PLC Applications** A microcomputer and programmable logic controller course for junior and senior level engineers. A survey of small computers and their engineering functions including control, sensing, and computation. The concept of using control programming languages is introduced. Prerequisites, C or better in EE 3333 and EE 3401, or consent of instructor. Dual listed as EE 5344. Demand.
- EE 4353. Power Systems** Generation, transmission, and distribution of large scale electrical power, associated energy losses and practical design problems and complications. Transmission line analysis. Three phase power networks. Load monitoring and control. Prerequisite, C or better in EE 3313 and ENGR 3423. Corequisite, MATH 4403. Dual listed as EE 5353. Demand.
- EE 4373. Electronics II** A continuation of EE 3403 with emphasis on the analysis, simulation, and design of feedback, operational amplifier systems, frequency response, integrated circuits, and power and waveshaping circuits. Prerequisite, C or better in EE 3313, ENGR 3443, and EE 3403. Dual listed as EE 5373. Spring, odd.
- EE 4383. Digital Electronics II** Continuation of the study of digital circuit design with emphasis on the design of larger systems and use of LSI components. Register transfer logic, computer interfacing and design, and microcomputer based system design. Prerequisite, C or better in EE 3333. Demand. Dual listed as EE 5383.
- EE 4773. Intermediate Electrical Engineering Laboratory** Advanced design-oriented experiments in electronics, measurement, interfacing, and other electrical engineering topics. Corequisite, EE 4373. Prerequisites, C or better in EE 3333, and EE 3401. Spring.

- EE 479V. Special Problems in Electrical Engineering** Individually directed problems in electrical engineering for juniors and seniors. A course outline and project summary listing the goals and expected outcomes must be approved by the student advisor and the program director. Prerequisites are dependent on the nature of the special problem. Demand.

MECHANICAL ENGINEERING PROGRAM

Mechanical Engineering (ME)

- ME 2502. Solid Modeling for Mechanical Engineers** An introduction to solid modeling and computer aided drafting, CAD, for mechanical engineers. Three dimensional models of mechanical components are virtually constructed using appropriate software tools. Fall, Spring.
- ME 3504. Process Monitoring and Control** Theory and application of instrumentation, measurement, and control of engineering systems. Prerequisites, C or better in MATH 4403, ENGR 2423 and ENGR 3443. Fall.
- ME 3513. Mechanical Vibrations** Kinematics of harmonic and nonharmonic vibrations, systems of one and several degrees of freedom, free and forced vibrations, self excited vibrations. Prerequisites, C or better in MATH 4403 and ENGR 3423. Spring.
- ME 3613. Control Systems for Mechanical Engineering** This course addresses the analytical tools and principles for control design for mechanical systems including time and frequency domain techniques, analysis of response, design parameters, types of control systems, PLCs, relationship between transfer function methods and state-space methods. Prerequisite, "C" or better in ME 3513. Corequisite, 3504. Fall.
- ME 3533. Engineering Thermodynamics II** Application of first and second law concepts to actual and ideal cycles and processes. Prerequisite, C or better in ENGR 3443. Spring.
- ME 4503. Fluid and Thermal Energy Systems** Analysis and design of components, systems, and processes using the fundamentals presented in Thermodynamics, Fluid Mechanics, and Heat Transfer. Corequisite, ME 4553. Prerequisites, C or better in ENGR 3473 and ENGR 3443. Dual listed as ME 5503. Fall.
- ME 4613. Introduction to Mechatronics** With an emphasis on modeling, the course focuses on the performance characteristics and application of microprocessors, analog and digital electronics, and modern mechatronic systems and intelligent manufacturing, particularly smart sensors, controllers, and actuators. Prerequisite, C or better in ME 3613. Dual listed as ME 5613. Spring.
- ME 4523. Introduction to Finite Element Analysis** Theory and application of energy concepts and structural mechanics required for the development of finite element methods are presented. Applications to beams, trusses, torsion, etc. are presented. Prerequisites, C or better in ENGR 2413. Dual listed as ME 5523. Fall, Spring.
- ME 4543. Machine Design** Analysis and design of mechanical system components using theoretical and empirical concepts coupled with computational modeling and numerical analysis. Prerequisites, C or better in ENGR 2413. Dual listed as ME 5543. Fall, Spring.
- ME 4553. Heat Transfer** Application of theories of heat transfer by conduction, convection, and radiation to manufacturing processes and industrial applications. Prerequisites, C or better in MATH 4403, ENGR 3443, and ENGR 3473. Dual listed as ME 5553. Fall.
- ME 4563. Introduction to Manufacturing Processes** Principles of manufacturing processes, including common material removal processes, the principles of metal casting and forming, and an introduction to polymers, composites, and nontraditional processes. Prerequisites, C or better in ENGR 2413. Fall.
- ME 4573. Mechanical System Design** Capstone design course for mechanical systems. Teams of students will design and assemble a mechanical system which satisfies the specifications of a selected design problem. Progress reports, final reports, and an assembled final product will be required. Prerequisite, C or better in ME 4543. Spring.

- ME 4583. Energy Conversion** Combustion analysis of hydrocarbon fuels. Transmission of energy by mechanical, electrical, and hydraulic means. Selected topics in mass transfer and fluid mechanics. Prerequisite, C or better in ENGR 3443. Dual listed as ME 5583. Demand.
- ME 4593. Design of Heating, Ventilating, and Air-Conditioning Systems** Design of HVAC systems to modify environmental conditions. Prerequisite, C or better in ME 4553. Dual listed as ME 5593. Spring.
- ME 469V. Special Problems in Mechanical Engineering** Individually directed problems in mechanical engineering for juniors and seniors. A course outline and project summary listing the goals and expected outcomes must be approved by the student advisor and the program director. Prerequisites are dependent on the nature of the special problem. Demand.

COLLEGE OF FINE ARTS

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

DEPARTMENT OF ART

Art Education (ARED)

- ARED 3702. Art for the Classroom Teacher** Planning and developing creative art programs and art appreciation for the elementary grades. Prerequisite, 30 semester hours. Fall, Spring, Summer.
- ARED 3803. Teaching Art in the Elementary Grades** Techniques and strategies for teaching visual art to children in the elementary grades, developing an art curriculum, and learning to assess children's artwork are the focus of this course. Prerequisite, a grade of C or better in ART 1013, ART 1033, ARTH 2583, and ARTH 2593; 30 semester hours completed. Spring.
- ARED 4703. Concepts in Art Education** A study of historical and contemporary philosophical concepts in art education. Prerequisites, a grade of C or better in ARED 3803; acceptance into a teacher education program. Spring.
- ARED 4753. Special Problems in Art Education** Independent study of approved topics in Art Education. May be repeated for credit. Prerequisite, Permission of professor. Demand.

Art (ART)

- ART 1013. Design I** STUDIO ART. Fundamental principles of design and the theory of color, First Year Experience for Art Majors. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Fall, Spring.
- ART 1023. Design II** STUDIOART. Three dimensional design principles. Students work toward developing an understanding of the basic vocabulary and principles of three dimensional design. Formal and conceptual decision making skills are developed through fundamental exercises in additive, subtractive, substitutive and constructive processes. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013 and ART 1033. Fall, Spring.
- ART 1033. Drawing I** STUDIOART. Fundamental elements of drawing, including skill, observation, material and technique, First Year Experience for Art Majors. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Fall, Spring, Summer.
- ART 1043. Drawing II** STUDIO ART. Continuation of ART 1033. Students become more skilled with visual elements and drawing principles. A broader range of materials and techniques will be used. Subject matter will include still life, life models, landscape, and imagined subjects. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisite, a grade of C or better in ART 1033. Fall, Spring, Summer.
- ART 1083. Elective Printmaking for Non majors** STUDIO ART. Basic techniques in creating original designs in hand printing processes, including silkscreen, and wood block prints. May be repeated for credit, however, no more than 3 hours may be applied toward a degree in fields other than art. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Fall, Spring.

- ART 1093. Elective Ceramics for Non majors** STUDIO ART. Basic exploration of techniques of clay manipulation including the use of the potters wheel. Lab assistants will fire selected pieces. May only be taken once and may not be repeated, 3 hours may be applied toward a degree in fields other than art. All other courses in Ceramics are reserved for Art Majors with all the required prerequisites. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Fall, Spring.
- ART 1413. Design Technology** Introduces students to basic levels of graphic design utilizing Adobe Illustrator, Adobe Photoshop, and Adobe InDesign software. Includes problem-solving, color theory, design file input/output techniques, and use of tools for graphic design and image compositing. Enrollment restricted to declared Graphic Design majors. Spring.
- ART 2413. Typography** GRAPHIC DESIGN. Fundamentals of typography in both form and text. Emphasis on developing typographic literacy through history, type classification, letterform anatomy, hierarchy, visual structure, and how type works as a compositional element in graphic design. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 1013 and ART 1413. Fall.
- ART 2423. Print and Publication Design** GRAPHIC DESIGN. Exploration in the underlying principles of publication design and a practical introduction to the preparation of graphic design for printing. Topics include grid theory, text and display typography, sequence, page layout, type and image integration, and printing processes. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisite, a grade of C or better in ART 2413. Spring.
- ART 2433. Digital Photography I** GRAPHIC DESIGN. This course offers an introduction to photography as it can be used in digital media. Basic camera operation and computer based digital imaging and design applications will be covered. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisite, ART 1013. Fall.
- ART 2443. Graphic Design for the Web** GRAPHIC DESIGN. Website design using site maps and wireframes, and other computer-based media design. Emphasis in branding on the web. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 2413, or permission of instructor. Fall, even.
- ART 2453. Visual Thinking** STUDIO ART. Focuses on the process of lateral thinking and the visualization of design problems and their solutions. Emphasizes effective research, imagination, originality, and execution in various media. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisite, a grade of C or better in ART 1033 and ART 1013; or permission of instructor. Spring.
- ART 2503. Fine Arts-Visual** FINE ARTS. Introduction to visual art for all students regardless of background or experience. The purpose is to develop cognitive and experiential responses to works of art. Note, This course is for non art majors and does not meet general education requirements for any degree in Art. Fall, Spring, Summer. (ACTS#: ARTA 1003)
- ART 3033. Drawing III** STUDIO ART. Students will focus on the human figure through drawing sessions employing life models, undergoing detailed studies of anatomy, and creating independent projects involving the figure. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1033 and ART 1043. Fall, Spring, Summer.
- ART 3063. Painting** STUDIO ART. Introduction to composition and techniques in painting media. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1033, and ART 1043. Fall, Spring.
- ART 3073. Watercolor Painting** STUDIO ART. Emphasis on the development of composition and techniques with transparent watercolor media. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisite, a grade of C or better in ART 3063. Fall.

- ART 3083. Printmaking** STUDIO ART. Covers intaglio, relief, silkscreen, lithography and contemporary printmaking techniques. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1033, and ART 1043. May be repeated for credit. Fall, Spring.
- ART 3093. Ceramics** STUDIO ART. Introduction to ceramic materials and techniques, wheelthrown and handbuilt forms. Glazing and firing undertaken. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1023, ART 1033, and ART 1043. May be repeated for credit. Fall, Spring.
- ART 3103. Sculpture** STUDIO ART. Studio practice and experimentation in three dimensional design. Clay, wood, metal, and other materials are used. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1023, ART 1033, and ART 1043. Fall, Spring.
- ART 3330. BFA Review** Admissions screening, transfer screening for all BFA students. Counseling and advising practice by portfolio review. Provides realistic assessment of student status in relation to program. Passing is prerequisite for 4000 level ART courses. Prerequisites, a grade of C or better in ART 1013, ART 1023, ART 1033, ART 1043, ART 3033, ARTH 2583, and ARTH 2893; a 2.75 GPA in all ART, ARTH, and ARED courses. Fall, Spring.
- ART 3403. Photography** STUDIO ART. An introductory study of photographic equipment, techniques, and processes both film based and digital. Requires three hours of lab per week. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 1013, ART 1033, and ART 1043. Fall.
- ART 3413. Identity Design** GRAPHIC DESIGN. Graphic design strategies using metaphors, iconography, and the creative process. Emphasis on semiotics, color, logos, letterhead packages and the elements of corporate identity design. Stress placed on problem solving using type and image and conceptual thinking. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 1013, ART 1033, ART 1043, and ART 2423. Fall.
- ART 3423. Package Design** GRAPHIC DESIGN. Structure, color, and graphics and creative application to the field of packaging. Designing of three dimensional containers and displays. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 1013, ART 1033, ART 1043, and ART 2423. May be repeated for credit. Fall.
- ART 3433. Digital Illustration** GRAPHIC DESIGN. Introduction to illustration using computer applications. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 1013, ART 1033, ART 1043, and ART 2423. Fall.
- ART 3443. Advertising Design** GRAPHIC DESIGN. Fundamentals and history of graphic design as it applies to advertising including the agency hierarchy and the advertising designer's role. Emphasis on accurate communication regardless of media through development and implementation of creative work plans, concepts, and implementation and presentation. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisite, a grade of C or better in ART 3413. May be repeated for credit. Spring.
- ART 3453. Motion Graphics** GRAPHIC DESIGN. This course will explore the foundations of motion graphics. Design for screen, effective use of typography, graphical elements, sound, video and motion are covered with simple animations, logo and shape motion and environmental visual effects. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 2423 and ART 2443. Spring odd.

- ART 3463. Web Design** GRAPHIC DESIGN Web design and implementation of multimedia presentations, interface design, and other computer based media design. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time. Prerequisites, a grade of C or better in ART 2423 and ART 2443. Spring.
- ART 3673. Seminar in Digital Media and Design** GRAPHIC DESIGN. A study of the development and impact of digital media. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Cross-listed as CMP 3673. Spring.
- ART 3863. Intermediate Painting** STUDIO ART. Builds on basic skills and concepts from beginning drawing and painting courses, individualized projects exploring color and space in a variety of subject matter and approaches, and study of historical and contemporary art in relation to studio practice. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisite, a grade of C or better in ART 3063; or permission of instructor. Fall, Spring.
- ART 4033. Advanced Drawing** STUDIO ART. Working from various subject matter, including the figure model, in different media. Experimental studies in composition and technique. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 3033, and a grade of CR in ART 3330; or permission of instructor. May be repeated for credit. Fall, Spring.
- ART 4063. Advanced Painting** STUDIO ART. Individual work for advanced students. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. May be repeated for credit. Prerequisites, a grade of C or better in ART 3863, and a grade of CR in ART 3330; or permission of instructor. Fall, Spring.
- ART 4083. Advanced Printmaking** STUDIO ART. Continuation of Printmaking 3083. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. May be repeated for credit. Prerequisites, a grade of C or better in ART 3083, and a grade of CR in ART 3330; or permission of instructor. Fall, Spring.
- ART 4093. Advanced Ceramics** STUDIO ART. Continuation of ceramics work. Independent projects for advanced students. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. May be repeated for credit. Prerequisites, a grade of C or better in 6 hours of ART 3093, and a grade of CR in ART 3330; or permission of instructor. Fall, Spring.
- ART 4103. Advanced Sculpture** STUDIO ART. Continuation of sculpture work with emphasis on development of personal direction. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. May be repeated for credit. Prerequisites, a grade of C or better in ART 3103, and a grade of CR in ART 3330; or permission of instructor. Fall, Spring.
- ART 4320. Exhibition Preparation** Focus on information pertaining to the preparation for ART 4330. Prerequisites, a grade of CR in ART 3330; a minimum GPA of 2.75 in all work with ART, ARTH, or ARED prefix; and permission of department chair. Students MUST meet the prerequisite requirements or they will not be allowed to register for this course. Fall and Spring.
- ART 4331. Senior Exhibition** Capstone course required for all graduating BFA Studio Art emphasis students. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of CR in ART 3330 and ART 4320; a minimum GPA of 2.75 in all work with an ART, ARTH or ARED prefix; permission of advisor, instructor, and department chair required; 12 hours of 15 hour emphasis area completed prior to senior exhibition semester. Fall, Spring.

- ART 435V. Studio Problems** STUDIO ART. An opportunity for the studio oriented student to explore and develop techniques and concepts in both two and three dimensional media. Areas not covered by other existing studio courses will be emphasized. May be repeated for credit. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Enrollment restricted to permission of advisor, instructor, and department chair. Fall, Spring, Summer.
- ART 4363. Graphic Design Internship** GRAPHIC DESIGN. Supervised work in a professional graphic design setting. Enrollment restricted to permission of Department Chair. Prerequisites, a grade of CR in ART 3330; and a minimum GPA of 2.75 in all work with an ART, ARTH or ARED prefix. Fall, Spring, Summer.
- ART 4403. Photography for the Graphic Designer I** GRAPHIC DESIGN. Study of photographic equipment, techniques and processes with emphasis on graphic design applications. May be repeated for credit. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 2423, and ART 3403, and a grade of CR in ART 3330; or permission of instructor. Spring, even.
- ART 4413. Photography for the Graphic Designer II** GRAPHIC DESIGN. This course offers advanced studies in photography as it is utilized in graphic design. Advanced studies in studio and site photography and the application of photography to print and digital media. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 4403; a grade of CR in ART 3330; or permission of instructor. Spring, even.
- ART 4423. Campaign Design** GRAPHIC DESIGN. Continuation of ART 3443 Advertising Design. Implementation of total campaign as it applies to non-profit and corporate/institutional design. Integrating creative and practical work across many applications within the campaign. Emphasis on concept development, creative writing, implementation and presentation. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 3443; a grade of CR in ART 3330; or permission of instructor. May be repeated for credit. Fall.
- ART 4433. Illustration II** GRAPHIC DESIGN. Advanced studies in various illustrative materials and techniques including computer applications. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 3433, and a grade of CR in ART 3330; or permission of instructor. May be repeated for credit. Fall, Spring.
- ART 4443. Film Based Photography** STUDIO ART. Advanced studies of photographic equipment, techniques and processes with emphasis on personal expression. Requires three hours of lab per week. May be repeated for credit. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. Prerequisites, a grade of C or better in ART 3403, and a grade of CR in ART 3330; or permission of instructor. Fall.
- ART 4453. Advanced Photography** STUDIO ART. Advanced studies in photography as fine art, includes silver and nonsilver based processes with emphasis on aesthetic expression. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio class. May be repeated for credit. Prerequisite, a grade of C or better in ART 4443. Fall, even.
- ART 4463. Branding in the Web Environment** GRAPHIC DESIGN. Advanced web design, branding for the web. Creation and implementation of interface design and other computer-based media design. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Prerequisites, a grade of C or better in ART 3463, and a grade of CR in ART 3330; or permission of instructor. Spring, odd.

ART 4491. Graphic Design Portfolio GRAPHIC DESIGN. Capstone course required for all BFA, Graphic Design students. Portfolio Preparation of graphic design solutions demonstrating the student's overall knowledge and skills. Students will spend a minimum of three additional clock hours per week on work outside scheduled class time. Enrollment restricted to permission of advisor and instructor. Prerequisite, minimum GPA of 2.75 in all course work with an ART, ARTH, ARED prefix. Fall, Spring.

ART 4493. Portfolio Presentation GRAPHIC DESIGN. Capstone course required for all graduating BFA, Graphic Design emphasis students. Preparation of portfolio of graphic design solutions that demonstrate the students overall knowledge and special skills. It is expected that students will spend a minimum of three additional clock hours per week on work outside the scheduled class time for each studio Graphic Design class. Enrollment restricted to permission of advisor and instructor. Prerequisite, minimum GPA of 2.75 in all course work with an ART, ARTH, or ARED prefix. Fall, Spring.

Art History (ARTH)

ARTH 2583. Survey of Art History I General investigation of the historical development of art from prehistoric periods to the Renaissance, including Non-Western Art. Fall, Spring. (ACTS#: ARTA 2003)

ARTH 2593. Survey of Art History II Continuation of ARTH 2583, covering the period from the Renaissance to the Modern period, including Non-Western Art. Fall, Spring. (ACTS#: ARTA 2103)

ARTH 430V. Studies in Art History Individual directed study and investigation of pertinent areas in the history of art. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. May be repeated. Demand.

ARTH 4443. 19th Century European Art This course examines major artists and works of art in Europe from the beginning of the French Revolution to the end of the nineteenth century. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Fall even.

ARTH 4503. History of Photography History, aesthetics, and appreciation of photography. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, even.

ARTH 4533. Renaissance Art History Artists, styles, and development of art during the Renaissance Period in Italy and northern Europe. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Fall, odd.

ARTH 4553. Medieval Art History Formation and development of art from the early Christian through the Gothic period. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, odd.

ARTH 4563. Baroque and Rococo Art Artists, styles, and developments of Baroque and Rococo Art immediately following the Renaissance. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Fall, odd.

ARTH 4573. History of Graphic Design A historical overview of visual communication from the origins of printing and typography, through the impact of industrial technology, to the development of modern graphic design. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, odd.

ARTH 4593. Greek Art and Architecture A survey of Greek Art and Architecture from the early Classical through Hellenistic periods. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Fall even.

ARTH 4603. Art of the 20th Century This course examines major artists and works of art in Western culture from the beginning of the twentieth century to the present day. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, odd.

ARTH 4611. Senior Thesis Provide students the opportunity to research and write an art historical essay that proves an original thesis; required of all BA in Art, Art History emphasis students; to be completed in the final semester. Permission of instructor required. Prerequisite, 2.75 GPA in all ART/ARED/ARTH courses. Fall and Spring.

ARTH 4613. American Art History This survey of American Art from colonial times to the present examines major artistic and cultural developments in the United States, within the context of American history, and against the backdrop of European activity. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Fall, odd.

ARTH 4623. Roman Art and Architecture This course examines the major monuments and art styles in the city of Rome and the Roman provinces from the Republic to the Imperial period, ending with the reign of Constantine the Great. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, odd.

ARTH 4693. Contemporary Art 1970 to Present This course examines major artists and works of art in Western culture from 1970 to the present day. Prerequisites, a grade of C or better in ARTH 2583 and ARTH 2593; or permission of instructor. Spring, even.

ARTH 4803. Art Theory and Criticism This course develops a link between art criticism and studio practice, relating contemporary art production and critical theory. Includes written reports and oral presentations concerning methodology and results of research. Prerequisites, a grade of CR in ART 3330; a minimum of 48 hours ART/ARTH courses; or permission of instructor. Spring.

Methods and Materials Teaching Art (EDAR)

EDAR 4523. Methods and Materials for Teaching Art Emphasis on the practical application of art in the secondary school. Techniques and strategies of teaching art, developing an art curriculum, assessing and motivating students. Must be admitted to the Teacher Education Program. Fall.

Teaching Internship (TIAR)

TIAR 4825. Art Teaching Internship in the Secondary School
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIAR 4826. Art Teaching Internship in the Secondary School
Twelve semester hours. Full semester teaching internship. Fall, Spring.

DEPARTMENT OF MUSIC

Methods and Materials Teaching Music (EDMU)

EDMU 4573. Methods and Materials for Teaching Instrumental Music Overview of the music curriculum K through 12. Emphasis on teaching strategies in incorporating cognitive, psychomotor, and effective techniques appropriate to secondary school students. Opportunities to develop behavioral objectives, present demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Fall.

EDMU 4643. Methods and Materials for Teaching Vocal Music An overview of the music curriculum, K through 12. Emphasis on teaching strategies incorporating cognitive, psychomotor, and affective techniques appropriate to secondary school students in vocal music. Opportunities to develop behavioral objectives, demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Spring.

Music Education (MUED)

- MUED 3612. Music and Methods for the Classroom Teacher** Development of procedures, skills, and approaches to the music program for the elementary classroom. For non music majors only. Fall, Spring, Summer.
- MUED 4573. Methods and Materials for Teaching Instrumental Music** Overview of the instrumental music curriculum. Emphasis on teaching strategies appropriate to secondary school students. Opportunities to develop behavioral objectives, present demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Fall.
- MUED 4643. Methods and Materials for Teaching Vocal Music** Overview of the vocal music curriculum. Emphasis on teaching strategies to secondary school students. Opportunities to develop behavioral objectives, present demonstrations, plan rehearsals, and more. Must be admitted to the Teacher Education Program. Fall.
- MUED 4613. Methods and Materials for Teaching Vocal Music in the Middle Grades** Development of procedures, skills, and approaches to teaching general and choral music in grades 4-8. Demand.
- MUED 4623. Music in the Elementary School** Current philosophies and practices in curriculum planning for the elementary school music program. Music majors only. Spring.
- MUED 4633. Music Recording Techniques** Music recording techniques designed for the music educator. Special emphasis on essential electronic equipment, its use and maintenance. Demand.
- MUED 4642. Piano Pedagogy** Methods and materials of teaching piano. Permission of instructor required. Dual Listed MUED 5642. Demand.
- MUED 4651. Instrument Repair** Techniques for maintenance and minor repair of wind instruments. Spring.
- MUED 466V. Special Problems in Music Education** Independent study of approved topics for juniors and seniors arranged in consultation with a professor. Must have Departmental approval. Fall, Spring, Summer.

Music (MUS)

- MUS 1211. Elementary Piano** PERFORMANCE COURSES GROUP INSTRUCTION. Beginning piano class. Two laboratory periods per week. Special course fees may apply. Fall, Spring, Summer.
- MUS 1221. Elementary Piano II** PERFORMANCE COURSES GROUP INSTRUCTION. Continuation of beginning piano class. Two laboratory periods per week. Special course fees may apply. Prerequisite, MUS 1211 or permission of instructor. Spring.
- MUS 1231. Guitar Class I** PERFORMANCE COURSES GROUP INSTRUCTION. Open to all ASU students. An introductory course to learning the fundamentals of guitar playing. The course will focus on learning basic chords, conventional strumming techniques and finger picking, and notes in first position as well as the general technique of guitar playing. Special course fees may apply. Fall.
- MUS 1241. Guitar Class II** PERFORMANCE COURSES GROUP INSTRUCTION. Open to all ASU students who have completed Guitar Class I. Prerequisite, MUS 1231. May be repeated for credit. Special course fees may apply. Spring.
- MUS 1251. Elementary Voice Class and Sight-Singing** A class for all music majors designed to teach basic vocal techniques and the skill of sight-singing using solfeggio. Must be taken during the first year of enrollment as a music major. Fall.

- MUS 1310. Wind Ensemble** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Membership is open to all university students by audition on specified prepared materials and sight reading during the first week of the fall semester. The wind ensemble usually performs two scheduled concerts, with possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1311. Wind Ensemble** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Membership is open to all university students by audition on specified prepared materials and sight reading during the first week of the fall semester. The wind ensemble usually performs two scheduled concerts, with possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1330. Symphonic Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students without audition. This group rehearses MWF from 3:30 to 4:30 p.m. during the Spring Term and performs two scheduled concerts. Special course fees may apply. Large ensemble courses may be repeated for credit. Spring.
- MUS 1331. Symphonic Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students without audition. This group rehearses MWF from 3:30 to 4:30 p.m. during the Spring Term and performs two scheduled concerts. Special course fees may apply. Large ensemble courses may be repeated for credit. Spring.
- MUS 1340. Marching Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Membership is open to all interested university students. This group performs at all regular and post season home football games with some travel to away games. Rehearsals are held TWRF from 3:30 to 5:00 p.m. during the football season. Mandatory pre school rehearsals held the week prior to registration. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall.
- MUS 1341. Marching Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Membership is open to all interested university students. This group performs at all regular and post season home football games with some travel to away games. Rehearsals are held TWRF from 3:30 to 5:00 p.m. during the football season. Mandatory pre school rehearsals held the week prior to registration. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall.
- MUS 1350. Concert Choir** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1351. Concert Choir** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1360. University Singers** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1361. University Singers** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 1403. Music Connections** BASIC MUSIC THEORY. The elements of music beginning with the properties of sound; continuing through triads. No previous musical training necessary. Open to all university students. May be used as a preparatory course for Music Theory I. Fall.
- MUS 1511. Aural Theory I** BASIC MUSIC THEORY. Training in oral perception and the basic skills of sight singing. Two class periods per week. Spring.

- MUS 1513. Theory I** BASIC MUSIC THEORY. Basic fundamentals of music with emphasis on notation of pitch and rhythm. Studies in the construction of scales, intervals, key signature and simple diatonic melodies. No previous musical experience necessary. Open to all university students. Spring.
- MUS 1521. Aural Theory II** BASIC MUSIC THEORY. Continued training in aural and sight singing skills with emphasis on diatonic melody and harmony. Two class periods per week. Prerequisite, C or better in MUS 1511. Fall.
- MUS 1523. Theory II** BASIC MUSIC THEORY. BASIC MUSIC THEORY. Diatonic harmony with emphasis on music practices of the 16th and 17th centuries. Prerequisite, C or better in MUS 1513. Fall.
- MUS 1611. Keyboard Skills 1** PERFORMANCE COURSES GROUP INSTRUCTION. For non pianist Music Majors. To develop piano sight reading and repertoire, and to enhance corresponding courses, Music Theory I and Aural Theory I. Non music majors admitted with permission of instructor. Special course fees may apply. Fall, Spring, Summer.
- MUS 1621. Keyboard Skills 2** PERFORMANCE COURSES GROUP INSTRUCTION. For non pianist Music Majors. To develop piano sight reading and repertoire, and to enhance corresponding courses, Music Theory II and Aural Theory II. Prerequisites, MUS 1611 or permission of instructor. Special course fees may apply. Fall, Spring, Summer.
- MUS 1703. Introduction to Jazz Musicianship** Fundamentals of music theory and the application of music theory to improvisation in jazz and American popular music. Open to anyone who uses the grand staff to read western music notation. Demand.
- MUS 2211. Intermediate Piano I** PERFORMANCE COURSES GROUP INSTRUCTION. A continuation of MUS 1221. Two laboratory periods per week. Prerequisite, MUS 1221 or permission of instructor. Special course fees may apply. Fall.
- MUS 2221. Intermediate Piano II** PERFORMANCE COURSES GROUP INSTRUCTION. Continuation of MUS 2211. Prerequisite, MUS 2211 or permission of instructor. Special course fees may apply. Spring.
- MUS 2231. String Instrument Techniques** PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in string instrument performance. Two laboratory periods per week. Special course fees may apply. Fall, Spring.
- MUS 2503. Fine Arts-Musical** FINE ARTS. An introduction to music for the listener who has had no formal training or experience. The purpose is to develop listening skills. Fall, Spring, Summer. (ACTS#: MUSC 1003)
- MUS 2511. Aural Theory III** BASIC MUSIC THEORY. Continued training in aural and sight singing skills with emphasis on extended tonal and atonal practices. Two class periods per week. Prerequisite, C or better in MUS 1521. Fall.
- MUS 2513. Theory III** BASIC MUSIC THEORY. Chromatic harmony, basic music forms and analysis with emphasis on music of the 18th and 19th centuries. Prerequisite: Grade of C or better in MUS 1523. Fall.
- MUS 2521. Aural Theory IV** BASIC MUSIC THEORY. Continued training in aural and sight singing skills with emphasis on extended tonal and atonal practices. Two class periods per week. Prerequisite, C or better in MUS 2511. Spring.
- MUS 2523. Theory IV** BASIC MUSIC THEORY. Advanced tonal and atonal practices of music from the late 19th and 20th centuries through analysis. Prerequisite, C or better in MUS 2513. Spring.
- MUS 2611. Keyboard Skills 3** PERFORMANCE COURSES GROUP INSTRUCTION. For non pianist Music Majors. To develop piano sight reading and repertoire, and to enhance corresponding courses, Music Theory III and Aural Theory III. Prerequisites, MUS 1611 and MUS 1621 or permission of instructor. Non music majors admitted with permission of instructor. Special course fees may apply. Fall, Spring, Summer.

- MUS 2621. Keyboard Skills 4** PERFORMANCE COURSES GROUP INSTRUCTION. For non pianist Music Majors. To develop piano sight reading and repertoire, and to enhance corresponding courses, Music Theory IV and Aural Theory IV. Prerequisites, MUS 1611 and MUS 1621 or permission of instructor. Non music majors admitted with permission of instructor. Special course fees may apply. Fall, Spring, Summer.
- MUS 3211. Diction for Singers I** PERFORMANCE COURSES GROUP INSTRUCTION. Fundamentals of proper pronunciation of German, French, and Italian using the International Phonetic Alphabet. Two laboratory periods per week. Permission of instructor required. Special course fees may apply. Spring.
- MUS 3221. Diction for Singers II** PERFORMANCE COURSES GROUP INSTRUCTION. Continuation of Diction I. Two laboratory periods per week. Prerequisite, MUS 3211 or permission of instructor. Special course fees may apply. Fall.
- MUS 3231. Flute and Saxophone Techniques** PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Fall, odd.
- MUS 3241. Double Reed Techniques** PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Fall, even.
- MUS 3251. Clarinet Techniques** PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Spring.
- MUS 3281. Percussion Instrument Techniques** PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Spring.
- MUS 3310. Wind Ensemble** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Membership is open to all university students by audition on specified prepared materials and sight reading during the first week of the fall semester. The wind ensemble usually performs two scheduled concerts, with possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 3311. Wind Ensemble** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Membership is open to all university students by audition on specified prepared materials and sight reading during the first week of the fall semester. The wind ensemble usually performs two scheduled concerts, with possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.
- MUS 3330. Symphonic Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students without audition. This group rehearses MWF from 3:30 to 4:30 p.m. during the Spring Term and performs two scheduled concerts. Special course fees may apply. Large ensemble courses may be repeated for credit. Spring.
- MUS 3331. Symphonic Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students without audition. This group rehearses MWF from 3:30 to 4:30 p.m. during the Spring Term and performs two scheduled concerts. Special course fees may apply. Large ensemble courses may be repeated for credit. Spring.
- MUS 3340. Marching Band** LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Membership is open to all interested university students. This group performs at all regular and post season home football games with some travel to away games. Rehearsals are held TWRF from 3:30 to 5:00 p.m. during the football season. Mandatory pre school rehearsals held the week prior to registration. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall.

MUS 3341. Marching Band LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Membership is open to all interested university students. This group performs at all regular and post season home football games with some travel to away games. Rehearsals are held TWRF from 3:30 to 5:00 p.m. during the football season. Mandatory pre school rehearsals held the week prior to registration. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall.

MUS 3350. Concert Choir LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3351. Concert Choir LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3360. University Singers LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3361. University Singers LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Open to all university students by audition. Consists of scheduled concerts and possible tours. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3370. Small Ensemble SMALL ENSEMBLES. Non credit course. Vocal, woodwind, brass, handbell, guitar, and percussion performance ensembles. Periodic tours. Prerequisite: Permission of instructor. May be repeated for credit. Fall, Spring.

MUS 3371. Small Ensemble SMALL ENSEMBLES. Vocal, woodwind, brass, handbell, guitar, and percussion performance ensembles. Periodic tours. Prerequisite: Permission of instructor. May be repeated for credit. Fall, Spring.

MUS 3372. History of Western Music I BASIC MUSIC HISTORY AND LITERATURE. Evolution of musical style from the early Christian Church through the Pre-Classical era. Prerequisites, MUS 1513 and MUS 1523. Score and listening analysis are required. Spring.

MUS 3382. History of Western Music II BASIC MUSIC HISTORY AND LITERATURE II. Evolution of musical style in works from the mid-18th century to the present. Score and listening analysis are required. Prerequisites, MUS 3372. Fall.

MUS 3380. Jazz Ensemble SMALL ENSEMBLES. Non credit course. A performing ensemble designed to study a wide variety of jazz music including swing, progressive, modern, and rock styles. Periodic tours. Membership by audition only. May be repeated for credit. Fall, Spring.

MUS 3381. Jazz Ensemble SMALL ENSEMBLES. A performing ensemble designed to study a wide variety of jazz music including swing, progressive, modern, and rock styles. Periodic tours. Membership by audition only. May be repeated for credit. Fall, Spring.

MUS 3391. Laboratory Band LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. A large ensemble which allows participation by music majors on secondary instruments. Emphasis on easy to medium grade band literature as it applies to high school performance. Provides conducting experience for students enrolled in conducting classes. Special course fees may apply. May be repeated for credit. Spring, Fall.

MUS 3441. Elementary Conducting PERFORMANCE COURSES GROUP INSTRUCTION. Fundamental baton technique development and interpretation of the musical score. Two class meetings per week. Prerequisites, MUS 1513 and MUS 1523. Spring.

MUS 3451. Choral Conducting PERFORMANCE COURSES GROUP INSTRUCTION. Intensive study of conducting techniques and the problems in rehearsal and performance of choral literature of all styles, historical periods and special voicings. Prerequisite, MUS 3441. Fall.

MUS 3461. Instrumental Conducting PERFORMANCE COURSES GROUP INSTRUCTION. Intensive study of instrumental scores, baton techniques, and rehearsal procedures involved in conducting instrumental ensembles. Prerequisite, MUS 3441. Fall.

MUS 3422. Elementary Orchestration and Choral Arranging BASIC MUSIC THEORY. Acoustical and expressive uses of orchestral instruments and voices. Prerequisites, C or better in MUS 2513 and MUS 2511. Fall, Spring.

MUS 3471. Opera Production LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. A course in the study and performance of selected opera literature. Permission of instructor required. Special course fees may apply. May be repeated for credit. Fall.

MUS 3480. Orchestra LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. Non credit course. A large ensemble providing experience in the performing of selected string orchestra music including Baroque, Classical, Romantic, and 20th century style. Enrollment by permission of instructor. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3481. Orchestra LARGE ENSEMBLES CHORAL AND INSTRUMENTAL. A large ensemble providing experience in the performing of selected string orchestra music including Baroque, Classical, Romantic, and 20th century style. Enrollment by permission of instructor. Special course fees may apply. Large ensemble courses may be repeated for credit. Fall, Spring.

MUS 3523. Song Literature BASIC MUSIC HISTORY AND LITERATURE. Baroque, Classical, Romantic, and Twentieth-century song literature with special emphasis on style and level of difficulty. Prerequisite, Two semesters of theory or permission of instructor. Demand.

MUS 3551. High Brass Techniques PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Fall.

MUS 3561. Low Brass Techniques PERFORMANCE COURSES GROUP INSTRUCTION. Class instruction in performance and pedagogy. Two laboratory periods per week. Special course fees may apply. Spring.

MUS 416V. Special Problems BASIC MUSIC. Independent study of approved topics for juniors and senior arranged in consultation with a professor. Department approval required. Prerequisite, Two semesters of theory or permission of instructor. Fall, Spring, Summer.

MUS 4223. Piano Literature BASIC MUSIC HISTORY AND LITERATURE. Baroque, Classical, Romantic, and twentieth century piano music with special attention to style and level of difficulty. Prerequisite, Two semesters of theory or permission of instructor. Demand.

MUS 4322. History of Jazz BASIC JAZZ HISTORY AND LITERATURE. Evolution of jazz musical style in works from the early 20th century to the present. Spring.

MUS 4323. World Music This course will examine the music of a variety of non-western societies and cultures within which the music is produced. Prerequisites, HIST 1013, HIST 1023 or permission of Instructor. Demand.

MUS 4412. Form and Analysis BASIC MUSIC THEORY. Analysis of basic and larger forms of music. Demand.

MUS 4433. Improvisation of Jazz and Popular Music BASIC MUSIC THEORY. Fundamental techniques of improvising with emphasis on melodic and rhythmic principles. Demand.

MUS 4512. Church Music BASIC MUSIC HISTORY AND LITERATURE. A study of the music of the Christian Church with an emphasis on the historical and philosophical aspects. May be substituted for History I and II by BME and BM performance candidates. Prerequisite, Two semesters of theory or permission of instructor. Demand.

MUS 4642. Piano Pedagogy PERFORMANCE COURSES GROUP INSTRUCTION. Methods and materials of teaching piano. Prerequisite, permission of instructor. Demand.

Performance – Applied Music (MUSP)

MUSP 1100. Recital Attendance All music majors are required to attend a specified number of campus concerts and recitals. Fall, Spring.

- MUSP 1111. Performance Applied Music** One hour credit. One half hour lesson per week. Five hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 1112. Performance Applied Music** Two hours of credit. Two half hour lessons, or one 1 hour lesson per week. Ten hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 1113. Performance Applied Music** Three hours of credit. Two half hour lessons, or one 1 hour lesson per week. Fifteen hours practice required. Available only to Bachelor of Music degree candidates. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 3111. Performance Applied Music** One hour credit. One half hour lesson per week. Five hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 3112. Performance Applied Music** Two hours of credit. Two half hour lessons, or one 1 hour lesson per week. Ten hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 3113. Performance Applied Music** Three hours of credit. Two half hour lessons, or one 1 hour lesson per week. Fifteen hours practice required. Available only to Bachelor of Music degree candidates. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Fall, Spring.
- MUSP 3130. Junior Recital** One half. Student will perform a program equivalent to at least one half of a full solo recital. Fall, Spring.
- MUSP 4131. Senior Recital** Student will perform a full length solo performance. Fall, Spring.
- MUSP 4141. Piano Chamber Music** For advanced pianists. Experience with two-piano literature. One hour credit. One half hour lesson per week. Five hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Demand.
- MUSP 4151. Collaborative Piano** For advanced pianists. Permission of instructor required. May be repeated for credit. One hour credit. One half hour lesson per week. Five hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Demand.
- MUSP 4161. Pedagogy and Performance** The study of the literature and pedagogical techniques as related to performance. One hour credit. One half hour lesson per week. Five hours practice required. Students who are enrolled in 1 credit hour of Applied Music courses will be assessed a \$35.00 special course fee. The maximum special course fee for students enrolled in 2 or more credit hours of Applied Music is \$55.00. Prerequisite, MUS 3123 or permission of the instructor. May be repeated for credit. Fall, Spring, Summer.

Teaching Internship (TIMU)

- TIMU 4825. Music Teaching Internship in the Secondary School**
Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIMU 4826. Music Teaching Internship in the Secondary School**
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

DEPARTMENT OF THEATRE

Theatre (THEA)

- THEA 1203. Introduction to Theatre** Basic principles of theatrical traditions and terminology. Fall.
- THEA 1213. Beginning Acting** Basic theories and techniques of the art of acting. May be repeated once, depending on progress. Fall, Spring.
- THEA 1223. Principles of Stage Design** An exploration of the basic elements of design that are used to create the visual theatrical environment. Spring, odd.
- THEA 1393. Summer Children Theatre Performance** The research, preparation and presentation of children theatre plays for a live audience. Summer.
- THEA 1403. Summer Children Theatre Performance** The research, preparation and presentation of children theatre plays for a live audience. Summer.
- THEA 2203. Voice and Movement for Theatre I** Incorporation of vocal techniques in acting styles, emphasis on vocal flexibility. May be repeated with faculty consent. Fall.
- THEA 2213. Creative Improvisation** Examines the actors physical, vocal, and psychological potential to create a clear and simple characterization without a written script. May be repeated depending on progress. Spring.
- THEA 2223. Fundamentals of Stagecraft** Techniques of constructing, painting, and rigging scenic units. Spring.
- THEA 2233. Stage Makeup** Basic principles of applying stage makeup. Spring..
- THEA 2243. Stage Costume Construction** Basic principles of stage costume construction. Fall.
- THEA 2252. Introduction to Dance Styles** Introduction to the basic fundamentals of dance language, and execution of fundamental dance techniques including those of ballet, jazz, tap, and musical theatre dance. Warm up, stretching, jumps, turns, across the floor and various combinations will be practiced. Fall, even.
- THEA 2253. Stage Management** Principles and practices of stage management. Spring, even.
- THEA 2262. Tap Dancing** An introduction to tap dance techniques emphasizing fundamentals of body placement, vocabulary, and styles in tap. Students will be taught dance combinations to enhance technical skills, memory and performance qualities. Spring, even.
- THEA 2263. History of Costumes** An in depth study of the clothing styles of western civilization from 5 BC to the present. Fall, odd.
- THEA 2272. Dance Ballet** An introduction to ballet dance techniques emphasizing work in correct body alignment, posture, balance, barre work, stretches, strengthening exercises and grace. Students will be taught dance combinations to enhance technical skills, memory and performance qualities. The history and development of ballet will also be studied. Spring, odd.
- THEA 2282. Dance Jazz** An introduction to jazz dance technique emphasizing work in correct body alignment, improvisation, injury prevention, nutrition and fitness, flexibility, strengthening exercises, and performance. Students will be taught dance combinations in classical jazz, lyrical and musical theatre to enhance technical skills, memory and performance qualities. The history and development of jazz dance will also be explored. Fall, odd.
- THEA 2393. Summer Children Theatre Performance** The research, preparation and presentation of children theatre plays for a live audience. Summer.
- THEA 2403. Summer Children Theatre Technical** The research, preparation and presentation of children theatre plays for a live audience. Summer.
- THEA 2503. Fine Arts-Theatre** Provides student with an appreciation of how various artistic elements combine to produce theatrical productions. Fall, Spring, Summer. (ACTS#: DRAM 1003)
- THEA 3203. Motion Picture Appreciation** Movies as a work of art and a form of persuasion. Fall, Spring.

THEA 3213. Audition Techniques Preparation and execution of audition material. May be repeated with faculty consent. Prerequisite, THEA 1213. Fall.

THEA 3223. Studies in Dramatic Literature A reading introduction to plays and playwrights spanning from Greek to contemporary works. Fall, even.

THEA 3233. Play Analysis How playwrights achieved characterization, structure, and plot. Spring, even.

THEA 3243. Stage Combat Movement and combat techniques for the stage. May be repeated with consent of faculty. Prerequisite, THEA 2213. Spring, even.

THEA 3252. Theatre Laboratory Work on productions. Required of all Theatre Arts majors during every semester, except freshman semesters. Fall, Spring.

THEA 3263. Acting Shakespeare A thorough investigation of the acting techniques specific to performing Shakespeare through scene and monologue work. Prerequisite, THEA 1213. Spring, odd.

THEA 3273. Voice and Movement for Theatre II Incorporation of vocal techniques in acting styles, emphasis on vocal flexibility. May be repeated with faculty consent. Prerequisite, THEA 2203. Spring, odd.

THEA 3393. Summer Children Theatre Performance The research, preparation and presentation of children theatre plays for a live audience. Summer.

THEA 3403. Summer Children Theatre Technical The research, preparation and presentation of children theatre plays for a live audience. Summer.

THEA 4203. Stage Directing I Directing techniques for theatrical productions. Prerequisite, THEA 2213 or consent of instructor. Fall.

THEA 4213. Acting on Camera Developing skills for performance in front of and for the television and film camera. Spring, odd.

THEA 4223. Scene Design Principles of theatrical design. Prerequisite, THEA 2223 or consent of instructor. Spring, odd.

THEA 4233. Advanced Makeup Design Hair styling and makeup design. Prerequisite, THEA 2233 or consent of instructor. Fall, even.

THEA 4243. Stage Costume Design The exploration of the history and design of costumes through a variety of projects. Prerequisite, THEA 1223 or consent of instructor. Spring, even.

THEA 4253. Theatre Management Study of the fundamentals of financial, promotional and regulatory procedures governing theatre management. Spring, odd.

THEA 4263. History of Theatre I From the Greek Period to the Renaissance Period. Fall, odd.

THEA 4273. History of Theatre II From the Renaissance Period to the Modern Period. Spring, even.

THEA 4283. Period Styles in Acting Study of form, structure, and techniques for period acting styles. May be repeated. Fall, odd.

THEA 4303. Stage Lighting Principles and practices of stage lighting and sound. Prerequisite, THEA 2223 or consent of instructor. Fall, even.

THEA 4313. Fundamentals of Playwriting Writing plays, including readings, exercises, and adaptation. Prerequisite, THEA 1203 or consent of instructor. Fall, even.

THEA 4323. Stage Directing II Advanced scene work considering specifics such as rhythm, mood, conceptualization and play style. Prerequisite, THEA 4203. Spring, odd.

THEA 4333. Advanced Acting Further studies in style, technique, and characterization. May be repeated once. Prerequisite, THEA 3263. Fall, even.

THEA 4343. Musical Theatre Work involves exposure to the history of and the defining and solution of acting and musical problems which occur when performing musical theatre. Prerequisite, THEA 1213. Spring, even.

THEA 436V. Internship in Theatre Combines relevant work experience with classroom theory. Demand.

THEA 437V. Special Problems Prerequisite, permission of the instructor. May be repeated twice with different topics. Demand.

THEA 4383. Senior Project A capstone course designed to showcase the graduating seniors achievements and accomplishments. Fall, Spring.

THEA 4393. Summer Children Theatre Performance The research, preparation and presentation of children theatre plays for a live audience. Summer.

THEA 4403. Summer Children Theatre Technical The research, preparation and presentation of children theatre plays for a live audience. Summer.

THEA 4413. Sound Design and Production for the Theatre Principles and practices of stage sound design and production. Prerequisite, THEA 1203 or consent of instructor. Spring, even.

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

DEPARTMENT OF CRIMINOLOGY, SOCIOLOGY, AND GEOGRAPHY

Anthropology (ANTH)

- ANTH 2233. Introduction to Cultural Anthropology** Introduction to the concept of culture. Fall, Spring, Summer. (ACTS#: ANTH 2013)
- ANTH 2243. Introduction of Physical Anthropology** Introduces primatology, human population genetics and micro evolution. Fall.
- ANTH 3203. Introduction to Archaeology** Methods, theory, history, and techniques of archaeology as a branch of anthropology and a world survey of the prehistoric development of culture. Spring, odd.
- ANTH 3233. Native American Culture in the Mid-South** Study of the regions early inhabitants, with field work opportunities. Offered in alternative years. Prerequisites, ANTH 2233 or permission of the instructor. Spring, even.
- ANTH 460V. Special Problems** Individually directed problems in Anthropology. Must be arranged with the professor and approved by department chair. Demand.

