

COPE
Minutes, Summer 2011
July 22 & August 10

July 22nd – COPE committee members approved the replacement of ELAD 7051-3 Special Problems in Education Administration with ELAD 7473 Field Study in the Ed. S. in Educational Leadership. This proposal passed with 12 votes in favor of.

The change was effective July 2011.

Justification: The graduate school dean noted that the special problems course should not be used for materials that were consistent from semester to semester. Since this course was dedicated to required and optional field experiences, the field study course is a more appropriate course to utilize.

August 10th – COPE committee members voted to approve the addition of a thesis option to the new Reading Specialist degree. All members who voted were in favor of the addition.

This addition was inadvertently left off when the program (and all coursework required) was approved in the spring.