Criminology (CRIM)

- CRIM 1023. Introduction to Criminal Justice** The introductory survey course in criminology, dealing with the main components of the criminal justice system including the police, courts, and corrections, as well as issues and procedures pertinent to the operation of these components. Prerequisite for CRIM 4103. Fall, Spring, Summer. (ACTS#: CRJU 1023)
- CRIM 2043. Community Relations in the Administration of Justice** Provides an understanding of the complex factors in human relations. The philosophy of law enforcement is examined with the emphasis on the social forces which create social change and disturbance. Spring.
- CRIM 2253. Criminal Investigation** Includes fundamentals and theory of an investigation, conduct at crime scenes, collection and presentation of physical evidence, and methods used in the police service laboratory. Fall.
- CRIM 2263. Criminal Evidence and Procedure** Rules of Evidence of import at the operational level in law enforcement and criminal procedures, personal conduct of the officer as a witness, examination of safeguarding personal constitutional liberties. Fall.
- CRIM 3183. Institutional Corrections** An examination of the context, structure, and dynamics of local, state, and federal criminal confinement facilities. Fall.
- CRIM 3193. Community Corrections** An examination of non-institutional correctional agencies and techniques including probation, parole, diversion, pretrial release, community service, restitution, halfway house, and similar programs. Spring.
- CRIM 3223. Police and Society** Explores the relationship of the police to courts, probation, community corrections, institutional corrections, and parole. Also explores the relationship between police and other social institutions and the philosophy of police as an agent of social control. Spring.
- CRIM 3263. Criminology** Sociological patterns of crime and criminals, with emphasis on causes, effects, and prevention. Fall, Spring.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

- CRIM 3323. Juvenile Delinquency** Causative factors in home, school, and community, extent of the problem, and methods of prevention and treatment. Fall.
- CRIM 4103. Criminal Justice Systems** General functions of the individual agencies and the duties and responsibilities of the individuals who perform these functions. Fall.
- CRIM 460V. Special Problems** Individually directed problems in Criminology. Must be arranged with the professor and approved by department chair. Demand.
- CRIM 470V. Internship** Combines supervised work experience with study of selected agencies and organizations. Must be arranged with the professor and approved by the department chair. Fall, Spring, Summer.

Geography (GEOG)

- GEOG 2613. Introduction to Geography** Emphasizes the physical and cultural patterns in the world. Fall, Spring, Summer. (ACTS#: GEOG 1103)
- GEOG 3603. World Regional Geography** Surveys geographic regions of the world, emphasizing the different ways of living and thinking by man in these different regions. Fall, even.
- GEOG 3613. Geography of the United States and Canada** Emphasizes the physical and cultural backgrounds of the United States and Canada. Spring, even.
- GEOG 3643. Introduction to Cultural Geography** Systematic examination of various cultures, especially their philosophies and dynamics of resource utilization and economic development. Spring, even.
- GEOG 3663. Geography of Africa** Fundamental contemporary issues that challenge Africans within the context of historical genesis. An emphasis will be placed on the social, economic, environmental and political dynamics of various regions of Africa. Fall.
- GEOG 3683. Economic Geography** Spatial distribution and interrelations of economic factors and forces and how they are affected by geographic factors. Spring, even.
- GEOG 3703. Political Geography** Content and philosophy of political geography and a geographic approach to the patterns of power and conflict among nation states. Consideration of regional blocs, strategic areas, disputed zones, and the dynamic impact of technology. Demand.
- GEOG 3723. Introduction to Physical Geography Weather and Climate** Examines the nature and character of various components of the physical environment including basic weather elements, climate, landforms, soil and natural vegetation. Demand. (ACTS#: GEOG 2223)
- GEOG 3743. Introduction to Land Use Planning** Introduces the student to theoretical as well as practical aspects of land use planning, focusing on the spatial, economic, and political aspects of land use in both rural and urban settings. Demand.
- GEOG 3813. Introduction to Geographic Information Systems** Introduces students to Geographic Information systems concepts and techniques. Demand.
- GEOG 4113. Water Resources Planning** A study of the basic concepts of hydrology and the major issues associated with water resources planning and management. Demand.
- GEOG 4223. Urban Geography** History, structure, function, growth, location, land use, and problems of movement, and city region relationships. NOTE, GEOG 4223 and SOC 4223 are equivalent courses; credit may be received for only one of the courses. Fall, Summer, even.
- GEOG 4313. Advanced Perspective in Historical Geography** Examines issues that are both chronological and spatial in nature including settlement patterns, migration, and population trends. Demand.
- GEOG 460V. Special Problems** Individually directed problems in Geography. Must be arranged with the professor and approved by department chair. Demand.
- GEOG 4613. Conservation of Natural Resources** Current problems associated with the conservation of natural resources. Demand.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

- GEOG 4623. Environmental Management** The dynamic nature of the earth's surface, using the hydrologic cycle as a broad framework for analyzing the physical environment and for assessing sound environmental management practices. Spring, even.
- GEOG 4633. Climatology** Climatic regions of the world; controlling factors of weather. Demand.
- GEOG 4643. Geography of Arkansas** Arkansas physical, cultural, and historical landscapes. Summer.
- GEOG 4683. Senior Seminar** The more important research methods in obtaining geographical information. Demand.
- GEOG 470V. Internship in Geography** Combines relevant work experience with classroom theory in public and private planning agencies. Must be arranged with professor and approved by the department chair. Demand.
- GEOG 4813. Special Topics in Geography** An intensive study of a region or pertinent topic in geography. May be repeated once when topic changes. Demand.

Sociology (SOC)

- SOC 1013. Making Connections Sociology** Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.
- SOC 2213. Introduction to Sociology** Human society and social behavior. Fall, Spring, Summer. (ACTS#: SOCI 1013)
- SOC 2223. Social Problems** Application of sociological concepts and methods in the analysis of current social problems in the United States, including family and community disorganization, delinquency and crime, mental illness, and intergroup relations. Cross listed as SW 2223. Fall, Spring, Summer. (ACTS#: SOCI 2013)
- SOC 3003. Sociology of Gender** Origins, acquisition, structure, and change of gender roles in contemporary society, examined in terms of impact upon both the individual and society. Cross listed as WGS 3003. Fall, Spring, Summer.
- SOC 3213. Sociology of Intimate Relationships** Aspects of close social relationships, roles, power, love, conflict, and change. Cross listed as WGS 3213. Fall, even.
- SOC 3223. Sociology of Families** Emphasizes the sociocultural factors influencing the structure and development of marriage and the family. Fall, Spring, Summer.
- SOC 3273. Social Stratification** Examination of causes and consequences of social inequality with a focus on class, status, power and privilege, particularly in American society. Spring, Summer.
- SOC 3293. Social Behavior** Factors influencing behavior in social situations. Spring.
- SOC 3313. Sociology of Sexuality** Examines sexuality from a sociological perspective, focusing on the social construction of sexuality and the moral and political controversies that surround it. Demand.
- SOC 3333. Sociology of Health and Illness** Social causation of diseases, social definition of health and illness, social aspects of healing and rehabilitation, the nature of health professions, and the delivery of health care services. Demand.
- SOC 3353. Minority Groups** Examines race, ethnicity and other bases for minority status in society, focusing on social inequality and the social construction of minority and majority group statuses and relations. Fall, Spring, Summer.
- SOC 3363. Sociology of Religion** Examines the relationship of religion to society, focusing on the functions and dysfunctions of religious systems on other social institutions. Demand.

- SOC 3373. Technology and Society** This course will critically examine how technology has changed the society in which we live. In doing so, we will explore how technologies are introduced, who benefits from their implementation, the risks involved with technologies, and how technology can be controlled. Spring.
- SOC 3381. Social Statistics Laboratory** Laboratory associated with SOC 3383. Two hours per week. Corequisite, SOC 3383. Fall, Spring.
- SOC 3383. Social Statistics** Central concepts and techniques of conducting descriptive and inferential analysis employed in quantitative investigation to understand social processes and phenomena. Prerequisites, MATH 1023 or higher level math course. Corequisites, SOC 3381 Social Statistics Laboratory. Fall, Spring.
- SOC 4003. Perspective on Death and Dying** A multidisciplinary overview of major themes and perspectives on dying, death, and bereavement, including historical, cultural, social, and psychological aspects. Medical, legal and ethical issues. Grief and bereavement. The death system. Violent death, disasters and megadeath. Beyond death. Prerequisite, minimum of 60 hours. Summer.
- SOC 4053. Today's Families Interdisciplinary Approaches** An interdisciplinary course designed to promote a critical approach to examining the family and its role in society. Prerequisite, 12 hours of coursework in Interdisciplinary Family Minor or instructors permission. Cross listed as ECH 4053, NRS 4053, PSY 4053. Spring.
- SOC 4063. Sociology of Disasters** Discusses socio-cultural aspects of natural and human made disasters, with an emphasis on social causes and consequences. Spring, even.
- SOC 4073. Sociology of Family Violence** An overview of the causes, prevalence and consequences of child abuse, intimate partner violence, and elder abuse. Fall, odd.
- SOC 4203. Social Deviance** Describes and explains the violation of social norms. Spring.
- SOC 4213. The Sociology of Childhood and Adolescence** Examination of childhood and adolescence, not only in the contemporary U.S., but also historically and cross culturally, with an emphasis on children as actively involved in the creation and reproduction of childhood and adolescence and social change within their societies. Fall.
- SOC 4223. Urban Sociology** History, structure, function, growth, location, land use, and problems of movement, and city region relationships. NOTE, SOC 4223 and GEOG 4223 are equivalent courses. Credit may be received for only one of the courses. Fall, Summer, even.
- SOC 4233. Social Organization** Concepts and principles of social organization and disorganization and the disruptive effects of social and cultural dynamics upon the individual, family, community, nations, and world. Summer.
- SOC 4243. Social Theory** Examination of the context, content and contributions of sociological thinkers up to the early 20th century. Fall, Spring.
- SOC 4253. Rural Sociology** Multidimensional examination of the range of rural places, people, institutions, cultures, economies and change, with a focus on the United States and Arkansas. Spring.
- SOC 4263. Terrorism as a Social Movement** Examines domestic and international terrorism, including history of terrorism, philosophical and religious ideologies justifying terrorism, social, political, economic, psychological, and legal impacts of terrorism, terrorist groups, motives and tactics, and methods of counter-terrorism. Prerequisite, minimum of 60 hours. Dual Listed SOC 5263. Fall, Spring, and Summer.
- SOC 4273. Population and Demography** Basic concepts and measures of the three central demographic processes of fertility, mortality and migration and introduction of contemporary population related issues. Spring, Summer, odd.
- SOC 4293. Methods of Social Research** Overview of quantitative and qualitative tools used in the social sciences to analyze relationships among social variables. Fall, Spring.
- SOC 4323. Applied Research** Techniques for analyzing social science data using the Statistical Package for the Social Sciences and other data analysis systems. Prerequisites, SOC 3383 and 4293, or equivalents. Fall, Spring.

- SOC 4333. Sociology of Youth Subcultures** Sociological study of youth subcultures from American, British and new subcultural perspectives, plus a range of historical and contemporary youth subcultures. Also covers various analytic topics such as identity, resistance, style, music, response, and consumption. Prerequisite, SOC 2213. Demand.
- SOC 4343. Geographic Information Systems for the Social Sciences** An introduction to the applied analysis of social and environmental geographic data. Includes a discussion of geographic data, maps, and conducting applied geographic analysis. Prerequisites, SOC 3383, SOC 4293 or POSC 3003 or PSY 3103 and PSY 3123 or QM 2113 and QM 3113 or AGRI 3233 and AGRI 4233 or TECH 3773 and TECH 4813. Fall.
- SOC 4353. Sociology of Aging** Survey of theories, methodologies, concepts, and major research findings regarding the aging of individuals and societies, using the U.S. as a central example. Fall.
- SOC 4363. Environmental Sociology** This course explores how our views of nature and the environment are socially constructed. In this context, we will examine how numerous environmental issues are created and exacerbated by social issues. We will also investigate actions that will reduce our ecological footprint. Demand.
- SOC 4373. Sustainable Development in Modern Society** This course will introduce students to the concept of sustainable development. In our investigation of what a sustainable community would look like, issues such as development paradigms, human environment interactions, and politics will be discussed on local, national, and international scales. Permission of instructor required. Demand.
- SOC 460V. Special Problems** Individually directed problems in sociology and criminology for juniors and seniors. Must be arranged in consultation with a professor, and approved by the department chair. Fall, Spring, Summer.
- SOC 4703. Internship** Combines supervised work experience with study of selected agencies and organizations. Must be arranged with the professor and approved by the department chair. Fall, Spring, Summer.

DEPARTMENT OF ENGLISH AND PHILOSOPHY

Method and Materials Teaching English (EDEN)

- EDEN 4553. Methods and Materials for Teaching English in the Secondary School** The study of models of teaching and instruction and of assumptions underlying current teaching learning practices for English in the secondary schools. Opportunities to develop skills and strategies for teaching language, literature, and composition to culturally diverse students. Must be admitted to the Teacher Education Program. Fall.
- EDEN 4653. Methods and Materials for Teaching English in the Middle School** Methods and materials for teaching English to the special needs of middle school students. Focus on the application of techniques and strategies for teaching language, literature, and composition to culturally diverse students. Must be admitted to the Teacher Education Program. Spring, even.

English (ENG)

- ENG 0003. Basic Writing** Intensive, individualized work on the basic strategy, organization, diction, and grammar of the collegiate essay. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.
- ENG 0103. Composition for Non-Native Speakers I** Comprehensive advanced grammar, sentence structure, and vocabulary for students scoring under 500 on the TOEFL. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring.

- ENG 0203. Composition for Non-Native Speakers II** Designed to help non-native students develop their ideas into well organized, well developed and effective paragraphs and essays based on major rhetorical patterns. Grammar, sentence structure, and the complete writing process are emphasized. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring.
- ENG 1003. Composition I** Study and practice of fundamentals of written communication including principles of grammar, punctuation, spelling, organization, and careful analytical reading. Prerequisite, with grade of C or better, for ENG 1013. Fall, Spring. (ACTS#: ENGL 1013)
- ENG 1013. Composition II** Continues the practice of ENG 1003, to develop further the skills learned in that course. Based on reading and discussion of various types of writing, the students' essays will provide practice in different kinds of rhetorical development including research and documentation. Prerequisite, must complete ENG 1003 with grade of C or better for degree. Fall, Spring. (ACTS#: ENGL 1023)
- ENG 1023. Making Connections Humanities** Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.
- ENG 1643. The Impulse toward Religion** Demonstrates why and how religious belief and expression, though different in various cultures, remain vital forces. Required course for minor in Religious Studies. Fall.
- ENG 2003. Introduction to World Literature I** Introduction to the analysis and interpretation of literary works from several historical periods ranging from early civilizations through the Renaissance. Fall, Spring. (ACTS#: ENGL 2213)
- ENG 2013. Introduction to World Literature II** Introduction to the analysis and interpretation of literary works from several historical periods ranging from the Renaissance to the present. Fall, Spring. (ACTS#: ENGL 2223)
- ENG 2103. Introduction to Poetry and Drama** Poetry and drama with emphasis on analytic reading and writing skills. Fall, Spring.
- ENG 2113. Introduction to Fiction** Short fiction and the novel with emphasis on analytic reading and writing skills. Fall, Spring.
- ENG 3003. Advanced Composition** Emphasis on the development of structure and style in the literary essay and on research skills. Spring.
- ENG 3013. Practical Writing** Emphasis on practical writing skills applicable to students in all disciplines. Will not apply to English degree requirements. Fall, Spring.
- ENG 3023. Creative Writing** Instruction and practice in the writing of poetry, fiction, and drama. May be repeated with change of literary category. Fall.
- ENG 3043. Technical Writing** Forms and techniques of technical writing. Will not apply to English BA major requirements. Spring, odd.
- ENG 3223. British Literature to 1800** Major British authors, genres, and movements from the beginning to the end of the Neoclassical period. Fall, even.
- ENG 3233. Shakespeare** Introduction to the works of Shakespeare. Fall.
- ENG 3243. British Drama to 1800** Drama in the Middle Ages, Renaissance, Restoration, and Neoclassical periods, including at least three Shakespeare plays. Spring, odd.
- ENG 3263. British Literature Since 1800** Major British authors, genres, and movements from the Romantic period to the present. Fall, odd.
- ENG 3293. British Novel** Representative British novels. Spring, even.
- ENG 3323. American Literature to 1865** Major American authors, genres, and movements from the beginning to the end of the Neoclassical period. Fall, even.

- ENG 3363. American Literature Since 1865** Major American authors, genres, and movements from the Civil War to the present. Fall, odd.
- ENG 3373. Regional American Literature** Writings from a selected region of the United States. Fall, odd.
- ENG 3393. American Novel** Representative American novels. Spring, odd.
- ENG 3453. World Literature** Selected authors, genres, movements, or themes in world literature. Fall, even.
- ENG 3463. Literature and Film** A study of how literature and literary tradition translate into cinema. Prerequisites, ENG 2003, 2013, 2103, 2113 or equivalent. Fall, even.
- ENG 3473. Contemporary Literature** Global literature mainly from 1945 to the present, including British, American, and world authors. May focus on poetry, prose, or drama, or a combination of those. Fall.
- ENG 3482. Special Projects** Practicum in the teaching of composition for the preprofessional. Prerequisite, consent of instructor. Fall.
- ENG 3483. The Bible as Literature** Analytical and critical study of selected books of the Bible with emphasis on its component genres, literary qualities, and influence. May not be repeated for credit. Spring, odd.
- ENG 3493. Popular Literature** One or more selected topics of popular literature, for example, science fiction, fantasy, sport, detective fiction, and the best seller. Spring, even.
- ENG 3583. Literature for Adolescents** Fiction, poetry, and drama which meet the needs of upper elementary, middle school, and high school students. Fall.
- ENG 3613. Introduction to Folklore** Collection, classification, and analysis of folklore, with special emphasis on oral literature. Fall.
- ENG 3623. American Folklore** Survey of the unofficial culture which has helped to shape the American experience, with special emphasis on oral literature, conventional belief, and traditional lifeways. Spring, odd.
- ENG 3633. Native American Verbal Art** Examination of oral literature of the indigenous peoples of North America and of contemporary literature written by American Indians. Spring, even.
- ENG 3643. African-American Folklore** A study of African American culture through New World black traditions, including oral narratives and folksongs. Spring, even.
- ENG 4023. Advanced Creative Writing** Writing poetry, fiction, or drama. Prerequisite, ENG 3023 or permission of instructor. May be repeated with change of literary category. Spring.
- ENG 4043. Theory in the Teaching of Composition** An introduction to teaching composition based on current research and theory with special emphasis on practical applications in the secondary school classroom. Spring.
- ENG 4053. The English Language** Historical, structural, and linguistic development of the English language, emphasizing sound change and analysis of spoken and written English. Fall, even.
- ENG 4063. Comparative Modern Grammars** Major grammatical systems, traditional, structural, and transformational. Spring.
- ENG 4083. Introduction to Linguistics** Phonetics, phonemics, morphology, syntax, and semantics. Fall, odd.
- ENG 4103. Introduction to Contemporary Literary Theory** An introduction to the major theoretical approaches to literary criticism, ranging from formalism through poststructuralism. Fall, odd.
- ENG 4113. Genre Studies: Tragedy, Comedy, Romance or Epic** Studies in one of four genres in all its formal aspects and changing manifestations in literature, including fiction, drama, and poetry. Spring, odd.

- ENG 4183. Renaissance Drama Excluding Shakespeare** Familiarizes the student with the contemporaries of Shakespeare in the Elizabethan and Jacobean theatre. Some familiarity with Shakespeare helpful, but not essential. Spring, even.
- ENG 4213. Medieval Literature** English literature during the Middle Ages. Selected continental writings may be included. Spring, odd.
- ENG 4223. Milton** An intensive study of selected works of John Milton. Fall, odd.
- ENG 4233. Sixteenth-Century Literature** English literature during the sixteenth century. Selected continental writings may be included. Spring, even.
- ENG 4243. Seventeenth-Century Literature** English literature during the seventeenth century. Selected continental writings may be included. Fall, even.
- ENG 4253. Restoration and Neoclassical Literature** English literature during the late seventeenth and eighteenth centuries. Selected continental writings may be included. Spring, even.
- ENG 4263. Romantic Literature** Major currents and figures of the English Romantic movement. Selected background writings may be included. Fall, even.
- ENG 4273. Victorian Literature** Major currents and figures in the Victorian Age. Selected background writings may be included. Spring, odd.
- ENG 4283. Modern British Literature** English literature in the twentieth century. Selected background writings may be included. Fall, odd.
- ENG 4333. American Romanticism** American literature in the first half of the nineteenth century. Spring, odd.
- ENG 4353. American Realism and Naturalism** American literature in the second half of the nineteenth century and the early twentieth century. Spring, even.
- ENG 4363. African-American Literature** Survey of African American literature from its beginnings to the present. Spring, odd.
- ENG 4373. Modern American Literature** American literature since World War I. Spring, even.
- ENG 4383. Minority Literature** Selected works of American minority writers from such groups as Blacks, Native Americans, or Chicanos. Fall, even.
- ENG 4453. Women Writers** A study of literature written by women. Cross listed as WGS 4453. Spring, odd.
- ENG 4463. Special Topics** Intensive study of individual authors, limited periods, movements, or specific theme. Demand.
- ENG 4613. Ballad and Folksong** Analysis and interpretation of oral poetry, especially that of the English speaking world. Fall, odd.
- ENG 4623. Mythology** Content, structure, and belief systems of various mythologies from the perspectives of selected mythographers. Spring, odd.
- ENG 4633. Material Folk Culture** The analysis and interpretation of traditional skills, services, and art and craft objects provided in folk societies. Fall, even.
- ENG 4643. Independent Fieldwork in Folklore** Development and implementation of a research agenda, using standard field methods in folklore studies such as the tape-recorded interview and participant observation. Prerequisites, ENG 3613 and permission of instructor. Fall, Spring.
- ENG 4703. Persuasive Writing** Practice in reading and writing persuasive texts, with study of theories relating to rhetoric and persuasion. Fall.

Philosophy (PHIL)

- PHIL 1103. Introduction to Philosophy** Basic problems of philosophy based upon readings in the works of selected leading philosophers. A prerequisite for upper level philosophy. Fall, Spring. (ACTS#: PHIL 1103)

- PHIL 1503. Logic and Practical Reasoning** Methods and principles used in distinguishing correct from incorrect reasoning, designed to give the student a working knowledge of the detection of fallacies, the definition of terms, and the recognition of deductive and inductive thought. Fall, Spring. (ACTS#: PHIL 1003)
- PHIL 2403. Introduction to Cognitive Science** Cognitive Science is a wide ranging area of study focusing on cognition from a variety of perspectives. Spring.
- PHIL 3213. History of Ancient and Medieval Philosophy** Development of Western philosophy from the time of the Pre-Socratics to the end of the Middle Ages. Fall, even.
- PHIL 3223. History of Modern Philosophy** Major trends and figures in the development of Western philosophy from the Renaissance into the nineteenth century. Spring, odd.
- PHIL 3313. Philosophy of Religion** Basic religious beliefs and practices, with emphasis on the problems of reason and revelation, the existence and nature of God, evil and immortality. Fall, odd.
- PHIL 3403. Theory of Knowledge** Basic questions about the nature of human knowledge with emphasis on truth, evidence, and justification. Fall, even.
- PHIL 3423. Philosophy of Science** Provides critical examination of methods and presuppositions of science. Fall, odd.
- PHIL 3553. Symbolic Logic** Rigorous treatment of sentential logic and predicate logic, and basic issues in metatheory. Prerequisite, PHIL 1503 or MATH 1023 or consent of instructor. Demand.
- PHIL 3623. Eastern Philosophy** Major non-western philosophical traditions including Hinduism, Taoism, Buddhism, and Confucianism. Spring, even.
- PHIL 3703. Philosophy of Law** Conceptual and ethical questions relating to law and philosophy, including analytical jurisprudence, the justification of punishment, etc. Spring, odd.
- PHIL 3713. Ethics in the Health Professions** Examination of the moral and conceptual issues raised in the practice of medicine and the attendant medical technology. Spring.
- PHIL 3723. Computers, Ethics, and Society** Introduction to moral, professional, and legal issues involving computer hardware and software. Prerequisite, PHIL 1103 or permission of instructor. Spring, even.
- PHIL 3773. Topics in Feminist Philosophy** Examining questions from the perspective of feminist philosophical inquiry. Topics including, but not limited to Feminist Epistemology, Feminist Ethics, and Feminist Philosophy of Science. Prerequisite, PHIL 1103 or instructor's permission. Cross listed as WGS 3773. Demand.
- PHIL 4213. Contemporary Philosophy** Major trends and developments in philosophy since the late nineteenth century and selected issues and works of major figures in this period. Fall, odd.
- PHIL 4403. Metaphysics** Introduction to basic issues in analytic metaphysics including philosophy of mind, personal identity, determinism, realism, supervenience, and modalities. Fall, odd.
- PHIL 4443. Philosophy of Mind** Foundational issues in the study of mind, includes the nature of mind, the relation of psychology to physical science, and theories of mental content. Prerequisite, PHIL 1103 or permission of instructor. Spring, even.
- PHIL 4703. Contemporary Ethical Issues** Examination of important recent theories of the nature or content of moral language, judgments, and norms. Fall, even.
- PHIL 4723. Aesthetics** The nature of art, designed to help students respond intelligently to works of art. Fall, even.
- PHIL 4733. Environmental Ethics** An investigation of the ethical dimensions of environmental issues. Prerequisite, PHIL 1103. Fall, odd.
- PHIL 4743. Social and Political Philosophy** Explores the justification, or lack thereof, of social and political institutions. Prerequisite, PHIL 1103, Introduction to Philosophy, equivalent, or instructor's permission. Cross listed as WGS 4743. Fall, even.

- PHIL 4763. Philosophy of Sex** Explores the concept of sexual activity and the implications of various theories of sexual activity to our understanding of rape, sexual harassment, pornography, sexual fidelity, parenthood, and various other important contemporary sexual issues. Cross listed as WGS 4763. Spring, even.
- PHIL 4773. Defining Race** Biological, constructivist, and denial theories of race and their moral and political ramifications for racism, affirmative action, and hate crime legislation. Prerequisite, PHIL 1103. Spring, odd.
- PHIL 480V. Readings in Philosophy** Independent readings for advanced students only. Must have consent of department chair. May be repeated for a maximum of 6 hours credit. Fall, Spring.
- PHIL 4883. Philosophical Classics** Advanced study of selected central works in philosophy. Content will vary. Prerequisite, 9 hours of philosophy. Demand.

Teaching Internship (TIEN)

- TIEN 4825. English Teaching Internship in the Secondary School**
Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIEN 4826. English Teaching Internship in the Secondary School**
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

Women and Gender Studies (WGS)

- WGS 3003. Sociology of Gender** Origins, acquisition, structure, and change of gender roles in contemporary society, examined in terms of impact upon both the individual and society. Cross listed as SOC 3003. Fall, Spring, Summer.
- WGS 3213. Sociology of Intimate Relationships** Aspects of close social relationships, roles, power, love, conflict, and change. Cross listed as SOC 3213. Fall, even.
- WGS 3333. Women's Health: Past, Present, Future** Health problems of women studied with both a traditional and contemporary focus. Emphasis on current information needed by health professionals to help women achieve optimum wellness. Prerequisites, Junior level nursing status or permission of instructor. Cross listed as NRS 3333. Fall, Summer.
- WGS 3693. United States Women's History** The role of women in United States history from 1600 to the present. Cross listed as HIST 3693. Spring, odd.
- WGS 3773. Topics in Feminist Philosophy** Examining questions from the perspective of feminist philosophical inquiry. Topics including, but not limited to Feminist Epistemology, Feminist Ethics, and Feminist Philosophy of Science. Prerequisite, PHIL 1103 or instructor's permission. Cross listed as PHIL 3773. Demand.
- WGS 4323. Race, Gender and Media** Survey of the interface between Americans of color, women and the mass media in the United States. Cross listed as MMJ 4323. Fall.
- WGS 4453. Women Writers** A study of literature written by women. Cross listed as ENG 4453. Spring, odd.
- WGS 4473. U.S. Southern Women's History** Examines the history and changing status of women in the U.S. South from the 1400s to the present. Cross listed as HIST 4473. Spring, even.
- WGS 4483. History of Sexuality in America** Forces which have shaped American beliefs and practices concerning sexuality, and the roles played by gender, race and class. Cross listed as HIST 4483. Fall, odd.
- WGS 4743. Social and Political Philosophy** Explores the justification, or lack thereof, of social and political institutions. Prerequisite, PHIL 1103, Introduction to Philosophy, equivalent, or instructor's permission. Cross listed as PHIL 4743. Fall, even.

WGS 4763. Philosophy of Sex Explores the concept of sexual activity and the implications of various theories of sexual activity to our understanding of rape, sexual harassment, pornography, sexual fidelity, parenthood, and various other important contemporary sexual issues. Cross listed as PHIL 4763. Spring, even.

DEPARTMENT OF HISTORY

Methods and Materials Teaching Social Studies (EDSS)

EDSS 4603. Methods and Materials for Teaching Social Studies in the Secondary School Historical and current trends in teaching social studies at the secondary school level. Major emphasis on content and concept development and their application in the social studies classroom. Practice in writing objectives, applying teaching techniques, and formulating student evaluations. Must be admitted to the Teacher Education Program. Fall, Spring.

History (HIST)

HIST 1003. Introduction to Legal Professions GENERAL HISTORY. First year experience course examining legal professions and issues, as well as interdisciplinary skills to aid in college success. Fall.

HIST 1013. World Civilization To 1660 WORLD AND EUROPEAN HISTORY. The great civilizations, with emphasis on the main historical currents influencing modern society. Fall, Spring, Summer. (ACTS#: HIST 1113)

POSC 3223. European Political Systems COMPARATIVE POLITICS. A comparative analysis of major European political systems in terms of their pressure groups, political parties, and policy formation processes. Demand.

POSC 3243. Religion and Politics COMPARATIVE POLITICS. A comparative study of religion and politics. Fall, odd.

POSC 3303. Introduction to International Politics INTERNATIONAL POLITICS. Various approaches to the study of international politics. Fall, even.

POSC 3313. American Foreign Policy INTERNATIONAL POLITICS. Development, formation, goals, administration, and realities of American foreign policy in modern times, with emphasis on current issues. Spring.

POSC 3413. Classical and Medieval Political Theory POLITICAL THEORY. Classical Greek and Christian forms of political theory. Fall, odd.

POSC 3423. American Political Theory POLITICAL THEORY. An analytical study of American political theories from the precolonial era to the present and their impact upon our political institutions. Spring, odd.

POSC 3433. Political Ideologies POLITICAL THEORY. Contemporary political ideas and movements, including liberalism, conservatism, anarchism, fascism, communism, and nationalism. Fall, even.

POSC 3453. Modern Political Theory POLITICAL THEORY. Writings of modern political philosophers such as Machiavelli, Hobbes, and Rousseau. Spring.

POSC 3503. Principles of Public Administration PUBLIC ADMINISTRATION. Survey of the field of public administration and its problems. Spring.

POSC 3513. Public Budgeting Process PUBLIC ADMINISTRATION. The public budgeting processes of the United States and of Arkansas, administrative and political problems connected with raising and expending public revenues. Spring, even.

POSC 4003. Special Topics Political Psychology GENERAL POLITICS. Focuses on the core concepts and theories involved in the psychological understanding of politics and on the applications of these concepts and theories across the substantive areas of the discipline of political science. In addition, this course is concerned with the development of empirical studies by the students. May be repeated once for credit with a different subtitle. Demand.

POSC 4113. American Legislative Process AMERICAN POLITICS. Structure and organization of legislative bodies, with a detailed study of legislative processes. Spring, odd.

POSC 4123. Women in Politics AMERICAN POLITICS. An examination of the interrelationship of gender, politics, and popular culture. Spring, odd.

POSC 4143. Public Opinion and Public Policy AMERICAN POLITICS. The function of public opinion in political systems, and methods for revealing public preferences; with principal focus on the US case. Dual listed as POSC 5143. Spring, odd.

POSC 4153. Politics and Popular Culture by the Decade An analysis of the intersection of politics and popular culture for a particular decade, to be chosen by instructor. Fall even.

POSC 4223. Middle Eastern Political Systems COMPARATIVE POLITICS. Major Middle Eastern political systems, with concentration on their common characteristics and major differences. Spring, odd.

POSC 4233. Life Sex Death or Body Politics in Comparative Perspective. COMPARATIVE POLITICS. A cross-national study of policy and policy change with respect to state regulation of the body. Prerequisite: Completion of POSC 3003 or permission of the instructor. Spring, even.

POSC 4313. International Organization INTERNATIONAL POLITICS. Development, structure, and politics of international organizations such as the United Nations. Fall, odd.

POSC 4453. Analysis of Contemporary Political Theory POLITICAL THEORY. An analytical and theoretical examination of one or more theoretical political issues of the 20th and 21st centuries. Topics of analysis may include democracy, justice, community, political ethics, multiculturalism, or the theories of a particular political philosopher or school of political philosophy. Content will vary. Spring.

POSC 4503. Public Policy, Politics and Power PUBLIC ADMINISTRATION. Provides a framework for understanding the fundamentals of the American public policy making process, the political context in which it operates and the theories of power that affect it. Spring, odd.

POSC 4513. Disaster Response Operation Management PUBLIC ADMINISTRATION. Roles and responsibilities of public managers and others within the National Incident Management System. May be credited toward Minor in Homeland Security and Disaster Preparedness. Fall-odd.

POSC 4523. Public Personnel Administration PUBLIC ADMINISTRATION. Policies, methods, and techniques utilized in public personnel. Fall.

POSC 4533. Environmental Law and Administration PUBLIC ADMINISTRATION. Overview of current environmental law, its administration and enforcement. Demand.

POSC 4553. HSDP Capstone PUBLIC ADMINISTRATION. Application of skills and knowledge gained in the minor to the analysis of a specific need or problem and the design of solutions. Team-work among various specialties with the field. Prerequisite, NRS 4503. Permission of instructor required. Dual listed as NRS 4553. Spring.

POSC 480V. Readings in Political Science READINGS IN POLITICAL SCIENCE. Independent readings for all advanced students regardless of major. Limited to three hours. Students must have consent of instructor and department chair. Fall, Spring, Summer.

POSC 481V. Internships GENERAL POLITICS. Placement of students in community based and government agencies to provide a practical framework for applying the theoretical instruction of the classroom. Demand.

DEPARTMENT OF WORLD LANGUAGES AND CULTURES

Arabic (AR)

AR 1036. Accelerated Elementary Arabic Pronunciation and basic grammar, simple speaking and listening comprehension skills, and cultural understanding of the Arabic world. Fall.

AR 2036. Accelerated Intermediate Arabic Further development of listening and speaking skills, with increasing emphasis on reading and writing. Continuation of AR 1036. Spring.

Chinese (CHIN)

CHIN 1013. Elementary Chinese I Basic Mandarin Chinese speaking and listening comprehension skills, basic grammar, reading and character writing, basic familiarity with Chinese culture. Fall.

CHIN 1023. Elementary Chinese II Continuation of CHIN 1013. Further development of basic Mandarin Chinese speaking and listening comprehension skills, basic grammar, reading and character writing, basic familiarity with Chinese culture. Prerequisite, CHIN 1013 or consent of the instructor. Spring.

CHIN 1036. Accelerated Elementary Chinese Pronunciation and basic grammar, simple speaking and listening comprehension skills, and cultural understanding of the Mandarin Chinese speaking areas. Fall.

CHIN 2013. Intermediate Chinese I Continuation of CHIN 1023. Further development of basic Mandarin Chinese speaking and listening comprehension skills, basic grammar, reading and character writing, basic familiarity with Chinese culture. Prerequisite, CHIN 1023 or consent of instructor. Fall.

CHIN 2023. Intermediate Chinese II Continuation of CHIN 2013. Further development of basic Mandarin Chinese speaking and listening comprehension skills, basic grammar, reading and character writing, basic familiarity with Chinese culture. Prerequisite, CHIN 2013 or consent of instructor. Spring.

CHIN 2036. Accelerated Intermediate Chinese Continuation of CHIN 2036. Further development of listening and speaking skills, with increasing emphasis on reading and writing. Spring.

CHIN 350V. Special Topics in Chinese Advanced study in Chinese language and culture to facilitate advanced-level communication skill development. Cultural and linguistic emphases may vary. May be repeated when topic changes. Prerequisite, CHIN 2036 or consent of instructor. Demand.

Methods and Materials for Languages (EDLA)

EDLA 4633. Methods and Materials for Teaching Second Languages Knowledge and practice of instructional strategies and techniques associated with a proficiency based approach to foreign language teaching. Study of the theoretical bases of language learning and acquisition, innovations in curricula, resources, materials, and technology. Must be admitted to the Teacher Education Program. Fall.

French (FR)

FR 1013. Elementary French I Practice toward developing basic proficiency in listening comprehension, speaking, reading, writing, and cultural understanding of the French speaking world. Fall. (ACTS#: FREN 1013)

FR 1023. Elementary French II Continuation of FR 1013. Spring. (ACTS#: FREN 1023)

FR 1036. Accelerated Elementary French I and II Intensive one semester course that covers the material of instruction designed for a regular academic year. Fall.

FR 2013. Intermediate French I Continues the development of the basic language skills, with increasing emphasis on the written elements of the language. Continuation of FR 1023 or FR 1036. Fall. (ACTS#: FREN 2013)

FR 2023. Intermediate French II Continuation of FR 2013. Prerequisite, FR 2013 or consent of department chair. Spring. (ACTS#: FREN 2023)

FR 2036. Accelerated Intermediate French I and II Intensive one semester course in Intermediate French designed to cover the material programmed for the regular second year of French. Continuation of FR 1036 or FR 1023. Spring.

FR 3183. French Conversation and Phonetics Practice toward developing facility in oral expression in various everyday situations, with some attention to the sound system of French to develop skills in pronunciation and listening comprehension. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Fall, even.

FR 3413. Introduction to French Literature An introduction to French literature from the Middle Ages to the present day with selections from literary masterpieces representing the major trends of each period. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Demand.

FR 3463. Advanced French Grammar Grammar and structure of the French language in order to develop students facility in the written language. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Fall, odd.

FR 3473. Reading and Composition in French Practice in writing in order to develop precision in grammar and vocabulary, sensitivity toward levels and styles of language, and appropriate strategies for various rhetorical contexts. Prerequisite, FR 3463 or consent of instructor. Spring, even.

FR 3613. French Civilization The historical background, the geographical setting, and the spirit and character of the French, together with some treatment of the literature, arts, sciences, and institutions of France. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Fall, odd.

FR 3623. Contemporary France Readings and discussions on post war French political and social history, mentalities, and current problems. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Spring, odd.

FR 3703. French for International Business Readings, exercises, and discussions to teach specialized vocabulary and understanding of business practices in the French speaking world for students interested in careers in international trade. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Demand.

FR 4203. Advanced Oral Communication in French Structured practice of advanced French speaking skills with emphasis on communicating information, narrating in major time frames, and developing facility in formal and specialized situations. Prerequisite, FR 3183 or consent of instructor. Spring, odd.

FR 4413. Survey of French Literature I Study of selected texts from the Middle Ages to the end of the eighteenth century emphasizing critical analysis in the historical context. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Fall, odd.

FR 4423. Survey of French Literature II Study of selected texts from the nineteenth century to the present, emphasizing critical analysis in the historical context. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Spring, even.

FR 4503. Special Topics Advanced study in a particular area of literature, culture, or language. Topic varies. May be repeated when topic changes. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Fall, Spring, Demand.

FR 480V. Independent Study in French Independent course of study in French for advanced students only. Must have consent of department chair. May be repeated for up to six hours of credit for majors and up to three hours of credit for minors. Prerequisite, FR 2023 or FR 2036 or consent of instructor. Demand.

German (GER)

GER 1013. Elementary German I The listening, speaking, reading, writing approach to develop basic language skills. Fall. (ACTS#: GER 1013)

GER 1023. Elementary German II Continuation of GER 1013. Spring. (ACTS#: GER 1023)

GER 1036. Accelerated Elementary German I and II Intensive one semester introductory German course that covers the material of instruction equivalent to Elementary German I and II. Fall and Spring.

GER 2013. Intermediate German I Continues the development of the basic language skills, with increasing emphasis on the written language. Continuation of GER 1023. Fall. (ACTS#: GER 2013)

GER 2023. Intermediate German II Continuation of GER 2013. Prerequisite, GER 2013 or consent of department chair. Spring. (ACTS#: GER 2023)

GER 2036. Accelerated Intermediate German I and II Intensive one semester intermediate German course that covers the material of instruction equivalent to Intermediate German I and II. Prerequisite, GER 1023 or consent of department chair. Fall, Spring.

GER 3163. Advanced German Grammar and Composition Grammar and structure of the German language and of various German literary styles in order to develop students facility in the written language. Prerequisite, GER 2023 or consent of instructor. Fall, odd.

GER 3173. German Civilization The historical background, the geographical setting, and the spirit and character of the Germans, together with some treatment of the literature, arts, sciences, and institutions of Germany. Prerequisite, GER 2023 or consent of instructor. Spring, odd.

GER 3183. German Conversation Elements of spoken German with emphasis on the modern idiom. Prerequisite, GER 2023 or consent of instructor. Fall, even.

GER 3413. Introduction to German Literature Introduction to poetry, drama, and short prose, develops further the students reading skills and introduces them to analysis and explication of the literary text. Prerequisite, GER 2023 or consent of instructor. Spring, even.

GER 480V. Readings in German Independent readings for advanced students only. Limited to three hours. Must have consent of department chair. Demand.

International Studies (INST)

INST 4503. Special Topics Focused treatment of an issue, theme, or problem related to international history, politics, culture, or related area. Demand.

INST 4803. Independent Study Independent readings for advanced students only. Limited to three hours. Must have consent of department chair. Demand.

Spanish (SPAN)

SPAN 1013. Elementary Spanish I The listening, speaking, reading, writing, approach to develop basic language skills. Fall, Spring, Summer. (ACTS#: SPAN 1013)

SPAN 1023. Elementary Spanish II Continuation of SPAN 1013. Fall, Spring, Summer. (ACTS#: SPAN 1023)

SPAN 1036. Accelerated Elementary Spanish I and II Intensive one semester course that covers the material of instruction designed for a regular academic year. Fall, Spring.

SPAN 2013. Intermediate Spanish I Further development of basic language skills, with increasing emphasis on the written elements of the language. Continuation of SPAN 1023. Fall, Spring, Summer. (ACTS#: SPAN 2013)

SPAN 2023. Intermediate Spanish II Continuation of SPAN 2013. Prerequisite, SPAN 2013 or consent of department chair. Fall, Spring, Summer. (ACTS#: SPAN 2023)

SPAN 2036. Accelerated Intermediate Spanish I and II Intensive one semester course in Intermediate Spanish designed to cover the material programmed for the regular second year of Spanish. Fall, Spring.

SPAN 3013. Spanish Phonetics Provides a developmental study of sound production in Spanish through study and various modes direct application and interaction. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Spring, even.

SPAN 3183. Spanish Conversation Practice toward developing facility in oral expression in various everyday situations. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Fall.

SPAN 3413. Introduction to Hispanic Literature An introduction to poetry, drama, novel, and short story with emphasis on analytical reading. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Fall, Spring.

SPAN 3463. Advanced Spanish Grammar Grammatical components and structures that will allow the student to move toward complex sentences in Spanish. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Fall, Spring.

SPAN 3623. Culture and Civilization, The Américas A panoramic approach to the histories, geographies, social constructs, and political scenarios of the Spanish speaking Americas. Prerequisite, SPAN 3183 or consent of instructor. Spring, odd.

SPAN 3473. Reading and Composition in Spanish Development of expository writing skills through the examination of texts. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Fall, Spring.

SPAN 3633. Culture and Civilization, Spain A broad approach to the history, geography, social constructs, and political scenarios of Spain. Prerequisite, SPAN 3183 or consent of instructor. Spring, even.

SPAN 3503. Advanced Spanish Seminar Focused study in a particular area of literature, culture or language. Topic varies. May be repeated when topic changes. Prerequisites, SPAN 2023 or consent of instructor. Spring.

SPAN 3703. Spanish for International Business Oral and written training in vocabulary and idiomatic expressions used in international trade transactions. Listening, speaking, reading, and writing are targeted, with the objective of preparing students to handle diverse international business transactions in Spanish. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Spring, odd.

SPAN 4203. Advanced Oral Communication in Spanish Structured practice of advanced Spanish speaking skills with emphasis on communicating information about practical and factual matters, narrating and describing in major time frames, and using discourse of paragraph length and substance. Prerequisite, SPAN 3183 and SPAN 3463 or consent of instructor. Spring.

SPAN 4413. Survey of Peninsular Spanish Literature An intensive study of the principle literary movements and genres in Spain from the Middle Ages to the Generation of 98. Prerequisite, SPAN 3413 or consent of instructor. Fall, odd.

SPAN 4423. Contemporary Peninsular Spanish Literature An intensive survey of the principal literary movements and authors in Spain from the Generation of 98 to the present. Prerequisite, SPAN 3413 or consent of instructor. Spring, even.

SPAN 4443. Survey of Latin American Literature An intensive survey of the principal literary movements and authors in Latin America from the Colonial Period to the present. Prerequisite, SPAN 3413 or consent of instructor. Fall, even.

SPAN 4503. Special Topics Advanced study in a particular area of literature, culture, or language. Topic varies. May be repeated when topic changes. Prerequisite, SPAN 3413 or consent of instructor. Fall, odd.

SPAN 4703. Internship in Spanish Provides practical experience in the Spanish language and Hispanic cultures at a site offering interaction with the Hispanic community of this region. Prerequisite, 12 hours of Spanish above the intermediate level and approval of Department Chair. May be repeated for credit, but only 3 hours may be applied to the major or minor requirements. Demand.

SPAN 480V. Independent Study For advanced students only. Must have consent of department chair. May be repeated for up to six hours of credit for majors and up to three hours of credit for minors. Prerequisite, SPAN 2023 or SPAN 2036 or consent of instructor. Demand.

World Languages (WLAN)

WLAN 4010. Learning Outcome Assessment World Languages and Cultures program learning outcome assessment for seniors. Fall, Spring, Summer.

Teaching Internship (TILA)

TILA 4825. Language Teaching Internship in the Secondary School Ten semester hours. Full semester teaching internship. Fall, Spring.

TILA 4826. Language Teaching Internship in the Secondary School Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TILA 4836. Practicum in Teaching ESOL A focus on learner behavior, classroom dynamics, teacher/student interactions, techniques used in the classroom, and instructional procedures with emphasis shifting from theory to practice. Seminars and student teaching will emphasize Integration of theoretical foundations with practical applications. Prerequisite, Department Chair approval. Fall, Spring, Summer.

COLLEGE OF MEDIA AND COMMUNICATION

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. **The university reserves the right to change course scheduling when circumstances dictate such changes.**

Media and Communication (CMAC)

CMAC 1001. Media Grammar and Style Writing mechanics for media. An introduction to applying basic grammar, spelling and media style rules and guidelines professionals use for writing across multiple media platforms. Can be taken concurrently with CMAC 2003 with consent of chair. Test-out option available. Fall, Spring, Summer.

CMAC 1003. Mass Communications in Modern Society A study of the interaction between society and mass communication through the lenses of history, theory, economics, culture, law, and technology.

CMAC 2003. Media Writing Basic writing for print, broadcast and Internet media. Course includes attention to news style and grammar. Pre/Co-requisite, CMAC 1001. Fall, Spring, Summer.

CMAC 2053. Introduction to Visual Communications The study of the principles, theories, and language of visual communication to help students analyze, interpret and apply visual content to communicate more effectively. Fall, Spring.

CMAC 3001. Professional Seminar An overview of professional careers, etiquette, and best practices in a broad range of communication and media based contexts. Fall, Spring.

CMAC 4063. Internship Supervised work in an approved communications-related setting. Prerequisite, consent of the department chair and faculty advisor. Fall, Spring, Summer.

CMAC 4073. Communications Law and Ethics Legal and ethical limitations and privileges affecting the mass media. Fall, Spring, Summer.

DEPARTMENT OF MEDIA

Creative Media Production (CMP)

CMP 2313. Multimedia Production A comprehensive, basic course in audio, video, photo and text production for many distribution platforms. Prerequisite, CMAC 2053. Fall, Spring, Summer.

CMP 2353. Audio and Video Production An intermediate course in audio and video technology and production for many distribution platforms. Audio production covers radio, audio recording, audio for video production, and web distribution. Video production covers videography, directing, and multi-camera production. Prerequisite, CMP 2313. Fall, Spring, Summer.

CMP 3303. History of Moving Images and Narrative Motion Picture A study of the oral, written, live theatre and still photography storytelling contributions to the origins of narrative motion pictures. Fall, Spring, Summer.

CMP 3313. Field and Post Production An experiential course in the technical skills and creative principles required for video field production and postproduction, focusing on writing, producing, planning, shooting, and editing video projects and assignments. Prerequisite, CMP 3313. Fall, Spring.

CMP 3343. Advanced Radio Practicum Special practices in radio station operation, with special assignments relative to operation of KASU. Prerequisite, CMP 3313. Fall, Spring, Summer.

- CMP 3363. Communications Research** Study and use of research tools and theories available for mass communications problem solving. Emphasis will be on library research, theory approaches, and applied media research. Cross-listed as MMJ 3363. Fall, Spring.
- CMP 3373. Introduction to Internet Communications** Introductory course in the use of the Internet as a communication delivery system. The course addresses Internet history, its development and future applications for communicators. Basic computer competency required. Cross-listed as MMJ 3373. Fall, Spring.
- CMP 3403. Screenwriting for Narrative Motion Pictures** Study and application of writing and scripting techniques for narrative motion picture, including synopsis, sequence outline, treatments and screenplay. Characterization and genre conventions are also considered. Fall, Spring.
- CMP 3503. Film Cinematography, Lighting and Editing** Introduction to the theory and techniques of cinematography, lighting, and editing for narrative filmmaking. Prerequisite, consent of instructor. Fall, Spring, Summer.
- CMP 3573. Sports Production** Theory and practical application of sports production for radio and television. Fall, Spring.
- CMP 3673. Seminar in Digital Media and Design** A study of the development and impact of digital media. Cross-listed as ART 3673. Spring.
- CMP 4303. Advanced Filmmaking Techniques** In-depth study of narrative filmmaking as an art form. Students develop greater expertise in shooting properly exposed and imaginatively composed images, storyboarding, production techniques, composition aesthetics, lighting, sound mixes, and digital non-linear editing. Prerequisites, CMP 3303, CMP 3403, CMP 3503. Spring.
- CMP 4333. Special Topics Seminar** A seminar that addresses current topics in the area of communication. Fall.
- CMP 4353. Corporate Media Production** Study of the field and function of media production for business and nonprofit organizations. The course addresses client contact, budgeting, analysis of production problems, design and writing of scripts for promotion, training and news in corporate and industrial settings. Prerequisites, PRAD 3013, CMP 2313 and CMP 3033. Fall. Special course fee \$25.
- CMP 4363. Multimedia Storytelling** Introductory course in multimedia concepts, media elements, platforms, and production. Emphasis is placed on delivery of content across media platforms for diverse audiences. Fall, Spring.
- CMP 4383. Advanced Television Production** Practice in methods and procedures of producing studio and remote program content for ASU TV. This may include, athletic events, campus forums, concerts, newscasts, spelling bees, telethons, etc. Prerequisite, C or better in CMP 3313. May be repeated for a maximum total of six credit hours. Fall, Spring.
- CMP 4483. Broadcast Graphics** Development and production of graphics for video, television, and internet-based mediums. Fall.
- CMP 4503. Film Production Practicum** A capstone experience in narrative motion picture production. Students will work individually or in groups to write, produce, shoot, edit and distribute a short film. Prerequisites, CMP 4303 or consent of instructor. Fall, Spring.
- CMP 4553. Multimedia Reporting** Application of traditional journalism skills to digital media practice, including integration of audio, photographs, graphics and video as multimedia storytelling tools to enrich online news coverage. Dual-listed with RTV 5553. Prerequisite, CMP 3373. Fall, Spring, Summer.
- CMP 4563. Sports Programming** Theory and practical application of sports programming for radio and television. Spring.
- CMP 488V. Special Problems** Prerequisite, approval of Department Chairman and faculty. Fall, Spring, Summer.

Graphic Communications (GCOM)

- GCOM 1613. Graphic Communication Systems** An exploration of the industrial materials and processes utilized for graphic preparation and reproduction including lithography, gravure, flexography, screen printing, and nonimpact printing processes. Classroom, industrial visitation and laboratory format. Fall, Spring.
- GCOM 1813. Introduction to Digital Publishing** An overview of the preparation of digital graphics, photographs and text for publication, and of their interrelationships. Includes application of current digital publishing software programs.
- GCOM 2673. Digital Prepress** Comprehensive overview of the major prepublishing workflow elements and the options or their interrelationships. Fall.
- GCOM 3603. Graphic Production System** An exploration of the Press and Post Press processes of graphic reproduction and publishing. Critical aspects unique to each process will be studied including copy preparation, image carriers, image transfer systems, substrates, inks/toners and post press operations. Each process will be studied through classroom experiences, industrial visitations and/or laboratory experiences. Prerequisite, GCOM 1613. Spring.
- GCOM 3673. Desktop Publishing and Publication Design** Electronic publishing and publication design using desktop publishing software programs. Fall, Spring, Summer. Course Fee \$25.00
- GCOM 4613. Post Press and Distribution Management** Study of functions occurring after the material has been imaged, including case, mechanical and perfect binding and finishing operations. Additional components include web finishing, selective binding, ink jet imaging, and postal regulations and distribution. Prerequisite, GCOM 1613. Spring.
- GCOM 4623. Graphic Communications Estimating and Scheduling** Focus on establishing cost centers and budgeted hourly rates, estimating and pricing materials and buyouts, and analyzing and communicating production schemes for graphic reproduction. Prerequisites, GCOM 3603. Spring.
- GCOM 4643. Graphic Communications Management Seminar** Management issues specific to the graphic communications industry including quality assurance, sales and customer relations, marketing, scheduling production, laws, ethics, and government interface. Lecture based on course with industry visitations. Prerequisites, GCOM 3603. Fall.
- GCOM 4683. Graphic Publication Production** Opportunity for students to plan production, determine related costs, coordinate and perform production, control quality and develop a portfolio of a complete production experience. Lecture, industry visitations and laboratory format. Prerequisites, GCOM 1613 and GCOM 3603. Fall.
- GCOM 4783. Electronic Innovations in Graphic Communications** Course designed to cover the concepts of digital imagery and output, on demand printing, pagination, multimedia production, databases, interactive design, electronic sales and customer relations. Classroom, laboratory and industry visitation experiences. Prerequisites, GCOM 1613 and CMP 4363. Permission of instructor required. Fall, odd.
- GCOM 488V. Special Problems in Graphic Communications** Designed to provide individually directed research in some special area of printing for seniors. Should be arranged in consultation with a professor in the specified field of interest prior to the semester of study and approved by the department chair. A written paper is required. Fall, Spring, Summer.

Multimedia Journalism (MMJ)

- MMJ 2010. Multimedia Reporting Lab** Laboratory for Multimedia Reporting. Must be taken concurrently with MMJ 2013. Fall, Spring.
- MMJ 2013. Multimedia Reporting** Techniques of newsgathering, with practical experience in interviewing and reporting for news media. Must be taken concurrently with MMJ 2010. Prerequisite, C or better in CMAC 2003 and CMP 2313 or consent of instructor. Fall, Spring.

- MMJ 3001. Contemporary Events and the Mass Media** Weekly review of news events and the mass medias coverage of them. Fall, Spring.
- MMJ 3003. Feature and Magazine Article Writing** Methods of gathering material for feature stories through interviews, research, and observation, practice in writing the article. Requires three hours of laboratory work per week. Prerequisite, MMJ 2013. Fall.
- MMJ 3040. Photography Laboratory** Laboratory for Photography. Must be taken concurrently with MMJ 3043. Fall, Spring.
- MMJ 3043. Photography** Elements of composition, camera, darkroom techniques and digital photography. Requires three hours of laboratory work per week. Lab fee, \$10.00. Special course fee, \$10.00. Fall, Spring.
- MMJ 3063. News Editing** Editing and rewriting news stories, writing headlines and cutlines, legal and ethical issues for editors, and the basic principles of news design. Prerequisite, MMJ 2013. Fall.
- MMJ 3073. News Design** Principles of visual communication, digital and print media design, elements and practices of digital and press publication, media economic theory and practice. Prerequisite, MMJ 2013. Spring.
- MMJ 3083. History of the Mass Media** History of the mass media newspapers, magazines, radio, television and new technology from colonial days to the present. Spring.
- MMJ 3090. Photojournalism Laboratory** Laboratory for Photojournalism. Must be taken concurrently with MMJ 3093. Spring.
- MMJ 3093. Photojournalism** Practical experience with digital photography and layout for print media, use of image editing software, color theory, scanning input and output devices. Students required to submit projects for student publications and cover news events. Requires three hours of laboratory work per week. Prerequisites, CMAC 2003 and MMJ 3043 or consent of instructor. Special course fee, \$10.00. Spring.
- MMJ 3203. Reporting for the Electronic Media** Gathering, writing, and reporting news and features for the electronic media, including radio and television, cable, and the Internet. Prerequisite, C or better in MMJ 2013. Word processing skills required. Fall, Spring.
- MMJ 3363. Communications Research** Study and use of research tools and theories available for mass communications problem solving. Emphasis will be on library research, theory approaches, and applied research as applied to the media. Cross-listed as CMP 3363. Fall, Spring.
- MMJ 3373. Introduction to Internet Communications** Introductory course in the use of the internet as a communication delivery system. The course addresses Internet history, its development and future applications for communications. Basic computer competency required. Cross-listed as CMP 3373. Fall, Spring.
- MMJ 3403. Electronic News Gathering** Advanced reporting techniques, story development process and tools needed to interview and write, report and edit video news stories. Stories produced will be used to enhance newscast development. Prerequisite, C or better in CMP 3353, MMJ 2013, and MMJ 3203, or consent of instructor. Fall, Spring.
- MMJ 4010. Advanced Photojournalism Laboratory** Laboratory for Advanced Photojournalism. Must be taken concurrently with MMJ 4013. Fall.
- MMJ 4013. Advanced Photojournalism** Digital photojournalism with emphasis on ethics and role of photojournalist in society. Students are expected to prepare a portfolio of work upon completion of the course. Six hours of laboratory work per week. Prerequisite, MMJ 3093. Special course fee, \$25.00. Fall.
- MMJ 4043. Studies in Newspaper Management** Study of business and editorial management of the print media, including newspaper organization, publishing policies and economics, print media technology, circulation and promotional problems. Fall, even.
- MMJ 4050. Advanced Reporting Laboratory** Laboratory for Advanced Reporting. Must be taken concurrently with MMJ 4053. Spring.

- MMJ 4053. Advanced Reporting** Instruction and practice in gathering material and reporting stories on public affairs, emphasis on courts, government and data-driven reporting. Must be taken with lab MMJ 4050. Prerequisite, C or better in MMJ 2013 or consent of instructor. Spring.
- MMJ 4083. Sports, Business and Opinion Writing** Techniques of newswriting and information gathering in business and sports reporting. Techniques of opinion writing. Prerequisite, C or better in MMJ 2013 or consent of instructor or department chair. Spring, odd.
- MMJ 4123. Media Management and Entrepreneurship** Entrepreneurial techniques and skills including business finance, client interaction, and ethics that can be applied across multiple media-based contexts and platforms. Prerequisite, CMAC 3001. Fall, Spring, Summer.
- MMJ 4323. Race, Gender and Media** Survey of the interface between Americans of color, women and the mass media in the United States. Fall.
- MMJ 4340. News Production and Performance Laboratory** Laboratory section for News Production and Performance. Must be taken concurrently with MMJ 4343. Fall, Spring.
- MMJ 4343. News Production and Performance** Experience in producing news programs. Students exercise judgment and make editorial decisions about news content and program continuity. Experience in verbal and nonverbal communication relative to on camera delivery. Prerequisites, MMJ 3403 or consent of instructor. \$25 special course fee. Fall, Spring.
- MMJ 4373. Internet Communications** Internet Communications provides students with a thorough understanding and practice in the use of the Information Superhighway. The course will also look at new opportunities for communications professionals. Prerequisite, Basic computer competency. Fall, Spring, Summer.
- MMJ 4552. Photojournalism Practicum and Professional Development** Individualized and supervised placement in specific professional settings. Students will work with professionals in the field under faculty supervision. Prerequisite, MMJ 3093. Spring.
- MMJ 4573. Sportscasting** Theory and practical application of sportscasting for radio and television. Dual-listed with RTV 5573. Fall.
- MMJ 488V. Special Problems in Journalism** Prerequisite, approval of department chair and faculty. Fall, Spring, Summer.

DEPARTMENT OF COMMUNICATION

Advertising (AD)

- AD 3023. Principles of Advertising** Advertising history, theory and practice, including traditional and nontraditional media. Fall, Spring.
- AD 3033. Advertising Elements and Execution** Principles and practices in creating and critiquing advertising messages across media platforms. Prerequisites, CMAC 2003 and AD 3023. Fall.
- AD 3193. Advanced Photography** An in-depth examination of the uses of natural and artificial lighting, lenses, cameras, studios, and other elements needed for professional photography in advertising, promotion, portraits, sports and other environments. Emphasis placed on the business of photography. Fall.
- AD 3333. Media Advertising and Sales** Study of the structure of the media advertising industry, with emphasis on media selection and planning, as well as the basic methods of selling. Sales affiliation project required. Fall, Summer.
- AD 4003. Account Planning and Management** This is an advanced course in strategic media and data analysis and the management of client/agency relationships. Spring.

AD 4033. Advertising Case Studies and Campaigns Study of recent advertising cases and campaigns involving business, industry, institutions and government. Students create a comprehensive advertising campaign for a given client. Prerequisite, AD 3033, MMJ 3363, and PRAD 3143. Spring.

Communication Studies (COMS)

- COMS 1203. Oral Communication** The theory and practice of communication in interpersonal, small groups, and public speaking contexts, emphasizing proficiency in message organization, delivery, and critical thinking. Fall, Spring, Summer. (ACTS#: SPCH 1003)
- COMS 1211. Intercollegiate Debate** Study and practice of intercollegiate debate. May be repeated for credit. Demand.
- COMS 2203. Introduction to Human Communication** An introduction to and an overview of communication, including concepts and applications. Prerequisite, COMS 1203. Demand.
- COMS 2313. Communication Theory** Study of foundational and current theories of communication and applications of these theories in communication contexts. Prerequisite, COMS 1203. Spring.
- COMS 2243. Principles of Argumentation** Principles of logical reasoning used in advocacy, analysis, use of evidence, inductive and deductive reasoning. Spring, even.
- COMS 2253. Introduction to Health Communication** Communication in healthcare settings. Major topics include patient provider interaction, information dissemination, cultural concerns, ethical issues, and social support. Fall.
- COMS 2373. Introduction to Interpersonal Communication** A study of interpersonal communication. Prerequisite, COMS 1203. Spring.
- COMS 3203. Business and Professional Communication** Communication needs of people in business and professional settings. Fall, Spring.
- COMS 3211. Intercollegiate Debate** Study and practice of intercollegiate debate. May be repeated for credit. Demand.
- COMS 3243. Principles of Persuasion** Theory and practice of persuasion as an instrument in motivating human conduct. Fall.
- COMS 3253. Principles of Listening** Principles of listening in the communication process, emphasis on listening improvement. Fall, even.
- COMS 3363. Communication Research Methods** Principles of listening in the communication process, emphasis on listening improvement. Fall, even.
- COMS 3373. Gender Communication** Study of the interrelationship between communication and gender in various contexts. Spring, odd.
- COMS 3433. Communication Criticism** Provides critical approaches from the humanistic condition engaging media, public discourse, and interpersonal communication. Prerequisites, COMS 1203, or PHIL 1503 or PHIL 1103. Summer.
- COMS 4203. Small Group Communication** Group and conference techniques for classroom, business, and professional situations. Spring, Summer.
- COMS 4243. Interpersonal Communication** Emphasis on increasing students capacity for openness, sensitivity, and objective appraisal. Fall, Summer.
- COMS 4253. Intercultural Communication** Identification of barriers and breakdowns to communication among cultures. Spring.
- COMS 4263. Organizational Communication** Dynamics and theories of communication within an organization. Spring, even.
- COMS 431V. Special Problems** Prerequisite, permission of instructor. May be repeated twice with different topics. Demand.

COMS 4323. Communication in Personal Relationships The course covers interpersonal communication in the context of personal relationships, such as romantic relationships, friendships, professional relationships, and family relationships. Fall, odd.

COMS 4373. Conflict Resolution Conflict as a communication variable created through interpersonal interaction in dyads, small groups, families, and organizations. Dual listed SCOM 5373. Summer.

COMS 4383. Computer Mediated Communication This course considers how identities, relationships and communities are created and influenced by our use of computers and the internet. We will gain understanding of these processes by engaging new media scholarship and activities involving different forms of new media. Dual listed as SCOM 5383. Prerequisite, COMS 1203. Spring.

COMS 4403. Seminar in Health Communication Study of the major cultural, interpersonal, and public communication issues affecting health communication. Spring, odd.

COMS 4423. Narratives in Health and Healing Explores the social construction of health, illness, and healing through the study narrative. Dual listed as SCOM 5423. Spring.

Public Relations (PR)

- PR 3003. Principles of Public Relations** Nature and theoretical foundation of public relations, its role in society, practitioners and dynamics of the process. Fall, Spring, Summer.
- PR 3013. Public Relations Tools and Techniques** Analysis and application of public relations tools and techniques with an emphasis on public relations writing, specialized publications, and strategy for working with corporate and noncorporate organizations. Prerequisite, CMAC 2003, MMJ 2013, and PR 3003. Fall, Spring.
- PR 4013. Public Relations Practicum and Professional Development** Advanced PR course requiring application of skills in supervised work with various businesses, institutions, organizations and social agencies. Student will work a minimum of 10 hours per week outside the classroom with assigned workplace mentor. Consent of instructor required. Fall, Spring.
- PR 4023. Public Opinion, Propaganda and the Mass Media** Survey of public opinion formation and change, with special attention to the role of the mass media in the creation and use of public opinion and propaganda. Fall.
- PR 4033. Public Relations Case Studies and Campaigns** Study of recent public relations cases and campaigns involving business, industry, institutions, and government. Students create a comprehensive public relations campaign for a given client. Prerequisites, MMJ 3363, PR 3013, and PRAD 3143. Spring.
- PR 4113. Integrated Marketing Communications** Focuses on the strategic integration of various channels and methods of communications for the purpose of delivering key messages to diverse target audiences in order to elicit specific responses, create a dialogue and engender relationship building. Prerequisite, AD 3023, or PR 3003, or MKTG 3013. Fall, Spring.
- PR 4603. Crisis Communication** An investigation of communications during crises, focusing on public relations, advertising and other persuasive efforts by institutions, corporations, movement leaders, and citizens to describe, persuade and shape human interactions with their environment during a crisis. Fall, Spring.
- PR 4633. Trending Topics** Exploration of current topics and issues in public relations and advertising.

Strategic Communication (PRAD)

PRAD 3013. Promotional Writing for Electronic and Digital Media Methods and techniques of writing non-news radio and television scripts and web content. Emphasis on commercials and program continuity, promotional announcements, public service announcements. Some attention to teleplay, screenplay and corporate video techniques.

PRAD 3553. Strategic Visual Communication An advanced course focusing on the theoretical, contextual and practical natures of persuasive images in the context of strategic communication. Prerequisite, CMAC 2053. Fall, Spring.

PRAD 3143. Strategic Writing Writing forms and styles across multimedia platforms. Fundamentals and practice in preparation of strategic messages for various channels of communications, including controlled and uncontrolled media. Students will develop skills in information gathering, writing styles, editing, critical thinking and audience analysis. Prerequisites, CMAC 2003 and either PR 3003 or AD 3023. Fall, Spring.

PRAD 4213. Social Media in Strategic Communications This course examines concepts and applications of social media within mass communications, news, advertising, and public relations industries. We will explore and apply social media tools, integrating them into an organization's overall communication strategy. Spring.

COLLEGE OF NURSING AND HEALTH PROFESSIONS

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

DEPARTMENT OF COMMUNICATION DISORDERS

Communication Disorders (CD)

CD 1003. Making Connections Communication Disorders Open to incoming Freshmen only. This course will provide both an introduction to the nature of university education and a general orientation to the functions and resources of the university as a whole. This section of First Year Seminar is a special health professions section and will include a focus on understanding and appreciating communication disorder majors. Fall.

CD 1103. Voice and Articulation Improvement Designed to aid students experiencing difficulty with oral communication because of one or more of the following reasons, missing final consonants, misarticulation, mispronunciations, improper grammar, monotone speech, harsh, nasal, or breathy voice, not using pitch inflections to carry meaning, and speaking too fast. Demand.

CD 2104. Anatomy and Physiology of Communication An introductory study of the nervous system and a detailed study of normal anatomy and physiology related to speech, swallowing, and language. The course includes lecture and lab components. Prerequisites, None. Recommend BIO 2003 and 1 Human Anatomy and Physiology I and Lab prior to CD 2104 Anatomy and Physiology of Communication. Fall, Spring.

CD 2203. Phonetics Emphasis given to analysis of the formation and production of spoken English. Training in the use of the International Phonetic Alphabet. Fall, Spring.

CD 2653. Introduction to Communication Disorders A survey of the profession of speech pathology and audiology. Includes introduction to language disorders, misarticulations, stuttering, and hearing disorders. Ten hours of clinical observation required. Fall, Spring.

CD 3003. Speech and Hearing Science This course is a study of topics underlying the human communication process and its physiological measurement including production, transmission, reception and perception. Fall.

CD 3043. Speech Science A study underlying the human communication process including speech anatomy, production, transmission, and perception. Admission to the Communication Disorders program required. Prerequisite, CD 2103. Demand.

CD 3113. Aging in Communication This course examines the aging process and its impact on communication. Normal and disordered aspects of speech and hearing resulting from aging will be addressed. Emphasis will be on assessment, intervention, and prevention of age related communication disorders. Summer.

CD 3303. Normal Language Development Normal development of the oral communication process emphasizing phonological and syntactical development of children. Spring.

CD 3553. Clinical Observations in Communication Disorders Provides supervised observation experiences of assessment and intervention strategies used by speech-language pathologists to gain an understanding of the basic principles of speech, language, and hearing therapy and diagnostic evaluations, and observational techniques. Spring.

CD 3402. Introduction to Manual Communication An introductory course in American Sign Language and signing Exact English. Emphasis on acquisition of vocabulary and development of receptive language skills. Fall, Spring.

- CD 3503. Audiology** A consideration of the causes of hearing loss, with practical experiences in diagnostic audiometric procedures. Identification of hearing problems, methods of speech and language training, and methods of teaching speech reading discussed and demonstrated. Admission to the Communication Disorders Program required. Prerequisite, CD 3003. Fall.
- CD 3653. Clinical Interactions in Communication Disorders** The purpose of this course is to provide students with an understanding of the counseling process related to the delivery of services in communication disorders. Summer.
- CD 3703. Clinical Management Techniques in Communication Disorders** This course provides students with knowledge regarding principles and procedures used in the management of individuals with communication disorders including the identification of target behaviors, target measurement and reinforcement practices to effect change in behavior. Registration restricted to Communication Disorders majors. Spring.
- CD 3803. Service Delivery in Communication Disorders** An introduction to speech language programs, their organization and administration. Fifteen hours of clinical observation required. Admission to the Communication Disorders program required. Fall.
- CD 4103. Fluency Disorders** A study of speech as a time related adaptive behavior. Discussion of various types of fluency disorders, their identification, assessment and intervention. Admission to the Communication Disorders program required. Dual-listed as CD 5103. Spring.
- CD 4203. Organic Speech Disorders** This course examines the characteristics of a number of organic disabilities that impact human communication. Included in this course are the primary etiologies of the disability, the salient symptoms of the disability, the real or potential impact of the disability on the development, use, and maintenance of communication, and the impact of the resulting communication disorders on the client's life and family. Spring.
- CD 4254. Neurological Bases and Disorders of Human Communication** A survey of the normal structure and function of the nervous system in human communication and resulting disorders that occur due to neurological dysfunction. Admission to the Communication Disorders program required. Spring.
- CD 4303. Language Intervention for Individuals with Mild Disabilities** Assessment procedures for evaluating language disorders and language intervention procedures for individuals with mild disabilities. Admission to the Communication Disorders program required. Prerequisite, CD 3303 or permission of instructor. Fall.
- CD 4403. Aural Rehabilitation** Method of instruction in auditory training, speech reading, and hearing aid orientation. Prerequisite, CD 3503 or permission of instructor. Spring.
- CD 4451. Introduction to Clinical Practice** Management of articulatory and language impaired client to include assessment, IEP and lesson plan development, and intervention. Admission to the Communication Disorders program required. Prerequisites, CD 3703, CD 3803, and CD 4303. Demand.
- CD 4502. Advanced Manual Communication** An advanced course designed to continue development of basic language skills in American Sign Language and Signing Exact English. Prerequisite, Permission of instructor. Spring.
- CD 4553. Craniofacial Anomalies and Communication Disorders** A study of the speech, language, hearing, and swallowing disorders associated with cleft palate and other craniofacial syndromes. Prerequisites, Admission to the UG Program in Communication Disorders. Fall.
- CD 4703. Articulation and Phonological Disorders** Principles and procedures for assessment, treatment, and facilitative techniques in disorders of articulation and phonology affecting various ages and cultures. Admission to the Communication Disorders program required. Prerequisite, CD 2203. Dual-listed with CD 5703. Fall.
- CD 4752. Clinical Practice I** Students will provide direct clinical services, gain practice in critical thinking, team-building, assessment, report writing, development of treatment plans, session plans and SOAP notes. Prerequisites, CD 3803, CD 4303, and CD 4703. Spring.
- CD 4755. Practicum in Communication Disorders** Clinical experience with clients with speech, language, and acoustical disabilities. Must meet requirements for student teaching. Demand.

- CD 480V. Special Topics Workshop** A specially designed series of learning experiences to enhance the professional capabilities of speech pathologists. Opportunity for participants to engage in meaningful learning activities and interact with recognized professionals in the field. Course may be repeated for credit. Demand.
- CD 4873. Research Problems in Communication Disorders** Individual research problems in communication sciences and disorders arranged in consultation with the instructor. Restricted senior level students in the Department of Communication Disorders. Prerequisites, PSY 3103 and 3101, or SOC 3383 and 3381, or COMS 3363, or STAT 3233. Demand.
- CD 489V. Independent Study in Communication Disorders** Student may engage in studying specific problems in Communicative Disorders. May not be repeated. Prerequisites, Senior standing and approval from professor and department chair. Demand.

DEPARTMENT OF CLINICAL LABORATORY SCIENCES

Clinical Laboratory Science (CLS)

- CLS 1003. Making Connections Clinical Laboratory Science** Open to incoming Freshmen only. This course will provide both an introduction to the nature of university education and a general orientation to the functions and resources of the university as a whole. This section of First Year Seminar is a special health professions section and will include a focus on understanding and appreciating various health professions and how laboratory professionals interact with other health care professionals. Fall.
- CLS 1511. Principles of Clinical Laboratory Science Laboratory** Development of laboratory skills techniques which are applicable in all clinical laboratory areas. Open to other students who may have an interest in the clinical laboratory profession. Corequisite, CLS 1512. Fall, Spring.
- CLS 1512. Principles of Clinical Laboratory Science** Introduction to concepts utilized throughout all the clinical laboratory areas. Open to other students who may have an interest in the clinical laboratory profession. Corequisite, CLS 1511. Fall, Spring.
- CLS 1521. Urine and Body Fluid Analysis** Theory and analysis of urine and body fluids, excluding blood, in normal and pathological states. Techniques of analysis include physical, chemical, and microscopic procedures. Corequisite, CLS 1531. Spring.
- CLS 1531. Urine and Body Fluid Analysis Laboratory** Performance of body fluid testing procedures necessary to function in a clinical body fluid laboratory. Corequisite, CLS 1521. Spring.
- CLS 2514. Clinical Practicum I** Allows students to become proficient in the areas of chemistry, utilizing the highly sophisticated equipment located in this discipline. Students will become members of the health care team under the direction of the clinical staff. Prerequisites, CLS 1511, CLS 1512, CLS 2541, CLS 2543, CHEM 1011, CHEM 1013. Fall, Spring, Summer.
- CLS 2521. Hematology I Laboratory** Performance of laboratory procedures necessary to function in a clinical hematology laboratory. Prerequisites, CLS 1512 and CLS 1511 or permission of the instructor. Corequisite, CLS 2523. Fall.
- CLS 2523. Hematology I** Discussion of the formation, morphology, and function of various blood cells and the principles of hemostasis. Includes the theoretical elements of related laboratory procedures. Prerequisites, CLS 1512 and CLS 1511 or permission of the instructor. Corequisite, CLS 2521. Fall.
- CLS 2524. Clinical Practicum II** Allows the students to become proficient in the areas of hematology and urinalysis, utilizing the highly sophisticated equipment located in these disciplines. Students will become members of the health care team under the direction of the clinical staff. Prerequisites, CLS 1511, CLS 1512, CLS 1521, CLS 1531, CLS 2521, CLS 2523. Fall, Spring, Summer.
- CLS 2531. Medical Microbiology I Laboratory** Performance of laboratory procedures necessary to function in the microbiology section of a clinical laboratory. Prerequisite, BIO 2101 and BIO 2103. Corequisite, CLS 2533. Fall.

- CLS 2533. Medical Microbiology I** Study of pathology, biochemistry, and identification of organisms causing infectious diseases in humans. Includes collection and processing of specimens. Prerequisite, BIO 2103 and BIO 2101. Corequisite, CLS 2531. Fall.
- CLS 2541. Clinical Chemistry I Laboratory** Laboratory methods and techniques for the analysis of body fluids including routine assessment of body metabolism, renal function, liver function, electrolytes and acid and base balance, enzymes, and other analytes. Corequisite, CLS 2543. Pre or corequisite, CLS 1511, CLS 1512, CHEM 1013, CHEM 1011. Spring.
- CLS 2543. Clinical Chemistry I** Analysis of body fluids with correlation to both health and disease. Theoretical concepts include testing for body metabolism, renal function, liver function, electrolytes, acid and base balance, enzymes, and other routine assessment. Corequisite, CLS 2541. Pre or corequisites, CLS 1511, CLS 1512, CHEM 1013, CHEM 1011. Spring.
- CLS 2551. Hematology Disorders for the Clinical Laboratory Technician** Discussion of the basic principles of hematologic disorders, causes, laboratory results, and treatment. Prerequisites, CLS 2523 and CLS 2521. Spring.
- CLS 2561. Immunohematology I Laboratory** Performance of procedures necessary to function in a clinical blood bank. Prerequisites, CLS 2523, CLS 2521, CLS 2573, CLS 2571, BIO 2223 and BIO 2221. Corequisites, CLS 2563. Fall.
- CLS 2563. Immunohematology I** Discussion of the principles involved in compatibility testing, antigen and antibody identification, donor blood acquisition and preparation, and a basic discussion of relevant diseases. Prerequisites, CLS 2523, CLS 2521, CLS 2573, CLS 2571, BIO 2223 and BIO 2221. Corequisite, CLS 2561. Fall.
- CLS 2571. Clinical Immunology and Serology Laboratory** Performance of laboratory procedures necessary to function in the serology section of a clinical laboratory. Prerequisites, BIO 2201 and BIO 2203. Corequisite, CLS 2573. Spring.
- CLS 2573. Clinical Immunology and Serology** Immunity in health and disease will be discussed. Provides theoretical basis of serological diagnostic procedures including techniques of test performance. Prerequisites, BIO 2201 and BIO 2203. Corequisite, CLS 2571. Spring.
- CLS 3122. Research Concepts for the Clinical Laboratory Scientist** To introduce the CLS student to research process and develop problem solving skills. To provide clinical experiential opportunities to critically evaluate clinical laboratory literature and apply this knowledge to the clinical laboratory setting. This course is designed specifically for the CLS major. Prerequisites, Junior status and CLS 3522. Spring.
- CLS 3153. Clinical Biochemistry** A study of the biochemical principles that make up the chemical and molecular aspects of the clinical chemistry laboratory. Case studies will apply biochemical principles involved in day to day practices and how they work in disease processes. Prerequisite, CHEM 3103 and CHEM 3101. Spring.
- CLS 3221. Hematology II Laboratory** Performance of advanced laboratory procedures, recognition of cells and lab values related to hematology disorders, development of cases related to specified hematology disorders. Prerequisites, CLS 2523 and CLS 2521. Corequisite, CLS 3223. Fall.
- CLS 3223. Hematology II** In depth discussion of hematologic disorders, causes, laboratory results, and treatment. Prerequisites, CLS 2521 and CLS 2523. Corequisite, CLS 3521. Fall.
- CLS 3343. Principles of Diseases for the Clinical Laboratory Sciences** Introduction to disease processes in the major systems of the body, with practical applications for clinical laboratory personnel. Enrollment restricted to CLS, BS students. Prerequisite, Junior status. Fall.
- CLS 3511. Medical Parasitology Laboratory** Performance of laboratory procedures used in the recovery and identification of parasites from tissues, exudates, and body fluids. Corequisite, CLS 3512. Summer.
- CLS 3512. Medical Parasitology** Discussion of acquisition, pathogenesis, and epidemiology of parasitic infections, as well as, the diagnosis of parasitic infections based upon symptomology and the microscopic examination of tissues, exudates, and body fluids. Corequisite, CLS 3511. Summer.

- CLS 3514. Clinical Practicum III** Enhances learning experiences in microbiology and parasitology. Students will become members of the health care team under the direction of the clinical staff. Prerequisites, CLS 3511, CLS 3512, CLS 2531, CLS 2533. Fall, Spring, Summer.
- CLS 3522. Clinical Laboratory Management** Introduction to supervisory aspects of fiscal management, law, quality assurance, planning, organization, and communications as applicable to clinical laboratory medicine. Prerequisites, Permission of the CLS program director. Admission to CLS, BS Program, completion of a CLT or MLT AAS degree, or completion of 36 credit hours in the CLS program to include at least one clinical practicum. Fall.
- CLS 3524. Clinical Practicum IV** Enhances the learning experiences in serology and blood bank techniques. Students will become members of the health care team under the direction of the clinical staff. Prerequisites, CLS 2561, CLS 2563, CLS 2571, CLS 2573. Fall, Spring, Summer.
- CLS 4013. Molecular Diagnostics** This course will identify important aspects of molecular based hematology, oncology testing, microbiology testing, and pharmacogenetics, as well as addressing proteomics and genomics in the clinical laboratory environment. Permission of instructor required. Prerequisites, CLS 2571, CLS 2573, CLS 2531, CLS 2533, CHEM 3101, and CHEM 3103. Spring.
- CLS 410V. Special Problems in Clinical Laboratory Science** Specific area with the topic and mode of inquiry agreed upon by the student and instructor. Registration may be repeated with various topics. Registration must be approved by the program director. Fall, Spring.
- CLS 4111. Clinical Issues and Topics in Clinical Chemistry II** Web-based Case Study investigations into the complex analysis of body fluids with advanced level content designed for critical thinking in the development, application, analysis, integration, synthesis, and evaluation of clinical chemistry concepts and theories. A review of mandatory OSHA laboratory safety standards is also included. Prerequisites, CHEM 1301, CHEM 1303, CLS 2541, CLS 2543. Corequisite, CLS 4113. Fall.
- CLS 4113. Clinical Chemistry II** Complex analysis of body fluids with correlation to both health and disease. Theoretical concepts include advanced testing for body metabolism, renal function, liver function, electrolytes, acid and base balance, enzymes, endocrinology and therapeutic drug monitoring. Prerequisites, CHEM 1013, CHEM 1011, CLS 2543, CLS 2541. Corequisite, CLS 4111. Fall.
- CLS 4174. Clinical Practicum I** Clinical laboratory experience in chemistry and special chemistry. A special project is required. Enrollment restricted to CLS majors. Instructor permission is required. Prerequisite, CLS 2541 and CLS 2543. Fall, Spring, Summer.
- CLS 4184. Clinical Practicum II** Clinical laboratory experience in hematology and coagulation and urinalysis. Prerequisite, admission to clinical program. Enrollment restricted to CLS majors. Instructor permission is required. Prerequisites, CLS 2521, CLS 2523. Fall, Spring, Summer.
- CLS 4194. Clinical Practicum III** Clinical laboratory experience in microbiology and parasitology. A special project is required. Enrollment restricted to CLS majors. Permission of Instructor is required. Prerequisite, CLS 2531 and CLS 2533. Fall, Spring, Summer.
- CLS 4204. Clinical Practicum IV** Clinical laboratory experience in immunohematology and serology. A special project is required. Enrollment restricted to CLS majors. Permission of instructor required. Prerequisites, CLS 2571, CLS 2573, CLS 2561, and CLS 2563. Completion of CLS 4331 and CLS 4333 is strongly recommended. Fall, Spring, Summer.
- CLS 4211. Clinical Laboratory Educational Roles** This course prepares the student for the educational roles that will be assumed in the clinical laboratory or other settings. Prerequisite, Senior standing in the BS CLS Program. Fall.
- CLS 4212. Interpreting Laboratory Data** This course is an overview that explains why laboratory tests are ordered and how interpretation of laboratory data is used in the care and welfare of patients. Not open to CLS or CLT students. Spring and Summer.
- CLS 4214. Clinical Practicum V** Clinical laboratory experience in management and clinical electives. A special project is required. Enrollment restricted to CLS majors. Prerequisite, CLS 4174, CLS 4184, CLS 4194, CLS 4204. Permission of Instructor required. Fall, Spring, Summer.

CLS 4331. Clinical Issues and Topics in Immunohematology II WEB-based Case Study approach for advanced level content designed for critical thinking in the development, application, analysis, integration, synthesis, and evaluation of concepts and theories in the practice of blood banking and component therapy. Prerequisites: CLS 2521, CLS 2523, CLS 2561, CLS 2563, CLS 2571, CLS 2573. Corequisite: CLS 4333. Spring.

CLS 4333. Immunohematology II Discussion of advanced theory related to all facets of blood banking. Emphasis on interpreting cases and identifying appropriate problem solving protocols. Prerequisites, CLS 2561, CLS 2563. Corequisite, CLS 4331. Spring.

CLS 4441. Clinical issues and Topics in Medical Microbiology II WEB-based Case Study approach addressing advanced level content of medically important microorganisms. Designed to enhance critical thinking skills through the interpretation, correlation, analysis and differential diagnosis of infectious disease case-oriented material in clinical presentations. Differential diagnoses to be based on the evaluation of patient history, clinical manifestations, and laboratory data. Prerequisites. CLS 2533 and CLS 2531. Corequisite. CLS 4443. Spring.

CLS 4443. Medical Microbiology II Discussion of mechanisms of pathogenicity, quality management, nosocomial infections, specimen collection and processing, automation and instrumentation, molecular techniques, and medical microbiology in patient care. Covers the theoretical elements of related laboratory procedures. Prerequisites, CLS 2533 and CLS 2531. Corequisite, CLS 4441. Spring.

DISASTER PREPAREDNESS AND EMERGENCY MANAGEMENT PROGRAM

Disaster Preparedness & Emergency Management (DPEM)

DPEM 1101. Introduction to Incident Management An introduction to the Incident Command System (ICS) and the National Incident Management System (NIMS), the nationwide template for all government, private-sector, and nongovernmental organizations. Describes the history, features, principles, ICS organizational structure and the relationship between ICS and NIMS. Fall, Spring, Summer.

DPEM 1111. Introduction to Resource Management Focuses on resources for personnel who are likely to assume a supervisory position within the Incident Command System (ICS) is provided. This course is designed to enable personnel to operate efficiently during an incident or event within the ICS. Fall, Spring, Summer.

DPEM 1121. Introduction to CBRNE Provides instruction on prevention and deterrence, chemical and biological agents, radiological materials, explosives, and the Emergency Response Guidebook. Co-requisite, DPEM 1101 or permission of the instructor. Fall, Spring, Summer.

DPEM 1503. Introduction to Community Preparedness Introduction to clinical and public health concepts for the management of disasters and public health emergencies along with instruction in preparation for pandemics. Fall, Spring, Summer.

DPEM 1703. Introduction to Community Response Provides information about disaster preparedness and weapons of mass destruction. Training in basic disaster response skills, such as fire safety, light search and rescue, and disaster medical operations is included. Fall, Spring, Summer.

DPEM 2213. Principles of HAZMAT Response Content focuses on immediate response actions associated with life safety, preservation of property, and restoration of an incident site in addition to information relating to the identification of CBRNE hazards. Culminates with performance of defensive-level tasks in a toxic environment. Pre/Co-requisites, DPEM 1101, DPEM 1111 and DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2223. Hazardous Materials Containment The goal of this course is to enable students to identify, detect, and categorize chemical, biological, and radiologic materials and explosive devices, as well as determine the appropriate equipment and decontamination techniques to use when responding to CBRNE incidents. Pre/Co-requisites, DPEM 1101, DPEM 1111 and DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2233. Principles of Healthcare Emergency Management Foundation knowledge in healthcare emergency management to include standards, regulations, organizations, government agencies and stakeholders; disaster planning; staffing and personnel; Personal Protection Equipment and decontamination; evacuation, isolation, and quarantine; ethical issues; financial issues; and public affairs. Co-requisite, DPEM 1101 or permission of the instructor. Fall, Spring, Summer.

DPEM 2243. CBRNE Incident Practicum Provides emergency responders and their supervisors with CBRNE-specific response skills, enabling them to safely respond to a suspected incident at a performance defensive level. Fall, Spring, Summer. Pre/Co-requisites, DPEM 1101, DPEM 1111 and DPEM 1121 or permission of the instructor.

DPEM 2303. Environmental Health Training in Emergency Response The course supplements the knowledge and experience of the student with a basic understanding of disaster management and the application of environmental health to disaster management and integrates their professional skills into a local-level disaster response, recovery, mitigation and preparedness. Fall, Spring, Summer.

DPEM 2313. Pandemic Planning and Preparedness The Pandemic Planning and Preparedness course promotes knowledge and skills to effectively plan and prepare for a pandemic, culminating in a practical exercise. Steps for developing an effective planning and preparedness program and development of a pandemic annex are included. Fall, Spring, Summer.

DPEM 2323. Respiratory Protection Core information to develop, implement, administer, and sustain a respiratory protection program as defined in Code of Federal Regulations is presented. This course is at the site of a Center for Domestic Preparedness (CDP) hosting jurisdiction or department. Pre/Co-requisite, DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2333. HAZMAT Evidence Collection for CBRNE Incident Enables HAZMAT responders to identify, detect, and categorize chemical, biological, and radiologic materials and explosive devices, as well as determine the appropriate equipment and decontamination techniques to use when responding to CBRNE incidents. Pre/Co-requisites, DPEM 1101, DPEM 1111 and DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2341. Clinician Actions for CBRNE Incidents This course provides students, future Emergency Medical System responders, with CBRNE-specific response skills, enabling them to safely respond to a suspected incident and provide on-scene care to victims. Pre/Co-requisites, DPEM 1101, DPEM 1121, and DPEM 2203 or DPEM 2103 or permission of the instructor. Fall, Spring, Summer.

DPEM 2343. Emergency Responder HAZMAT Technician for CBRNE Provides HAZMAT responders with Chemical, Biological, Radiologic, Nuclear, and Explosive -specific response skills, enabling effective response to a suspected incident culminating with performance of these offensive-level tasks in a simulated HAZMAT environment. Pre/Co-requisites, DPEM 1101 or permission of the instructor. Fall, Spring, Summer.

DPEM 2351. Responder Actions for CBRNE Incidents Provides students, future emergency responders and supervisors, with (CBRNE)-specific response skills, enabling them to safely respond to a suspected CBRNE incident at a performance defensive level. Pre/Co-requisites, DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2353. Global Perspectives in Disaster Preparedness A focus on global disaster preparedness around the world will be identified including economic, health, political, psychological, cultural and religious impact of current and major historical disasters. Cross listed as NRS 2353. Fall, Spring, Summer.

DPEM 2363. Fundamentals of CBRNE Crime Scene Management Knowledge of proper implementation of procedures and guidelines for crime scene management when responding to a Chemical, Biological, Radiologic, Nuclear and/or Explosive incident. Fall, Spring, Summer.

DPEM 2371. Protective Measures for CBRNE Incidents Provides students, future law enforcement responders, with the ability to train in CBRNE-specific skills, reinforcing their ability to identify suspicious activity that could lead to a CBRNE event and with the knowledge to respond to a CBRNE event. Pre/Co-requisites, DPEM 1121 or permission of the instructor. Fall, Spring, Summer.

DPEM 2381. Law Enforcement Response Actions for CBRNE Incidents Provides students, law enforcement responders, with CBRNE-specific response skills, enabling them to safely respond to a suspected Weapons of Mass Destruction (WMD) incident at a performance-defensive level. Pre/Co-requisites, DPEM 1121 and DPEM 2371 or permission of the instructor. Fall, Spring, Summer.

DPEM 2391. Initial Response to Suicide Bomb Attacks Provides students, front line Law Enforcement Officers, with the skills and knowledge to effectively interdict and respond to an imminent suicide bombing attack (person-borne or vehicle-borne) or a non-suicide attack involving a vehicle-borne device. Pre/Co-requisites, DPEM 1121, DPEM 2371 and DPEM 2381 or permission of the instructor. Fall, Spring, Summer.

DPEM 2402. Civil Disorder in Disasters and Emergencies The course provides students from state and local law enforcement agencies with the knowledge and skills necessary to prepare for and successfully mitigate threat incidents involving civil disorder.

DPEM 2412. Command and Planning for Civil Disorder in Disasters and Emergencies Provides students, emergency responders, with response skills that enable them to safely respond to an incident at the management level culminating in a tabletop exercise. Fall, Spring, Summer.

DPEM 2422. Extrication Tactics for Civil Disorder in Disasters and Emergencies Provides students with the ability to identify protester devices; discuss legal issues related extrication from protester devices; compare the roles and responsibilities of the extrication team; demonstrate safe operation of tools and demonstrate methods of extricating individuals. Pre/Co-requisites, DPEM 1101 or permission of the instructor. Fall, Spring, Summer.

DPEM 3053. Expanding Incident Management Advanced application of the Incident Command System (ICS) to prepare students to assume a supervisory role in expanding incidents as required by the National Incident Management System designated by the National Response Framework. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.

DPEM 3513. Teaching Incident Management Teaches presentation techniques, conducting practical application, and preparing and maintaining lesson plans appropriate to Incident Command System (ICS) requirements. Includes instructional strategies for ICS 100, 200, 300, 400, 700 & 800. Prerequisites, DPEM 1101, DPEM 1201, DPEM 3053 and DPEM 4053. Fall, Spring, Summer.

DPEM 3523. Teaching Officer CBRNE Protection Develops knowledge and skills to create and deliver courses designed to implement strategies to protect law enforcement officers from exposure to Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE) to law enforcement. Prerequisite, DPEM 1121. Fall, Spring, Summer.

DPEM 3533. Teaching CBRNE Awareness Students learn how to provide instruction to the adult learning audience in Recognition, Avoidance, Isolation and Notification (RAIN) techniques when confronted with chemical agents, biological agents, radiological materials and explosive devices. Fall, Spring, Summer.

DPEM 3543. Teaching Emergency Response Provides students with the knowledge and skills to create and deliver Chemical, Biological, Radiological, Nuclear and/or Explosive instruction to the adult learning audience. Results in emergency responders who can deliver lectures and hands-on training to other emergency responders. Prerequisite, DPEM 1121. Fall, Spring, Summer.

DPEM 3552. Business Continuity in DPEM Business continuity strategies during disasters and emergencies will be explored utilizing an all hazards approach. Selected business continuity plans in both private and public sectors will be analyzed in relation to simulated or historical disasters. Fall, Spring, Summer.

DPEM 3553. Ethics and the Law in DPEM Examines law and ethical dilemmas in disaster preparedness and emergency management. Includes human rights and injustices associated as well as codes of ethics in emergency management and public health emergency laws. Current and historical disasters will be analyzed. Fall, Spring.

DPEM 3562. Principles of Administration in Emergency Management Examines laws and regulations relating to emergency management programs in the private and public sector. Ethical dilemmas and professional accountability will be explored utilizing case studies. Community resilience and recovery in times of disaster will be emphasized. Fall, Spring, Summer.

DPEM 3563. Information Technology in DPEM Social media, visual, mapping, disaster management systems, software and geographic information systems will be explored as a resource for disaster preparedness and emergency management. Overviews of each system will be provided followed by hands-on experiences with the various technology systems. Fall, Spring, Summer.

DPEM 3572. Politics of Disaster Analyzes the effects of the national response framework and presidential directives in disaster preparedness and emergency management. Compares and contrast the role of society, science, and politics in emergency management. Explores the inter-governmental relationships and the globalization of disasters. Fall, Spring, Summer.

DPEM 3583. Principles of Communication in DPEM Analyze procedures and methods to develop and disseminate mass communications during times of disaster. Identify the dynamics of communications during disasters. Explore the laws and regulations pertaining to disaster communications. Recognize and utilize social media resources in disaster response. Fall, Spring, Summer.

DPEM 3592. Exercise Design in DPEM Explore types of exercises applicable to emergency management programs. Plan, develop, and conduct exercises to test and evaluate emergency response plans. Analyze the results of disaster exercises in an after action review meeting the Homeland Security Exercise and Evaluation protocols. Fall, Spring, Summer.

DPEM 3613. Radiological Emergencies Provides hands-on practicum, team exercises and practical skills for effective response to a radiological incident. Topics include Radiological Concepts, Radiological Response Team Operations, Commercial Nuclear Power Facilities, Plume Modeling, Radiological Instrumentation, and Personal Protective Equipment and Decontamination. Fall, Spring, Summer.

DPEM 4053. Complex Incident Management Provides training and resources for students who require advanced application of the Incident Command system (ICS) in an Area Command or Multi-agency Coordination Entity. Students may perform in a management capacity in an Area Command or Multi-agency Coordination Entity. Prerequisites, DPEM 1101, DPEM 1111, DPEM 1121 and DPEM 3053. Fall, Spring, Summer.

DPEM 4123. Incident Command for All Hazards Provides students with information to successfully implement proper procedures and guidelines for crime scene management when responding to a Chemical, Biological, Radiological, Nuclear and Explosives (CBRNE) incident. The course culminates with incident management actions applied during a CBRNE scenario incident. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.

DPEM 4133. All Hazards Command and Response Practicum experience to assume command and response for all hazards. Encompasses Weapons of Mass Destruction (WMD)-related topics and hands-on training on pre-incident planning, response development, domestic and international terrorism, CBRNE agents and materials associated with WMD. Prerequisites, DPEM 1101, DPEM 1121. Fall, Spring, Summer.

DPEM 4501. Teaching MCI Hospital Response Applies previous knowledge and experience to relate the application of environmental health to disaster management. Professional skills are integrated into a scenario including local-level disaster response, recovery, mitigation and preparedness. Prerequisite, DPEM 4733. Fall, Spring, Summer.

DPEM 4503. Principles of Disaster Preparedness An all hazards approach is utilized to identify legal and ethical issues, cultural, political and religious issues, collective behaviors and group panic, role of the media, effective communication, and identification of resources for persons engaged in disaster and emergency preparedness. Cross listed as NRS 4503 Fall, Spring, Summer.

DPEM 4513. Physical Care of CBRNE Injuries Elucidates recognition, treatment and containment of Category A biological agents, chemical agents and radiologic incidents. Content discussion will include advanced principles of disaster management, worker safety, advanced triage, disaster effects on special populations, laboratory analysis and expanded mental health response. Cross listed as NRS 4513. Fall even.

DPEM 4523. Risk Identification and Prevention Identifies actions communities, institutions and governments must take to identify the risk and prevent injury from man made and natural disasters, including acts of terrorism. Course topics include risk assessment, mitigation, surveillance, disaster epidemiology, emerging infections and socio political implications. Cross listed as NRS 4523. Fall, odd.

- DPEM 4533. Disaster and Mental Health** Identifies evolving evidence related to the impact of disaster and mass violence on mental health. Considers natural and man-made disasters, short and long term effects and common treatment strategies. Registration restricted to Homeland Security and Disaster Preparedness minors or any major with permission of Instructor. Cross listed as NRS 4533. Prerequisite, Junior standing. Spring, even.
- DPEM 4553. Capstone in Homeland Security & Disaster Preparedness** Application of skills and knowledge gained in the minor to the analysis of a specific need or problem and the design of solutions. Teamwork among various specialties with the field. Prerequisite, NRS 4503. Permission of instructor required. Cross listed as POSC 4553, NRS 4553. Spring.
- DPEM 4563. NGO Agencies in DPEM** Examines non-government agency response to disasters and other emergencies. Cooperation and collaboration among the agencies will be analyzed. Pre and post-disaster planning as well as acquisition and mobilization of resources will be emphasized. Fall, Spring.
- DPEM 4573. Teaching Radiological Emergency** A comprehensive curriculum designed to introduce students to adult learning characteristics, adult learning styles and preferences, instructional methodologies, and cultural diversity in the training environment. Provides capabilities and knowledge to effectively plan, administer, teach, conduct, and evaluate radiological training courses. Prerequisite, DPEM 3613. Fall, Spring, Summer.
- DPEM 4713. Advanced Information Officer** To prepare students to disseminate credible information to the media and the public during a public health emergency and to manage a Joint Information Center during emergencies. News conference exercises prepare students for a culminating practical experience. Prerequisites, DPEM 1101 and DPEM 1111. Fall, Spring, Summer.
- DPEM 4723. Healthcare Leadership** Focuses on critical decision making, leadership and management skills. Content emphasizes the effectiveness and efficiency of healthcare emergency preparedness while maintaining the overall safety of responders and victims and/or patients. Students strive to make realistic decisions during a facility-based exercise. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.
- DPEM 4733. Hospital Emergency Response** Prepares students to utilize the Hospital Incident Command System (HICS). Integrates the community emergency response network with the operation of an Emergency Treatment Area (ETA). Includes hospital personnel as first responders during a Mass Casualty Incident involving patient contamination. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.
- DPEM 4743. Medical Operations for CBRNE** Prepares students to utilize the Hospital Incident Command System (HICS). Integrates the community emergency response network with the operation of an Emergency Treatment Area (ETA). Includes hospital personnel as first responders during a Mass Casualty Incident involving patient contamination. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.
- DPEM 4753. Hazard Assessment and Response** Prepares students to utilize the Hospital Incident Command System (HICS). Integrates the community emergency response network with the operation of an Emergency Treatment Area (ETA). Includes hospital personnel as first responders during a Mass Casualty Incident involving patient contamination. Prerequisites, DPEM 1101, DPEM 1111 and DPEM 1121. Fall, Spring, Summer.

HEALTH STUDIES PROGRAM

Health Professions (HP)

- HP 2013. Medical Terminology** Basic language related to medical science and the health professions, word analysis, construction, spelling, definitions. Special course fees may apply. Fall, Spring.
- HP 2112. Introduction to the United States Healthcare System** Fundamental structures and operations of the United States health care system and its differences from other established health care models across the world. Provides an overview of health care services, delivery, financing, trends and consequences. Spring.

- HP 3003. General Gross Anatomy** The regional topographic study of human gross anatomy using lecture, laboratory, discussion, and prosected cadavers. Emphasis is placed on surface anatomy, musculoskeletal and neuromuscular systems. Clinical correlations are highlighted. Lecture 2 hours per week. Laboratory 2 hours per week. Enrollment will be limited. Enrollment preference will be given to students in the Sports Medicine and Athletic Training Program. Additional enrollment will be at the discretion of the instructor. Special course fees may apply. Prerequisites, BIO 2203 and BIO 2201, or BIO 3223 and BIO 3221. Fall, Spring.
- HP 3123. Introduction to Disease** Basic principles of disease processes, covering essential structural and functional characteristics of common diseases. Attention will be given to individual body systems and the diseases, disturbances, and abnormalities affecting them. Fall.
- HP 3233. Preventive Health** Teaching and "coaching" patients toward managing, mitigating, and/or preventing health dysfunctions encountered by citizens of the Delta region. Examines the impact health promotion and preventive practices have on the quality of life across the life span. Fall.
- HP 3353. Public Health: Principles and Practice** Overview of the unique features of public health in the rapidly changing US and global health care delivery system from a population, global health perspective. Fall.
- HP 3413. Cultural Competence in the Health Professions** Self assessment of awareness, knowledge, sensitivity and acceptance of the importance of cultural issues in a culturally diverse health care environment, definition and components of culture, cultural values, cultural competence, health and healing traditions, transcultural communication, fostering cultural competence in colleagues. Fall, Spring.
- HP 3453. Healthcare Navigation** The patient navigation model includes the timely movement of an individual across the entire health care continuum from prevention, detection, diagnosis, treatment, and supportive, to end-of-life care. Spring.
- HP 3463. Introduction to Pharmaceuticals** An introduction to pharmaceuticals in modern health care. Issues related to regulation, drug development, drug safety (including age related issues, polypharmacy, and abuse) and quality control are included. Spring.
- HP 3673. Critical Issues in Health** Examination of critical health and health care issues from clinical, legislative, and community perspectives. Spring.
- HP 3783. Issues in Mental Health** Examination of a variety of mental health conditions and behaviors, including many of the help-seeking behaviors seen currently in health care settings, including major public health threats to our society will be discussed. Spring.
- HP 4103. Patient Education in Healthcare** Teaching strategies and methodologies that compare and contrast teacher-centered versus patient-centered approaches within the context of healthcare. Spring.
- HP 4133. Performance Enhancement and Metabolism for Sport and Exercise** Provides learners with a basic and applied scientific knowledge base that can be used to enhance human performance, to protect the health and safety of active individuals, and to be a critical consumer. Special course fees may apply. Spring.
- HP 4213. Chronic Illness** An introduction to the scope and nature of living with chronic disease or illness with a focus on identifying chronic illnesses that affect not only the individual, but families and communities. Fall.
- HP 4323. Patient Safety** An introduction to the scope and nature of most adverse events related to patient safety, with a focus and focuses on identification and prevention of patient safety issues. Fall.
- HP 4433. Healthcare Advocacy** Introduction to the role of the healthcare advocate, with a focus on information that assists patients and families in the increasing complex and dynamic health care system. Fall.
- HP 4543. Healthcare Service Delivery** A global focus on value-based healthcare delivery and the World Health Organization. Approaches to principles related to health care delivery in practice that are effective, safe, and quality based. Spring.

HP 4803. Introduction to Geriatrics Provides the learner with an introduction of geriatrics through a multidisciplinary approach. Topics explored will encompass how people age physically and how this aging affects other dimensions of life. Special course fees may apply. Prerequisites, minimum of 60 hours. Summer.

DEPARTMENT OF PHYSICAL THERAPY

Physical Therapy (PT)

PT 400V. Independent Study in Physical Therapy Guided investigation of a topic related to physical therapy selected in consultation with a member of the Physical Therapy faculty. May be repeated for different topics for a total of 6 semester credits. Prerequisite, Approval of the Program Director. Demand.

PT 4103. Research Methods in Physical Therapy An introduction to the processes involved in research related to the field of physical therapy. Special emphasis is placed on the application of concepts of measurement, the design of research techniques and methods, for the preparation of the research proposal. Methods of data analysis will also be discussed. Prerequisite, STAT 3233. Fall, Spring.

Physical Therapist Assistant (PTA)

PTA 1013. Making Connections in Physical Therapy Introduction to the nature of university education and orientation to the functions and resources of the university. This section is designed for students preparing for physical therapist assistant professional education with a focus on the profession of physical therapy and appropriate medical terminology. Fall, Spring.

PTA 2116. Patient Care Fundamentals Introduction to fundamentals of physical therapy patient care. PTA courses are only open to students admitted to the professional program. Summer.

PTA 2126. Movement Science Introduction to basic principles of musculoskeletal examination and evaluation of the human body. Students learn components of a patient history, systems review, observation and physical examination. Goniometry, muscle testing, sensory and reflex testing, functional assessment, special tests, palpation, posture analysis and gait analysis are covered. PTA courses are only open to students admitted to the professional program. Summer.

PTA 2213. Musculoskeletal Physical Therapy Students review passive, active and active assistive range of motion skills. Resistance exercise and the use of exercise equipment are practiced. Stretching and joint mobilization for specific diagnoses that are appropriate for the PTA to perform are practiced. PTA courses are only open to students admitted to the professional program. Fall.

PTA 2223. Physical Agents and Massage Basic principles and techniques of massage and application of modalities are presented. An investigation into the risk factors and pathophysiological considerations associated with integumentary diseases and conditions as well as aseptic technique and universal precautions is provided. PTA courses are only open to students admitted to the professional program. Fall.

PTA 2233. Neuromuscular Physical Therapy I Covers foundational science and theory behind the physical therapy management of patients with neuromuscular conditions. PTA courses are only open to students admitted to the professional program. Fall.

PTA 2263. Pathophysiological Conditions Review of cardiopulmonary anatomy and physiology and other physiological conditions such as gastrointestinal, metabolic/endocrine, and multi-system pathologies. Includes physical therapy assessment and rehabilitation of patients with pathophysiological disorders frequently seen by physical therapy in the clinical setting. Fall.

PTA 2252. Clinical Education I Five weeks of full time affiliation at one facility working under the supervision of an on site clinical instructor. Students integrate knowledge of basic sciences and interventions to practice treatment techniques in the clinical setting. Forty hours per week. PTA courses are only open to students admitted to the professional program. Fall.

PTA 2303. Neuromuscular Physical Therapy II Covers common interventions used in the physical therapy management of patients with neuromuscular conditions. PTA courses are only open to students admitted to the professional program. Spring.

PTA 2323. Seminar Introduction to principles of administration, teaching and learning, and evidence based practice as they apply to physical therapy practice. Social responsibility, career development and lifelong learning are also discussed. PTA courses are only open to students admitted to the professional program. Spring.

PTA 2333. Clinical Education II Five weeks of full time affiliation at one facility working under the supervision of an on site clinical instructor. Students integrate knowledge of basic sciences and interventions to practice treatment techniques in the clinical setting. Forty hours per week. PTA courses are only open to students admitted to the professional program. Spring.

PTA 2343. Clinical Education III Six weeks of full time affiliation at one facility working under the supervision of an on site clinical instructor. Students integrate knowledge of basic sciences and interventions to practice treatment techniques in the clinical setting. Forty hours per week. PTA courses are only open to students admitted to the professional program. Spring.

PTA 2413. Directed Study Guided investigation of a topic related to physical therapy selected in consultation with a member of the Physical Therapist Assistant faculty. PTA courses are only open to students admitted to the professional program. Prerequisite, Approval of the Program Coordinator. Demand.

DEPARTMENT OF MEDICAL IMAGING AND RADIATION SCIENCES

Radiologic Sciences (RS)

RS 3122. Legal and Regulatory Environment of Radiology Introduction to the growing legal and regulatory requirements being placed on radiology departments and professionals. Content includes American College of Radiology. Joint Commission on Accreditation of Healthcare Organizations, Food and Drug Administration, and state regulatory regulations as well as other legal considerations regarding personnel, operations and staffing. Prerequisite, formal acceptance in to the professional program. Spring, Summer.

RS 3133. Radiologic Sectional Anatomy Radiologic concepts and applications of sectional anatomy including transverse, sagittal and coronal sections of all body areas. Prerequisite, formal acceptance in to the professional program. Fall, Spring, Summer.

RS 3733. Geriatric Considerations in Radiology Psychosocial, emotional, mental and psychiatric issues encountered in the aging process with attention to normal processes of aging, common interventions, and treatments. Fall, Spring.

RS 3811. Radiologic Quality Management Administration Administrative aspects of the concepts and applications of the various quality assurance theories and techniques. Includes those quality functions mandated by various accrediting bodies related to medical imaging and radiation therapy. Prerequisite, formal acceptance in to the professional program. Fall.

RS 3843. Advance Clinical Practice Focus is on current healthcare delivery environment including patient assessment, monitoring, infection control, and management. It includes working with multicultural patients, managing problem patients, and patient education. Prerequisite, Admission to the Imaging Specialist program. Spring.

RS 4183. Leadership Practicum Experiential learning practicum with three radiologic facilities that allows students to participate with department management the skills, concepts and theories studied in RS 4343. Prerequisite, formal acceptance in to the professional program. Fall, Spring, Summer.

RS 4333. Radiologic Education Concepts An examination of various educational principles and methods appropriate for instruction in radiologic technology educational programs. Particular emphasis will be placed on the competency based approach to instruction and JRCERT guidelines. Prerequisite, formal acceptance in to the professional program. Spring.

- RS 4343. Radiologic Administrative Concepts** Introduction to the organization, operations, and management of a radiology department. Includes an introduction to health care delivery systems, decision making, and the management functions. Prerequisite, formal acceptance in to the professional program. Fall, Spring.
- RS 436V. Independent Study in Radiologic Sciences** Guided investigation of an advanced radiologic topic selected in consultation with a member of the radiologic sciences faculty. May be repeated with different topics for a total of 6 semester credits. Prerequisite, formal acceptance in to the professional program. Demand.
- RS 4423. Cardiovascular-Interventional Procedures and Instrumentation** The course will discuss angiography and interventional procedures. The student will be introduced to the specialized equipment required to produce and acquire the images and for monitoring the patient. Patient care procedures, medical and legal implications, and pharmaceutical and contrast agents specific to each examination will be defined. Prerequisite, formal acceptance in to the professional program. Fall.
- RS 4442. Cardiac Physiology and Procedures** This course emphasizes cardiac anatomy and physiology, electrocardiography, ECG, instrumentation, procedural performance, and elementary interpretation. Diagnostic imaging procedures and interventional therapies related to coronary disease and dysfunction are also presented. Hands on experience with ECG equipment will be introduced. Prerequisite, formal acceptance in to the professional program. Spring.
- RS 4453. Cardiovascular Interventional Clinical Education** The course will provide content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in cardiovascular-interventional radiology. Prerequisites, formal admission to the professional program. Fall, Spring, Summer.
- RS 4463. Statistics for Medical Imaging** Methods used for data collection and statistical analysis in medical imaging procedures and education with a focus on the applications of data and statistics in reporting of clinical efficiency, image repeat rates, and educational outcomes. Fall, Spring.
- RS 4532. Mammography Procedures and Instrumentation** This course is designed to introduce the student to the technical and procedural aspects of mammography. Various aspects of mammography, breast anatomy, patient interaction and exam procedures will be covered. Prerequisite, formal acceptance in to the professional program. Spring.
- RS 4552. Mammography Clinical Education** The course will provide advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in mammography and bone densitometry. Prerequisite, formal acceptance in to the professional program. Spring, Summer, Fall.
- RS 4622. Computed Tomography Instrumentation** Advanced concepts and applications of the instrumentation and operation of equipment used in the Computed Tomography suite. Understanding of the computer components, imaging theory, and equipment operation will be stressed. Prerequisite, formal acceptance in to the professional program. Fall.
- RS 4632. Computed Tomography Procedures** Advanced concepts and applications of the various procedures performed and equipment used in the computed tomography suite. Emphasizes the understanding of the equipment and the performance of all procedures. Prerequisite, formal acceptance in to the professional program. Fall, odd.
- RS 4643. Computed Tomography Clinical Education** The course will provide content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in computed tomography. Prerequisite, formal acceptance in to the professional program. Fall, Spring, Summer.
- RS 4822. Psychosocial Factors in Health Care Delivery** Focus on psychosocial issues which impact the delivery of healthcare in a medical imaging environment. Prerequisite, formal acceptance in to the professional program. Fall, Spring.
- RS 4852. Advanced Radiologic Pathophysiology I** This course is an intensive study of the radiographic manifestations of diseases that affect the musculoskeletal and respiratory systems, excluding neoplasms. Emphasis is on physiologic changes evident in images and differentiating which imaging modalities are most sensitive in detecting these changes. Prerequisite, formal acceptance in to the professional program. Fall, Summer.

- RS 4862. Advanced Radiologic Pathophysiology II** This course is an intensive study of the radiographic manifestations of neoplasms and diseases that affect vascular systems. Emphasis is on physiologic effects of neoplasms and vascular system diseases and image manifestations of these effects. Prerequisite, formal acceptance in to the professional program. Spring, Summer.

Magnetic Resonance Imaging (RSMR)

- RSMR 3853. Advanced MR Pathophysiology I** Provides knowledge of patient care and assessment, imaging contraindications, contrast agents, introduction to MRI and MRI safety, cultural diversity, infection control, interpersonal communication, and body mechanics. Prerequisite, formal acceptance in to the professional program. Fall.
- RSMR 3863. Advanced MR Pathophysiology II** Common pathologies found in magnetic resonance imaging (MRI) of the thorax, abdomen, pelvis, and cardiovascular systems. Prerequisite, formal acceptance in to the professional program. Spring.
- RSMR 4702. Introduction to MR Imaging** Provides knowledge of patient care and assessment, imaging contraindications, contrast agents, introduction to MRI and MRI safety, cultural diversity, infection control, interpersonal communication, and body mechanics. Prerequisite, formal acceptance in to the professional program. Fall.
- RSMR 4703. MRI Instrumentation** A study of the equipment used in production of the MR signal and image, specific coil designs, quality assurance measures, and equipment safety. Prerequisite, formal acceptance in to the professional program. Fall.
- RSMR 4712. Imaging Information Management** Explains the functioning of computers and computer concepts in medical imaging. Topics covered are HIPAA, PACS, and RIS in MRI and the imaging department. Prerequisite, formal acceptance in to the professional program. Spring.
- RSMR 4723. MRI Procedures I** Provides knowledge of anatomy, pathology, scanning protocols, contrast administration, and contraindications for magnetic resonance imaging of the head, spinal column, and musculoskeletal system. Prerequisite, formal acceptance in to the professional program. Fall.
- RSMR 4733. MRI Procedures II** Provides knowledge of anatomy, pathology, scanning protocols, contrast administration, and contraindications for magnetic resonance imaging of the abdomen, pelvis, and musculoskeletal system. Prerequisite, formal acceptance in to the professional program. Spring.
- RSMR 4753. MRI Clinical Education I** The course will provide beginning level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in magnetic resonance imaging. Prerequisite, formal acceptance in to the professional program. Fall.
- RSMR 4763. MRI Clinical Education II** The course will provide intermediate level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in magnetic resonance imaging. Prerequisite, formal acceptance in to the professional program. Spring.
- RSMR 4773. MRI Clinical Education III** The course will provide advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in magnetic resonance imaging. Prerequisite, formal acceptance in to the professional program. Summer.
- RSMR 4783. MRI Clinical Education IV** The course will provide advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in magnetic resonance imaging. Prerequisite, formal acceptance in to the professional program. Summer.
- RSMR 4803. MRI Physical Principles I** Introduction of the concepts of basic physics and instrumentation for magnetic resonance imaging. Topics include nuclear magnetism, the Larmor equation, tissue characteristics, and imaging parameters. Prerequisite, formal acceptance in to the professional program. Fall.

RSMR 4812. MRI Pharmacology Provides knowledge of types of contrast media, contraindications, dose calculation, administration routes, effects on the MRI image, patient care and assessment. Prerequisite, formal acceptance in to the professional program. Summer.

RSMR 4813. MRI Physical Principles II Exploration of imaging options, spin echo, fast spin echo, STIR, FLAIR, gradient imaging, and echo planar imaging. Includes a comprehensive analysis of image artifacts. Prerequisite, formal acceptance in to the professional program. Spring.

RSMR 4823. Data Acquisition and Processing A study of the patient coordinate system and spatial localization, magnetic resonance imaging gradient system, data manipulation, and quality control practices in MRI. Prerequisite, formal acceptance in to the professional program. Spring.

RSMR 4832. Advanced MR Imaging Covers anatomy, pathology, scanning protocols, contrast administration, and contraindications for magnetic resonance angiography, venography, functional imaging, dynamic imaging, and cardiac imaging. This course is restricted to those students formally accepted into the MRI program in the Department of Radiologic Sciences. Prerequisite, formal acceptance in to the professional program. Summer.

Nuclear Medicine (RSN)

RSN 300V. Nuclear Medicine Program Exchange Clinical Preceptorship to be taken concurrently while enrolled in the nuclear medicine program. Prerequisite, formal acceptance in to the professional program. Fall, Spring, Summer.

RSN 4113. Nuclear Medicine Pharmacy This course focuses on the study of the chemical and biological aspects of radiopharmaceuticals, radionuclides, radioactive decay, and the preparation and quality control of radiopharmaceuticals. Clinical procedure information for magnetic resonance imaging studies. Prerequisite, formal acceptance in to the professional program. Spring.

RSN 4213. Nuclear Medicine Physics and Instrumentation This course focuses on the study of nuclear medicine physics, especially radionuclide production and detection, counting statistics, energy spectrum analysis, and scintillation imaging systems. Prerequisite, formal acceptance in to the professional program. Fall.

RSN 4313. Nuclear Medicine Procedures I This course focuses on the study of nuclear medicine clinical procedures for in vivo and in vitro studies, related anatomic studies, and associated physiologic pathologic conditions. Prerequisite, formal acceptance in to the professional program. Fall.

RSN 4323. Nuclear Medicine Procedures II This course focuses on the continued study of nuclear medicine clinical procedures for in vivo and in vitro studies, related anatomic studies, and associated physiologic pathologic conditions. Prerequisite, formal acceptance in to the professional program. Spring.

RSN 4513. Nuclear Medicine Clinical Education I The course will provide beginning level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in nuclear medicine procedures. Prerequisite, formal acceptance in to the professional program. Fall.

RSN 4523. Nuclear Medicine Clinical Education II The course will provide intermediate level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in nuclear medicine procedures. Prerequisite, formal acceptance in to the professional program. Spring.

RSN 4535. Nuclear Medicine Clinical Education III The course will provide advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in nuclear medicine procedures. Prerequisite, formal acceptance in to the professional program. Summer.

Radiation Therapy (RST)

RST 4203. Introduction to Radiation Therapy and Patient Care This course will provide an overview of the foundations of radiation therapy and the practitioners role in the health care delivery system. Prerequisite, formal acceptance in to the professional program. Fall.

RST 4214. Radiation Therapy Principles and Practice I The course will provide a knowledge base for assessing, comparing, contrasting and recommending the type of radiation therapy equipment, procedure and technique, patient positioning and immobilization for appropriate tumor localization and treatment delivery. Prerequisite, formal acceptance in to the professional program. Fall.

RST 4224. Radiation Therapy Principles and Practice II The course will examine and evaluate the management of specific neoplastic disease. Prerequisite, formal acceptance in to the professional program. Spring.

RST 4234. Radiation Therapy Principles and Practice III The course will build on the foundations of the principles of radiation therapy practice from the two previous courses. Prerequisite, formal acceptance in to the professional program. Summer.

RST 4242. Radiation Therapy Clinical Treatment Planning The course will build on the foundations of the principles of radiation therapy practice from the two previous courses. Prerequisite, formal acceptance in to the professional program. Summer.

RST 4313. Radiation Therapy Physics I This course will establish a knowledge of physics pertinent to developing an understanding of radiations used in the radiation therapy clinical setting. Prerequisite, formal acceptance in to the professional program. Fall.

RST 4323. Radiation Therapy Physics II The course will review and expand concepts and theories in the Radiation Physics I course. Prerequisite, formal acceptance in to the professional program. Spring.

RST 4333. Applied Radiation Biology This course will present basic concepts and principles of radiation biology. Prerequisite, formal acceptance in to the professional program. Summer.

RST 4413. Radiation Protection, Safety, and Quality Management This course will present principles of radiation protection and safety for the radiation therapist. Prerequisite, formal acceptance in to the professional program. Spring.

RST 4513. Radiation Therapy Clinical Education I The course will provide beginning level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in radiation therapy. Prerequisite, formal acceptance in to the professional program. Fall.

RST 4523. Radiation Therapy Clinical Education II The course will have immediate content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in radiation therapy. Prerequisite, formal acceptance in to the professional program. Spring.

RST 4533. Radiation Therapy Clinical Education III The course will have advanced content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in radiation therapy. Prerequisite, formal acceptance in to the professional program. Summer.

Diagnostic Medical Sonography (RSU)

RSU 4102. Introduction to Ultrasound This course will provide an overview of the foundations of diagnostic medical sonography and the practitioners role in the health care delivery system. Spring.

- RSU 4112. Sectional Anatomy Sonography** Knowledge of anatomical layering and review body systems. Sonographic terminology, organ and organ system relationships, and directional terminology will also be focused upon in this course. Prerequisite, formal acceptance in to the professional program. Summer.
- RSU 4122, Small Parts Sonography** Knowledge of anatomy pathology of small parts including male pelvis, breast, thyroid, and musculoskeletal sonography. Prerequisite, formal acceptance in to the professional program. Summer.
- RSU 4134. Introduction to Sonography Laboratory** Clinical application knowledge of sonography equipment, sonographic terminology, and anatomy pathology of small parts. Students will participate in directed scanning exercises and simulator scanning to develop the critical thinking skills needed in practice of sonography. Prerequisite, formal acceptance in to the professional program. Summer.
- RSU 4213. Ultrasound Physics and Instrumentation I** This course will provide theoretical foundations and clinical applications of ultrasound physics and instrumentation, including Doppler principles, performance testing, and bioeffects. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4223. Abdominal Sonography I** Specific anatomic and pathologic information necessary for the clinical practice of abdominal diagnostic medical sonography, including abdominal organs and organ systems, normal, abnormal appearances, and pertinent laboratory tests are discussed. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4232. Abdominal Sonography I Laboratory** This course will provide clinical application knowledge of abdominal organs and organ systems. Students will participate in directed scanning exercises and simulator scanning to develop the critical thinking skills needed in practice of abdominal sonography. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4322. OBGYN Sonography Laboratory** Laboratory scanning of specific anatomy and pathology necessary for the clinical practice of obstetric and gynecologic diagnostic medical sonography. Corequisites, RSU 4613 and 4323. Prerequisite, formal acceptance in to the professional program. Spring.
- RSU 4323. Physics and Instrumentation II** This course is a continuation of RSU 4213. Advanced theoretical foundations and clinical applications of ultrasound physics and instrumentation, including Doppler principles, performance testing, and bioeffects. Prerequisite, formal acceptance in to the professional program. Spring.
- RSU 4413. Vascular Sonography** Knowledge of venous and arterial anatomy, physiology and clinical considerations necessary for practice in the vascular clinical setting. Anatomy of the upper and lower extremities, abdomen, special circulations, cerebrovascular circulation. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4422. Vascular Sonography Laboratory** Ultrasound scanning of anatomy of the upper and lower extremities, abdomen, and special circulations, as well as cerebrovascular intra and extracranial circulation will be the focus of this course. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4513. Ultrasound Clinic I** Entry level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in small parts and abdominal sonography. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4523. Ultrasound Clinical Education II** Advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in small parts, abdominal, and ob-gyn sonography. Prerequisite, formal acceptance in to the professional program. Spring.
- RSU 4534. Ultrasound Clinical Education III** Advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in small parts, abdominal, and obstetrics and gynecology sonography. Prerequisite, formal acceptance in to the professional program. Summer.
- RSU 4544. Ultrasound Clinical Education IV** Advanced level content and clinical practice experiences designed for sequential development application, analysis, integration, synthesis and evaluation of concepts. Prerequisite, formal acceptance in to the professional program. Summer.

- RSU 4551. Sonography Clinical Relevancy** Advanced application of anatomy and pathology as seen with sonographic examination and case studies will be the focus of this course. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4552. Ultrasound Clinical Education V** Advanced level content and clinical practice experiences designed for sequential development, application, analysis, integration, synthesis and evaluation of concepts and theories in small parts, abdominal, ob gyn, and vascular sonography. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4562. Ultrasound Clinical Education VI** Provides students with supplemental clinical experience in the event students should miss an excessive amount of clinical days, the student feels that additional clinical experience is needed, or DMS faculty and clinical instructors feel that the student would benefit from additional clinical experience. Prerequisite, formal acceptance in to the professional program. Demand.
- RSU 4563. Ultrasound Clinical Education VII** Provides students with supplemental clinical experience in the event students should miss an excessive amount of clinical days, the student feels that additional clinical experience is needed, or DMS faculty and clinical instructors feel that the student would benefit from additional clinical experience. Prerequisite, formal acceptance in to the professional program. Demand.
- RSU 4564. Ultrasound Clinical Education VIII** Provides students with supplemental clinical experience in the event students should miss an excessive amount of clinical days, the student feels that additional clinical experience is needed, or DMS faculty and clinical instructors feel that the student would benefit from additional clinical experience. Prerequisite, formal acceptance in to the professional program. Demand.
- RSU 4613. Obstetric and Gynecologic Sonography** Specific anatomic and pathologic information necessary for the clinical practice of obstetric and gynecologic diagnostic medical sonography. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4622. Obstetric Sonography II** Continuation of specific anatomic and pathologic information necessary for the clinical practice of obstetric diagnostic medical sonography. Registration restricted to students who have successfully completed the spring semester in the DMS program. Prerequisite, formal acceptance in to the professional program. Summer.
- RSU 4652. Special Procedures in Sonography** Specific anatomic and pathologic information necessary for the clinical practice of special procedures in abdominal, pediatric, and neonatal diagnostic medical sonography. Fall.
- RSU 4712. Introduction to Cardiac Sonography** Cardiac anatomy, physiology and clinical considerations necessary for practice in the cardiovascular clinical setting. Indications for cardiac testing and disease processes are discussed. Prerequisite, formal acceptance in to the professional program. Spring.
- RSU 4723. Cardiac Sonography** Continued discussion of cardiac disease processes. Corequisite RSU 4732. Good standing in DMS certificate program required. Summer.
- RSU 4732. Competency Sonography Lab I** Clinical application knowledge of small parts, abdominal organs and organ systems. Students will participate in directed scanning exercises and simulator scanning to develop the critical thinking skills needed. Corequisite, 4223. Prerequisite, formal acceptance in to the professional program. Fall.
- RSU 4742. Competency Sonography Lab II** Provide clinical application knowledge of gynecologic and obstetrical, vascular, or cardiac sonography. Directed scanning exercises and simulator scanning to develop the critical thinking skills. Registration restricted to students who have successfully completed the fall semester of appropriate DMS certificate program. Summer.
- RSU 4812. Cardiac Conduction and Arrhythmia** Provides an understanding of normal and abnormal conduction of electrical impulses in the cardiac system. Prepares students to recognize cardiac rhythms in the clinical setting. Registration restricted by admittance to the DMS Cardiac Certificate program. Spring.

Radiologic Technology (RT)

- RT 1003. Making Connections Radiologic Sciences** Open to incoming Freshmen only. This course will provide both an introduction to the nature of university education and a general orientation to the functions and resources of the university as a whole. This section of First Year Seminar is a special health professions section and will include a focus on understanding and appreciating radiologic science majors. Prerequisite, formal acceptance into the professional program. Fall.
- RT 1012. Clinical Relevancy in Radiography** A special interest course for those who are planning to sit for the national registry examination for radiography. The course will cover radiographic anatomy, positioning, terminology, exposure, physics, equipment operation and maintenance, processing, and image evaluation. Prerequisite, formal acceptance into the professional program. Summer.
- RT 1103. Introduction to Radiologic Technology** Basic principles associated with the practice of radiologic technology. Includes professionalism, ethical responsibilities, foundations of imaging, radiation protection and patient care procedures. Prerequisite, formal acceptance into the professional program. Summer.
- RT 1112. Basic Radiologic Procedures** Provides knowledge of radiographic terminology and the preliminary steps of a radiographic examination. Radiographic anatomy and positioning of the chest and abdomen. Includes positioning nomenclature, pathology and film evaluation. Prerequisite, formal acceptance into the professional program. Summer.
- RT 1121. Basic Radiologic Procedures Laboratory** The laboratory associated with Basic Radiologic Procedures. Prerequisite, formal acceptance into the professional program. Summer.
- RT 1202. Radiologic Procedures** Radiographic anatomy and positioning of the upper extremity, shoulder girdle, lower extremity and pelvic girdle. Includes positioning nomenclature, pathology and film evaluation. Prerequisite, formal acceptance into the professional program. Fall.
- RT 1211. Radiologic Procedures Laboratory** The laboratory associated with Radiologic Procedures. Prerequisite, formal acceptance into the professional program. Fall.
- RT 1222. Radiologic Physics** This is an initial program course designed to provide students foundational concepts of physics associated with diagnostic radiology. Includes basics of electricity, electromagnetism, the x-ray imaging system, and radiologic quantities. Prerequisite, formal acceptance into the professional program. Summer.
- RT 1232. Clinical Practicum I** Supervised clinical experience in routine radiographic procedures. Students are evaluated with a competency based evaluation system. Prerequisite, formal acceptance into the professional program. Fall.
- RT 1303. Advanced Radiologic Procedures** Radiographic anatomy and positioning of the vertebral column, bony thorax, skull, facial bones, and sinuses. Includes positioning nomenclature, pathology, and film evaluation. Prerequisite, formal acceptance into the professional program. Spring.
- RT 1311. Advanced Radiologic Procedures Laboratory** The laboratory associated with Advanced Radiologic Procedure. Prerequisite, formal acceptance into the professional program. Spring.
- RT 1323. Principles of Exposure I** Coordinated classroom laboratory study of radiation physics associated with x-ray production, interactions between ionizing radiations and matter, and associated health physics issues. Prerequisite, formal acceptance into the professional program. Fall.
- RT 1332. Clinical Practicum II** Supervised clinical experience in all aspects of clinical radiography. Students are evaluated with a competency based evaluation system. Prerequisite, formal acceptance into the professional program. Spring.
- RT 200V. Special Projects in Radiologic Technology** Individual study assignment designed to be a research paper or project on selected topics in Radiologic Technology. May be repeated with various topics. Prerequisite, formal acceptance into the professional program. Fall, Spring, Summer.

- RT 2104. Clinical Practicum III** Supervised clinical experience in all aspects of clinical radiography. Students are evaluated with a competency based evaluation system. Prerequisite, formal acceptance into the professional program. Summer.
- RT 2111. Principles of Image Evaluation and Critique** Principles of radiographic critique, radiographic positioning, exposure techniques, radiation protection and pathological conditions affecting image quality are covered. Prerequisite, formal acceptance into the professional program and at least one semester in a clinical setting.
- RT 2114. Clinical Practicum IV** Supervised clinical experience in all aspects of clinical radiography. Students are evaluated with a competency based evaluation system. Prerequisite, formal acceptance into the professional program. Summer.
- RT 2122. Principles of Exposure II** Coordinated classroom laboratory study of radiologic imaging systems with emphasis on theories and concepts of imaging equipment, image acquisition, and processing. Prerequisite, formal acceptance into the professional program. Spring.
- RT 3113. Radiologic Pathophysiology** A general survey of medical and surgical diseases. Focus is on manifestations of disease related to all imaging modalities in radiology. Prerequisite, formal acceptance into the professional program. Fall.
- RT 3202. Radiologic Special Procedures** Radiographic anatomy and positioning of the gastrointestinal tract and biliary system. Includes special procedures associated with diagnostic radiology. Prerequisite, formal acceptance into the professional program. Fall.
- RT 3212. Principles of Exposure III** Coordinated classroom laboratory continuation of the study of radiation physics with particular emphasis on radiographic exposure technique systems and related health physics. Prerequisite, formal acceptance into the professional program. Fall.
- RT 3223. Clinical Practicum V** Advanced clinical experience in radiology. Students are evaluated with a competency based evaluation system. Includes diagnostic radiology, special procedures, radiation therapy, nuclear medicine, ultrasound, computed tomography and magnetic resonance imaging. Prerequisite, formal acceptance into the professional program. Fall.
- RT 3312. Radiobiology** Principles of health physics, radiation protection, and radiobiology. Deals in depth with clinical applications. Prerequisite, formal acceptance into the professional program. Spring.
- RT 3332. Radiologic Pharmacology and Drug Administration** The concepts and applications of pharmacology and drug administration unique to the radiologic setting. Contrast media types and administration is covered in detail. Prerequisite, formal acceptance into the professional program. Spring.
- RT 3333. Clinical Practicum VI** Continuation of RT 3223. Includes final competency evaluation. Prerequisite, formal acceptance into the professional program. Spring.

SCHOOL OF NURSING

Nursing (NRS)

- NRS 1123. Making Connections Nursing** Open to incoming freshmen only, this course will provide both an introduction to the nature of university education and a general orientation to the functions and resources of the University as a whole. This section of First Year Seminar is a special health professions section and will include a focus on understanding and appreciating nursing as a career choice. Fall, Spring.
- NRS 1214. Introduction to Nursing** Introduction to the health care system. Focus on theories and concepts in assisting the individuals in maintaining activities of daily living. Prerequisites, PSY 2513, MATH 1023, BIO 2203, BIO 2201, and ENG 1003. Spring.

- NRS 1235. Nursing I** Theories and concepts necessary for effective assessment of individual and family ability to meet activities of daily living and developmental needs. Child and adult health problems that are usual, expected and have predictable outcomes are studied. Emphasis is placed upon student use of the nursing process in identifying these problems and their resolutions through relevant nursing interventions. Prerequisites, admission to the program or NRS 1214, NRSP 1222, NRS 3392, NRSP 3391 or Corequisites, NRS 1252, NRSP 1243. Fall.
- NRS 1252. Role Development I** An introduction to the roles of the associate degree nurse as a provider of care, manager of care, and member of the profession. These roles will be explored as they relate to the profession of nursing, legal and ethical issues, principles of teaching and learning, theory of nursing, professional accountability, and current health issues. Corequisites, NRS 1235 and NRSP 1243. Fall.
- NRS 1411. Clinical Calculations** Provides additional experiences in calculation systems, conversions, and medications given in the clinical setting. Will not count as a nursing elective. Open to all AASN and BSN students, LPNs, RNs or by permission of instructor. This course may be repeated for a maximum of three hours. Fall, Spring.
- NRS 2212. Nursing II Mental Health** Continued use of the nursing process, with an emphasis on the bio-psycho-social-cultural aspects of individuals and families. Mental health and adult health problems that are usual, expected and have predictable outcomes are studied. Registration restricted to AASN Program. Prerequisites, BIO 2223 and BIO 2221, CIT 1503 or CIS 1043, NRS 2392, NRS 3391, NRS 1235, NRSP 1243, and NRS 1252. Corequisites, NRS 2213, NRSP 2223, and NRS 2251. Spring.
- NRS 2213. Nursing II Medical Surgical** A focus on clients experiencing conditions that are usual, expected, and have predictable outcomes in a Medical-Surgical setting. Emphasis is on the nursing process with modification and redesign of the plan of care. Spring.
- NRS 2221. Nursing Process Application** Focuses on application of the nursing process and the use of critical thinking and problem solving skills to meet the needs of clients. Registration restricted to Nursing Majors. Prerequisites, NRS 1214, NRS 2314. Demand.
- NRS 2232. Nursing III Maternal Child** A continuation of focus on clients experiencing conditions that are usual, expected, and have predictable outcomes in a Maternal Child setting. Emphasis is on the nursing process with modification and redesign of the plan of care. Corequisites, NRS 2233, NRSP 2244, NRSP 2272. Prerequisites, BIO 2103, BIO 2101, NRS 1235, NRS 1252, NRS 2212, NRS 2213, NRS 2251, NRSP 1243, NRSP 2223. Fall.
- NRS 2233. Nursing III Medical Surgical** A continuation of focus on clients experiencing conditions that are usual, expected, and have predictable outcomes in a Medical Surgical setting. Emphasis is on the nursing process with modification and redesign of the plan of care. Corequisites, NRS 2232, NRSP 2244, NRSP 2272. Prerequisites, BIO 2103, BIO 2101, NRS 1235, NRS 1252, NRS 2212, NRS 2213, NRS 2251, NRSP 1243, NRSP 2223. Fall.
- NRS 2311. NCLEX Preparation** An introduction to the essential skills of problem solving and test taking that are critical to professional nursing. Fall.
- NRS 2314. Concepts of Nursing** Introduction to the concepts and theories basic to nursing assessment and intervention. General concepts of health, illness, and professionalism are explored. Focus is upon meeting basic human needs throughout the life span. Prerequisite, Admission to the BSN program. Corequisite, NRSP 1222. Fall.
- NRS 2334. Health Promotion and Introduction to Acute Care Nursing** Focus is on health promotion surrounding life cycle events as well as an introduction to acute care. Growth and development and family theory are addressed as professional concepts. Prerequisites, NRS 2314 and NRSP 1222. Spring.
- NRS 2353. Global Perspectives in Disaster Preparedness** A focus on global disaster preparedness around the world will be identified including economic, health, political, psychological, cultural and religious impact of current and major historical disasters. Cross listed as DPEM 2353. Fall, Spring, Summer.
- NRS 2392. Health Assessment** Focus on obtaining a health history and physical assessment of the adult. An overview of the pediatric, obstetrical, and geriatric client is included. Prerequisite, BIO 2203 and BIO 2201. Pre or corequisite, BIO 2223, BIO 2221, and NRSP 2391, NRS 2314 and NRSP 1422 for BSN Students, or NRS 1214 and NRSP 1222 for AASN students. Fall, Spring, Summer.

- NRS 2423. Introduction to Essentials of Nursing Care** This course introduces the scope of the nursing profession with emphasis on basic human needs, growth and development across the lifespan, communication, legal and ethical parameters of practice, and teaching and learning theories. Prerequisites, Admission to the Accelerated BSN track. Corequisite, NRSP 1422. Summer.
- NRS 2433. Essentials of Medical Surgical Nursing I** Health focus on individuals and families experiencing acute and chronic illness across the lifespan. Integrated foci include medical surgical, geriatrics, pediatrics, and nutrition. Registration restricted to students who are accepted to the accelerated BSN option. Prerequisites, NRS 2423 and NRSP 1422. Corequisites, NRS 3392, NRS 2443, NRSP 3391, and NRSP 2432. Fall.
- NRS 2443. Essentials of Nursing Care of the Childbearing Family** Theoretical basis for professional nursing care of the childbearing family. Emphasis is on nursing care of the woman, the fetus, and the infant within the family environment. Registration restricted to students who are accepted to the accelerated BSN option. Prerequisites, NRS 2423 and NRSP 1422. Corequisites, NRS 2392, NRS 2433, NRSP 2391, and NRSP 2432. Fall.
- NRS 2601. Nursing Process Application** Focuses on the application of the nursing process and the use of critical thinking and problem solving skills to meet the needs of clients. Fall.
- NRS 2793. Health Assessment and Exam** Health history and physical examination skills are taught. The focus is on the adult while including an overview of special client populations. Students submit written H & Ps and self-recordings of skill performance. Prerequisites, Admission to the RN-BSN program, BIO 2203/2201 and BIO 2223/2221. Fall, Spring, Summer.
- NRS 3023. Interdisciplinary Clinical Pathophysiology** This course is an overview of the specific disruptions of normal physiology and alterations, mechanisms involved, their disease manifestations and the therapeutic principles underlying treatment. This course provides a link between the basic biological sciences and their clinical application. Prerequisites, Anatomy and Physiology I and II and Microbiology or by permission of instructor. Fall, Spring, Summer.
- NRS 330V. Special Problems in Nursing** Specific areas with the topic and mode of study agreed upon by the student and the instructor. Course may be repeated with various topics. Registration must be approved by the department chair. Demand.
- NRS 3312. Introduction to Nursing Research** Explores the role of the nurse in the research process and provides the skills needed to evaluate and use research findings. Prerequisite or corequisite, three credit hour statistics course. Corequisite, NRS 3345 and NRSP 3355. Spring.
- NRS 3315. Acute Care Nursing I** Health focus is on acute illness. Integrated foci include adult medical surgical, geriatrics, pediatrics, mental health and nutrition. Prerequisites, NRS 2334, NRSP 2343, NRS 2392 and NRSP 2391. Fall.
- NRS 3325. Nursing Care Systems III** Practicum in which NURS 3314 is implemented. The student designs and implements care for adults and children in a secondary care setting. Prerequisite or corequisite, NRS 3314. Fall.
- NRS 3333. Women's Health. Past, Present and Future** Health problems of women studies with both a traditional and contemporary focus. Emphasis on current information needed by health professionals to help women achieve optimum wellness. Prerequisites, Junior level nursing status or permission of instructor. Cross listed as WGS 3333. Fall, Summer.
- NRS 3343. Clinical Pharmacology and Nursing Management** Concepts essential for integration of pharmacological theory into professional nursing practice. Corequisite, NRS 3315 or permission of instructor. Fall, Summer.
- NRS 3345. Acute Care Nursing II** Continuation of concepts introduced in NRS 3315. Prerequisites, NRS 3315 and NRS 3343. Spring.
- NRS 3353. Aging and the Older Adult** Analysis of the aging process, including theories of aging, ethical issues, biopsychosocial aging changes, impact of changing needs on support systems. Designed for Nursing, Health Care, and Health Promotions majors. Other majors allowed by consent of instructor. Prerequisites, PSY 2013. Fall, Spring, Summer.

NRS 3355. Nursing Care Systems IV Practicum in which theory from NRS 3344 is implemented or expanded. The student designs, implements, and evaluates care of individual clients and families in secondary care settings. Prerequisites, NRSP 3325 and prerequisite or corequisite, NRS 3344. Spring.

NRS 3381. Nursing Leadership Development Experiential learning and active involvement in the local, state and national levels of the National Student Nursing Association.

NRS 3383. Gerontological Nursing Emphasis is placed on the normal biophysical and psychological changes which occur as part of the normal aging process. Strengths, capabilities, problems, and limitations imposed by the pathological changes of aging are identified. Values, beliefs, and attitudes as well as resources are explored. Prerequisite, Junior with ten hours of nursing credit, Registered Nurse status, or permission of instructor. Demand.

NRS 3422. Essentials of Mental Health Nursing Explores and applies the basic concepts of professional nursing for clients with mental health problems. Registration restricted to students who are accepted to the accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, and NRSP 2432. Corequisites, NRS 3343, NRS 3423, and NRSP 3433. Fall.

NRS 3423. Essentials of Community Health Concepts of professional nursing expanded to the care of individuals, families, and groups of patients in community and rehabilitation settings. Focus is on needs assessment, strategies, high risk families, professional roles and health care issues. Registration restricted to students who have been accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, and NRSP 2432. Corequisites, NRS 3343, NRS 3422, and NRSP 3433. Fall.

NRS 3445. Essentials of Medical Surgical Nursing II Health focus on individuals and families experiencing acute and chronic illness across the lifespan. Integrated foci include adult medical surgical, geriatrics, pediatrics, and nutrition. Registration restricted to students who have been accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2443, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, and NRSP 3433. Corequisites, NRS 3023, NRSP 3453. Spring.

NRS 3463. Pathophysiology Based Pharmacology I Disruptions of normal human functioning and disease processes. Pharmacologic principles and treatment of select disease process are discussed. Link between the basic biological sciences and the application of pharmacological theory into nursing practice. Registration restricted to admission to the BSN. Fall.

NRS 3473. Pathophysiology Based Pharmacology II Disorders of normal human functioning and disease processes. Pharmacologic principles and treatment of select disease process are discussed. Ties basic biological sciences theory and the application of pharmacological theory into nursing practice. Registration restricted to students admitted to the BSN program. Spring.

NRS 3713. Evidence Based Practice Explores the nurse's role in the research process and provides the skills needed to evaluate the evidence and use research findings. Introduces professional writing styles and requires the application of a selected style in the preparation of various projects. Prerequisite, Admission to the RN-BSN Program. Pre/Co-requisite, Statistics. Fall, Spring, Summer.

NRS 3723. Clinical Pathophysiology An overview of the specific disruptions of normal physiology, mechanisms involved, disease manifestations and the therapeutic principles underlying treatment. Provides a link between the basic biological sciences and their clinical application. Prerequisites, Admission to the RN-BSN program, BIO 2103/2101 and BIO 2203/2201. Fall, Spring, Summer.

NRS 4053. Today's Families Interdisciplinary Approaches An interdisciplinary course designed to promote a critical approach to examine the family and its role in society. Prerequisite, twelve hours of coursework in Interdisciplinary Family Minor or Instructors permission. Spring.

NRS 4223. Forensic Nursing This course will introduce the beginning nurse to the field of forensic nursing. Content includes the recognition and management of forensic patients, both living and dead, and includes information on detection, collection, and preservation of evidence. Restricted to students who have completed 1 year of nursing coursework in either the AASN or BSN program, RN licensure, or permission of instructor. Summer, odd.

NRS 4312. Chronic Illness and Rehabilitation Nursing Focus on clients with chronic illness throughout the lifespan. Concepts of gerontology and rehabilitation are integrated. Prerequisites, NRS 3345, NRSP 3355, NRS 3312. Fall, Spring.

NRS 4343. Professional Nursing. Community Concepts of professional nursing practice expanded to the care of families and groups of clients in the community setting. Focuses also on change theory, group process strategies and professional and health care issues. Prerequisites, NRS 3345, NRSP 3355, NRS 3343, NRS 3392 and NRSP 3391. Fall, Spring.

NRS 4355. Critical Care and Emergency Nursing The focus of this course is on patients with potentially urgent or emergent healthcare needs which require ongoing assessment, immediate intervention and intensive nursing care. Prerequisites, NRS 3345, NRSP 3355, NRS 3343, NRS 3392, and NRSP 3391. Fall, Spring.

NRS 4362. Professional Role Development Concepts of professional socialization, accountability, advocacy, issues and trends which affect the role of the nurse are analyzed and discussed. Corequisites, NRS 4312, NRS 4343. Fall, Spring.

NRS 4393. Advanced Nutritional Concepts and Therapeutic Interventions Principles of nutritional support utilized in healthcare, including nutritional assessment, nutrient delivery and implications of disease. Prerequisites, completion of one year of nursing coursework, BSN junior level status, RN licensure, or permission of instructor. Spring.

NRS 4425. Essentials of Medical Surgical Nursing III Continuation of concepts introduced in NRS 3345 Essentials of Medical Surgical Nursing II. Registration restricted to students who have been accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, NRSP 3433, NRS 3445, NRS 3023, and NRSP 3453. Corequisites, NRS 4443 and NRSP 4433. Spring.

NRS 4443. Essentials of High Acuity Nursing Focuses on patients with acute episodic health deviations which require ongoing diagnosis, immediate intervention or intensive nursing observation and care. Registration restricted to Students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, NRSP 3433, NRS 3445, NRS 3023, and NRSP 3453. Corequisites, NRS 4425 and NRSP 4433. Spring.

NRS 4481. Critical Decision Making and Testing Competencies in Nursing Further assists nursing students to identify areas for improving critical thinking skills and test taking skills. Will enhance the students ability to problem solve in providing complex care to individuals, groups, communities and populations. Prerequisites, senior nursing student status or permission of instructor. Spring.

NRS 4503. Principles of Disaster Preparedness An all hazards approach is utilized to identify legal and ethical issues, cultural, political and religious issues, collective behaviors and group panic, role of the media, effective communication, and identification of resources for persons engaged in disaster and emergency preparedness. Cross listed as DPEM 4503. Fall, Spring, Summer.

NRS 4513. Physical Care of CBRN Victims Elucidates recognition, treatment and containment of Category A biological agents, chemical agents and radiologic incidents. Content discussion will include advanced principles of disaster management, worker safety, advanced triage, disaster effects on special populations, laboratory analysis and expanded mental health response. Cross listed as DPEM 4513. Fall, even.

NRS 4523. Disaster Risk Identification Identifies actions communities, institutions and governments must take to identify the risk and prevent injury from man made and natural disasters, including acts of terrorism. Course topics include risk assessment, mitigation, surveillance, disaster epidemiology, emerging infections and socio-political implications. Cross listed as DPEM 4523. Fall, odd.

NRS 4533. Disaster and Mental Health Identifies evolving evidence related to the impact of disaster and mass violence on mental health. Considers natural and man-made disasters, short and long term effects and common treatment strategies. Registration restricted to Homeland Security and Disaster Preparedness minors or any major with permission of instructor. Prerequisite, Junior standing. Cross listed as DPEM 4533. Spring, even.

- NRS 4542. Health Care Administration** Introduction to the organization, operations and administration of a modern health care environment. Includes an introduction to health care delivery systems, decision making, and the management functions. Prerequisite, Senior status or graduate student enrolled in a CNHP program or any health related major. Fall, Spring.
- NRS 4553. HSDP Capstone** Application of skills and knowledge gained in the minor to the analysis of a specific need or problem and the design of solutions. Teamwork among various specialties with the field. Prerequisite, NRS 4503. Permission of instructor required. Cross listed as POSC 4553, DPEM 4553. Spring.
- NRS 4713. Chronic Illness Nursing** Focus on clients with chronic illness throughout the lifespan. Concepts of gerontology, rehabilitation and spirituality are integrated. Prerequisites, Admission to the RN-BSN program, NRS 3723 and NRS 3713. Fall, Spring, Summer.
- NRS 4723. High Acuity Nursing** Focuses on patients with high acuity episodic or traumatic health deviations which require immediate intensive ongoing nursing diagnosis and interventions. Prerequisites, Admission to the RN-BSN program, NRS 3713 and NRS 3723. Fall, Spring, Summer.
- NRS 4733. Nursing Management** Managerial and leadership aspects of the nurse manager in various healthcare environments are discussed. Prerequisite, Admission to the RN-BSN Program, NRS 3713. Fall, Spring, Summer.
- NRS 4743. Community Nursing** Concepts of professional nursing practice expanded to the care of families and groups of clients in the community setting. Focuses also on change theory, group process strategies and professional and health care issues. Prerequisites, Admission to the RN-BSN program, NRS 3723 and NRS 3713. Fall, Spring, Summer.
- NRS 4763. Professional Nursing Role** Concepts of professional RN-BSN socialization, accountability, advocacy, issues and trends which affect the role of the nurse are analyzed and discussed. Prerequisite, Admission to the RN-BSN program. Fall, Spring, Summer.

Nursing Practicum (NRSP)

- NRSP 1222. Fundamentals of Nursing Practicum** Practicum emphasizes the fundamental skills of nursing as utilized in maintaining activities of daily living. A clinical laboratory fee will be assessed. Prerequisite or corequisite, NRS 1214, NRS 2392, and NRSP 2391. Fall, Spring.
- NRSP 1243. Clinical Practicum I** Initial medical, surgical, maternal, and child health clinical experience for the student making the transition to the RN role. Nursing concepts from Nursing Agency I and Role Development I are applied to clinical practice. A clinical laboratory fee will be assessed. Corequisites, NRS 1235 and NRS 1252. Fall.
- NRSP 1422. Foundations of Nursing Practice** Practicum emphasizes the fundamental skills of nursing as utilized in maintaining activities of daily living. A clinical laboratory fee will be assessed. Prerequisite or corequisite, NRS 2314. Fall.
- NRSP 220V. Clinical Practicum. Independent Study** Practicum experience in specific clinical areas determined by student and instructor. Review of clinical nursing care with emphasis on the performance of specific nursing procedures. A clinical laboratory fee will be assessed. Demand.
- NRSP 2223. Clinical Practicum II** Application of the nursing process in the care of individuals and families in all Stages of the life cycle. A clinical laboratory fee will be assessed. An additional fee is assessed for this course for the comprehensive assessment test. Prerequisites, NRS 1235, NRS 1252 and NRSP 1243. Spring.
- NRSP 2244. Clinical Practicum III** Refinement of the nursing process in providing care for selected clients. Prerequisites, NRS 2251 and NRSP 2223. Corequisite, NRSP 2272. A clinical laboratory fee will be assessed. An additional fee is assessed for this course for the comprehensive assessment examination given to all graduating nursing students. Fall.

- NRSP 2272. Role Development Practicum** Course assists the graduating student to integrate the Associate Degree Nurse roles, including provider of care, manager of care and member of the profession. A clinical laboratory fee will be assessed. Demand.
- NRSP 2343. Nursing Care II** Practicum in which the clinical skills associated with the events of childbearing and perioperative care are developed. A clinical laboratory fee will be assessed. Prerequisites, NRS 2314 and NRSP 1422. Prerequisite or corequisite, NRS 2334. Spring.
- NRSP 2391. Health Assessment Practicum** Practicum in which the clinical skills associated with NRS 2392 are developed and implemented. The student obtains health histories and performs physical examinations. A clinical laboratory fee will be assessed. Corequisite, NRS 2392. Fall, Spring, Summer.
- NRSP 2432. Clinical Experience I** Practicum in which NRS 2433 and NRS 2443 are implemented. The student designs and implements care for individuals and families, and the childbearing family. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422. Corequisites, NRS 2392, NRSP 2391, NRS 2433, NRS 2443. Fall.
- NRSP 3325. Nursing Care III** Practicum in which NURS 3314 is implemented. The student designs and implements care for adults and children in a secondary care setting. A clinical laboratory fee will be assessed. Prerequisite or corequisite, NRS 3315. Fall.
- NRSP 3355. Nursing Care IV** Practicum in which theory from NRS 3344 is implemented or expanded. The student designs, implements, and evaluates care of individual clients and families in secondary care settings. A clinical laboratory fee will be assessed. Prerequisites, NRSP 3325 and prerequisite or corequisite, NRS 3345. Spring.
- NRSP 3433. Clinical Experience II** Practicum in which theory from NRS 3422 and NRS 3423 is implemented. The student designs, implements and evaluates care for individuals and families with acute and chronic illness across the lifespan in a variety of clinical settings. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2432. Corequisites, NRS 3422, NRS 3343, NRS 3423. Fall.
- NRSP 3453. Clinical Experience III** Practicum in which theory from NRS 3422 and NRS 3423 is implemented. The student designs, implements and evaluates care for individuals and families with acute and chronic illness across the lifespan in a variety of clinical settings. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2432. Corequisites, NRS 3422, NRS 3343, NRS 3423. Fall.
- NRSP 4336. Nursing Care V** Practicum in which NRS 4314 and 4343 are implemented. Provision of health promotion, health maintenance, and disease management nursing care in home based and community based settings. A clinical laboratory fee will be assessed. Prerequisites or corequisites, NRS 4343 and 4314. An additional fee is assessed for this course for the comprehensive assessment examination given to all graduating nursing students. Fall, Spring.
- NRSP 4366. Nursing Care VI** Practicum in which theory from NRS 4354 and NRS 4733 is implemented. Care of clients and families in critical care and emergency care areas of the hospital. Also assumes role of coordinator and manager of client care in acute care setting. A clinical laboratory fee will be assessed. Prerequisite or corequisite, NRS 4354 and NRS 4733. An additional fee is assessed for this course for the comprehensive assessment examination given to all graduating nursing students. Fall, Spring.
- NRSP 4393. Nursing Care Elective** Practicum in which the student selects a clinical experience in an area of interest within a primary, secondary, or tertiary care setting. A clinical laboratory fee will be assessed. Prerequisites, Must have completed all Junior level BSN nursing courses and BIO 3203. Fall, Spring.
- NRSP 4433. Clinical Experience IV** Practicum in which theory from NRS 4425 and NRS 4443 is implemented. The student designs, implements and evaluates care for individuals and families with acute and chronic illness across the lifespan in a variety of clinical settings. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS, 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, NRSP 3433, NRS 3445, NRS 3023, and NRSP 3453. Corequisites, NRS 4425 and NRS 4443. Spring.

NRSP 4456. Clinical Experience V This practicum builds on the concepts learned in previous courses. The student designs, implements, and evaluates care for individuals and families, groups, and populations across the lifespan in a variety of clinical settings. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, NRSP 3433, NRS 3445, NRS 3023, NRSP 3453, NRS 4425, NRS 4443, NRSP 4433, NRS 4362, and NRS 4542. Corequisites, NRS 3312. Summer.

NRSP 4466. Clinical Experience VI This practicum builds on the concepts learned in previous courses. The student designs, implements, and evaluates care for individuals and families, groups, and populations across the lifespan in a variety of clinical settings. Registration restricted to students who are accepted to accelerated BSN option. Prerequisites, NRS 2423, NRSP 1422, NRS 2392, NRSP 2391, NRS 2433, NRS 2443, NRSP 2432, NRS 3422, NRS 3343, NRS 3423, NRSP 3433, NRS 3445, NRS 3023, NRSP 3453, NRS 4425, NRS 4443, NRSP 4433, NRS 4362, NRS 4542, and NRSP 4456. Corequisites, NRS 312. Summer.

NRSP 4793. RN-BSN Capstone Course Application of baccalaureate level nursing knowledge and skills in problem identification, analysis, synthesis, plan implementation, and evaluation in a specific area of clinical interest as a transition to the graduate level advanced practice role. Restricted to RN to BSN students only. Prerequisites, NRS 3713, NRS 3723, NRS 4713, NRS 4723, NRS 4743, NRS 4763 and NRS 4733. Fall, Spring, Summer, Demand.

NUTRITIONAL SCIENCE PROGRAM

Nutritional Science (NS)

NS 2203. Basic Human Nutrition Basic concepts of nutrition including factors that have an impact upon nutritional practices. Special attention to age related nutritional needs. Fall, Spring, Summer.

NS 3113. Nutrition Through Life Cycle I Special nutritional needs and interventions for fetal development, pregnant and lactating women, infants, and children are explored. Prerequisites, Admission to the Dietetics Program. Fall.

NS 3123. Nutritional Biochemistry The role of human cellular nutrition, both macro and micro nutrients, and metabolism in relation to health and disease. Prerequisites, Admission to the Dietetics Program. Fall.

NS 3133. Food Service Management Basic administrative skill acquisition, management principles, human resource issues, and fiscal responsibility in food service operations. Prerequisites, Admission to the Dietetics Program. Fall.

NS 3143. Basic Foods This course investigates the basic principles of food preparation methods, meal planning and food safety; includes lecture and lab experiences. Prerequisites, Admission to the Dietetics Program. Fall.

NS 3153. Food and Society Examines the relationship people have with food. The meaning and significance of food in different cultures and the influence of societal factors on food choices. Prerequisites, Admission to the Dietetics Program. Fall.

NS 3223. Nutrition Through Life Cycle II Special nutritional needs and interventions for teens, adults and older age adults. Prerequisites, Admission to the Dietetics Program, NS 3113, NS 3123, NS 3133, NS 3143 and NS 3153. Spring.

NS 3233. Dietetics Administration Prepares students for a career in dietetics administration emphasizing the development of leadership skills. Prerequisites, Admission to the Dietetics Program, NS 3113, NS 3123, NS 3133, NS 3143 and NS 3153. Spring.

NS 3243. Quantity Foods Explores large scale food production including equipment, food purchasing, facility design, and vendor relations. Prerequisites, Admission to the Dietetics Program, NS 3113, NS 3123, NS 3133, NS 3143 and NS 3153. Spring.

NS 3253. Nutrition Assessment An introduction to the Nutrition Care Process and assessment of the nutritional status of individuals including dietary, anthropometrics, laboratory and clinical examination. Prerequisites, Admission to the Dietetics Program, NS 3113, NS 3123, NS 3133, NS 3143 and NS 3153. Spring.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

NS 4413. Medical Nutrition Therapy I Exploration of medical nutrition therapy for various disease states, including nutrition assessment, food-drug interactions and appropriate intervention. Prerequisites, Admission to the Dietetics Program, NS 3223, NS 3243, NS 3253, NS 3233, NSP 3213 and NSP 3326. Fall.

NS 4443. Experimental Foods Investigation of sensory and physical properties of foods through an experimental environment. Prerequisites, Admission to the Dietetics Program, NS 3223, NS 3243, NS 3253, NS 3233, NSP 3213 and NSP 3326. Fall.

NS 4453. Community Nutrition Emphasizing the role of nutritionists in needs assessment, evaluation and planning, and program design for a community nutrition education program. Prerequisites, Admission to the Dietetics Program, NS 3223, NS 3243, NS 3253, NS 3233, NSP 3213 and NSP 3326. Fall.

NS 4523. Medical Nutrition Therapy II Continued exploration and development of skills in providing nutrition intervention and management of patients with more advanced disease states, including enteral and parenteral nutritional support. Prerequisites, Admission to the Dietetics Program, NS 4413, NS 4453, NS 4443, NSP 4433 and STAT 3233. Spring.

NS 4553. Nutrition Counseling Development of communication and counseling skills for nutritional disorders including: obesity, coronary heart disease, diabetes, hypertension, cancer, renal disease, and eating disorders. Prerequisites, Admission to the Dietetics Program, NS 4413, NS 4453, NS 4443, NSP 4433 and STAT 3233. Spring.

NS 4563. Special Topics in Dietetics Addresses current topics and issues in the area of dietetics. Prerequisites, Admission to the Dietetics Program, NS 4413, NS 4453, NS 4443, NSP 4433 and STAT 3233. Spring.

NS 4573. Research Methods in Nutrition Explore various methods, designs and characteristics of nutrition research studies. Prerequisites, Admission to the Dietetics Program, NS 4413, NS 4453, NS 4443, NSP 4433 and STAT 3233. Spring.

Nutritional Science Practicum (NSP)

NSP 3213. Practicum I Supervised practice in foodservice settings which provides a foundation for beginning skills necessary in the practice of dietetics. Students will spend time in area schools and local university foodservice to practice basic management skills. Prerequisites, Admission to the Dietetics Program, NS 3113, NS 3123, NS 3133, NS 3143 and NS 3153. Spring.

NSP 3326. Practicum II Supervised practice in foodservice and community settings. Students will practice basic management skills in area hospitals/nursing homes and implement nutrition interventions in WIC practice settings, as well as gain experience in working with diverse populations. Prerequisites, Admission to the Dietetics Program, NS 3223, NS 3243, NS 3253, NS 3233, NSP 3213. Summer.

NSP 4433. Practicum III Supervised practice in community settings. Students will apply steps in the nutrition care process as they work with clients who have chronic conditions. Rotation sites include extension service, wellness program, home health, geriatric programs. Prerequisites, Admission to the Dietetics Program, NS 3223, NS 3233, NS 3243, NS 3253 and NSP 3213 and NSP 3326. Fall.

NSP 4543. Practicum IV Supervised practice in clinical settings. Students will travel to area hospitals and dialysis units, working with culturally diverse patients who have various chronic conditions. Students will continue to develop skills using the nutrition care process. Prerequisites, Admission to the Dietetics Program, NS 4413, NS 4453, NS 4443, NSP 4433 and STAT 3233. Spring.

NSP 4656. Practicum V Supervised practice in clinical settings. Students will refine clinical skills in area hospital facilities, further developing professional behaviors necessary in the practice of dietetics. Students will participate in culminating staff relief experience near the end of practicum. Prerequisites, Admission to the Dietetics Program, NS 4523, NS 4563, NS 4553, NS 4573, NSP 4543. Summer.

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

DEPARTMENT OF SOCIAL WORK

Social Work (SW)

- SW 1203. Making Connections Social Work** Open to incoming Freshmen only. This course will provide both an introduction to the nature of university education and a general orientation to the functions and resources of the university as a whole. This section of First Year Seminar is a special health professions section and will include a focus on understanding and appreciating social work majors. Fall.
- SW 2203. Introduction to Social Work** Explores the values, knowledge and skill base of empowerment oriented generalist social work practice. Includes historical development and organization of the social welfare system in the United States. Fall, Spring.
- SW 2223. Social Problems** Application of sociological concepts and methods in the analysis of current social problems in the United States, including family and community disorganization, delinquency and crime, mental illness, and intergroup relations. Cross listed as SOC 2223. Fall, Spring, Summer.
- SW 3253. Social Work Practice I Micro Practice** This is the first course in the practice foundation sequence. The focus is empowerment oriented generalist practice with micro systems, individuals. Prerequisites, SW 2203, BIOL 1003, and BIOL 1001, SW 3303, or taken concurrently. Spring.
- SW 3303. Human Behavior and Social Environment I** Physical, psychological, social growth and development, across the life span. For social workers. Prerequisite, SW 2203. Fall.
- SW 3313. Introduction to Child Welfare** Policies and practices in the field of child welfare with emphasis on the needs of children and their families, the major programs designed for them, and issues for future planning. Fall.
- SW 3323. Substance Abuse, Intervention and Treatment** Historical review of drug and alcohol problems, with an analysis of treatment modalities, theories of substance abuse, prevention and education strategies, and social policy implications. Summer, Demand.
- SW 3333. Human Behavior in the Social Environment II** This course is continuation of the HBSE I course. It focuses on the macro aspect of the human behavior in the areas of groups, institutions and organizations. Its purpose is to explore the behavior, influence, and interactions of these entities and their impact on social work practice. Prerequisite, SW 3303. Spring and on demand.
- SW 3343. Child Abuse and Neglect** Survey of theory and research of child abuse and neglect with emphasis on assessment and treatment of these problems. Prerequisite, SW 2203 or permission of the instructor. Spring.
- SW 3353. Social Work with the Aging** Study of the problems of older Americans together with a description of social programs serving the aged, learning social work skills in dealing with individual clients. Prerequisite, SW 2203 or permission of the instructor. Fall.
- SW 3363. Cultural Diversity** Application of social diversity concepts from the Human Behavior and the Social Environment sequence to practice situations will be incorporated into the study of ethical practice of social work with minority populations. Prerequisites, SW 3303 and SW 3333. Fall.
- SW 4203. Crisis Intervention** The process of crisis is examined and basic knowledge, interviewing and counseling skills are taught to work with those in crisis. Demand.
- SW 4213. Introduction to Domestic Violence** Explores the psychological, social, and legal causes/ramifications of domestic violence from micro, mezzo and macro perspectives, focusing on educating the social work student about the theories and principles guiding DV service delivery and crisis response techniques. Registration restricted to junior and senior level undergraduates. Demand.
- SW 4263. Social Work Practice II Mezzo Systems** This is the second course in the practice foundation sequence. The focus is generalist practice with mezzo systems, families and small groups. Prerequisite, SW 3253. Open only to seniors. To be taken concurrently with SW 4263. Fall.

- SW 4273. Field Experience I** Directed study and practice with clients in social welfare agencies. Supervision provided by faculty and host agency. Admission only upon acceptance into the Social Work Program. Prerequisites, Must have completed all general education requirements with an overall GPA of 2.5 and 2.5 in major courses. Must have completed SW 3253. Must be taken concurrently with SW 4263. Fall.
- SW 4283. Field Experience Seminar** Discussion and sharing of problems encountered in agency settings. A combination of lectures by social work practitioners and class discussion to help students integrate theory and practice. Admission only upon approval of instructor. Prerequisite, SW 4263 and SW 4273. To be taken concurrently with SW 4303 and SW 4296. Spring.
- SW 4296. Field Experience II** Application and integration of academic content in an actual working experience. Supervision provided by faculty and host agency. Admission only upon continued acceptance into the Social Work Program. Prerequisite, Completion of all major requirements except SW 4303 and SW 4283, with an overall GPA of 2.5 and 2.5 in major courses. Spring.
- SW 4303. Social Work Practice III: Macro Systems** This is the third course in the practice foundation sequence. The focus is generalist practice with macro systems, organizations and communities, as well as policy practice. Open only to seniors. Prerequisite, SW 4263. To be taken concurrently with SW 4283 and SW 4296. Spring.
- SW 4313. Social Welfare Policy** Analytical evaluation of how social welfare policies are formulated and implemented. Prerequisite, SW 3333. Fall.
- SW 4363. Religion and Spirituality in Social Work Practice** An examination of religious and spiritual beliefs in psychosocial development, the family, social policy, community and society. Demand.
- SW 4373. Social Work and Health Care Services** This course is designed to provide knowledge and understanding of direct social work practice in varied health care settings. Illness, disease, trauma and disability, death and dying are examined from an ecological systems perspective. Issues of diversity and bioethics are emphasized. Demand.
- SW 460V. Special Problems** Individually directed problems in Social Work. Must be arranged with the professor and approved by department chair. Demand.

COLLEGE OF SCIENCES AND MATHEMATICS

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

DEPARTMENT OF BIOLOGICAL SCIENCES

Biology (BIO)

- BIO 1013. Making Connections Biology** Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.
- BIO 1201. Human Anatomy Laboratory** Study of the structure of the human body with emphasis on the muscular, skeletal, nervous, and vascular systems. For Radiologic Technology Science majors only. Special course fees may apply. Two hours per week. It is recommended this course be taken concurrently with BIO 1203. Fall.
- BIO 1203. Human Anatomy** Study of the structure of the human body with emphasis on the muscular, skeletal, nervous, and vascular systems. For Radiologic Technology Science majors only. Three hours per week. Special course fees may apply. It is recommended this course be taken concurrently with BIO 1201. Fall.
- BIO 1211. Human Physiology Laboratory** Study of the function of the human body with emphasis on the muscular, skeletal, nervous, respiratory and vascular systems. For Clinical Laboratory Science associate degree majors only. Two hours per week. Special course fees may apply. To be taken concurrently with BIO 1213. Spring.
- BIO 1213. Human Physiology** Study of the function of the human body with emphasis on the muscular, skeletal, nervous, respiratory and vascular systems. For Clinical Laboratory Science associate degree majors only. Three hours per week. Special course fees may apply. It is recommended that this course be taken concurrently with BIO 1211. Spring.
- BIO 1301. Biology of Animals Laboratory** Two hours per week. Special course fees may apply. It is recommended this lab be taken concurrently with BIO 1303. Fall, Spring, Summer, even. (ACTS#: BIO 1054)
- BIO 1303. Biology of Animals** Fundamentals of modern zoology and a survey of the phyla. Lecture three hours per week. Special course fees may apply. Fall, Spring, Summer, even. (ACTS#: BIOL 1054)
- BIO 1501. Biology of Plants Laboratory** Three hours per week. It is recommended that this lab be taken concurrently with BIO 1503. Special course fees may apply. Fall, Spring, Summer, odd. (ACTS#: BIOL 1034)
- BIO 1503. Biology of Plants** Form, structure, function, and reproduction of plants. Lecture three hours per week. Special course fees may apply. Fall, Spring, Summer, odd. (ACTS#: BIOL 1034)
- BIO 2011. Biology of the Cell Laboratory** Two hours per week. Recommended to be taken concurrently with BIO 2013. Special course fees may apply. Prerequisite, CHEM 1011.
- BIO 2013. Biology of the Cell** An introduction to structures and processes in cells, including cellular evolution, biologically important molecules, organelle structure and function, and cellular energy. Lecture three hours per week. Special course fees may apply. Prerequisite, CHEM 1013. Fall, Spring.

- BIO 2042. Biotechnology in Global Society** An introduction to the world-wide impact of biotechnology, including applications to plants, animals, and microorganisms. Introduction and exploration of basic concepts of genetic engineering, scientific and ethical issues, and public concerns related to biotechnology. Lecture two hours per week. Spring.
- BIO 2101. Microbiology for Nursing and Allied Health Laboratory** Two hours per week. It is recommended this course be taken concurrently with BIO 2103. Special course fee, 10.00. Fall, Spring, Summer. (ACTS#: BIOL 2004)
- BIO 2103. Microbiology for Nursing and Allied Health** Bacteria, viruses, rickettsiae, chlamydiae, molds, yeasts, and protozoans as they relate to human health. Lecture three hours per week. Special course fees may apply. Fall, Spring, Summer. (ACTS#: BIOL 2004)
- BIO 2201. Human Anatomy and Physiology I Laboratory** The behavior of matter with respect to life processes, cells, tissues, functional anatomy of integumentary, skeletal, muscular and nervous systems, cat anatomy, nerve and muscle preparations and recordings. Two hours per week. No prerequisites. Special course fees may apply. It is recommended this course be taken concurrently with BIO 2203. Fall, Spring, Summer. (ACTS#: BIOL 2404)
- BIO 2203. Human Anatomy and Physiology I** Introduction to the biology of atoms, molecules, organelles and cellular functions, tissues, functional anatomy of integumentary, skeletal, muscular and central nervous systems, interaction with external environment. Three hours per week. Special course fees may apply. No prerequisites. Fall, Spring, Summer. (ACTS#: BIOL 2404)
- BIO 2221. Human Anatomy and Physiology II Laboratory** Major sense organs, autonomic nervous system and internal environment, neuro endocrine control mechanisms, respiratory and cardiovascular functions, oxygen and carbon dioxide transport, liver functions, digestive, renal and reproductive processes. Three hours per week. Special course fees may apply. Prerequisites, BIO 2201 and BIO 2203. It is recommended this course be taken concurrently with BIO 2223. Fall, Spring, Summer. (ACTS#: BIOL 2414)
- BIO 2223. Human Anatomy and Physiology II** Major sense organs, autonomic nervous system and internal environment, neuro endocrine control mechanisms, respiratory and cardiovascular functions, oxygen and carbon dioxide transport, liver functions, digestive, renal and reproductive processes. Three hours per week. Special course fees may apply. It is recommended this course be taken concurrently with BIO 2221. Fall, Spring, Summer. (ACTS#: BIOL 2414)
- BIO 3011. Genetics Laboratory** DNA observation, DNA isolation, heredity and variation with applications to bacteria, plants and animals will be investigated in the laboratory. Three hours per week. It is recommended this course be taken concurrently with BIO 3013. Special course fees may apply. Fall, Spring.
- BIO 3013. Genetics** A study of the principles of heredity including Mendelian genetics, population and evolutionary genetics, and molecular genetics with a focus on patterns of human inheritance. Special course fees may apply. Prerequisites, BIO 2013 and BIO 2011. Fall, Spring.
- BIO 3023. Principles of Ecology** An introduction to the study of relationships and interactions of organisms and their environment. Special course fees may apply. Prerequisites, BIO 1501, BIO 1503, BIO 1301, and BIO 1303. Fall, Spring.
- BIO 3033. Evolution** A critical review of evolutionary principles, primarily the neo Darwinian theory, with comparisons to newly emerging theories. Lecture, selected readings, writings, and group discussions. Special course fees may apply. Prerequisites, BIOL 1001 and 1003 or higher. Spring, odd.
- BIO 3051. Try Out the Classroom** Introductory classroom experience led by ASU STEM faculty and area teachers. Topics include Arkansas science/math curriculum, classroom management, laboratory safety, and basic teaching skills. Students will develop and present science/math activities in area classrooms and campus outreach. Prerequisites, 8 BIO credit hours. Fall.
- BIO 3201. Introduction to Medical and Dental Practices** This course introduces students to the diversity of specialty practices within the fields of medicine and dentistry. Prerequisites, BIOL 1013, BIOL 1021, BIO 1203, and BIO 1201. Enrollment limited to students seeking a career in dentistry, medicine, podiatry, or optometry. Graded pass or fail, credit cannot be applied to degree requirements. Special course fees may apply. Spring.

- BIO 3203. Pathophysiology** The physiology of pathological disturbances and inborn errors. Mechanism of disturbance, body compensating efforts, and adaptive responses of humans. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 2223 and BIO 2221, or BIO 3233 and BIO 3231. Fall, Spring.
- BIO 3211. Techniques for Medical Exam Test Taking** This course introduces students to the Medical College Aptitude Test, MCAT. Basic scientific principles and test taking strategies within the fields of medicine will be covered. Prerequisites, enrollment limited to students seeking a career in medicine. Graded pass or fail, credit cannot be applied to degree requirements. Spring.
- BIO 3221. Human Structure and Function I Laboratory** Two hours per week. Special course fees may apply. Special course fees may apply. It is recommended this course be taken concurrently with BIO 3223. Fall.
- BIO 3223. Human Structure and Function I** This course covers the structure and function of the human organism. Topics covered include, cellular function, skeletal, muscular and nervous systems. Special course fees may apply. Prerequisite, BIO 1301, BIO 1303, CHEM 1023 and 1021. Fall.
- BIO 3231. Human Structure and Function II Laboratory** Two hours per week. Special course fees may apply. It is recommended this course be taken concurrently with BIO 3233. Spring.
- BIO 3233. Human Structure and Function II** This course covers the structure and function of the human organism. Topics covered include special senses and endocrine, respiratory, cardiovascular, digestive, urinary, reproductive and integumentary systems. Special course fees may apply. Prerequisites, BIO 3223 and BIO 3221. Spring.
- BIO 3241. Physical Diagnosis** This course provides an introduction to clinical medicine for Pre medical students by teaching the basics of physical examination. Prerequisite, BIO 1303 and BIO 1301. Enrollment limited to Pre medical students. Special course fees may apply. Graded pass or fail, credit cannot be applied to degree requirements. Fall.
- BIO 3251. Introduction to Pathology** This course introduces Pre medical students to presentation, physical findings, etiology and basic treatment of a number of common diseases and conditions. Special course fees may apply. Prerequisite, BIO 1303 and BIO 1301. Enrollment limited to Pre medical students. Graded pass or fail, credit cannot be applied to degree requirements. Spring.
- BIO 3301. General Entomology Laboratory** Two hours per week. It is recommended this course be taken concurrently with BIO 3303. Special course fees may apply. Fall.
- BIO 3302. Comparative Anatomy** Chordate morphology, phylogeny, ontogeny, organology, and homology. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Fall, odd.
- BIO 3303. General Entomology** Identification, structure, and life history of the principal insect orders. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Fall.
- BIO 3311. Economic Entomology Laboratory** Two hours per week. It is recommended this course be taken concurrently with BIO 3313. Special course fees may apply. Spring.
- BIO 3312. Comparative Anatomy Laboratory** Four hours per week. Special course fees may apply. To be taken concurrently with BIO 3302. Fall, odd.
- BIO 3313. Economic Entomology** Life history, distribution, and control of injurious insects. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Spring.
- BIO 3321. Animal Physiology Laboratory** Three hours per week. Special course fees may apply. To be taken concurrently with BIO 3323. Spring.
- BIO 3322. Invertebrate Zoology** Classification and natural history of representative invertebrates. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Spring, even.

- BIO 3323. Animal Physiology** Chemical, physical, and biological functions of systems, including the study of metabolism and inter relationships of organ systems to the entire organism. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301, BIO 1303, CHEM 1021, and 1023. Spring.
- BIO 3332. Invertebrate Zoology Laboratory** Four hours per week. Special course fees may apply. To be taken concurrently with BIO 3322. Spring, even.
- BIO 3501. Wild Flowers of Arkansas** Identification and conservation of wild flowers in Arkansas, plus studying those that are edible, endangered or rare, poisonous, or may be used in flower gardens. Lecture one hour per week. Open to all majors. Special course fees may apply. Summer, odd every 4 years.
- BIO 3511. Wild Flowers of Arkansas Laboratory** Two hours per week. To be taken concurrently with BIO 3501. Special course fees may apply. Summer, odd every 4 years.
- BIO 3541. Plant Pathology Laboratory** Two hours per week. To be taken concurrently with BIO 3542. Special course fees may apply. Spring, odd.
- BIO 3542. Plant Pathology** Nature, cause, and control of diseases of orchard, garden, and field crops. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1501 and BIO 1503. Spring, odd.
- BIO 3553. Economic Botany** Economic plants and their use by man. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1501 and BIO 1503. Summer, even every 4 years.
- BIO 3673. Human Dimensions of Natural Resources** Evolution of human perception of natural resources, sociocultural beliefs and practices of traditional societies, lessons for effective conservation/management plans of marine and terrestrial/freshwater systems, and case studies from around the world. Prerequisites, 2 among: PSY 2013, SOC 2213, POSC 1003, ECON 2333. Fall, Odd.
- BIO 4001. Laboratory Techniques in Electron Microscopy** An introduction to the preparation of biological materials for viewing with the transmission and scanning electron microscope. Emphasis will be placed on preparative techniques that are commonly used in the laboratory. Lecture one hour per week. Special course fees may apply. Prerequisite, eight hours upper-level biology. Instructor permission required. Fall, even.
- BIO 4003. Laboratory Techniques in Electron Microscopy Laboratory** Six hours per week. To be taken concurrently with BIO 4001. Special course fees may apply. Fall, even.
- BIO 4011. Microtechnique** Methods of killing, fixing, staining, and mounting tissues. Lecture one hour per week. Special course fees may apply. Prerequisites, BIO 1501, BIO 1503, CHEM 3103, and CHEM 3101. Fall, odd.
- BIO 4012. Microtechnique Laboratory** Four hours per week. To be taken concurrently with BIO 4011. Special course fees may apply. Fall, odd.
- BIO 4013. Population Genetics** This course will investigate the theories describing the temporal nature of the genetic structure of populations. There will be an emphasis on problem solving applying statistical tools. Intended for students entering the disciplines of systematics, conservation, agriculture, and wildlife and fisheries sciences. Special course fees may apply. Fall, even years.
- BIO 4021. Biological Seminar** Conferences, readings, and reports on material relevant to the biological sciences. Required of all department majors. Open only to biology department majors with 16 hours or more of course work in the subject area. Special course fees may apply. Fall, Spring, Summer.
- BIO 4023. History of Biological Ideas** This course analyzes the history of biological ideas such as evolution, heredity, spontaneous generation, and molecular biology, aimed at a better understanding not only of the historical background of current research but also on how science proceeds. Special course fees may apply. Prerequisites will be at least two of the following courses, BIO 3033, BIO 3023, and BIO 3013. Permission of Instructor required. Fall, odd.

- BIO 4033. Bioinformatics and Applications** Provides a basic understanding of computational methods used in bioinformatics, including hands on training to access and use biological data sources to analyze nucleotide/amino acid sequences and three-dimensional atomic structures of proteins, nucleic acids allowing interpretations of biological processes. Lecture three hours per week. Prerequisite, BIO 3013. Spring.
- BIO 4053. Applications in Biotechnology** A capstone course which focuses on real world applications of biotechnology presented as case studies and utilizing current literature reviews. Medical, agricultural, environmental and industrial biotechnology and their ethical, legal and social implications covered. Prerequisite, BIO 3013. Spring.
- BIO 4063. Biosafety and Ethics in Research** Biosafety in the workplace, including chemical and radiation safety. Examination of moral and ethical issues in the laboratory and in research, including the concepts of transgenics, intellectual property and writing in research. Lecture three hours per week. Prerequisite, BIO 2013. Fall.
- BIO 403V. Special Problems in Biology** Specific area with the topic and mode of inquiry agreed upon by student and instructor. Registration may be repeated with various topics. Registration must be approved by the program director. Special course fees may apply. Demand.
- BIO 404V. Special Topics in Biological Sciences** Topical or technique driven seminar relating to the biological sciences that will lead to the training of students in a body of work, such as newly developed research technique and approach. Number of credit hours will vary. Special course fees may apply. Permission of Instructor required. May be repeated for a total credit of 6 hours. Fall, Spring.
- BIO 4103. Virology** The structure, function, and classification of viruses, and their impact on modern society and the biological world. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 2103 or BIO 3013 or BIO 4104 or BIO 4133. Fall, even.
- BIO 4104. Microbiology** Morphology, physiology, taxonomy and cultivation of bacteria, viruses, fungi, and protozoans with an emphasis on medically relevant bacteria. Relationship of microorganisms to animals, plants, and the environment. Lecture two hours per week and laboratory four hours per week. Prerequisites, CHEM 1023 and BIO 2013 or permission of instructor. Special course fees may apply. Fall, Spring, Summer, even.
- BIO 4111. Immunology Laboratory** Study of classical and current immunology techniques such as ELISA, immuno electrophoresis and Western Blot analysis. Laboratory 3 hours per week. Special course fees may apply. Prerequisites, BIO 2013 and CHEM 1013. Fall.
- BIO 4113. Immunology** Study of the human immune system. Topics include innate and acquired immunity, complement fixation and disorders of the immune system. Lecture 3 hours per week. Special course fees may apply. Prerequisites, BIO 2013 and CHEM 1013. Fall.
- BIO 4123. Cell Signaling** This course will provide an understanding of key concepts about cellular signaling mechanisms, major signaling pathways identified to date, and about the methods used to study these pathways. Three hours per week during spring semester. Special course fees may apply. Prerequisites, BIO 2013 or BIO 4133, or permission of the instructor. Spring, odd.
- BIO 4131. Cell Biology Lab** Two hours per week. To be taken concurrently with BIO 4133. Special course fees may apply. Spring.
- BIO 4133. Cell Biology** Organization and activities of cells, with emphasis on the ultrastructure and function of cellular organelles. Lecture three hours per week. Special course fees may apply. Prerequisites, CHEM 1023 and CHEM 1021. Spring.
- BIO 4143. Pharmacology** The study of drugs and their mechanisms of action at the system, cellular, and molecular levels. Special course fees may apply. Prerequisites, BIO 2203 and BIO 2223, or BIO 3223 and BIO 3233, BIO 4104, and CHEM 4243. Spring, even.
- BIO 4152. Laboratory in BioTechniques I** Laboratory techniques in protein chemistry and analytical techniques. Techniques also include a variety of chromatographic methods, electrophoresis, UV-vis spectroscopy and radiochemistry. Laboratory 4 hours per week. Special course fees may apply. Prerequisite, BIO 3013. Spring.

- BIO 4152. Laboratory in BioTechniques II** Laboratory techniques in DNA/RNA isolation, analysis and applications, including PCR, reverse transcriptase PCR, recombinant DNA and the production of gene expression products. Laboratory 8 hours per week. Special course fees may apply. Prerequisite, BIO 4152.
- BIO 4201. Issues in Human Ecology Laboratory** Two hours per week. To be taken concurrently with BIO 4202. Special course fees may apply. Summer, odd.
- BIO 4202. Issues in Human Ecology** A broad ecological approach demonstrating problems of modern society such as environmental deterioration, hunger, and resource depletion. Lecture two hours per week. Special course fees may apply. Summer, odd.
- BIO 4211. Human Genetics Laboratory** Three hours per week. To be taken concurrently with BIO 4213. Special course fees may apply. Fall, odd.
- BIO 4213. Human Genetics** Current advances in the understanding of the human genome. Lecture three hours per week. Prerequisite, BIO 3013. Special course fees may apply. Fall, odd.
- BIO 4223. Human Endocrinology** Control of physiological processes by hormones. Types of chemical messengers, impact on cells, tissues and organs, and interrelationships of organ systems with respect to hormones will be studied. Important endocrine disorders will also be addressed. Special course fees may apply. Prerequisites, BIO 2013 or CHEM 4243, AND BIO 2223 and BIO 2221 or BIO 3233 and BIO 3231. Spring.
- BIO 4301. Aquatic Entomology** Identification, life histories, and ecology of aquatic arthropods, with emphasis on freshwater insects. For students in wildlife management, fisheries management, aquatic biology, and advanced entomology. Lecture one hour per week. Special course fees may apply. Prerequisites, BIO 3301, BIO 3303, and BIO 3123 or BIO 4371 and BIO 4373. Spring, odd.
- BIO 4302. Aquatic Entomology Laboratory** Four hours per week. Special course fees may apply. To be taken concurrently with BIO 4301. Spring, odd.
- BIO 4303. Forensic Entomology** The life history, ecology and behavior of insects and related arthropods and how they affect the interpretation of potential crime scenes. Special course fees may apply. Prerequisites, BIO 2013 or BIO 1303. Dual listed BIO 5303. Fall, odd.
- BIO 4311. Fishery Biology** Identification, ecology, food habits, management, and behavior of fishes. Lecture one hour per week. Special course fees may apply. Prerequisites, BIO 1303 and BIO 1301. Summer, even.
- BIO 4312. Fishery Biology Laboratory** Four hours per week. To be taken concurrently with BIO 4311. Special course fees may apply. Summer, even.
- BIO 4313. Biospeleology Life in Darkness** This course analyzes the biology of organisms that live in hypogean subterranean environments, particularly in cave, phreatic, and karst habitats. That includes a survey of hypogean organisms, their evolution, ecology, and conservation biology. Special course fees may apply. Course prerequisites, at least two of the following, BIO 3033, BIO 3023, and BIO 3013, and permission of the instructor. Spring, even.
- BIO 4322. Marine Mammals Laboratory** Hands on experience on the classification, anatomy, and behavior of marine mammals. Concurrent enrollment in BIO 4323. Special course fees may apply. Permission of instructor required. Spring, odd.
- BIO 4323. Biology of Marine Mammals** This course analyzes the biology of marine mammals based on their adaptations to the aquatic environment from evolutionary, anatomical, physiological, and ecological perspectives. Special course fees may apply. Prerequisites will be at least two of the following courses, BIO 3312, BIO 4352, BIO 4653, BIO 3023, or BIO 3033. Permission of Instructor required. Spring, odd.
- BIO 4332. Animal Histology** Cells and tissues of the organ systems of vertebrates. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 3302 and BIO 3312. Spring.

- BIO 4333. Marine Biology** Overview of the diverse discipline of marine biology. Emphasis on life history but will incorporate aspects of chemistry, microbiology, molecular biology, and ecology of marine systems. Also includes marine fisheries, conservation biology, aquaculture, pharmacology, resource management, and public policy. Special course fees may apply. Prerequisites, BIO 1303 and BIO 1301 or BIOL 1003 and 1001, and BIO 3023, or permission of instructor. Dual listed BIO 5333. Spring, even.
- BIO 4341. Animal Embryology Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4343. Spring.
- BIO 4342. Animal Histology Laboratory** Four hours per week. Special course fees may apply. To be taken concurrently with BIO 4332. Spring.
- BIO 4343. Animal Embryology** Study of reproduction and development in animals including reproductive systems, gamete formation, fertilization, early cleavage, formation of germ layers, and development of the organ systems. Lecture three hours per week. Special course fees may apply. To be taken concurrently with BIO 4341. Prerequisites, BIO 1301 and BIO 1303. Spring.
- BIO 4351. Mammology Laboratory** Three hours per week. Special course fees may apply. To be taken concurrently with BIO 4352. Fall, even.
- BIO 4352. Mammology** Classification, distribution, structure, ecology, adaptations, and economic importance of mammals. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Fall, even.
- BIO 4353. Field Techniques for Marine Mammals** Field experience in describing and analyzing marine behavior of dolphins and other marine mammals. Special course fees may apply. Permission of Instructor required. Summer, odd.
- BIO 4361. Mammalian Neurobiology Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4363. Fall, odd.
- BIO 4362. Applied Aquaculture** Field course in which principles of aquaculture are applied within several public and private enterprises. Intended for the student interested in wildlife, fisheries biology, and agriculture. Special course fees may apply. Prerequisites, BIO 4311 and BIO 4312. Summer.
- BIO 4363. Mammalian Neurobiology** A detailed study of the mammalian nervous system with particular emphasis on morphological aspects. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303, or BIO 2223 and BIO 2221, or permission of instructor. Fall, odd.
- BIO 4371. Animal Ecology Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4373. Fall, odd.
- BIO 4372. Applied Fisheries** Field course in which principles are applied within several fisheries management settings. Intended for the Wildlife Ecology and Management major. Special course fees may apply. Prerequisite, BIO 4311. Summer.
- BIO 4373. Animal Ecology** The relationship of animals to their chemical, physical, and biological environment, and the distribution of animal life. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 3023. Fall, odd.
- BIO 4382. Parasitology** Parasites of vertebrates and plants, with emphasis on protozoan and helminth parasites of man and domestic animals. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Spring.
- BIO 4392. Parasitology Laboratory** Four hours per week. Special course fees may apply. To be taken concurrently with BIO 4382. Spring.
- BIO 4401. Ichthyology Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4402. Fall, even.
- BIO 4402. Ichthyology** Taxonomy, distribution, natural history, and economic importance of fishes, with emphasis on Arkansas species. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Fall, even.

- BIO 4403. Comparative Vertebrate Reproduction** This combined lecture and lab course surveys major events in the vertebrate reproductive cycles and patterns. Special course fees may apply. Prerequisites, BIO 3231 and BIO 3233, or BIO 3323 and 3321. Dual Listed BIO 5403. Fall even.
- BIO 4411. Herpetology Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4412. Spring, even.
- BIO 4412. Herpetology** Collection, identification, classification, distribution, economic importance, and life histories of amphibians and reptiles, with emphasis on Arkansas species. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1301 and 1303. Spring, even.
- BIO 4413. Wildlife Program Internship** Participation in a professional wildlife educational, management or research program activity. Internship is arranged by the student and may be a volunteer or paid position. Entails a minimum of 160 work hours. Special course fees may apply. Must be approved by advisor or chair. Fall, Spring, Summer.
- BIO 4421. Ornithology Laboratory** Three hours per week. Special course fees may apply. To be taken concurrently with BIO 4423. Spring, even.
- BIO 4423. Ornithology** Morphology, physiology, taxonomy, behavior, ecology, natural history, zoogeography, and evolution of birds. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Spring, even.
- BIO 4433. Field Experience in Marine Environments** Hands on experience with living and non living components of environments. Emphasis on marine organisms and habitats but will incorporate human interactions associated with marine environments. Course is comprised of an intensive 12 day, 10 hours a day, field trip to an appropriate marine environment. Special course fees may apply. Prerequisites, BIO 4333, or BIOL 1003 and BIOL 1001, or permission of instructor.
- BIO 4513. Plant Physiology** General principles of conduction, cellular reactions, respiration, growth, photosynthesis, movement, hormones, and metabolism in plants. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1501, BIO 1503, and CHEM 2064 or 3103 and 3101. Spring, even.
- BIO 4521. Wetland Plant Ecology Laboratory** Two hours per week. To be taken concurrently with BIO 4522. Special course fees may apply. Spring, odd.
- BIO 4522. Wetland Plant Ecology** A study of plant responses to environmental factors during germination, growth, reproduction, and dormancy. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 3023 or permission of professor or chair. Spring, odd.
- BIO 4541. Mycology Laboratory** Two hours per week. To be taken concurrently with BIO 4542. Special course fees may apply. Fall, even every 4 years. Fall, odd.
- BIO 4542. Mycology** Morphology, cytology, genetics, and physiology of fungi. Lecture two hours per week. Four hours per week. To be taken concurrently with BIO 4541. Special course fees may apply. Fall, odd.
- BIO 4551. Medical Mycology Laboratory** Two hours per week. To be taken concurrently with BIO 4552. Special course fees may apply. Fall, even.
- BIO 4552. Medical Mycology** Cutaneous, systemic, and opportunistic fungus diseases mycoses of man and other animals. Lecture two hours per week. Special course fees may apply. Prerequisites, BIO 1501 and BIO 1503. Fall, even.
- BIO 4601. Limnology Laboratory** Two hours per week. To be taken concurrently with BIO 4603. Special course fees may apply. Fall, odd.
- BIO 4603. Limnology** Physicochemical conditions of fresh water, and their effects on aquatic life, including plankton analysis and bottom fauna studies. Lecture three hours per week. Special course fees may apply. Prerequisite, BIO 1301 and BIO 1303. Fall, odd.
- BIO 4611. Radiation Safety** Theory and techniques for dealing with radiation and radioactive materials. Required for students wishing to use radioactive materials on campus. Permission of Instructor required. Special course fees may apply. Demand.

- BIO 4612. Legal Aspects of Environmental Management** Policy, law and regulations relating to society use, management and protection of natural resources. The course will present the differences and similarities between environmental regulation and previous social regulation, and examine the logic behind current regulatory programs. Special course fees may apply. Prerequisite, BIOL 1003 and BIOL 1001 or equivalent. Lecture two hours per week. Spring, even.
- BIO 4613. Conservation Biology** Study of global and local biological resources, including the diversity of life, the value of biodiversity, the importance of diversity to humans and human cultures, and interdisciplinary strategies to conserve biological resources. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 3023 or permission of instructor. Spring, odd.
- BIO 4621. Environmental Microbiology Laboratory** Laboratory and field investigation into the role of microbes in the environment. Two hours per week. To be taken concurrently with BIO 4623. Special course fees may apply. Spring, odd.
- BIO 4623. Environmental Microbiology** Study of the physiology and diversity of microorganisms and their role in cycling of nutrients and mineralization of pollutants in the world. Special course fees may apply. Prerequisites, CHEM 1023 and BIO 2013, or BIO 4104, or BIO 4133. Spring, odd.
- BIO 4633. Environmental Toxicology Mechanisms and Impacts** Understanding the basic principles behind the study of impacts and the mechanisms of physiological disturbances associated with environmental toxicant exposure to natural systems. Prerequisites, BIO 4133 and BIO 4131, or CHEM 4243 or permission of instructor. Lecture three hours per week. Special course fees may apply. Fall, even.
- BIO 4641. Environmental Biology Laboratory** Field and laboratory exposure to ecological, economic and sociological aspects of management of water, soil and air resources. Content will vary based on current topics of importance in the field of environmental science. Laboratory three hours per week. Prerequisites, BIO 3023 or BIO 4373, BIO 4633 or permission of instructor. To be taken concurrently with BIO 4643. Special course fees may apply. Fall, odd.
- BIO 4643. Environmental Biology** Exposure to ecological, economic and sociological aspects of management of water, soil and air resources. Content will vary based on current topics of importance in the field of environmental biology. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 3023 or BIO 4373, BIO 4633, or permission of instructor. Fall, odd.
- BIO 4651. Wildlife Management Laboratory** Two hours per week. Special course fees may apply. To be taken concurrently with BIO 4653. Fall, even.
- BIO 4653. Wildlife Management** The ecology and management of wildlife species and their environment, with emphasis on fish, waterfowl, upland game birds, and mammals. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Fall, even.
- BIO 4661. Wildlife Management Investigational Techniques Laboratory** Three hours per week. Special course fees may apply. To be taken concurrently with BIO 4661. Spring, odd.
- BIO 4663. Wildlife Management Investigational Techniques** Identification of wildlife problems, project design, interpretation and construction of wildlife maps, food habit and census techniques, wildlife populations and habitat analyses, predictive population dynamics, and introduction to modeling and wildlife decision making procedures. Lecture three hours per week. Special course fees may apply. Prerequisites, BIO 1301 and BIO 1303. Spring, odd.
- BIO 4673. Instruction to GIS for Natural Resources** Introduction to the principles, theory, and practice of contemporary Geographic Information Systems for Natural Resources. Combination of lecture, reading, and computer based activity centered around natural resources will be used to provide background and understanding. Special course fees may apply. Prerequisites, BIO 3023 or consent of instructor. Fall.
- BIO 4704. Plant Systematics** A study of the systematics, nomenclature, morphology, and identification terminology for vascular plants with an emphasis on dichotomous key-based identification of flowering plants of Arkansas. Special course fees may apply. Prerequisites, BIO 1501 and BIO 1503. Spring.

- BIO 4714. Dendrology** A study of the systematics, nomenclature, morphology, phenology, geographic range, and natural history of woody plants with an emphasis on field recognition throughout the year. Dual listed with BIO 5714. Special course fees may apply. Prerequisites, BIO 1501 and BIO 1503. Fall, even.

Biology (BIOL)

- BIOL 1001. Biological Science Laboratory** Two hours per week. It is recommended this course be taken concurrently with BIOL 1003. Special course fees may apply. Fall, Spring, Summer. (ACTS#: BIOL 1004, BIOL 1024)
- BIOL 1003. Biological Science** The major characteristics and processes of life emphasizing the human organism. Promotes understanding of diversity and unity among living organisms with focus on ecological interactions and responsibilities of people within their social and natural environment. Lecture three hours per week. Special course fees may apply. It is recommended that this course be taken concurrently with BIOL 1001. Fall, Spring, Summer. (ACTS#: BIOL 1004)
- BIOL 1033. Biology of Sex** Biological basis of sex and reproduction with an emphasis on humans. Course will provide students with a basic functional understanding of human systems, which will lead to informed decisions regarding sexual and reproductive health. Lecture three hours per week. Special course fees may apply. Prerequisite, None. It is recommended this course be taken concurrently with BIOL 1001. Spring.
- BIOL 1043. Plants and People Shaping the Future** Significance of plants and plant products in human life. Course content centers around plants as representative biological organisms, and their role in shaping human society. Lecture three hours per week. It is recommended this course be taken concurrently with BIOL 1001. Special course fees may apply. Fall, Spring. (ACTS#: BIOL 1024)
- BIOL 1063. People and the Environment** Major environmental issues facing our society will be covered to equip students to become part of the solution to many environmental challenges confronting us this century. Lecture three hours per week. It is recommended this course be taken concurrently with BIOL 1001. Special course fees may apply. Fall, Spring.

Method and Material Teaching Science (EDSC)

- EDSC 4593. Methods and Materials Teaching Science in the Secondary School** Philosophical bases, teaching techniques, curriculum development, classroom management, facility resources, and equipment are emphasized. Must be admitted to the Teacher Education Program. Fall, Spring.

Teaching Internship (TIBI)

- TIBI 4825. Biology Teaching Internship in the Secondary School**
Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIBI 4826. Biology Teaching Internship in the Secondary School**
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

DEPARTMENT OF CHEMISTRY AND PHYSICS

Chemistry (CHEM)

- CHEM 1003. Introduction to Chemistry** Fundamentals of chemical terms and applications to laboratory studies. Extensive drills on calculations and use of hand held calculator in problem solving. Recommended for those with no prior study of chemistry. Special course fees may apply. Corequisite or prerequisite, MATH 0003, MATH 0013, or MATH 1023. Fall, Spring.

CHEM 1011. General Chemistry I Laboratory Three hours per week. Special course fees may apply. Credit for this course is contingent upon earlier or simultaneous completion of CHEM 1013. Fall, Spring, Summer. (ACTS#: CHEM 1414)

CHEM 1013. General Chemistry I Study of chemical reactions and equations, periodic relationships, the gaseous state, and the fundamentals of atomic theory, quantum theory, electronic structure, chemical bonding, stoichiometry and thermochemistry. Special course fees may apply. Prerequisite, MATH 1023 or ACT composite score of 23 or higher. Prior completion of CHEM 1003 or high school chemistry strongly recommended. Fall, Spring, Summer. (ACTS#: CHEM 1414)

CHEM 1021. General Chemistry II Laboratory Three hours per week. Corequisite or prerequisite, CHEM 1023. Prerequisite, CHEM 1011. Credit for this course is contingent upon earlier or simultaneous completion of CHEM 1023. Fall, Spring, Summer. (ACTS#: CHEM 1424)

CHEM 1023. General Chemistry II Study of liquids, solids, solutions and the fundamentals of chemical kinetics, chemical equilibria, acids and bases, thermodynamics, and electrochemistry. Special course fees may apply. Prerequisites, CHEM 1011 and CHEM 1013. Fall, Spring, Summer. (ACTS#: CHEM 1424)

CHEM 1031. Introduction to Organic and Biochemistry Laboratory Three hours per week. Not open to chemistry majors. Special course fees may apply. Prerequisites, CHEM 1011 and CHEM 1013. Corequisite, CHEM 1033. Demand.

CHEM 1033. Introduction to Organic and Biochemistry Emphasis on applications to body functions. Lecture three hours, laboratory three hours. Not open to chemistry majors. Special course fees may apply. Prerequisite, CHEM 1011 and CHEM 1013. Demand.

CHEM 1041. Fundamental Concepts of Chemistry Laboratory Special course fees apply. Prerequisite or corequisite of CHEM 1043. Fall, Summer.

CHEM 1043. Fundamental Concepts of Chemistry A one semester chemistry survey course introducing selected fundamental concepts including dimensional analysis, mole concept, atomic and molecular structure, nomenclature, chemical reactions, thermochemistry, intermolecular interactions, gases, mixtures, kinetics, equilibrium and acid base chemistry. Fall, Summer.

CHEM 1052. Fundamental Concepts of Organic and Biochemistry A continuation of CHEM 1043 with a focus on the role of chemistry in human body functions. Prerequisites CHEM 1043 and CHEM 1041. Spring, Summer.

CHEM 2002. Computers in Chemistry Introduction to computer software and common practices used in the analysis and presentation of scientific data. Corequisite or prerequisite, CHEM 1023 and CHEM 1021. Spring.

CHEM 2004. Descriptive Inorganic Chemistry Systematic study of the chemistry of the elements with problem solving using microcomputers. Lecture four hours per week. Special course fees may apply. Prerequisite, CHEM 1021 and 1023. Fall.

CHEM 2393. Special Problems Selected special or current topics of interest to faculty and students that require no prerequisite courses. This course is appropriate for a general student audience. See individual semester schedules for more information about each offering. Demand.

CHEM 3051. Try Out the Classroom Introductory classroom experience led by ASU STEM faculty and area teachers. Topics include Arkansas science/math curriculum, classroom management, laboratory safety, and basic teaching skills. Students will develop and present science/math activities in area classrooms and campus outreach. Prerequisites, 8 CHEM credit hours. Fall.

CHEM 3054. Quantitative Analysis Emphasizes quantitative and critical analysis based on standard analytical techniques and instrumentation. Topics include statistics, material equilibria, basic skills in instrumentation and electroanalytical methods. Lecture two hours, laboratory six hours per week. Special course fees may apply. Prerequisites, MATH 2204 or 2194, CHEM 1021 and 1023, or permission of Instructor. Spring.

CHEM 3101. Organic Chemistry I Laboratory Laboratory skills illustrating the principles of Organic Chemistry I. Three hours per week. Special course fees may apply. Corequisite or prerequisite, CHEM 3103. Credit for this course is contingent upon earlier or simultaneous completion of CHEM 3103. Fall, Spring, Summer.

CHEM 3103. Organic Chemistry I Study of the nomenclature, bonding, preparations and reactions of compounds of carbon, including aliphatic and aromatic hydrocarbons, haloalkanes, alcohols, and ethers. Lecture three hours per week. Special course fees may apply. Prerequisites, CHEM 1023 and CHEM 1021. Fall, Spring, Summer.

CHEM 3111. Organic Chemistry II Laboratory Laboratory skills illustrating the principles of Organic Chemistry II. Three hours per week. Special course fees may apply. Prerequisite, CHEM 3101. Credit for this course is contingent upon earlier or simultaneous completion of CHEM 3113. Fall, Spring, Summer.

CHEM 3113. Organic Chemistry II Continuation of Organic Chemistry I, including the study of phenols, aldehydes, ketones, carboxylic acids and their derivatives, amines, proteins, carbohydrates, lipids and nucleic acids. Spectroscopic methods of structure determination are also presented. Lecture three hours per week. Special course fees may apply. Prerequisites, CHEM 3103 and CHEM 3103. Fall, Spring, Summer.

CHEM 3124. Physical Chemistry I Systematic, rigorous development of fundamental chemical concepts presented in a unified lecture and laboratory format. Special course fees may apply. Prerequisites, PHYS 2044 or PHYS 2064, and MATH 3254. Fall.

CHEM 3134. Physical Chemistry II Systematic, rigorous development of fundamental chemical concepts presented in a unified lecture and laboratory format. Prerequisite, CHEM 3124. Spring.

CHEM 3154. Survey of Physical Chemistry A one semester course exploring the systematic development of fundamental chemical concepts. Special course fees may apply. Prerequisites, PHYS 2044 or PHYS 2064, MATH 2204 or MATH 2194, CHEM 3113. Spring.

CHEM 4043. Environmental Chemistry An overview of the chemistry of natural waters, soils, and the atmosphere. Emphasis will be on the chemical and biological agents which affect the quality of the environment. The most commonly used analytical techniques and quality assurance and control procedures will be covered. Special course fees may apply. Prerequisites, CHEM 3103 and CHEM 3101. Fall, even.

CHEM 4053. Geochemistry An overview of the chemistry of terrestrial materials. Emphasis will be on the chemical processes which formed and have changed the Earth. Special course fees may apply. Prerequisite, CHEM 3133. Spring, even.

CHEM 4204. Inorganic Chemistry Includes the recent concepts of bonding and molecular structure as well as some of the less common chemistry of the elements. Lecture three hours, laboratory three hours per week. Special course fees may apply. Prerequisites, CHEM 3124. Spring.

CHEM 4224. Instrumentation Application and operational theories of modern instruments. Laboratory includes use of gas chromatography, infrared, ultraviolet visible and atomic absorption, spectroscopy, and electrochemical techniques. Lecture two hours, laboratory six hours per week. Special course fees may apply. Prerequisites, CHEM 3054, CHEM 3124. Fall.

CHEM 4241. Biochemistry Laboratory Experiments aimed to acquaint the student with problems and more important methods of biochemical research. Laboratory three hours per week. Special course fees may apply. Corequisite, CHEM 4243. Fall.

CHEM 4243. Biochemistry Presentation of the important areas of modern biochemistry and a description of methods commonly employed in biochemical research. Lecture three hours per week. Special course fees may apply. Prerequisites, CHEM 3113 and 3111. Fall, Spring, Summer.

CHEM 4254. Fundamentals of Mass Spectrometry Special topics in spectrochemical analysis. Atomic and molecular spectrometry, surface analytical methods, and their applications to forensic, environmental, atmospheric, geochemical, and bioanalytical problems. Integrated lecture and laboratory format. Special course fees may apply. Prerequisite, CHEM 3054 and CHEM 4243. Demand.

CHEM 427V. Research in Chemistry Directed study in some specialized phase of chemistry designed to provide experience in independent investigations. Special course fees may apply. Prerequisite, permission of the Chemistry Departments Independent Studies Committee. Fall, Spring, Summer.

CHEM 4281. Chemistry Seminar Preparation and presentation of a professional quality computer based seminar focusing on research completed during Research in Chemistry, CHEM 427V. Chemistry majors are required to take this course in their senior year. Prerequisite, third hour of CHEM 427V. Fall, Spring.

CHEM 4343. Pharmacology The study of drugs and their mechanisms of action at the system, cellular, and molecular levels. Special course fees may apply. Prerequisites, BIO 2223 or BIO 3233, BIO 4014, and CHEM 4243. Spring.

CHEM 4353. Advanced Analytical Chemistry A discussion of principles and methods of application of analytical chemistry to problems of analysis and the significance of data. Special course fees may apply. Prerequisite, CHEM 3054. Demand.

CHEM 4393. Special Problems Selected special or current topics of interest to faculty and students that require prerequisite coursework. See individual semester schedules for more information about each offering. Registration restricted by permission of instructor. Demand.

CHEM 4443. Advanced Biochemistry A continuation of CHEM 4243 biochemistry with a focus on anabolic metabolism and bioinformation processes vital in biological systems and current research in biochemistry and medical correlates. Dual listed as CHEM 5243. Prerequisite, CHEM 4243. Spring.

Forensic Science (FOSC)

FOSC 2013. Forensic Science Survey An overview of forensic science including techniques in crime scene investigation, physical evidence collection and analysis, and expert testimony. Special course fees may apply. Fall.

FOSC 2113. Forensic Science Professional Practice Introduction of ethics and methods of forensic science from the perspective of practicing professionals including case studies and seminars. Special course fees may apply. Prerequisite, FOSC 2013. Spring.

FOSC 3853. Computer Forensics Students are introduced to information systems role in forensic computing. Emphasis will be on the retrieval, preservation, and analysis of computer data which might be used in legal cases. Special course fees may apply. Prerequisites, CRIM 2253, FOSC 2013. Fall.

FOSC 411V. Practical Training in Forensic Science Directed study or crime laboratory internship in some specialized field of forensic science designed to provide experience and practical training in forensic chemistry and forensic biology. Special course fees may apply. Special course fees may apply. Prerequisite, permission of the Forensic Science Internship Coordinator. Fall, Spring, Summer.

FOSC 427V. Special Problems in Forensic Science Topical or technique driven seminar relating to the forensic sciences that will lead to the training of students in a body of work, such as newly developed research technique and approach. Number of credit hours will vary. May be taken for a maximum of 3 hours. Special course fees may apply. Prerequisite, Permission of the instructor. Fall, Spring, Summer.

Geology (GEOL)

GEOL 1001. Environmental Geology Laboratory Two hours per week. Laboratory exercises in environmental aspects of the geosciences. To be taken concurrently with GEOL 1003. Fall, Spring. (ACTS#: GEOL 1124)

GEOL 1003. Environmental Geology A survey of fundamental geologic processes and associated hazards earthquakes, volcanic eruptions, floods, etc. and the interactions of humans with the environment. Lecture three hours. Prerequisite, MATH 0013 or ACT mathematics score of 16. Fall, Spring. (ACTS#: GEOL 1124)

GEOL 1014. Historical Geology History and sequence of development of the earth and its inhabitants, including an introduction to the taxonomy and morphology of common fossils from plant and animal kingdoms. Lecture three hours, laboratory two hours per week. Demand.

GEOL 4331. Hydrogeology Laboratory Laboratory associated with GEOL 4333. Three hours per week. Corequisite, GEOL 4333. Demand.

GEOL 4333. Hydrogeology A discussion of the hydrologic cycle with emphasis on groundwater occurrence and flow. Topics addressed include precipitation and groundwater recharge, aquifer characteristics, well production and well tests, regional flow, groundwater contamination and monitoring, and groundwater geology and geography. Prerequisites, CHEM 1021, CHEM 1023, GEOL 1001 and GEOL 1003. Corequisite, GEOL 4331. Demand.

General Science (GSP)

GSP 3203. Science for Teachers Gives early childhood and middle school teachers an overall view of the role of science in the development of modern civilization, and enables teachers to use content knowledge to properly direct the learning activities of pupils in science classes. Special course fees may apply. Fulfillment of the General Education Biological and Physical Science courses requirement. Fall, Spring, Summer.

Physical Science (PHSC)

PHSC 1003. Making Connections Chemistry and Physics Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.

PHSC 1014. Energy and the Environment A hybrid lecture and lab course that studies energy. What it is, how it is produced and used, and its effect on the environment. Special attention will be paid to individual energy usage and economical methods by which to reduce usage. Prerequisite, MATH 0013 or ACT Mathematics core of 16. Fall, Spring.

PHSC 1201. Physical Science Laboratory Two hours per week. Special course fees may apply. To be taken concurrently with PHSC 1203. Fall, Spring, Summer. (ACTS#: PHSC 1004)

PHSC 1203. Physical Science The relationship of man to his physical world, content of the course is centered on the development of our modern concepts about matter and energy and how this development is related to the social order of which man is a part. Lecture three hours. This course does not satisfy science certification for secondary school teachers. It is not accepted as a major requirement in any natural science field. Special course fees may apply. To be taken concurrently with PHSC 1201. Prerequisite, MATH 0013 or ACT Mathematics score of 16. Fall, Spring, Summer. (ACTS#: PHSC 1004)

Physics (PHYS)

PHYS 1101. Introduction to Space Science Laboratory Two hours per week. Special course fees may apply. To be taken concurrently with PHYS 1103. Demand. (ACTS#: PHSC 1204)

PHYS 1103. Introduction to Space Science A survey of the basic principles of science with emphasis on physics through their application to study about our place in the cosmos. Lecture three hours. This course will meet the general education requirements for physical science if taken with PHYS 1101. Special course fees may apply. Prerequisite, MATH 0013 or ACT Math score of 16. Demand. (ACTS#: PHSC 1204)

PHYS 2034. University Physics I Basic principles of mechanics, thermodynamics, materials and wave motion utilizing calculus with multimedia computers, at each station, in a unified lecture and lab format. 6 hours per week. Special course fees may apply. This course may be substituted for PHYS 2054. This course will meet the General Education Requirements for Physical Science. Corequisite, MATH 2204. Fall, Spring. (ACTS#: PHYS 2034)

PHYS 2044. University Physics II Continuation of PHYS 2034 covering the basic principles of electricity, magnetism, waves, optics and topics from modern physics utilizing calculus with multimedia computers, at each station, in a unified lecture and lab format. 6 hours per week. Special course fees may apply. Prerequisite, Physics 2034 or 2054. This course may be substituted for PHYS 2064 or for PHYS 2083 and 2081. Corequisite, MATH 2214. Fall, Spring. (ACTS#: PHYS 2044)

PHYS 2054. General Physics I The essential of mechanics, heat, materials and simple harmonic motion in a unified lecture and laboratory format utilizing multimedia computers at each student station. Six hours per week. This course will meet the General Education Program requirements for physical science. PHYS 2034 may be substituted. Special course fees may apply. Prerequisite, MATH 1033 or higher. Fall, Spring, Summer. (ACTS#: PHYS 2014)

PHYS 2064. General Physics II Continuation of PHYS 2054, the essentials of electricity, magnetism, wave motion, light and modern physics in a unified lecture and laboratory format utilizing multimedia computers at each student station. Six hours per week. PHYS 2044 may be substituted for this course. Special course fees may apply. Prerequisite, PHYS 2054 or 2034. Fall, Spring, Summer. (ACTS#: PHYS 2024)

PHYS 2071. Fundamental Physics I Laboratory Two hours per week. Special course fees may apply. Credit for this course is contingent upon earlier or simultaneous completion of PHYS 2073. Demand.

PHYS 2073. Fundamental Physics I Basic principles of mechanics, special relativity, thermodynamics, and wave motion utilizing calculus. Lecture three hours per week. Special course fees may apply. Students enrolling in this course should enroll in Laboratory for Fundamental Physics I. Corequisite, MATH 2204. Demand.

PHYS 2081. Fundamental Physics II Laboratory Two hours per week. Special course fees may apply. Prerequisites, PHYS 2071 and 2073. Credit for this course is contingent upon earlier or simultaneous completion of PHYS 2083. Demand.

PHYS 2083. Fundamental Physics II Continuation of PHYS 2073. Covering electricity, magnetism, optics, and modern physics. Lecture three hours per week. Special course fees may apply. Students enrolling in this course should enroll in Laboratory for Fundamental Physics II. Corequisite, MATH 2214. Prerequisites, PHYS 2071 and 2073. Demand.

PHYS 2133. Survey of Physics for the Health Professions A survey for introductory mechanics, waves, electricity, magnetism, optics and modern physics with applications for students of the health professions. Special course fees may apply. Fall.

PHYS 2393. Special Topics Selected special or current topics of interest to faculty and students that require no prerequisite courses. This course is appropriate for a general student audience. See individual semester schedules for more information about each offering. Demand.

PHYS 3043. Atmospheric Dynamics A study of the physical dynamics of the atmosphere and the oceans and the interactions between the two. Topics to be discussed include basic atmospheric and geophysical fluid dynamics, An integrated laboratory component will have students build analyze the local atmosphere. Prerequisite, PHYS 2034 or 2054. Spring.

PHYS 3052. Relativity Quantitative introduction to the special theory of relativity with a brief qualitative introduction to general relativity. Special course fees may apply. Prerequisites, PHYS 2044 or 2064 or PHYS 2081 and 2083. Demand.

PHYS 3103. Thermal Physics The first and second laws of thermodynamics, the kinetic theory of gases, and an introduction to statistical mechanics. Lecture three hours per week. Special course fees may apply. Corequisite, MATH 3254. Prerequisites, PHYS 2044 or 2064. Spring, even.

PHYS 3133. Astronomy Theories of the origin, development, present state, and future of the universe, with special emphasis on the place of astronomy in mans cultural and scientific development. Special course fees may apply. Demand.

PHYS 3153. Mechanics Particle dynamics in inertial and accelerated reference frames. Newtons law of gravitation, orbit theory, and elementary rigid body dynamics. Lecture three hours per week. Special course fees may apply. Prerequisites, MATH 2214 and PHYS 2044. Fall.

PHYS 3203. Electromagnetic Theory Electrostatics, electric and magnetic properties of materials. Amperes and Faradays laws, and Maxwells equations. Lecture three hours per week. Special course fees may apply. Prerequisites, MATH 3254 and PHYS 2044. Spring.

PHYS 3253. Optics Geometrical optics and physical optics, including interference, diffraction, dispersion, absorption, and polarization of light. Lecture three hours per week. Special course fees may apply. Prerequisites, MATH 2214 and PHYS 2044. Spring, odd.

PHYS 3272. Physical Instrumentation I Design and use of physical instruments, including data reduction. Laboratory four hours per week. Special course fees may apply. Prerequisites, PHYS 2044. Fall, odd.

PHYS 3282. Physical Instrumentation II A continuation of PHYS 3272, including advanced data reduction techniques. Laboratory four hours per week. Special course fees may apply. Prerequisites, PHYS 2044. Spring, even.

PHYS 3303. Modern Physics An elementary study of the atomic nature of matter and nuclear structure of the atom. Lecture three hours per week. Special course fees may apply. Prerequisites, MATH 2214, and PHYS 2044. Fall.

PHYS 4353. Mathematical Physics The mathematical aspects of classical physics including Newtons laws, Lagrangian and Hamiltonian dynamics, Electrodynamics and Relativity. Lecture three hours per week. Special course fees may apply. Prerequisites, PHYS 3303 and MATH 3254. Fall, even.

PHYS 4393. Special Topics Selected special or current topics of interest to faculty and students that require prerequisite coursework. See individual semester schedules for more information about each offering. Registration restricted by permission of instructor. Demand.

PHYS 4403. Nuclear and Particle Physics Introduction to the structure of the nucleus, nuclear scattering and decay processes, mesons, nucleons, and quarks. Lecture three hours per week. Special course fees may apply. Prerequisite, PHYS 3303. Spring, odd.

PHYS 4432. Advanced Physics Laboratory I Experiments in classical and modern physics. Laboratory four hours per week. Special course fees may apply. Prerequisites, PHYS 2044. Fall, even.

PHYS 4442. Advanced Physics Laboratory II Continuation of PHYS 4432, including individual student projects. Special course fees may apply. Laboratory four hours per week. Prerequisite, PHYS 2044. Spring, odd.

PHYS 4463. Advanced Mechanics The Lagrangian and Hamiltonian formulations, rigid body mechanics, and special relativity. Special course fees may apply. Prerequisite, PHYS 3153. Demand.

PHYS 4513. Advanced Electromagnetic Theory Maxwells equations as applied to waveguides, radiation, and wave propagation in various media. Lecture three hours per week. Special course fees may apply. Prerequisite, PHYS 3203. Demand.

PHYS 4533. Solid State Physics Introductory study of the structure and physical properties of crystalline solids, including x-ray diffraction, specific heats, free electron theory, and band approximation. Lecture three hours per week. Special course fees may apply. Prerequisite, 20 hours of physics. Demand.

PHYS 4553. Principles of Quantum Mechanics Solutions of the Schrodinger wave equation, including the harmonic oscillator, the hydrogen atom, and perturbation theory, and associated topics. Lecture three hours per week. Special course fees may apply. Prerequisite, 20 hours of physics. Spring, even.

PHYS 4571. Physics Seminar Prerequisite, Fourteen hours of physics. Special course fees may apply. Demand.

PHYS 459V. Research in Physics Prerequisite, Fourteen hours of physics. Special course fees may apply. Demand.

PHYS 4693. Research in Physics-Capstone Students will conduct research with a physics faculty member, write a paper and present a talk on their research, and take an exit exam. Physics majors are required to take this course in their senior year. Special course fees may apply. Prerequisite, Twenty hours of Physics. Fall, Spring.

General Science (SCI)

SCI 3003. Science in the Cinema A study of the portrayal of science and scientists in the cinema throughout the last century. Students will study films and research scientific literature to investigate the accuracy of these portrayals and their effect on society. Prerequisite, ENG 1013. Fall, Spring.

Teaching Internship (TI__)

TICH 4825. Chemistry Teaching Internship in the Secondary School
Ten semester hours. Full semester teaching internship. Fall, Spring.

TICH 4826. Chemistry Teaching Internship in the Secondary School
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

TIPH 4825. Physics Teaching Internship in the Secondary School
Ten semester hours. Full semester teaching internship. Fall, Spring.

TIPH 4826. Physics Teaching Internship in the Secondary School
Twelve semester hours. Full semester of teaching internship. Fall, Spring.

DEPARTMENT OF COMPUTER SCIENCE

Computer Science (CS)

CS 1013. Introduction to Computers Applications of computers for general university course work. Elementary operating system usage, creation of data files, spreadsheets for mathematical and scientific data, Internet usage. Corequisite, MATH 0013. Fall, Spring. (ACTS#: CPSI 1003)

CS 1093. Making Connections Computer Science Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.

CS 1114. Concepts of Programming Introduction to problem solving, algorithm development, and structured programming. Emphasis will be placed on problem solving and algorithm development. Designed as a first course for students seeking the Bachelor of Arts in Computer Science as well as non-majors. Prerequisite, MATH 1023. Fall, Spring.

CS 2114. Structured Programming First course in programming, emphasis on programming methodology, procedural abstraction, and top down design. Introduction to string processing, file input and output, recursion, and simple data structures. Prerequisite, C or better in MATH 1023. Fall, Spring.

CS 2124. OOP and Fundamental Data Structures Second course in programming, emphasis on data abstraction. Introduction to abstract data types and object-oriented programming. Linked lists, stacks, queues and binary trees. Searching and sorting techniques. Prerequisite, C or better in CS 2114. Fall, Spring.

CS 3113. Algorithms and Advanced Data Structures Analysis of data structures and associated algorithms. Examination of advanced tree structures, heaps, hashing techniques, and graph algorithms. Prerequisites, C or better in CS 2124 and MATH 2183, and MATH 2204 or MATH 2143 or MATH 2194. Fall, Spring.

CS 3123. Programming Languages Survey of organization and behavior of programming languages. Examination of data typing, control structures, syntactic representation and specification. Prerequisites, CS 2124. Spring.

CS 3223. Computer Organization Basic principles of computer architectural design including instruction set principles, pipelining, instruction level parallelism, memory hierarchy, storage systems, and multiprocessing. Prerequisites, MATH 2204 or MATH 2143 or MATH 2194 and CS 2114. Fall.

CS 3233. Operating Systems Policies, design issues, and implementation techniques for operating system software. Synchronization, process scheduling, memory and storage management, and system protection. Prerequisite, CS 3113. Spring.

CS 4113. Software Engineering Techniques of design, implementation, automated tools, quality assurance, metrics, and maintenance for large scale software systems. Projects include team programming experience. Prerequisite, CS 3113. Fall.

CS 4133. Compilers Techniques for construction of compilers. BNF and EBNF representations. Lexical, syntactic and semantic analysis. Top down and bottom up parsing. Run time systems and code generation. Prerequisite, CS 3113. Fall, even.

CS 4143. Java Application Development Introduction to Java; in depth examination of applications including graphics, threading, database, networking, distributed system, and algorithms. Prerequisites, CS 3123, CS 3223, and CS 3233. Spring.

CS 4213. Distributed Computing Study of client server systems, distributed databases, distributed transaction processing, and distributed applications. Provides overview of recent trends in distributed object technologies. Applications will be designed and constructed using object software architectures. Prerequisites, CS 3113. Demand.

CS 4223. UNIX Systems Programming System level programming in UNIX systems. Prerequisite, CS 3113. Fall.

CS 4313. Computer Networks Issues and principles involved in the design of computer networks using the OSI reference model as a framework. Prerequisite, CS 3233. Spring.

CS 4413. Computer Graphics I Creation, storage, and manipulation of graphical models of objects. Implementation of graphics routines in both two and three dimensional techniques. Prerequisite, CS 3113. Spring.

CS 4423. Computer Graphics II Continuation of Computer Graphics I. Techniques for realistic solid modeling. Topics include hidden surface removal, shading, shadowing, reflection, refraction, and color theory. Prerequisite, CS 4413. Demand.

CS 4433. Artificial Intelligence Representation of knowledge and introduction to a functional programming language, search methods and control. Typical applications of artificial intelligence. Prerequisite, CS 3113. Spring, odd.

CS 4543. Database Systems Topics include major database models, relational algebra, data independence and database normalization, entity relationship model, security, integrity, recovery, and concurrency issues, physical organization of a database. Prerequisite, CS 3113. Fall.

- CS 4713. Analysis of Algorithms** Analysis of space and time requirements of algorithms. Worst case and average case studies. Greedy algorithms and divide and conquer algorithms. Tractable and intractable algorithms. Prerequisites, CS 3113 and MATH 2214. Fall.
- CS 4723. Automata Theory** Study formal languages and equivalent models of computation, finite state automata and regular expressions, push down automata and context free grammars, pumping lemmas and closure properties, and turing machines. Prerequisite, CS 3113. Fall, odd.
- CS 4811. Computer Science Seminar** Critical discussion and presentation of papers on current topics in computer science. The prerequisites will vary according to the topic selected, but all students must have taken CS 3113. Demand.
- CS 4823. Scripting Languages** Examination of scripting languages compared to conventional programming languages and construction of domain-specific solutions for common problems in GUI, networking and web programming. Prerequisite, CS 3113. Demand.
- CS 482V. Special Problems in Computer Science** Individual problems or topics in computer science arranged in consultation with the instructor must be approved by the department. Prerequisite, CS 3113. Demand.
- CS 483V. Internship** Supervised work experience participating in application system development in a business and manufacturing environment. Grade earned will be pass or fail. Prerequisites. Permission of the Computer Science faculty and CS 3113. Demand.

DEPARTMENT OF MATHEMATICS AND STATISTICS

Methods and Materials Teaching Mathematics (EDMA)

- EDMA 4563. Methods and Materials for Teaching Mathematics in the Secondary School** Systematic application of a variety of activities to facilitate the development of competent mathematics teachers. Development and implementation of instructional strategies for teaching mathematics, explicating types of knowledge and the ways they can be taught. Must be admitted to the Teacher Education Program. Spring.

Mathematics (MATH)

- MATH 0003. Introductory Algebra** Credit not applicable toward a degree. Real numbers, inequalities, linear equations, exponents, polynomials, and rational expressions. A grade of C or better must be made in this course before enrolling in MATH 0013. Prerequisite, MATH ACT of 16. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.
- MATH 0013. Intermediate Algebra** Credit not applicable toward a degree. Exponents, radicals, polynomials, rational expressions, linear equations, functions, graphs, factoring, introduction to quadratic equations, and related topics. A grade of C or better must be made in this course before enrolling in MATH 1023, or MATH 1054. Prerequisite, High School Algebra I and Math ACT of 17 or 18, or a C or better in MATH 0003. The grade in this course will not be used to compute semester and cumulative grade point averages. The course does not count toward any degree. Fall, Spring, Summer.
- MATH 1023. College Algebra** Equations and inequalities, functions and graphs, polynomial and rational functions, exponential and logarithmic functions, systems of equations and inequalities, matrices, and miscellaneous topics. No credit given if taken following MATH 1054. Prerequisite, High School Algebra II and score of 19 or above on ACT Math or 460 or above on SAT Mathematics or 41 or above on COMPASS Algebra or 42 or above on ASSET Algebra or a grade of C or better in MATH 0013 or completion of 12 modules in UC 0173 and UC 022V. Fall, Spring, Summer. Fall, Spring, Summer. (ACTS#: MATH 1103)

- MATH 1033. Plane Trigonometry** Right triangles and similar triangles, trigonometric ratios, degrees, and radians, trigonometric functions, circular functions, trigonometric identities, inverse trigonometric functions, trigonometric equations, Law of Sines, Law of Cosines, vectors, polar coordinates, and complex numbers. No credit given if taken following MATH 1054. Prerequisite, High School Algebra II and score of 19 or above on Math ACT or 590 or above on SAT, or a grade of C or better in MATH 0013 or Corequisite, MATH 1023. Fall, Spring, Summer. (ACTS#: MATH 1203)
- MATH 1043. Quantitative Reasoning** Quantitative reasoning as the approach to understanding relationships using mathematical and algebraic methodologies. Contemporary topics will be used to identify, analyze, generalize, and communicate quantitative relationships. Prerequisite, High School Algebra II and score of 19 or above on ACT Math or 460 or above on SAT Mathematics or 36 or above on COMPASS Algebra or 42 or above on ASSET Algebra or a grade of C or better in MATH 0013 or completion of 12 modules in UC 0173 and UC 022V. Fall, Spring, Summer. Fall, Spring, Summer. (ACTS#: MATH 1003)
- MATH 1054. Precalculus Mathematics** Selected topics from algebra, trigonometry, and analytic geometry. Prerequisite, High School Algebra II and score of 22 or above on Math ACT or 630 or above on SAT, or MATH 1023. Fall, Spring, Summer. (ACTS#: MATH 1305)
- MATH 1093. Making Connections Mathematics** Required course for first semester freshmen. Core content includes transition to college, academic performance skills, problem solving, critical thinking, self management, group building skills, and university policies. Content related to the departmental majors is also included. Fall.
- MATH 1143. Finite Mathematics** Selected topics include linear systems, matrices, linear equalities, linear programming simplex method, probability, combinatorics, statistics and finance application. Prerequisites, MATH 1023. Demand.
- MATH 2113. Mathematics for School Teachers I** Sets, logic, and numbers with emphasis on the axiomatic development of the real numbers. For elementary education majors only. Prerequisite, with a C or better in MATH 1023. This course may not be used to satisfy general education mathematics requirement. Fall, Spring, Summer.
- MATH 2123. Mathematics for School Teachers II** Mathematical systems, elementary algebra, probability and statistics, and geometry with applications. Prerequisite, C or better in MATH 2113. This course may not be used to satisfy general education mathematics requirement. Fall, Spring, Summer.
- MATH 2143. Business Calculus** Exponential functions, mathematics of finance, systems of linear equations, linear inequalities and linear programming, limits, derivatives, and integrals, business calculus applications including marginal analysis, extrema and concavity of functions of one and several variables. Will not satisfy requirements for mathematics degrees. Prerequisite, MATH 1023 or MATH 1054 or a Math ACT score of 24 or an SAT score of 660. Fall, Spring, Summer.
- MATH 2183. Discrete Structures** Topics include sets and functions, partially ordered sets, trees and graphs, algorithms, symbolic logic, Boolean algebra, combinatorics, and probability modeling. Prerequisites, High School Algebra II and score of 22 or above on Math ACT or 630 or above on SAT, or MATH 1054. Fall, Spring.
- MATH 2194. Survey of Calculus** Survey of the basic concepts of calculus, including limits, derivatives, exponential and logarithmic functions, integrals, and series and sequences. Credit will not be given for both MATH 2194 and MATH 2204. Prerequisites, MATH 1023 or MATH 1054. Fall, Spring. (ACTS#: MATH 2203)
- MATH 2204. Calculus I** Limits, derivatives, implicit differentiation, applications of the derivative, indefinite integrals, definite integrals, substitution techniques for integrals and applications of the integral. Prerequisites, High School Trigonometry and score of 24 or above on math ACT or 660 or above on SAT, or MATH 1023 and MATH 1033 or MATH 1054. Fall, Spring, Summer. (ACTS#: MATH 2405)
- MATH 2214. Calculus II** Inverse trigonometric functions, hyperbolic functions, integration by parts, trigonometric substitution, partial fractions, integral tables, approximating definite integrals, Taylors Theorem, L'Hospital's Rule, improper integrals, sequences, series, power series, Taylor series, parametric curves, arc length, surface area and polar coordinates. Prerequisite, MATH 2204 with a grade of "C" or better. Fall, Spring, Summer. (ACTS#: MATH 2505)

- MATH 3003. Geometry for Middle School Teachers** Formal geometry in two and three dimensions, measurement, symmetry, congruence and similarity, coordinate geometry, constructions, conics. May not be used to satisfy the general education mathematics requirement. Prerequisites, C or better in both MATH 2113 and MATH 2123. Spring.
- MATH 3051. Try Out the Classroom** Introductory classroom experience led by ASU STEM faculty and area teachers. Topics include Arkansas science/math curriculum, classroom management, laboratory safety, and basic teaching skills. Students will develop and present science/math activities in area classrooms and campus outreach. Prerequisites, MATH 2204 and MATH 2214. Fall.
- MATH 3133. Math for School Teachers III** Mathematical systems of computation, geometry, algebra, probability and statistics with applications for the Middle School Teacher. This course may not be used to satisfy general education mathematics requirements. Prerequisites, C or better in both MATH 2113 and MATH 2123. Fall.
- MATH 3243. Linear Algebra** Introduction to vector spaces, with application to matrix theory. Prerequisite, MATH 2214. Spring, Summer.
- MATH 3254. Calculus III** Vectors, lines, and planes in two and three dimensions, vector valued functions, space curves, curvature and torsion, partial and directional derivatives, extrema of functions of several variables, optimization problems, double and triple integrals with applications, cylindrical and spherical coordinates, vector fields and line integrals, Greens Theorem and the divergence theorem. Prerequisite, MATH 2214. Fall, Spring, Summer.
- MATH 3273. Applied Complex Analysis** Survey of complex analysis with emphasis on developing skills needed for applications. Prerequisite, MATH 3254. Demand.
- MATH 3303. Modern Algebra I** Introduction to the theory of groups, rings, modules, and vector spaces, with emphasis on applications to the real number system. Prerequisite, MATH 2214. Fall.
- MATH 3323. Mathematical Modeling** Construction of mathematical models for use with problems in the mathematical sciences, operations research, engineering and the management and life sciences. Prerequisite, MATH 2214. Spring.
- MATH 3343. College Geometry** Geometric transformations and invariants. Prerequisite, MATH 2214. Spring.
- MATH 3353. History of Mathematics** Origin and development of modern mathematical concepts. Topics include systems of numeration, algebra, geometry, calculus, and the foundations of the real number system. Prerequisite, MATH 2214. Fall, odd.
- MATH 4403. Differential Equations** Topics in the elementary theory of differential equations, including existence theorems. Prerequisite, MATH 3254. Fall, Spring.
- MATH 4423. Modern Algebra II** Continuation of MATH 3303. Prerequisite, MATH 3303. Spring.
- MATH 4513. Applied Mathematics** Topics from ordinary and partial differential equations, including existence theorems. Prerequisite, MATH 3254. Fall, even.
- MATH 4533. Numerical Methods** Algebraic, transcendental, ordinary and partial differential equations, finite differences, and integral equations. Numerical integration, error analysis, and other topics of numerical analysis utilizing high speed computer techniques. Prerequisites, MATH 2214 and CS 2114. Fall, odd.
- MATH 4553. Advanced Calculus I** The calculus of one and of several variables. Limits, continuity, sequences, differentiation, partial differentiation, integration, and infinite series. Prerequisite, MATH 3254. Fall, Summer, even.
- MATH 4563. Advanced Calculus II** Continuation of MATH 4553. Prerequisite, MATH 4553. Spring.
- MATH 4581. Mathematics Seminar** Prerequisite, MATH 3303. Demand.
- MATH 459V. Special Problems in Mathematics** Prerequisite, MATH 3303. Demand.

Statistics (STAT)

- STAT 3233. Applied Statistics I** For students in a variety of disciplines including the sciences, allied health fields, and education. Descriptive statistics for quantitative and qualitative data, normal distributions, correlation, linear regression, sample surveys, randomized comparative experiments, sampling distributions, estimation and hypothesis testing for means and proportions. Prerequisite, MATH 1023 or equivalent. Fall, Spring, Summer.
- STAT 4453. Probability and Statistics I** Probability spaces, random variables, probability distributions, independence, conditioning, probability laws, sampling theory, and associated topics. Prerequisite, MATH 3254. Fall.
- STAT 4463. Probability and Statistics II** Point and interval estimation, testing hypotheses, standard statistical tests, correlation and regression, and nonparametric methods. Prerequisite, STAT 4453. Spring.
- STAT 4473. Applied Statistics II** A second course in applied statistics covering topics in statistical inference for comparing population means and proportions, power, and sample size analyses, analysis of variance, ANOVA, and multiple comparisons procedures, nonparametric statistical procedures, chi square analyses, and inference for regression. Prerequisite, STAT 3233 or equivalent. Spring.

Teaching Internship (TIMA)

- TIMA 4825. Math Teaching Internship in the Secondary School** Ten semester hours. Full semester teaching internship. Fall, Spring.
- TIMA 4826. Math Teaching Internship in the Secondary School** Twelve semester hours. Full semester of teaching internship. Fall, Spring.

MILITARY SCIENCE AND LEADERSHIP

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

Military Science and Leadership (MSL)

BASIC COURSES

MSL 1011. Foundations of Officership Examines the unique duties and responsibilities of officers. Discuss organization and role of the Army. Review basic life skills pertaining to fitness and communication. Analyze Army values and expected ethical behavior. Also required, leadership lab and participation in 1 hour physical fitness session. Fall, Spring.

MSL 1021. Basic Leadership Presents fundamental leadership concepts and doctrine. Practice basic skills that underlie effective problem solving. Apply active listening and feedback skills. Examine factors that influence leader and group effectiveness. Examine the officer experience. Also required leadership lab and participation in 1 hour physical fitness session. Fall, Spring.

MSL 2032. Individual Leadership Studies Develops knowledge of self, self confidence and individual leadership skills. Develop problem solving and critical thinking skills. Apply communication, feedback and conflict resolution skills. Also requires leadership lab and participation in 2 hours physical fitness session. Prerequisites, both MSL I courses. Fall.

MSL 2042. Leadership and Teamwork Focuses on self development guided by knowledge of self and group processes. Challenges current beliefs, knowledge, and skills. Provides equivalent preparation for the ROTC Advanced Course and the Leaders Training Course. Also requires leadership lab and participation in 2 hours physical fitness session. Prerequisites, both MSL I courses. Spring.

MSL 209V. Leadership Training Course A four week summer camp conducted at Fort Knox, Kentucky. The student receives pay. Travel, lodging, and most meals costs are paid by the Army. The environment is rigorous, and in some ways similar to Army Basic Training. Open only to students who have not taken all of the basic course completion requirements, and who pass a physical examination, which is paid by ROTC. Completion of basic camp qualifies a student for entry into the Advanced Course. Multiple cycles are offered during the summer, but spaces are limited by the Army. Candidates can apply for a space any time during the school year prior to the summer. Arkansas State University will grant up to six hours of elective credit for successful completion of the ROTC Basic Camp. Summer.

MSL 2102. Military History Special topics in military history. Instructor approval required. Prerequisites, both MSL I courses. Fall, Spring.

ADVANCED COURSES

A prerequisite for entrance into the Advanced Course is completion of the four courses in the Basic Course, or completion of the ROTC Leaders Training Course or completion of Basic Training.

MSL 3053. Leadership and Problem Solving Examines basic skills that underlie effective problem solving. Analyze the role officers played in the transition of the Army from Vietnam to the 21st Century. Review the features and execution of the Leadership Development Program. Analyze military missions and plan military operations. Execute squad battle drills. Fall.

MSL 3063. Leadership and Ethics Probes leader responsibilities that foster an ethical command climate. Develop cadet leadership competencies. Prepare for success at Leader Development and Assessment Course -- LDAC. Recognize leader responsibility to accommodate subordinate spiritual needs. Apply principles and techniques of effective written and oral communication. Spring.

MSL 4073. Leadership and Management Builds on National Advanced Camp experience to solve organizational and staff problems. Discuss staff organization, functions, and processes. Analyze counseling responsibilities and methods. Examine principles of subordinate motivation and organizational change. Apply leadership and problem solving principles to a complex case study and simulation. Fall.

MSL 4083. Officership Capstone course designed to explore topics relevant to second lieutenants entering the Army. Describe legal aspects of decision making and leadership. Analyze Army organization for operations from the tactical to strategic level. Assess administrative and logistics management functions. Discuss reporting and Permanent Change of Station, PCS, process. Perform platoon leader actions. Examine leader responsibilities that foster an ethical command climate. Spring.

MSL 409V. Special Problems Individually selected material directed towards the field of Military Leadership or Military History. This course must be arranged in consultation with the Professor or Military Science. A course outline and goals will be kept on file with the Training Officer of this department.

INTERNATIONAL PROGRAMS

The frequency of course offerings is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

International Programs (IP)

- IP 1001. Foundations of English** Foundations of English is an introductory course that provides students who have limited or no English language ability with the basics of English. Instruction is geared toward basic conversation, simple grammar, basic writing and reading, and simple sentence structure. Fall, Spring, Summer.
- IP 1011. Survey of English I** Students at this level participate in a variety of courses including pronunciation and oral communication, reading, writing, and grammar. The instruction given in these courses is at the high beginning level. The concepts and ideas presented in them aid students in building a solid foundation upon which their English language can develop, be built up, and expanded. Fall, Spring, Summer.
- IP 1021. Survey of English II** Students at level two progress to a higher level of difficulty and exposure to a broader range of language usage. They are also exposed to skills and tasks common in classrooms in American colleges and universities such as giving oral presentations and reports, writing paragraphs, and self-study. Fall, Spring, Summer.
- IP 1031. Excursions in Academic English I** This level begins pre-academic instruction. Students are exposed to content-based instruction (topic: Sociology). This course teaches practical skills in common classroom discourse, tasks, and activities. Emphasis is placed on developing note taking skills, answering short essay questions, test taking skills, etc. Fall, Spring, Summer.
- IP 1041. Excursions in Academic English II** Continuation of IEP 1031. Further development of pre-academic college skills taught through content-based instruction, practical activities and assignments that reflect current academic demands required at the undergraduate and graduate levels of instruction. Fall, Spring, Summer.
- IP 1051. Academic Essentials for College** This course provides rigorous studies which bring together all course work and provides practical application of learned skills. This course requires demonstration of synthesis and knowledge of the content presented in addition to application of these skills in completing presentations, projects, written reports, research, etc. Fall, Spring, Summer.
- IP 1111. International Bridge Program** The Undergraduate International Bridge Program is a course that helps students develop effective academic study skills, such as listening and note taking, as well as life skills. Additionally, this course will provide English language tutoring assistance for any of the other classes in which students are enrolled. This course is taught in conjunction with the University College First Year Experience courses. Fall, Spring.
- IP 4001. International Bridge Program** This course is designed to facilitate the student's transition into American university study and life in the United States and to provide academic, linguistic, and cultural support for international students enrolled in a graduate program of study at ASU.

National Student Exchange (NSE)

- NSE 301V. National Student Exchange** Non-credit placeholder course for students participating in the National Student Exchange.

LIBRARY AND INFORMATION RESOURCES

The frequency of course offering is indicated following each course description. If not otherwise indicated, the course will be scheduled for each enrollment period. The university reserves the right to change course scheduling when circumstances dictate such changes.

Library (LIR)

- LIR 1011. Introduction to Using Electronic Information Resources** Students will learn strategies for effective information research, including, formulating searches, comparing and contrasting electronic and traditional resources, evaluating various tools for quality, and selecting and using appropriate resources. Fall, Spring.

The Faculty, 2013-2014

HARRIETTE ADAMS, 1996 B.S.E., Arkansas State University M.S., Arkansas State University	Instructor in Physical Education
THOMAS MYERS ADAMS, II, 1981 B.S., East Carolina University M.A., East Carolina University Ed.D., West Virginia University	Professor of Physical Education
REJOICE ADDAE, 2012 B.S.W., University of Arkansas at Pine Bluff M.S.W., University of Arkansas at Little Rock Ph.D., Jackson State University	Assistant Professor of Social Work
DAVID AGNEW, 1990 B.S.A.E., University of Tennessee—Martin M.Ed., Mississippi State University Ed.D., Mississippi State University	Professor of Agricultural Education
JEONGHO AHN, 2008 B.S., Kyung Hee University—South Korea M.S., Kyung Hee University—South Korea Ph.D., University of Iowa	Assistant Professor of Mathematics
MOHAMMAD AKHTER, 2013 M.B.B.S., Quaid-e-Azam Medical College	Temporary Assistant Professor of Nursing and —Nurse Anesthesia Clinical Coordinator
ROY ALDRIDGE, 2000 B.S., University of Tennessee—Memphis M.S., University of Tennessee—Memphis Ed.D., Arkansas State University	Professor of Physical Therapy
HASHIM ALI, 2009 B.S., United Arab Emirates University Ph.D., University of Iowa	Assistant Professor of Chemistry
KAREN ALLEN, 2012 B.A., Oakland University M.S.W., Wayne State University Ph.D., Wayne State University	—Assistant Professor of Social Work —Chair, Department of Social Work
MARTI LU ALLEN B.A., University of Missouri—Columbia M.A., Michigan—Ann Arbor Ph.D., University of Michigan—Ann Arbor	Director of ASU Museum
WILLIAM J. ALLEN, 1979 B.A., University of Alabama M.A., The Johns Hopkins University Ph.D., The Johns Hopkins University	Professor of Art History
OSABUOHEN P. AMIENYI, 1989 B.S., Tennessee State University M.A., Northern Illinois University Ph.D., Bowling Green State University	Professor of Radio-Television —Chair, Department of Media
BRENDA ANDERSON, 2007 B.S.N., Arkansas State University M.S.N., Arkansas State University	Associate Professor of Nursing
SUSAN ANSELM, 2005 B.S.E., Southeast Missouri State University M.S., University of Central Arkansas	Instructor in Early Childhood Education —Mtn. Home

PAUL ARMAH, 1997 B.Sc., University of Ghana M.Sc., University College of Wales Ph.D., University College of Wales	Professor of Agricultural Economics
NICOLE ARNELL, 2010 B.A., Indiana University M.F.A., Colorado State University	Assistant Professor of Graphic Design
JEFFREY R. BAILEY, 1992 B.A., Morehead State University M.L.S., Clarion University of Pennsylvania	Director, Library
DARLENE BAKER, 1990 A.D.N., Arkansas State University B.S.N., University of Central Arkansas M.N.Sc., University of Arkansas for Medical Sciences Ed.D., University of Memphis	Assistant Professor of Nursing
TEMMA BALDUCCI, 2004 B.S., Mississippi State University M.A., University of Alabama at Birmingham Ph.D. University of Kansas	Associate Professor of Art History
JERRY BALL, 1990 B.A., Arkansas State University M.A., Arkansas State University Ph.D., University of Tennessee	Professor of English
DEBRA BALTZ, 2012 B.S., Arkansas State University M.A., Arkansas State University	Temporary Instructor in Mathematics
BRADY BANTA, 1997 B.S., Missouri Valley College M.A., Louisiana State University Ph.D., Louisiana State University M.L.I.S., Louisiana State University	Associate Professor of History —Archivist, Library & Information Resources —Associate Director, Heritage Studies Ph.D. Program
RACHEL BARKER, 2011 B.S., Arkansas State University M.R.C., Arkansas State University	Temporary Instructor in Psychology
JASON BARRETT-FOX, 2013 B.A., Bethel College M.A., University of Kansas M.A., University of Kansas Ph.D., University of Kansas	Assistant Professor of English
REBECCA BARRETT-FOX, 2013 B.A., Juniata College M.A., University of Kansas Ph.D., University of Kansas	Temporary Assistant Professor of Sociology
NEALE K. BARTEE, 1973 B.S., University of Illinois M.Ed., University of Illinois Ph.D., University of Illinois	Professor of Music
DEANNA BARYMON, 2007 B.S., Arkansas State University M.S., Arkansas State University	Assistant Professor of Diagnostic Medical Sonography
STEPHANIE BATES, 2013 B.A., University of Oklahoma M.A., University of Oklahoma M.P.A., University of Oklahoma	Temporary Instructor in Spanish
DAVID BEASLEY, 2009 B.S., Mississippi State University M.S., Mississippi State University Ph.D., Purdue University	Professor of Engineering —Dean, College of Engineering

SHANNON BEASLEY, 2008
B.A., Arkansas State University
M.A., Arkansas State University
Temporary Instructor in English

ANNETTE BEDNAR, 2010
B.S., Arkansas State University
M.S., Arkansas State University
Assistant Professor of Clinical Lab Sciences

JOHN BEINEKE, 1999
B.S., Marion College
M.A., Ball State University
Ed.D., Ball State University
Distinguished Professor of Educational Leadership

CLAUDIA BENAVIDES-ESPINOZA, 2010
B.A., Universidad Autonome de Nuevo Leon-Monterrey, Mexico
M.Ed., Texas A&M University
Ph.D., Texas A&M University
Assistant Professor of Physical Education

BOBBY D. BENNETT, 1991
B.S., Elmira College
Ph.D., Louisiana State University
Associate Professor of Environmental Biology

KERRI BENNET, 2012
B.A., Arkansas State University
M.A., Arkansas State University
M.A., University of Arkansas at Monticello
Temporary Instructor in English

MARC BERGMAN, 2011
B.A., MacMurray College
M.A., University of Hawaii
Instructor in English as a Second Language

ENRIQUE BERNALES, 2012
B.A., Pontificia Universidad Catolica del Peru
Ph.D., Boston University
Assistant Professor of Spanish

SANDRA K. BEVILL, 1991
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ph.D., University of Mississippi
Professor of Business Communication
—Coordinator, COB Internships

TANAY BHATT, 2012
B.S., Bradley University
M.S., University of Texas at Dallas
Ph.D., University of Texas at Arlington
Assistant Professor of Electrical Engineering

VALLARY BINGHAM, 2012
B.S., Oral Roberts University
M.S., Arkansas State University
Director of Learning Support Center

KRISTIN BIONDOLILLO, 1991
B.A., West Virginia University
M.S., Southern Illinois University—Carbondale
Ph.D., Southern Illinois University—Carbondale
Professor of Psychology

KOUSHIK BISWAS, 2012
B.S., Vidyasagar University
M.S., Texas Tech University
M.Sc., Jadavpur University
Ph.D., Texas Tech University
Assistant Professor of Physics

CHRISTIE BLACK, 2013
B.S., University of Central Arkansas
M.S., Arkansas State University
Assistant Professor of Nurse Anesthesia

KAREN BLUE, 1998
B.S.N., University of Central Arkansas
Assistant Professor of Nursing

LISA BOHN, 2008
B.A., University of North Carolina—Chapel Hill
M.F.A., University of North Carolina—Greensboro
Assistant Professor of Theatre

TIMOTHY BOHN, 2008
B.A., University of Wisconsin
M.F.A., University of North Carolina
Assistant Professor of Theatre

SHERRIS BOND, 2009
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Temporary Instructor in Early Childhood

JOE DAVID BONNER, 1984
B.A., University of Houston
M.A., Stephen F. Austin State University
Assistant Professor of Music

JENNIFER BOULDIN, 2008
B.S., University of Arkansas for Medical Sciences
Ph.D., Arkansas State University
Associate Professor of Environmental Biology

DIANNE BOUNDS, 2009
B.A., Arkansas State University
B.S., Arkansas State University
M.A., Arkansas State University
S.C.C.T., Arkansas State University
Temporary Mathematics Instructional Specialist

STEVE BOUNDS, 2007
B.S., Oklahoma Christian University
M.S., Arkansas State University
Ph.D., Arkansas State University
Associate Professor of Educational Leadership

THAN BOVES, 2013
B.S., University of Illinois
M.S., Boise State University
Ph.D., University of Tennessee
Assistant Professor of Avian Ecology

MELANY BOWMAN, 2009
B.A., Belmont University
M.A., Arkansas State University
Temporary Instructor in Spanish

MICHAEL BOWMAN, 2012
B.S., Arkansas State University
M.S., Arkansas State University
Ph.D., Arkansas State University
Assistant Professor of Communications

DONALD BOWYER, 2012
B.A., West Virginia Wesleyan College
M.A., California State University
Ph.D., University of Northern Colorado
Professor of Music
—Dean of Fine Arts

AUDREY BOWSER-BROWN, 1998
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ph.D., Iowa State University
Assistant Professor of Secondary Education
and Technology

PAULA BRADBERRY, 1993
B.A., Arkansas Tech University
M.R.C., Arkansas State University
Instructor/Director of First Year Studies

MARY JANE BRADLEY, 1987
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ed.S., Arkansas State University
Ed.D., Memphis State University
Associate Professor of Education
Director, Professional Education Programs
—Teacher Certification Officer

SHANON BRANTLEY, 2012
M.S., Arkansas State University
B.S., Arkansas State University
Assistant Professor of Communication Disorders

LORETTA BREWER, 2001
B.S.W., Western Michigan University
M.S.W., Western Michigan University
Ph.D., Michigan State University
Professor of Social Work

WINFRED P. BRIDGES, 1990 Instructor in English
 B.S.E., Arkansas State University
 M.Div., Southern Theological Seminary
 M.A., Arkansas State University

ALEXANDER BROWN, 2005 Instructor in Radio-Television
 B.F.A., University of Oklahoma
 M.M.D., Florida State University
 M.A., University of Kansas

CHRISTOPHER R. BROWN, 1990 Professor of Economics
 B.A., University of Tennessee—Knoxville
 M.A., University of Tennessee—Knoxville
 Ph.D., University of Tennessee—Knoxville

LANCE BRYANT, 2007 Associate Professor of Physical Education
 B.S., Mississippi State University
 M.S., Mississippi State University
 Ph.D., University of Alabama

JOAN BURCHAM, 2013 Temporary Instructor in Mechanical Engineering
 B.S., Mississippi State University
 M.S., Mississippi State University

TIMOTHY N. BURCHAM, 2013 Professor of Agricultural Engineering
 —Dean, College of Agriculture and Technology
 B.S., Mississippi State University
 M.S., Mississippi State University
 Ph.D., Clemson University

JOE BURLESON, 2004 Instructor in Systems Administration
 B.S., Arkansas State University
 M.S., Arkansas State University

KATHRYN BURNS, 2008 Instructor in Chemistry
 B.A., University of Minnesota
 M.S., University of Minnesota

RICHARD BURNS, 1993 Associate Professor of English and Folklore
 B.A., University of Texas
 B.S., University of Texas
 M.A., University of Texas
 Ph.D., University of Texas

WILLIAM A. BURNS, 1995 Associate Professor of Chemistry
 —Chair, Department of Chemistry and Physics
 B.S., Drake University
 Ph.D., University of Minnesota

PETER BUTLER, 2013 Assistant Professor of Counseling
 B.S., Stephen F. Austin State University
 M.S., University of Arkansas at Little Rock
 Ph.D., University of Arkansas

AMY BUZBY, 2011 Assistant Professor of Political Science
 B.A., Haverford College
 Ph.D., Rutgers University

DONNA CALDWELL, 2004 Associate Professor of Radiologic Sciences
 B.S., University of Central Arkansas
 M.Ed., University of Arkansas at Little Rock

CATHERINE CALLOWAY, 1983 Professor of English
 B.A., High Point College
 M.A., Arkansas State University
 Ph.D., University of South Florida

MATTHEW CAREY, 1997 Assistant Professor of Music
 B.M., Oberlin Conservatory of Music
 M.M., University of Michigan School of Music

RODNEY CARMACK, 2012 Instructor in Accounting
 B.S., Arkansas State University
 B.A., Arkansas State University
 M.B.A., Arkansas State University

ROGER G. CARLISLE, 1974 Professor of Art
 B.F.A., University of Nebraska
 M.F.A., University of Nebraska

REBECCA CARR, 1988 Instructor in Real Estate & Accounting
 B.A., University of Arizona
 B.S., Arkansas State University
 M.Acct., Arkansas State University
 M.S., University of Illinois

KATHLEEN CARRICK, 2011 Assistant Professor of Social Work
 B.A., Chatham University
 M.S.W., Smith College
 Ph.D., University of Pittsburgh

LATIA CARRAWAY, 2011 Instructor in Mathematics & Statistics
 B.S., Arkansas State University and University of Arkansas
 M.S., Arkansas State University

BRENT ROSS CARROLL, 2010 Assistant Professor of Physics
 B.S., Texas Tech University
 M.S., Texas Tech University
 Ph.D., Texas Tech University

KENNETH CARROLL, 2002 Associate Professor of Music
 —Director of Jazz Studies
 B.A., Arkansas Tech University
 M.M., University of Georgia
 D.M.A., University of Georgia

TOCARRA CARTER, 2012 Temporary Instructor in Developmental Studies
 B.A., Arkansas State University-Jonesboro
 M.A., Arkansas State University-Jonesboro
 Ed.S., Arkansas State University-Jonesboro

JUSTIN CASTRO, 2013 Assistant Professor of Latin America
 B.A., Northeastern State University
 M.A., University of Central Oklahoma
 Ph.D., University of Oklahoma

JACOB CATON, 2012 Assistant Professor of English and Philosophy
 B.A., The University of Texas at Austin
 Ph.D., University of Arizona

MERRILL CATT, 2007 Assistant Professor of Communication Disorders
 B.S.E., Arkansas State University
 M.S.P., Arkansas State University

JASON CAUSEY, 2003 Instructor in Computer Science
 B.S., Arkansas State University
 M.S., Arkansas State University

ERIC M. CAVE, 1995 Professor of Philosophy
 B.A., Trinity University
 M.A., University of California—Irvine
 Ph.D., University of California—Irvine

KYLE CHANDLER, 2009 Assistant Professor of Music
 B.M.E., University of North Colorado—Greeley
 M.M.E., University of North Colorado—Greeley
 Ph.D., University of Colorado—Boulder

ERICK CHANG, 2007 Associate Professor of Management
 B.A. and Licenciatura, Universidad Francisco Marroquin-Guatemala
 M.B.A., Texas Christian University—Fort Worth
 Ph.D., Mississippi State University

DEBORAH K. CHAPPEL-TRAYLOR, 1991
 B.S.E., Arkansas State University
 M.A., Duke University
 Ph.D., Duke University
 Associate Professor of English
 —Associate Dean, College of Humanities and Social Sciences

JEONGHEE CHOI, 2009
 B.A., Ewha Womans University—Korea
 M.A., University of Iowa
 Ph.D., University of Iowa
 Assistant Professor of Early Childhood

SEO-EUN CHOI, 2007
 B.S., Ewha Womans University—Korea
 M.S., University of Michigan—Ann Arbor
 Ph.D., Florida State University
 Assistant Professor of Statistics

LESLIE CHRISTENSEN, 1998
 B.F.A., University of Iowa
 M.A., Arkansas State University
 Instructor in Art
 —Director, Bradbury Gallery

DORIS CHU, 2003
 B.A., Central Police University—Taiwan
 M.Ed., Oklahoma State University
 M.A., State University of New York—Albany
 Ph.D., State University of New York—Albany
 Professor of Criminology

BRIAN CHURCH, 2003
 B.S., Murray State University
 M.A., Murray State University
 Ph.D., University of Alabama
 Associate Professor of Physical Education

LAUREN SCHACK CLARK, 2003
 B.M., University of Hartford
 M.A., Longy School of Music
 M.M., Northwestern University
 D.M.A., Boston University
 Associate Professor of Music

LINDA DAVIS CLARK, 1970
 B.A., Central Methodist College
 M.A., Memphis State University
 Assistant Professor of Communication Studies

LORI CLAY, 2006
 B.S.N., Arkansas State University
 M.S.N., Arkansas State University
 Project Program Specialist-Clinical Simulation

RICKY C. CLIFFT, 1980
 B.S., University of Arkansas—Fayetteville
 M.S., University of Arkansas—Fayetteville
 Ph.D., University of Houston
 Professor of Civil & Environmental Engineering

FAYE COCCHIARA, 2007
 B.B.A., University of Texas- Arlington
 M.S., University of Texas- Arlington
 Ph.D., University of Texas- Arlington
 Associate Professor of Management

HEATHER COLEMAN, 2013
 D.M.A., University of Memphis
 M.A., University of Memphis
 B.A., Arkansas State University
 Temporary Instructor in Music

JANELLE COLLINS, 1997
 B.A., San Diego State University
 M.A., San Diego State University
 Ph.D., Washington State University
 Associate Professor of English
 Chair, Department of English and Philosophy

CRAIG COLLISON, 1998
 B.A., Washington State University
 M.A., North Texas State University
 Associate Professor of Music

SANDRA COMBS, 2008
 B.S., University of Florida—Gainesville
 M.A., Michigan State University
 Assistant Professor of Journalism

LYNITA M. COOKSEY, 1993
 B.S., Arkansas State University
 M.S., Arkansas State University
 Ph.D., Oklahoma State University
 Associate Professor of Environmental Entomology
 —Vice Chancellor and Provost

KIMBERLY COOPER, 2007
 B.S.N., McNeese State University
 M.S.N., University of Phoenix
 Assistant Professor of Nursing ASU—Beebe

KRISTI COSTELLO, 2013
 B.A., Southeast Missouri State University
 M.A., Southeast Missouri State University
 Ph.D., Binghamton University
 Assistant Professor of Composition and Rhetoric

ANGELA COX, 2010
 B.A., Ouachita Baptist University
 M.A., University of Memphis
 Instructor in English as a Second Language

BRENT COX, 2011
 A.A.S. Criminal Justice, Black River Technical College
 A.A.S. General Education, Black River Technical College
 B.A., Arkansas Tech University
 Assistant Professor of Nursing

DAVID COX, 1992
 B.S., University of Florida
 M.Ed., University of Florida
 Ph.D., University of Illinois
 Professor of Education
 —Coordinator, Community College Teaching Program

CAROLE CRAMER, 2004
 B.A., University of California—Berkeley
 Ph.D., University of California—Irvine
 Professor of Biological Sciences and Plant Pathology

JERRY L. CRAWFORD, 1966
 B.S., Arkansas State University
 M.A., University of Mississippi
 Ph.D., University of Arkansas—Fayetteville
 Professor of Economics

LINDA CREIBAUM, 2002
 B.A., University of Tennessee at Martin
 M.S., University of Illinois at Urbana—Champaign
 Acquisitions Librarian

TIMOTHY CRIST, 1999
 B.M., University of Georgia
 M.M., University of Georgia
 D.M.A., University of Georgia
 Professor of Music

WENDY CRIST, 2001
 B.F.A., University of Georgia
 M.L.I.S., University of South Carolina
 Librarian

LINDA CRUMPTON, 2007
 B.S.N., Arkansas State University
 M.S.N., Arkansas State University
 Assistant Professor of Nursing

LACY CRUMRINE, 2013
 B.S., Mississippi State University
 M.E., The University of Mississippi
 Assistant Professor of Counseling

TERRY DANCER, 1982
 B.S.E., Henderson State University
 M.B.A., Henderson State University
 Ph.D., University of Mississippi
 Professor of Accounting

ROBIN L. DAUER, 1987
 B.A., Miami University
 M.M., Cincinnati College—Conservatory of Music
 D.M.A., Cincinnati College—Conservatory of Music
 Professor of Music

CLOYIS DAUGHETEE, 2005
 B.S., Texas A&M University
 M.A., Arkansas State University
 Temporary Instructor in Sociology

SARAH DAVIDSON, 2008 Assistant Professor of Nursing—MSCC
 B.S., University of Arkansas for Medical Sciences
 B.S., Southwest Texas State University

KIMBERLY M. DAVIS, 2013 Assistant Professor of Special Education
 B.S., Southern University and A&M College
 M.Ed., Southern University and A&M College
 M.Ed., Southern Arkansas University
 Ph.D., Southern University and A&M College

SHARON DAVIS, 2009 Associate Professor of Rehabilitation Counseling
 B.A., Southern Illinois University-Carbondale
 M.S., Southern Illinois University-Carbondale
 Ph.D., Southern Illinois University-Carbondale

BLAIR DEAN, 1996 Professor of Physical Education
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University
 Ph.D., University of Arkansas

MATTHEW DEGARMO, 2013 Instructor in Criminology
 B.S., Missouri Southern State University
 M.A., University of Missouri-St. Louis

JANEMARIE DEWAILLY, 2007 Instructor in Reading
 B.A., Mississippi State University
 M.E., University of South Alabama
 Ed.S., Florida State University

MARY ANDERSON DONAGHY, 1992 Associate Professor of Sociology
 B.A., Stanford University
 M.A., American University
 Ph.D., American University

LAURA S. DOWNING, 1995 Reference Librarian
 B.A., Moorhead State University
 M.L.I.S., University of Wisconsin

BARBARA DOYLE, 1988 Instructor, First Year Studies
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University
 Ed.S., Arkansas State University

MICHAEL B. DOYLE, 1985 Instructor in Radio-Television
 —KASU Station Manager
 B.S., Arkansas State University
 M.S., Oklahoma State University

MARK DRAGANJAC, 1985 Professor of Chemistry
 B.S., Southeastern Oklahoma State University
 Ph.D., University of Iowa

LISA DRAKE, 2001 Assistant Professor of Nursing—ASU-Mountain Home
 B.S.N., Indiana University Northwest
 M.S.N., Arkansas State University

SHAWN DRAKE, 2002 Associate Professor of Physical Therapy
 —Chair, Department of Physical Therapy
 B.S., Arkansas State University
 M.S., Arkansas State University
 Ph.D., University of Southern Mississippi

CHERYL DUBOSE, 2007 Assistant Professor of Radiologic Sciences
 B.S., Macon State College
 M.S., Midwestern State University
 Ed.D., Arkansas State University

HELEN DUCLOS, 1998 Instructor in English
 B.A., Arkansas State University
 M.A., Arkansas State University

JULIA DUNLAP, 1999 Catalog Librarian
 B.A., Ouachita Baptist University
 M.S., University of Central Arkansas
 M.L.I.S., University of Texas at Austin

MARILYN DURAN, 2013 Associate Professor of Nursing
 —Chair, Department of Nursing
 B.S., University of Arkansas
 M.S., Arkansas State University
 Ph.D., Texas Women's University

CPT TIM DURHAM, 2000 Assistant Professor of Military Science
 B.S., Arkansas State University

NATHAN B. EDGAR, 1995 Associate Professor of Mechanical Engineering
 —Director of Mechanical Engineering Program
 B.S., Arkansas State University
 M.S., University of Kansas
 Ph.D., University of Kansas

BEVERLY EDWARDS, 2007 Assistant Professor of Social Work
 B.S.W., Jackson State University
 M.S.W., Ohio State University—Columbus
 Ph.D., Clark Atlanta University

GARY EDWARDS, 2006 Associate Professor of History
 B.A., Abilene Christian University
 M.A., Abilene Christian University
 Ph.D., University of Memphis

ASHRAF ELSAYED, 2006 Associate Professor of Civil Engineering
 B.S., Cairo University, Egypt
 MS., University of Alabama
 Ph.D., University of Alabama

ROBERT DALE ENGELKEN, 1982 Associate Professor of Electrical Engineering
 B.S., Arkansas State University
 M.S.E.E., University of Missouri—Rolla
 Ph.D., University of Missouri—Rolla

SHERRY ESKRIDGE, 2006 Access Services Librarian
 B.A., Arkansas State University
 M.L.S., Texas Woman's University

TRACY FARMER, 2002 Systems Librarian
 B.S., Arkansas State University
 M.S., Arkansas State University

JERRY L. FARRIS, 1992 Distinguished Professor of Biology
 B.S., Arkansas State University
 M.S., Arkansas State University
 Ph.D., Virginia Polytechnic Institute

LILLIE M. FEARS, 1990 Professor of Journalism
 A.A., Phillips County Community College
 B.S., Arkansas State University
 M.S.M.C., Arkansas State University
 Ph.D., University of Missouri—Columbia

MIKAH FELKINS, 2012 Temporary Instructor in Physical Education
 B.S., Arkansas State University
 M.S., Arkansas State University

SHARLA FELKINS, 2012 Temporary Instructor in Early Childhood
 B.S., Arkansas State University
 M.S., Arkansas State University

LORI FENNER, 1995 Instructor in Agriculture
 B.S., Arkansas State University
 M.S., Arkansas State University

LISA FERRELL, 1989 Instructor in Developmental Studies
 B.S., Tennessee Technical University
 M.A., Tennessee Technical University

TONJA FILLIPPINO, 2003 Associate Professor of Mid-level Education -
B.B.A., Northeastern State University ASU - Beebe Degree Center
M.E., Northwestern State University
Ed.D., University of Louisiana at Monroe

PAUL FINNICUM, 1988 Professor of Health Education
B.S., Northern Illinois University
M.S., Oklahoma State University
Ed.D., Oklahoma State University

KELLY FISH, 2001 Professor of Computer & Information Technology
B.B.A., University of Texas at Austin
M.I.M., American Graduate School of International Management
Ph.D., University of Mississippi

KATHRYN FLANNIGAN, 2013 Assistant Professor of Nursing
B.S.N., Baptist College of Health Sciences
M.S.N., University of Southern Indiana

B.A., University of Mississippi —Dean, Continuing Education & Community Outreach
M.S.E., University of Mississippi
Ed.D., University of Mississippi

ERIK GILBERT, 1998 Professor of History
B.A., William & Mary College —Associate Dean, Graduate School
M.A., University of Vermont
Ph.D., Boston University

ALYSON GILL, 1999 Associate Professor of Art History
B.A., Trinity University —Director of Center for Digital Initiatives
M.A., University of California—Irvine
Ph.D., University of Memphis

DAVID F. GILMORE, 1992 Associate Professor of Environmental Biology
B.S., University of Maine
M.A., Indiana University
Ph.D., University of Connecticut

DIANE GILMORE, 2002 Temporary Instructor in Biological Sciences
B.A., University of Maine—Orano
O.D., Indiana University School of Optometry

SHELLEY GIPSON, 2003 Associate Professor of Art
B.F.A., Stephen F. Austin State University
M.F.A., Texas Christian University

JOY E. GOOD, 2012 Assistant Professor of Speech-Language Pathology
B.A., Ouachita Baptist University
M.S., University of Arkansas for Medical Sciences
Ph.D., Arkansas Consortium for the Ph.D. in Communication Sciences and Disorders

SARAH GORE, 1984 Instructor in Mathematics
B.S.E., Arkansas State University
M.S., Arkansas State University

JULIA GRADY, 2007 Associate Professor of Educational Leadership
B.S., Radford College —Director, Rural STEM Center
M.S., Radford College
Ph.D., Virginia Polytechnic Institute and State University

MARLA GRAVES, 1999 Professor of Health
B.S., Arkansas State University
M.S., Arkansas State University
Ph.D., University of Mississippi

POLLY GREEN, 1998 Instructor in Developmental Studies
B.S.E., Arkansas State University
M.S.E., Arkansas State University

V. STEVEN GREEN, 2006 Associate Professor of Soil and Water Conservation
B.S., Brigham Young University
M.S., Purdue University
Ph.D., Purdue University

BERT GREENWALT, 1985 Professor of Agricultural Economics
B.S.A., Arkansas State University
M.S., University of Arkansas—Fayetteville
Ph.D., Mississippi State University

HEIDI GRIFFIN, 2004 Instructor In Mathematics
B.S., Arkansas State University
M.S., Arkansas State University

ANNE A. GRIPPO, 1995 Professor of Biology
B.S., Fairleigh Dickinson University —Associate Director, Molecular Biosciences Ph.D. Program
Ph.D., University of North Carolina —Associate Dean, College of Sciences and Mathematics

RICHARD S. GRIPPO, 1995
B.S., Fairleigh Dickinson University
M.S., Fairleigh Dickinson University
Ph.D., Pennsylvania State University
Professor of Environmental Biology

JOANNA M. GRYMES, 1989
B.S., Virginia Polytechnic Institute and State University
M.S., University of Delaware
Ph.D., Virginia Polytechnic Institute and State University
Associate Professor of Early Childhood Education
—CAEP Coordinator

ROSHAN GUATAM, 2012
B.S.C.E.N., Kantipur Engineering College
M.E.M., Arkansas State University
Instructor in Center for Digital Initiatives

GAURI-SHANKAR GUHA, 2001
M.S., Birla Institute of Technology & Science
M.B.A., Indian Institute of Foreign Trade
Ph.D., Pennsylvania State University
Associate Professor of Economics

J. STEPHEN GUFFEY, 2012
B.S., University of Central Arkansas
M.Ed., University of Arkansas
Ed.D., Arkansas State University
Associate Professor of Physical Therapy

PAULA GUNTER, 2008
B.S.N. Harding University
Assistant Professor of Nursing

HANS HACKER, 2007
B.A., University of North Texas
M.A., Ohio State University
Ph.D., Ohio State University
Associate Professor of Political Science

SARAH HAGGE, 2011
B.S.E., University of Arkansas
M.Ed., University of Arkansas
Instructor in Early Childhood Education—Beebe

CATHY PATTON HALL, 1991
B.S., Arkansas State University
M.S., University of Cincinnati
Associate Professor of Nursing
—Co-Director, ASN Program

HOLLY HALL, 2008
B.A., Arkansas State University
J.D., University of Arkansas at Little Rock
Assistant Professor of Journalism

JAMES MICHAEL HALL, 2002
B.A., University of Mississippi
M.S., University of Mississippi
Ph.D., University of Mississippi
Associate Professor of Mathematics

JOHN DAVID HALL, 1991
B.S., Arkansas State University
M.R.C., Arkansas State University
M.Ed., University of Cincinnati
Ph.D., University of Cincinnati
Professor of Psychology and Counseling

DOMINIQUE HALLETT, 2004
B.A., Arkansas State University
M.L.I.S., Louisiana State University
Reference Librarian

EDWARD T. HAMMERAND, 1990
B.S., University of Missouri—Rolla
M.S., University of Missouri—Rolla
Ph.D., University of Missouri—Rolla
Associate Professor of Computer Science

SUSAN N. HANRAHAN, 1995
B.S., University of Kansas
M.P.A., University of Kansas
Ph.D., Temple University
Professor of Physical Therapy
—Dean, College of Nursing and Health Professions

GREGORY HANSEN, 2002
B.A., Pennsylvania State University
M.A., Western Kentucky University
Ph.D., Indiana University
Professor of English & Folklore

SHIVAN HARAN, 2002
B.E., Osmania University—India
M.S., University of Houston
Ph.D., University of Houston
Associate Professor of Mechanical Engineering

DAVID R. HARDING, JR., 1992
B.A., University of Missouri—Columbia
Ph.D., The Ohio State University—Columbus
Associate Professor of Political Science
and Public Administration

CHRIS HARPER, SR., 2002
B.A., Arkansas State University
M.A., Arkansas State University
Ed.D., Arkansas State University
Assistant Professor of Communication Studies
—Director of Debate Team

JEANE HARRIS, 1986
B.A., Colorado State University
M.Ed., Colorado State University
Ph.D., Texas Christian University
Professor of English

GUY HARRISON, 2012
B.M., University of Adelaide
M.M., Michigan State University
D.M.A., Michigan State University
Assistant Professor of Music

MAJ DAVID HASTINGS, 2007
B.S., Arkansas State University
Assistant Professor of Military Science

KENDAL L. HATCH, 1983
B.M., North Texas State University
M.M., Baylor University
Assistant Professor of Music
—Chair, Department of Music

RUTH HAWKINS, 1999
B.A., University of Missouri—Columbia
M.A., Arkansas State University
Ph.D., University of Mississippi—Oxford
Distinguished Professor
—Director, Arkansas Heritage SITES

SANDRA HAWKINS, 2008
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Temporary Instructor in Early Childhood
—Coordinator, Teaching Internship and Field Experience

MARCELINE HAYS, 2004
B.A., University of Arkansas at Little Rock
M.A., University of Arkansas at Little Rock
Ph.D., The University of Memphis
Associate Professor of Communication Studies
—Interim Chair, Department of Communication

PENNY HEAD, 2009
B.A., Maryville College
B.S., University of Tennessee—Memphis
M.S., California University of Pennsylvania
Assistant Professor of Physical Therapy

CYNDY HENDERSHOT, 1997
B.A., Eastern New Mexico University
M.A., Texas Tech University
Ph.D., Texas Tech University
Associate Professor of English

RUSSELL HENDRIX, 2013
B.S., Emporia State University
M.S., Northwest Missouri State University
Temporary Instructor in Exercise Science

BRIAN HENKELMANN, 2011
B.A., Moravian College
M.A., Moravian Theological Seminary
M.A., Concordia University
Temporary Instructor in Music

JOAN HENLEY, 2003 Associate Professor of Special Education
 B.S.E.E., Southwest Missouri State University
 M.S.E., Southwest Missouri State University
 Ph.D., University of Missouri—Columbia

JOHN HERSHBERGER, 2013 Assistant Professor of Chemistry
 B.S., Missouri University of Science and Technology
 Ph.D., University of Kansas

KIM HESTER, 1997 Professor of Management
 B.S., Jacksonville State University
 M.B.A., Jacksonville State University
 M.H.R.M., University of Alabama
 Ph.D., University of Alabama

GRETCHEN HILL, 1999 Associate Professor of Sociology
 —Assistant Chair of Criminology, Sociology and Geography
 B.A., Washburn University—Topeka
 M.A., University of Missouri—Kansas City
 Ph.D., University of Kansas—Lawrence

 B.A., Park College
 M.A., University of Missouri
 Ph.D., University of Mississippi

JO ANN HORNEKER, 1995 Temporary Instructor in English
 B.A., Arkansas State University
 M.A., Arkansas State University

ZAHID HOSSAIN, 2012 Assistant Professor of Civil Engineering
 B.S., Khulna University of Engineering and Technology
 M.S., University of Oklahoma
 Ph.D., University of Oklahoma

G. DANIEL HOWARD, 2008 Professor of Educational Leadership
 B.S., Manhattan College
 M.S., Indiana University
 M.P.H., Indiana University
 D.H.S., Indiana University
 Ph.D., Indiana University

D. LYNN HOWERTON, 1974 Professor of Psychology
 B.A., Southern Illinois University—Carbondale
 M.A., Southern Illinois University—Carbondale
 Ph.D., Southern Illinois University—Carbondale

PAMELA C. HRONEK, 1983 Associate Professor of History
 —Chair, Department of History
 B.A., Brigham Young University
 M.Ed., University of Utah
 Ph.D., Arizona State University

AIQUN HU, 2007 Associate Professor of History
 B.A., Wuhan University
 M.A., Wuhan University
 M.A., University of York
 Ph.D., Northeastern University

XIANKUI HU, 2009 Associate Professor of Finance
 B.S., Zhongshan University--China
 M.S., Zhongshan University--China
 M.S., Southern Illinois University-Carbondale
 Ph.D., University of Memphis

XIUZHEM HUANG, 2004 Associate Professor of Computer Science
 B.S., Shandong University—China
 M.S., Shandong University—China
 Ph.D., Texas A&M University

EVELYN M. HUBBARD, 1992 Associate Professor of Radiologic Sciences
 B.S., Arkansas State University
 M.S.E., Arkansas State University

HOLLIE HUCKABEE, 2004 Instructor in Physical Education
 B.S., Ed., Arkansas State University
 M.S., Ed., Arkansas State University

GAIL I. HUDSON, 1985 Professor of Marketing
 B.A., University of Michigan
 M.B.A., Arkansas State University
 Ph.D., University of Alabama

JOHN HUGGINS, 2013 Temporary Instructor in Biology
 B.S., Arkansas State University
 M.S., Arkansas State University

JULIE HUGGINS, 2000 Instructor in Biological Sciences
 B.S., Arkansas State University
 M.S., Arkansas State University
 S.C.C.T., Arkansas State University

KEVIN HUMPHREY, 1993 Associate Professor of Agricultural Education
 B.S., Western Kentucky University
 M.A.Ed., Western Kentucky University
 Ph.D., University of Missouri—Columbia

WILLIAM D. HUMPHREY, 1988 Professor of Animal Science
 B.S., New Mexico State University
 M.S., New Mexico State University
 Ph.D., University of Wyoming

SHANE HUNT, 2007 Associate Professor of Marketing
 B.B.A., University of Oklahoma—Norman
 M.B.A., University of Oklahoma—Norman
 Ph.D., Oklahoma State University

FRANCES ELIZABETH HUNTER, 1967 Associate Professor of English
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University
 Ph.D., University of Mississippi

MARTIN J. HUSS, 1993 Associate Professor of Botany
 B.A., Benedictine College
 M.A., University of Kansas
 Ph.D., University of Kansas

ANNETTE HUX, 2011 Assistant Professor of Educational Leadership
 B.A., Southwest Baptist University
 M.A., Southeast MO University
 Ed.D., Saint Louis University
 —Interim Chair, Department of Educational Leadership, Curriculum and Special Education
 —Interim Chair, Department of Teacher Education

YEONSANG HWANG, 2009 Associate Professor of Civil Engineering
 B.S., Yonsei University-Korea
 M.S., Yonsei University-Korea
 Ph.D., University of Colorado

WENDY HYMES, 2012 Associate Professor of Fine Arts and Director of Fowler Center
 B.A., Principia College
 M.M., Indiana University
 D.M.A., Louisiana State University

DEBRA INGRAM, 2000 Associate Professor of Mathematics
 B.S., University of Minnesota
 M.S., Arkansas State University
 Ph.D., University of Memphis
 —Chair, Department of Mathematics and Statistics
 —Chair, Department of Computer Science

JULIE JUER ISAACSON, 1987 Associate Professor of Nursing
 B.S.N., University of Tennessee
 M.S.N., Vanderbilt University

ANAHITA IZADYAR, 2012 Assistant Professor of Chemistry
 B.S., Shiraz University
 M.S., Shiraz University
 Ph.D., Shiraz University

MARY E. JACKSON-PITTS, 1988 Professor of Radio-Television
 B.S., Arkansas State University
 M.S., Arkansas State University
 Ph.D., University of Southern Mississippi

MEMORY JAMES, 2013 Temporary Instructor in Spanish
 B.A., University of Saint Thomas
 M.Ed., University of Southern California
 M.A., University of Texas at Austin

JEFFREY WAYNE JENNESS, 1991 Associate Professor of Computer Science
 B.S., Missouri Southern State College
 M.S., University of Missouri—Rolla
 Ph.D., University of Missouri

KWANGKOOK JEONG, 2010 Assistant Professor of Mechanical Engineering
 B.S., Ajou University
 M.S., KAIST, Daejeon
 Ph.D., Lehigh University

HAI JIANG, 2004 Associate Professor of Computer Science
 B.S., Beijing University
 M.A., Wayne State University
 Ph.D., Wayne State University

J. BRUCE JOHNSON, 1994 Associate Professor of Physics
 B.S., Brigham Young University
 M.S., University of Illinois—Urbana-Champaign
 Ph.D., University of Illinois—Urbana-Champaign

MICHELE JOHNSON, 2007 Instructor in Early Childhood
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University

RONALD L. JOHNSON, 1992 Professor of Zoology
 B.S., California State University
 M.A., University of Northern Colorado
 D.A., University of Northern Colorado

WARREN JOHNSON, 1998 Associate Professor of Languages
 B.A., University of Iowa
 A.M., University of Michigan
 Ph.D., University of Michigan

NATALIE JOHNSON-LESLIE, 2004 Associate Professor of Secondary Education
 B.A., University of Technology—Jamaica
 M.S., Iowa State University
 Ph.D., Iowa State University

CRAIG H. JONES, 1977 Professor of Psychology and Counseling
 B.A., Rutgers University
 M.A., University of Kansas
 Ed.D., University of Mississippi

JO JONES, 2005 Instructor in Mid-Level Education - ASU-Beebe
 B.A., Harding University
 B.S., University of Arkansas School of Health Related Professions
 M.Ed., University of New Mexico

K. RUSSELL JONES, 1989 Professor of Computer & Information Technology
 B.A., Arkansas State University
 M.S.I.S., Arkansas State University
 Ph.D., University of Texas—Arlington

CHERISSE JONES-BRANCH, 2003 Associate Professor of History
 B.A., College of Charleston
 M.A., College of Charleston
 Ph.D., Ohio State University

ANNA KAUSLER, 2012 Instructor in Teacher Education
 B.S., Arkansas State University
 M.S., Arkansas State University

ALAN KEITH, 2012 Temporary Instructor in Engineering Technology
 B.S., Arkansas State University-Jonesboro
 M.E.M., Arkansas State University-Jonesboro

BECKY KEITH, 2001 Assistant Professor of Physical Therapy
 B.S., University of Central Arkansas

RYAN R. KELLY, 2010 Assistant Professor of Reading
 B.A., University of Iowa
 M.S.E., Iowa State University
 Ph.D., Iowa State University

BRANDON A. KEMP, 2010
B.S., Arkansas State University
M.S., University of Missouri-Rolla
Ph.D., Massachusetts Institute of Technology
Assistant Professor of Engineering

SARAH M. KENDIG, 2013
B.S., James Madison University
M.A., University of Maryland
Ph.D., University of Maryland
Assistant Professor of Sociology

DONALD W. KENNEDY, 1993
B.S., Sam Houston State University
M.Ed., Sam Houston State University
Ph.D., Louisiana State University
Professor of Animal Science
Associate Dean, College of Agriculture
and Technology

JAMES KENNON, 2001
B.S., Arkansas State University
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ed.D., University of Memphis
Associate Professor of Science Education

DAVID KERN, 2001
B.S., University of North Alabama
M.B.A., University of North Alabama
M.S.B.A., Mississippi State University
Ph.D., Mississippi State University
Associate Professor of Finance

RANDALL G. KESSELRING, 1984
B.B.A., University of Oklahoma
M.A., University of Oklahoma
Ph.D., University of Oklahoma
Professor of Economics

JOSEPH KEY, 2002
B.A., Lyon College
M.A., Louisville Presbyterian Theological Seminary
M.A., West Texas A & M
Ph.D., University of Arkansas—Fayetteville
Associate Professor of History

DIXIE KEYES, 2006
B.S.E., University of Central Arkansas
M.Ed., University of Texas, Pan-American
Ph.D., University of Houston
Associate Professor of Middle-Level Education

ALI KHALIL, 2011
B.A., Tishreen University
M.A. Arkansas State University
Instructor in Developmental Studies

SHUBHALAXMI KHER, 2008
B.Eng., Devi Ahilya University—India
M.Eng., Devi Ahilya University—India
Ph.D., Devi Ahilya University—India
Assistant Professor of Electrical Engineering

IRINA KHRAMTSOVA, 2002
B.A., Moscow State University
Ed.D., Kansas State University
Associate Professor of Psychology

CPT BRYAN KIEFFER, 2009
B.S., Excelsior College
Assistant Professor of Military Science

HYUNG TAE KIM, 2013
B.S., Korea Advanced Institute of Science and Technology
Ph.D., Korea Advanced Institute of Science and Technology
Assistant Professor of Accounting

TRACY KLOTZ, 2012
B.S., Arkansas State University
M.S., Arkansas State University
Instructor in Biological Sciences

HIDEYA KOIZUMI, 2009
B.S., Oklahoma State University
B.S., Oklahoma State University
Ph.D., University of Utah
Assistant Professor of Chemistry

KATHRYN KREUGER, 2009
B.A., Gustavus Adolphus College
M.A., University of Iowa
Ph.D., University of Iowa
Assistant Professor of English

VEENA KULKARNI, 2008
B.A., University of Delhi—India
M.A., University of Delhi—India
Ph.D., University of Maryland—College Park
Assistant Professor of Sociology

MARIKA KYRIAKOS, 2008
B.M., University of Missouri—Kansas City
M.M., University of Missouri—Columbia
D.M.A., University of Texas—Austin
Associate Professor of Music

JULIE LAMB-MILLIGAN, 2000
B.S., Arkansas State University
M.S.E., Arkansas State University
Ph.D., Kent State University
Professor of Gifted, Talented
and Creative Education

SARAH LABOVITZ, 2012
B.M., Bowling Green State University
M.M.Ed., Indiana University
Ph.D., University of Kansas
Assistant Professor of Music
—Associate Director of Bands
—Director of Athletic Bands

BRIAN K. LAIRD, 2012
B.A., Arkansas State University
M.Acc., Arkansas State University
Instructor in Accounting

AMANDA JANE LAMBERTUS, 2000
B.A., Indiana University
M.S., North Carolina State University
Ph.D., North Carolina State University
Assistant Professor of Mathematics

DIANNE LANGFORD, 2011
B.A., Harding University
M.S., Arkansas State University
D.Ed., University of Memphis
Assistant Professor and Program Coordinator
for School Counseling

ROBERT LAWRENCE LAMM, 1991
B.A., University of Oklahoma
M.A., University of Oklahoma
Ph.D., University of Oklahoma
Professor of English

GARY A. LATANICH, 1981
B.B.A., Ohio University
M.A., University of Nebraska—Lincoln
Ph.D., University of Nebraska—Lincoln
Professor of Economics

LINDA LATTING, 2008
B.S.N., Arkansas State University
M.S.N., Arkansas State University
Assistant Professor of Nursing—Mtn. Home

DAVID LAVETTER, 2004
B.S., University of Utah
M.Ed., University of Nevada
Ph.D., University of New Mexico
Associate Professor of Physical Education/
Sports Management

DIANNE LAWLER, 1989
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ed.D., George Peabody College for Teachers of Vanderbilt University
Professor of Early Childhood Education

KATARYZNA LECKY, 2012
B.A., University of Notre Dame
M.A., Boston College
Ph.D., University of Colorado at Boulder
Assistant Professor of English

AHLAM LEE, 2012 Assistant Professor of Educational Leadership
 B.S., Indiana University
 M.S., University of Wisconsin
 M.P.A., Columbia University
 Ph.D., University of Wisconsin

F. DAVID LEVENBACH, 1982 Assistant Professor of Political Science
 A.B., Franklin and Marshall College
 M.A., The Johns Hopkins University
 Ph.D., The Johns Hopkins University

MARK LEWIS, 2003 Temporary Instructor in Law
 B.S., Arkansas State University
 J.D., University of Arkansas at Little Rock

HANNE PARDOS LIMBECK, 2009 Temporary Instructor in German
 M.A., University of Mannheim-Germany

CHUNZHAO LIU, 2007 Research Assistant Professor
 —ASU Arkansas Biosciences Institute
 B.S., Shandong University—China
 M.S., Shandong University—China
 Ph.D., Institute of Process Engineering—China

ERNESTO B. LOMBEIDA, 1985 Associate Professor of Spanish
 and French
 B.A., Universidad Central, Quito, Ecuador
 M.A., University of Texas—Austin
 Ph.D., University of Texas—Austin

VALERIE LONG, 2008 Radiation Sciences Instructor/Academic Advisor
 for Health Professions
 B.R.S., Florida Hospital College of Health Sciences

ARGELIA LORENCE, 2005 Research Associate Professor of Metabolic Engineering
 B.S., UAM-I, Mexico
 M.S., UNAM, Mexico
 Ph.D., UNAM, Mexico

RICK LOTT, 1987 Professor of English
 B.S., Livingston University
 M.A., Florida State University
 Ph.D., Florida State University

DONALD MANESS, 2001 Professor of Education
 B.S., Owosso College
 M.A., Michigan State University
 Ed.D., Oklahoma State University

DENISE MANNING, 1986 Instructor in Mathematics
 B.S., Arkansas State University
 M.S., Arkansas State University

VERONICA MANNING, 2013 Temporary Assistant Professor of Radiologic Technology
 B.S., Arkansas State University
 M.S., Midwestern State University

DANIEL R. MARBURGER, 1989 Professor of Economics
 B.S., Purdue University
 M.B.A., University of Cincinnati
 Ph.D., Arizona State University

TRAVIS MARISCO, 2010 Assistant Professor of Biology
 B.S., Arkansas Technical University
 M.S., University of Arkansas
 Ph.D., University of Notre Dame

MELANIE MATA, 2012 Assistant Professor of Nursing
 B.S., University of Michigan-Flint
 M.S., Michigan State University

MITCH MATHIS, 2003 Instructor in Physical Education
 B.S., Arkansas State University
 M.S., Arkansas State University

REBECCA MATTHEWS, 2006 Associate Professor of Nursing
 B.S.N., Biola University
 M.N.S., University of Arkansas for Medical Sciences
 D.N.P., University of Tennessee—Memphis

WILLIAM B. MAYNARD, 1987 Associate Professor of History
 B.A., California State University—Long Beach
 M.A., University of Durham, England
 Ph.D., University of Durham, England

JACKIE McBRIDE, 2002 Professor of Education
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University
 Ed.D., Arkansas State University
 Ed.S., Arkansas State University

MARGARET McClAIN, 1989 Instructor in Developmental Studies
 B.A., University of Guelph
 M.A., Tennessee Technological University

KAREN McDANIEL, 2011 Assistant Professor of Management
 B.S.B.A., Union University
 M.B.A., Union University
 Ph.D., University of Memphis

MICHAEL McDANIEL, 1989 Professor of Communication Disorders
 —Director, Health Sciences Program
 B.S.E., Arkansas State University
 M.A., Memphis State University
 Ph.D., Memphis State University

ANNE McGEE, 2011 Assistant Professor of Spanish
 B.A., Western Michigan University
 M.A., Western Michigan University
 Ph.D., University of Michigan

LORETTA McGREGOR, 2005 Professor of Psychology
 —Chair, Department of Psychology and Counseling
 B.A., Ouachita Baptist University
 M.S., Emporia State University
 Ph.D., Wichita State University

MARK McJUNKIN, 1989 Assistant Professor of Teacher Education
 B.S., Northeastern Oklahoma State University
 M.Ed., Northeastern Oklahoma State University
 Ph.D., Oklahoma State University

TANYA McKAY, 2004 Associate Professor of Entomology
 B.S., Arcadia University - Nova Scotia
 M.S., University of Manitoba
 Ph.D., Kansas State University

BRINDA McKINNEY, 2012 Assistant Professor of Nursing
 A.A.S., Black River Technical College
 A.S.N., Park College
 B.S.N., Arkansas State University
 M.S.N., Walden University

JEFF McLAUGHLIN, 2004 Assistant Professor of Theatre
 B.A., Baker University
 M.F.A., University of Missouri—Kansas City

WILLIAM McLEAN, 2002 Associate Professor of Public Administration
 —Chair, Department of Political Science
 B.A., Arkansas State University
 M.A., Arkansas State University
 Ph.D., University of New Orleans

ZELDA McMURTRY, 2002 Assistant Professor of Early Childhood
 B.A., Harding University
 M.Ed., Harding University
 Ed.D., University of Memphis

FABRICO MEDINA-BOLIVAR, 2005 Associate Professor of Plant Metabolic Engineering,
B.S., Universidad Peruana Cayetano Heredia, Lima, Peru ABI/Department of Biological Sciences
Licentiate, Cayetano Heredia University and International Potato Center, Lima
Ph.D., Pennsylvania State University

MYRA MEEKINS, 2010 Instructor in Physical Therapy
B.S., Tennessee State University
Ph.D., Regis University

GREGORY MEEKS, 2003 Associate Professor of Teacher Education
B.S.E., Ouachita Baptist University
M.S.E., Henderson State University
Ph.D., University of North Texas

SUZANNE COLLIER MELESCUE, 1997 Associate Professor of Mathematics
B.S., University of Tennessee—Chattanooga
M.S., University of Tennessee—Knoxville
Ph.D., University of Tennessee—Knoxville

JOHN MELLO, 2006 Associate Professor of Marketing
B.A., Central Connecticut State University
M.P.A., University of New Haven
M.S.M., Wilmington College
Ph.D., University of Tennessee

MICHELLE MERRITT, 2012 Assistant Professor of Philosophy
B.A., University of North Florida
M.A., University of South Florida
M.A., University of South Florida
Ph.D., University of South Florida

JONATHAN MERTEN, 2012 Assistant Professor of Chemistry
B.S., University of Virginia
Ph.D., University of Florida

JIE MIAO, 1998 Professor of Mathematics
B.S., Hangzhou University-PR China
M.S., Hangzhou University-PR China
Ph.D., Michigan State University

CYNTHIA MILLER, 2005 Assistant Professor of Education
B.S., University of Tennessee - Chattanooga
M.Ed., West Georgia College
Ed.S., Georgia State University
Ph.D., Georgia State University
—Director, NEA Delta Math/Science Institute

RENEE MILLER, 2001 Assistant Professor of Nursing
B.S.N., Arkansas State University
M.S.N., Arkansas State University

ROBERT DALE MILLER, 1997 Professor of Music
B.M.E., East Texas State University
M.M.E., East Texas State University
Ph.D., Texas Tech University—Lubbock

CLYDE A. MILNER II, 2002 Professor of History
A.B., University of North Carolina—Chapel Hill
M.A., Yale University
M.Phil., Yale University
Ph.D., Yale University
—Director, Heritage Studies Ph.D. Program

DANIEL MILTON, 2012 Assistant Professor of Political Science
B.A., Brigham Young University
M.S., Florida State University
Ph.D., Florida State University

PRADEEP MISHRA, 2001 Instructor in Printing
B.S., Kanpur University—India
B.S., Arkansas State University
M.P.A., Arkansas State University
—Director, Printing Services

SUZANNE MITCHELL, 2009 Associate Professor of Mathematics
B.S., Arkansas State University
M. Ed., University of Arkansas
Ed.S., University of Missouri at Kansas City
Ph.D., University of Missouri at Kansas City

PAUL D. MIXON, 1996 Associate Professor of Electrical Engineering
B.S., Memphis State University
M.S., Memphis State University
Ph.D., Memphis State University
—Director of Electrical Engineering Program

FARHAD MOEENI, 1991 Professor of Computer & Information Technology
B.S., Tehran School of Business Administration, Iran
B.S., Arizona State University
M.S., University of Arizona
Ph.D., University of Arizona

TERRI MOODY, 2009 Assistant Professor of Nursing
B.S.N., Arkansas State University
M.S.N., Arkansas State University

ANDY MOONEYHAN, 1999 Associate Professor of Physical Education
B.S.E., Arkansas State University
M.S., Arkansas State University
Ph.D., University of Arkansas—Fayetteville

BRYAN MOORE, 1997 Professor of English
B.A., University of Arkansas at Little Rock
M.A., University of Arkansas at Little Rock
Ph.D., Texas Christian University

FARA FLOYD MOORE, 2009 Temporary Instructor in Reading
B.S.E., Arkansas State University
M.S.E., Harding University

VICENT MORENO, 2012 Assistant Professor of Spanish
B.A., Universitat de Valencia
M.A., West Virginia University
Ph.D., Indiana University

DENNIS MORRIS, 2009 Associate Professor of Agriculture/Spatial Technology
B.S., Tennessee Technological University
M.S., Purdue University
Ph.D., Purdue University

JULIET MORROW, 1997 Assistant Professor of Archaeology
B.A., Washington University—St. Louis
M.A., Washington University—St. Louis
Ph.D., Washington University—St. Louis
(U of A /Arkansas Archaeological Survey)

LARRY G. MORTON, II, 2012 Assistant Professor of Social Work
B.A., Saint Louis University
M.A., University of Missouri-St. Louis
M.S.W., Saint Louis University
Ph.D., Washington University in St. Louis

LISA MOSKAL, 2001 Instructor in Journalism
B.A., University of Memphis
M.A., University of Memphis

SUSAN MOTTS, 2011 Assistant Professor of Physical Therapy
B.H.S., University of Kentucky
M.S., Texas Woman's University
M.S., University of Louisville
Ph.D., Kent State University

MARILYN MUEHLER, 2013 Instructor in Reading
B.A., National College of Education
M.S.Ed., University of Central Arkansas

STEPHANIE MUNGLE, 2012 Instructor in Math
B.S., Southeast Missouri State University
M.S., Southeast Missouri State University

PATRICIA MURPHY, 2006 Associate Professor of Children's Literature
B.S., Mississippi State University
M.E., Middle Tennessee State University
Ed.D., Tennessee State University

WAYNE NAREY, 1990 Associate Professor of English
B.A., David Lipscomb College
M.A., New School for Social Research
Ph.D., City University of New York

MICHAEL NASH, 2008 Temporary Instructor in English
B.A., Arkansas State University
M.A., Arkansas State University

GWENDOLYN NEAL, 2008 Associate Professor of Special Education
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Ed.Spec., Union University
Ed.D., Union University

RICHARD A. NEELEY, 1987 Professor of Communication Disorders
—Chair, Department of Communication Disorders
B.S.E., Arkansas State University
M.S.P., Arkansas State University
Ph.D., University of Tennessee

NIKESHA NESBITT, 2009 Instructor in First Year Studies
Academic Advisor, First Year Studies
B.A., University of Arkansas-Pine Bluff
M.A., Arkansas State University

CINDY NICHOLS, 2005 Instructor in Special Education
B.S., Southeast Missouri State University
M.A., Southeast Missouri State University
Ed.S., Southeast Missouri State University

JOSEPH NICHOLS, 2001 Professor of Educational Leadership
B.S.E., University of Mississippi
M.A.E., Southeast Missouri State University
Ed.S., Southeast Missouri State University
Ed.D., St. Louis University

ELIZABETH NIX, 2004 Assistant Professor of Nursing
B.S.N., Arkansas State University
M.S.N., Arkansas State University

SARATH NONIS, 1991 Professor of Marketing
B.A., University of North Texas
M.B.A., University of North Texas
Ph.D., University of North Texas

BILINDA LANE NORMAN, 2010 Assistant Professor of Nursing
B.S.N., Arkansas State University
M.S.N., Arkansas State University

CPT TIMOTHY NORMAN, 2008 Assistant Professor of Military Science
B.S., Arkansas State University

JOHN HARLAN NORRIS, 2008 Assistant Professor of Art
B.A., Centre College
M.F.A., Louisiana State University

PAUL NUNIS, 2012 Temporary Instructor in Criminology/Sociology
A.S., Tidewater Community College
B.A., St. Leo University
M.P.A., Troy State University

LISA OCHS, 1999 Associate Professor of Counseling
B.A., Saint Mary of the Plains College
M.A., Fort Hays State University
M.S., Emporia State University
J.D., Washburn University School of Law
Ph.D., University of Arkansas

REBECCA OLIVER, 2007 Director of Honors College
B.S., Truman State University
M.A., Truman State University

TIMOTHY OLIVER, 2007 Associate Professor of Music
—Director of Bands
—Coordinator of Wind and Percussion Studies
B.A.M., Truman State University
M.A.M., Truman State University
M.A.E., Truman State University
Ph.D., Florida State University

JOYCE OLUSHOLA, 2013 Instructor in Sports Management
B.S., University of Florida
M.Ed., Temple University

ALLYN ONTKO, 2008 Associate Professor of Chemistry
B.S., University of Minnesota
M.S., University of Wyoming
Ph.D., Iowa State University

JOHN OWEN, 2000 Associate Professor of Music
B.A., Arkansas Tech University
M.M., University of Illinois at Urbana/Champaign
D.M.A., University of Illinois at Urbana/Champaign

LINA OWENS, 1999 Associate Professor of Teacher Education
B.A., Harding University
M.Ed., University of Mississippi
Ph.D., University of Mississippi

RUTH OWENS, 1997 Associate Professor of Spanish
B.A., Longwood College
M.A., West Virginia University
Ed.D., West Virginia University

SANGSHIN PAE, 2013 Assistant Professor of Accounting
B.A., Kyung-Hee University
M.B.A., Purdue University
Ph.D., Purdue University

ARIANNE PAIT, 2002 Assistant Professor of Communication Disorders
B.S., Arkansas State University
M.A., University of North Carolina at Greensboro

PO-LIN PAN, 2009 Assistant Professor of Radio-Television
B.A., Shin Hsin University-Taiwan
M.A., Bowling Green University
Ph.D., University of Alabama

MICHAEL PANIGOT, 1997 Associate Professor of Chemistry
B.S., University of Nebraska at Omaha
M.S., Indiana University
Ph.D., Case Western Reserve University

DONNA PARKER, 2007 Instructor in Social Work/Director of Field Education
B.A., Arkansas State University
M.S.W., University of Tennessee—Memphis

MARY PARKER, 2008 Temporary Instructor in English
B.S., University of Arkansas—Pine Bluff
M.A., Arkansas State University

THOMAS J. PARSONS, 1984 Professor of Civil Engineering
—Director of Civil Engineering Program
B.E., Youngstown State University
M.S., Youngstown State University
Ph.D., West Virginia University

MARIE PATTON, 1998
B.S.E., Arkansas State University
M.A., Arkansas State University
Instructor in English

WILLIAM H. PAULSEN, 1990
B.A., Washington University
M.A., Washington University
Ph.D., Washington University
Professor of Mathematics

ROBIN L. PAYNE, 1986
B.A., Brigham Young University
M.S.L., Brigham Young University
Bibliographic Instruction Librarian

WILLIAM C. PAYNE, 1988
B.S., Ohio University
B.S., Loma Linda University
M.S., Loma Linda University
Assistant Professor of Clinical Lab Sciences

AMY PEARCE, 2001
B.S., Arkansas State University
Ph.D., Australian National University
Associate Professor of Psychology

PATRICK PECK, 2001
B.A., Eastern Illinois University
M.C.C.C., Idaho State University
Ed.D., Idaho State University
Associate Professor of Counseling

DENNIS PERKEY, 2003
B.S., Arkansas State University
M.S., Southern Illinois University at Carbondale
Ed.D., Arkansas State University
Assistant Professor of Physical Education/Athletic Training

DEBORAH PERSELL, 2001
B.S.N., University of Kansas—Kansas City
M.S.N., University of Missouri—Kansas City
Ph.D., University of Tennessee—Knoxville
Professor of Nursing

CHRISTOPHER PETERS, 2013
B.A., University of North Texas
M.A., Western Carolina University
Ph.D. University of Arkansas
Assistant Professor of Psychology

RYAN PETERSON, 2010
B.S., Southeast Missouri State University
Ph.D., University of Missouri-Columbia
Assistant Professor of Accounting

JUDITH PFRIEMER, 1992
B.S., Alfred University
M.S.N., Arkansas State University
Assistant Professor of Nursing

MELODIE PHILHOURS, 1985
B.S., Arkansas State University
M.B.A., Arkansas State University
Ed.D., Arkansas State University
Associate Professor of Marketing
—Interim Chair, Department of Management and Marketing

CRISTY PHILLIPS, 2012
B.S., Arkansas State University
M.S., University of Central Arkansas
Ed.D., Arkansas State University
Assistant Professor of Physical Therapy

GREG PHILLIPS, 2002
B.A., University of Kentucky
Ph.D., University of Kentucky
Professor of Agriculture
—Director, Agricultural Research Program

COLLIN PILLOW, 1998
B.S., Arkansas State University
M.S.M.C., Arkansas State University
Instructor in Radio-Television

ASHER PIMPLETON 2012
B.A., Central Michigan University
M.A., Central Michigan University
Ph.D., Southern Illinois University
Assistant Professor of Counseling

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

CLAUDIO PINTO, 2013
B.S., Catholic University of Santa Maria
M.A., West Virginia University
Temporary Instructor in Spanish

KIM PITTCOCK, 1998
B.S., Texas Tech University
M.S., University of Tennessee
Ph.D., Texas Tech University
Associate Professor of Horticulture
—Director, Agricultural Studies Program

JEFFREY R. PITTMAN, 1983
B.S., Northern Illinois University
J.D., University of Iowa
M.B.A., University of Iowa
Professor of Business Law

PHYLLIS E. POBST, 1991
B.A., Gonzaga University
M.T.S., Harvard Divinity School
M.A., Centre for Mediaeval Studies, University of Toronto
M.S.L., Pontifical Institute of Mediaeval Studies, University of St. Michael's College
Ph.D., Centre for Mediaeval Studies, University of Toronto
Associate Professor of History

ANDREW POLK, 2013
B.A., Lipscomb University
M.A., Hazelp School of Theology
M.A., Yale Divinity School
Instructor in History

DWAYNE POWELL, 2007
B.S., Arkansas State University
M.B.A., Arkansas State University
Instructor in Accounting

JOHN PRATTE, 2006
B.S., University of Texas—Austin
Ph.D., University of Colorado—Boulder
Professor of Physics
—Dean, College of Sciences and Mathematics

JAKE QUALLS, 2011
B.S., Arkansas State University
M.S., Arkansas State University
Instructor in Computer Science

TINA QUINN, 1997
B.S., Arkansas State University
M.B.A., Arkansas State University
Ph.D., University of Mississippi
Professor of Accounting

BRENDA RANDLE, 2006
B.A., Mississippi Valley State University
M.A., Arkansas State University
S.C.C.T., Arkansas State University
Ed.D., Arkansas State University
Assistant Professor of Communication Studies

THOMAS N. RATLIFF, 2012
B.A., Western Kentucky University
M.A., Marshall University
Ph.D., Virginia Tech
Assistant Professor of Criminology

BRAD RAWLINS, 2012
B.A., Washington State University
M.A., University of Alabama
Ph.D., University of Alabama
Professor of Journalism
—Dean of Media and Communication

CATHERINE REESE, 1997
B.A., Rhodes College
M.P.A., University of Memphis
D.P.A., University of Georgia
Professor of Public Administration

SCOTT W. REEVE, 1994
B.A., Augsburg College
Ph.D., University of Minnesota
Professor of Chemistry

CLINT RELYEA, 1999
B.S., Arkansas State University
M.B.A., Arkansas State University
Ed.D., Arkansas State University
Associate Professor of Management
—Coordinator, International Business Degree

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

YIFENG REN, 2013 Instructor in Technology
 B.S., Huazhong University of Science and Technology
 M.S., Southeast Missouri State University

THOMAS RISCH, 2001 Professor of Animal Ecology
 B.S., Stockton State College
 M.S., Frostburg State University
 Ph.D., Auburn University
 —Director, Environmental Sciences Ph.D. Program
 —Chair, Department of Biological Sciences

LARZ ROBERTS, 2004 Instructor in Radio-Television
 B.S., Florida A&M University
 M.A., University of Mississippi
 M.A., University of Iowa

JOHN ROBERTSON, 2000 Professor of Business Law
 B.A., University of Tennessee—Knoxville
 M.B.A., Vanderbilt University
 Master of Laws, University of Alabama—Tuscaloosa
 J.D., Vanderbilt University
 —Chair, Department of Accounting
 —Chair, Department of Computer and Information Technology

PATRICIA ROBERTSON, 2005 Associate Professor of Business Law
 B.A., Vanderbilt University
 D.J., Vanderbilt University
 —Chair, Department of Economics and Finance

ROBERT ROBINETTE, 2009 Librarian
 B.A., Arkansas State University
 M.S., University of Tennessee—Knoxville

C. WILLIAM ROE, 2000 Professor of Management
 B.S., Mississippi State University
 M.B.A., Mississippi State University
 D.B.A., Mississippi State University
 —Director of COB Graduate Programs

VIRGINIE ROLLAND, 2011 Assistant Professor of Quantitative Wildlife Ecology
 B.S., University Lyon I, France
 M.S. Population and Ecosystem Biology, University Lyon I, France
 M.S. Ecology Evolution Biometry, University Lyon I, France
 Ph.D., University Paris VI, France

JEANNEAN ROLLINS, 1991 Associate Professor of Radiologic Sciences
 B.S., Northeast Louisiana University
 M.R.C., Arkansas State University

CAROL ANN ROSS, 1997 Associate Professor of Teacher Education
 B.S.E., Arkansas State University
 M.C.S., University of Mississippi
 Ed.D., University of Memphis

DANIEL F. ROSS, 1972 Professor of Music
 B.M.E., Arkansas State University
 M.S.E., Arkansas State University
 D.A.Mus., University of Mississippi

DENNIS CHARLES ROUSEY, 1978 Professor of History
 B.A., University of Mississippi
 M.A., Cornell University
 Ph.D., Cornell University

WILLIAM H. ROWE, 1977 Professor of Art
 B.A., Millersville State College
 M.F.A., University of Nebraska

PAULA RUBY, 2001 Associate Professor of Computer & Information Technology
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University
 Ed.D., University of Tennessee—Knoxville

RALPH RUBY, JR., 1979 Professor of Computer & Information Technology
 B.S., University of Tennessee
 M.S., University of Tennessee
 Ed.D., University of Missouri

DAVID A. SAARNIO, 1993 Professor of Psychology
 B.A., Florida Atlantic University
 M.A., Florida Atlantic University
 Ph.D., University of Michigan

AMANY SALEH, 1997 Professor of Education
 B.Sc., Cairo University
 M.A., University of Alabama
 Ph.D., University of Alabama

LAWRENCE MARK SALINGER, 1990 Associate Professor of Sociology
 B.A., University of California—Irvine
 M.A., Indiana University
 Ph.D., Washington State University—Pullman
 —Chair, Department of Criminology, Sociology and Geography

JOHN J. SALVEST, 1989 Professor of Art
 A.B., Duke University
 M.A., University of Iowa
 M.F.A., University of Iowa

JOSEPH SARTORELLI, 1985 Associate Professor of Philosophy
 B.A., University of Chicago
 B.Phil., Oxford University
 M.S., Wright State University
 Ph.D., Oxford University

LAQUITA SAUNDERS, 2001 Assistant Professor of History
 B.G.S., Arkansas State University
 M.A., Arkansas State University
 J.D., University of Arkansas at Little Rock

BRETT SAVARY, 2006 Research Professor of Protein Chemistry
 B.S., Iowa State University
 M.S., University of Tennessee
 Ph.D., Pennsylvania State University

JOHN SAWYER, 2001 Advanced Placement Director—ELCSE
 Temporary Instructor in Educational Leadership and Teacher Education
 B.M.E., Arkansas State University
 M.M.E., Arkansas State University

LISA SCHAFER, 2005 Assistant Professor of Nursing
 —Site Coordinator, MSCC-West Memphis
 B.S.N., Memphis State University
 M.S.N., University of Tennessee

ROBERT L. SCHICHLER, 1989 Professor of English
 B.A., State University College at Geneseo
 M.A., State University College at Geneseo
 Ph.D., State University Center at Binghamton

ANGELA SCHMIDT, 2006 Associate Professor of Nursing
 —Associate Dean, Special Projects
 —Director, MSN Program
 B.S.N., Arkansas State University
 M.N.S., University of Arkansas Medical Sciences
 Ph.D., University of South Africa

SARAH SCOTT, 2008 Instructor in Communication Studies
 B.A., University of North Carolina
 M.A., Arkansas State University

GIDGET R. SCRIVNER, 1994 Instructor in Mathematics
 —CSM Computer System Manager
 B.S., Arkansas State University
 M.S., Arkansas State University

SANDRA B. SEAY, 1967 Assistant Professor of Music
 B.S.E., University of Missouri
 M.A., University of Missouri

RICHARD SEGALL, 1998 Professor of Computer & Information Technology
 B.S., Rensselaer Polytechnic Institute
 M.S./M.S., Rensselaer Polytechnic Institute
 Ph.D., University of Massachusetts at Amherst

ILWOO SEOK, 2010
B.S., Hanyang University
M.S., Hanyang University
Ph.D., University of California
Assistant Professor of Mechanical Engineering

JOHN SEYDEL, 1995
B.S., University of Colorado
M.B.A., Boise State University
Ph.D., Texas A&M University
Professor of Computer & Information Technology

RAJESH SHARMA, 2009
B.S., St. Johns' College-India
M.S., St. Johns' College-India
M.S., University of Florida-Gainesville
Ph.D., University of Illinois
Assistant Professor of Renewable Energy Technology

DEBBIE SHELTON, 2005
B.S.N., Arkansas State University
M.S.N., Arkansas State University
D.N.P., University of Tennessee
Assistant Professor of Nursing

APRIL SHEPPARD, 2005
B.A., Arkansas State University
B.F.A., Arkansas State University
M.L.S., Texas Women's University
Assistant Library Director

PAUL S. SHERMAN, 1988
B.S., Oakland University
M.S., Oakland University
Ph.D., Oakland University
Associate Professor of Mechanical Engineering

DORIS SHEWMAKER, 2010
A.B., San Diego State University
M.A., Biola University
Instructor in English as a Second Language

AMY JO SHOLLENBARGER, 2011
B.A., Harding University
M.C.D., Arkansas State University
Assistant Professor of Communication Disorders

CALVIN R. SHUMWAY, 1991
B.S., Northern Illinois University
M.S., Southern Illinois University—Carbondale
Ph.D., Texas A&M University
Associate Professor of Agronomy

AGNETA E. SIBRAVA, 1994
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Instructor in Physical Education

PAUL SIKKEL, 2009
B.A., University of California-San Diego
M.S., Oregon State University
Ph.D., Oregon State University
Assistant Professor of Biology

JOYCE SIMMONS, 2007
B.S.N., Harding University
M.S.N., Harding University
Assistant Professor of Nursing —ASU-Beebe

BOBBY W. SIMPSON, 1983
B.F.A., Arkansas State University
M.F.A., University of Mississippi
Professor of Theatre
—Chair, Department of Theatre

MOLLY SIMPSON, 1991
B.F.A., Arkansas State University
M.A., Arkansas State University
M.F.A., University of Southern Mississippi
Professor of Theatre

JOLLEAN SINCLAIRE, 2007
B.B.A., University of Memphis
M.B.A., University of Memphis
Ph.D., University of Memphis
Associate Professor of Computer and
Information Technology

JACQUES SINGLETON, 2008
B.S. University of Southern Mississippi
M.S.W., University of Southern Mississippi
Ed.D., University of Memphis
Associate Professor of Special Education

KRYSTAL SIROTA, 2013
B.S. Arkansas State University
M.B.A., Arkansas State University
Instructor in Business Communication

GANAPATHY SIVAKUMAR, 2007
B.S., Ayya Nadar Janaki Ammal College—India
MS., Ayya Nadar Janaki Ammal College—India
Ph.D., Bharathidasan University—India
Research Assistant Professor
—ASU Arkansas Biosciences Institute

THILLAINATARAJAN SIVAKUMARAN, 2012
Ph.D., University of Tennessee-Knoxville
M.S., University of Tennessee-Knoxville
B.S., University of Washington
Assistant Professor of Educational Leadership
—Dean of Education,

PHYLLIS SKORGA, 1998
B.S.N., University of Tennessee
M.S., University of Tennessee
Ph.D., University of Kansas
Professor of Nursing

STACEY SLOAS, 2005
B.S.E., Arkansas State University
B.S., Arkansas State University
Assistant Professor of Physical Therapy

DAVID SMITH, 2011
B.S., Harding University
B.S., University of Central Arkansas
M.S., University of Central Arkansas
Instructor in Physical Therapy

JUSTIN SMITH, 2012
B.S., Arkansas State University
M.S., Arkansas State University
Temporary Instructor in Mathematics

KRISTA SNELLGROVE, 2004
B.S.N., Arkansas State University
M.S.N., Arkansas State University
Associate Professor of Nursing

VICTORIA SPANIOL, 1989
B.A., West Virginia University
M.A., University of Southwestern Louisiana
Ph.D., University of Southwestern Louisiana
Assistant Professor of English

MICHAEL P. SPIKES, 1987
B.A., Mississippi State University
M.A., Indiana University
Ph.D., Indiana University
Professor of English

MALATHI SRIVATSAN, 2003
B.S., Madras University—India
M.S., Jawaharlal Institute—India
Ph.D., Institute of Medical Sciences & Research-India
Professor of Molecular Biology
—Director, Molecular Biosciences Ph.D. Program
—Assistant Director, ABI

ANNETTE S. STACY, 1982
B.S.N., Vanderbilt University
M.S.N., University of Virginia
Associate Professor of Nursing
—Director, B.S.N. Program

CURTIS E. STEELE, 1978
B.F.A., California College of Arts and Crafts
M.A., California State University—Chico
M.F.A., Memphis State University
Professor of Art
—Chair, Department of Art

ERIN STEGALL, 2013
B.S.N., Arkansas State University
M.S.N., Walden University
Assistant Professor of Nursing

NATHAN STEPHENS, 2013
B.S., Black Hills State University
M.S., Arkansas State University
Temporary Instructor in Biology

JASON STEWART, 1998
B.S., Arkansas State University
M.S., Texas A&M University
Instructor in Agricultural Engineering

PAULA STEWART-LIMA, 2002
B.S.E., University of Missouri—Columbia
M.S.E., Arkansas State University
Ph.D., University of Arkansas-Fayetteville
Assistant Professor of Teacher Education
—ASU-Mountain Home

JIM L. STILLWELL, 1994
B.S., Western Illinois University
M.S., Western Illinois University
P.E.D., Indiana University
Professor of Physical Education
—Chair, Department of Health, Physical
Education, and Sport Sciences

GERALD STRAIT, 2013
B.A., University of South Carolina
M.A., University of South Carolina
Ph.D., University of South Carolina
Assistant Professor of Counseling

VICKI STRIPLING, 2005
B.S.E., Arkansas State University
M.S.E., Arkansas State University
Instructor in Developmental Reading
—First Year Studies

WILLIAM R. (RICK) STRIPLING, 2011
B.A., University of Florida-Tampa
M.S., Arkansas State University
Ed.S., Arkansas State University
Ph.D., Southern Illinois University-Carbondale
Associate Professor of Educational Leadership

HUBERT B. STROUD, 1968
B.S., Austin Peay State University
M.A., Memphis State University
Ph.D., University of Tennessee
Professor of Geography

HUNG-CHI SU, 2003
B.S., National Cheng-Kung University
M.S., Oklahoma State University
Ph.D., Oklahoma State University
Associate Professor of Computer Science

ANDREW T. SUSTICH, 1991
B.S., University of Illinois—Urbana-Champaign
M.S., University of Illinois—Urbana-Champaign
Ph.D., University of Illinois—Urbana-Champaign
Professor of Physics
—Vice Provost for Research and Graduate Studies

AHMAD SYAMIL, 2000
B.S., Bandung Institute of Technology—Indonesia
M.B.A., University of Houston
Ph.D., University of Toledo
Associate Professor of Computer & Information Technology

ALEXANDER SYDORENKO, 1972
B.S., University of Illinois—Chicago
M.A., University of Illinois—Chicago
Ph.D., University of Illinois—Urbana
Professor of History

DANIEL TACKE, 2013
B.M., Oberlin Conservatory of Music
M.A., University of California at San Diego
Ph.D., University of California at San Diego
Assistant Professor of Music Composition

GABRIEL TAIT, 2013
B.A., Slippery Rock University
M.A., Asbury Theological Seminary
Instructor in Journalism

RICHARD W. TAYLOR, 1984
B.S., Arkansas State University
M.B.A., University of Arkansas—Fayetteville
Ph.D., Louisiana Tech University
Professor of Finance

TINA TEAGUE, 1988
B.S., University of Arkansas—Fayetteville
M.S., University of Arkansas—Fayetteville
Ph.D., Texas A&M University
Professor of Plant Science/Entomology

KEAT TEOH, 2007
B.S., University of Victoria—Canada
M.S., Worcester Polytechnic Institute
Ph.D., Texas A&M University
Research Assistant Professor
—ASU Arkansas Biosciences Institute

PHILIP TEW, 2009
B.B.A., University of Mississippi
M.B.A., University of Mississippi
M.T., University of Mississippi
J.D., University of Mississippi
Ph.D., University of Mississippi
Assistant Professor of Finance

MATTHEW THATCHER, 2008
B.A., University of California—Berkeley
M.A., University of Iowa
Ph.D., University of Iowa
Assistant Professor of Communication Studies

BONNIE L. THRASHER, 1993
B.S., Mississippi University for Women
M.A., University of Alabama
Instructor in Journalism

KELLY TIDWELL, 2012
M.S., University of Central Arkansas
B.S., University of Central Arkansas
Assistant Professor of Nutritional Sciences

HENRY TORRES, 2002
B.S., Texas Tech University
M.B.A., Henderson State University
Instructor in Information Technology
Chief Information Office

PAM TOWERY, 2011
B.S., Mississippi University for Women
M.S., Mississippi University for Women
Ed.S., Mississippi University for Women
Assistant Professor of Nutritional Sciences
—Program Director

RONALD W. TOWERY, 1988
B.S., Mississippi State University
M.Ed., Mississippi State University
Ed.D., Mississippi State University
Professor of Teacher Education

STANLEY E. TRAUTH, 1984
B.S., University of Arkansas—Fayetteville
M.S., University of Arkansas—Fayetteville
Ph.D., Auburn University
Professor of Zoology

MARCUS TRIBBETT, 2005
B.A., Harvard University
M.A., Northern Arizona University
Ph.D., Washington State University
Instructor in English

FEREBEE TUNNO, 2009
B.S., Rhodes College
M.S., University of Memphis
Ph.D., Clemson University
Assistant Professor of Statistics

ROLLIN TUSALEM, 2008
B.S., Grand Canyon University
M.A., Ball State University
Ph.D., University of Missouri—Columbia
Associate Professor of Political Science

MONIKA ULRICH, 2009
B.S., Brigham Young University
M.A., University of Arizona
Ph.D., University of Arizona
Assistant Professor of Sociology

LAURI UMANSKY, 2012
B.A., University of Massachusetts-Boston
M.A., Brown University
Ph.D., Brown University
Professor of History
—Dean of Humanities and Social Sciences

YVONNE UNNOLD, 2008
 B.A., University of California
 M.A., University of Washington—Seattle
 Ph.D., University of Washington—Seattle
 Associate Professor of Languages
 —Chair, Department of World Languages and Cultures

GABRIELA VARELA-SANCHEZ, 2008
 B.A., Universidad de Huelva
 M.A., Arkansas State University
 Instructor in Spanish

KIMBERLY VICKREY, 1999
 B.F.A., Delta State University
 M.F.A., University of Memphis
 Associate Professor of Graphic Design

KRISTIE VINSON, 2012
 B.S., Arkansas State University
 M.S., Arkansas State University
 Assistant Professor of Physical Therapy

CLINTON E. VOGUS, 2012
 B.S., Marquette University
 M.S., Case Western Reserve University
 M.B.A., Marquette University
 Temporary Instructor in Management

LISA WAGGONER, 2008
 B.S.N., Arkansas State University
 M.S.N., Arkansas State University
 Assistant Professor of Nursing

DEBRA J. WALDEN, 1988
 B.A., Southwestern at Memphis
 B.S.N., St. Louis University
 M.N.Sc., University of Arkansas for Medical Sciences
 Associate Professor of Nursing

LEAH WALKER, 2001
 B.S., Arkansas State University
 M.S., Arkansas State University
 Instructor in Engineering

PATRICIA WALLS, 2001
 B.A., Arkansas State University
 M.S.W., University of Arkansas—Little Rock
 Ph.D., Jackson State University
 Associate Professor of Social Work

STACY WALZ, 2011
 B.S., UW-Madison
 M.S., UW-Madison
 Ph.D., UW-Madison
 Assistant Professor of Clinical Lab Sciences
 —Chair, Department of Clinical Lab Sciences

RICHARD PIERCE WANG, 1988
 B.A., State University of New York—Fredonia
 M.P.A., Wayne State University
 Ph.D., Wayne State University
 Associate Professor of Political Science

BARBARA WARNER, 2009
 B.S., University of Hawaii
 M.S., University of Kansas
 M.A., Johns Hopkins University
 Ph.D., University of Arkansas
 Assistant Professor of Political Science

JIM WASHAM, 1991
 B.S., Arkansas State University
 M.B.A., Arkansas State University
 Ph.D., University of Mississippi
 Associate Professor of Finance
 —Interim Dean, College of Business

DAWN WEATHERFORD, 2013
 B.S., Oklahoma State University
 M.S., Texas A & M University
 Ph.D., Texas A & M University
 Assistant Professor of Psychology

STEVEN WEIMER, 2009
 B.S., Frostburg State University
 M.A., Bowling Green State University
 Ph.D., Bowling Green State University
 Assistant Professor of Philosophy

NATHAN WELLS, 2009
 B.S., Arkansas State University
 M.S., New Mexico State University
 Assistant Professor of Equine Management Agriculture

JOSEPHINE WELSH, 2013
 B.A., Muhlenberg College
 M.A., The College of William and Mary in Virginia
 Ph.D., Virginia Commonwealth University
 Assistant Professor of Educational Assessment, Evaluation
 and Research
 —Director of Assessment

THOMAS WHARTON, 2012
 B.S., Arkansas State University
 M.S., Arkansas State University
 Instructor in Math

AMANDA WHEELER, JR, 2010
 B.S., Arkansas State University
 M.S., Marshall University
 Ph.D., Oklahoma State University
 Assistant Professor of Physical Education

RICK WHITE, 2008
 B.S., Arkansas State University
 M.S., University of Missouri—Rolla
 Instructor in Industrial Technology

TRACY WHITE, 1999
 B.S., University of Central Arkansas
 Associate Professor of Radiologic Sciences

SUSAN R. WHITELAND, 2012
 B.A., North Texas State University
 M.A., University of North Texas
 Ph.D., University of North Texas
 Assistant Professor of Art Education

WYNONA WIGGINS, 1993
 B.S.N., Arkansas State University
 M.S.N., University of Tennessee—Memphis
 Ed.D., Arkansas State University
 Associate Professor of Nursing

BARBARA WIKE, 1999
 B.S.N., University of Arkansas—Monticello
 M.S.N., University of Central Arkansas
 Assistant Professor of Nursing - Mountain Home

LANCE WILCOX, 2009
 B.S.N., Arkansas State University
 M.S.N., Arkansas State University
 Assistant Professor of Nursing

SARAH WILKERSON-FREEMAN, 1996
 B.A., University of Iowa
 M.A., University of North Carolina
 Ph.D., University of North Carolina
 Professor of History

MELISSA K. WILKINSON, 2010
 B.A., Western Illinois University
 M.F.A., Southern Illinois University-Carbondale
 Assistant Professor of Art

WAYNE WILKINSON, 2013
 B.A., Mount Vernon Nazarene College
 M.A., Ball State University
 M.A., Northern Illinois University
 Ph.D., Northern Illinois University
 Assistant Professor of Psychology

CARMEN WILLIAMS, 2003
 B.S.E., Arkansas State University
 M.A., Arkansas State University
 Instructor In English

DIANA WILLIAMS, 1999
 B.A., Southern Methodist University
 M.A., University of North Texas—Denton
 Ed.D., University of Nevada—Las Vegas
 Associate Professor of Teacher Education

GAYLE WILLIAMS, 1991
 B.A., Arkansas State University
 M.A., Arkansas State University
 Ph.D., University of Mississippi
 Instructor in English

CHRISTOPHER WILSON, 2009 Assistant Professor of Music
 B.M.E., University of Arkansas-Fayetteville
 M.M., University of Arkansas-Fayetteville
 D.M.A., Catholic University of America

KAYLEIGH WILSON, 2013 Temporary Assistant Professor of Disaster Preparedness
 and Emergency Management
 B.S., Arkansas State University
 M.S., Arkansas State University

PAIGE WIMBERLEY, 1997 Associate Professor of Nursing
 B.S.N., Arkansas State University
 M.S.N., Arkansas State University
 Ph.D., Saint Louis University

RAYMOND WINTERS, 1995 Associate Professor of Radiologic Sciences
 —Chair, Department of Medical Imaging and Radiation Sciences
 B.A., Harding University
 B.S., Midwestern State University
 M.S., Amber University

STANLEY WOOLDRIDGE, 2000 Instructor in Mathematics
 B.S.E., Arkansas State University
 M.S., Arkansas State University

LaTOSHA WOODS, 2005 Instructor in Reading
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University

AMBER WOOTEN, 2010 Assistant Professor of Medical Imaging and Radiation Services
 B.S., Arkansas State University
 M.S., Arkansas State University

KATHLEEN WREN, 2013 Associate Professor of Nurse Anesthesia
 —Associate Clinical Coordinator
 B.S., Union College
 M.S., Rush University
 Ph.D., University of Nebraska-Lincoln

TIMOTHY WREN, 2013 Associate Professor of Nursing
 B.S., Union College
 M.S., Rush University
 D.P.N., University of Tennessee

PEGGY WRIGHT, 1998 Instructor in Geography
 —Coordinator, Delta Studies Center
 B.A., Arkansas State University
 M.P.A., Arkansas State University

JIANFENG XU, 2008 Associate Professor of Biochemical Engineering—ABI/Agriculture
 B.S., Dalian University of Technology—China
 Ph.D., Dalian University of Technology—China

KAREN L. YANOWITZ, 1996 Associate Professor of Psychology
 B.A.S., Brandeis University
 M.S., University of Massachusetts
 Ph.D., University of Massachusetts

CATHY YOUNG, 2011 Assistant Professor of Nursing
 A.S., Mississippi County Community College
 B.S., Webster University
 M.S., University of Missouri
 D.N.Sc., University of Tennessee

CHARLOTTE YOUNG, 1994 Professor of Nursing
 B.S.N., University of South Carolina
 M.S.N., Catholic University
 M.S., The Citadel
 Ph.D., Syracuse University

NANCY YOUNG, 1966 Instructor in English
 B.S.E., Arkansas State University
 M.S.E., Arkansas State University

SHIGUANG YU, 2009 Research Assistant Professor of Biology/Immunologist/ABI
 B.S., Shandong University—China
 M.Sc., Shandong University—China
 Ph.D., Shandong University—China

LILY ZENG, 2004 Associate Professor of Radio-Television
 B.A., Hunan Normal University—China
 M.A., Zhongshan University—China
 Ph.D., Southern Illinois University

BIN ZHANG, 2000 Associate Professor of Physics
 B.S., Peking University
 M.S., Columbia University
 M.Ph., Columbia University
 Ph.D., Columbia University

LIANGMIN ZHANG, 2008 Assistant Professor of Physics
 B.S., Qufu Normal University—China
 M.S., Shanxi Normal University—China
 Ph.D., Shandong University—China

QINGYU ZHANG, 2001 Associate Professor of Computer & Information Technology
 B.E., Tsinghua University
 B.A., Tsinghua University
 M.E., Tsinghua University
 Ph.D., University of Toledo

GUO-LEI ZHOU, 2010 Assistant Professor of Molecular Biology
 B.S., China Agricultural University
 M.S., China Agricultural University
 M.S., Shimane University
 Ph.D., Tottori University

HONG ZHOU, 2006 Assistant Professor of Statistics
 B.S., Hua Zhong University of Science and Technology of China
 M.S., Hua Zhong University of Science and Technology of China
 M.S., University of Memphis
 Ph.D., University of Memphis

Emeriti, 2013-2014

Robert F. Abbott, 1967-1991	Emeritus Professor of Counselor Education and Psychology
Cindy Albright, 1976-2007	Emeritus Assistant Professor of Physical Education
Ed Alexander, 1994-2006	Emeritus Assistant Professor of Music
Robin Anderson, 1976-2012	Emeritus Professor of History
Nancy Bacot, 1972-2013	Emeritus Instructor in Teacher Education
Thomas Baglan, 1980-2011	Emeritus Professor of Communication Studies
T.R. Baker, 1966-1992	Emeritus Associate Professor of Art Education
Larry Ball, 1970-2001	Emeritus Professor of History
Eugene A. Ballard, 1964-1990, deceased	Emeritus Assistant Professor of Printing
Rosalie Barber, 1969-2000	Emeritus Instructor in Physical Education
Edmund L. Barnette, 1967-1993	Emeritus Professor of Counselor Education and Psychology
Beverly Bartels, 1970-1998	Emeritus Associate Professor of Nursing
Harvey Barton, 1967-1991, deceased	Emeritus Professor of Zoology
Robert Baum, 1993-2012	Emeritus Associate Professor of Spanish
Ovid Bayless, 1974-1998	Emeritus Professor of Speech Communication and Theatre Arts Chair, Department of Speech Communication and Theatre Arts
John K. Beadles, 1968-1993, deceased	Emeritus Professor of Biology and Dean, Graduate School
J. Edward Bennett, 1963-1997	Emeritus Professor of Chemistry
John B. Bennett, 1968-1990, deceased	Emeritus Associate Professor of Mathematics
Thomas D. Bishop, 1970-2002	Emeritus Professor of Mathematics and Computer Science
Loretta Bookout, 1987-1997	Emeritus Instructor in Elementary Education
Carolyn Bowers, 1975-1997	Emeritus Associate Professor of Early Childhood Education
Robert Bowman, 1970-1999	Emeritus Professor of Mathematics
Willis Brenner, 1985-1998	Emeritus Documents Librarian
Gloria Bridges, 2001-2011	Emeritus Instructor in Freshman Studies
Lew Brinkley, 1969-2005	Emeritus Professor of Agricultural Economics
Roger Buchanan, 1992-2012	Emeritus Professor of Zoology
David Burgess, 1973-1998	Emeritus Associate Professor of Health Education
Julia Burkart, 1984-1996	Emeritus Associate Professor of Social Work
James Burleson, 1963-2000, deceased	Emeritus Professor of English
Alta Burns, 1961-1996	Emeritus Assistant Professor of Physical Education
John L. Burns, 1969-1994	Emeritus Professor of Counselor Education
Sandra Burns, 1984-1996	Emeritus Assistant Professor of Business Law
William Byrd, 1955-1993, deceased	Emeritus Associate Professor of Biology
Nellie T. Caffery, 1968-1989, deceased	Emeritus Instructor in Nursing
Martha Caldwell, 1985-1993	Emeritus Assistant Professor of Nursing
Charles Carr, 1975-2012	Emeritus Professor of Philosophy
Richard Carvell, 1971-2008	Emeritus Assistant Professor of Radio-Television

The bulletin can be accessed at <http://www.astate.edu/a/registrar/students/>

James Cathey, 1986-2003	Emeritus Instructor in Radio-Television
Tom Chaffee, 1968-2010	Emeritus Professor of Art
William G. Chance, 1965-1990, deceased	Emeritus Professor of Education
David Chittenden, 1967-2000, deceased	Emeritus Professor of Chemistry
Ruby Chittenden, 1968-2000	Emeritus Director of the COB Advising Center
Nola Christenberry, 1988-2012	Emeritus Associate Professor of Counseling
William Clements, 1971-2011	Emeritus Professor of English
Daniel Cline, 1992-2010, deceased	Emeritus Professor of Education
